The U.S./Canadian foreign exchange impact on net income from continuing operations in the U.S. for the three months ended April 30, 2006 compared to the prior year has been revised from $35 million to $17 million. The $35 million was the impact on RBC’s consolidated net income from continuing operations, not just our U.S. based operations, as a result of the change in the U.S./Canadian dollar exchange rate from the comparable three month period in 2005.
