CUSIP NO.:	780086UA0
PRINCIPAL AMOUNT:	Cdn. \$1.75 billion
ISSUE PRICE:	\$99.975 per \$100.00 principal amount
PAR VALUE:	\$1,000 per Note
CLOSING DATE:	October 14, 2021
ISSUE DATE:	October 14, 2021
INTEREST RESET DATE:	November 3, 2026
MATURITY DATE:	November 3, 2031
NET PROCEEDS TO THE BANK:	Cdn. \$1,743,437,500
INTEREST PAYMENT DATES:	From and including the Issue Date to, but excluding, the Interest Reset Date, interest will be payable at the Initial Interest Rate semi-annually in arrears on the 3 <sup>rd</sup> day of each of May and November with the first such payment on May 3, 2022. From and including the Interest Reset Date to, but excluding, the Maturity Date, interest will be payable at the Floating Rate quarterly in arrears on the 3 <sup>rd</sup> day of each of February, May, August and November, with the first such payment on February 3, 2027.
INITIAL INTEREST RATE:	2.14% per annum
YIELD TO INTEREST RESET DATE:	2.145%
FLOATING RATE:	3-month CDOR plus 0.61%

**“3-month CDOR”** means, for any quarterly floating rate interest period, the average bid rate of interest (expressed as an annual percentage rate) rounded to the nearest one-hundred-thousandth of 1.00% (with .000005 per cent being rounded up) for Canadian dollar bankers’ acceptances with maturities of three months which appears on the “Reuters Screen CDOR Page” as of approximately 10:15 a.m., Toronto time, on the first business day of such quarterly interest period, as published by Refinitiv Benchmark Services (UK) Limited or any successor thereto, as administrator (the “**Administrator**”) in accordance with its CDOR Methodology, as amended from time to time. If such rate does not appear on the “Reuters Screen CDOR Page” and there has been no public statement or publication of information indicating that CDOR has ceased or will cease to be provided permanently or indefinitely (an “**Index Cessation Event**”), then the rate for such date will be the 3-month CDOR in respect of such date as provided by the Administrator and published by an authorized distributor or by the Administrator itself. If by noon, Toronto time, on such date, neither the Administrator nor an

authorized distributor has provided or published 3-month CDOR in respect of such date and an Index Cessation Event has not occurred, then the rate will be a rate formally recommended for use by the Administrator during the period of non-publication of CDOR and for so long as an Index Cessation Event has not occurred. If no such rate is available, then the Bank shall appoint a calculation agent of national standing in Canada with experience providing such services (which may be an affiliate of the Bank) and such calculation agent shall, in consultation with the Bank, determine a commercially reasonable alternative for CDOR, taking into account any rate implemented by central counterparties and/or future exchanges, in each case, with trading volumes in derivatives or futures referencing CDOR that the calculation agent considers sufficient for that rate to be a representative alternative rate.

Notwithstanding the foregoing, on the first date that CDOR is no longer published following an Index Cessation Event, certain fallback replacement rates (including the relevant replacement rate spreads) will be triggered in a specified order and, upon the occurrence of specified events, as contemplated in the 'Canadian Alternative Reference Rate Working Group recommended fallback for FRNs referencing CDOR' published on July 6, 2021, which alternative rates include term-adjusted CORRA compounded-in-arrears rate provided by Bloomberg (or otherwise calculated), plus the spread relating to CDOR; the rate set by a committee officially endorsed or convened by the Bank of Canada (with term adjustment if not part of the recommendation); and the Bank of Canada policy rate plus the CORRA to CDOR spread, adjusted to account for any differences between the term structures or tenors of such rates.

The "**Reuters Screen CDOR Page**" means the display designated as page "CDOR" on the Reuters Monitor Money Rates Service (or such other page as may replace the CDOR page on that or any other service, by the Administrator) for purposes of publishing or displaying, among other things, Canadian dollar bankers' acceptance rates.

CONVERSION UPON THE  
OCCURRENCE OF A NON-VIABLE  
CONTINGENT CAPITAL TRIGGER  
EVENT ("**NVCC AUTOMATIC  
CONVERSION**"):

In the event of an NVCC Automatic Conversion, when calculating the number of common shares of the Bank ("**Common Shares**") issuable upon the conversion of the Notes into Common Shares, the following shall apply:

- a) the "**Multiplier**" is 1.5.
- b) the "**Conversion Price**" will be the greater of (i) a floor price of \$5.00 and (ii) the Current Market Price (as defined below) of the Common Shares. The floor price of \$5.00 will be subject to adjustment in the event of (i) the issuance of Common Shares or securities exchangeable for or convertible into Common Shares to all holders of Common Shares as a stock dividend, (ii) the subdivision, redivision or change of the Common Shares into a greater number of Common Shares, or (iii) the reduction, combination or consolidation of the Common Shares into a lesser number of Common Shares. The adjustment shall be computed to the nearest one-tenth of one cent provided that no adjustment of the Conversion Price shall be required unless such adjustment would require an increase or decrease of at least 1% of the Conversion Price then in effect.
- c) the "**Current Market Price**" will be the volume-weighted average trading price of the Common Shares on the Toronto Stock Exchange (the "**TSX**"), if such shares are then listed on the TSX, for the 10 consecutive trading days ending on the trading day preceding the date of the Trigger Event. If the Common Shares are not then listed on the TSX, for the purpose of the foregoing calculation reference shall be made to the principal securities exchange or market on which the Common Shares are then listed or quoted or, if no such trading prices are available, "Current Market Price" shall be the fair value of the Common Shares as reasonably determined by the board of directors of the Bank.
- d) the "**Note Value**" will mean the Par Value of a Note plus accrued and

unpaid interest on such Note.
