ROYAL BANK OF CANADA

(a Canadian chartered bank)

Structured Securities Base Prospectus

Pursuant to the Programme for the Issuance of Securities

Under this Structured Securities Base Prospectus, pursuant to the Programme for the Issuance of Securities described under "General Description of the Programme and Description of Programme Limit" herein (the "**Programme**"), Royal Bank of Canada (the "**Issuer**" or the "**Bank**") may from time to time issue unsubordinated (i) notes ("**Notes**"), (ii) redeemable certificates ("**Redeemable Certificates**") or exercisable certificates ("**Exercisable Certificates**") and together with the Redeemable Certificates, "**Certificates**") or (iii) warrants ("**Warrants**") denominated or payable in any currency agreed between the Issuer and the relevant Dealer(s) (as defined herein) (such Certificates and Warrants together, the "**W&C Securities**" and the W&C Securities and the Notes together, the "**Securities**").

The Notes may be issued in bearer, registered or dematerialized and uncertificated book-entry form. The maximum aggregate principal amount of all Notes, subordinated notes, Redeemable Certificates and Exercisable Certificates evidencing deposit liabilities under the Bank Act (Canada) outstanding under the Programme (calculated as described under "General Description of the Programme and Description of Programme Limit") at any time will not exceed U.S.\$40,000,000,000 (or its equivalent in other currencies calculated as described under "General Description of the Programme and Description of Programme Limit") and the maximum aggregate implied notional amount of Warrants and Exercisable Certificates not evidencing deposit liabilities under the Bank Act (Canada) will not exceed U.S.\$3,000,000,000 (or its equivalent in other currencies calculated as described in the Dealership Agreement (as defined herein)), subject in either case to increase as described herein. The price and amount of the Securities to be issued under the Programme will be determined by the Issuer and the relevant Dealer(s) at the time of issue in accordance with prevailing market conditions. The Bank may issue Securities (i) in the case of Notes, that bear interest at fixed rates or floating rates or that do not bear interest, (ii) in the case of W&C Securities, that pay additional amounts at fixed or floating rates or that pay no additional amounts, (iii) with principal, premium, interest or other amounts deliverable (which may include cash, securities and/or other property) determined by reference to or linked to one or more indices, equities, commodities, funds, currencies, variable interest rates, preference shares of the Preference Share Issuer (as defined herein), dynamic basket of shares, other underlying assets or bases of reference or the credit of one or more specified entities or any combination thereof (each a "**Reference Item**" and any Securities linked to one or more such Reference Item(s), "**Reference Item Linked Securities**"), and (iv) the terms of which permit the Bank to discharge its obligations with respect to such Securities by the payment of cash and/or delivery of shares, securities and/or other property or assets.

Amounts payable under the Securities may be calculated by reference to one or more "benchmarks" for the purposes of Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of June 8, 2016 (the "**Benchmarks Regulation**"). In this case, a statement will be included in the relevant Final Terms (as defined below) as to whether or not the relevant administrator of the "benchmark" is included in ESMA's register of administrators under Article 36 of the Benchmarks Regulation. Certain "benchmarks" may not fall within the scope of the Benchmarks Regulation by virtue of Article 2 of that regulation and transitional provisions in Article 51 of the Benchmarks Regulation may apply to certain other "benchmarks", such that at the date of the relevant Final Terms the administrator of the "benchmark" is not required to be included in the register of administrators.

Securities that are Bail-inable Securities (as defined below) are subject to conversion in whole or in part – by means of a transaction or series of transactions and in one or more steps – into common shares of the Bank or any of its affiliates under subsection 39.2(2.3) of the Canada Deposit Insurance Corporation Act (Canada) (the "CDIC Act") and to variation or extinguishment in consequence and subject to the application of the laws of the Province of Ontario and the federal laws of Canada applicable therein in respect of the operation of the CDIC Act with respect to the Bail-inable Securities. See Note Condition 3.02 or W&C Security Condition 2.02, as applicable, and discussion under risk factors included under "Risk Factors – Risks related to the structure of a particular issue of Securities – Risks relating to Bail-inable Securities". The applicable Final Terms or, in the case of Exempt Securities, Pricing Supplement (each as defined below) will indicate whether the Securities are Bail-inable Securities. Securities are also potentially subject to resolution powers of authorities outside of Canada in exceptional circumstances. See discussions under Risk Factors included under "Risk Factors – Risks related to the structure of a particular issue of Securities – UK resolution risks applicable to the Securities" and "Risk Factors – Risks related to the Securities generally – Securities may be subject to write-off, write down or conversion under the resolution powers of authorities outside of Canada".

This document (the "**Base Prospectus**"), in so far as it relates to Non-Exempt Securities (as defined below), constitutes a base prospectus issued in compliance with the Prospectus Regulation for the purpose of giving information with regard to the issue of Non-Exempt Securities under the Programme during the period of 12 months after the date hereof. When used in this Base Prospectus, "**Prospectus Regulation**" means Regulation (EU) 2017/1129, as amended.

This Base Prospectus constitutes "listing particulars" (the "**Listing Particulars**") for the purposes of listing on the Global Exchange Market and, for such purposes, does not constitute a "prospectus" for the purposes of the Prospectus Regulation. For the avoidance of doubt, where the context requires, for the purposes of Exempt Securities which are listed on the Global Exchange Market, references to "Base Prospectus" herein should be read as "Listing Particulars".

This Base Prospectus constitutes a prospectus for purposes of Part IV of the Luxembourg Act dated July 16, 2019 relating to prospectuses for securities (the "**Prospectus Act 2019**") and, for such purposes, does not constitute a "prospectus" for the purposes of the Prospectus Regulation.

The Base Prospectus has been approved by the Central Bank of Ireland as Irish competent authority under the Prospectus Regulation. The Central Bank only approves this Base Prospectus, in so far as it relates to Non-Exempt Securities, as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval by the Central Bank of Ireland should not be considered as an endorsement of the Issuer or of the quality of the Securities. Investors should make their own assessment as to the suitability of investing in the Securities.

Such approval relates only to the Securities which are to be admitted to trading on the regulated market (the "**Euronext Dublin Regulated Market**") of the Irish Stock Exchange plc trading as Euronext Dublin ("**Euronext Dublin**") or other regulated markets for the purposes of Directive 2014/65/EU (as amended, "**MiFID II**") and/or which are to be offered to the public in any member state of the EEA (as defined below) in circumstances that require the publication of a prospectus. The Listing Particulars have been approved by Euronext Dublin for the purpose of Exempt Securities which are listed on the Global Exchange Market.

The Base Prospectus has been approved by the Luxembourg Stock Exchange for the purpose of Exempt Securities which are listed on the official list (the "**Luxembourg Official List**") of the Luxembourg Stock Exchange and to trading on the Luxembourg Stock Exchange's Euro MTF Market (the "**Euro MTF**") or the professional segment of the Euro MTF market (the "**Euro MTF Professional Segment**").

Application has been made to Euronext Dublin for Securities issued under the Programme to be admitted to the official list (the "**Official List**") and trading on the Euronext Dublin Regulated Market. The Euronext Dublin Regulated Market is a regulated market for the purposes of MiFID II.

This Base Prospectus (as supplemented at the relevant time, if applicable) is valid for 12 months from its date in relation to Securities which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

The requirement to publish a prospectus under the Prospectus Regulation only applies to Securities ("**Non-Exempt Securities**") which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation. References in this Base Prospectus to "Exempt Securities" are to Securities for which no prospectus is required to be published under the Prospectus Regulation. The Central Bank of Ireland has neither approved nor reviewed information contained in this Base Prospectus in connection with Exempt Securities.

Swedish Notes or Swedish W&C Securities (each as defined herein) may be listed on the securities exchange operated by Nasdaq Stockholm AB (the "**Nasdaq Stockholm Exchange**") once the Swedish Financial Supervisory Authority has been provided with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation. The Nasdaq Stockholm Exchange is a regulated market for the purposes of MiFID II.

Norwegian Notes or Norwegian W&C Securities (each as defined herein) may be listed on the securities exchange operated by the Oslo Børs ("**Oslo Børs**") once the Norwegian Financial Supervisory Authority (Nw. Finanstilsynet) has been provided with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation. Oslo Børs is a regulated market for the purposes of MiFID II.

Application has been made to Euronext Dublin for Exempt Securities to be admitted to the Official List and to trading on its Global Exchange Market (which is not a regulated market for the purposes of MiFID II).

Application has been made for the Securities (i) to be admitted to listing on the Luxembourg Official List and to trading on Euro MTF and (ii) in the case of Securities to be issued to qualified investors (within the meaning of the Prospectus Act 2019), to be admitted to listing on the Luxembourg Official List and to trading on the professional segment of the Euro MTF Professional Segment in each case for a period of 12 months from the date of this Base Prospectus. The Euro MTF is not a regulated market for the purposes of MiFID II. Application will also be made to the Luxembourg Stock Exchange for Non-Exempt Securities to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the official list of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of MiFID II.

The Programme provides that Securities may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the Issuer and the relevant Dealer. The Issuer may also issue unlisted Securities and/or Securities not admitted to trading on any market.

Investors may hold interests in certain Securities through Euroclear UK & Ireland Limited (formerly known as CRESTCo Limited) ("**CREST**") through the issuance of dematerialised depository interests ("**CREST Depository Interests**" or "**CDIs**") issued, held, settled and transferred through CREST, representing interests in the relevant Securities underlying the CDIs (the "**Underlying Securities**"). CREST Depository Interests are independent securities constituted under English law and transferred through CREST and will be issued by CREST Depository Limited or any successor thereto (the "**CREST Depository**") pursuant to the Global Deed Poll dated 25 June 2001, in the form from time to time contained in Chapter 8 of the CREST International Manual (as defined below) (as subsequently modified, supplemented and/or restated, the "**CREST Deed Poll**").

Notice of the aggregate principal amount or issue size of Securities, interest (if any) payable in respect of Securities, the issue price of Securities, and certain other information which is applicable to each Tranche (as defined in the Conditions) of Securities will (other than in the case of Exempt Securities which are not Swiss Non-Exempt Securities, as defined below) be set out in a final terms document (the "**Final Terms**") which in relation to Non-Exempt Securities, will be filed with the Central Bank of Ireland and, where listed, Euronext Dublin. Copies of Final Terms in relation to Securities to be listed on Euronext Dublin will be published on the website of Euronext Dublin. In the case of Exempt Securities, notice of the aggregate principal amount or issue size of the Securities, interest (if any) payable in respect of Securities, the issue price of Securities and certain other information which is applicable to each Tranche will be set out in a pricing supplement document (the "**Pricing Supplement**"), which with respect to Securities to be admitted to the Official List and to trading on the Global Exchange Market of Euronext Dublin, will be delivered to Euronext Dublin on or before the date of issue of the Securities of such Tranche and with respect to Securities to be admitted to listing on the Luxembourg Official List and to trading on the Euro MTF or the Euro MTF Professional Segment, will be delivered to the Luxembourg Stock Exchange on or before the date of issue of the Securities of such Tranche.

This Base Prospectus may be filed in Switzerland with a review body (Prüfstelle) approved by the Swiss Financial Market Supervisory Authority FINMA as a foreign prospectus that is deemed approved according to Article 54(2) of the Swiss Federal Financial Services Act ("**FinSA**") for entry on the list of approved prospectuses accordingly to Article 64(5) FinSA, deposited with this review body and published accordingly to Article 64 FinSA. The Issuer may make offers of Securities to the public in Switzerland ("**Swiss Non-Exempt Offers**") in respect of which, notwithstanding anything to the contrary herein if such Securities are not also Non-Exempt Securities, the Issuer will complete Final Terms and references herein will be construed accordingly. References in this Base Prospectus to "**Swiss Non-Exempt Securities**" are to Securities which are the subject of such Swiss Non-Exempt Offers. The Issuer may also make offers of Securities in Switzerland pursuant to an exemption under Article 36(1) FinSA or where such offers do not qualify as a public offer in Switzerland, in respect of which the Issuer will complete (i) if the relevant Securities are Non-Exempt Securities, Final Terms, or (ii) otherwise, a Pricing Supplement.

The Bank will issue Notes, Redeemable Certificates and Exercisable Certificates that evidence deposit liabilities under the Bank Act (Canada) either through its main branch in Toronto or through its London branch, as specified in the applicable Final Terms or Pricing Supplement, as applicable. Securities issued by any branch are obligations of the Bank.

IMPORTANT INFORMATION

This document in so far as it relates to Non-Exempt Securities only, together with all the documents incorporated by reference herein (together the “Base Prospectus”), other than those set out in paragraphs (i) to (iv) on pages 87 and 88 (such documents collectively, the “Incorporated Documents”) comprises a base prospectus in respect of all Non-Exempt Securities under the Programme for the purposes of Article 8 of the Prospectus Regulation.

Each Tranche (as defined below) of Notes will be issued on the terms set out herein under “*Terms and Conditions of the Notes*” (the “Note Conditions”) and each Tranche of W&C Securities will be issued on the terms set out herein under “*Terms and Conditions of the W&C Securities*” (the “W&C Security Conditions”), in each case as completed by the applicable Final Terms or supplemented, modified or replaced in a separate prospectus specific to such Tranche (the “Drawdown Prospectus”) as described under “*Final Terms or Drawdown Prospectus for Non-Exempt Securities and Swiss Non-Exempt Securities*” on page 89 or, in the case of Exempt Securities, amended and/or supplemented by the applicable Pricing Supplement. In the case of a Tranche of Securities which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the applicable Drawdown Prospectus unless the context otherwise requires.

The Bank accepts responsibility for the information contained in this Base Prospectus. To the best of the knowledge of the Bank, having taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

This document supersedes the Base Prospectus of the Issuer related to the Programme dated July 17, 2020, except that Securities issued pursuant to this Base Prospectus on or after the date of this document which are to be consolidated and form a single series with Securities issued prior to the date hereof will be subject to the Terms and Conditions of the Notes or the Terms and Conditions of the W&C Securities, as the case may be, applicable on the date of issue for the first tranche of Securities of such series. Such Terms and Conditions are incorporated by reference in, and form part of, this document.

Under the Bail-in Regime (as defined herein), in certain circumstances, amending or extending the term to maturity, redemption, exercise or expiration, as applicable, of Securities which would otherwise not be Bail-inable Securities because they were issued before September 23, 2018, would mean those Securities could be subject to a Bail-in Conversion. However, the Issuer does not intend to amend or re-open a Series of Securities where such re-opening could have the effect of making the relevant Securities subject to Bail-in Conversion.

This document should be read and construed with any amendment or supplement hereto and with any other documents which are deemed to be incorporated herein or therein by reference and shall be read and construed on the basis that such documents are so incorporated and form part of this document (but not the Base Prospectus, save for the Incorporated Documents and any supplementary prospectus approved by the Central Bank of Ireland and the documents specifically incorporated by reference therein). Any reference in this document to the “Base Prospectus” means this document together with

the Incorporated Documents, any supplementary prospectus approved by the Central Bank of Ireland and any documents specifically incorporated by reference therein. In relation to any Series (as defined herein) of Securities, this document shall also be read and construed together with the applicable Final Terms(s) or, in the case of Exempt Securities, Pricing Supplement (each as defined herein).

No person has been authorised by the Issuer to give any information or to make any representation not contained in or not consistent with this document or any amendment or supplement hereto or any document incorporated herein or therein by reference or entered into in relation to the Programme or any information supplied by the Issuer in connection with the Programme and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer or any Dealer.

The Dealers have not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, and no responsibility or liability is accepted by the Dealers as to the accuracy or completeness of the information contained or incorporated by reference in this document or any other information provided by the Issuer in connection with the Programme. No Dealer accepts liability in relation to the information contained or incorporated by reference in this document or any other information provided by the Issuer in connection with the Programme.

Neither this document nor any other information supplied in connection with the Programme or any Securities (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by the Issuer or any of the Dealers that any recipient of this document or any other information supplied in connection with the Programme or any Securities should purchase any Securities. Each investor contemplating purchasing any Securities should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this document nor any other information supplied in connection with the Programme constitutes an offer or invitation by or on behalf of the Issuer or any of the Dealers to any person to subscribe for or to purchase any Securities.

Neither the delivery of this document nor the offering, sale or delivery of any Securities shall in any circumstances imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Programme or to advise any investor in Securities issued under the Programme of any information coming to their attention.

IMPORTANT – EEA RETAIL INVESTORS – Other than as provided in the Final Terms in respect of any Securities (or Pricing Supplement, in the case of Exempt Securities), the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129. Consequently, save in relation to any jurisdiction(s) or period(s) for which the

"Prohibition of Sales to EEA Retail Investors" is specified to be not applicable in any Final Terms (or Pricing Supplement, in the case of Exempt Securities), no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Final Terms in respect of any Securities (or Pricing Supplement, in the case of Exempt Securities) includes a legend entitled "Prohibition of Sales to UK Retail Investors", other than as provided therein, the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 ("**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently, save in relation to any period(s) for which such "Prohibition of Sales to UK Retail Investors" legend is specified to be not applicable, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

A determination will be made in relation to each issue about whether, for the purpose of the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), any Dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MIFIR Product Governance Rules.

IMPORTANT INFORMATION RELATING TO NON-EXEMPT OFFERS OF SECURITIES

Certain Tranches of Securities with a denomination or issue price of less than EUR 100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to as a "**Non-exempt Offer**".

If, in the context of a Non-exempt Offer, you are offered Securities by any entity, you should check that such entity has been given consent to use this Base Prospectus for the purposes of making its offer before agreeing to purchase any Securities. The following entities have consent to use this Base Prospectus in connection with a Non-exempt Offer:

- any entity named as a Dealer or Manager in the applicable Final Terms;

- any financial intermediary specified in the applicable Final Terms as having been granted specific consent to use the Base Prospectus;
- any financial intermediary named on the website of the Regulatory News Service operated by the London Stock Exchange at <http://www.londonstockexchange.com/exchange/news/market-news/market-news-home.html> under the name of the Bank and the headline "Further re Public Offer" as an Authorised Offeror in respect of the Non-exempt Offer (if that financial intermediary has been appointed after the date of the applicable Final Terms); and
- if Part B of the applicable Final Terms specifies "General Consent" as "Applicable", any financial intermediary authorised to make such offers under MiFID II who has published the Acceptance Statement (set out below) on its website.

The entities listed above have been given consent to use the Base Prospectus only during the Offer Period specified in the applicable Final Terms and only in the Non-exempt Offer Jurisdictions specified in the applicable Final Terms. Other than as set out above, the Issuer has not authorised the making of any Non-exempt Offer by any person and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Securities.

Please see below for certain important legal information relating to Non-exempt Offers.

Restrictions on Non-exempt Offers of Securities in relevant Member States of the EEA

This Base Prospectus has been prepared on a basis that permits Non-exempt Offers of Securities in each Member State of the EEA in relation to which the Issuer has given its consent, as specified in the applicable Final Terms (each such specified Member State a "**Non-exempt Offer Jurisdiction**" and together the "**Non-exempt Offer Jurisdictions**"). Any person making or intending to make a Non-exempt Offer of Securities on the basis of this Base Prospectus must do so only with the Issuer's consent to the use of this Base Prospectus as provided under "*Consent given in accordance with Article 5(1) of the Prospectus Regulation*" below and provided such person complies with the conditions attached to that consent.

Consent given in accordance with Article 5(1) of the Prospectus Regulation

In the context of a Non-exempt Offer of Securities, the Issuer accepts responsibility, in each of the Non-exempt Offer Jurisdictions, for the content of this Base Prospectus in relation to any person (an "**Investor**") who purchases any Securities in a Non-exempt Offer made by a Dealer or an Authorised Offeror (as defined below), where that offer is made during the Offer Period specified in the applicable Final Terms and provided that the conditions attached to the giving of consent for the use of this Base Prospectus are complied with. The consent and conditions attached to it are set out under "*Consent*" and "*Common Conditions to Consent*" below.

None of the Issuer or any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of the Issuer or any Dealer has any responsibility or liability for the actions of that Authorised Offeror.

Except in the circumstances set out in the following paragraphs, the Issuer has not authorised the making of any Non-exempt Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Securities. Any Non-exempt Offer made without the consent of the Issuer is unauthorised and neither the Issuer nor, for the avoidance of doubt, any

Dealer accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

If, in the context of a Non-exempt Offer, an Investor is offered Securities by a person which is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Non-exempt Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

The financial intermediaries referred to in paragraphs (a)(ii), (a)(iii) and (b) below are together the "**Authorised Offerors**" and each an "**Authorised Offeror**".

 - (ii) any financial intermediaries specified in the applicable Final Terms; and

 - (i) it is authorised to make such offers under applicable legislation implementing MiFID II; and
 - (ii) it accepts the Issuer's offer to grant consent to the use of this Base Prospectus by publishing on its website the following statement (with the information in square brackets duly completed) (the "**Acceptance Statement**"):

 - II. comply with the restrictions set out under "*Subscription and Sale*" in this Base Prospectus which would apply if the relevant financial intermediary were a Dealer and consider the relevant manufacturer's target market and assessment and distribution channels for the purposes of the MiFID Product Governance Rules and/or the UK MiFIR Product Governance Rules, as applicable;
 - III. ensure that any fee (and any other commissions or benefits of any kind) or rebate received or paid by the relevant financial intermediary in relation to the offer or sale of the Securities does not violate the Rules and, to the extent required by the Rules, is fully and clearly disclosed to Investors or potential Investors;
 - IV. hold all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the Securities under the Rules;
 - V. comply with applicable anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules (including, without limitation, taking appropriate steps, in compliance with such Rules, to establish and document the identity of each potential Investor prior to initial investment in any Securities by the Investor), and will not permit any application for Securities in circumstances where the financial intermediary has any suspicions as to the source of the application monies;
 - VI. retain Investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, and to the extent permitted by the Rules make such records available to each relevant Dealer, the Issuer or directly to the appropriate authorities with jurisdiction over the Issuer and/or each relevant Dealer in order to

enable the Issuer and/or each such relevant Dealer to comply with anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules applying to the Issuer and/or the relevant Dealer, as the case may be;

- VII. ensure that it does not, directly or indirectly, cause the Issuer or any relevant Dealer to breach any Rule or subject the Issuer or any relevant Dealer to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;
- VIII. immediately inform the Issuer and each relevant Dealer if at any time it becomes aware, or suspects, that it is or may be in violation of any Rules and take all appropriate steps to remedy such violation and comply with such Rules in all respects;
- IX. comply with the conditions to the consent referred to under "*Common conditions to consent*" below and any further requirements or other Authorised Offeror Terms relevant to the Non-exempt Offer as specified in the applicable Final Terms;

Non-exempt Offers and Swiss Non-Exempt Offers: Issue Price and Offer Price

Securities to be offered pursuant to a Non-exempt Offer and/or Swiss Non-Exempt Offer will be issued by the Issuer at the Issue Price specified in the applicable Final Terms. The Issue Price will be determined by the Issuer in consultation with the relevant Dealer(s) at the time of the relevant Non-exempt Offer and/or Swiss Non-Exempt Offer, as applicable, and will depend, amongst other things, on the interest rate (if any) applicable to the Securities and prevailing market conditions at that time. The offer price at which the Authorised Offeror will offer such Securities to the Investor will be the Issue Price or (where agreed with the relevant Dealer(s)) such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Securities to such Investor. None of the Issuer or the relevant Dealer(s) will be party to arrangements between an Investor and an Authorised Offeror, and the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Securities to such Investor. A Tranche of Securities issued under the Programme may be rated or unrated except that Reference Item Linked Securities (as defined herein) will not be rated. Where a Tranche of Securities is rated, such credit rating will not necessarily be the same as the ratings assigned to the Issuer referred to below or any other Securities already issued under the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, revision or withdrawal at any time by the assigning agency and each rating should be evaluated independently of any other.

The rating of certain Series of Securities to be issued under the Programme may be specified in the applicable Final Terms. Whether or not each credit rating applied for in relation to a relevant Series of Securities will be issued by a credit rating agency established in the EEA and registered under Regulation (EC) No. 1060/2009, as amended by Regulation (EU) No. 513/2011 (the "CRA Regulation") will be disclosed in the Final Terms. In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such credit ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies,

unless the relevant credit ratings are endorsed by an EU--registered credit rating agency or the relevant non-EU credit rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Certain information with respect to the credit rating agencies and ratings will be disclosed in the Final Terms.

As such, the ratings issued by S&P USA, Moody's USA, DBRS and Fitch may be used for regulatory purposes in the EEA in accordance with the CRA Regulation.

None of S&P USA, Moody's USA, DBRS or Fitch is established in the United Kingdom. However the S&P USA Issuer ratings have been endorsed by S&P Global Ratings UK Limited, the Moody's USA Issuer ratings have been endorsed by Moody's Investors Service Limited, the DBRS Issuer ratings have been endorsed by DBRS Ratings Limited and the Fitch Issuer ratings have been endorsed by Fitch Ratings Limited, in each case in accordance with Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the EUWA (the "UK CRA Regulation") and have not been withdrawn. The forward-looking information contained in this Base Prospectus is presented for the purpose of assisting the holders and potential purchasers of debt or derivative securities issued by the Issuer and financial analysts in understanding the Issuer’s financial position and results of operations as at and for the periods ended on the dates presented, as well as the Issuer’s financial performance objectives, vision and strategic goals, and may not be appropriate for other purposes. By their very nature, forward-looking statements require the Issuer to make assumptions and are subject to inherent risks and uncertainties, which give rise to the possibility that the Issuer’s predictions, forecasts, projections, expectations or conclusions will not prove to be accurate, that the Issuer’s assumptions may not be correct and that the Issuer’s financial performance objectives, vision and strategic goals will not be achieved. The Issuer cautions readers not to place undue reliance on these statements as a number of risk factors could cause the Issuer’s actual results to differ materially from the expectations expressed in such forward-looking statements. These factors – many of which are beyond the Issuer’s control and the effects of which can be difficult to predict – include: credit, market, liquidity and funding, insurance, operational, regulatory compliance (which could lead to the Issuer being subject to various legal and regulatory proceedings, the potential outcome of which could include regulatory restrictions, penalties and fines), strategic, reputation, legal and regulatory environment, competitive and systemic risks and other risks discussed in the risk sections and “Significant developments: COVID-19” section of the Issuer’s 2020 MD&A (as defined in the section entitled “Documents Incorporated by Reference”) contained in the Issuer’s 2020 Annual Report (and incorporated by reference herein) and in the “Risk management” and “Impact of COVID-19 pandemic” sections of the Issuer’s Second Quarter 2021 MD&A (as defined in the section entitled “Documents Incorporated by Reference”) contained in the Issuer’s Second Quarter 2021 Report to Shareholders and incorporated by reference herein); including business and economic conditions, information technology and cyber risks, Canadian housing and household

indebtedness, geopolitical uncertainty, privacy, data and third-party related risks, regulatory changes, environmental and social risk (including climate change), and digital disruption and innovation, culture and conduct, the business and economic conditions in the geographic regions in which the Issuer operates, the effects of changes in government fiscal, monetary and other policies, tax risk and transparency, and the emergence of widespread health emergencies or public health crises such as pandemics and epidemics, including the COVID-19 pandemic and its impact on the global economy and financial market conditions and the Issuer's business operations and financial results, condition and objectives.

The Issuer cautions that the foregoing list of risk factors is not exhaustive and other factors could also adversely affect the Issuer's results. When relying on the Issuer's forward-looking statements to make decisions with respect to the Issuer, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Material economic assumptions underlying the forward-looking statements contained in this Base Prospectus and in the documents incorporated by reference herein are set out in the "Economic, market and regulatory review and outlook" section and for each business segment under the "Strategic priorities" and "Outlook" headings of the Issuer's 2020 MD&A contained in its 2020 Annual Report, as updated by the "Economic, market and regulatory review and outlook" and "Impact of COVID-19 pandemic" sections of the Issuer's Second Quarter 2021 MD&A contained in its Second Quarter 2021 Report to Shareholders, which sections are incorporated by reference herein. Except as required by law, none of the Issuer, any dealer appointed in relation to any issue of debt or derivative securities by the Issuer or any other person undertakes to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Issuer.

Additional information about these and other factors can be found in the risk sections in the Issuer's 2020 MD&A contained in its 2020 Annual Report and the "Risk management" and "Impact of COVID-19 pandemic" sections of the Issuer's Second Quarter 2021 MD&A contained in its Second Quarter 2021 Report to Shareholders, which sections are incorporated by reference herein.

RISK FACTORS

The Issuer believes that the factors described below are material for the purpose of assessing risks associated with the Issuer. The Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in this Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments and/or deliveries due. In addition, factors, although not exhaustive, which could be material for the purpose of assessing the market risk associated with Securities issued under the Programme are also described below. Except as required by law, the Issuer does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by the Issuer or on the Issuer's behalf.

Each of the risks set out below could adversely affect the trading price of any Securities or the rights of Holders under any Securities and, as a result, investors could lose some or all of their investment and the Securities may not be a suitable investment for all investors. The Issuer believes that the factors described below represent the principal risks inherent in investing in Securities issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Securities or deliver the specified assets in connection with physical delivery Securities may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Securities are exhaustive. The Pricing Supplement in respect of an issue of Exempt Securities may contain additional Risk Factors in respect of such Securities.

Prospective investors should note that in relation to an individual issue of Securities, those of the risks relating to the Issuer and its industry and the Securities set out in this Base Prospectus, that are summarised in the summary annexed to the Final Terms for that particular issue of Securities, are the risks that the Issuer believes to be the most essential to an assessment by a prospective investor of whether to consider an investment in those Securities. However prospective investors should consider not only the information on the key risks summarised in the summary annexed to the Final Terms but also, among other things, the risks and uncertainties described below. Prospective investors should also read the detailed information set out elsewhere in this document (including information incorporated by reference) and any applicable Final Terms to reach their own views prior to making any investment decisions. Any reference in this section to "Final Terms" shall be deemed to include a reference to "Pricing Supplement", where relevant.

FACTORS WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE RISKS ASSOCIATED WITH THE ISSUER.

Prospective investors should consider the following risks to which the Issuer's businesses are exposed.

1. Top and emerging risks

An important component of the Issuer's risk management approach is to ensure that top and emerging risks, as they evolve, are identified, managed, and incorporated into the Issuer's existing risk management assessment, measurement, monitoring and escalation processes. These practices are intended to ensure a forward-looking risk assessment is maintained by management in the course of business development and as part of the execution of ongoing risk oversight responsibilities. Top and emerging risks are discussed by the Issuer's senior management and the Board on a regular basis. The Issuer has developed supplementary internal guidance to support enterprise-wide identification and assessment of all material risks, including those that are not readily apparent.

Top and emerging risks encompass those that could materially impact the Issuer's financial results, reputation, business model, or strategy in the short to medium term, as well as those that could potentially impact the Issuer as the risks evolve.

In addition to the Impact of pandemic risk factor set out under "5. Macroeconomic risks" below which impacts multiple risk factors, the table below sets out the risk factors that the Issuer

currently considers its top and emerging risks, but it should be highlighted that the risks set out in these tables are not exhaustive and investors should consider all the risk factors disclosed in the Risk Factors section.

Top & emerging risks	Description
<p>1.1 Business and economic conditions</p>	<p>The Issuer’s financial results may be affected to varying degrees by the general business and economic conditions in the geographic regions in which the Issuer operates. These conditions may include factors such as consumer saving and spending habits as well as consumer borrowing and repayment patterns, unemployment rates, the impact of containment measures associated with the COVID-19 pandemic or other health crises on businesses’ operations, the level of business investment and overall business sentiment, the level of activity and volatility of the financial markets, inflation, the level of government spending, monetary policies that are adopted by the BoC, the Federal Reserve in the U.S., the European Central Bank in the European Union and monetary authorities in other jurisdictions in which the Issuer operates, and the fiscal policies of the governments of Canada, the U.S., Europe and such other jurisdictions. Such policies can also adversely affect the Issuer’s clients and counterparties in Canada, the U.S. and internationally, which may increase the risk of default by such clients and counterparties.</p> <p>For example, economic downturns may result in higher unemployment rates and lower household incomes, lower corporate earnings, changes in business investment and consumer spending, and could adversely affect the Issuer’s business, including but not limited to the demand for its loan and other products and result in lower earnings, including higher credit losses.</p> <p>The Issuer’s financial results are also sensitive to changes in interest rates and to weaker investor confidence and market conditions, which may lead to lower client activity and unfavourable changes in earnings.</p> <p>Additional risks are emerging around how countries will seek to recoup the unprecedented levels of stimulus measures introduced in response to the COVID-19 pandemic and balance budgets in the future, and around the potential implications that a prolonged low interest rate environment will have, for example, on increasing wealth inequality and extended retirement ages, among others.</p> <p>For details on how the Issuer is managing its risks associated with the COVID-19 pandemic, refer to the Impact of pandemic risk factor below in “5. Macroeconomic risks”.</p>

Top & emerging risks	Description
<p>1.2 Information technology and cyber risks</p>	<p>Information technology (IT) and cyber risks remain top risks, not only for the financial services sector, but for other industries worldwide. Cybersecurity is the risk to the business associated with cyber-attacks initiated to disrupt or disable the Issuer's operations or to expose or damage data.</p> <p>The Issuer continues to be subject to heightened risks in the form of cyberattacks, data breaches, cyber extortion and similar compromises, due to: (i) the size, scale, and global nature of the Issuer's operations; (ii) the Issuer's heavy reliance on the internet to conduct day-to-day business activities; (iii) the Issuer's intricate technological infrastructure; and (iv) the Issuer's use of third-party service providers. Additionally, clients' use of personal devices can create further avenues for potential cyber-related incidents, as the Issuer has little or no control over the safety of these devices.</p> <p>IT and cyber risks have increased during the COVID-19 pandemic, as increased malicious activities are creating more threats for cyberattacks including COVID-19 phishing emails, malware-embedded mobile apps that purport to track infection rates, and targeting of vulnerabilities in remote access platforms as many companies continue to operate with work from home arrangements.</p> <p>Resulting implications could include business interruptions, service disruptions, financial loss, theft of intellectual property and confidential information, litigation, enhanced regulatory attention and penalties, as well as reputational damage. Furthermore, the adoption of emerging technologies, such as cloud computing, AI and robotics, call for continued focus and investment to manage risks effectively. Not managing this risk effectively may have an adverse effect on the Issuer's financial performance and condition.</p>
<p>1.3 Canadian housing and household indebtedness</p>	<p>Canadian housing and household indebtedness risks are heightened as a result of a rise in unemployment and decline in labour participation. Interest rate cuts, government support programs and relief programs offered by financial institutions have helped households and may have contributed towards an increase in savings and a decrease in household indebtedness. However, concerns related to housing affordability in certain markets and levels of Canadian household debt that were already elevated before the additional challenges brought on by the COVID-19 pandemic could continue to rise if the COVID-19 pandemic worsens, if the period to economic recovery is prolonged or as relief programs expire, resulting in, among other things, higher credit losses for the Issuer. As at October 31, 2020, the Issuer's retail credit risk exposure, which includes residential</p>

Top & emerging risks	Description
	<p>mortgages, home equity lines of credit, credit cards, unsecured lines of credit and overdraft protection products, was C\$602,063 million reflecting exposure at default.</p> <p>Additional risks are emerging with uncertainty surrounding the real estate rental market, changing consumer preferences and work arrangements, and the continued impact from industries significantly affected by the COVID-19 pandemic, all of which may have an impact on future real estate investment and demand. For example, uncertainties within the smaller size condo market have arisen during the COVID-19 pandemic, driven by a combination of a decline in short-term rentals and a shift in long-term rental preferences away from key metropolitan areas to adapt to ongoing work from home arrangements. Both factors have contributed to an increase in vacancy rates and a reduction in rental income in certain metropolitan markets which could impact sale prices into the future and result in higher household indebtedness, which could have negative credit implications for this lending portfolio.</p> <p>If this risk is not properly managed, it may have a negative impact on the Issuer's financial performance and condition and prospects.</p>
<p>1.4 Privacy, data and third-party related risks</p>	<p>The collection, use and sharing of data, as well as the management and governance of data, are increasingly important as the Issuer continues to invest in digital solutions and innovation, as well as, expanding its business activities.</p> <p>Data management is the risk of failing to manage information appropriately throughout its lifecycle due to inadequate processes and controls, resulting in legal or regulatory consequences, reputational damage or financial loss.</p> <p>In addition to the management and governance of data, its collection, use, and sharing also remain a top risk given the high value attributed to the Issuer's data. Resulting implications from failing to manage this risk could include financial loss, theft of intellectual property and confidential information, litigation, enhanced regulatory attention and penalties, as well as reputational damage.</p> <p>Privacy risk is the risk of improper creation or collection, use, disclosure, retention or destruction of information. Effective privacy and information management practices continue to grow in importance, as demonstrated by the continued development of complex regulations in the jurisdictions in which the Issuer operates and recent regulatory developments relating to data privacy. The Chief Privacy Office and the Chief Data Office partner with cross- functional teams to develop</p>

Top & emerging risks	Description
	<p>and implement enterprise-wide standards and practices that describe how data is used, protected, managed and governed.</p> <p>The Issuer’s potential exposure to these risks also increases as the Issuer continues to partner with third-party service providers and adopt new technologies (e.g., cloud computing, AI and machine learning, etc.) and business models. Third-party risk is the risk of failure to effectively manage third parties which may expose the Issuer to service disruptions, regulatory action, financial loss, litigation or reputational damage.</p> <p>Privacy, data and third-party related risks have been heightened as the use of work from home arrangements have become common practice. As the majority of the Issuer’s employees continue to work from home, it is continuously monitoring and enforcing best practices as it seeks to maintain the privacy and confidentiality of all sensitive information. The Issuer’s security awareness program is required to be completed by each employee annually and includes cyber awareness training on managing risks while working remotely. Third-party providers critical to its operations are being monitored for any impact on their ability to deliver services, including vendors of its third-party providers. Failure to properly onboard and manage service providers may expose the Issuer to service disruption, financial loss and other risks that may negatively impact its financial performance and condition.</p>
<p>1.5 Regulatory changes</p>	<p>The ongoing introduction of new or revised regulations will continue to lead to increasing focus across the organization on meeting additional regulatory requirements across the multiple jurisdictions in which the Issuer operates. See “Business segment results” on pages 26 to 48 of the 2020 MD&A incorporated by reference in the Base Prospectus for information on the Issuer’s business segments and the jurisdictions in which they operate. Financial and other reforms that have come into effect or are coming into effect, across multiple jurisdictions, such as Canadian anti-money laundering regulations, the interest rate benchmark reform, as well as data, privacy, consumer protection regulations, Canadian benchmark rate for qualifying insured mortgages and client focused reforms, continue to provide challenges and impact the Issuer’s operations and strategies and may negatively impact its financial performance, condition and prospects.</p>
<p>1.6 Environmental and social risk (including climate change)</p>	<p>Environmental and social (“E&S”) risk is the potential for an E&S issue associated with the Issuer, a client, transaction, product, supplier or activity to have a negative impact on the Issuer’s financial position, operations, legal and regulatory compliance, or reputation. E&S issues include, but are not</p>

Top & emerging risks	Description
	<p>limited to, site contamination, waste management, land and resource use, biodiversity, water quality and availability, climate change, environmental regulation, human rights (including, but not limited to, Indigenous Peoples' rights) and community engagement.</p> <p>Recent events have put organizations, including the Issuer, under increasing scrutiny to address social and racial inequality and human rights issues, and failure to do so may result in strategic, reputational and regulatory risks. Additional risks are emerging associated with climate change as it relates to extreme weather events and the global transition to a low carbon economy, which could result in a broad range of impacts including potential strategic, reputational, regulatory, compliance, operational and credit related risks for the Issuer and its clients. As concerns continue and global efforts to transition to a low carbon economy intensify, the Issuer's regulatory compliance and reputational risks are increasing. If not managed effectively, these risks could lead to negative reputational and financial impacts.</p>
<p>1.7 Digital disruption and innovation</p>	<p>The COVID-19 pandemic has changed the way consumers interact with financial services providers. Demand for digital banking services has increased, and while this represents an opportunity for the Issuer to leverage its technological advantage, the need to meet the rapidly evolving needs of clients and compete with non- traditional competitors has increased the Issuer's strategic and reputational risks. Additional risks also continue to emerge as demographic trends, evolving client expectations, the increased power to analyze data and the emergence of disruptors are creating competitive pressures across a number of sectors. Moreover, established technology companies, newer competitors, and regulatory changes continue to foster new business models that could challenge traditional banks and financial products. Finally, while the adoption of new technologies, such as AI and machine learning, presents opportunities for the Issuer, it could result in new and complex strategic, reputational, operational, regulatory and compliance risks that would need to be managed effectively and, if not, may adversely impact its financial performance and condition.</p>
<p>1.8 Culture and conduct risks</p>	<p>The Issuer's purpose, values and risk principles are key dimensions of the Issuer's culture. The Issuer demonstrates its culture through its conduct – the behaviours, judgments, decisions, and actions of the organization and its employees. Culture and conduct risks are considered top risks for the financial services industry due to the impact the Issuer's choices, behaviours, and overall risk governance can have on outcomes for its stakeholders. The Issuer embeds client considerations into its decision-making processes and aims to</p>

Top & emerging risks	Description
	<p>ensure focus on the fair treatment of clients, and continues to implement regulatory changes that align with this objective. The Issuer is responsive to evolving employee needs while expecting employees to always act with integrity.</p> <p>Canadian, U.S. and global regulators have been increasingly focused on conduct matters and risks, and heightened expectations generally from regulators could lead to investigations, remediation requirements, and higher compliance costs. While the Issuer takes numerous steps to continue to strengthen its conduct practices, and prevent and detect outcomes which could potentially harm clients, customers, employees or the integrity of the markets, such outcomes may not always be prevented or detected and if not, may negatively impact its financial position and performance as well as its prospects.</p>

2. Transactional/Positional risks

2.1 Credit risk

Credit risk is the risk of loss associated with an obligor's potential inability or unwillingness to fulfill its contractual obligations on a timely basis and may arise directly from the risk of default of a primary obligor of the Issuer (e.g., issuer, debtor, counterparty, borrower or policyholder), indirectly from a secondary obligor of the Issuer (e.g., guarantor or reinsurer), through off-balance sheet exposures, contingent credit risk, associated credit risk and/or transactional risk. Credit risk includes counterparty credit risk arising from both trading and non-trading activities.

Credit risk is inherent in a wide range of the Issuer's businesses. This includes lending to businesses, sovereigns, public sector entities, banks and other financial institutions, as well as certain high net worth individuals and small businesses, which comprise the Issuer's wholesale portfolio and residential mortgages, personal loans, credit cards, and small business loans, which comprise the Issuer's retail portfolio.

The Issuer's gross credit exposure includes lending-related and other credit risk and trading-related credit risk. Lending-related and other credit risk includes: loans and acceptances outstanding, undrawn commitments, and other exposures, including contingent liabilities such as letters of credit and guarantees, debt securities carried at fair value through other comprehensive income ("FVOCI") or amortized cost and deposits with financial institutions. Trading-related credit risk includes: Repo-style transactions, which include repurchase and reverse repurchase agreements and securities lending and borrowing transactions, and derivatives. The Issuer's gross credit risk exposure as at October 31, 2020 was C\$1,567.554 million. See the table "Credit Risk exposure by portfolio, sector and geography" on page 66 of the 2020 MD&A incorporated by reference in the Base Prospectus for further information.

Credit risk also includes (i) counterparty credit risk; and (ii) wrong-way risk. Counterparty credit risk is the risk that a party with whom the Issuer has entered into a financial or non-financial contract will fail to fulfil its contractual agreement and default on its obligation. It incorporates

not only the contract's current value, but also considers how that value can move as market conditions change. Counterparty credit risk usually arises from trading-related derivative and repo-style transactions. Derivative transactions include forwards, futures, swaps and options, and can have underlying references that are either financial (e.g., interest rate, foreign exchange, credit or equity) or non-financial (e.g., precious metal and commodities). For more information on derivatives instruments and credit risk mitigation, see Note 8 of the 2020 Audited Consolidated Financial Statements incorporated by reference into the Base Prospectus.

Wrong-way risk is the risk that exposure to a counterparty is adversely correlated with the credit quality of that counterparty. There are two types of wrong-way risk: (i) specific wrong-way risk, which exists when the Issuer's exposure to a particular counterparty is positively correlated with the probability of default of the counterparty due to the nature of the Issuer's transactions with them (e.g., loan collateralized by shares or debt issued by the counterparty or a related party); and (ii) general wrong-way risk, which exists when there is a positive correlation between the probability of default of counterparties and general macroeconomic or market factors. This typically occurs with derivatives (e.g., the size of the exposure increases) or with collateralized transactions (e.g., the value of the collateral declines).

Geographically, as at October 31, 2020, Canada represented approximately 68% of the Issuer's credit risk exposure while the United States represented 21%, Europe 8% and the Other international regions 3%. Accordingly, deterioration in general business and economic conditions in Canada and the United States could adversely affect the credit quality of the Issuer's borrowers and counterparties and could thus affect the value of the Issuer's assets and result in an increase in credit losses.

The Issuer has put in place specific frameworks to manage credit risk. See pages 61 to 65 of the 2020 MD&A incorporated by reference in the Base Prospectus for more information. Notwithstanding such frameworks, the Issuer has recorded provisions for credit losses ("**PCL**") to recognise estimated credit losses on all financial assets, except for financial assets classified or designated as fair value through profit or loss ("**FVTPL**") and equity securities designated as fair value through FVOCI, which are not subject to impairment assessment. For the year ended October 31, 2020, the Issuer's total PCL was C\$4,351 million. See the Credit quality performance section on pages 70 and 71 of the 2020 MD&A and page 27 of the Second Quarter 2021 MD&A incorporated by reference in the Base Prospectus.

Failure to effectively manage credit risk may have an adverse impact on the Issuer's financial condition and performance.

2.2 Market risk

Market risk is defined to be the impact of market prices upon the financial condition of the Issuer. This includes potential gains or losses due to changes in market determined variables such as interest rates, credit spreads, equity prices, commodity prices, foreign exchange rates and implied volatilities.

The Issuer has adopted specific frameworks to manage market risk as described on pages 73, 75 and 76 of the 2020 MD&A incorporated by reference in the Base Prospectus. Despite these frameworks, the Issuer remains exposed to the risk of loss as a result of market risk which may negatively impact its financial performance and condition.

The measures of financial condition impacted by market risk are as follows:

1. Positions whose revaluation gains and losses are reported in revenue, which includes:
 - (a) Changes in the fair value of instruments classified or designated as FVTPL, and
 - (b) Hedge ineffectiveness.
2. Common Equity Tier 1 (“**CET1**”) capital, which includes:
 - (a) All of the above, plus
 - (b) Changes in the fair value of FVOCI securities where revaluation gains and losses are reported as Other comprehensive income (“**OCI**”),
 - (c) Changes in the Canadian dollar value of investments in foreign subsidiaries, net of hedges, due to foreign exchange translation, and
 - (d) Changes in the fair value of employee benefit plan deficits.
3. CET1 ratio, which includes:
 - (a) All of the above, plus
 - (b) Changes in Risk-weighted assets (“**RWA**”) resulting from changes in traded market risk factors, and
 - (c) Changes in the Canadian dollar value of RWA due to foreign exchange translation.
4. The economic value of the Bank, which includes:
 - (a) Points 1 and 2 above, plus
 - (b) Changes in the economic value of other non-trading positions, net interest income, and fee based income, as a result of changes in market risk factors.

2.2.1 The key measures of market risk are as follows:

(a) FVTPL positions

FVTPL is an accounting concept which indicates that the assets and liabilities are measured at fair value on the balance sheet. The measurement is generally used for financial instruments that are part of the Issuer's trading activities (purchased with intent to sell or repurchase) and are classified as FVTPL, but can be elected for financial assets if it eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities, or recognising related gains and losses on a different basis (an accounting mismatch).

The fair value option can be elected for financial liabilities if: (i) the election eliminates an accounting mismatch; (ii) the financial liability is part of a portfolio that is managed on a fair value basis, in accordance with a documented risk management or investment strategy; or (iii) there is an embedded derivative in the financial or non-financial host contract and the derivative is not closely related to the host contract. These instruments cannot be reclassified out of the

FVTPL category while they are held or issued (i.e. designated as FVTPL). Any loss or gain in the fair value of these instruments between quarterly balance sheet dates due to changes in market prices and rates are accounted for as losses or gains, and so directly impact the Issuer's financial performance and condition. Financial liabilities designated as FVTPL are recorded at fair value and fair value changes attributable to changes in the Issuer's own credit risk are recorded in OCI. See "Fair Value of Financial Instruments" on page 106 and "Securities" on page 134 of the 2020 Annual Report incorporated by reference in the Base Prospectus for more information on how fair value is determined.

As an element of the Enterprise Risk Appetite Framework, the Board approves the Issuer's overall market risk constraints. Group Risk Management ("**GRM**") creates and manages the control structure for FVTPL positions which ensures that business is conducted on a basis consistent with Board requirements. The Market and Trading Credit Risk function within GRM is responsible for creating and managing the controls and governance procedures that ensure that risk taken is consistent with risk appetite constraints set by the Board. These controls include limits on probabilistic measures of potential loss such as Value-at-Risk (VaR), Stressed Value-at-Risk (SVaR) and Incremental Risk Charge (IRC) as defined below:

"**VaR**" is a statistical measure of potential loss for a financial portfolio computed at a given level of confidence and over a defined holding period. The Issuer measures VaR at the 99th percentile confidence level for price movements over a one-day holding period using historic simulation of the last two years of equally weighted historic market data. These calculations are updated daily with current risk positions, with the exception of certain less material positions that are not actively traded and are updated on at least a monthly basis.

"**SVaR**" is calculated in an identical manner as VaR with the exception that it is computed using a fixed historical one-year period of extreme volatility and its inverse rather than the most recent two-year history. The stress period used was updated in early Q3 2020 from the 2008/2009 period covering the Global Financial Crisis to a one-year period covering the market volatility observed during Q2 2020. SVaR is calculated daily for all portfolios, with the exception of certain less material positions that are not actively traded and are updated on at least a monthly basis.

"**IRC**" captures the risk of losses under default or rating changes for issuers of certain traded fixed income instruments. IRC is measured over a one year horizon at a 99.9% confidence level, and captures different liquidity horizons for instruments and concentrations in issuers under a constant level of risk assumption. Changes in measured risk levels are primarily associated with changes in inventory from the applicable fixed income trading portfolios.

See the table under "Market risk measures – FVTPL positions" on page 74 of the 2020 MD&A and on page 31 of the Second Quarter 2021 MD&A, both incorporated by reference in the Base Prospectus, for the quantitative impact of market risk on FVTPL positions for the year ended October 31, 2020 and the three and six months ended April 30, 2021.

(b) **Interest Rate Risk in the Banking Book (IRRBB) positions**

IRRBB activity arises primarily from traditional customer-originated banking products such as deposits and loans, and includes related hedges as well as the interest rate risk from securities held for liquidity management. Factors contributing to IRRBB include the mismatch between asset and liability repricing dates, relative changes in asset and liability rates in response to market rate scenarios, and other product features that could affect the expected timing of cash

flows, such as options to pre-pay loans or redeem term deposits prior to contractual maturity. IRRBB exposures are subject to limits and controls and are regularly measured and reported with independent oversight from Group Risk Management.

To monitor and control IRRBB, the Issuer assesses two primary metrics, Net Interest Income (“**NII**”) risk and Economic Value of Equity (“**EVE**”) risk, under a range of market shocks, scenarios, and time horizons. The table on page 76 of the 2020 MD&A and the table on page 32 of the Second Quarter 2021 MD&A show the potential before-tax impact of an immediate and sustained 100 basis points increase or decrease in interest rates on projected 12-month NII and EVE assuming no subsequent hedging. Rate floors are applied within the declining rates scenarios which prevent EVE valuation and NII simulation rate levels from falling below a minimum average level of negative 25 bps across major currencies. Interest rate risk measures are based upon interest rate exposures at a specific time, which over time, can change in response to business activities and management actions.

As at April 30, 2021, an immediate and sustained -100 bps shock would have had a negative impact to the Issuer’s NII of C\$858 million. An immediate and sustained +100 bps shock at the end of April 30, 2021 would have had a negative impact to the Issuer’s EVE of C\$2,064 million.

(c) Investment securities carried at FVOCI

The Issuer held C\$63.1 billion of investment securities carried at FVOCI as at April 30, 2021. The Issuer holds debt securities carried at FVOCI primarily as investments, as well as to manage liquidity risk and hedge interest rate risk in the Issuer’s non-trading banking balance sheet. As at April 30, 2021, the Issuer’s portfolio of investment securities carried at FVOCI is interest rate sensitive and would impact OCI by a pre-tax change in value of C\$6 million as measured by the change in the value of the securities for a one basis point parallel increase in yields. The portfolio also exposes the Issuer to credit spread risk of a pre-tax change in value of C\$17 million, as measured by the change in value for a one basis point widening of credit spreads. The value of the investment securities carried at FVOCI included in the Issuer’s IRRBB measure as at April 30, 2021 was C\$60.5 billion. The Issuer’s investment securities carried at FVOCI also include equity exposures of C\$0.5 billion as at April 30, 2021.

(d) Non-trading foreign exchange rate risk

Foreign exchange rate risk is the potential adverse impact on earnings and economic value due to changes in foreign currency rates. The Issuer’s revenue, expenses and income denominated in currencies other than the Canadian dollar are subject to fluctuations as a result of changes in the value of the average Canadian dollar relative to the average value of those currencies. The Issuer’s most significant exposure is to the U.S. dollar, due to the Issuer’s operations in the U.S. and other activities conducted in U.S. dollars. Other significant exposures are to the British pound and the Euro, due to the Issuer’s activities conducted internationally in these currencies. A strengthening or weakening of the Canadian dollar compared to the U.S. dollar, British pound and the Euro could reduce or increase, as applicable, the translated value of the Issuer’s foreign currency denominated revenue, expenses and earnings and could have a significant effect on the results of the Issuer’s operations. The Issuer is also exposed to foreign exchange rate risk arising from its investments in foreign operations.

For unhedged equity investments, when the Canadian dollar appreciates against other currencies, the unrealized translation losses on net foreign investments decreases Issuer shareholder equity through the other components of equity and decreases the translated value of the RWA of the foreign currency-denominated asset. The reverse is true when the Canadian

dollar depreciates against other currencies. Consequently, the Issuer considers these impacts in selecting an appropriate level of its investments in foreign operations to be hedged.

2.3 Liquidity and funding risk

Liquidity and funding risk (“**liquidity risk**”) is the risk that the Issuer may be unable to generate sufficient cash or its equivalents in a timely and cost-effective manner to meet its commitments. Liquidity risk arises from mismatches in the timing and value of on-balance sheet and off-balance sheet cash flows.

Core funding, comprising capital, longer-term wholesale liabilities and a diversified pool of personal and, to a lesser extent, commercial and institutional deposits, is the foundation of the Issuer’s structural liquidity position. The Issuer’s ability to access unsecured funding markets and to engage in certain collateralized business activities on a cost-effective basis are primarily dependent upon maintaining competitive credit ratings. Credit ratings and outlooks provided by rating agencies reflect their views and methodologies. Ratings are subject to change, based on a number of factors including, but not limited to, the Issuer’s financial strength, competitive position, liquidity and other factors not completely within the Issuer’s control. A lowering of the Issuer’s credit ratings may have potentially adverse consequences for the Issuer’s funding capacity or access to the capital markets, may affect the Issuer’s ability, and the cost, to enter into normal course derivative or hedging transactions and may require the Issuer to post additional collateral under certain contracts, any of which may have an adverse effect on its results of operations and financial condition.

The Liquidity Coverage Ratio (“**LCR**”) is a Basel III metric that measures the sufficiency of high-quality liquid assets (“**HQLA**”) available to meet liquidity needs over a 30-day period in an acute stress scenario. The Basel Committee on Banking Supervision (“**BCBS**”) and Office of the Superintendent of Financial Institutions (“**OSFI**”) regulatory minimum coverage level for LCR is 100%. The Issuer’s average LCR for the quarter ended April 30, 2021 was 133%, which translates into a surplus of approximately C\$89.6 billion. Net Stable Funding Ratio (“**NSFR**”) is a Basel III metric that measures the sufficiency of available stable funding relative to the amount of required stable funding. The BCBS and OSFI regulatory minimum coverage level for NSFR is 100%. The Issuer’s NSFR as at April 30, 2021 was 118%, which translates into a surplus of approximately C\$119.0 billion. Despite the Issuer’s liquidity risk management policy described on pages 78 through 88 of the 2020 MD&A incorporated by reference into the Base Prospectus, any significant deterioration in its liquidity position may lead to an increase in funding costs or constrain the volume of new lending. These factors may adversely impact the Issuer’s financial performance and position.

2.4 Insurance risk

Insurance risk refers to the potential financial loss to the Issuer that may arise where the amount, timing and/or frequency of benefit and/or premium payments under insurance or reinsurance contracts are different than expected. Insurance risk is distinct from those risks covered by other parts of the Issuer’s risk management framework (e.g. credit, market and operational risk) where those risks are ancillary to, or accompany, the risk transfer. Given that the Issuer’s Canadian business involves life, health, home, travel and auto insurance and its international insurance business offers life, disability and longevity reinsurance products, the Issuer’s four insurance sub-risks are: morbidity, mortality, longevity and travel risk. Insurance risk may negatively impact the Issuer’s financial performance and condition. See a description of the Issuer’s insurance business on pages 39, 41 and 42 of the 2020 MD&A incorporated by reference into the Base Prospectus.

3. Operational risk

Operational risk is the risk of loss or harm resulting from people, inadequate or failed internal processes, controls and systems or from external events. Operational risk is inherent in all of the Issuer's activities and third party activities and failure to manage operational risk can result in direct or indirect financial loss, reputational impact or regulatory scrutiny and proceedings in the various jurisdictions where the Issuer operates.

Notwithstanding anything in this risk factor, this risk factor should not be taken as implying that the Issuer will be unable to comply with its obligations as a company with securities admitted to the Official List of the UK Financial Conduct Authority (the "FCA") FCA or as a supervised firm regulated by the FCA or the UK Prudential Regulation Authority (the "PRA").

As at October 31, 2020, the Issuer's total RWA amounted to C\$546,242 million, C\$70,047 million of which was for operational risk (compared to C\$448,821 million for credit risk and C\$27,374 million for market risk). As at April 30, 2021, the Issuer's RWA amounted to C\$555,607 million, C\$72,133 million of which was for operational risk (compared to C\$452,857 million for credit risk and C\$30,617 million for market risk).

The Issuer's operations expose it to many different operational risks, which may adversely affect its businesses and financial results. In addition to cybersecurity, data management and privacy, and third party risk, which are also discussed above in "1. Top and emerging risks", the Issuer's results could also be adversely affected by risks associated with money laundering and terrorist financing and business continuity.

Money laundering and terrorist financing risk is the risk that the Issuer's products and services are used to facilitate the laundering of proceeds of crime, including the financing of terrorist activity. The Issuer maintains an enterprise-wide program designed to deter, detect and report suspected money laundering and terrorist financing activities across its organization, while seeking to ensure compliance with the laws and regulations of the various jurisdictions in which the Issuer operates. Despite the Issuer's compliance programmes, non-compliance may still occur, leading to enforcement action, criminal prosecutions and reputational damage which could negatively impact its financial performance and condition.

Business continuity risk is the risk of being unable to maintain, continue or restore essential business operations during and/or after an event that prevents the Issuer from conducting business in the normal course. Exposure to disruptive operational events interrupts the continuity of its business operations and could negatively impact the Issuer's financial results, reputation, client outcomes and/or result in harm to the Issuer's employees. These operational events could result from the impact of severe weather, pandemics, failed processes, technology failures or cyber threats.

4. Strategic risks

4.1 Strategic risk

Strategic risk is the risk that the Issuer or particular business areas of the Issuer will make inappropriate strategic choices, or will be unable to successfully implement selected strategies or achieve the expected benefits. For more information on the Issuer's strategic goals in each of its business segments, see pages 26 to 48 of the 2020 MD&A incorporated by reference into the Base Prospectus. Business strategy is a major driver of the Issuer's risk appetite and consequently the strategic choices the Issuer makes in terms of business mix determine how the Issuer's risk profile changes. The Issuer's ability to execute on its objectives and strategic

goals will influence its financial performance. If the Issuer is unable to successfully implement selected strategies or related plans and decisions, if the Issuer makes inappropriate strategic choices or if the Issuer makes a change to its strategic goals, its financial performance and condition could be adversely affected.

4.2 Reputation risk

Reputation risk is the risk of an adverse impact on stakeholders' perception of the Issuer due to (i) the actions or inactions of the Issuer, its employees, third-party service providers, or clients, (ii) the perceived misalignment of these actions or inactions with stakeholder expectations of the Issuer, or (iii) negative public sentiment towards a global or industry issue. The Issuer's reputation is rooted in the perception of its stakeholders, and the trust and loyalty they place in the Issuer is core to the Issuer's purpose as a financial services organization. A strong and trustworthy reputation will generally strengthen the Issuer's market position, reduce the cost of capital, increase shareholder value, strengthen its resiliency, and help attract and retain top talent. Conversely, damage to the Issuer's reputation can result in reduced share price and market capitalization, increased cost of capital, loss of strategic flexibility, inability to enter or expand into markets, loss of client loyalty and business, regulatory fines and penalties, restrictive agreements with regulators or prosecutors, or criminal prosecutions. The sources of reputation risk are widespread; risk to the Issuer's reputation can occur in connection with credit, regulatory, legal and operational risks. The Issuer can also experience reputation risk from a failure to maintain an effective control environment, exhibit good conduct and maintain appropriate culture practices.

4.3 Legal and regulatory environment and regulatory compliance risk

(a) Legal and regulatory environment

Legal and regulatory environment risk is the risk that new or modified laws and regulations, and the interpretation or application of laws and regulations, will negatively impact the way in which the Issuer operates, both in Canada and in the other jurisdictions in which the Issuer conducts business. The full impact of some of these changes on the Issuer's business will not be known until final rules are implemented and market practices have developed in response. The Issuer continues to respond to these and other developments and is working to minimize any potential adverse business or economic impact. The following provides a high-level summary of some of the key regulatory changes that have potential to increase or decrease the Issuer's costs, impact its profitability and increase the complexity of its operations. A summary of the additional regulatory changes instituted by governments globally and by OSFI during 2020 in response to the COVID-19 pandemic are included in the Significant developments: COVID-19, Liquidity and funding risk and Capital Management sections of the Issuer's 2020 Annual Report incorporated by reference into the Base Prospectus.

(i) *Global uncertainty*

Significant uncertainty about the impacts of the COVID-19 pandemic, trade policy and geopolitical tensions continue to pose risks to the global economic outlook. In April 2021, the International Monetary Fund (IMF) projected global growth of 6.0% in 2021, up from its previous forecast of 5.5% in January 2021, reflecting expectations of a stronger recovery in economic activity as rising vaccination rates enable more substantial and sustainable easing of containment measures, supported by additional fiscal support in a few large economies and the continued adaptation of economic

activity to subdued mobility. Despite these positive developments, uncertainty remains regarding vaccine efficacy against new variants of COVID-19 and vaccine supply and availability. Trade policy also remains a source of global uncertainty as the impacts of the new U.S. administration's trade agenda and the UK's progress on an international trade policy remain to be seen. Finally, global financial markets remain vulnerable to geopolitical tensions, such as those between the U.S. and China, many of which centre around trade and technology. While the Issuer's diversified business model, as well as its product and geographic diversification, continue to help mitigate the risks posed by global uncertainty and in particular its effect on the Canadian and U.S. economies, it may still have an adverse impact on the Issuer's financial performance and condition.

(ii) *Canadian anti-money laundering (AML) regulations*

The amendments to Canada's Proceeds of Crime (Money Laundering) and Terrorist Financing Act regulations became effective June 2021. These amendments aim to improve the effectiveness of Canada's anti-money laundering and counterterrorism financing regime, and align compliance with international standards.

(iii) *Interest rate benchmark reform*

London Interbank Offered Rate ("**LIBOR**") is the most widely referenced benchmark interest rate across the globe for derivatives, bonds, loans and other floating rate instruments; however, there is a regulator-led push to transition the market from LIBOR and certain other benchmark rates to alternative risk-free, or nearly risk-free, rates that are based on actual overnight transactions. In addition to the U.S. and UK, regulators and national central banks internationally, including the Bank of Canada ("**BoC**"), have warned the market they will need to be prepared for certain benchmark rates (including most tenors of LIBOR) to be discontinued at the end of calendar 2021. On March 5, 2021, the FCA, the regulator of the ICE Benchmark Administration ("**IBA**") which administers LIBOR, announced the permanent cessation or loss of representativeness of all 35 LIBOR benchmark settings currently published by the IBA. Derivatives, floating rate notes, loans and other financial contracts whose terms extend beyond the relevant discontinuation date, and that refer to certain benchmark rates (including LIBOR) as the reference rate, will be impacted. As a result, clearing agencies are moving towards new benchmark rates and the Issuer is working with them on the transition. For further details, refer to the Critical accounting policies and estimates section in the 2020 Annual Report and Note 2 of the Second Quarter 2021 Unaudited Interim Condensed Consolidated Financial Statements incorporated by reference in the Base Prospectus.

(iv) *Minimum qualifying rates for insured and uninsured mortgages in Canada*

On May 20, 2021, OSFI announced that effective June 1, 2021, the proposed minimum qualifying rate for uninsured mortgages will be the greater of the mortgage contract rate plus 2% or 5.25%. OSFI also announced that it will review and communicate the qualifying rate at a minimum annually, every December. The Department of Finance Canada, who is responsible for setting the benchmark rate for qualifying insured mortgages, also announced on May 20, 2021 that it would align the rate for insured mortgages with the rate set by OSFI for uninsured mortgages and that this new rate would apply to insured mortgages approved on June 1, 2021 or later. The minimum qualifying rate for insured mortgages will be subject to review and periodic adjustment.

(v) *Client focused reforms*

The Canadian securities administrators published amendments to National Instrument 31-103 to implement the Client Focused Reforms (the “**Reforms**”), which are intended to increase the standard of conduct required for Canadian securities registrants. The Reforms enhance core requirements relating to conflicts of interest, suitability, know-your-product and know-your-client requirements, and also introduce new requirements relating to relationship disclosure, training and recordkeeping. The changes come into effect in two phases: the first phase relating to conflicts of interest and the related disclosure requirements came into effect on June 30, 2021, extended from its previous effective date of December 31, 2020 due to the impact of the COVID-19 pandemic, and the second phase relating to the remaining requirements, comes into effect on December 31, 2021. The requirements will primarily impact the Issuer’s Personal & Commercial Banking and Wealth Management platforms. The Issuer is continuing to evaluate the requirements and their impacts on the Issuer’s businesses.

(vi) *U.S. regulatory initiatives*

Policymakers continue to evaluate and implement reforms to various U.S. financial regulations, which could result in amendments to the U.S. regulatory requirements and associated changes in compliance costs. With a new U.S. administration, there is heightened potential for the introduction of new financial regulations or changes to existing/proposed regulations. On January 1, 2021, the U.S. Congress enacted the Anti-Money Laundering Act of 2020 (AMLA) which represents a comprehensive set of reforms to U.S. anti-money laundering laws. Regulations pertaining to this legislation have yet to be issued; the extent, timing and impact of which are unknown at this time. The Issuer will continue to monitor developments and any resulting implications for the Issuer.

(vii) *European regulatory reform*

In addition to the implications from Brexit, other forthcoming regulatory developments include the EU’s Central Securities Depository Regulation rules which are intended to increase discipline in the settlement of securities transactions. The EU has revised the effective date to February 2022, extended from its previous effective date of February 2021.

EU Sustainability-Related Disclosures Regulation requires financial services firms to disclose their approaches to considering environmental, social and governance factors as part of their advice and investment decision processes. These requirements were effective on March 10, 2021 and there has been no material impact on the Issuer; however, the Issuer will continue to monitor future guidance and the impact, if any, on the Issuer.

These regulations could increase compliance costs for the Issuer and the interpretation or application of these regulations could negatively impact the way in which the Issuer operates.

(b) **Regulatory compliance risk**

Regulatory compliance risk is the risk of potential non-conformance with laws, rules, regulations and prescribed practices in any jurisdiction in which the Issuer operates. Issues regarding compliance with laws and regulations can arise in a number of areas in a large complex financial institution such as the Issuer, and are often the result of inadequate or failed internal processes, controls, people or systems.

Laws and regulations are in place to protect the financial and other interests of the Issuer’s clients, investors and the public. As a large-scale global financial institution, the Issuer is subject

to numerous laws and extensive and evolving regulation by governmental agencies, supervisory authorities and self-regulatory organizations in Canada, the U.S., the UK, Europe and other jurisdictions in which it operates. In recent years, such regulation has become increasingly extensive and complex. In addition, regulatory scrutiny and expectations in Canada, the U.S., the UK, Europe and globally for large financial institutions such as the Issuer, with respect to, among other things, governance, risk management practices and controls, conduct as well as the enforcement of regulatory compliance matters has intensified. Failure to comply with these requirements and expectations or resolve any identified deficiencies could result in increased regulatory oversight and restrictions. Recent resolution of such matters involving other global financial institutions have involved the payment of substantial penalties, agreements with respect to future operation of their business, actions with respect to relevant personnel and guilty pleas with respect to criminal charges.

Operating in this increasingly complex regulatory environment and intense regulatory enforcement environment, the Issuer is and has been subject to a variety of legal proceedings, including civil claims and lawsuits, criminal charges, regulatory scrutiny, examinations and proceedings, investigations, audits and requests for information by various governmental regulatory agencies and law enforcement authorities in various jurisdictions, and the Issuer anticipates that its ongoing business activities will give rise to such matters in the future. The global scope of the Issuer's operations also means that a single issue may give rise to overlapping regulatory investigations, regulatory proceedings and or civil litigation claims in different jurisdictions. The Issuer can be subject to such proceedings due to alleged violations of law or, if determined by regulators, allegedly inadequate policies, procedures or remediation of deficiencies. Changes to laws, including tax laws, regulations or regulatory policies, as well as the changes in how they are interpreted, implemented or enforced, could adversely affect the Issuer, for example, by lowering barriers to entry in the businesses in which it operates, increasing its costs of compliance, or limiting its activities and ability to execute its strategic plans. Further, there is no assurance that the Issuer always will be, or be deemed to be, in compliance with laws, regulations or regulatory policies or expectations. Accordingly, it is possible that the Issuer could receive a judicial or regulatory enforcement judgment or decision that results in fines, damages, penalties, and other costs or injunctions, criminal convictions, or loss of licenses or registrations that would damage its reputation, and negatively impact its earnings and ability to conduct some of its businesses. In addition, the Issuer is subject to litigation arising in the ordinary course of its business and the adverse resolution of any litigation could have a significant adverse effect on its results or could give rise to significant reputational damage, which in turn could impact its future business prospects. For more information on the Issuer's ongoing litigation, see Note 25 of the 2020 Audited Consolidated Financial Statements and Note 11 of the Second Quarter 2021 Unaudited Interim Condensed Consolidated Financial Statements incorporated by reference in the Base Prospectus.

The Issuer's Regulatory Compliance Management Framework outlines how the Issuer manages and mitigates the regulatory compliance risks associated with failing to comply with, or adapt to, current and changing laws and regulations in the jurisdictions in which it operates.

Regulatory compliance risk includes the regulatory risks associated with financial crimes (which include, but are not limited to, money laundering, bribery, and sanctions), privacy, market conduct, consumer protection, business conduct, as well as prudential and other generally applicable non-financial requirements. Specific compliance policies, procedures and supporting frameworks have been developed to manage regulatory compliance risk.

4.4 Competitive risk

Competitive risk is the risk of an inability to build or maintain a sustainable competitive advantage in a given market or markets and includes the potential for loss of market share due to competitors offering superior products and services. Competitive risk can arise within or outside the financial sector, from traditional or non-traditional competitors, domestically or globally. There is intense competition for clients among financial services companies in the markets in which the Issuer operates. Client loyalty and retention can be influenced by a number of factors, including new technology used or services offered by the Issuer's competitors, relative service levels and prices, product and service attributes, its reputation, actions taken by its competitors, and adherence with competition and anti-trust laws. Other companies, such as insurance companies and non-financial companies, as well as new technological applications, are increasingly offering services traditionally provided by banks. This competition could also reduce the Issuer's revenue which could adversely affect its results.

5. Macroeconomic risks

5.1 Impact of pandemic risk factor

Pandemics, epidemics or outbreaks of an infectious disease in Canada or worldwide could have an adverse impact on the Issuer's business, including changes to the way the Issuer operates, and on the Issuer's financial results and condition. The spread of the COVID-19 pandemic, given its severity and scale, continues to adversely affect the Issuer's business to varying degrees, some of the Issuer's clients and also continues to pose risks to the global economy. At the onset of the COVID-19 pandemic, governments and regulatory bodies in affected areas imposed a number of measures designed to contain the COVID-19 pandemic, including widespread business closures, social distancing protocols, travel restrictions, school closures, quarantines, and restrictions on gatherings and events. While a number of containment measures have been and continue to be gradually eased or lifted across some regions, additional safety precautions and operating protocols aimed at containing the spread of COVID-19 including in light of second and subsequent waves of infections and the emergence of new strains of COVID-19, have been and continue to be instituted. As a result, containment measures continue to impact global economic activity, including the pace and magnitude of recovery as well as contributing to increased market volatility and changes to the macroeconomic environment. As the impacts of the COVID-19 pandemic continue to materialize, the prolonged effects of the disruption have had and continue to have adverse impacts on the Issuer's business strategies and initiatives, resulting in ongoing effects to the Issuer's financial results, including the realization of credit, market or operational risk losses.

Governments, monetary authorities, regulators and financial institutions, including the Issuer, have taken and continue to take actions in support of the economy and financial system. These actions include fiscal, monetary and other financial measures to increase liquidity, and provide financial aid to individual, small business, commercial and corporate clients. Additionally, regulatory relief measures in support of financial institutions have also been provided. For more information on these programs, refer to the Relief programs, Liquidity and funding risk and Capital management sections of the Issuer's 2020 Annual Report and Second Quarter 2021 MD&A, each of which is incorporated by reference into the Base Prospectus.

The Issuer is closely monitoring the potential continued effects and impacts of the COVID-19 pandemic, which continues to be a rapidly evolving situation. Uncertainty remains as to the full impacts of the COVID-19 pandemic on the global economy, financial markets, and the Issuer,

including on the Issuer's financial results, regulatory capital and liquidity ratios and ability to meet regulatory and other requirements. The ultimate impacts will depend on future developments that are highly uncertain and cannot be predicted, including the scope, severity, duration and additional subsequent waves of the COVID-19 pandemic, as well as the effectiveness of actions and measures taken by government, monetary and regulatory authorities and other third parties. The ongoing evolution of the development and distribution of vaccines also continues to raise uncertainty. With respect to client relief programs, the Issuer may face challenges, including increased risk of client disputes, litigation, government and regulatory scrutiny as a result of the effects of the COVID-19 pandemic on market and economic conditions and actions government authorities take in response to those conditions. The Issuer may also face increased operational and reputational risk and financial losses, including higher credit losses amongst other things, depending on the effectiveness of these client relief programs for the Issuer's individual, small business, commercial and corporate clients. The effectiveness of these programs will depend on the duration and scale of the COVID-19 pandemic and will differ by region and industry, with varying degrees of benefit to the Issuer's clients.

The COVID-19 pandemic has and may continue to result in disruptions to some of the Issuer's clients and the way in which the Issuer conducts its business, including the closure of certain branches, prolonged duration of staff working from home, and changes to the Issuer's operations due to higher volumes of client requests, as well as disruptions to key suppliers of its goods and services. These factors have adversely impacted, and may continue to adversely impact, the Issuer's business operations and the quality and continuity of service to clients. To date, the Issuer has taken proactive measures through its business continuity plans to adapt to the ongoing work from home arrangements, carefully planning the return to premise for some of the Issuer's employees, and the Issuer's crisis management teams have increased their efforts to preserve the well-being of the Issuer's employees and the Issuer's ability to serve clients. Additionally, various temporary relief programs beyond the available government programs were launched to further support the Issuer's clients in financial need. For more information on the Issuer's relief programs, refer to the Relief programs section of the Second Quarter 2021 MD&A incorporated by reference in the Base Prospectus.

In addition to the impact that the COVID-19 pandemic has had and continues to have on the Issuer's business, it may also continue to increase financial stress on some of the Issuer's clients. This, in conjunction with operational constraints due to the impacts of social distancing, including but not limited to full closures or reduced operating hours, lost sales opportunities and/or increased operating costs, could lead to increased pressure on some of the Issuer's individual clients as well as on the financial performance on some of the Issuer's small business, commercial and corporate clients, which could result in higher than expected credit losses for the Issuer.

If the COVID-19 pandemic is prolonged, including the possibility of additional subsequent waves, or further diseases emerge that give rise to similar effects, the adverse impact on the economy could deepen and result in further volatility and declines in financial markets. Moreover, it remains uncertain how the macroeconomic environment, and societal and business norms will be impacted following this COVID-19 pandemic. Unexpected developments in financial markets, regulatory environments, or consumer behaviour and confidence may also have adverse impacts on the Issuer's financial results and condition, business operations and reputation, for a substantial period of time. In virtually all aspects of the Issuer's operations, its view of risks is not static as its business activities expose it to a wide variety of risks. Consistent with the Issuer's Enterprise Risk Management Framework (ERMF),

the Issuer actively manages its risks to help protect and enable its businesses. Additionally, the Issuer continues to evaluate the impacts that the COVID-19 pandemic has had and continues to have on its business, including the impact on its top and emerging risks, operational and reputational risks as well as credit, market and liquidity and funding risks.

5.2 Systemic Risk

Systemic risk is the risk that the financial system as a whole, or a major part of it – either in an individual country, a region, or globally – is put in real and immediate danger of collapse or serious damage due to an unforeseen event causing a substantive shock to the financial system with the likelihood of material damage to the economy, and which would result in financial, reputation, legal or other risks for the Issuer.

Systemic risk is considered to be the least controllable risk facing the Issuer, leading to increased vulnerabilities as experienced during the 2008 global financial crisis and the COVID-19 pandemic. The Issuer's ability to mitigate systemic risk when undertaking business activities is limited, other than through collaborative mechanisms between key industry participants, and, as appropriate, the public sector and regulators to reduce the frequency and impact of these risks. The two most significant measures in mitigating the impact of systemic risk are diversification and stress testing.

The Issuer's diversified business model, portfolios, products, activities and funding sources help mitigate the potential impacts from systemic risk as well as having established risk limits to ensure its portfolio is diversified, and concentration risk is reduced and remains within its risk appetite.

Stress testing involves consideration of the simultaneous movements in a number of risk factors. It is used to ensure the Issuer's business strategies and capital planning are robust by measuring the potential impacts of credit, market, liquidity, and operational risks on it, under adverse economic conditions. The Issuer's enterprise-wide stress testing program evaluates the potential effects of a set of specified changes in risk factors, corresponding to exceptional but plausible adverse economic and financial market events. These stress scenarios are evaluated across the organization, and results are integrated to develop an enterprise-wide view of the impacts on the Issuer's financial results and capital requirements. For further details on the Issuer's stress testing, refer to the Enterprise risk management section on pages 58 and 59 of the Issuer's 2020 MD&A incorporated by reference into the Base Prospectus.

The Issuer's financial results are affected by the business and economic conditions in the geographic regions in which it operates. These conditions include consumer saving and spending habits as well as consumer borrowing and repayment patterns, business investment, government spending, exchange rates, sovereign debt risks, the level of activity and volatility of the capital markets, strength of the economy and inflation. Given the importance of the Issuer's Canadian and U.S. operations, a continued economic downturn may largely affect its personal and business lending activities and may result in higher provisions for credit losses. Deterioration and uncertainty in global capital markets could result in continued high volatility that would impact results in Capital Markets, while in Wealth Management weaker market conditions could lead to lower average fee-based client assets and transaction volumes. In addition, worsening financial and credit market conditions may adversely affect the Issuer's ability to access capital markets on favourable terms and could negatively affect its liquidity, resulting in increased funding costs and lower transaction volumes in Capital Markets and Investor & Treasury Services.

The Issuer's financial results are also sensitive to changes in interest rates. Central banks globally reduced benchmark interest rates in 2020, largely in response to the impact of the COVID-19 pandemic in an effort to provide support to maintain the resilience and stability of the financial systems. A continuing low interest rate environment in Canada, the U.S. and globally would result in net interest income continuing to be unfavourably impacted by spread compression across many of the Issuer's businesses while an increase in interest rates would benefit the Issuer's businesses. However, a significant increase in interest rates could also adversely impact household balance sheets, leading to credit deterioration which might negatively impact the Issuer's financial results, particularly in some of its Personal & Commercial Banking and Wealth Management businesses.

6. Overview of other risks

In addition to the risks described above, there are other risk factors, described below, which may adversely affect the Issuer's businesses and financial results. The following discussion is not exhaustive as other factors could adversely affect the Issuer's results.

Tax risk and transparency

Tax risk refers to the risk of loss related to unexpected tax liabilities. The tax laws and systems that are applicable to the Issuer are complex and wide ranging. As a result, the Issuer ensures that any decisions or actions related to tax always reflect its assessment of the long-term costs and risks involved, including their impact on the Issuer's relationship with clients, shareholders, and regulators, and its reputation.

The Issuer's tax strategy is designed to provide transparency and support its business strategy, and is aligned with the Issuer's corporate vision and values. The Issuer seeks to maximize shareholder value by structuring its businesses in a tax-efficient manner while considering reputational risk by being in compliance with all laws and regulations. The Issuer's policy seeks to ensure that it:

- Acts with integrity and in a straightforward, open and honest manner in all tax matters;
- Ensures tax strategy is aligned with the Issuer's business strategy supporting only bona fide transactions with a business purpose and economic substance;
- Ensures all intercompany transactions are conducted on arm's length terms;
- Ensures the Issuer's full compliance and full disclosure to tax authorities of its statutory obligations; and
- Endeavours to work with the tax authorities to build positive long-term relationships and where disputes occur, address them constructively.

With respect to assessing the needs of its clients, the Issuer considers a number of factors including the purpose of the transaction. The Issuer seeks to ensure that it only supports bona fide client transactions with a business purpose and economic substance. Should the Issuer become aware of client transactions that are aimed at evading their tax obligations, the Issuer will not proceed with the transactions.

Given that the Issuer operates globally, complex tax legislation and accounting principles have resulted in differing legal interpretations between the respective tax authorities the Issuer deals with and itself, and the Issuer is at risk of tax authorities disagreeing with prior positions the Issuer has taken for tax purposes. When this occurs, the Issuer is committed to an open and transparent dialogue with the tax authorities to ensure a quick assessment and prompt resolution of the issues where possible. Failure to adequately manage tax risk and resolve issues with tax authorities in a satisfactory manner could adversely impact the Issuer's results, potentially to a material extent in a particular period, and/or significantly impact the Issuer's reputation.

FACTORS THAT ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE MARKET RISKS ASSOCIATED WITH SECURITIES ISSUED UNDER THE PROGRAMME

1. Risks related to the structure of a particular issue of Securities

A wide range of Securities may be issued under the Programme. A number of these Securities may have features which contain particular risks for potential investors, the most common of which are set out below, distinguishing between factors which may occur in relation to any Securities, those which may occur in relation to any Notes, those which may occur in relation to any W&C Securities, those which may occur in relation to any Reference Item Linked Securities generally, those which may occur in relation to specific types of Reference Item Linked Securities (Index Linked Securities, Equity Linked Securities, Bond Linked Redemption Notes, Actively Managed Basket Linked Securities, Commodity Linked Securities, Fund Linked Securities, Preference Share Linked Securities and Currency Linked Securities), those which may occur in relation to Renminbi Securities, those which may occur in relation to Crest Depository Interests and those which might occur in relation to certain types of Exempt Securities. More than one risk factor may have simultaneous effects with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect, which may not be predictable. Any such combination of risk factors may have an adverse effect on the value of the Securities.

(a) Risks that may be applicable to all Securities

Early Redemption, Exercise or Cancellation

Following any early redemption, cancellation or exercise (as applicable), an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate or additional amount rate on the relevant Securities and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

No interest or additional amounts may be payable under the Securities

Prospective investors should note that the terms and conditions of certain Securities provide that no interest or additional amounts may be paid on the Securities on or prior to their redemption or settlement date. An investor in such Securities, in the context of its own financial position, must be capable of holding such Securities to maturity with no income stream in the form of interest or additional amounts payable.

As there may be no periodic payment of interest or additional amounts to the Holders, any increase in the value of the underlying, as the case may be, will not be crystallised until the

Securities are redeemed or settled (as applicable), and the Securities may fall in value at any time prior to redemption or settlement (as applicable).

Securities issued at a substantial discount or premium may experience price volatility in response to changes in interest rates

The issue price of Securities specified in the applicable Final Terms may be more than the market value of such Securities as of the issue date, and the price, if any, at which a Dealer or any other person willing to purchase the Securities in secondary market transactions may be lower than the issue price. In particular, the issue price may take into account amounts with respect to commissions relating to the hedging of the Issuer's obligations under such Securities, and secondary market prices are likely to exclude such amounts. In addition, pricing models of market participants may differ or produce a different result.

The market values of Securities issued at a substantial discount (such as Zero Coupon Notes) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing Securities. Generally, the longer the remaining term of such Securities, the greater the price volatility as compared to more conventional interest-bearing Securities with comparable maturities.

Early redemption or cancellation for Illegality

In the event that the Issuer determines in good faith that the performance of the Issuer's obligations under the Securities or that any arrangements made to hedge the Issuer's obligations under such Securities have or will become unlawful, illegal, or otherwise prohibited in whole or in part, as a result of compliance with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power, or the interpretation thereof, the Issuer may redeem the Notes early at an amount equal to the fair market value of each Security taking into account hedge costs, in the case of Non-Exempt Securities or Swiss Non-Exempt Securities, or at the Early Redemption Amount specified in the applicable Pricing Supplement, in the case of Exempt Securities, together if appropriate with accrued interest or, in the case of W&C Securities, cancel such W&C Securities upon payment to each Holder of an amount in respect of each W&C Security or Unit, as the case may be, equal to the fair market value of each W&C Security or Unit, as the case may be, plus (in the case of Warrants), if already paid, by or on behalf of the Holder, the Exercise Price together with accrued Additional Amounts (if applicable), and in each case taking into account hedging losses by any Hedging Entity, provided that in respect of Bail-inable Securities where such redemption or cancellation, as applicable, would lead to a breach of the Issuer's minimum TLAC requirements, such cancellation or redemption will be subject to the prior approval of the Superintendent. The amount due on any such redemption or cancellation (as applicable) may be substantially less than an investor's investment in the Securities and may in certain circumstances be zero.

Risks relating to Securities which provide for Physical Delivery

In the case of Notes and W&C Securities which provide for Physical Delivery, the Calculation Agent may determine that a Settlement Disruption Event is subsisting and/or where Failure to Deliver due to Illiquidity is specified as applying in the applicable Final Terms, that it is impossible or impracticable to deliver when due some or all of the specified assets due to illiquidity in the relevant market. A Settlement Disruption Event is an event beyond the control of the Issuer, as a result of which, in the opinion of the Calculation Agent, delivery of the specified assets to be delivered by or on behalf of the Issuer in accordance with the Conditions and/or, in the case of Exempt Securities, the applicable Pricing Supplement, is not practicable. Any such determination may adversely affect the value of the Securities and/or may delay

settlement in respect of the Securities and/or lead to cash settlement rather than physical settlement in respect of the Securities.

The Issuer will not be responsible for any such delay in settlement and shall not be obliged to compensate Holders who will suffer any losses arising in connection therewith. Holders will be solely responsible for determining whether they are permitted to hold any underlying securities, including under applicable securities laws.

All Expenses arising from the delivery of the specified assets in respect of such Securities shall be for the account for the relevant Holders, which will reduce any value realisable from such delivery, and no delivery of the Reference Item(s) shall be made until all Expenses have been paid to the satisfaction of the Issuer.

The investor must deliver a duly completed Asset Transfer Notice (in the case of Notes) or a Collection Notice (in the case of Redeemable Certificates) within 180 calendar days of the Cut-Off Date or the Issuer's obligations under the Securities will be discharged and the Issuer will have no further liability in respect thereof.

Minimum Trading Size Risk

Securities may, if specified in the applicable Final Terms, be subject to a Minimum Trading Size, in which case such Securities will, for so long as they are held in a clearing system, be transferable only in a principal amount in the case of Notes or in a number in the case of W&C Securities, of not less than such Minimum Trading Size, meaning a Holder holding a principal amount or number less than the Minimum Trading Size would need to purchase further Securities such that such principal amount or number equals the Minimum Trading Size in order to transfer its Securities. Notwithstanding the foregoing, such Securities will only be transferable in accordance with the rules of the relevant clearing system.

Risks relating to benchmark reforms and discontinuation

The regulation and reform of "benchmarks" may adversely affect the value of and return on Securities linked to or referencing such "benchmarks".

Published levels used as benchmarks have come under increasing regulatory scrutiny in recent years, and have been the subject of a number of national and international regulatory initiatives and investigations. Such levels include high profile market rates, (e.g. the London Inter-Bank Offered Rate ("**LIBOR**") and the Euro Interbank Offered Rate ("**EURIBOR**")) but also many other rates, levels, indices and strategies that are determined to be used as benchmarks (including many interest rate, equity, commodity, foreign exchange and other types of indices). Some of these regulatory initiatives are already effective whilst others are still to be implemented in full. Different interest rate benchmarks are being reformed or discontinued at different speeds and in different ways. Such regulatory initiatives could include, among other things, reforms to other benchmarks similar to those reforms announced in relation to LIBOR. These initiatives may cause such benchmarks to perform differently than they performed in the past or to be discontinued entirely and may have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on the value of and return on any Securities referencing, or linked to, such benchmark.

Regulation (EU) 2016/1011, as amended (the "**Benchmarks Regulation**") applies, subject to certain transitional provisions, to "contributors", "administrators" and "users" of "benchmarks" in the EU, and among other things, (i) requires benchmark administrators to be authorised or registered (or, if located outside the EU, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the

administration of benchmarks and (ii) prevents certain uses by EU supervised entities of benchmarks of administrators that are not authorised/registered (or, if located outside the EU, deemed equivalent or recognised or endorsed). Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of the EUWA (the "**UK Benchmarks Regulation**"), is the relevant regulatory regime applicable to, among other things, the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The scope of each of the Benchmarks Regulation and the UK Benchmarks Regulation is wide and, in addition to so-called "critical benchmark" indices such as LIBOR or EURIBOR, applies, for example, to many interest rates, foreign exchange rate indices, commodity indices, equity indices and other indices (including "proprietary" indices or strategies) where used to determine the amount payable under or the value of certain financial instruments traded on a trading venue (being certain regulated markets, multilateral trading facilities (MTFs) or organised trading facilities (OTFs)) or via a "systematic internaliser", or to measure the performance of certain investment funds with the purpose of tracking the return or defining the asset allocation or computing the performance fees.

The Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Securities linked to or referencing a benchmark, in particular if certain regulatory approvals with respect to the administrator or benchmark are not obtained and/or maintained which may restrict certain uses of the benchmark by a supervised entity, or if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Changes to the methodology or other terms of a benchmark could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of that benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, may have (without limitation) the following effects on certain benchmarks: (i) increasing the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements; (ii) discouraging market participants from continuing to administer or contribute to a benchmark; (iii) triggering changes in the rules or methodologies used in the benchmark and/or (iv) leading to the disappearance of the benchmark.

Any of the above factors could have a material adverse effect on the value of and return on any Securities linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark and/or could potentially lead to such Securities being de-listed, adjustments being made to their terms, their early redemption or termination, or other impacts depending on the particular benchmark and the applicable terms of the Securities.

Specifically, the sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. The UK Financial Conduct Authority (the "**FCA**") has indicated through a series of announcements that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. On March 5, 2021, ICE Benchmark Administration Limited ("**IBA**"), the administrator of LIBOR, published a statement confirming its intention to cease publication of all LIBOR settings, together with the dates on which this will occur, subject to the FCA exercising its powers to require IBA to continue publishing such LIBOR settings using a changed methodology (the "**IBA announcement**"). Concurrently, the FCA published a statement on the future cessation and loss of representativeness of all LIBOR currencies and tenors, following the dates on which IBA

has indicated it will cease publication (the "**FCA announcement**" and together with the IBA announcement, the "**Announcements**"). Permanent cessation will occur immediately after December 31, 2021 for all Euro and Swiss Franc LIBOR tenors and certain Sterling, Japanese Yen and USD LIBOR settings and immediately after June 30, 2023 for certain other USD LIBOR settings. In relation to the remaining LIBOR settings (1-month, 3-month and 6-month Sterling, USD and Japanese Yen LIBOR settings), the FCA has published a consultation on using its powers to require IBA to continue their publication under a changed methodology for a further time-limited period after end-2021 (end-June 2023 in the case of USD LIBOR for contracts that cannot transition). The FCA announcement states that consequently, these LIBOR settings will no longer be representative of the underlying market that such settings are intended to measure immediately after December 31, 2021, in the case of the Sterling and Japanese Yen LIBOR settings and immediately after June 30, 2023, in the case of the USD LIBOR settings.

Following this, IBA launched a consultation on ceasing publication of the GBP LIBOR ICE Swap Rate (which uses interest rate swap transactions referencing GBP LIBOR as input data) for all tenors immediately after publication on December 31, 2021 and it expects to consult on the potential cessation of the USD LIBOR ICE Swap Rate in due course. In this respect ISDA has launched a consultation on fallbacks for the GBP LIBOR ICE Swap Rate and the USD LIBOR ICE Swap Rate, including replacement rate calculations based on an adjusted SONIA ICE Swap Rate or SOFR ICE Swap Rate (as applicable).

Regulatory authorities and central banks have stated that market participants need to have removed dependencies on LIBOR by the end of December 2021 and have identified so-called "risk free rates" to replace LIBORs as primary benchmarks (and have also set various interim milestones for transitioning from LIBORs to "risk free rates"). In the case of GBP LIBOR, the Working Group on Sterling Risk-Free Rates, convened by the Bank of England, has identified the Sterling Overnight Index Average ("**SONIA**") as its recommended replacement rate, in the United States of America, the Alternative Reference Rate Committee recommended the Secured Overnight Financing Rate ("**SOFR**") as the replacement rate for USD-LIBOR, the Bank of Canada has adopted enhancements to the Canadian Overnight Repo Rate Average ("**CORRA**") and in Japan the Sub-Group for the Development of Term Reference Rates which forms part of the Cross Industry Committee on Japanese Yen Interest Rate Benchmarks has stated the Tokyo Overnight Average ("**TONA**") shall be the main alternative benchmark for the JPY interest rate swaps market (although market participants are not necessarily precluded from using other alternative benchmarks including the Tokyo Term Risk Free Rate (TORF) and TIBOR).

Separately, the euro risk free-rate working group for the euro area has recommended Euro Short-term Rate ("**€STR**") as the new risk free rate for the euro area and has published a set of guiding principles and high level recommendations for fallback provisions in, among other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On May 11, 2021, the euro risk free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by benchmark reforms and investigations in making any investment decision with respect to the Securities.

Benchmark Transition Event

In the case of certain Floating Rate Notes where Screen Rate Determination is specified in the Final Terms and Interest Rate Linked Warrants, the Conditions provide for certain fallback

arrangements in the event that a Benchmark Transition Event occurs. A Benchmark Transition Event may occur if a relevant floating rate to which the Securities are linked (whether directly or indirectly) ceases to exist or be published or a relevant supervisor publicly announces such rate is or will be non-representative. These fallback arrangements include the possibility that the Rate of Interest (in the case of Floating Rate Notes) or Settlement Price (in the case of Interest Rate Linked Warrants) could be determined by reference to one or more replacement benchmark rate(s) (including any spread adjustment thereto) and adjustment(s) could be made to the terms of the Securities. Any such replacement rate determined under these fallback provisions may be based on a risk free rate, accordingly see also "The market continues to develop in relation to risk free rates" below. If any such spread adjustment is negative, it will mean the application of a lower rate which could result in lower payments under the Securities. Even if any such spread adjustment is positive, there can be no assurance that the adjustment will fully mitigate any transfer of economic value between the Issuer and Holders.

Any of these fallback provisions may result in payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Securities if the previous rate had continued being published in its current form.

Administrator/Benchmark Event

The occurrence of an Administrator/Benchmark Event may cause early redemption or termination or adjustment of the Securities, which may include selecting one or more successor benchmark(s) and making related adjustment(s) to the Securities, including if applicable to reflect increased costs. Even where such adjustment(s) are positive, there can be no assurance that the adjustment will fully mitigate any transfer of economic value between the Issuer and Holders.

An Administrator/Benchmark Event may arise on a modification or cessation of a benchmark, prohibition of its use by an official sector entity, a failure to obtain or retain (whether temporarily or permanently) required authorisation, registration, recognition, endorsement, equivalence or approval in relation to the benchmark or its administrator or sponsor, or if a relevant supervisor officially announces the benchmark is or will be no longer representative. Any adjustment to the Securities may result in payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Securities had the event not occurred and if the Securities are redeemed or terminated, there is no guarantee that the amount paid to investors will be equal to or higher than the investor's initial investment in the relevant Securities and such amount may be substantially less than the investor's initial investment.

Swap Rate Linked Securities

Investors should note in the case of swap rate linked Securities, there is currently no industrywide approach for dealing with the discontinuance or non-representativeness in the context of IBOR linked swap rates across all currencies and a complete consensus does not exist as to what rate or rates may become accepted replacements and it is possible that the Calculation Agent may select the least favourable replacement rate when exercising any discretion set out above. Additionally, even where administrators have published new swap rates linked to risk free rates, there can be no guarantee that such rates will be liquid or recognised or acknowledged as being the industry standard, and the method by which such new swap rates are calculated may change in the future. Consequently, the outcomes of determinations by the Calculation Agent may be unpredictable.

In any event, prior to any date of actual cessation or non-representativeness of the relevant rate, market participants may be discouraged from contributing to the underlying constant

maturity swap by reference to which the relevant swap rate is determined. Consequently, there may be inconsistent, limited or no liquidity in such instruments. This may happen more frequently as the relevant date of actual cessation or non-representativeness approaches. In particular this may occur at times when the Calculation Agent is required to make a determination in respect of such rate under the Securities.

All of this may have a material adverse effect on the market value of, and return (if any) on the relevant Securities.

ISDA Determination

Where ISDA Determination is specified in the Final Terms for any issuance of Securities, the calculation of amounts due under the Securities will be determined by reference to the Floating Rate under an interest rate swap incorporating the 2006 ISDA Definitions. Supplement 70 to the 2006 ISDA Definitions (the "**ISDA IBOR Fallbacks Supplement**") (unless excluded under the terms of the relevant Securities) includes fallbacks which will replace any Floating Rate that is a 'Relevant IBOR' in circumstances broadly similar to a Benchmark Transition Event: namely a permanent cessation of that Relevant IBOR and, for LIBOR Floating Rates, an announcement that such Relevant IBOR is no longer representative (in each case subject to interpolation of longer and shorter tenors of the relevant rates not being possible). 'Relevant IBORs' include GBP LIBOR, CHF LIBOR, USD LIBOR, EUR LIBOR, EURIBOR, JPY LIBOR, TIBOR, BBSW, CDOR, HIBOR, SOR, and THBFX. Once the relevant trigger event takes effect, the Floating Rate will fall back to a term adjusted risk-free rate for the relevant currency plus a spread. If any such spread is negative, it will mean the application of a lower rate, which could result in lower payments under the Securities. Even if any such spread is positive, there can be no assurance that the adjustment will fully mitigate any transfer of economic value between the Issuer and Holders.

It should be noted that the ISDA IBORs Fallbacks Supplement will not cover all possible Floating Rates and this risk factor should be read accordingly.

Any of these fallback provisions may result in payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Securities if the previous rate had continued being published in its current form.

Any replacement rate determined under the ISDA IBORs Fallbacks Supplement will be based on a risk free rate, accordingly see also "The market continues to develop in relation to risk free rates" below.

LIBOR transition and risks relating to anticipatory trigger events

For any Securities where the reference rate or benchmark is a LIBOR (or is linked to a LIBOR such as a swap rate), the Announcements may have triggered certain of the fallback provisions set out above (such trigger being an "**anticipatory trigger**"), although the consequences of such fallbacks may not be immediately effective under the terms of the Securities. Prospective investors should ensure that they read the fallback provisions applicable to the particular Securities and the related risk factors in light of this possibility. Whilst an anticipatory trigger may not result in the immediate replacement of the applicable rate or benchmark with a successor rate or benchmark, when changes are made there is a risk that the return on the Securities will be adversely affected (including that Holders receive a significantly lower amount of interest or other return) or that the Securities may be early redeemed or cancelled.

The market continues to develop in relation to risk free rates

Where the applicable Final Terms for the Securities identifies a risk free rate or risk free-based rate (each a "**New Reference Rate**") as a relevant rate for such Securities (eg. SONIA, SOFR, CORRA, €STR or TONA), or any such New Reference Rate is determined as the basis of a replacement rate as provided above investors should note that each such New Reference Rate will differ from the relevant currency LIBOR or EURIBOR rate in a number of material respects. These include (without limitation) by being backwards-looking in most cases or potentially being calculated on a compounded or weighted average basis and by their nature being a risk-free rate, where LIBOR and EURIBOR are expressed on the basis of a forward-looking term and include a risk-element based on inter-bank lending. As such, investors should be aware that LIBOR, EURIBOR and the New Reference Rates may behave materially differently as reference rates for Securities issued under the Programme.

It should be noted that where a New Reference Rate is a backward-looking rate observed over or at the end of a period, related calculations under the Securities will only be able to be made at the end of such period, which may be shortly before the relevant payment is due and it may be difficult for investors in such Securities to estimate reliably in advance the amount which will be payable.

The market or a significant part thereof may adopt an application of a New Reference Rate that differs significantly from that set out in the Conditions (as applicable as adjusted where such New Reference Rate is a replacement rate) and used in relation to Securities referencing such New Reference Rate that are issued under the Programme. Furthermore, the Issuer may in future issue Securities referencing a New Reference Rate that differ materially in terms of interest determination when compared with any previous Securities issued under the Programme referencing (whether on issue or on a replacement) such New Reference Rate. The nascent development of compounded daily New Reference Rates as interest reference rates for the Eurobond markets, as well as continued development of New Reference Rate based rates for such market and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any New Reference Rate referenced Securities issued under the Programme from time to time.

In addition, the manner of adoption or application of the New Reference Rates as reference rates in the Eurobond markets may differ materially compared with the application and adoption of the New Reference Rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of the New Reference Rates as reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Securities referencing any such rate.

To the extent a rate for a New Reference Rate is not published, the applicable rate to be used to calculate relevant amount(s) due on Securities referencing such New Reference Rate will be determined using the fallback provisions set out in the Conditions. Any of these fallback provisions may result in interest payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Securities if such New Reference Rate had been so published in its current form.

Investors should carefully consider all of these matters when making their investment decision with respect to any such Securities.

(b) ***Risks relating to Notes generally***

Notes subject to optional or mandatory early redemption by the Issuer

An optional redemption feature is likely to limit the market value of the Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

If the Notes are redeemable early at the Issuer's option or otherwise subject to mandatory redemption, the Issuer may be expected to (in the case of optional redemption) or must (in the case of mandatory redemption) redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Certain Notes may be redeemed early at their then market value less associated costs, in each case according to the Note Conditions. The market value of such Notes upon early redemption may be substantially less than par or even zero.

Notes with a rate of interest which may change

If the interest rate on the Notes can convert from one interest rate basis to another during the life of the Notes, including where such conversion is at the option of the Issuer, such a feature and any such conversion may affect the secondary market in, and the market value of, the Notes concerned, as the change of interest basis may result in a lower interest return for Holders.

If the Issuer has the ability to convert the interest rate the Issuer will be expected to convert the rate when it is likely to result in a lower overall cost of borrowing for the Issuer, which is likely to reduce the interest rate applicable to the Securities and therefore amount of interest received by investors. If on any such conversion, the spread is less favourable than then prevailing spreads on comparable floating rate Notes tied to the same reference rate(s) (in the case of a conversion to floating rate), or the fixed rate is lower than prevailing fixed rates on the Issuer's Notes (in the case of a conversion to fixed rate), the return for investors may be lower than might otherwise have been the case and the market value of the Notes may be adversely affected.

(c) ***Risks relating to W&C Securities generally***

Certain Factors May Adversely Affect the Value and Trading Price of W&C Securities

Either (1) the Cash Settlement Amount (in the case of Cash Settled W&C Securities) or (2) the value of the specified assets less (in the case of Warrants) the Exercise Price (in the case of Physical Delivery W&C Securities) (the "**Physical Settlement Value**") at any time prior to expiration (in the case of an Exercisable Certificate or Warrant) or redemption (in the case of a Redeemable Certificate) is typically expected to be less than the trading price of such W&C Securities at that time. The difference between the trading price and the Cash Settlement Amount or the Physical Settlement Value, as the case may be, will reflect, among other things, the "time value" of the W&C Securities. The "time value" of the W&C Securities will depend partly upon the length of the period remaining to expiration (in the case of an Exercisable Certificate or Warrant) or redemption (in the case of a Redeemable Certificate) and expectations concerning the price or level of the Reference Item(s). W&C Securities offer

hedging and investment diversification opportunities but also pose some additional risks with regard to interim value. The interim value of the W&C Securities varies with the price or level of the Reference Item(s), as well as by a number of other interrelated factors, including those specified herein.

Before exercising (in the case of Exercisable Certificates or Warrants) or selling W&C Securities, Holders should carefully consider, among other things, (i) the trading price of the W&C Securities, (ii) the price or level and volatility of the Reference Item(s), (iii) the time remaining to expiration or automatic exercise (in the case of an Exercisable Certificate or Warrant) or redemption (in the case of a Redeemable Certificate), (iv) in the case of Cash Settled W&C Securities, the probable range of Cash Settlement Amounts, (v) any change(s) in interim interest rates and dividend yields if applicable, (vi) any change(s) in currency exchange rates and (vii) any related transaction costs, as these factors will impact the return on the W&C Securities and could have an adverse effect on the value of the W&C Securities.

An optional call or Trigger Early Exercise or redemption feature in W&C Securities is likely to limit their market value. In the case of an optional call feature, during any period when the Issuer may elect to call W&C Securities, the market value of those W&C Securities generally will not rise substantially above the price at which they can be exercised or redeemed. This also may be true prior to any call period. In the case of a mandatory exercise or redemption feature, if the relevant Trigger Early Exercise Event or Trigger Early Redemption Event (as applicable) occurs the W&C Securities will be exercised or redeemed prior to their originally designated redemption or expiry date. Potential investors should be aware that in certain circumstances, an optional call or Trigger Early Exercise or redemption of the W&C Securities by the Issuer may result in a loss of all or a substantial portion of their investment.

Expenses and Taxes

Subject to the Issuer's obligation to pay extra amounts in respect of Redeemable Certificates and Exercisable Certificates that evidence deposit liabilities under the *Bank Act* (Canada) (in the case of Exercisable Certificates, the applicable Final Terms will indicate if they evidence deposit liabilities) only as provided for and referred to in Condition 12.03 of the W&C Security Conditions, a Holder of a W&C Security must pay all Expenses relating to the W&C Securities, which will reduce the net value the Holder may receive in respect of such W&C Securities. As used in the W&C Security Conditions, "**Expenses**" means all taxes, duties and/or expenses, including any applicable depositary charges, transaction, exercise or redemption charges, trading costs, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or taxes or duties arising in connection with the exercise or redemption, as the case may be, of the W&C Securities and/or, where applicable, the delivery or transfer of any specified assets as more fully set out in Condition 12 of the W&C Security Conditions.

Subject to the Issuer's obligation to pay extra amounts in respect of Redeemable Certificates and Exercisable Certificates that evidence deposit liabilities under the *Bank Act* (Canada) (in the case of Exercisable Certificates, the applicable Final Terms will indicate if they evidence deposit liabilities) only as provided for and referred to in Condition 12.03 of the W&C Security Conditions, the Issuer will not otherwise be liable for, or obliged to pay, any tax, duty or other payment which may arise as a result of the ownership, transfer, exercise (in the case of the Exercisable Certificates or Warrants), redemption (in the case of Redeemable Certificates) or enforcement of any W&C Security by any person and all payments and/or deliveries made by the Issuer will be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted. This means that if any such tax, duty or other payment arises, the amount payable and/or deliverable (as applicable) to investors will be reduced.

The time lag between the time a Holder gives instructions to exercise and the time the applicable Cash Settlement Amount relating to such exercise is determined could decrease the Cash Settlement Amount for Exercisable Certificates and Warrants

In the case of any exercise of Exercisable Certificates or Warrants, there will be a time lag between the time a Holder gives instructions to exercise and the time the applicable Cash Settlement Amount (in the case of Cash Settled Exercisable Certificates and Warrants) relating to such exercise is determined. Any such delay between the time of exercise and the determination of the Cash Settlement Amount will be specified in the W&C Security Conditions. However, such delay could be significantly longer, particularly in the case of a delay in exercise of Exercisable Certificates or Warrants arising from any daily maximum exercise limitation (in the case of American Style W&C Securities), the occurrence of a market disruption event or failure to open of an exchange or related exchange (if applicable) or following the imposition of any exchange controls or other similar regulations affecting the ability to obtain or exchange any relevant currency (or basket of currencies) in the case of Currency Linked W&C Securities. The applicable Cash Settlement Amount may change significantly during any such period, and such movement or movements could decrease the Cash Settlement Amount of the Exercisable Certificates or Warrants being exercised and may result in such Cash Settlement Amount being zero.

Holders may have to tender a specified number of Exercisable Certificates or Warrants at any one time in order to exercise

If so indicated in the applicable Final Terms, a Holder must tender or hold a specified number of Exercisable Certificates or Warrants at any one time in order to exercise. Thus, Holders with fewer than the specified minimum number of Exercisable Certificates or Warrants will either have to sell their Exercisable Certificates or Warrants, or purchase additional Exercisable Certificates or Warrants, incurring transaction costs in each case, in order to realise their investment. Furthermore, Holders of such Exercisable Certificates or Warrants incur the risk that the trading price at which they had to sell such Exercisable Certificates or Warrants, as applicable, is lower than, or the trading price at which they had to purchase such Exercisable Certificate or Warrants, as applicable, is greater than, the Cash Settlement Amount (in the case of Cash Settled W&C Securities) or the Physical Settlement Value of such Exercisable Certificates or Warrants.

The number of American Style W&C Securities exercisable on any date other than the Expiration Date may be subject to a maximum

In the case of American Style W&C Securities, if so indicated in the applicable Final Terms, the Issuer will have the option to limit the number of American Style W&C Securities exercisable on any date (other than the Expiration Date) to the maximum number specified in the applicable Final Terms and, in conjunction with such limitation, to limit the number of American Style W&C Securities exercisable by any person or group of persons (whether or not acting in concert) on such date. In the event that the total number of American Style W&C Securities being exercised on any date (other than the Expiration Date) exceeds such maximum number and the Issuer elects to limit the number of American Style W&C Securities exercisable on such date, a Holder may not be able to exercise on such date all American Style W&C Securities that such Holder desires to exercise and may only be able to receive the relevant Cash Settlement Amount or Physical Settlement Value, as applicable, in respect of fewer W&C Securities than it desires. In any such case, the number of American Style W&C Securities to be exercised on such date will be reduced until the total number of American Style W&C Securities exercised on such date no longer exceeds such maximum, such American Style W&C Securities to be exercised being selected at the discretion of the Issuer or, in the case of W&C Securities which are Exempt Securities (“**Exempt W&C Securities**”), in any other manner specified in the applicable Pricing Supplement. The American Style W&C Securities tendered for exercise but not exercised on

such date will be automatically exercised on the next date on which American Style W&C Securities may be exercised, subject to the same daily maximum limitation and delayed exercise provisions, unless otherwise specified in the applicable Pricing Supplement in the case of Exempt W&C Securities. In this case the Cash Settlement Amount or Physical Settlement Value, as applicable, in respect of those later exercised American Style W&C Securities may be less than that due in respect of the American Style W&C Securities exercised on the original date tendered. This feature may therefore also adversely affect the market value of the relevant American Style W&C Securities.

Exercise Notices

In order to receive payment of any amount or delivery of any specified assets due under (i) an Exercisable Certificate or Warrant that is not automatically exercised, (ii) an automatically exercised Cash Settled W&C Security where Delivery of Exercise Notice is specified as applicable in the applicable Final Terms, or (iii) an automatically exercised Physical Delivery W&C Security, the relevant Holder will be required to deliver or send to the relevant clearing system, in a manner acceptable to such clearing system, a duly completed Exercise Notice, with a copy to the Issuer and the Issuing and Paying Agent in accordance with the W&C Security Conditions.

If, in the case of Exercisable Certificates or Warrants other than ones subject to “**Automatic Exercise**”, a Holder does not submit a valid Exercise Notice before the Expiration Date of the W&C Securities, such Exercisable Certificates or Warrants, as applicable, will become void.

In the case of Exercisable Certificates or Warrants subject to Automatic Exercise (i) in the case of Cash Settled W&C Securities where Delivery of Exercise Notice is specified as applicable in the applicable Final Terms, or (ii) in the case of Physical Delivery W&C Securities, if an Exercise Notice is not submitted within 180 days after the Expiration Date or Actual Exercise Date (as applicable), the Issuer’s obligations in respect of the Securities shall be discharged.

In both cases, the Holder will not receive the relevant Cash Settlement Amount or Physical Settlement Value if it does not submit a valid Exercise Notice in accordance with the W&C Security Conditions.

Open-Ended W&C Securities

Open-Ended W&C Securities do not have any pre-determined cancellation date or expiration date and may be cancelled on any date determined by the Issuer, in its sole and absolute discretion, subject to compliance with the W&C Security Conditions. Investment in Open-Ended W&C Securities will entail additional risks compared with other W&C Securities, due to the fact that the cancellation date or expiration date for such Open-Ended W&C Securities cannot be determined by the investors, which therefore increases the uncertainty regarding amounts (if any) Holders can expect to receive in respect of the W&C Securities and the timing of receipt of any such amounts.

Warrants which are Dual Warrants

Warrants may be issued which may be purchased and held together with another series of Warrants as a unit and, when so purchased and held, for listing and trading purposes, comprise a Dual Warrant. While investors may purchase Dual Warrants with the expectation that one of the Warrants in the Dual Warrant will provide a return when the other does not, the Warrants that comprise a Dual Warrant are independent and investors could lose their investment in each Warrant in the same way as if they held them separately.

(d) **Risks relating to Bail-inable Securities**

Bail-inable Securities will be subject to risks, including non-payment in full or conversion in whole or in part – by means of a transaction or series of transactions and in one or more steps

– into common shares of the Issuer or any of its affiliates, under Canadian bank resolution powers.

Securities that are Bail-inable Securities (as defined below) are subject to conversion in whole or in part – by means of a transaction or series of transactions and in one or more steps – into common shares of the Issuer or any of its affiliates under subsection 39.2(2.3) of the *Canada Deposit Insurance Corporation Act* (Canada) (the “**CDIC Act**”) and to variation or extinguishment in consequence, and subject to the application of the laws of the Province of Ontario and the federal laws of Canada applicable therein in respect of the operation of the CDIC Act with respect to the Bail-inable Securities. Notwithstanding any other terms of the Bank’s liability, any other law that governs the Bank’s liability and any other agreement, arrangement or understanding between the parties with respect to the Bank’s liability, each holder or beneficial owner of an interest in the Bail-inable Securities is deemed to be bound by the laws of the Province of Ontario and the federal laws of Canada applicable therein in respect of the operation of the CDIC Act with respect to the Bail-inable Securities and is deemed to attorn to the jurisdiction of the courts in the Province of Ontario in Canada.

Certain provisions of and regulations under the *Bank Act* (Canada) (the “**Bank Act**”), the CDIC Act and certain other Canadian federal statutes pertaining to banks (collectively, the “**Bail-in Regime**”), provide for a bank recapitalization regime for banks designated by the Superintendent of Financial Institutions (Canada) (the “**Superintendent**”) as D-SIBs, which include the Issuer.

The expressed objectives of the Bail-in Regime include reducing government and taxpayer exposure in the unlikely event of a failure of a D-SIB, reducing the likelihood of such a failure by increasing market discipline and reinforcing that bank shareholders and creditors are responsible for the D-SIBs’ risks and not taxpayers, and preserving financial stability by empowering the Canada Deposit Insurance Corporation (“**CDIC**”), Canada’s resolution authority, to quickly restore a failed D-SIB to viability and allow it to remain open and operating, even where the D-SIB has experienced severe losses.

Under the CDIC Act, in circumstances where the Superintendent is of the opinion that the Issuer has ceased, or is about to cease, to be viable and viability cannot be restored or preserved by exercise of the Superintendent’s powers under the Bank Act, the Superintendent, after providing the Issuer with a reasonable opportunity to make representations, is required to provide a report to CDIC. Following receipt of the Superintendent’s report, CDIC may request the Minister of Finance for Canada (the “**Minister of Finance**”) to recommend that the Governor in Council (Canada) make an Order (as defined below) and, if the Minister of Finance is of the opinion that it is in the public interest to do so, the Minister of Finance may recommend that the Governor in Council (Canada) make, and on such recommendation, the Governor in Council (Canada) may make, one or more Orders including a Conversion Order (see “*Risks related to the Securities generally – Canadian bank resolution powers confer substantial powers on Canadian authorities designed to enable them to take a range of actions in relation to the Issuer where a determination is made that the Issuer has ceased, or is about to cease, to be viable and such viability cannot be restored or preserved, which if taken could result in holders or beneficial owners of Securities being exposed to losses*”).

Upon the making of a Conversion Order, prescribed shares and liabilities under the Bail-in Regime that are subject to that Conversion Order will, to the extent converted, be converted into common shares of the Issuer or any of its affiliates, as determined by CDIC (a “**Bail-in Conversion**”). Subject to certain exceptions discussed below, the Bail-in Regime provides that senior debt issued on or after September 23, 2018, with an initial or amended term to maturity, (including explicit or embedded options) greater than 400 days, that is unsecured or partially secured and that has been assigned a CUSIP or ISIN or similar identification number are subject to a Bail-in Conversion. Shares, other than common shares, and subordinated debt of the Issuer will also be subject to a Bail-in Conversion, unless they are non-viability contingent

capital. All Securities that are subject to Bail-in Conversion will be identified as Bail-inable Securities in the applicable Final Terms (“**Bail-inable Securities**”). While no definitive guidance has been provided on the interpretation of terms such as maturity, principal and interest as used in the Bail-in Regime and TLAC Guideline (as defined below), and so no certainty can be provided in this regard, it is expected that such terms when applied to W&C Securities, include redemption, cancellation, exercise or expiration in the case of maturity, and Additional Amounts and Cash Settlement Amounts in the case of interest and principal, respectively.

Covered bonds, derivatives and certain structured notes (as such term is used under the Bail-in Regime) are expressly excluded from a Bail-in Conversion. To the extent that any Securities constitute structured notes (as such term is used under the Bail-in Regime) they will not be Bail-inable Securities and will not be identified as Bail-inable Securities in the applicable Final Terms. As a result, claims of some creditors whose claims would otherwise rank equally with those of the holders of Bail-inable Securities would be excluded from a Bail-in Conversion and thus the holders and beneficial owners of Bail-inable Securities will have to absorb losses ahead of these other creditors as a result of the Bail-in Conversion while other creditors may not be exposed to losses. A structured note under the Bail-in Regime is a debt obligation that:

- (a) specifies that the obligation’s stated term to maturity, or a payment to be made by its issuer, is determined in whole or in part by reference to an index or reference point, including:
 - (i) the performance or value of an entity or asset,
 - (ii) the market price of a security, commodity, investment fund or financial instrument,
 - (iii) an interest rate, and
 - (iv) the exchange rate between two currencies; or
- (b) contains any other type of embedded derivative or similar feature,

excluding however the following debt obligations:

- (a) a debt obligation in respect of which the stated term to maturity, or a payment to be made by its issuer, is determined in whole or principally by reference to the performance of a security of that issuer; and
- (b) a debt obligation that:
 - (i) specifies that the return on the debt obligation is determined by a fixed or floating interest rate or a fixed spread above or below a fixed or floating interest rate, regardless of whether the return is subject to a minimum interest rate or whether the interest rate changes between fixed and floating,
 - (ii) has no other terms affecting the stated term to maturity or the return on the debt obligation, with the exception of the right of the issuer to redeem the debt obligation or the right of the holder or issuer to extend its term to maturity, and
 - (iii) is payable in cash.

If the CDIC were to take action under the Canadian bank resolution powers with respect to the Issuer, this could result in holders or beneficial owners of Bail-inable Securities being exposed to conversion of the Bail-inable Securities in whole or in part. Upon a Bail-in Conversion, the holders of Bail-inable Securities that are converted will be obligated to accept the common shares of the Issuer or any of its affiliates into which such Bail-inable Securities, or any portion thereof, are converted even if such holders do not at the time consider such common shares to be an appropriate investment for them, and despite any change in the Issuer or any of its affiliates, or the fact that such common shares are issued by an affiliate of the Issuer or any disruption to or lack of a market for such common shares or disruption to capital markets

generally. The terms and conditions of the Bail-in Conversion will be determined by CDIC in accordance with and subject to certain requirements discussed below (see “*The number of common shares to be issued in connection with, and the number of common shares that will be outstanding following, a Bail-in Conversion are unknown. It is also unknown whether the shares to be issued will be those of the Issuer or one of its affiliates*” below). See also “*Investors in Bearer Notes who hold less than the minimum Specified Denomination (including after a partial Bail-in Conversion) may be unable to sell their Bearer Notes and may be adversely affected if definitive Bearer Notes are subsequently required to be issued*” below for a risk of partial conversions.

As a result, holders of Bail-inable Securities should consider the risk that they may lose all or part of their investment, plus any accrued interest or additional amounts, if CDIC were to take action under the Canadian bank resolution powers, including the Bail-in Regime, and that any remaining outstanding Securities, or common shares of the Issuer or any of its affiliates into which Bail-inable Securities are converted, may be of little value at the time of a Bail-in Conversion and thereafter.

Bail-inable Securities will provide only limited acceleration and enforcement rights for the Bail-inable Securities and will include other provisions intended to qualify such Securities as TLAC

In connection with the Bail-in Regime, the Office of the Superintendent of Financial Institutions’ guideline as interpreted by the Superintendent (the “**TLAC Guideline**”) on Total Loss Absorbing Capacity (“**TLAC**”) applies to and establishes standards for D-SIBs, including the Issuer. Under the TLAC Guideline, beginning November 1, 2021, the Issuer is required to maintain a minimum capacity to absorb losses composed of unsecured external long-term debt that meets the prescribed criteria or regulatory capital instruments to support recapitalization in the event of a failure. Bail-inable Securities and regulatory capital instruments that meet the prescribed criteria will constitute TLAC of the Issuer.

In order to comply with the TLAC Guideline, Bail-inable Securities must provide for terms and conditions necessary to meet the prescribed criteria and qualify at their issuance as TLAC instruments of the Issuer under the TLAC Guideline. Those criteria include the following:

- the Issuer cannot directly or indirectly have provided financing to any person for the express purpose of investing in the Bail-inable Securities;
- the Bail-inable Securities are not subject to set-off or netting rights;
- the Bail-inable Securities must not provide rights to accelerate repayment of principal or interest payments outside of bankruptcy, insolvency, wind-up or liquidation, except that events of default relating to the non-payment of scheduled principal and/or interest payments will be permitted where they are subject to a cure period of no less than 30 business days and clearly disclose to investors that: (i) acceleration is only permitted where an Order (as defined below) has not been made in respect of the Issuer; and (ii) notwithstanding any acceleration, the instrument could still be subject to a Bail-in Conversion prior to its repayment;
- the Bail-inable Securities may be redeemed or purchased for cancellation (as applicable) only at the initiative of the Issuer and, where the redemption or purchase would lead to a breach of the Bank’s minimum TLAC requirements, that redemption or purchase would be subject to the prior approval of the Superintendent;
- the Bail-inable Securities do not have credit-sensitive dividend or coupon features that are reset periodically based in whole or in part on the Issuer’s credit standing; and

- where an amendment or variance of the Bail-inable Securities' terms and conditions would affect their recognition as TLAC, that amendment or variance will only be permitted with the prior approval of the Superintendent.

As a result, the terms of the Bail-inable Securities provide that acceleration will only be permitted (i) if the Issuer defaults in the payment of the principal or cash settlement amounts, or interest or additional amounts for a period of more than 30 business days, or (ii) certain bankruptcy, insolvency or reorganization events occur. Holders and beneficial owners of bail-inable Securities may only exercise, or direct the exercise of, such rights in respect of Bail-inable Securities where an Order has not been made under Canadian bank resolution powers pursuant to subsection 39.13(1) of the CDIC Act in respect of the Issuer. Notwithstanding the exercise of those rights, Bail-inable Securities will continue to be subject to Bail-in Conversion until paid in full.

The terms of the Bail-inable Securities also provide that holders or beneficial owners of Bail-inable Securities will not be entitled to exercise, or direct the exercise of, any set-off or netting rights with respect to Bail-inable Securities against the Issuer. In addition, where an amendment, modification or other variance that can be made to the Bail-inable Securities would affect the recognition of the Bail-inable Securities by the Superintendent as TLAC, that amendment, modification or variance will require the prior approval of the Superintendent.

In light of the above restrictions, holders of Bail-inable Securities may not be permitted to accelerate Bail-inable Securities or direct the exercise of set-off or netting rights with respect to Bail-inable Securities in circumstances where it would be in the holder's best interests to seek to accelerate or exercise such rights. In addition, it is possible that the Issuer and holders may be prevented from making amendments, modifications or variances to the terms of the Bail-inable Securities that are otherwise acceptable if they are not also approved by the Superintendent.

The circumstances surrounding a Bail-in Conversion are unpredictable and can be expected to have an adverse effect on the market price of Bail-inable Securities

The decision as to whether the Issuer has ceased, or is about to cease, to be viable is a subjective determination by the Superintendent that is outside the control of the Issuer. Upon a Bail-in Conversion, the interests of depositors and holders of liabilities and securities of the Issuer that are not converted will effectively all rank in priority to the portion of Bail-inable Securities that are converted. In addition, except as provided for under the compensation process, the rights of holders in respect of the Bail-inable Securities that have been converted will rank on parity with other holders of common shares of the Issuer (or, as applicable, common shares of the affiliate whose common shares are issued on the Bail-in Conversion).

There is no limitation on the type of Order that may be made where it has been determined that the Issuer has ceased, or is about to cease, to be viable. As a result, holders of Bail-inable Securities may be exposed to losses through the use of Canadian bank resolution powers other than a Conversion Order or in liquidation.

Because of the uncertainty regarding when and whether an Order will be made and the type of Order that may be made, it will be difficult to predict when, if at all, Bail-inable Securities could be converted into common shares of the Issuer or any of its affiliates, and there is not likely to be any advance notice of an Order. As a result of this uncertainty, trading behaviour in respect of the Bail-inable Securities may not follow trading behaviour associated with convertible or exchangeable securities or, in circumstances where the Issuer is trending towards ceasing to be viable, other senior debt. Any indication, whether real or perceived, that the Issuer is trending towards ceasing to be viable can be expected to have an adverse effect on the market price of the Bail-inable Securities. Therefore, in those circumstances, holders of Bail-inable Securities may not be able to sell their Bail-inable Securities easily or at prices comparable to those of senior debt securities not subject to Bail-in Conversion.

The number of common shares to be issued in connection with, and the number of common shares that will be outstanding following, a Bail-in Conversion are unknown. It is also unknown whether the shares to be issued will be those of the Issuer or one of its affiliates

Under the Bail-in Regime there is no fixed and pre-determined contractual conversion ratio for the conversion of the Bail-inable Securities, or other shares or liabilities of the Issuer that are subject to a Bail-in Conversion, into common shares of the Issuer or any of its affiliates, nor are there specific requirements regarding whether liabilities subject to a Bail-in Conversion are converted into common shares of the Issuer or any of its affiliates. CDIC determines the timing of the Bail-in Conversion, the portion of bail-inable shares and liabilities to be converted and the terms and conditions of the Bail-in Conversion, subject to parameters set out in the Bail-in Regime. Those parameters, include that:

- in carrying out a Bail-in Conversion, CDIC must take into consideration the requirement in the Bank Act for banks to maintain adequate capital;
- CDIC must use its best efforts to ensure that shares and liabilities subject to a Bail-in Conversion are only converted after all subordinate ranking shares and liabilities that are subject to a Bail-in Conversion and any subordinate non-viability contingent capital instruments have been previously converted or are converted during the same restructuring period;
- CDIC must use its best efforts to ensure that the converted part of the liquidation entitlement of a share subject to a Bail-in Conversion, or the converted part of the principal amount and accrued and unpaid interest of a liability subject to a Bail-in Conversion, is converted on a *pro rata* basis for all shares or liabilities subject to a Bail-in Conversion of equal rank that are converted during the same restructuring period;
- holders of shares and liabilities that are subject to a Bail-in Conversion must receive a greater number of common shares per dollar of the converted part of the liquidation entitlement of their shares, or the converted part of the principal amount and accrued and unpaid interest of their liabilities, than holders of any subordinate shares or liabilities subject to a Bail-in Conversion that are converted during the same restructuring period or of any subordinate non-viability contingent capital that is converted during the same restructuring period;
- holders of shares or liabilities subject to a Bail-in Conversion of equal rank that are converted during the same restructuring period must receive the same number of common shares per dollar of the converted part of the liquidation entitlement of their shares or the converted part of the principal amount and accrued and unpaid interest of their liabilities; and
- holders of shares or liabilities subject to a Bail-in Conversion must receive, if any non-viability contingent capital of equal rank to the shares or liabilities is converted during the same restructuring period, a number of common shares per dollar of the converted part of the liquidation entitlement of their shares, or the converted part of the principal amount and accrued and unpaid interest of their liabilities, that is equal to the largest number of common shares received by any holder of the non-viability contingent capital per dollar of that capital.

As a result, it is not possible to anticipate the potential number of common shares of the Issuer or its affiliates that would be issued in respect of any Bail-inable Securities converted on a Bail-in Conversion, the aggregate number of such common shares that will be outstanding following

the Bail-in Conversion, the effect of dilution on the common shares received in respect of any Bail-inable Securities converted on a Bail-in Conversion from other issuances of common shares of the same issuer under or in connection with an Order or related actions in respect of the Issuer or its affiliates or the value of any common shares received by holders of converted Bail-inable Securities, which could be significantly less than the amount which may otherwise have been due under the converted Bail-inable Securities. It is also not possible to anticipate whether shares of the Issuer or shares of its affiliates would be issued in a Bail-in Conversion. There may be an illiquid market, or no market at all, in the common shares issued upon a Bail-in Conversion and such holders may not be able to sell those common shares at a price equal to the value of the converted Bail-inable Securities and as a result may suffer significant losses that may not be offset by compensation, if any, received as part of the compensation process. Fluctuations in exchange rates may exacerbate such losses.

By acquiring Bail-inable Securities, each holder or beneficial owner of those Bail-inable Securities is deemed to agree to be bound by a Bail-in Conversion and so will have no further rights in respect of its Bail-inable Securities to the extent those Bail-inable Securities are converted in a Bail-in Conversion other than those provided under the Bail-in Regime. Any potential compensation to be provided through the compensation process under the CDIC Act is unknown

The CDIC Act provides for a compensation process for holders of Bail-inable Securities who immediately prior to the making of an Order, directly or through an intermediary, own Bail-inable Securities that are converted in a Bail-in Conversion. While this process applies to successors of such holders it does not apply to assignees or transferees of the holder following the making of the Order and does not apply if the amounts owing under the relevant Bail-inable Securities are paid in full.

Under the compensation process, the compensation to which such holders are entitled is the difference, to the extent it is positive, between the estimated liquidation value and the estimated resolution value of the relevant Bail-inable Securities. The liquidation value is the estimated value the Bail-inable Securities holders would have received if an order under the *Winding-up and Restructuring Act* (Canada) had been made in respect of the Issuer, as if no Order had been made and without taking into consideration any assistance, financial or otherwise, that is or may be provided to the Issuer, directly or indirectly, by CDIC, the Bank of Canada, the Government of Canada or a province of Canada, after any order to wind up the Issuer has been made.

The resolution value in respect of relevant Bail-inable Securities is the aggregate estimated value of the following: (a) the relevant Bail-inable Securities, if they are not held by CDIC and they are not converted, after the making of an Order, into common shares under a Bail-in Conversion; (b) common shares that are the result of a Bail-in Conversion after the making of an Order; (c) any dividend or interest payments made, after the making of the Order, with respect to the relevant Bail-inable Securities to any person other than CDIC; and (d) any other cash, securities or other rights or interests that are received or to be received with respect to the relevant Bail-inable Securities as a direct or indirect result of the making of the Order and any actions taken in furtherance of the Order, including from CDIC, the Issuer, the liquidator of the Issuer, if the Issuer is wound up, the liquidator of a CDIC subsidiary incorporated or acquired by order of the Governor in Council for the purposes of facilitating the acquisition, management or disposal of real property or other assets of the Issuer that CDIC may acquire as the result of its operations that is liquidated or the liquidator of a bridge institution if the bridge institution is wound up.

In connection with the compensation process, CDIC is required to estimate the liquidation value and the resolution value in respect of the portion of converted Bail-inable Securities and is required to consider the difference between the estimated day on which the liquidation value

would be received and the estimated day on which the resolution value is, or would be, received.

CDIC must, within a reasonable period following a Bail-in Conversion, make an offer of compensation by notice to the relevant holders that held Bail-inable Securities equal to, or in value estimated to be equal to, the amount of compensation to which such holders are entitled or provide a notice stating that such holders are not entitled to any compensation. In either case such notice is required to include certain prescribed information, including important information regarding the rights of such holders to seek to object and have the compensation to which they are entitled determined by an assessor (a Canadian Federal Court judge) where holders of liabilities representing at least 10 per cent. of the principal amount and accrued and unpaid interest of the liabilities of the same class object to the offer or absence of compensation. The period for objecting is limited (45 days following the day on which a summary of the notice is published in the *Canada Gazette*) and failure by holders holding a sufficient principal amount plus accrued and unpaid interest of affected Bail-inable Securities to object within the prescribed period will result in the loss of any ability to object to the offered compensation or absence of compensation, as applicable. CDIC will pay each relevant holder the offered compensation within 135 days after the date on which a summary of the notice is published in the *Canada Gazette* if the offer of compensation is accepted by the holder, the holder does not notify CDIC of acceptance or objection to the offer within the aforementioned 45-day period or the holder objects to the offer but the 10 per cent. threshold described above is not met within the aforementioned 45-day period.

Where an assessor is appointed, the assessor could determine a different amount of compensation payable, which could either be higher or lower than the original amount. The assessor is required to provide holders, whose compensation it determines, notice of its determination. The assessor's determination is final and there are no further opportunities for review or appeal. CDIC will pay the relevant holders the compensation amount determined by the assessor within 90 days of the assessor's notice.

By its acquisition of an interest in any Bail-inable Securities, each holder or beneficial owner of those Bail-inable Securities is deemed to agree to be bound by a Bail-in Conversion and so will have no further rights in respect of its Bail-inable Securities to the extent those Bail-inable Securities are converted in a Bail-in Conversion, other than those provided under the Bail-in Regime.

A similar compensation process to the one set out above applies, in certain circumstances, where as a result of CDIC's exercise of bank resolution powers, Securities are assigned to an entity which is then wound-up.

Following a Bail-in Conversion, holders that held Bail-inable Securities that have been converted will no longer have rights against the Issuer as creditors

Upon a Bail-in Conversion, the rights, terms and conditions of the portion of Bail-inable Securities that are converted, including with respect to priority and rights on liquidation, will no longer apply as the portion of converted Bail-inable Securities will have been converted on a full and permanent basis into common shares of the Issuer or any of its affiliates ranking on parity with all other outstanding common shares of that entity. If a Bail-in Conversion occurs, then the interest of the depositors, other creditors and holders of liabilities of the Issuer not bailed-in as a result of the Bail-in Conversion will all rank in priority to those common shares.

Given the nature of the Bail-in Conversion, holders or beneficial owners of Bail-inable Securities that are converted will become holders or beneficial owners of common shares at a time when the Issuer's and potentially its affiliates' financial condition has deteriorated. They may also become holders or beneficial owners of common shares at a time when the relevant entity may have received or may receive a capital injection or equivalent support with terms that may rank in priority to the common shares issued in a Bail-in Conversion with respect to the payment of

dividends, rights on liquidation or other terms although there is no certainty that any such capital injection or support will be forthcoming.

Bail-inable Securities may be redeemed or cancelled after the occurrence of a TLAC Disqualification Event

If the applicable Final Terms of a Series of Bail-inable Securities specify that a TLAC Disqualification Event is applicable, the Issuer may, at its option, with the prior approval of the Superintendent, redeem or cancel (as applicable) all, but not some only, of the outstanding Bail-inable Securities of that Series within 90 days of the occurrence of the TLAC Disqualification Event (as defined in the Conditions) at the Early Redemption Amount or Early Cash Settlement Amount, as applicable, specified in the applicable Final Terms, together (if applicable) with any accrued but unpaid interest or additional amounts to (but excluding) the date fixed for redemption or cancellation. If the Issuer redeems the outstanding Bail-inable Securities of that Series, holders of such Bail-inable Securities may not be able to reinvest the proceeds from such redemption or cancellation in securities offering a comparable anticipated rate of return. Additionally, although the terms of each Series of Bail-inable Securities are anticipated to be established to satisfy the TLAC criteria within the meaning of the TLAC Guideline to which the Issuer is subject, it is possible that any Series of Bail-inable Securities may not satisfy the criteria in future rulemaking or interpretations.

(e) ***UK resolution risks applicable to the Securities***

The United Kingdom's Banking Act 2009 (as amended, the "UK Banking Act") confers substantial powers on a number of UK authorities designed to enable them to take a range of actions in relation to UK banks, UK building societies, UK investment firms and UK recognised central counterparties which are considered to be at risk of failing. In certain circumstances such actions may also be taken, with modifications, against a third country institution or investment firm. The exercise of any of these actions in relation to the Issuer could materially adversely affect the value of any Securities.

Under the UK Banking Act, substantial powers are granted to HM Treasury, the Bank of England, the FCA and the PRA (together, the "**Authorities**") as part of a special resolution regime (the "**SRR**").

These SRR powers can be exercised, as applicable, by the Authorities in respect of a third country incorporated credit institution (such as the Issuer) or a third country incorporated investment firm ("**third country entity**") or third country parent undertaking either where that third country entity is subject to resolution in its jurisdiction of incorporation (a "**third country resolution action**") or where no third country resolution actions have been taken, but the Authorities consider that the commencement of resolution proceedings meet certain conditions including that it is in the public interest. The Authorities' powers (such as those applicable to bail-in liabilities) are subject to additional conditions where they are used in respect of branches of third-country entities (such as the Issuer) as compared with their use in respect of UK banks.

Risks related to Securities issued by the Issuer's London branch

The Authorities can choose to recognise a third country resolution action, either in whole or in part. Alternatively, under the European Bank Recovery and Resolution Directive (which has been implemented in the UK through the UK Banking Act), the Authorities can independently resolve a London branch of a third country entity (such as the Issuer's London branch) even if it is not subject to third country resolution action (including resolution proceedings of the Canadian authorities), or where the Authorities have refused to recognise or enforce third country resolution action.

Under the SRR, the Authorities can make a statutory instrument that provides for the exercise of the stabilisation options. The stabilisation options include: (i) private sector purchaser option; (ii) bridge bank option; (iii) asset management vehicle option; (iv) bail-in option; and (v)

temporary public sector ownership option. Exercise of the SRR options is possible where the relevant Authorities are acting to support or give full effect to a resolution carried out by the Canadian resolution authority and the Authorities' actions may include actions such as transferring assets located in the UK to a purchaser under the Canadian equivalent of a sale of business tool, or to a bridge bank in Canada.

If the Authorities independently resolve the London branch of a third country entity, their stabilisation options are limited to the 'business of the UK branch' and are: (i) to transfer some or all of the assets, rights and liabilities to a private sector purchaser, bridge bank or asset management vehicle; and (ii) to bail-in liabilities (including the Securities) in connection with the transfer to the private-sector purchaser, bridge bank or asset management vehicle (the "IRUKBPs").

The concept of the 'business of the UK branch' is defined as: (i) any rights and liabilities of the third-country institution arising as a result of the operations of the UK branch; and (ii) any other property in the UK of the third-country institution. The Securities will be considered to be within the business of the branch where they arise 'as a result of the operations of the Issuer's London branch'. Where the Securities are issued in the name of the Issuer's London branch and/or are otherwise part of the business of the branch, for example, through being included within the London branch's return form (a type of semi-annual account for the branch) to the PRA it is likely that such Securities will be considered by the Authorities to be within the business of the branch. However, these powers are untested, and if there is an adequate degree of operational involvement by the Issuer's London branch in the issuance, there is a risk that the Authorities may consider that the Securities issued by the Issuer in Canada to be within the business of the branch due to the broad definition of this term.

Risks for Holders

Holders may be subject to the relevant powers listed above, which may result in such Holders losing some or all of their investment. As at the date of this Base Prospectus, the Authorities have not exercised any powers under the SRR in respect of either the Issuer or the Issuer's London branch and there has been no indication that they will do so. However, there can be no assurance that this will not change and any exercise of any power under the SRR or any suggestion of such exercise could, therefore, adversely affect the rights of the Holders, the price or value of their investment in the Securities and/or the ability of the Issuer to satisfy its obligations under the relevant Securities.

The paragraphs below set out some of the possible consequences of the exercise of the powers under the SRR.

The SRR may be triggered prior to insolvency of the Issuer

The purpose of the SRR is to address the situation where all or part of the business of a third country entity has encountered, or is likely to encounter, financial difficulties, giving rise to wider public interest concerns in the UK, and so to provide the Authorities with the appropriate powers to transfer (and then write down where necessary) those rights and liabilities of the branch of the third country entity. Where support is given to third country resolution actions, under the UK Banking Act, the Authorities must have regard to the Special Resolution Objectives including Special Resolution Objective 8 which applies when using or considering the use of their powers. Alternatively, the Authorities may exercise the IRUKBPs if at least one of the following apply: (a) the PRA is satisfied that Condition 1 is met, and the Bank of England is satisfied that Conditions 2, 4 and 5 are met; or (b) the Bank of England is satisfied that Conditions 3 and 4 are met; or (c) the Bank of England is satisfied that Condition 4 is met and Condition 5 is met by virtue of its first limb (Condition 5 (a)).

The Conditions referred to above are as follows: Condition 1: The Issuer is failing or likely to fail (i.e. failing to satisfy the threshold conditions or the Issuer or its London branch being unable

or unwilling to pay debts or liabilities owed to EEA creditors or otherwise arising from the business of the branch as they fall due); Condition 2: It is not reasonably likely that action will be taken by or in respect of the Issuer that will result in Condition 1 above ceasing to be met; Condition 3: Either: (a) the third-country entity is unable or unwilling, or is likely in the near future to be unable or unwilling, to pay its debts or other liabilities owed to EEA creditors or otherwise arising from the business of the branch as they fall due; and (b) no Canadian resolution action has been taken, or other normal insolvency proceedings initiated, and it is not likely in the near future that resolution action will be taken or proceedings initiated; Condition 4: Making a property transfer instrument is necessary having regard to public interest in the advancement of one or more resolution objectives; and Condition 5: Either: (a) Canadian resolution action has been taken (or the Authorities have been notified that action will be taken) and the Authorities have refused or propose to refuse to recognise such action; or (b) Canadian resolution action has not been, and is not likely to be, taken in relation to the Issuer. It is therefore possible that the IRUKBPs could be exercised prior to the point at which any insolvency proceedings with respect to the relevant entity could be initiated.

A partial transfer of business of the Issuer's London branch may result in a deterioration of the Issuer's creditworthiness

If the Issuer's London branch were made subject to the IRUKBPs, and a partial transfer of its business to another entity were effected, the quality of the assets and the quantum of the liabilities not transferred and remaining with the Issuer's London branch (which may include the Securities) will result in a deterioration in the creditworthiness of the Issuer and, as a result, increase the risk that it will be unable to meet its obligations in respect of the Securities and/or eventually become subject to administration or insolvency proceedings. In such circumstances, Holders may have a claim for compensation under compensation schemes in Canada, but there can be no assurance that the Holders would thereby recover compensation promptly or equal to any loss actually incurred.

Depositor preference

In addition, amendments to the UK Insolvency Act 1986 have introduced changes to the treatment and ranking of certain preferential debts with the result that certain eligible deposits will rank in priority to the claims of ordinary (i.e. non-preferred) unsecured creditors in the event of an insolvency. This means that if the Securities are transferred to another entity subject to the UK Banking Act in the UK under the IRUKBPs, the claims of Holders would rank junior to the claims in respect of liabilities afforded preferred status and accordingly, in the event of insolvency or resolution of that UK entity, Securities would be available to absorb losses ahead of liabilities which benefit from such preference.

As at the date of this Base Prospectus, the relevant Authorities have not made an instrument or order under the UK Banking Act in respect of the Issuer or the Issuer's London branch and there has been no indication that they will make any such instrument or order. However, there can be no assurance that this will not change and/or that the Holders will not be adversely affected by any such order or instrument if made.

(f) Risks relating to all Reference Item Linked Securities

The Issuer may issue Reference Item Linked Securities with principal, premium, interest or other amounts payable and/or deliverable determined by reference to a particular Reference Item. In addition, the Issuer may issue Securities with principal or interest or other amounts payable in one or more currencies which may be different from the currency in which the Securities are denominated. An investment in such Securities entails significant risks that are not associated with similar investments in conventional debt or equity securities and in some circumstances the value of the Securities and/or the amount paid at maturity, exercise or redemption (as applicable) may be less than the purchase price amount of the Securities and

may be zero in which case an investor may lose some or all of the amount it invested in the Securities.

General

Reference Item Linked Securities will represent an investment linked to the economic performance of the relevant Reference Item(s) and prospective investors should note that the return (if any) on their investment in such Reference Item Linked Securities will depend upon the performance of such Reference Item(s).

Potential investors should be aware that:

- (i) the market price of such Securities may be volatile and the market price of the Securities at any time is likely to be affected primarily by changes in the level or price of the Reference Item to which the Securities are linked, although any such change may not be comparable and may be disproportionate. For example, the market value of such Securities may not increase even if the level or price of the Reference Item(s) increases. It is also possible for the level or price of the Reference Item(s) to increase while the market price of such Securities declines;
- (ii) it is impossible to predict how the level or price of the Reference Item will vary over time and if it does not perform as an investor expects this could result in a different settlement method applying in respect of certain types of Securities and will reduce their return (or even result in loss of some or all of their investment) and will adversely affect the market value of the Securities;
- (iii) they may receive no or a limited amount of interest or additional amounts, as applicable, including in circumstances where the Securities remain outstanding or they may receive interest or additional amounts at a rate that is less than that payable on a conventional fixed rate or floating rate debt security issued at the same time, which may reduce the return on the Securities as compared to such a conventional debt security and thereby also the market value of the Securities;
- (iv) payment of principal, interest or other amounts or delivery of any specified assets may occur at a different time or in a different currency than expected, adversely affecting an investor's return and the market value of the Securities;
- (v) the amount paid or the value of the specified assets delivered by the Issuer on redemption, cancellation or settlement (as applicable) of the Securities may be less than the purchase price of the Securities, together with any accrued interest or additional amounts (as applicable), and may in certain circumstances be zero and accordingly investors may lose all or a substantial portion of their investment;
- (vi) if the principal of and/or premium or other amount payable on such a Security is indexed, the amount of principal and/or premium or other amount payable in respect thereof may be less than the original purchase price of such Security and less than the nominal or face amount of Securities, and the amount of principal and/or premium or other amount payable may even be zero;
- (vii) investors should be willing to hold these Securities until the maturity date, redemption date or expiration date (as applicable) as the secondary market for such Securities may be limited or non-existent and if there is a limited secondary market then the lack of

demand may reduce the market price at which Securities may be sold prior to maturity, redemption, settlement or expiration;

- (viii) the market price will be affected by a number of factors in addition to the creditworthiness of the Issuer and may be reduced depending on the value of the applicable Reference Item(s) as well as the volatility of the applicable Reference Item(s), the time remaining to the maturity, settlement, redemption or expiration (as applicable) of such Securities, the amount outstanding of such Securities, general market sentiment, market expectations regarding the future performance of the applicable Reference Item(s) and its composition (and thereby the future performance of the Reference Item Linked Securities), market interest rates, yield rates and the market for other types of related and unrelated financial instruments, potential dividend or interest payments (as applicable) in respect of the applicable Reference Item(s), changes in the method of calculating the level of the applicable Reference Item(s) from time to time and the financial results and prospects of the issuer of each Reference Item;
- (ix) a Reference Item, which as set out herein will affect the return on and market value of the Securities, may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other securities, funds or indices and may depend on a number of interrelated factors over which the Issuer has no control, including economic, financial and political events in one or more jurisdictions, including factors affecting capital markets generally and the stock exchange(s) or quotation system(s) on which any Reference Item and/or securities comprising the Reference Item and/or obligation of the issuer of the Reference Item may be traded. Additionally, if the formula used to determine the amounts payable with respect to such Securities contains a multiplier or leverage factor, the effect of any change in the Reference Item(s) will be increased (or decreased if the multiplier or relevant factor is less than one) and this increase (or decrease) may be significant in magnifying any losses to holders;
- (x) the timing of changes in a Reference Item(s) may adversely affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Reference Item(s), the greater the effect on yield;
- (xi) Securities are of limited maturity and, unlike direct investments in a share, index, fund, bond or other security, commodity or other asset, investors are not able to hold them beyond the maturity date, redemption date, settlement date or expiration date (as applicable) in the expectation of a recovery in the price of the underlying and so (unless physical delivery applies) will not be able to benefit from any such recovery; and
- (xii) the price at which an investor will be able to sell Securities prior to the maturity date, redemption date, settlement date or expiration date (as applicable) may be at a substantial discount to the market value of the Securities at the time they are issued depending on the performance of the Reference Item (for example if the market price of the Reference Item(s) is below, equal to or not sufficiently above the market price of the Reference Item(s) on the issue date).

In contrast to a direct investment in the relevant Reference Item(s), Reference Item Linked Securities represent the right to receive payment or delivery, as the case may be, of the relevant cash amount and/or specified assets on the relevant maturity date, settlement date or

redemption date (as applicable) as well as periodic payments of interest or additional amounts (as applicable) (if specified in the applicable Final Terms), all or some of which may be determined by reference to the performance of the relevant Reference Item(s). Except as specified in the applicable Conditions, in relation to Physical Delivery Securities, Holders will not have any rights in relation to the Reference Item (or any underlying asset(s) or basis of reference to which the Reference Item is linked), including voting rights or rights to receive dividends or other distributions or any other rights that holders of the Reference Item (or such underlying asset(s) or basis for reference) would have and Holders will not have any beneficial interest in or right to acquire the Reference Item (or such underlying asset(s) or basis for reference) or any derivative instruments related thereto. Whilst an investment in Reference Item Linked Securities gives exposure to some of the same risks as an actual investment in the relevant Reference Item(s) (and, as applicable, their underlying asset(s) or basis of reference), (i) such risks for investors are irrespective of the existence or amount of the Issuer's and/or any affiliates' actual exposure to a Reference Item (or underlying asset(s) or basis for reference) or any issuer of a Reference Item and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss in relation thereto and (ii) a Reference Item Linked Security will not create an actual interest (whether legal or beneficial or by way of security or otherwise) in, or ownership of, any such Reference Item (or underlying asset(s) or basis of reference) or represent a claim against any such Reference Item or any issuer of a Reference Item (or in each case underlying asset(s) or basis of reference) in respect of which any amounts payable or assets deliverable under the Reference Item Linked Securities is dependent. Accordingly in the event that the amount paid by the Issuer or value of the specified assets delivered on settlement of the Reference Item Linked Securities is less than a Holder's investment in such Reference Item Linked Securities, such Holder will not have recourse under the Reference Item Linked Security to the Issuer or any Reference Item (or underlying asset(s) or basis of reference).

Securities may not benefit from a Protection Amount

The investor should note that certain Reference Item Linked Securities may not benefit from a Protection Amount. On the maturity date, redemption date or settlement date (as applicable), the amount payable in respect of the Securities may be less than the initial investment amount and purchasers of Securities are exposed to full loss of their investment due to the lack of Protection Amount.

Securities may have a Protection Amount only at maturity or redemption or expiration

In respect of a Series of Reference Item Linked Securities for which a Protection Amount is specified in the applicable Final Terms, the redemption amount or cash settlement amount, as the case may be, to be paid pursuant to its terms at maturity, redemption or settlement (as applicable) will be not less than the specified percentage of the principal amount of the Note, or in the case of Redeemable Certificates, such other amount as indicated in the applicable Final Terms. However, the ability of the Issuer to make the required payments at maturity or redemption (as applicable) depends on the Issuer's ability to meet its obligations under the Securities. The return on the Securities above the Protection Amount (if any) will depend on the relevant Reference Item. If the relevant Reference Item does not perform in line with an investor's expectations over the term of the Securities, the Securities will not redeem above the minimum redemption or cash settlement amount and an investor in the Securities will not receive any return on its capital. Furthermore, such an investor will have lost the opportunity to earn the profit that it might have earned on a deposit or any investment in fixed income securities of the same amount and the same duration. If the Securities are redeemed or cancelled early by the Issuer, investors in the Securities may not be repaid the amount originally invested by them in the Securities.

Cap on Return

If there is a cap on the level of payments which can be made under the Securities, then the maximum possible return on the Securities will be limited to that cap. The return will therefore not increase even if the Reference Item(s) outperform(s) the stated maximum return. If the underlying Reference Item(s) substantially outperform(s) the stated maximum return, an investment in the Securities may not be as attractive as a direct investment in the underlying Reference Item(s), where this is possible.

Certain considerations regarding hedging

Prospective investors intending to purchase Securities to hedge against the market risk associated with investing in one or more Reference Items should recognise the complexities of utilising Securities in this manner. For example, the value of the Securities may not exactly correlate with the value of the Reference Item(s). Due to fluctuating supply and demand for the Securities, there is no assurance that their value will correlate with movements of the Reference Item(s).

Hedging and other potential conflicts of interest

The Issuer or one or more of its affiliates may (but is not obliged to) hedge the obligations under Reference Item Linked Securities by purchasing or selling the Reference Item(s) or other derivative instruments with returns linked to or related to changes in the value of the Reference Item(s) and may also adjust these hedges by, among other things, purchasing or selling the Reference Item(s) or other derivative instruments at any time and from time to time. Any of these hedging activities may affect the price or value of the Reference Item(s) and, therefore, adversely affect the value of associated Reference Item Linked Securities. It is possible that the Issuer or one or more of its affiliates could receive substantial returns from these hedging activities while its effect on the value of the Reference Item(s) may be negative.

The Issuer or one or more of its affiliates or, in the case of Actively Managed Basket Linked Securities, the relevant Rebalancing and Advisory Entity may also engage in trading in the Reference Item(s) on a regular basis as part of general broker-dealer and other businesses of such entity, for proprietary accounts, for other accounts under management or to facilitate transactions for customers, including block transactions. Any of these activities could affect the price or value of the Reference Item(s) (whether directly or due to such activities affecting the price or value of the underlying assets or basis of reference to which the Reference Item is linked) and, therefore, the value of the associated Reference Item Linked Securities. The Issuer or one or more of its affiliates or, in the case of Actively Managed Basket Linked Securities, the relevant Rebalancing and Advisory Entity may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in the value of the Reference Item(s) and the availability of such competing products could adversely affect the value of the Reference Item Linked Securities.

The Calculation Agent for an issue of Securities is the agent of the Issuer and not an agent for the Holders. Where the Issuer acts as Calculation Agent or the Calculation Agent is an affiliate of the Issuer, potential conflicts of interest may exist between the Calculation Agent and the Holders, including with respect to certain determinations and judgements that the Calculation Agent may make pursuant to the Conditions that may influence the amount receivable or specified assets deliverable upon redemption, cancellation or settlement of the Securities. The Calculation Agent will make such determinations and adjustments as it deems appropriate, in accordance with the Conditions of the Securities. In making such determinations and adjustments, the Calculation Agent will be entitled to exercise substantial discretion and may be subject to conflicts of interest in exercising this discretion.

The Issuer and any relevant Dealer and, in the case of Actively Managed Basket Linked Securities, the relevant Rebalancing and Advisory Entity may, at the date hereof or any time hereafter, be in possession of information in relation to a Reference Item that is or may be material in the context of the Securities and may or may not be publicly available to Holders. There is no obligation on the Issuer or any Dealer(s) or any such Rebalancing and Advisory Entity to disclose to Holders any such information.

No pledge or holding of Reference Item(s)

Neither the Issuer nor any of its affiliates will pledge or otherwise hold the Reference Item(s) or other derivative instruments for the benefit of Holders in order to enable Holders to exchange Reference Item Linked Securities for the associated Reference Item(s) or other derivative commitments under any circumstances. Consequently, in the event of a bankruptcy, insolvency or liquidation of the Issuer, any of the Reference Item(s) or other derivative commitments owned by the Issuer or its affiliates will be subject to the claims of the Issuer's creditors generally and will not be available specifically for the benefit of Holders.

Market Disruption Event and Disrupted Day

If an issue of Securities includes provisions dealing with the occurrence of a market disruption event or a failure to open of an exchange or related exchange on a Valuation Date, an Averaging Date, an Observation Date or a scheduled payment date and the Calculation Agent determines that a market disruption event or such failure has occurred or exists on a Valuation Date, an Averaging Date, an Observation Date or a scheduled payment date, any consequential postponement of the Valuation Date, Averaging Date, an Observation Date or a scheduled payment date or any alternative provisions for valuation or payment provided in any Securities may have an adverse effect on the value of or payment received on such Securities and/or may delay applicable payments or settlement. Prospective investors should review the Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Securities.

FX Adjustment Risk

Reference Item Linked Securities may incorporate an exchange rate adjustment feature because the currency of the Reference Item(s) is different to the currency of the Securities. This feature provides an adjustment for the effect of exchange rate fluctuations on the return of the Securities. Hence when calculating the return of the Securities, the performance of the Reference Item(s) in their base currency is adjusted to account for the exchange rate between the currencies at such time. Investors should also be aware that movements in interest rates for deposits in such currencies will affect the valuation of a Security including this feature. This exposure to currency exchange fluctuations may come at a cost or benefit to the investor depending on how currency exchange rates move during the term of the Securities. Currency exchange rates may be volatile and subject to unpredictable changes over the term of the Securities.

(g) ***Specific risks relating to Index Linked Securities***

The Issuer may issue Securities where amounts payable are dependent upon the level, or changes in the level, of an index or a basket of indices ("**Index Linked Securities**").

Returns on Index Linked Securities may not reflect the return an investor would realise if it actually bought all securities comprised in the index and in the same proportion as the weighting of such securities in the index or, as the case may be, indices in an index basket and received the dividends paid on those securities because the closing index level or levels on any date

may reflect the price of such securities without taking into account the value of dividends paid on those securities. Also, an investor in the Securities will not benefit from any voting rights or rights to receive cash dividends or other distributions or rights that it would have benefited in case of direct investment in the securities.

The value of the Index on any day will reflect the value of its constituents on such day. Changes in the composition of such Index and factors (including those described above) which either affect or may affect the value of the constituents, will affect the value of such Index and therefore may adversely affect the return on an investment in Reference Item Linked Securities.

The Index Sponsor of any relevant Index can add, delete or substitute the securities comprised in the Index or amend in any other way the methodology of the Index. No Index Sponsor of any relevant Index has to consider interests of Holders in calculating and revising the Index. Investors should be aware that those decisions by the Index Sponsor may adversely affect the value of the Securities (e.g. if a newly added company performs significantly worse or better than the company it replaces).

If an Index Adjustment Event occurs, prospective purchasers should note that the Issuer may, in the case of Notes, redeem the Notes early at an amount equal to the fair market value of each Note taking into account hedge costs, in the case of Non-Exempt Securities or Swiss Non-Exempt Securities, or at the Early Redemption Amount specified in the applicable Pricing Supplement, in the case of Exempt Securities, or, in the case of W&C Securities, cancel the W&C Securities upon payment of an amount to each Holder in respect of each W&C Security or Unit, as the case may be, determined by reference to the fair market value of each W&C Security or Unit, as the case may be, together with accrued Additional Amounts (if applicable), and in each case taking into account hedge costs. The amount due on any such redemption or cancellation (as applicable) may be substantially less than an investor's investment in the Securities and may in certain circumstances be zero.

(h) ***Specific risks relating to Equity Linked Securities***

The Issuer may issue Securities where the amounts payable are dependent upon the price of or changes in the price of an equity security or a basket of equity securities or where, depending on the price of or change in the price of an equity security or a basket of equity securities, on redemption the Issuer's obligation is to deliver specified assets ("**Equity Linked Securities**").

If Potential Adjustment Event and/or De-listing and/or Merger Event and/or Nationalisation and/or Insolvency and/or Tender Offer are specified as applying in the applicable Final Terms, prospective investors should note that the Securities may be subject to adjustment and, in the case of Notes, may be redeemed at an amount equal to the fair market value of each Note taking into account hedge costs, in the case of Non-Exempt Securities or Swiss Non-Exempt Securities, or at the Early Redemption Amount specified in the applicable Pricing Supplement, in the case of Exempt Securities, or, in the case of W&C Securities, may be cancelled upon payment of an amount to each Holder in respect of each W&C Security or Unit, as the case may be, determined by reference to the fair market value of each W&C Security or Unit, as the case may be, together with accrued Additional Amounts (if applicable), in each case taking into account hedge costs plus (in the case of Warrants), if already paid, the Exercise Price. The amount due on any such redemption or cancellation (as applicable) may be substantially less than an investor's investment in the Securities and may in certain circumstances be zero.

In respect of Equity Linked Securities relating to an equity security or equity securities originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the euro, if such equity security or equity securities is/are at any time after the Trade Date quoted, listed and/or dealt exclusively in euro on the relevant

Exchange, prospective purchasers should note that the Calculation Agent will adjust any one or more of the terms of the Conditions and/or the applicable Final Terms as the Calculation Agent determines in its sole and absolute discretion to be appropriate to preserve the economic terms of the Securities. Prospective purchasers should also note that the Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the relevant Valuation Time at the official conversion rate, if any, or an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the relevant Valuation Time. Any such adjustment may have an adverse effect on the return on and market value of the Securities.

Additional risk factors relating to Equity Linked Securities linked to ADRs and/or GDRs

An investment in Securities linked to American Depositary Receipts (“**ADRs**”) or Global Depositary Receipts (“**GDRs**”) (ADRs and GDRs, together, “**Depositary Receipts**”) entails significant risks in addition to those associated with Equity Linked Securities and conventional debt or equity securities.

Differences in an investment in Depositary Receipts and Underlying Equities

There are important differences between the rights of holders of Depositary Receipts and the rights of holders of the stock of the Underlying Equity Issuer represented by such Depositary Receipts. A Depositary Receipt is a security that represents equity securities of the relevant Underlying Equity Issuer. The relevant Deposit Agreement for the Depositary Receipt sets forth the rights and responsibilities of the Depositary (being the issuer of the Depositary Receipt), the Underlying Equity Issuer and holders of the Depositary Receipt which may be different from the rights of holders of the Underlying Equities. For example, the Underlying Equity Issuer may make distributions in respect of its Underlying Equities that are not passed on to the holders of its Depositary Receipts. Any such differences between the rights of holders of the Depositary Receipts and holders of the Underlying Equities of the Underlying Equity Issuer may be significant and may materially and adversely affect the value of the relevant Securities.

The legal owner of the Underlying Equities is the custodian bank which at the same time is the issuing agent of the Depositary Receipts. Depending on the jurisdiction under which the Depositary Receipts have been issued and the jurisdiction to which the custodian agreement is subject, it is possible that the corresponding jurisdiction would not recognise the purchaser of the Depositary Receipts as the actual beneficial owner of the Underlying Equities. Particularly in the event that the custodian bank becomes insolvent or that enforcement measures are taken against the custodian bank, it is possible that an order restricting free disposition could be issued with respect to the Underlying Equities or that such shares are realised within the framework of an enforcement measure against the custodian bank. If this is the case, the holders of the Depositary Receipts lose their rights under the Underlying Equities and the Securities would become worthless.

Potential exposure to risks of emerging markets

Depositary Receipts often represent shares of Underlying Equity Issuers based in emerging market jurisdictions.

Where the terms and conditions of the Securities reference one or more emerging market Reference Item(s), purchasers of such Securities should be aware that the political and economic situation in countries with emerging economies or stock markets may be undergoing significant evolution and rapid development, and such countries may lack the social, political and economic stability characteristics of more developed countries, including a significant risk of currency value fluctuation. Such instability may result from, among other things, authoritarian

governments, or military involvement in political and economic decision-making, including changes or attempted changes in governments through extra-constitutional means, popular unrest associated with demands for improved political, economic or social conditions; internal insurgencies; hostile relations with neighbouring countries; and ethnic, religious and racial disaffections or conflict. Certain of such countries may have in the past failed to recognise private property rights and have at times nationalised or expropriated the assets of private companies. As a result, the risks from investing in those countries, including the risks of nationalisation or expropriation of assets, may be heightened. In addition, unanticipated political or social developments may adversely affect the values of a Reference Item investment in those countries and therefore the value of the Securities. The small size and inexperience of the securities markets in certain countries and the limited volume of trading in securities may make the Reference Item(s) illiquid and more volatile than investments in more established markets. There may be little financial or accounting information available with respect to the Underlying Equity Issuers, and it may be difficult as a result to assess the value or prospects of the Reference Item(s). All of this may also adversely affect the market value and performance of the Securities.

Adjustment to the terms and conditions or replacement of the Reference Item following certain corporate events in relation to the Underlying Equities of Depositary Receipts may materially and adversely affect the value of the Securities.

Following certain corporate events specified in the Conditions of the relevant Securities relating to the Underlying Equities or the Underlying Equity Issuer of such Underlying Equities, such as a merger where the relevant company is not the surviving entity, the amount Holders will receive, if any, at maturity of such Securities may be adjusted by the Calculation Agent or the affected Underlying Equities and Depositary Receipts may be replaced by another Reference Item. The occurrence of such corporate events and the consequential amendments may materially and adversely affect the value of the Securities.

(i) ***Specific risks relating to Bond Linked Redemption Notes***

The Issuer may issue Notes ("**Bond Linked Redemption Notes**") where the amounts payable or assets deliverable under the Notes are dependent on the performance of a specified bond and on whether certain events have occurred in respect of that bond or the issuer or obligor of that bond (the "**Bond Issuer**").

If one or more of certain Bond Events or Bond Early Redemption Events (including, without limitation, certain default, non-payment, restructuring, early redemption and bankruptcy related events with respect to the bond or Bond Issuer) as specified in the applicable Final Terms occur, the Bond Linked Redemption Notes will be redeemed and the amount due on any such redemption may be substantially less than an investor's investment in the Bond Linked Redemption Notes and may in certain circumstances be zero.

In addition in the case of redemption for a Bond Event, investors should be aware that in the case of interest-bearing Bond Linked Redemption Notes (unless otherwise specified in the applicable Pricing Supplement in the case of Exempt Notes), no interest will be payable in respect of the Bond Linked Redemption Notes from (and including) the date on which notice of the Bond Event is given to the Holders or, in the case of Exempt Notes, if specified in the applicable Pricing Supplement, from (and including) the Interest Payment Date immediately prior to the date on which notice of the Bond Event is given to the Holders. This means that if the Bond Linked Redemption Notes are redeemed for a Bond Event, investors may not receive the scheduled interest payments otherwise anticipated under the Bond Linked Redemption Notes and lose this return on their investment.

Investors should note that a Bond Event may occur from (and including) the Trade Date prior to the Issue Date of the Bond Linked Redemption Notes and so investors are exposed to fluctuations in the creditworthiness of the relevant Bond Issuer and the risk of Bond Event occurring between the Trade Date and Issue Date.

Not all Bond Events are triggered by events which are easily ascertainable and disputes could arise as to whether a specific event did or did not constitute a Bond Event. Under the terms of the Bond Linked Redemption Notes, the Calculation Agent's determination and, in the case of Notes for which Notice of Publicly Available Information is specified as applicable in the applicable Final Terms, the information identified in any such notice will be binding on the Issuer and Holders and in each case this may be different from the view of Holders, other financial institutions and/or commentators. Holders will have no control over any such determination or information (as applicable) notwithstanding that they may have a significant impact on their return (if any).

If the exposure to the Bond Issuer and specified bonds under the Bond Linked Redemption Notes is leveraged, which is a speculative investment technique designed to enhance returns, the adverse impacts of a Bond Event and losses under the Bond Linked Redemption Notes will be magnified when compared to a direct investment in such Bond Issuer and bonds.

(j) ***Specific risks relating to Actively Managed Basket Linked Securities***

The Issuer may issue Securities ("**Actively Managed Basket Linked Securities**") where the amount payable on redemption is dependent upon the performance of a notional portfolio of shares (the "**Reference Portfolio**"), the composition of which may be rebalanced to reflect adjustments proposed by a Rebalancing and Advisory Entity appointed by the Rebalancing Appointing Entity (as specified in the applicable Final Terms) in connection with the Securities and the relevant Reference Portfolio and, if Dividend Reinvestment is specified as applicable in the applicable Final Terms, dividend reinvestment. For the avoidance of doubt, references in these risk factors to Reference Item(s), include any Reference Portfolio and, as the context permits, the shares comprising such Reference Portfolio.

Investors are exposed to decision(s) of the relevant Rebalancing and Advisory Entity in relation to the composition of the Reference Portfolio, which decision(s) may reduce the value of the Reference Portfolio and thereby the amount (if any) payable under the Actively Managed Basket Linked Securities. Investors should note that the Issuer may reject proposed changes to the Reference Portfolio by the Rebalancing and Advisory Entity (which it will do in its sole and absolute discretion and without regard to the interests of the Holders) including if certain criteria set out in the Conditions, including without limitation in relation to restrictions on transactions in shares (whether legal, operational, market, internal or otherwise), restrictions on the share universe, restrictions on concentration limits and liquidity and limitations on the number of rebalancings, is not met. Any such rejection may result in a lower value of the Reference Portfolio and thereby reduce the amount that may otherwise have been payable in respect of the Actively Managed Basket Linked Securities and none of the Issuer, the Calculation Agent nor the Rebalancing Appointing Entity will have any liability in such respect, including without limitation in relation to any determination as to whether a proposed rebalancing meets such criteria. In certain circumstances the performance of the Reference Portfolio may be such that no amounts are payable on redemption of the Actively Managed Basket Linked Securities and investors may lose their entire investment. Investors should ensure that they review and understand the criteria which must be met in order for the Reference Portfolio to be rebalanced to reflect adjustments proposed by the Rebalancing and Advisory Entity and the discretions of the Rebalancing and Advisory Entity, the Issuer and the Calculation Agent in respect of the Reference Portfolio and the Securities. No assurance is

given that the Rebalancing and Advisory Entity will manage the composition of the Reference Portfolio to produce a return to Holders or as to the timing of any rebalancing of the Reference Portfolio following a proposal by the Rebalancing and Advisory Entity and no party (including, without limitation, the Issuer, the Calculation Agent nor the Rebalancing Appointing Entity) accepts any liability to the extent that any Holders suffer a loss as a result of a failure by the Rebalancing and Advisory Entity to do so or such time taken to effect a rebalancing (respectively).

The number of shares comprised in the Reference Portfolio and thereby the value of the Reference Portfolio will also be reduced for certain advisory, rebalancing and structuring fees, reflecting fees of the Rebalancing and Advisory Entity, costs of rebalances and fees of the Calculation Agent respectively, which may negate any positive performance of the Reference Portfolio and, if the Reference Portfolio performs negatively, increase a Holder's loss of investment.

In the event that the appointment of the Rebalancing and Advisory Entity terminates prior to the redemption of the Actively Managed Basket Linked Securities (and no successor has been appointed), the management of the Reference Portfolio by the Rebalancing and Advisory Entity will cease, meaning investors will be exposed to the performance of the specific shares comprising the Reference Portfolio at that time and there will be no related rebalancings thereafter which could otherwise have improved the value of the Reference Portfolio.

If Potential Adjustment Event and/or De-listing and/or Merger Event and/or Nationalisation and/or Insolvency and/or Tender Offer are specified as applying in the applicable Final Terms and/or a share is determined to be of a prohibited type (a "**Prohibited Share**") specified in the applicable Final Terms, prospective investors should note that any affected share may be removed from the Reference Portfolio and the exposure of the Reference Portfolio to the remaining shares adjusted accordingly, which may be detrimental to the performance of the Reference Portfolio, or (other than in the case of a Prohibited Share) the Actively Managed Basket Linked Securities may be subject to adjustment or may be redeemed at an amount calculated on the basis of the Final Redemption Amount or Cash Settlement Amount (as applicable), but where the relevant valuation date is deemed to be the early redemption valuation date. The amount due on any such redemption may be substantially less than an investor's investment in the Actively Managed Basket Linked Securities and may in certain circumstances be zero.

In respect of Actively Managed Basket Linked Securities relating to a share originally quoted, listed and/or dealt as of the Trade Date or Rebalancing Adjustment Effective Date (for a share included in the Reference Portfolio on a rebalancing) in a currency of a member state of the European Union that has not adopted the euro, if such share is at any time after the Trade Date or Rebalancing Adjustment Effective Date (as applicable) quoted, listed and/or dealt exclusively in euro on the relevant Exchange, prospective purchasers should note that the Calculation Agent will adjust any one or more of the terms of the Conditions and/or the applicable Final Terms as the Calculation Agent determines in its sole and absolute discretion to be appropriate to preserve the economic terms of the Actively Managed Basket Linked Securities. Prospective purchasers should also note that the Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the relevant Valuation Time at the official conversion rate, if any, or an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the relevant Valuation Time. Any such adjustment may have an adverse effect on the return on and market value of the Actively Managed Basket Linked Securities.

(k) ***Additional considerations relevant for Index Linked Securities where an equity index is the Reference Item, Equity Linked Securities, Bond Linked Redemption Notes and Actively Managed Basket Linked Securities***

The Calculation Agent may not be required to make an adjustment for every event that can affect the reference index or equity securities (for Equity Linked Securities and Actively Managed Basket Linked Securities). If an event occurs that does not require the Issuer to adjust the amount payable at maturity in respect of the reference equity security or reference index, the market price of the associated Reference Item Linked Securities and the amount of interest or the principal amount payable at the maturity may be materially and adversely affected.

The Issuer or one or more of its affiliates or, in the case of Actively Managed Basket Linked Securities, the relevant Rebalancing and Advisory Entity may, at present or in the future, engage in business with (as applicable) an Equity Issuer, Bond Issuer or Share Issuer or in each case its competitors, including making loans to or equity investments in any such entity or providing any such entity with investment banking, asset management or other advisory services, including merger and acquisition advisory services. These activities may present a conflict between the Issuer's or its affiliates' or the Rebalancing and Advisory Entity's obligations and the interests of Holders. Moreover, the Issuer or one or more of its affiliates or, in the case of Actively Managed Basket Linked Securities, the relevant Rebalancing and Advisory Entity may have published and may in the future publish research reports on (as applicable) an Equity Issuer, Bond Issuer or Share Issuer or upon any reference index which may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Reference Item Linked Securities. Any of these activities could affect the price of the reference equity securities, bonds or index and this could adversely affect the value of the associated Reference Item Linked Securities.

If the Issuer and its affiliates are not affiliated with the Equity Issuers, Bond Issuers or Share Issuers (as applicable) and, in the case of Actively Managed Basket Linked Securities, the relevant Rebalancing and Advisory Entity is not affiliated with the Share Issuers, the Issuer and (as applicable) the Rebalancing and Advisory Entity will have no ability to control or predict the actions of these issuers, including any corporate actions of the type that would require the Issuer to adjust the amount payable on the Reference Item Linked Securities, and will have no ability to control the public disclosure of these corporate actions or any other events or circumstances affecting the Equity Issuers, Bond Issuers or Share Issuers. The Equity Issuers, Bond Issuers or Share Issuers will have no obligation to consider the interests of Holders in taking any corporate actions that might adversely affect the value of the associated Reference Item Linked Securities. The Equity Issuers, Bond Issuers or Share Issuers may take actions that will adversely affect the value of the associated Reference Item Linked Securities. None of the money paid for the Reference Item Linked Securities will go to the Equity Issuers, Bond Issuers or Share Issuers.

(l) ***Additional Disruption Events (Index Linked Securities, Equity Linked Securities, Fund Linked Securities, Bond Linked Redemption Notes and Actively Managed Basket Linked Securities only)***

If certain Additional Disruption Events are specified as applying in the applicable Final Terms, the Securities will be subject to adjustment or may be redeemed or cancelled (as applicable) upon the occurrence of any of the Additional Disruption Events specified as applying in the applicable Final Terms. The amount due on any such redemption or cancellation (as applicable) may be substantially less than an investor's investment in the Securities and may in certain circumstances be zero.

“**Additional Disruption Events**” may include change in law, hedging disruption, increased cost of hedging and/or insolvency filings.

(m) ***Specific risks relating to Commodity Linked Securities***

The Issuer may issue Securities where amounts payable are dependent upon the price or changes in the price of a commodity or basket of commodities or in the case of Exempt Securities other than Swiss Non-Exempt Securities where, depending on the price or change in the price of the commodity or basket of commodities, on maturity, redemption or settlement (as applicable) the Issuer may be obliged to deliver specified assets other than commodities (together “**Commodity Linked Securities**”).

Commodity Linked Securities tend to be more volatile than traditional securities investments. The market values of commodities tend to be highly volatile. Commodity market values are not related to the value of a future income or earnings stream, as tends to be the case with fixed-income and equity investments, but are subject to variables of specific application to commodities markets. These variables include changes in supply and demand relationships, governmental programmes and policies, national and international monetary, trade, political, judicial and economic events, changes in interest and exchange rates, speculation and trading activities in commodities and related contracts, weather, and agricultural, trade, fiscal and exchange control policies. These factors may have a larger impact on commodity prices and commodity-linked instruments than on traditional fixed-income and equity securities and investors in Commodity Linked Securities take the risk of exposure to these variables adversely impacting their investment in such Securities.

Commodity Linked Securities which are linked to commodity futures contracts may provide a different return from Commodity Linked Securities linked to the relevant physical commodity and will have certain other risks.

The price of a futures contract on a commodity will generally be at a premium or at a discount to the spot price of the commodity. This discrepancy is due to such factors as (i) the need to adjust the spot price due to related expenses (e.g., warehousing, transport and insurance costs) and (ii) different methods being used to evaluate general factors affecting the spot and the futures markets. In addition, and depending on the commodity, there can be significant differences in the liquidity of the spot and the futures markets. This means depending upon the circumstances an investment in Commodity Linked Securities linked to a futures contract price may be adversely affected compared to Commodity Linked Securities linked to a spot price and *vice versa*.

Investment in futures contracts involves certain other risks, including potential illiquidity. A holder of a futures position may find that such position becomes illiquid because certain commodity exchanges limit fluctuations in such futures contract prices pursuant to “daily limits”. Once the price of a particular futures contract has increased or decreased by an amount equal to the daily limit, contracts can neither be bought nor sold unless holders are willing to trade at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. Futures contract prices in various commodities occasionally exceed the daily limit for several days with little or no trading. Such losses could have an adverse effect on the return of Commodity Linked Securities linked to the affected futures contracts. Any illiquidity disruption or force majeure event (such as an act of God, fire, flood, severe weather conditions, act of governmental authority or a labour dispute or shortage) is likely to have an adverse affect on the value of or trading in commodities or futures contracts on such commodities and adversely affect the value of the Commodity Linked Securities.

Commodity futures contracts have a predetermined expiration date. Holding a commodity futures contract until expiration will result in delivery of the underlying physical commodity or the requirement to make or receive a cash settlement. Alternatively, “rolling” the commodity futures contract means that the commodity futures contract that is nearing expiration (the “**near-dated commodity contracts**”) is sold before it expires and a commodity futures contract that has an expiration date further in the future (the “**longer-dated commodity contracts**”) is purchased. In order to maintain an ongoing exposure to such commodities “rolling” of the applicable commodity futures contracts is applied.

“Rolling” can affect the value of an investment in commodities in a number of ways, including:

An investment in commodity futures contracts may increase or decrease through “rolling”: Where the price of a near-dated commodity contract is greater than the price of the longer-dated commodity contract (the commodity is said to be in “**backwardation**”), then “rolling” from the former to the latter will result in greater exposure to the longer-dated commodity contract. Therefore, any loss or gain on the new positions will be greater than if an investor had synthetically held the same number of commodity contracts as before the “roll”. Conversely, where the price of the near-dated commodity contract is lower than the price of the longer-dated commodity contract (the commodity is said to be in “**contango**”), then “rolling” will result in less exposure to the longer-dated commodity contract. Therefore, any gain or loss on the new positions will be less than if an investor had synthetically held the same number of commodity contracts as before the “roll”.

Where a commodity futures contract is in contango this is expected to (though may not) have a negative effect on the value of the commodity contract over time. Where a commodity futures contract is in backwardation this is expected to (though may not) have a positive effect on the value of the commodity contract over time. Where a commodity contract is in contango, then the price of the longer-dated commodity contract will be expected to (but may not) decrease over time as it nears expiry. In such event, rolling is expected to have a negative effect on an investment in the commodity contract. If the value of the Commodity Linked Securities decreases as the value of the investment in the futures contract decreases, this will have a negative effect on the value of the Commodity Linked Securities. Where a commodity contract is in backwardation, then the price of the longer-dated commodity contract is expected to (but may not) increase over time as it nears expiry. In such event, the investment in the relevant commodity futures contract is expected to (but may not) be positively affected. If the value of the Commodity Linked Securities decreases as the value of the investment in the futures contract increases, this will have a negative effect on the value of the Commodity Linked Securities.

Commodity Indices are indices which track the performance of one or more commodity futures contracts relating to certain commodities, depending on the particular index. The weighting of the respective commodities included in a commodity index will depend on the particular index, and is generally described in the relevant index rules of the index. Commodity Indices usually apply “rolling” of the component commodity contracts in order to maintain an ongoing exposure to such commodities. Accordingly, the same effects and risks as described above with regard to “rolling” also apply with regard to the index level of a Commodity Index.

Commodities are generally divided into four main classes and Commodity Indices may include one or more of these: (i) Metals: which can be subdivided into base metals such as aluminium, copper, nickel, lead and zinc, and precious metals such as gold, silver, platinum and palladium; (ii) Agriculture: which includes corn, soybeans, wheat, sugar, cocoa, cotton and coffee; (iii) Energy: which includes crude oil, gasoline, heating oil and natural gas; and (iv) Livestock: which includes cattle and hogs. Specific risk factors in respect of each of these classes of Commodities are set out below:

Commodity Linked Securities may be subject to certain risks specific to aluminium, copper, lead, nickel or zinc.

Aluminium, copper, lead, nickel and zinc are industrial metals. Consequently, in addition to factors affecting commodities generally that are described above, Commodity Linked Securities that are linked to the price of aluminium, copper, lead, nickel or zinc may be subject to a number of additional factors specific to industrial metals that might cause price volatility. These may include, among others:

- (i) changes in the level of industrial activity using industrial metals including the availability of substitutes such as man-made or synthetic substitutes;
- (ii) disruptions in the supply chain, from mining to storage to smelting or refining;
- (iii) adjustments to inventory;
- (iv) variations in production costs, including storage, labour and energy costs;
- (v) costs associated with regulatory compliance, including environmental regulations; and
- (vi) changes in industrial, government and consumer demand, both in individual consuming nations and internationally.

These factors interrelate in complex ways, and the effect of one factor on the market value of Commodity Linked Securities linked to the price of any industrial metal may offset or enhance the effect of another factor.

The London Metal Exchange's (the "LME") use of or omission to use price controls may result in limited appreciation but unlimited depreciation in the price of certain industrial metals futures contracts traded on LME and, therefore, the value of Commodity Linked Securities linked to the price of such metals.

United States exchanges have "daily limits" (as described above) that may occur during a single business day. In contrast, futures contracts on aluminium, copper, lead, nickel or zinc that are traded on LME are not subject to "daily limits". In a declining market, therefore, it is possible that prices for one or more contracts traded on LME would continue to decline without limitation within a trading day or over a period of trading days. A steep decline in the price of the futures contract could have a significant adverse impact on the value of any Commodity Linked Securities linked to such aluminium, copper, lead, nickel or zinc futures contracts.

Moreover, LME has discretion to impose "backwardation limits" by permitting short sellers who are unable to effect delivery of an underlying commodity and/or borrow such commodity at a price per day that is no greater than the backwardation limit to defer their delivery obligations by paying a penalty in the amount of the backwardation limit to buyers for whom delivery was deferred. Backwardation limits tend to either constrain appreciation or cause depreciation of the prices of futures contracts expiring in nearby delivery months. Impositions of backwardation limits could adversely affect the value of any Commodity Linked Securities linked to such aluminium, copper, lead, nickel or zinc futures contracts.

Contracts traded on LME are exposed to concentration risks beyond those characteristic of futures contracts on United States futures exchanges.

Futures contracts traded on United States futures exchanges generally call for delivery of the physical commodities to which such contracts relate in stated delivery months. In contrast, contracts traded on LME may call for delivery on a daily, weekly or monthly basis. As a result, there may be a greater risk of a concentration of positions in contracts trading on LME on

particular delivery dates than for futures contracts traded on United States futures exchanges, since, for example, contracts calling for delivery on a daily, weekly or monthly basis could call for delivery on the same or approximately the same date. Such a concentration of positions, in turn, could cause temporary aberrations in the prices of contracts traded on LME for delivery dates to which such positions relate. To the extent such aberrations are in evidence on a given pricing date with respect to the price of any such futures contract, they could adversely affect the value of any Commodity Linked Securities linked to such futures contracts.

Commodity Linked Securities may be subject to certain risks specific to cocoa, coffee, corn, cotton, soybeans, sugar or wheat.

Cocoa, coffee, corn, cotton, soybeans, sugar and wheat are agricultural commodities. Cocoa, coffee, cotton and sugar are soft commodities; corn, soybeans and wheat are grains. Consequently, in addition to factors affecting commodities generally that are described above, Commodity Linked Securities that are linked to the price of cocoa, coffee, corn, cotton, soybeans, sugar or wheat may be subject to a number of additional factors specific to agricultural commodities and softs or grains that might cause price volatility. These may include, among others:

- (i) weather conditions, including floods, drought and freezing conditions;
- (ii) changes in government agricultural policies;
- (iii) changes in global demand for food or clothing;
- (iv) planting decisions;
- (v) changes in bio-diesel or ethanol demand; and
- (vi) changes in demand for agricultural products, softs or grains both with end users and as inputs into various industries.

These factors interrelate in complex ways, and the effect of one factor on the market value of Commodity Linked Securities linked to the price of cocoa, coffee, corn, cotton, soybeans, sugar or wheat, may offset or compound the effect of another factor.

Commodity Linked Securities may be subject to certain risks specific to crude oil or natural gas.

Crude oil and natural gas are energy-related commodities. Consequently, in addition to factors affecting commodities generally that are described above, Commodity Linked Securities linked to the price of crude oil or natural gas may be subject to a number of additional factors specific to energy-related commodities that might cause price volatility. These may include, among others:

- (i) changes in the level of industrial and commercial activity with high levels of energy demand;
- (ii) disruptions in the supply chain or in the production or supply of other energy sources;
- (iii) price changes in alternative sources of energy;
- (iv) adjustments to inventory;
- (v) variations in production and shipping costs;
- (vi) costs associated with regulatory compliance, including environmental regulations; and

- (vii) changes in industrial, government and consumer demand, both in individual consuming nations and internationally.

These factors interrelate in complex ways and the effect of one factor on the market value of Commodity Linked Securities linked to the price of crude oil or natural gas may offset or compound the effect of another factor.

Commodity Linked Securities may be subject to certain risks specific to gold, silver, platinum or palladium.

Gold, silver, platinum and palladium are precious metals. In addition to factors affecting commodities generally that are described above, Commodity Linked Securities linked to the price of gold, silver, platinum or palladium may be subject to a number of additional factors specific to precious metals that might cause price volatility. These may include, among others:

- (i) disruptions in the supply chain, from mining to storage to smelting or refining;
- (ii) adjustments to inventory;
- (iii) variations in production costs, including storage, labour and energy costs;
- (iv) costs associated with regulatory compliance, including environmental regulations;
- (v) changes in industrial, government and consumer demand, both in individual consuming nations and internationally;
- (vi) precious metal leasing rates;
- (vii) currency exchange rates;
- (viii) level of economic growth and inflation; and
- (ix) the degree to which consumers, governments, corporate and financial institutions hold physical gold as a safe haven asset (hoarding) which may be caused by a banking crisis/recovery, a rapid change in the value of other assets (both financial and physical) or changes in the level of geopolitical tension.

These factors interrelate in complex ways, and the effect of one factor on the market value of Commodity Linked Securities linked to the price of gold, silver, platinum or palladium, may offset or compound the effect of another factor.

Commodity Linked Securities may be subject to certain risks specific to lean hogs or live cattle.

Lean hogs and live cattle are a type of livestock. Consequently, in addition to factors affecting commodities generally that are described above, Commodity Linked Securities linked to the price of lean hogs or live cattle may be subject to a number of additional factors specific to livestock that might cause price volatility. These may include, among others:

- (i) weather conditions, including floods, drought and freezing conditions;
- (ii) disease and famine;
- (iii) changes in government agricultural and/or livestock policies; and
- (iv) changes in end-user demand for livestock.

These factors interrelate in complex ways, and the effect of one factor on the market value of Commodity Linked Securities linked to the price of lean hogs or live cattle, may offset or enhance the effect of another factor.

(n) **Specific risks relating to Fund Linked Securities**

General

The Issuer may issue Securities where the amounts payable are dependent upon the price or changes in the price of one or more Fund Interests or Fund Shares or where, depending on the price or changes in the price of one or more Fund Interests or Fund Shares, the Issuer has an obligation to deliver specified assets. Accordingly, an investment in Fund Linked Securities may bear similar market risks to a direct fund investment and investors should take advice accordingly. Funds may also include exchange traded funds (“ETFs”) and Fund Linked Securities which are cash settled and Non-Exempt Securities or Swiss Non-Exempt Securities will be linked to ETFs only.

Neither the Issuer nor its affiliates have the ability to control or predict the actions of the Fund Adviser or other Fund Service Provider. The Fund Adviser is not involved in the offer of the Securities in any way and has no obligation to consider the interests of the Holders in taking any corporate actions that might affect the value of the Securities.

The Issuer will have no role in the relevant Fund. The Fund Adviser is responsible for making strategic, investment and other trading decisions with respect to the management of the Fund, consistent with its investment objectives and guidelines and/or investment restrictions as set out in its constitutive documents. In most cases the arrangements between the Fund Adviser and the Fund will have not been negotiated at arm’s length and it is unlikely that the Fund Adviser will be replaced or that additional fund managers and/or fund advisers will be retained. The manner in which a Fund is managed and the timing of such decisions will have a significant impact on the performance of the Fund, which may also be affected by the performance of the Fund Service Providers. Hence, the price which is used to calculate the performance of the Fund is also subject to these risks. Set out below are risks common to any fund or funds and are not specific to the Fund. These risks include:

- (i) the risk that the share price of one or more of the assets in the Fund’s portfolio will fall, or will fail to rise. Many factors can adversely affect an asset’s performance, including both general financial market conditions and factors related to a specific asset or asset class;
- (ii) general macro-economic or asset class specific factors, including interest rates, rates of inflation, financial instability, lack of timely or reliable financial information or unfavourable political or legal developments;
- (iii) asset allocation policies of the Fund Adviser;
- (iv) credit quality and the risk of default of one of the hedge funds or of assets generally held in the Fund;
- (v) the risk that the Fund’s investment objectives and/or investment restrictions as set out in its constitutive documents are materially changed, not complied with or the method of calculating the Net Asset Value is materially changed;
- (vi) the risk that the Fund is liquidated, dissolved or otherwise ceases to exist or it or its Fund Adviser is subject to a proceeding under any applicable bankruptcy, insolvency or other similar law; and

- (vii) the risk that the Fund is subject to a fraudulent event.

Potential investors should understand that for certain determinations, the Calculation Agent or the Issuer may be required to rely on (a) values that at the time they are required are only estimated values, and (b) information provided by third parties, such as the Fund Adviser or Fund Service Providers, on the basis of their models, market anticipation and assumptions, the accuracy of which neither the Issuer nor the Calculation Agent has any control, and as such, they may rely on this information without any obligation to verify or otherwise corroborate it. This may adversely affect amounts otherwise due or deliverable under and the market value of the Securities.

Fund Events

Prospective investors should understand that, if a Fund Event is applicable, on the occurrence of any of the Fund Events, the Issuer may require the Calculation Agent: (i) to make such adjustments as it determines appropriate, including delaying any determination date or related payment date until it determines that no Fund Event exists, (ii) select replacement Funds, or (iii) in the case of Notes, redeem the Notes early and pay each Holder the Early Redemption Amount (which in the case of Notes which are Non-Exempt Securities or Swiss Non-Exempt Securities will be an amount equal to the fair market value of each Note taking into account hedge costs) or, in the case of W&C Securities, cancel the W&C Securities upon payment of an amount in respect of each W&C Security or Unit, as the case may be, equal to the fair market value of each W&C Security or Unit, as the case may be, together with accrued Additional Amounts (if applicable), in each case taking into account hedge costs plus (in the case of Warrants), if already paid, the Exercise Price. “**Fund Events**” may include (depending on the selections made in the applicable Final Terms and whether the Fund is an ETF) Additional Fund Disruption Events (which include Change in Law, Fund Hedging Disruption and Increased Cost of Hedging), Fund Valuation Disruption, Fund Settlement Disruption, Nationalisation, Insolvency, Fund Insolvency Event, NAV Trigger Event, Adviser Resignation Event, Fund Modification, Strategy Breach, Regulatory Action, Reporting Disruption, Fund Service Provider Cessation, Fund Administration Disruption and Related Agreement Termination. Any of these consequences may adversely affect the market value of the Securities and/or the amounts due or deliverable on redemption, cancellation or settlement (as applicable) of the Securities, which may in certain circumstances be zero.

Fund Potential Adjustment Events

Following the declaration by a Fund of any Fund Potential Adjustment Event, the Calculation Agent may determine to make adjustments to the terms of the Fund Linked Securities, which could adversely affect the market value and amounts due or deliverable under the Securities.

Exchange Traded Funds

In the case where the Fund is an ETF, if De-listing, Insolvency, Material Underlying Event (which includes events in relation to the ETF and/or Fund Share which is materially prejudicial to the Issuer in connection with the issue of the Fund Linked Securities or any related hedging arrangement) and/or Merger Event, Nationalisation and/or Tender Offer occurs, the Securities will also be subject to adjustment or in the case of Notes, early redemption at an amount equal to the fair market value of each Note taking into account hedge costs, in the case of Notes which are Non-Exempt Securities or Swiss Non-Exempt Securities or at the Early Redemption Amount specified in the applicable Pricing Supplement, in the case of Notes which are Exempt Securities, or, in the case of W&C Securities, cancellation upon payment of an amount to each Holder in respect of each W&C Security or Unit, as the case may be, determined by reference

to the fair market value of each W&C Security or Unit, as the case may be, taking into account hedging costs. The amount due on any such redemption or cancellation (as applicable) may be substantially less than an investor's investment in the Securities and may in certain circumstances be zero.

(o) ***Specific risks relating to Preference Share Linked Notes***

The Issuer may issue Notes ("**Preference Share Linked Notes**") where the amounts payable are dependent upon the changes in the value of certain preference shares (the "**Preference Shares**") issued by RBC GELP (UK) Limited (the "**Preference Share Issuer**"), which may fluctuate up or down depending on the performance of the relevant underlying asset(s) or basis of reference to which the Preference Shares are linked (the "**Preference Share Underlying**") as set out in the terms and conditions of the Preference Shares (the "**Preference Share Terms**"). If as a result of the performance of the Preference Share Underlying, the performance of the Preference Shares is negative the value of the Preference Share Linked Notes will be adversely affected. Purchasers of Preference Share Linked Notes risk losing all or a part of their investment if the value of the Preference Shares falls.

As set out below, Preference Share Linked Notes will be subject to early redemption if an Extraordinary Event or, if applicable, an Additional Disruption Event occurs or if a Preference Share Early Redemption Event occurs. In these circumstances the Issuer may redeem the Notes at the Early Redemption Amount. The Early Redemption Amount may be less (and in certain circumstances, significantly less) than investors' initial investment.

Exposure to the Preference Share Underlying

The Preference Share Underlying may be a specified index or basket of indices, a specified equity or basket of equities, a specified currency or basket of currencies, a specified commodity or basket of commodities, a specified fund share or unit or basket of fund shares or units or such other underlying instruments, bases of reference or factors as may be determined by the Preference Share Issuer and specified in the relevant Preference Share Terms. Consequently potential investors should also consider the risk factors set out on pages 1 to 79 in respect of the risks involved in investing in Securities (in this case the Preference Shares) linked to certain Reference Item(s).

Credit and Fraud Risk of Preference Share Issuer

Preference Share Linked Notes are linked to the performance of the relevant Preference Shares. Investors bear the risk of an investment in the Preference Share Issuer. The value of the Preference Share Linked Notes is dependent on the value of the Preference Shares, which will depend in part on the creditworthiness of the Preference Share Issuer, which may vary over the term of the Preference Share Linked Notes. The Preference Share Issuer is not an operating company. Its sole business activity is the issue of redeemable preference shares. The Preference Share Issuer does not have any trading assets and does not generate any significant net income. As its funds are limited, any misappropriation of funds or other fraudulent action by the Preference Share Issuer or person acting on its behalf would have a significant effect on the value of the preference shares and will affect the value of the Preference Share Linked Notes.

Potential conflicts of interest

The Bank is the Issuer and unless otherwise specified in the Final Terms, RBC Capital Markets, LLC is the Calculation Agent in respect of Preference Share Linked Notes and also acts as calculation agent in respect of the Preference Shares (the "**Preference Share Calculation**").

Agent”). The Bank and RBC Capital Markets, LLC are affiliates. As a result of this relationship, potential conflicts of interest may arise for the Bank and RBC Capital Markets, LLC in acting in their respective capacities. Subject to any relevant regulatory obligations, the Issuer and the Preference Share Calculation Agent owe no duty or responsibility to any Holder to avoid any conflict or to act in the interests of any Holder. The Preference Share Issuer may also rely on other RBC group entities (including the Preference Share Calculation Agent) or other service providers to perform its operational requirements. In the event any relevant RBC group entity or other service provider fails to perform any obligations, this may adversely affect the value of the Preference Shares and potentially the amounts payable under the Notes.

In addition to providing calculation agency services to the Preference Share Issuer, RBC Capital Markets, LLC or any of its affiliates may perform further or alternative roles relating to the Preference Share Issuer and any series of Preference Shares including, but not limited to, being involved in arrangements relating to any Preference Share Underlying (for example as calculation agent). Further, RBC Capital Markets, LLC or any of its affiliates (including the Bank) may contract with the Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to the Preference Share Issuer, the Preference Shares or any Preference Share Underlying and as a result RBC Capital Markets, LLC may face a conflict between its obligations as Preference Share Calculation Agent and its and/or its affiliates' interests in other capacities. Any of these activities could affect the price of the Preference Share and therefore adversely affect the value of the Preference Share Linked Notes. Any of these activities could affect the price of the reference equity securities or index and, therefore, the value of the associated Reference Item Linked Securities.

Determination of Extraordinary Events and Additional Disruption Events

The Calculation Agent may determine the occurrence of a Merger Event, Tender Offer, Insolvency or Additional Disruption Event in relation to the Preference Share Linked Notes. Upon such determination, the Issuer may, at its option, redeem the Preference Share Linked Notes in whole at the Early Redemption Amount, which may be less than the amount invested in the Preference Share Linked Notes. Holders will not benefit from any appreciation of the Preference Shares that may occur following such redemption.

(p) Specific risks relating to Currency Linked Securities

The Issuer may issue Securities where amounts payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Securities are denominated (“**Currency Linked Securities**”). Accordingly, an investment in Currency Linked Securities may bear similar market risks to a direct foreign exchange investment and investors should take advice accordingly. An investment in Currency Linked Securities will entail significant risks not associated with a conventional debt security.

If the Final Redemption Amount, Cash Settlement Amount, interest or additional amounts payable, or, in the case of Exempt Securities other than Swiss Non-Exempt Securities, Entitlement deliverable, are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, any adverse effect of changes in the currency exchange rates on the Final Redemption Amount, Cash Settlement Amount, interest or additional amounts payable, or Entitlement deliverable, will be magnified.

Fluctuations in exchange rates of the relevant currency (or the relevant currencies contained in a basket of currencies) may adversely affect the value of Currency Linked Securities. Furthermore, investors who intend to convert gains or losses from the exercise, redemption or sale of Currency Linked Securities into their home currency may be affected by fluctuations in exchange rates between their home currency and Settled Currency (as defined below) of the

Securities. Currency values may be affected by complex political and economic factors, including, without limitation, governmental action to fix or support the value of a currency/currencies, regardless of other market forces (see “*If an investor holds Securities which are not denominated in the investor’s home currency, they will be exposed to movements in exchange rates adversely affecting the value of their holding. In addition, the imposition of exchange controls or certain other specified events in relation to any Securities could result in an investor not receiving payments on those Securities*” below).

(q) ***Risks relating to Securities denominated in Renminbi***

Securities denominated in Renminbi (“**Renminbi Securities**”) may be issued under the Programme. Renminbi Securities are subject to particular risks for potential investors, including:

Renminbi is not completely freely convertible; there are significant restrictions on remittance of Renminbi into and out of the PRC which may adversely affect the liquidity of Renminbi Securities

Renminbi is not completely freely convertible at present. The PRC government continues to regulate conversion between Renminbi and foreign currencies.

Although, effective from October 1, 2016 the Renminbi was included in the Special Drawing Right basket as the fifth currency, along with the U.S. dollar, the euro, Japanese Yen and Sterling and policies for further improving accessibility to Renminbi to settle cross-border transactions in foreign currencies were implemented by the People’s Bank of China (“**PBoC**”) in 2018, there is no assurance that the PRC government will continue to liberalise control over cross-border Renminbi remittances in the future, that the schemes for Renminbi cross-border utilisation will not be discontinued or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. If the Issuer decided to remit some or all of the proceeds of issue of RMB Securities into the PRC in Renminbi, its ability to do so will be subject to obtaining (without guarantee) all necessary approvals from, or registration with, the relevant PRC government authorities. If the Issuer does remit some or all of the proceeds of issue of RMB Securities into the PRC in Renminbi and the Issuer subsequently is not able to repatriate funds outside the PRC in Renminbi, this may affect the ability of the Issuer to source Renminbi to perform its obligations under the Renminbi Securities.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of Renminbi Securities and the Issuer’s ability to source Renminbi outside the PRC to service such Renminbi Securities.

As a result of the restrictions by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. The limited availability of Renminbi outside the PRC may affect the liquidity of the Issuer’s Renminbi Securities. To the extent the Issuer is required to source Renminbi in the offshore market to service its Renminbi Securities, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

An investment in Renminbi Securities is subject to exchange rate risks

The value of the Renminbi against the U.S. dollar and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic

conditions as well as many other factors. Except in the limited circumstances as described in the Conditions, the Issuer will make all payments of interest and principal with respect to the Renminbi Securities in Renminbi. As a result, the value of these Renminbi payments in U.S. dollars or other applicable foreign currency terms may vary with the changes in the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against the U.S. dollar or other applicable foreign currency, the value of a Holder's investment in U.S. dollar or other applicable foreign currency terms will decline.

An investment in Renminbi Securities is subject to currency risk

If the Issuer is not able, or it is impracticable for it, to satisfy its obligation to pay amounts on the Renminbi Securities when due, in whole or in part, in Renminbi as a result of Inconvertibility, Non-Transferability or Illiquidity, the Issuer shall be entitled, on giving not less than five nor more than 30 days' irrevocable notice to the Holders prior to the due date for payment, to settle any such payment, in whole or in part, in U.S. dollars on the due date at the U.S. dollars Equivalent (as defined in the Conditions) of any such amount otherwise payable in Renminbi. See also *"If an investor holds Securities which are not denominated in the investor's home currency, they will be exposed to movements in exchange rates adversely affecting the value of their holding. In addition, the imposition of exchange controls or certain other specified events in relation to any Securities could result in an investor not receiving payments on those Securities"* below.

Payments in respect of Renminbi Securities will only be made to investors in the manner specified in the terms and conditions of the relevant Securities

Holders of beneficial interests in the Renminbi Securities may be required to provide certifications and other information (including Renminbi account information) in order to allow such holder to receive payments in Renminbi in accordance with the Renminbi clearing and settlement system for participating banks in the Relevant Renminbi Settlement Centre(s) (as defined in the Conditions).

All Renminbi payments to investors in respect of the Renminbi Securities will be made solely (i) for so long as the Renminbi Securities are in global form held with the common depository or common safe-keeper, as the case may be, for Euroclear and Clearstream, Luxembourg or any alternative clearing system, by transfer to a Renminbi bank account maintained in the Relevant Renminbi Settlement Centre in accordance with prevailing rules and procedures of those clearing systems or (ii) for so long as the Renminbi Securities are in definitive form, by transfer to a Renminbi bank account maintained in the Relevant Renminbi Settlement Centre in accordance with prevailing rules and regulations. Other than as described in the Conditions, the Issuer cannot be required to make payment in relation to Renminbi Securities by any other means (including in any other currency or by transfer to a bank account in the PRC).

There may be material and adverse PRC tax consequences with respect to investment in the Renminbi Securities

The value of the Holder's investment in the Renminbi Securities may be materially and adversely affected if the Holder is required to pay PRC tax with respect to acquiring, holding or disposing of and receiving payments under those Renminbi Securities.

(r) ***Risks relating to CREST Depository Interests***

CDI Holders will hold or have an interest in a separate legal instrument and not be the legal owners of the Underlying Securities, the interests in which are held by the CREST Depository. Accordingly, rights under Underlying Securities cannot be enforced by CDI Holders except indirectly through the intermediary depositories and custodians. The enforcement of rights under such Underlying Securities will be subject to the local law of the relevant intermediaries. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of such Underlying Securities in the event of any insolvency or liquidation of any of the relevant intermediaries, in particular where Underlying Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

The CDIs will be issued to CDI Holders pursuant to the CREST Deed Poll which (along with the CREST Manual and the CREST Rules) contains indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the CREST Depository and is binding on such CDI Holders. CDI Holders may incur liabilities pursuant to or resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the amounts originally invested by them. As a result, the rights of and returns received by CDI Holders may differ from those of holders of Underlying Securities which are not represented by CDIs

In addition, fees, charges, costs and expenses may be incurred in connection with the use of the CREST International Settlement Links Service.

Potential investors should note that none of the Issuer, the Issuing and Paying Agent nor any Paying Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

(s) ***Risks relating to Exempt Securities other than Swiss Non-Exempt Securities***

Partly Paid Notes

In the case of Exempt Notes only, the Issuer may issue Notes where the issue price is payable in more than one instalment. Any failure by an investor to pay any subsequent instalment of the Issue Price in respect of their Notes when so required could result in such investor losing all of its investment.

Credit Linked Securities

In the case of Exempt Securities only, the Issuer may issue Securities where amounts payable are dependent upon whether certain events have occurred in respect of a specified entity (the "Reference Entity") and, if so, on the value of certain specified assets of the Reference Entity or where, if such events have occurred, on redemption the Issuer's obligation is to deliver certain specified assets.

Potential investors in any such Securities should be aware that depending on the terms of the Credit Linked Securities (i) they may receive no or a limited amount of interest or principal or other amounts, (ii) payment of principal, interest or other amounts or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

The market price of such Securities may be volatile and will be affected by, amongst other things, the time remaining to the redemption or expiry date and the financial condition and creditworthiness of the Reference Entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions or industries and changes in prevailing interest rates.

Where the Securities provide for physical delivery, the Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the Settlement Date or Redemption Date or (b) assets which the Hedging Entity has not received under the terms of any transaction entered into by Hedging Entity to hedge the Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount payable on redemption or settlement. Prospective purchasers should review the relevant Conditions of the Securities and the applicable Pricing Supplement to ascertain whether and how such provisions should apply to the Securities.

The Issuer's obligations in respect of Credit Linked Securities are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a Reference Entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

Payments due or amounts deliverable under the Securities

In the case of Exempt Securities, the applicable Pricing Supplement will set out the provisions for the determination of any cash amount and/or specified assets and of any periodic interest or additional amount payments (as applicable) in respect of Securities.

Additional Conflicts of interest

Any additional conflicts of interest with respect to any Exempt Securities will be specified in the applicable Pricing Supplement.

The Issuer may have the right to vary settlement

In the case of Exempt Securities which provide for Physical Delivery, if so indicated in the applicable Pricing Supplement, the Issuer has an option to vary settlement in respect of such Securities. If exercised by the Issuer, this option will lead to Physical Delivery Securities being cash settled or Cash Settled Securities being physically settled. Exercise of such option may adversely affect the value of the Securities.

Inverse Floating Rate Notes will have more volatile market values than conventional Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the

Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

2. Risks related to the Securities generally

Set out below is a description of material risks relating to the Securities generally:

Modification and Waivers

General

The Conditions of the Securities contain provisions for calling meetings (including (other than for Swedish Notes, Swedish W&C Securities, Norwegian Notes or Norwegian W&C Securities) by way of conference call or by use of a videoconference platform) of Holders and passing written resolutions and (other than for Swedish Notes, Swedish W&C Securities, Norwegian Notes or Norwegian W&C Securities) obtaining electronic consents, in each case in relation to matters affecting their interest generally. These provisions permit defined majorities to bind (and to modify or waive certain terms and conditions of the Securities or covenants and agreements made by the Issuer) all Holders including Holders who do not attend and vote at the relevant meeting or vote by way of written resolution or (other than for Swedish Notes, Swedish W&C Securities, Norwegian Notes or Norwegian W&C Securities) electronically and Holders who voted in a manner contrary to the majority.

Accordingly, Holders are exposed to the risk that their rights in respect of the Securities are varied against their will, which may result in an investment in any Securities becoming less advantageous to a particular Holder depending on individual circumstances.

Any amendment or variance that may affect the eligibility of the Bail-inable Securities to continue to be treated as TLAC under the TLAC Guidelines or any amendment or variance pursuant to the Administrator/Benchmark Event provisions in the Note Conditions or W&C Conditions, as applicable, that would change the effective maturity, redemption, exercise or expiration date, as applicable, of Bail-inable Securities shall be of no effect unless the prior approval of the Superintendent has been obtained. If such approval is not obtained, this may result in an investment in any Securities becoming less advantageous to a particular Holder than had such approval been obtained and the change taken effect, depending on individual circumstances.

Canadian bank resolution powers confer substantial powers on Canadian authorities designed to enable them to take a range of actions in relation to the Issuer where a determination is made that the Issuer has ceased, or is about to cease, to be viable and such viability cannot be restored or preserved, which if taken could result in holders or beneficial owners of Securities being exposed to losses

Under the CDIC Act, in circumstances where the Superintendent is of the opinion that the Issuer has ceased, or is about to cease, to be viable and viability cannot be restored or preserved by exercise of the Superintendent's powers under the Bank Act, the Superintendent, after providing the Issuer with a reasonable opportunity to make representations, is required to provide a report to CDIC, Canada's resolution authority. Following receipt of the Superintendent's report, CDIC may request the Minister of Finance to recommend that the Governor in Council (Canada) make an Order (as defined below) and, if the Minister of Finance is of the opinion that it is in the public interest to do so, the Minister of Finance may recommend that the Governor in Council (Canada) make, and on such recommendation, the Governor in Council (Canada) may make, one or more of the following orders (each an "**Order**"):

- vesting in CDIC, the shares and subordinated debt of the Issuer specified in the Order (a “**Vesting Order**”);
- appointing CDIC as receiver in respect of the Issuer (a “**Receivership Order**”);
- if a Receivership Order has been made, directing the Minister of Finance to incorporate a federal institution designated in the Order as a bridge institution wholly-owned by CDIC and specifying the date and time as of which the Issuer’s deposit liabilities are assumed (a “**Bridge Bank Order**”); or
- if a Vesting Order or Receivership Order has been made, directing CDIC to carry out a conversion, by converting or causing the Issuer to convert, in whole or in part – by means of a transaction or series of transactions and in one or more steps – the shares and liabilities of the Issuer that are subject to the Bail-in Regime into common shares of the Issuer or any of its affiliates (a “**Conversion Order**”).

Following a Vesting Order or a Receivership Order, CDIC will assume temporary control or ownership of the Issuer and will be granted broad powers under that Order, including the power to sell or dispose of all or a part of the assets of the Issuer, and the power to carry out or cause the Issuer to carry out a transaction or a series of transactions the purpose of which is to restructure the business of the Issuer.

Under a Bridge Bank Order, CDIC has the power to transfer the Bank’s insured deposit liabilities and certain assets and other liabilities of the Issuer to a bridge institution. Upon the exercise of that power, any assets and liabilities of the Issuer that are not transferred to the bridge institution would remain with the Issuer, which would then be wound up. In such a scenario, any liabilities of the Issuer, including any outstanding Securities, that are not assumed by the bridge institution could receive only partial or no payment in the ensuing wind-up of the Issuer.

If the CDIC were to take action under the Canadian bank resolution powers with respect to the Issuer, this could result in holders or beneficial owners of Securities being exposed to losses.

Securities may be subject to write-off, write down or conversion under the resolution powers of authorities outside of Canada

The Bank has operations in a number of countries outside of Canada, including in particular the United States and the United Kingdom. In accordance with the Financial Stability Board’s “Key attributes of effective Resolution Regimes for Financial Institutions” dated October 15, 2014, local resolution authorities should have resolution powers over local branches of foreign firms and the capacity to use their powers either to support a resolution carried out by a foreign home authority (for example, by ordering a transfer of property located in its jurisdiction to a bridge institution established by the foreign home authority) or, in exceptional cases, to take measures on its own initiative where the foreign home authority is not taking action or acts in a manner that does not take sufficient account of the need to preserve the local jurisdiction’s financial stability or where other relevant conditions are met. The UK has implemented such powers and, as such, they may apply to the Bank’s London branch. It is therefore possible that resolution authorities in countries where the Bank has branches or assets, including the United States and the United Kingdom, may adversely affect the rights of holders of the Securities (particularly those governed by local law where the Branch of Account specified in the applicable Final Terms is in the relevant local jurisdiction), including by using any powers they may have to write down or convert the Securities. For further information on the risks related to the use of resolution powers by authorities in the United Kingdom, please see “*UK resolution risks applicable to the Securities*” above.

Securities are Structurally Subordinated to the Liabilities of Subsidiaries

If the Bank becomes insolvent, its governing legislation provides that priorities among payments of its deposit liabilities and payments of all of its other liabilities (including payments in respect of Securities) are to be determined in accordance with the laws governing priorities and, where applicable, by the terms of the indebtedness and liabilities. Because the Bank has subsidiaries, a Holder's right to participate in any distribution of the assets of the Bank's banking or non-banking subsidiaries, upon a subsidiary's dissolution, winding-up, liquidation or reorganization or otherwise, and thus a Holder's ability to benefit indirectly from such distribution, is subject to the prior claims of creditors of that subsidiary, except to the extent that the Bank may be a creditor of that subsidiary and its claims are recognized. There are legal limitations on the extent to which some of the Bank's subsidiaries may extend credit, pay dividends or otherwise supply funds to, or engage in transactions with, the Bank or some of the Bank's other subsidiaries. Accordingly, Securities will be structurally subordinated to all existing and future liabilities of the Bank's subsidiaries, and holders of Securities should look only to the assets of the Bank and not those of its subsidiaries for payments on the Securities.

The value of the Securities could be adversely affected by a change in law or administrative practice

Any possible judicial decision or change to the laws of the Province of Ontario and the federal laws of Canada applicable therein (in the case of Securities governed thereby) or English law (in the case of Securities governed thereby) or administrative practice after the date of this Base Prospectus and before the date on which the relevant Securities are issued and any such change could materially adversely impact the value of any Securities affected by it.

Investors in Bearer Notes who hold less than the minimum Specified Denomination (including after a partial Bail-in Conversion or any other resolution action) may be unable to sell their Bearer Notes and may be adversely affected if definitive Bearer Notes are subsequently to be issued

In relation to any issue of Bearer Notes which has denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Bearer Notes may be traded in the clearing systems in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In addition, in the case of a partial Bail-in Conversion or any other resolution action in respect of Bearer Notes, a Holder may, as a result of such partial Bail-in Conversion or any other resolution action, end up with an amount that is less than the minimum Specified Denomination. In either such case, a Holder who, as a result of trading such amounts, or such a partial Bail-in Conversion or any other resolution action, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Bearer Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a Holder who, as a result of trading such amounts or such a partial Bail-in Conversion or any other resolution action, holds an amount which is less than the minimum Specified Denomination in their account with the relevant clearing system at the relevant time may not receive a definitive Bearer Note in respect of such holding (should definitive Bearer Notes be provided) and would need to purchase a principal amount of Bearer Notes at or in excess of the minimum Specified Denominated such that its holding amounts to a Specified Denomination before definitive Bearer Notes are issued to such Holder.

If such definitive Bearer Notes are issued, Holders should be aware that definitive Bearer Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Tax treatment

The tax treatment of the Securities for their holders depends on their individual circumstances, the particular terms of the relevant series of Securities and the views of the relevant tax authorities in respect of the proper application of tax law, regulations and practice to the Securities. Prospective holders should seek their own professional advice.

In particular, potential holders are referred to the section headed "United Kingdom taxation". Any potential holder who purchases any Securities on the basis that they will be treated as "excluded indexed securities" or "qualifying options" should be aware that HM Revenue & Customs have not approved that treatment or otherwise represented in any way that the Securities will be treated as "excluded indexed securities" or "qualifying options". Any investor should take their own professional tax advice in relation to whether or not they should prepare their tax returns or otherwise takes the position that the Securities are "excluded indexed securities" or "qualifying options".

More generally, the tax treatment of Securities may also change during the period between their issue and the date on which they are sold, redeemed, exercised or otherwise realise value. Such change may be in the form of new legislation or amendments to existing legislation, decisions of the tribunals or courts or changes in tax authority practice, and in each case may affect Securities already in issue and can otherwise be with retrospective effect.

Accordingly, the tax treatment of the Securities for their holders may be more onerous than was envisaged at the time when a decision to subscribe for the Securities was taken and, as a consequence, the proceeds received and retained by investors after the application of applicable taxes may be less than they envisage at the time of purchasing the Securities.

Market perceptions concerning the instability of the euro, the potential re-introduction of individual currencies within the Euro-zone, or the potential dissolution of the euro entirely, could adversely affect the value of the Securities

As a result of the credit crisis in Europe, in particular in Greece, Italy, Ireland, Portugal and Spain, the European Commission created the European Financial Stability Facility (the "EFSF") and the European Financial Stability Mechanism (the "EFSM") to provide funding to Euro-zone countries in financial difficulties that seek such support. In March 2011, the European Council agreed on the need for Euro-zone countries to establish a permanent stability mechanism, the European Stability Mechanism (the "ESM"), which will be activated by mutual agreement, to assume the role of the EFSF and the EFSM in providing external financial assistance to Euro-zone countries. As of July 1, 2013, the ESM is the sole and permanent mechanism for responding to new requirements for financial assistance by Euro-zone countries. Despite these measures, concerns persist regarding the debt burden of certain Euro-zone countries and their ability to meet future financial obligations, the overall stability of the euro and the suitability of the euro as a single currency given the diverse economic and political circumstances in individual Member States. These and other concerns could lead to the re-introduction of individual currencies in one or more Member States, or, in more extreme circumstances, the possible dissolution of the euro entirely. Should the euro dissolve entirely, the legal and contractual consequences for holders of euro-denominated obligations would be determined by laws in effect at such time. These potential developments, or market perceptions concerning these and related issues, could adversely affect the value of the Securities.

Canadian Usury Laws

The *Criminal Code* (Canada) prohibits the receipt of “interest” at a “criminal rate” (namely, an effective annual rate of interest that exceeds 60 per cent.). Accordingly, the provisions for the payment of interest or a Redemption Amount in excess of the aggregate principal amount of the Securities may not be enforceable if the provision provides for the payment of “interest” in excess of an effective annual rate of interest of 60 per cent. If any Securities are found not to be enforceable in whole or in part as a result of such prohibition, holders of Securities may not be able to collect some or all of the interest owing on such Securities.

Withholding

The Securities may be subject to withholding taxes in circumstances where the Issuer is not obliged to make gross up payments and this would result in holders receiving less interest or other amounts than expected and could adversely affect their return on the Securities. See also "*Expenses and Taxes*" in relation to W&C Securities above.

Hiring Incentives to Restore Employment Act Withholding

The U.S. Hiring Incentives to Restore Employment Act imposes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met. Additionally, for purposes of withholding under the U.S. Foreign Account Tax Compliance Act, Securities subject to the withholding rule described in the preceding sentence are subject to a different grandfathering rule than other securities. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld, and, accordingly, amounts due under the Securities will be reduced. Prospective investors should refer to the sections "*Taxation – Hiring Incentives to Restore Employment Act*" and "*Taxation – Foreign Account Tax Compliance Act*".

Because there is no limit on the amount of additional debt that the Issuer may incur, the Issuer's ability to make timely payments on the Securities may be affected by the amount and terms of the Issuer's future debt

The Issuer's ability to make timely payments on its outstanding debt may depend on the amount and terms of its other obligations, including any outstanding Securities. There is no limitation on the amount of indebtedness (whether senior or subordinated) that the Issuer may issue in the future. As the Issuer issues additional debt securities under the Programme or incurs other indebtedness, unless its earnings grow in proportion to its debt and other fixed charges, its ability to service the Securities on a timely basis may become impaired.

Notes issued as “Green Bonds”, “Social Bonds” or “Sustainability Bonds” may not be a suitable investment for all investors seeking exposure to green and/or social assets

The Issuer may issue Notes under the Programme where the reasons for the offer is specified in the applicable Final Terms as being “Green Bonds” and for "green" purposes (“**Green Bonds**”), “Social Bonds” and for “social” purposes (“**Social Bonds**”) or “Sustainability Bonds” and for “sustainability” purposes (“**Sustainability Bonds**” and, together with Green Bonds and Social Bonds, “**Sustainable Bonds**”) as provided therein, in which case the proceeds of issue of such Notes will be used for the financing and/or refinancing, in part or in full, of future or

existing Eligible Assets within the applicable Eligible Categories each (as set out within the Sustainable Bond Framework) (see further and as defined under “Use of Proceeds”).

The Issuer will exercise its judgement and sole discretion in determining the organizations, businesses and projects that will be financed by the proceeds of issue of Sustainable Bonds. While it is the intention of the Issuer, it is possible that some of the Eligible Assets funded with the proceeds from Sustainable Bonds may not meet the Sustainable Bond Framework.

It should be noted that there is currently no clearly-defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green", "social", "sustainable" or an equivalently-labelled organization, project or business, nor as to what precise attributes are required for a particular organization, project or business to be defined as "green", "social", "sustainable" or such other equivalent label and it is not certain that such a clear definition or consensus will develop over time. Accordingly, while it is the intention of the Issuer, it may be that projects or uses the subject of, or related to, any Eligible Asset funded with the proceeds from Sustainable Bonds will not meet any or all investor expectations regarding such "green", "social", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental social, sustainable and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Eligible Asset.

Furthermore, there is no contractual obligation to allocate the proceeds of such notes to finance Eligible Assets or to provide annual limited assurance reports as described in “Use of Proceeds” below. The Issuer’s failure to allocate the proceeds of any particular Sustainable Bond to finance an Eligible Asset or to provide annual limited assurance reports, the failure of any of the Eligible Assets to meet any or all investor expectations regarding such “green”, “social”, “sustainable” or other equivalently-labelled performance objectives, or the failure of an independent external review provider to issue a “second-party opinion” on the allocation of the proceeds, will not constitute an Event of Default with respect to the relevant Sustainable Bonds (or give rise to any claim by the holder thereof) and may affect the value of the relevant Sustainable Bonds and/or have adverse consequences for certain investors with portfolio mandates to invest in green, social and/or sustainable assets.

If Sustainable Bonds are at any time listed or admitted to trading on any dedicated "green", "environmental" "social", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), such listing or admission may not satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, social or sustainability impact of any projects or uses, the subject of or related to, any of the Eligible Assets. Furthermore, it should be noted that the criteria for any such listing or admission to trading may vary from one stock exchange or securities market to another. The Issuer is under no obligation to obtain such listing or admission to trading and, if obtained, is under no obligation to maintain such listing or admission to trading during the life of the relevant Sustainable Bonds.

While it is the intention of the Issuer to publish the relevant reports, assessments, opinions and certifications, and apply the proceeds of any Notes so specified for Eligible Assets, in, or substantially in, the manner described in “Use of Proceeds” set out in the applicable Final Terms and this Base Prospectus, the Issuer may not be able to do this. It is not certain that any eligible projects (where applicable) will be completed within any specified period or at all or with the

results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. The withdrawal of any report, assessment, opinion or certification as described above, or any such report, assessment, opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such report, assessment, opinion or certification is reporting, assessing, opining or certifying on, any failure to complete the relevant eligible projects as provided above may have a material adverse effect on the value of such Sustainable Bonds and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

3. Risks related to the market generally

Set out below is a description of material market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

An active secondary market in respect of the Securities may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Securities

Securities may have no established trading market when issued, and one may never develop and the Issuer may, but is not obliged to, list the Securities on a stock exchange. If a market for the Securities does develop, it may not be very liquid and may be sensitive to changes in financial markets and it is very difficult to predict the price at which Securities will trade in any secondary market or whether such market will be liquid or illiquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed liquid secondary market. This is particularly the case should the Issuer be in financial distress, which may result in any sale of the Securities having to be at a substantial discount to their principal amount or inherent value absent the Issuer's financial distress or for Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors (such as Reference Item Linked Securities) or for Securities which are not listed on any stock exchange or for Securities the outstanding number of which is very low. These types of Securities generally would have a more limited secondary market and more price volatility than conventional debt securities. Accordingly, investors must be prepared to hold the Securities to maturity. Also (in the case of American Style W&C Securities) to the extent Exercisable Certificates or Warrants of a particular issue are exercised, the number of W&C Securities of such issue outstanding will decrease resulting in diminished liquidity for the remaining Exercisable Certificates or Warrants, as applicable, of such issue. A decrease in the liquidity of an issue of Exercisable Certificates or Warrants may cause, in time, an increase in the volatility associated with the price of such issue of Exercisable Certificates or Warrants, as applicable.

If the Securities are listed at any time, the Issuer is not under any obligation to Holders to maintain such listing of Securities and may, in its sole discretion, determine that it is unduly burdensome to maintain such listing and seek to terminate the listing of such Securities provided it uses all reasonable efforts to seek an alternative admission to listing, trading and/or quotation of such Securities by another listing authority, securities exchange and/or quotation system that it deems appropriate (including a market which is not a regulated market for the purposes of MiFID II or a market outside the EEA). However, if such alternative listing is not available or, in the opinion of the Issuer is impractical or unduly burdensome, an alternative listing may not be obtained and the Issuer is not obliged to so obtain.

Although there is no assurance as to the liquidity of any Securities as a result of the listing on a regulated market for the purposes of MiFID II in the EEA or any other market, de-listing such

Securities may have a material affect on an investor's ability to (i) continue to hold such Securities or (ii) resell the Securities in the secondary market.

The Issuer and any Dealer may, but is not so obliged, at any time purchase Securities at any price in the open market or by tender or private offer/treaty. A Dealer may, but is not obliged to, be a market-maker for an issue of Securities and may cease to do so at any time. Even if a Dealer is a market-maker for an issue of Securities, the secondary market for such Securities may be limited. In addition, affiliates of the Issuer (including the Dealer as referred to above) may purchase Securities at the time of their initial distribution and from time to time thereafter. There may also be less liquidity in the market for Securities if those Securities are exclusively offered to retail investors, without any offer to institutional investors.

As set out above, there may be no secondary market for the Securities and to the extent that an issue of Securities is or becomes illiquid, an investor may have to exercise or wait until redemption or settlement of such Securities, as applicable, to realise greater value than its then trading value.

If an investor holds Securities which are not denominated in the investor's home currency, they will be exposed to movements in exchange rates adversely affecting the value of their holding. In addition, the imposition of exchange controls or certain other specified events in relation to any Securities could result in an investor not receiving payments on those Securities

The Issuer will pay amounts on the Securities in (a) the Specified Currency or Settlement Currency (as applicable) (b) if alternative currency payment provisions apply as set out under "*Risks related to payment on the Securities in an Alternative Currency*", the Alternative Currency or (c) if alternative currency payment provisions apply as set out under "*An investment in Renminbi Securities is subject to exchange rate risks*" above, U.S. dollars (such relevant currency of payment being, the "**Settled Currency**"). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Settled Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Settled Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Settled Currency would decrease (i) the Investor's Currency-equivalent yield on the Securities, (ii) the Investor's Currency-equivalent value of the principal payable on the Securities and (iii) the Investor's Currency-equivalent market value of the Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Securities. As a result, the Cash Settlement Amount or Additional Amounts (in the case of Cash Settled W&C Securities) or the Final Redemption Amount and any interest (in the case of Notes) that investors receive may be less than expected or zero.

Risks related to payment on the Securities in an Alternative Currency

The Issuer's primary obligation is to make all payments of interest, principal and other amounts with respect to Securities in the relevant Specified Currency or Settlement Currency (as applicable). However, if Alternative Currency Payment is specified to be applicable to the Securities and if access to the Specified Currency or Settlement Currency becomes restricted, the Issuer will be entitled to make any such payment in the Alternative Currency at the rates, and in the manner, set out in Condition 9.01 (in the case of W&C Securities) or Condition 18.19 (in the case of Notes).

In such case, the value of the Securities could therefore be affected by fluctuations in the value of the Specified Currency or Settlement Currency, as the case may be, as compared to the Alternative Currency. There is a risk that the exchange rate (or the exchange rates) used to determine the Alternative Currency amount of any payments in respect of the Securities may significantly change (including changes due to devaluation or revaluation of the Specified Currency or Settlement Currency, as the case may be) or that authorities with jurisdiction over such currencies could cause a decrease in (1) the Alternative Currency equivalent yield on the Securities, (2) the Alternative Currency equivalent value of the amount payable in respect of any other amount payable on the Securities and (3) the Alternative Currency equivalent market value of the Securities. Therefore, there is a possibility that the Alternative Currency value of the Securities at the time of any sale or payment, as the case may be, of the Securities may be below the Alternative Currency value of the Securities on investing, depending on the exchange rate at the time of any such sale or payment, as the case may be.

Fixed Rate Notes bear interest at a fixed rate, which may affect the secondary market value and/or the real value of the Notes over time due to fluctuations in market interest rates and the effects of inflation

Fixed Rate Notes bear interest at a fixed rate. Investors should note that (i) if market interest rates start to rise then the income to be paid on the Notes might become less attractive and the price the investors get if they sell such Notes could fall and (ii) inflation will reduce the real value of the Notes over time which may affect what investors can buy with the investments in the future and which may make the fixed interest rate on the Notes less attractive in the future.

There may be price discrepancies with respect to the Securities as between various dealers or other purchasers in the secondary market

If at any time a third party dealer quotes a price to purchase Securities or otherwise values Securities, that price may be significantly different (higher or lower) from any price quoted by any member of the group comprising Royal Bank of Canada and its subsidiaries. Furthermore, if any Holder sells their Securities, the Holder will likely be charged a commission for secondary market transactions, or the price may reflect a dealer discount reducing the value of the Securities to the Holders.

Notes which are issued with variable interest rates or which are structured to include a multiplier or other leverage factor are likely to have more volatile market values than more standard securities

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features.

The purchase price of a Security may not reflect its inherent value

Prospective investors in the Securities should be aware that the purchase price of a Security does not necessarily reflect its inherent value. Any difference between a Security's purchase price and its inherent value may be due to a number of different factors including, without limitation, prevailing market conditions and fees, discounts or commissions paid or earned by the various parties involved in structuring and/or distributing the Security. Any such difference will result in a decrease in the value of an issue of Securities, particularly in relation to any such Securities sold immediately following the issue date or offer period relating to such Securities. For further information prospective investors should refer to the party from whom they are

purchasing the Securities. Prospective investors may also wish to seek an independent valuation of Securities prior to their purchase.

Credit ratings assigned to the Issuer or any Securities might not reflect all the risks associated with an investment in those Securities

One or more independent credit rating agencies may assign credit ratings to the Issuer or the Securities issued under the Programme. The ratings might not reflect the potential impact of all risks related to structure, market, additional factors discussed above and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time. Investors may suffer losses if the credit rating assigned to the Securities does not reflect the then creditworthiness of such Securities.

In general, EEA regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such credit ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied.

If the status of the rating agency rating the Securities changes for the purposes of the CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Securities may have a different regulatory treatment, which may adversely impact the value of the Securities and their liquidity in any secondary market.

Certain information with respect to the credit rating agencies and credit ratings may be disclosed in the Final Terms.

Credit ratings of the Issuer

The value of the Securities may be affected, in part, by investors' general appraisal of the Issuer's creditworthiness. Such perceptions are generally influenced by the ratings accorded to the Issuer's outstanding securities by rating agencies such as Moody's, S&P and Fitch. A reduction in the rating, if any, accorded to outstanding debt securities of the Issuer or to the Issuer itself, by one of these rating agencies, could result in a reduction of the trading value of the Securities.

Certain considerations relating to public offers of the Securities

If the Securities are distributed by means of a public offer, under certain circumstances indicated in the applicable Final Terms, the Issuer and/or the other entities indicated in the Final Terms will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the applicable Final Terms. In such circumstances, potential investors may have forgone the opportunity to invest in alternative offers.

Unless otherwise provided in the applicable Final Terms, the Issuer and/or the other entities specified in the applicable Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the applicable Final Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Securities issued and, therefore, may have an adverse effect on the liquidity of the Securities.

INVESTMENT CONSIDERATIONS

General

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Securities are legal investments for it, (ii) Securities can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Securities. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Securities under any applicable risk-based capital or similar rules.

Interests of Dealers

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer in the ordinary course of business.

Certain of the Dealers and their affiliates may have positions, deal or make markets in Securities issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Bank or any of its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and/or their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account or for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Bank or Bank's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Bank routinely hedge their credit exposure to the Bank consistent with their customary risk management policies. Typically, such Dealers and/or their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Securities issued under the Programme. The Dealers and/or their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

The Issuer may sell Securities to one or more of the Dealers including RBC Europe Limited, which is a wholly-owned indirect subsidiary of the Bank. The terms of the Programme were negotiated at arm's length between the Issuer and the Dealers. In addition to any proceeds from any offering of the Securities under the Programme being applied, directly or indirectly, for the benefit of RBC Europe Limited in its capacity as a wholly-owned indirect subsidiary of the Bank, RBC Europe Limited will receive a portion of any fees and commissions payable in connection with any such offering of Securities in its capacity as a Dealer.

Notes in New Global Notes form may not generally satisfy Eurosystem eligibility criteria

The New Global Note form was introduced in 2006 to allow for the possibility of Notes being issued and held in a manner which would permit them to be recognised as eligible collateral for monetary policy of the central banking system for the euro (the "**Eurosystem**") and intra-day

credit operations by the Eurosystem either upon issue or at any or all times during their life. However in any particular case such recognition will depend upon satisfaction of the Eurosystem eligibility criteria at the relevant time. As at the date of this Base Prospectus (and since April 16, 2018) Notes issued by the Issuer do not meet the Eurosystem eligibility criteria and so would not currently be recognised as eligible collateral. Investors who wish to use interests in New Global Notes as eligible collateral with the Eurosystem should make their own assessment as to whether the Notes meet such Eurosystem eligibility criteria at the relevant time.

Additional investment considerations relating to Reference Item Linked Securities

General

Prospective investors in Reference Item Linked Securities should understand the risks of transactions involving such Reference Item Linked Securities and should reach an investment decision only after careful consideration, with their financial, legal and other advisers, of:

- those risks;
- the suitability of Reference Item Linked Securities in light of their particular financial circumstances;
- the information set forth in the Base Prospectus; and
- the information regarding the relevant Reference Item Linked Securities (including when any cash amounts, specified assets, periodic interest or additional amounts are payable and/or deliverable, as the case may be) and the particular Reference Item(s) to which the value of, or payments in respect of, the relevant Reference Item Linked Securities may relate, as specified in the applicable Issue Terms.

The historical experience of the relevant Reference Item(s) should not be taken as an indication of future performance of such Reference Item(s) during the term of any Security.

Tax Treatment

The tax treatment of Reference Item Linked Securities is uncertain and the tax treatment applicable to such Securities may change before their maturity, exercise or redemption (as applicable). Prospective Investors should consult their own independent tax advisors with regard to the application of tax laws to their particular circumstances and to any tax consequences arising under the laws of any relevant tax jurisdictions before making an investment in Reference Item Linked Securities.

Reference Item Information and Investigation

None of the Issuer, any Dealer or any of their respective affiliates assumes any responsibility for the adequacy or accuracy of any information about the Reference Item(s) or any issuer(s) thereof contained in any terms supplement or in any publicly available filings relating to such Reference Item(s) or issuer(s). Prospective investors should make their own investigation into the relevant Reference Item(s) and any issuer(s) thereof and, in deciding whether or not to purchase Reference Item Linked Securities, should form their own views of the merits of an investment linked to the relevant Reference Item(s) based upon such investigations and not in reliance on any information in this Base Prospectus or any Issue Terms or Drawdown Prospectus.

None of the Issuer, any Dealer, the Agents or any of their respective affiliates has performed or will perform any investigation or review of any Reference Item(s) (or any issuer(s) thereof or, in the case of a Fund, any entities that manage such Fund from time to time), including any investigation of relevant public filings, for the purpose of forming a view as to the suitability and merit of an investment linked to such Reference Item(s). No such entity makes any guarantee or express or implied warranties in respect of the Reference Item(s) (or any issuer(s) thereof or, in the case of a Fund, any Fund party) or the expected results of an investment in Securities linked to the Reference Item(s). Accordingly, investors should not conclude that the issue by the Issuer of the Securities is any form of investment recommendation or advice by any of the Issuer, any Dealer, the Agents or any of their respective affiliates.

Preference Share Linked Notes

Preference Share Linked Notes are linked to the performance of the Preference Share, which is linked to the value of the relevant Preference Share Underlying, as set out in the Preference Share Terms. The Preference Share Terms provide that the Preference Shares will be redeemable on their final redemption date (or otherwise in accordance with the Preference Share Terms) and on redemption will carry preferred rights to receive an amount calculated by reference to the Preference Share Underlying.

Investors should review the Preference Share Terms and consult with their own professional advisers.

Multiple Series linked to Reference Item

The Issuer may issue several issues of Reference Item Linked Securities relating to a particular Reference Item(s). However, no assurance can be given that the Issuer will issue any Reference Item Linked Securities other than the Reference Item Linked Securities to which the applicable Issue Terms relate. At any given time, the number of Reference Item Linked Securities outstanding may be substantial. Reference Item Linked Securities provide opportunities for investment and pose risks to investors as a result of fluctuations in the value of the Reference Item(s) to which such Reference Item Linked Securities relate.

Additional investment considerations in relation to Green Bonds, Social Bonds or Sustainability Bonds

The Issuer will exercise its judgement and sole discretion in determining the organizations, businesses and projects that will be financed by the proceeds of issue of Sustainable Bonds (although is under no contractual obligation with respect to the allocation of such proceeds). If the use of the proceeds of Sustainable Bonds is a factor in an investor's decision to invest in Sustainable Bonds, they should consider the disclosure in "Use of Proceeds" set out in the applicable Issue Terms and this Base Prospectus and consult with their legal or other advisers before making an investment in Sustainable Bonds.

While it is the intention of the Issuer, no representation or assurance is given by the Issuer, the Arranger or any Dealer that:

- any of the organizations, businesses and projects funded with the proceeds from Sustainable Bonds will meet the Sustainable Bond Framework;
- any projects or uses the subject of, or related to, and any of the organizations, businesses and projects funded with the proceeds from Sustainable Bonds will meet investor expectations or requirements, whether as to green, social or sustainability impact or outcome, or other equivalently-labelled performance objectives or otherwise;

- any adverse environmental, social, sustainability and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any of the organizations, businesses and projects funded with the proceeds from Sustainable Bonds;
- any listing or admission to trading of Sustainable Bonds on any dedicated "green", "environmental", "social", "sustainability" or other equivalently-labelled segment of any stock exchange or securities market will be obtained or if obtained, that any such listing or admission to trading will be maintained during the life of the relevant Sustainable Bonds; and
- any such listing or admitting to trading satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply (whether by any present or future applicable law or regulations or by its own bylaws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, social or sustainability impact of any projects or uses, the subject of or related to, any of the organizations, businesses and projects funded with the proceeds from Sustainable Bonds).

None of the Arranger or the Dealers have undertaken, nor are they responsible for, any assessment of the Sustainable Bond Framework or the eligibility criteria for Sustainable Bonds. No Dealer will verify or monitor the application of the proceeds of any Sustainable Bonds during the life of the relevant Sustainable Bonds.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any report, assessment, opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of Sustainable Bonds and in particular with any of the organizations, businesses and projects funded with the proceeds from Sustainable Bonds to fulfil any environmental, social, sustainability and/or other criteria. None of the Sustainable Bond Framework, the "second-party opinion" or any other report, assessment, opinion or certification is, nor shall they be deemed, to be incorporated in and/or form part of this Base Prospectus. Any such report, assessment, opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer, the Arranger or any Dealer or any other person to buy, sell or hold Sustainable Bonds. Any "second-party opinion" and any such other report, assessment, opinion or certification is only current as at the date that it was initially issued. Prospective investors must determine for themselves the relevance of any such report, assessment, opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in any Sustainable Bonds. The providers of such reports, assessments, opinions and certifications are not currently subject to any specific regulatory or other regime or oversight.

In all cases see further "*Notes issued as "Green Bonds", "Social Bonds" or "Sustainability Bonds" may not be a suitable investment for all investors seeking exposure to green and/or social assets*" in "*Risk Factors*" above for risks in relation thereto.

Changes to Public Offer Terms

In the case of a Non-exempt Offer of Securities, under certain circumstances, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to extend the Offer Period. In addition, in the event that the Issuer publishes a supplement to the Base Prospectus in accordance with the provisions of the Prospectus Regulation, the Issuer and/or the other entities specified in the applicable Final Terms shall reserve also the right, along with the right

to extend the Offer Period, to postpone the Issue Date and/or one or more Interest Payment Dates and/or the maturity date of the Securities.

Swiss Public Offer Terms

In the case of a Swiss Non-Exempt Offer of Securities, investors in Switzerland who have already subscribed or agreed to purchase or subscribe for Securities before any supplement to the Base Prospectus is published during the Swiss Offer Period, have the right to withdraw their subscriptions and acceptances within two days of publication of such Supplement regardless of whether the Swiss Offer Period closes prior to the expiry of such two day period. Notwithstanding this, the Swiss Offer Period shall not be extended in such circumstances unless otherwise specified in the applicable Final Terms.

FINAL TERMS OR DRAWDOWN PROSPECTUS FOR NON-EXEMPT SECURITIES

In this section the expression “**necessary information**” means, in relation to any Tranche of Securities, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and of the rights attaching to the Securities. In relation to the different types of Securities which may be issued under the Programme the Issuer has endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Securities which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Securities.

Any information relating to the Securities which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Securities will be contained either in the applicable Final Terms or in a Drawdown Prospectus. Such information will be contained in the applicable Final Terms unless, in accordance with Article 23 of the Prospective Regulation (assuming for these purposes it is applicable), any of such information constitutes a significant new factor relating to the information contained in the Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Securities, may be contained in a Drawdown Prospectus.

For a Tranche of Securities which is the subject of the Final Terms, those Final Terms will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Securities which is the subject of Final Terms are the Conditions as completed in such Final Terms.

The terms and conditions applicable to any particular Tranche of Securities which is the subject of a Drawdown Prospectus will be the Conditions as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Securities which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the applicable Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be a single document containing the necessary information relating to the Issuer and the relevant Securities.

GENERAL DESCRIPTION OF THE PROGRAMME AND DESCRIPTION OF PROGRAMME LIMIT

This Base Prospectus was prepared in relation to the Programme, which was approved by resolutions of the Board of Directors of the Bank passed on February 29, 2012. Under the Programme, the Bank may from time to time issue (i) senior notes and subordinated notes not linked to Reference Items (the “**Non-Linked Notes**”), (ii) other senior notes linked to one or more Reference Items (the “**Reference Item Linked Notes**” and together with the Non-Linked Notes, the “**Notes**”), (iii) redeemable certificates (“**Redeemable Certificates**”) or exercisable certificates (“**Exercisable Certificates**”) (together, the “**Certificates**”) linked to one or more Reference Items, or (iv) warrants (“**Warrants**”) linked to one or more Reference Items, which issues may be denominated in or payable in any currency agreed between the Issuer and the relevant Dealer(s) (such Certificates and Warrants together, the “**W&C Securities**” and the W&C Securities and the Notes together, the “**Securities**”). All types of such Securities other than subordinated notes may be issued under this Base Prospectus pursuant to the Programme. The Bank may also issue other base prospectuses in respect of the Programme not approved by the Central Bank of Ireland, under which (as specified in the relevant base prospectus) the Bank may issue some of the types of Securities described above. The applicable terms of any Securities will be agreed between the Bank and the relevant Dealer(s) prior to the issue of the Securities and will be set out in the Terms and Conditions of the Securities endorsed on, or annexed to, the Securities, as completed by the applicable Final Terms, in the case of Non-Exempt Securities and Swiss Non-Exempt Securities, or supplemented, modified or replaced by the applicable Pricing Supplement, in the case of Exempt Securities other than Swiss Non-Exempt Securities, in either case attached to, or endorsed on, such Securities, as more fully described under “*Terms and Conditions of the Notes*” and “*Terms and Conditions of the W&C Securities*”, as the case may be.

The aggregate principal amount of all Notes, Redeemable Certificates and Exercisable Certificates evidencing deposit liabilities under the Bank Act (Canada) outstanding under any prospectus prepared in connection with the Programme at any time may not exceed U.S.\$40,000,000,000 (or its equivalent in any other currency as at the date of the issue of the relevant Notes or Certificates).

The aggregate implied notional amount of all Warrants and Exercisable Certificates not evidencing deposit liabilities under the Bank Act (Canada) outstanding under any prospectus prepared in connection with the Programme at any time may not exceed U.S.\$3,000,000,000 (or its equivalent in any other currency as at the close of issue of the relevant Warrants and Exercisable Certificates).

For the purposes of calculating the U.S. dollar equivalent of the aggregate principal amount or implied notional amount, as the case may be, of relevant Securities issued under the Programme from time to time:

- (a) the U.S. dollar equivalent of Securities denominated in another Specified Currency or payable in another Settlement Currency (as applicable) will be determined as of the date of agreement to issue such Securities on the basis of the spot rate for the sale of the U.S. dollar against the purchase of such Specified Currency or Settlement Currency (as applicable) in the London foreign exchange market quoted by the Issuing and Paying Agent on such date or such other rate as the Issuer and the relevant Dealer may agree;
- (b) the U.S. dollar equivalent of Dual Currency Notes and Reference Item Linked Notes will be calculated in the manner specified above by reference to the original principal amount of such Notes;

- (c) the principal amount of Zero Coupon Notes and other Notes issued at a discount or a premium will be deemed to be the net proceeds received by the Bank for the relevant issue of Notes;
- (d) the principal amount of Redeemable Certificates and Exercisable Certificates that constitute deposit liabilities under the *Bank Act* (Canada) will be deemed to be the net proceeds received by the Bank for the relevant issue of such Certificates; and
- (e) the face principal amount of Partly Paid Notes will be taken into account regardless of the amount of the subscription price paid.

FORM OF THE SECURITIES

Any reference in this section to "applicable Final Terms" shall be deemed to include a reference to "applicable Pricing Supplement" where relevant.

Notes

The Notes of each Series will be in either (a) bearer form, with or without receipts, interest coupons and/or talons attached, (b) registered form, without receipts, interest coupons and/or talons attached or, (c) dematerialized and uncertificated book-entry form without receipts, interest coupons and/or talons attached settled in Euroclear Sweden ("**Swedish Notes**"), VPS ("**Norwegian Notes**") or Euroclear Finland ("**Finnish Notes**"), as applicable. Bearer Notes will only be issued outside the United States.

Bearer Notes

Each Tranche of Bearer Notes will be in bearer form and will initially be issued in the form of a temporary global Note without receipts or interest coupons attached (a "**Temporary Global Note**") or, if so specified in the applicable Final Terms, a permanent global Note without receipts or interest coupons attached (a "**Permanent Global Note**" and, together with the Temporary Global Notes, the "**Bearer Global Notes**" and each a "**Bearer Global Note**") which, in either case, will:

- (a) if the Bearer Global Notes are intended to be issued in new global Note ("**NGN**") form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safe-keeper (the "**Common Safe-keeper**") for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking S.A. ("**Clearstream, Luxembourg**"); and
- (b) if the Bearer Global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depository (the "**Common Depository**") for Euroclear and Clearstream, Luxembourg.

Where the Bearer Global Notes issued in respect of any Tranche are in NGN form, the applicable Final Terms will also indicate that such Bearer Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Bearer Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safe-keeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

While any Bearer Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable, or specified assets deliverable, in respect of the Bearer Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification to the effect that the beneficial owners of interests in the Temporary Global Note are not U.S. persons for U.S. federal income tax purposes or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg, and

Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Issuing and Paying Agent.

On and after the date (the “**Exchange Date**”) which is 40 days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for: (i) interests in a Permanent Global Note of the same Series; or (ii) for Definitive Notes of the same Series with, where applicable, receipts (in the case of Exempt Securities other than Swiss Non-Exempt Securities), interest coupons and talons attached and/or (in the case of a Series comprising both Bearer Notes and Registered Notes and if so specified in the applicable Final Terms) Registered Notes in definitive form (as indicated in the applicable Final Terms), in each case against certification of non-US beneficial ownership as described above, unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amounts due, or specified assets deliverable, on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for Notes in definitive form is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for Definitive Notes of the same Series with, where applicable, receipts, interest coupons and talons attached and/or (in the case of a Series comprising both Bearer and Registered Notes and if so specified in the applicable Final Terms) Registered Notes in definitive form (a) if an Event of Default occurs in respect of any Note of the relevant Series; or (b) if either Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of fourteen days (other than by reason of public holidays) or announces an intention to cease business permanently or in fact does so and the Issuer is unable to locate a qualified successor within 90 days of the occurrence of any such event.

Bearer Global Notes and Definitive Notes will be issued pursuant to the Issue and Paying Agency Agreement (as defined in the Terms and Conditions of the Notes).

The following legend will appear on all Bearer Notes (other than Temporary Global Notes) receipts and interest coupons relating to such Bearer Notes where TEFRA D is specified in the applicable Final Terms:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes, receipts or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of Bearer Notes, receipts or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

The Issuer may agree with any Dealer that Securities may be issued in a form not contemplated by the Conditions, in which event, where such Securities are Non-Exempt Securities or Swiss Non-Exempt Securities, a supplement to this Base Prospectus or a new Base Prospectus will be made available which will describe the effect of the agreement reached in relation to such Securities.

Registered Notes

Registered Notes will be issued in the form of a global Registered Note (a “**Global Registered Note**”) deposited with a common depositary for Euroclear and Clearstream, Luxembourg and will be registered in its name. Persons holding beneficial interests in Global Registered Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of Registered Notes in definitive form.

Payments of principal, interest and any other amount in respect of the Global Registered Notes will, in the absence of provision to the contrary, be made to the person shown on the Register as the registered holder of the Global Registered Note. None of the Issuer, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Global Registered Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Global Registered Note will be exchangeable (free of charge), in whole but not in part, for Registered Notes in definitive form without receipts, interest coupons or talons attached (a) if an Event of Default occurs in respect of any Note of the relevant Series; or (b) if either Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of fourteen days (other than by reason of public holidays) or announces an intention to cease business permanently or in fact does so and the Issuer is unable to locate a qualified successor within 90 days of the occurrence of any such event.

Direct Rights

As noted above, Notes in global form are, in certain circumstances, exchangeable for Notes in definitive form. In the event that (a) a global Note has become due and payable as a result of acceleration as described under “*Terms and Conditions of the Notes – Events of Default*” or that the Maturity Date in respect thereof has occurred and, in either case, payment in full of the amount due is not made before 8:00 p.m. (London time) on the relevant due date or (b) a global Note is not duly exchanged by 6:00 p.m. (London time) on the thirtieth day after the time at which the preconditions to such exchange are first satisfied, the owner of a beneficial interest in such global Note shall become entitled to proceed directly against the Issuer on the basis of statements of account provided by the relevant clearing system, as specified in the relevant global Note or, in the case of Notes governed by English law, the relevant Deed of Covenant, a copy of which is available at the specified office of the Issuing and Paying Agent.

Norwegian Notes will not be issued in definitive form and Norwegian Notes will not be exchangeable for Registered Notes or Bearer Notes or vice versa.

CREST Depository Interests

Following their delivery into Euroclear and/or Clearstream, Luxembourg, if applicable, interests in Underlying Securities may be delivered, held and settled in CREST by means of the creation of CDIs representing the interests in the relevant Underlying Securities. The CDIs will be issued by the CREST Depository to CDI Holders and will be constituted and governed by English law. Such delivery, holding and settlement is governed, *inter alia*, by the terms of the documents setting out the legal relationship of CREST with its users and participants (the "**CREST Manual**").

The CDIs will represent indirect interests in the interest of CREST International Nominees Limited or another entity appointed to act as nominee in accordance with the CREST Deed Poll (the "**CREST Nominee**") in the Underlying Securities and the CREST Nominee will hold the legal title to the Underlying Securities and the direct enforcement right in respect of the Underlying Securities. Pursuant to the CREST Manual, Underlying Securities held in global form by the Common Depository may be settled through CREST, and the CREST Depository will issue CDIs. The CDIs will be independent securities, constituted under English law which may be held and transferred through CREST.

Interests in the Underlying Securities will be credited to the CREST Nominee's account with Euroclear and the CREST Nominee will hold such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants.

Each CDI will be treated by the CREST Depository as if it were one Underlying Security, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to CDI Holders any interest or other amounts received by it as holder of the Underlying Securities on trust for such CDI Holder. CDI Holders will also be able to receive from the CREST Depository notices of meetings of holders of Underlying Securities and other relevant notices issued by the Bank.

Transfers of interests in Underlying Securities by a CREST participant to a participant of Euroclear or Clearstream, Luxembourg will be effected by cancellation of the CDIs and transfer of an interest in such Underlying Securities underlying the CDIs to the account of the relevant participant with Euroclear or Clearstream, Luxembourg.

The CDIs will have the same ISIN as the ISIN of the Underlying Securities and, if the Underlying Securities are listed on the Official List or the official list of the FCA, will not require a separate listing on the Official List or the official list of the FCA, as applicable.

Prospective subscribers for Underlying Securities represented by CDIs are referred to Chapter 8 of the CREST International Manual (as defined below) which contains the form from time to time of the CREST Deed Poll to be entered into by the CREST Depository. The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the Bank, including the CREST Deed Poll. These rights may be different from those of holders of Underlying Securities which are not represented by CDIs.

If issued, CDIs will be delivered, held and settled in CREST, by means of the CREST International Settlement Links Service (the "**CREST International Settlement Links Service**"). The settlement of the CDIs by means of the CREST International Settlement Links Service has the following consequences for CDI Holders:

(i) CDI Holders will not be the legal owners of the Underlying Securities. The CDIs are separate legal instruments from the Underlying Securities to which they relate and represent an indirect interest in such Underlying Securities.

(ii) The Underlying Securities themselves (as distinct from the CDIs representing indirect interests in such Underlying Securities) will be held in an account with a custodian. The custodian will hold the Underlying Securities through a clearing system. Rights in the Underlying Securities will be held through custodial and depository links through the appropriate clearing systems. The legal title to the Underlying Securities or to interests in the Underlying Securities will depend on the rules of the clearing system in or through which the Underlying Securities are held.

(iii) Rights under the Underlying Securities cannot be enforced by CDI Holders except indirectly through the intermediary depositories and custodians described above. The enforcement of rights under the Underlying Securities will therefore be subject to the local law of the relevant intermediary. The rights of CDI Holders to the Underlying Securities are represented by the entitlements against the CREST Depository which (through the CREST Nominee) holds interests in the Underlying Securities. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Securities in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

(iv) The CDIs issued to CDI Holders will be constituted and issued pursuant to the CREST Deed Poll. CDI Holders will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to, the CREST International Manual as contained in the CREST Manual (the "**CREST International Manual**") and the CREST Rules applicable to the CREST International Settlement Links Service (the "**CREST Rules**") and CDI Holders must comply in full with all obligations imposed on them by such provisions.

(v) Potential investors should note that the provisions of the CREST Deed Poll and the CREST Manual (including for the avoidance of doubt the provisions of the CREST International Manual and the CREST Rules) contain indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the issuer of the CDIs, the CREST Depository.

(vi) CDI Holders may incur liabilities resulting pursuant to or from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them. The attention of potential investors is drawn to the terms of the CREST Deed Poll and the CREST Manual (including for the avoidance of doubt the provisions of, the CREST International Manual and the CREST Rules), copies of which are available from CREST at 33 Cannon Street, London EC4M 5SB or by calling +44 (0) 20 7849 0000 or from the CREST website (for which a log-in is required) at <https://my.euroclear.com/eui/en/reference/legal-information/crest-manual.html>.

(vii) Potential investors should note CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Underlying Securities through the CREST International Settlement Links Service.

(viii) Potential investors should note that neither the Bank, any Dealer, the Issuing and Paying Agent nor any Paying Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

(ix) Potential investors should note that Underlying Securities issued in temporary global form exchangeable for a Permanent Global Security will not be eligible for CREST settlement as CDIs. As such, investors investing in the Underlying Securities through CDIs will only receive the CDIs after such Temporary Global Security is exchanged for a Permanent Global Security, which could take up to 40 days after the issue of the Underlying Securities.

DESCRIPTION OF CERTAIN FEATURES OF ADDITIONAL PAYOUTS

TYPES OF REFERENCE ITEM PERFORMANCE

If the calculation of the amount due on redemption or (in the case of W&C Securities) exercise of the Securities is linked to the performance of one or more Reference Item(s), Condition 32 (Additional Definitions relating to the Payout Condition) of the Notes and Condition 39 (Additional Definitions relating to the Payout Condition) of the W&C Securities set out different measures of performance for the relevant Reference Item(s) (described as a "Relevant Reference Performance") which may be used for these purposes, depending upon the elections made in the applicable Final Terms. If the settlement method in respect of any Notes is "Cash Settlement or Physical Delivery", a Relevant Reference Performance may also be used in order to determine whether the Notes are to be redeemed by cash settlement or physical delivery.

Each different measure of performance involves a valuation (for example initial and final, averaging, highest, lowest) of the Reference Item (described as the "Relevant Valuation" and "Initial Valuation") on one or more dates (described as "Relevant Monitoring Dates" and "Initial Monitoring Date") at one or more times of the day, in each case as specified in the applicable Final Terms and the applicable Terms and Conditions.

The Relevant Reference Performances that can be selected are: Single Underlying Relevant Reference Performance, Best-of Basket Relevant Reference Performance, Outperformance Relevant Reference Performance, Worst-of Basket Relevant Reference Performance, Ranked Relevant Reference Performance or Basket Relevant Reference Performance, each as described below.

For the purposes of a Put Strike Event or Capital Barrier Event if Capital Barrier Event 3 does not apply, the relevant performance will be (a) if "Final – Initial Level" is specified as applicable in the applicable Final Terms, the Relevant Valuation in respect of the Relevant Monitoring Date divided by the Initial Valuation (if applicable in respect of the Relevant Initial Monitoring Date) or (b) otherwise, the Relevant Valuation in respect of the Relevant Monitoring Date.

If the Securities are Mini-Future Short Redemption Notes or Mini-Future Short W&C Securities and/or Trigger Early Redemption Event 4 (in the case of Notes) or Trigger Early Event 2 (in the case of W&C Securities) applies, the relevant performance will be (a) for the purposes of determining Trigger Early Redemption Event 4 and the Trigger Early Redemption Amount or Trigger Early Event 2 and the Trigger Early Exercise Cash Settlement Amount or Trigger Early Redemption Cash Settlement Amount, as applicable, the Initial Valuation (if applicable in respect of the Relevant Initial Monitoring Date) minus the Relevant Valuation in respect of the relevant time and the Relevant Monitoring Date or (b) for the purposes of determining the Final

Redemption Amount or the Cash Settlement Amount, as applicable, the Initial Valuation (if applicable in respect of the Relevant Initial Monitoring Date) minus the Relevant Valuation in respect of the Relevant Monitoring Date

If the Securities are Himalayan Redemption Notes or Himalayan W&C Securities, the relevant performance will be the Relevant Valuation in respect of the Relevant Monitoring Date.

Ranked Relevant Reference Performance

If Capital Barrier Event 3 or Trigger Early Redemption Event 4 (in the case of Notes) or Trigger Early Event 2 (in the case of W&C Securities) applies, the relevant performance will be the weighted average of the Single Underlying Relevant Reference Performances in respect of each Reference Item, the relevant time and the Relevant Monitoring Date, weighted by reference to the Ranked Weighting which will be allocated to such Reference Item on the basis of the ranking of the relevant Single Underlying Relevant Reference Performance.

If neither Capital Barrier Event 3 nor Trigger Early Redemption Event 4 (in the case of Notes) or Trigger Early Event 2 (in the case of W&C Securities) applies, the relevant performance will be the weighted average of the Single Underlying Relevant Reference Performances in respect of each Reference Item and the Relevant Monitoring Date, weighted by reference to the Ranked Weighting which will be allocated to such Reference Item on the basis of the ranking of the relevant Single Underlying Relevant Reference Performance.

Basket Relevant Reference Performance

If Capital Barrier Event 3 or Trigger Early Redemption Event 4 (in the case of Notes) or Trigger Early Event 2 (in the case of W&C Securities) applies, the relevant performance will be the weighted average of the Single Underlying Relevant Reference Performance in respect of each Reference Item, such time and the Relevant Monitoring Date, weighted by reference to the Weighting specified for such Reference Item in the applicable Final Terms.

Bearer Notes

1.02 The Issue Terms shall specify whether U.S. Treasury Regulation § 1.163-5(c)(2)(i)(D) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the United States Hiring Incentives to Restore Employment Act of 2010) (the “**TEFRA D Rules**”) or U.S. Treasury Regulation § 1.163- 5(c)(2)(i)(C) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the United States Hiring Incentives to Restore Employment Act of 2010) (the “**TEFRA C Rules**”) shall apply. Each Tranche of Bearer Notes with an original maturity of more than one year is represented upon issue by a temporary global Note (a “**Temporary Global Note**”), unless the Issue Terms specify otherwise, in particular, when the TEFRA C Rules apply.

Where the Issue Terms applicable to a Tranche of Bearer Notes so specify or where a Tranche of Bearer Notes has an original maturity of one year or less, such Tranche is (unless otherwise specified in the Issue Terms) represented upon issue by a permanent global Note (a “**Permanent Global Note**”).

Interests in the Temporary Global Note may be exchanged for:

- (i) interests in a Permanent Global Note; or

- (ii) if so specified in the Issue Terms, definitive Bearer Notes (“**Definitive Notes**”) and/or (in the case of a Series comprising both Bearer Notes and Registered Notes and if so specified in the Issue Terms) Registered Notes.

Exchanges of interests in a Temporary Global Note for Definitive Notes or, as the case may be, a Permanent Global Note will be made only on or after the Exchange Date (as specified in the Issue Terms) and (unless the Issue Terms specify that the TEFRA C Rules are applicable to the Notes) provided certification as to the beneficial ownership thereof as required by U.S. Treasury regulations has been received in accordance with the terms of the Temporary Global Note (each certification in such form as is required by the relevant clearing system). An exchange of interests in a Temporary Global Note or a Permanent Global Note for Registered Notes will be made at any time or from such date as may be specified in the Issue Terms, in each case, without any requirement for certification.

1.03 The bearer of any Temporary Global Note shall not (unless, upon due presentation of such Temporary Global Note for exchange (in whole but not in part only) for a Permanent Global Note or for delivery of Definitive Notes and/or Registered Notes, such exchange or delivery is improperly withheld or refused and such withholding or refusal is continuing at the relevant payment date) be entitled to collect any payment in respect of the Notes represented by such Temporary Global Note which falls due on or after the Exchange Date or be entitled to exercise any option on a date after the Exchange Date.

1.04 Unless the Issue Terms specify that the TEFRA C Rules are applicable to the Notes and subject to Condition 1.03 above, if any date on which a payment of interest is due on the Notes of a Tranche occurs while any of the Notes of that Tranche are represented by a Temporary Global Note, the related interest payment will be made on the Temporary Global Note only to the extent that certification as to the beneficial ownership thereof as required by U.S. Treasury regulations (in such form as is required by the relevant clearing system), has been received by Euroclear Bank SA/NV (“**Euroclear**”) or Clearstream Banking S.A. (“**Clearstream, Luxembourg**”) or any other relevant clearing system in accordance with the terms of the Temporary Global Note. Payments of amounts due in respect of a Permanent Global Note or (subject to Condition 1.03 above) a Temporary Global Note will be made through Euroclear or Clearstream, Luxembourg or any other relevant clearing system without any requirement for further certification. Any reference herein to Euroclear or Clearstream, Luxembourg shall be deemed to include a reference to any other relevant clearing system.

1.05 Interests in a Permanent Global Note will be exchanged by the Issuer in whole but not in part only at the option of the Holder of such Permanent Global Note, for Definitive Notes and/or (in the case of a Series comprising both Bearer and Registered Notes and if so specified in the applicable Issue Terms) Registered Notes, (a) if an Event of Default occurs in respect of any Note of the relevant Series; or (b) if either Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of fourteen days (other than by reason of public holidays) or announces an intention to cease business permanently or in fact does so and the Issuer is unable to locate a qualified successor within 90 days of the occurrence of any such event.

1.06 Definitive Notes that are interest bearing have attached thereto, at the time of their initial delivery, coupons (“**Coupons**”), the presentation of which will be a prerequisite to the payment of interest save in certain circumstances specified herein. Definitive Notes that are interest bearing and which have more than 27 interest payments remaining, at the time of their

initial delivery, have attached a talon ("**Talon**") for further coupons and the expression "**Coupons**" shall, where the context so requires, include Talons.

1.07 Definitive Notes which are Exempt Notes, the principal amount of which is repayable by instalments ("**Instalment Notes**") in such amounts as may be specified in, or determined in accordance with, the provisions of the Pricing Supplement (each an "**Instalment Amount**"), have endorsed thereon a grid for recording the repayment of Instalment Amounts or, if so specified in the applicable Pricing Supplement, have attached thereto, at the time of their initial delivery, payment receipts ("**Receipts**") in respect of the Instalment Amounts repaid.

Registered Notes

1.08 Where the Issue Terms applicable to a Tranche of Registered Notes so specify, such Tranche is represented upon issue by a global registered note ("**Global Registered Note**").

Interests in a Global Registered Note will be exchangeable (free of charge), in whole but not in part, for Registered Notes in definitive form without receipts, interest coupons or talons attached (a) if an Event of Default occurs in respect of any Note of the relevant Series; or (b) if either Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of fourteen days (other than by reason of public holidays) or announces an intention to cease business permanently or in fact does so and the Issuer is unable to locate a qualified successor within 90 days of the occurrence of any such event.

2.04 For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg or such other clearing system as set out in the applicable Issue Terms, each person (other than Euroclear or Clearstream, Luxembourg or such other clearing system as set out in Part B of the applicable Issue Terms) who is for the time being shown in the records of Euroclear or Clearstream, Luxembourg or such other clearing system as the holder of a particular principal amount of such Notes (a “**Relevant Account Holder**”) (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg or such other clearing system as to the principal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest or proven error) shall be treated by the Issuer, the Issuing and Paying Agent, the Registrar and any other Paying Agent as the holder of such principal amount of such Notes for all purposes other than with respect to the payment of principal or interest on the Notes, for which purpose the bearer of the relevant Temporary Global Note and/or Permanent Global Note or registered holder of a Global Note shall be treated by the Issuer, the Issuing and Paying Agent and any Paying Agent and any Registrar as the holder of such principal amount of such Notes in accordance with and subject to the terms of the Global Note and/or the Deed of Covenant, as the case may be, and the expression “**Holder**” and related expressions shall be construed accordingly. Transfer of Registered Notes and exchange of Bearer Notes for Registered Notes

A new Registered Note will be issued to the transferee and, in the case of a transfer of part only of a Registered Note, a new Registered Note in respect of the balance not transferred will be issued to the transferor.

2.06 If so specified in the applicable Issue Terms, the Holder of Bearer Notes may exchange the same for the same aggregate principal amount of Registered Notes upon the terms and subject to the conditions set forth in the Issue and Paying Agency Agreement and as may be required by law. In order to exchange a Bearer Note for a Registered Note, the Holder thereof shall surrender such Bearer Note at the specified office outside the United States of America (the “**United States**”) of the Issuing and Paying Agent or of the Registrar, together with a written request for the exchange. Each Bearer Note so surrendered must be accompanied by all unmatured Receipts and Coupons appertaining thereto other than any Coupon where the exchange date (as defined in Condition 2.07) would, but for the provisions of Condition 2.07, occur between the Record Date (as defined in Condition 18.10) for such payment of interest and the next Interest Payment Date for such Coupon.

2.07 Each new Registered Note to be issued upon the registration of the transfer of a Registered Note or the exchange of a Bearer Note for a Registered Note will, within three Relevant Banking Days of the transfer date or, as the case may be, the exchange date be available for collection by each relevant Holder at the specified office of the Registrar or, at the

option of the Holder requesting such exchange or transfer, be mailed (by uninsured post at the risk of the Holder(s) entitled thereto) to such address(es) as may be specified by such Holder. For these purposes, a form of transfer or request for exchange received by the Registrar or the Issuing and Paying Agent after the Record Date in respect of any payment due in respect of Registered Notes shall be deemed not to be effectively received by the Registrar or the Issuing and Paying Agent until the day following the due date for such payment.

For the purposes of these Conditions:

- (i) “**Relevant Banking Day**” means a day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in the place where the specified office of the Registrar is located and, in the case only of an exchange of a Bearer Note for a Registered Note where such request for exchange is made to the Issuing and Paying Agent, in the place where the specified office of the Issuing and Paying Agent is located;
- (ii) the “**exchange date**” shall be the Relevant Banking Day following the day on which the relevant Bearer Note shall have been surrendered for exchange in accordance with Condition 2.06; and

2.09 Notes represented by a Global Note may, if specified in the applicable Issue Terms, be subject to a Minimum Trading Size, in which case such Notes will, for so long as they are cleared through Euroclear or Clearstream, Luxembourg, be transferrable only in a principal amount of not less than such Minimum Trading Size. Notwithstanding the foregoing, such Notes will only be transferrable in accordance with the rules of Euroclear or Clearstream, Luxembourg.

Notes which are Bail-inable Securities

3.02 This Condition 3.02 will apply in respect of all Notes issued by the Issuer that are identified as Bail-inable Securities in the applicable Issue Terms (“**Bail-inable Securities**”). All Notes that (i) have an original or amended term to maturity of more than 400 days, have one or more explicit or embedded options, that if exercised by or on behalf of the Issuer, could result in a maturity date that is more than 400 days from the date of issuance of Notes or that have an explicit or embedded option that, if exercised by or on behalf of the Holder, could by itself result in a maturity date that is more than 400 days from the maturity date that would apply if the option were not exercised; and (ii) are not otherwise excluded, for example as structured notes (as such term is used under the Canadian bank recapitalization regime for banks designated by the Superintendent of Financial Institutions (Canada) (the “**Superintendent**”) as domestic systemically important banks (the “**Bail-in Regime**”)), under the Bail-in Regime, will be identified as Bail-inable Securities in the applicable Issue Terms. Notes that constitute structured notes (as such term is used under the Bail-in Regime) or are otherwise excluded under the Bail-in Regime will not be identified as Bail-inable Securities in the applicable Issue Terms.

By its acquisition of an interest in Bail-inable Securities, each Holder (which, for the purposes of this Condition 3.02, includes each holder of a beneficial interest in such Bail-inable Securities) is deemed to:

- (i) agree to be bound, in respect of such Bail-inable Securities, by the Canada Deposit Insurance Corporation Act (Canada) (the “**CDIC Act**”), including the conversion of the Bail-inable Securities, in whole or in part – by means of a transaction or series of transactions and in one or more steps – into common shares of the Issuer or any of its affiliates under subsection 39.2(2.3) of the CDIC Act and the variation or extinguishment of the Bail-inable Securities in consequence, and by the application of the laws of the Province of Ontario and the federal laws of Canada applicable therein in respect of the operation of the CDIC Act with respect to such Bail-inable Securities (a “**Bail-in Conversion**”);
- (ii) attorn to the jurisdiction of the courts in the Province of Ontario in Canada with respect to the CDIC Act and the laws of the Province of Ontario and the federal laws of Canada applicable therein in respect of the operation of the CDIC Act with respect to the Bail-inable Securities;
- (iii) have represented and warranted to the Issuer that the Issuer has not directly or indirectly provided financing to the Holder of the Bail-inable Securities for the express purpose of investing in Bail-inable Securities; and
- (iv) acknowledge and agree that the terms referred to in paragraphs (i) and (ii), of this Condition 3.02, are binding on such Holder despite any provisions in these Conditions, any other law that governs such Bail-inable Securities and any other agreement, arrangement or understanding between such Holder and the Issuer with respect to such Bail-inable Securities.

The applicable Issue Terms will indicate whether Notes are Bail-inable Securities. All Bail-inable Securities are subject to Bail-in Conversion.

Each Holder of the Bail-inable Securities that acquires an interest in the Bail-inable Securities in the secondary market and any successors, assigns, heirs, executors, administrators, trustees in bankruptcy and legal representatives of any such Holder shall be deemed to acknowledge,

accept, agree to be bound by and consent to the same provisions specified herein to the same extent as the Holders that acquire an interest in the Bail-inable Securities upon their initial issuance, including, without limitation, with respect to the terms of the Bail-inable Securities related to the Bail-in Regime.

3.02a A Holder of a Bail-inable Security will have no further rights in respect of a Bail-inable Security to the extent such Bail-inable Security is converted in a Bail-in Conversion, other than those provided under the Bail-in Regime, and by its acquisition of an interest in the Bail-inable Security, each Holder of the Bail-inable Security is deemed to irrevocably consent to the converted portion of the principal amount of the Bail-inable Security and any accrued and unpaid interest thereon being deemed paid in full by the issuance of common shares of the Issuer (or, if applicable, any of its affiliates) upon the occurrence of a Bail-in Conversion, which Bail-in Conversion shall occur without any further action on the part of that Holder or the Paying Agents or the Registrar except as noted in Condition 3.02b below; provided that, for the avoidance of doubt, this consent shall not limit or otherwise affect any rights of that Holder provided for under the Bail-in Regime.

3.02b By its acquisition of an interest in Bail-inable Securities, each Holder of Bail-inable Securities is deemed to have authorised, directed and requested Euroclear and/or Clearstream, Luxembourg, Euroclear Sweden, Euroclear Finland or the VPS and any direct participant in such clearing system or other intermediary through which it holds the Bail-inable Securities to take any and all necessary action, if required, to implement the Bail-in Conversion or any other action pursuant to the Bail-in Regime with respect to the Bail-inable Securities, as may be imposed on it, without any further action or direction on the part of that Holder or the Issuing and Paying Agent or the Registrar, except as required in accordance with the rules and procedures for the time being of Euroclear and/or Clearstream, Luxembourg, Euroclear Sweden, Euroclear Finland or the VPS and/or such direct participant or other intermediary, as applicable.

4. Interest

For any Non-Exempt Note, the applicable Final Terms will specify whether such Note is (a) a Fixed Rate Note, a Floating Rate Note, a Non-Exempt Reference Item Linked Interest Note of a type specified in Condition 31, or a combination of the foregoing, depending upon the interest provisions included and completed in the applicable Final Terms (b) a Zero Coupon Note or (c) a non-interest bearing Note, in each case depending upon the Interest Basis specified in the applicable Final Terms.

For any Exempt Note, the applicable Pricing Supplement will indicate the applicable Interest Basis.

Where the Notes are specified to be Adjusted Fixed Rate Notes, the interest payable in respect of the Notes will be calculated in accordance with Condition 4.02a (Adjusted Fixed Rate Notes) below.

Where the Notes are specified to be Floating Rate Notes or Non-Exempt Reference Item Linked Interest Notes, the interest payable in respect of the Notes will be calculated in accordance with

Condition 4.03 (Interest on Floating Rate Notes and Non-Exempt Reference Item Linked Interest Notes), Condition 4.07 (Interest Amount(s), Calculation Agent and Reference Banks) and Condition 4.08 (Calculations and Adjustments) below and/or the relevant provisions of Condition 31 and Condition 32.

Where the Notes are Exempt Notes which are not Fixed Rate Notes or Floating Rate Notes, the interest payable in respect of the Notes, if any, will be calculated in accordance with the provisions of Condition 4.09 below.

4.01 Words and expressions appearing in this Condition 4 and not otherwise defined herein or in the applicable Issue Terms shall have the meanings given to them in Condition 4.11.

Where the Notes pay interest, the interest is payable as consideration for the use of the Issue Price in respect of a Note and as compensation in recognition that the interest on any or all of the Interest Payment Dates may be equal to zero or less than a commercial rate of return on the Notes and/or that the Final Redemption Amount and/or value of the Entitlement may be less than the Issue Price. For the avoidance of doubt, in the event that the interest amount for an Interest Payment Date is zero or less, no amount shall be payable by the Issuer in respect of such Interest Payment Date.

4.01a Notwithstanding anything to the contrary in these Conditions (and in particular this Condition 4), interest on Swedish Notes shall accrue and be calculated from (but excluding) the Interest Commencement Date to (and including) the first Interest Payment Date and following the first Interest Payment Date from (but excluding) an Interest Payment Date to (and including) the next occurring Interest Payment Date and the definition of "Interest Period" shall be construed accordingly.

Interest on Fixed Rate Notes other than Adjusted Fixed Rate Notes

This Condition 4.02 applies to Fixed Rate Notes only but does not apply to Adjusted Fixed Rate Notes. The applicable Issue Terms contains provisions applicable to the determination of such fixed rate interest and must be read in conjunction with this Condition 4.02 for full information on the manner in which interest is calculated on Fixed Rate Notes. In particular, the applicable Issue Terms will specify the Interest Commencement Date, the rate(s) of interest, the Interest Payment Date(s), the Maturity Date, the Fixed Coupon Amount, any applicable Broken Amount, the Calculation Amount, the Day Count Fraction, the Business Day Convention and any applicable Determination Date.

4.02 Each Fixed Rate Note bears interest on its Outstanding Principal Amount from and including the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to and including the Maturity Date if that does not fall on an Interest Payment Date.

Unless otherwise provided in the applicable Issue Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on, but excluding, such date will amount to the Fixed Coupon Amount. Payments of Interest on any Interest Payment Date will, if so specified in the applicable Issue Terms, amount to the Broken Amount(s) so specified.

As used in these Conditions, “**Fixed Interest Period**” means the period from and including an Interest Payment Date (or the Interest Commencement Date) to but excluding the next (or first) Interest Payment Date.

Interest will be calculated on the Calculation Amount of the Fixed Rate Notes. If interest is required to be calculated for a period ending other than on an Interest Payment Date, or if no Fixed Coupon Amount is specified in the applicable Issue Terms, such interest shall be calculated in accordance with Condition 4.08.

Adjusted Fixed Rate Notes

This Condition 4.02a applies to Fixed Rate Notes for which “Adjusted Interest Periods” is specified as applicable in the applicable Issue Terms (“Adjusted Fixed Rate Notes”) only. The applicable Issue Terms contains provisions applicable to the determination of such fixed rate interest and must be read in conjunction with this Condition 4.02a for full information on the manner in which interest is calculated on Adjusted Fixed Rate Notes. In particular, the applicable Issue Terms will specify the Interest Commencement Date, the rate(s) of interest, the Interest Payment Date(s), the Maturity Date, the Calculation Amount, the Day Count Fraction and the Business Day Convention.

4.02a Notwithstanding the foregoing, each Adjusted Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate per annum equal to the Rate of Interest. For the purposes of calculating the amount of interest, each Interest Payment Date will be subject to adjustment in accordance with the Business Day Convention specified in the applicable Issue Terms. Interest will be payable in arrear on each Interest Payment Date.

The Calculation Agent will, as soon as practicable on the last day of each Interest Period, calculate the amount of interest payable per Calculation Amount for the relevant Interest Period. The determination of the amount of interest payable per Calculation Amount by the Calculation Agent shall (in the absence of manifest error and after confirmation by the Issuer) be final and binding upon all parties.

The Calculation Agent will cause the amount of interest payable per Calculation Amount for each Interest Period and the relevant Interest Payment Date to be notified to each of the Paying Agents and to be notified to Holders as soon as possible after their determination but in no event later than the fourth Business Day thereafter. The amount of interest payable per Calculation Amount and Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 16, the accrued interest per Calculation Amount shall nevertheless continue to be calculated as previously by the Calculation Agent in accordance with this provision but no publication of the amount of interest payable per Calculation Amount so calculated need be made.

Interest shall be calculated in respect of any period by applying the Rate of Interest to the Calculation Amount and multiplying such product by the Day Count Fraction and rounding the resultant figure to the nearest sub-unit, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Notes are represented by a Global Note or where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Outstanding Principal Amount of

the Global Note or the Specified Denomination of a Note in definitive form, without any further rounding.

4.03 Interest on Floating Rate Notes and Non-Exempt Reference Item Linked Interest Notes

This Condition 4.03 applies to Floating Rate Notes and Non-Exempt Reference Item Linked Interest Notes only. The applicable Issue Terms contains provisions applicable to the determination of interest in respect of such Notes and must be read in conjunction with this Condition 4.03 and/or, in the case of Non-Exempt Reference Item Linked Interest Notes, the relevant provisions of Condition 31 and Condition 32 for full information on the manner in which interest is calculated on Floating Rate Notes and Non-Exempt Reference Item Linked Interest Notes. Such interest will be payable in respect of each Interest Period (which expression, shall, in these Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date. Interest will be calculated on the Calculation Amount of the Floating Rate Notes and Non-Exempt Reference Item Linked Interest Notes.

(ii) *Rate of Interest*

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Issue Terms. The Rate of Interest payable from time to time in respect of Non-Exempt Reference Item Linked Interest Notes will be determined in accordance with the relevant provisions of Condition 31 and Condition 32.

(expressed as a percentage rate per annum) for the Reference Rate (being LIBOR, EURIBOR or CNH HIBOR as specified in the applicable Issue Terms) for deposits in the Specified Currency for that Interest Period which appears or appear, as the case may be, on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date, all as determined by the Calculation Agent;

- (ii) if, on any Interest Determination Date, no such Reference Rate so appears or, as the case may be, if fewer than two offered quotations so appear or if the Relevant Screen Page is unavailable or if the offered rate or rates which appear as at the Relevant Time do not apply to a period or duration equal to the Interest Period, the Calculation Agent will request appropriate quotations and will determine the arithmetic mean (rounded as aforesaid) of the rates at which deposits in the relevant currency are offered by the Reference Banks at approximately the Relevant Time on the Interest Determination Date to prime banks in the London interbank market in the case of LIBOR or in the Euro-zone (as defined herein) interbank market in the case of EURIBOR or in Hong Kong interbank market in the case of CNH HIBOR for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time;
- (iii) if, on any Interest Determination Date, only two or three rates are so quoted, the Calculation Agent will determine the arithmetic mean (rounded as aforesaid) of the rates so quoted; or
- (iv) if, on any Interest Determination Date, fewer than two rates are so quoted, the Calculation Agent will determine the arithmetic mean (rounded as aforesaid) of the rates quoted by four major banks in the Financial Centre as selected by the Calculation Agent, at approximately 11.00 a.m. (Financial Centre time) on the first day of the relevant Interest Period for loans in the relevant currency to leading European banks for a period for the duration of the relevant Interest

Period and in an amount that is representative for a single transaction in the relevant market at the relevant time,

Subject to Condition 4.03(v) below, where "Compounded Daily Rate" is specified as the Calculation Method in the applicable Issue Terms, the Rate of Interest for each Interest Period will, subject as provided below, be Compounded Daily TONA for such Interest Period plus or minus (as indicated in the applicable Issue Terms) the Margin, if any, as determined by the Calculation Agent.

Where:

"Compounded Daily TONA" means, with respect to an Interest Period, the rate of return of a daily compound interest investment (with the daily TONA rate as the reference rate for the calculation of interest) and will be calculated by the Calculation Agent on the relevant Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the nearest fifth decimal place, with 0.000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{Relevant TONA}_i \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

(2) *Calculation Method – Weighted Average Rate*

Subject to Condition 4.03(v) below, where "Weighted Average Rate" is specified as the Calculation Method in the applicable Issue Terms, the Rate of Interest for each Interest Period will, subject as provided below, be the Weighted Average TONA Rate for such Interest Period plus or minus (as indicated in the applicable Issue Terms) the Margin, if any, as determined by the Calculation Agent.

For these purposes, the TONA reference rate in respect of any calendar day which is not a Tokyo Banking Day shall be deemed

to be the TONA reference rate in respect of the Tokyo Banking Day immediately preceding such calendar day; or

- (b) where "Lock-Out" is specified as the Observation Method in the applicable Issue Terms, the rate calculated by the Calculation Agent on the relevant Interest Determination Date as the sum of the TONA reference rates in respect of each calendar day during such Interest Period divided by the number of calendar days in such Interest Period, with the resulting percentage being rounded if necessary to the nearest fifth decimal place, with 0.000005 being rounded upwards, provided that for any calendar day that falls in the relevant Lock-Out Period, the TONA reference rate in respect of such day will be deemed to be the TONA reference rate in respect of the Tokyo Banking Day immediately preceding the relevant Interest Determination Date. (1) *Calculation Method*

Where "Screen Rate Determination" and "CMS Rate" are both specified in the applicable Issue Terms as applicable, the Rate of Interest for each Interest Period will, subject as provided below, be the CMS Rate for such Interest Period plus or minus (as indicated in the applicable Issue Terms) the Margin, if any, as determined by the Calculation Agent.

(2) *Definitions*

"CMS Rate" means, in respect of an Interest Period, the Relevant Swap Rate with a maturity of the Designated Maturity (the **"Designated Maturity Swap Rate"**), expressed as a percentage:

(a) if no Relevant Screen Page is specified in the applicable Issue Terms, as calculated by the Calculation Agent as the rate in respect of the relevant Interest Determination Date for the Fixed Leg, calculated on a Fixed Leg DCF day count basis, of the CMS Reference Swap, all as determined by the Calculation Agent by reference to such source(s) and at such time as it determines appropriate; or

- (b) if a Relevant Screen Page is specified in the applicable Issue Terms, which appears on the Relevant Screen Page (and, if any heading and/or caption are specified in the applicable Issue Terms, under such heading and/or above such caption or in each case any successor thereto determined by the Calculation Agent) as of the Relevant Time on the relevant Interest Determination Date. If such rate does not appear on the Relevant Screen Page, then the CMS Rate for the relevant Interest Period will be a percentage determined on the basis of the Mid-Market Swap Rate quotations provided by the CMS Reference Banks at approximately the Relevant Time on that Interest Determination Date. The Calculation Agent will request the Principal Office of each of the CMS Reference Banks to provide a quotation of its rate. If at least three quotations are provided, the CMS Rate for the relevant Interest Period will be the arithmetic mean of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest). If fewer than three quotations are provided, the CMS Rate for the relevant Interest Period will be the rate determined by the Calculation Agent in its sole and absolute discretion by reference to such source(s) and at such time as it deems appropriate.

"Swap Transaction Maturity" is as specified in the applicable Issue Terms.

(3) *Benchmark Transition Event*

If in the determination of the Calculation Agent a Benchmark Transition Event (as defined in Condition 4.03(v) above), determined on the basis that "Relevant Benchmark" means either the Designated Maturity Swap Rate or the rate the subject of the Swap Transaction Floating Rate, has occurred on or prior to the date of determination of any CMS Rate, the Calculation Agent may make such adjustment(s) to the terms of the Notes as it determines appropriate in its sole and absolute discretion to account for the relevant event or circumstance and determine the effective date thereof and, without limitation, such adjustment(s) may include selecting a replacement (including any spread adjustment thereto) for the Designated Maturity Swap Rate, Relevant Swap Rate and/or (as applicable) Swap Transaction Floating Rate Option (in which case references to such term(s) herein will include references to such replacement(s) from time to time) and making related adjustment(s), including without limitation with respect to any CMS Reference Swap terms, to the terms of the Notes.

In selecting any such replacement, the Calculation Agent may have regard to such rate, index, benchmark or other price source or methodology for calculating any of the foregoing (in each case if any) as is recognised or recommended or adopted as being an appropriate replacement for the affected rate in the over-the-counter derivatives market or other relevant market(s), in each case in which the Issuer and/or any of its affiliates hedging the Issuer's obligations in respect of the Notes maintains hedging arrangements (if any), or by any relevant trade association, working group, task-force or committee.

Notwithstanding anything to the contrary in the Conditions, the Calculation Agent may make all determinations, decisions, elections and/or adjustments and take all actions in respect of the Notes as are provided for in connection with a Benchmark Transition Event notwithstanding that such Benchmark Transition Event may have occurred before the Issue Date of the Notes.

(vii) *ISDA Rate Determination*

Where ISDA Rate Determination is specified in the Issue Terms as applicable, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Issue Terms) the Margin, if any. For purposes of this Condition 4.03(vii), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be calculated by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions (as defined below)) for that swap transaction under the terms of an agreement to which the ISDA Definitions applied and under which:

- the Floating Rate Option (which may refer to a Rate Option or a Price Option, specified in the ISDA Definitions) is as specified in the applicable Issue Terms;
- the Designated Maturity, as applicable, is the period specified in the applicable Issue Terms;
- the relevant Reset Date is the day specified in the applicable Issue Terms; and
- except where Supplement number 70 to the 2006 ISDA Definitions is excluded from the definition of "ISDA Definitions", the relevant Payment Date is the day specified in the applicable Issue Terms or, if following the occurrence an Index Cessation Event or Fallback Index Cessation Event (as applicable to the relevant rate), interest is payable on any early redemption of the Notes and the rate for the relevant Reset Date has not been determined prior to the occurrence of the related Index Cessation Effective Date or Fallback Index Cessation Effective Date (as applicable), the due date for redemption.

For the purposes of this Condition 4.03(vii) "**Floating Rate**", "**Floating Rate Option**", "**Designated Maturity**", "**Reset Date**", "**Payment Date**", "**Index Cessation Event**", "**Index Cessation Effective Date**", "**Fallback Index Cessation Event**" and "**Fallback Index Cessation Effective Date**" (as applicable) have the meanings given to those terms in the ISDA Definitions.

Maximum or Minimum Rate of Interest

4.04 If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the applicable Issue Terms, then the Interest Rate shall in no event be greater than the maximum or be less than the minimum so specified. Unless otherwise stated in the applicable Issue Terms, the Minimum Rate of Interest in respect of any Notes shall be deemed to be zero.

Linear Interpolation

4.05 Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Issue Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Issue Terms) or the relevant Floating Rate Option (where ISDA Rate Determination is specified as applicable in the applicable Issue Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the

length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

For these purposes, “**Designated Maturity**” means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

Accrual of Interest

4.06 Subject to Condition 18.16 and Condition 5.19, interest on a Note will cease to accrue from the due date for its redemption (or, in the case of an Exempt Note which is an Instalment Note, in respect of each Instalment Amount, on the due date for payment of the relevant Instalment Amount or, in the case of a Bond Linked Redemption Note and redemption following a Bond Event, the Notification Date) unless upon due presentation or surrender thereof (if required), payment in full of the Final Redemption Amount or the relevant Instalment Amount (as applicable) is improperly withheld or refused or default is otherwise made in the payment thereof. In such event, interest shall continue to accrue on the principal amount in respect of which payment has been improperly withheld or refused or default has been made (as well after as before any demand or judgment) at the Rate of Interest then applicable or such other rate as may be specified for this purpose in the applicable Issue Terms if permitted by applicable law (“**Default Rate**”) until the date on which, upon due presentation or surrender of the relevant Note (if required), the relevant payment is made or, if earlier, the seventh day after the date on which, the Issuing and Paying Agent or, as the case may be, the Registrar having received the funds required to make such payment, notice is given to the Holders of the Notes in accordance with Condition 23 that the Issuing and Paying Agent or, as the case may be, the Registrar has received the required funds (except to the extent that there is failure in the subsequent payment thereof to the relevant Holder).

Interest Amount(s), Calculation Agent and Reference Banks

4.07 If a Calculation Agent is specified in the applicable Issue Terms, the Calculation Agent, as soon as practicable after the Relevant Time (if applicable) on each Interest Determination Date (or such other time on such date as the Calculation Agent may be required to calculate any Final Redemption Amount or, Instalment Amount (in the case of an Exempt Note), obtain any quote or make any determination or calculation or such other time at which the Rate of Interest is to be determined) will determine the Rate of Interest and calculate the amount(s) of interest payable (the “**Interest Amount(s)**”) in the manner specified in Condition 4.08 below, calculate the Final Redemption Amount or Instalment Amount (as applicable), obtain such quote or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date or, as the case may be, the Final Redemption Amount or any Instalment Amount (as applicable) to be notified to the Issuing and Paying Agent, the Registrar (in the case of Registered Notes), the Issuer, the Holders in accordance with Condition 23 and, if the Notes are listed on a stock exchange or admitted to listing by any other authority and the rules of such exchange or other relevant authority so require, such exchange or listing authority as soon as possible after their determination or calculation but in no event later than the fourth London Banking Day thereafter or, if earlier in the case of notification to the stock exchange or other relevant authority, the time required by the relevant stock exchange or listing authority. The Interest Amounts, the Rate of Interest (if the Reference Rate is SONIA, SOFR, CORRA, €STR or TONA) and the Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event

of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 15, the Rate of Interest and any accrued interest payable in respect of the Notes shall nevertheless continue to be calculated in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of each Rate of Interest, Interest Amount, Final Redemption Amount and Instalment Amount (in the case of an Exempt Note), the obtaining of each quote and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest or proven error) be final and binding upon the Issuer and the Holders and neither the Calculation Agent nor any Reference Bank shall have any liability to the Holders in respect of any determination, calculation, quote or rate made or provided by it.

The Issuer will procure that there shall at all times be such Reference Banks as may be required for the purpose of determining the Rate of Interest applicable to the Notes and a Calculation Agent, if provision is made for one in the Conditions.

If the Calculation Agent is incapable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for any Interest Period or to calculate the Interest Amounts or any other requirements, the Issuer will appoint the London office of a leading bank engaged in the London interbank market to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

Calculations and Adjustments

4.08 Except as otherwise provided herein, the amount of interest payable in respect of any Note for any period shall be calculated (a) in the case of a Non-Exempt Reference Item Linked Interest Note, in accordance with the relevant provisions of Condition 31 and Condition 32 or (b) in the case of any other Note, by applying the Rate of Interest to the Calculation Amount, and multiplying such sum by the Day Count Fraction, save that in the case of an Exempt Note (i) if the Pricing Supplement specifies a specific amount, or a formula for the calculation of an amount, in respect of such period, the amount of interest payable in respect of such Note for such period will be equal to such amount and (ii) in the case of Fixed Rate Notes, the interest shall be calculated on such basis as may be specified in the applicable Pricing Supplement.

For the purposes of any calculations referred to in these Conditions (unless otherwise specified herein or in the Issue Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount and (c) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the smallest sub-unit of such currency, with halves being rounded upwards.

Where the Notes are represented by a Global Note or where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Outstanding Principal Amount of the Global Note or the Specified Denomination of a Note in definitive form, without any further rounding.

Specific interest provisions applicable to certain types of Exempt Notes

4.09 The rate or amount of interest payable in respect of Exempt Notes which are not Fixed Rate Notes or Floating Rate Notes (for which, if Screen Rate Determination is specified as

applicable in the applicable Pricing Supplement, the Reference Rate is LIBOR, EURIBOR, CNH HIBOR, SONIA, SOFR, CORRA, €STR or TONA) shall be determined in the manner specified in the applicable Pricing Supplement.

4.10 In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue on the paid-up principal amount of such Notes and otherwise as specified in the applicable Pricing Supplement.

The applicable Issue Terms contains provisions applicable to any Call Option and must be read in conjunction with this Condition 5.03 for full information on any Call Option. In particular, the applicable Issue Terms will identify the Optional Redemption Date(s), the Optional Redemption Amount, any minimum or maximum amount of Notes which can be redeemed and the applicable notice periods.

5.03 If Call Option is specified in the applicable Issue Terms as being applicable, then the Issuer may, having given not less than the minimum period and no more than the maximum period of notice specified in the applicable Issue Terms to the Holders in accordance with Condition 23, which notice shall specify the date fixed for redemption, and in the case of any Exempt Notes subject to such conditions as may be specified in the applicable Pricing Supplement and subject to Condition 15.03 in the case of Preference Share Linked Notes, redeem all or, if so specified in the applicable Issue Terms, some only of the Notes of this Series outstanding on any Optional Redemption Date at the Optional Redemption Amount(s) specified in the applicable Final Terms or, as applicable, in the case of a Non-Exempt Note, specified in Condition 31.06 (Actively Managed Basket Linked Call Option Notes) or, in the case of an Exempt Note, determined in the manner specified in the applicable Pricing Supplement together with accrued interest (if any) thereon to (but excluding) the relevant Optional Redemption Date, provided that in respect of Bail-inable Securities where the redemption would lead to a breach

of the Issuer's minimum TLAC requirements, such redemption will be subject to the prior approval of the Superintendent.

The Issuer may not exercise such option in respect of any Note which is the subject of the prior exercise by the Holder thereof of its option to require the redemption of such Note under Condition 5.06.

5.04 The appropriate notice referred to in Condition 5.03 is a notice given by the Issuer to the Holders of the Notes of the relevant Series in accordance with Condition 23, which notice shall be irrevocable and shall specify:

- the Series of Notes subject to redemption;
- whether such Series is to be redeemed in whole or in part only and, if in part only, the aggregate principal amount of and (except in the case of a Temporary Global Note or Permanent Global Note) the serial numbers of the Notes of the relevant Series which are to be redeemed;
- the due date for such redemption which shall be such date or the next of such dates ("**Call Option Date(s)**") or a day falling within such period ("**Call Option Period**"), as may be specified in the applicable Issue Terms and which is, in the case of Notes which bear interest at a floating rate, a date upon which interest is payable; and
- the Optional Redemption Amount at which such Notes are to be redeemed.

Partial Redemption

5.05 If the Notes are to be redeemed in part only on any date in accordance with Condition 5.03:

- such redemption must be for an amount not less than the Minimum Redemption Amount nor more than the Maximum Redemption Amount, in each case as may be specified in the applicable Issue Terms;
- in the case of a partial redemption of Definitive Notes, the Notes to be redeemed shall be drawn by lot in such European city as the Issuing and Paying Agent may specify, or identified in such other manner or in such other place as the Issuing and Paying Agent may approve and deem appropriate and fair;
- in the case of a Global Note, the Notes to be redeemed shall be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system (to be reflected in the records of Euroclear and Clearstream, Luxembourg or such other relevant clearing system as either a pool factor or a reduction in principal amount, at their discretion); and
- in the case of Registered Notes, Swedish Notes, Norwegian Notes and Finnish Notes, the Notes shall be redeemed (so far as may be practicable) *pro rata* to their principal amounts, provided always that the amount redeemed in respect

of each Note shall be equal to the minimum Specified Denomination thereof or an integral multiple thereof,

subject always to compliance with all applicable laws and the requirements of any stock exchange on which the relevant Notes may be listed.

In the case of the redemption of part only of a Registered Note, a new Registered Note in respect of the unredeemed balance shall be issued in accordance with Conditions 2.05 to 2.08, which shall apply as in the case of a transfer of Registered Notes as if such new Registered Note were in respect of the untransferred balance.

Put Option

This Condition 5.06 applies to Notes which are subject to redemption prior to the Maturity Date at the option of the Holder of any Note, such option being referred to as a "Put Option". The applicable Issue Terms contains provisions applicable to any Put Option and must be read in conjunction with this Condition 5.06 for full information on any Put Option. In particular, the applicable Issue Terms will identify the Optional Redemption Date(s), the Optional Redemption Amount and the applicable notice periods. Put Option may not be specified as applicable in the applicable Issue Terms for Bail-inable Securities and accordingly this Condition 5.06 cannot apply to Notes which are Bail-inable Securities.

5.06 If Put Option is specified in the applicable Issue Terms as being applicable, upon the Holder of any Note of this Series giving to the Issuer not less than the minimum period nor more than the maximum period of notice specified in the applicable Issue Terms (which notice shall be irrevocable), the Issuer will, upon expiry of such notice, redeem such Note in whole (but not in part only) on the Optional Redemption Date and at the Optional Redemption Amount specified in the applicable Final Terms or, in the case of an Exempt Note, determined in accordance with the provisions of, the applicable Pricing Supplement, together with accrued interest (if any) thereon to (but excluding) the Optional Redemption Date. In order to exercise such option, the Holder must, within the notice period deposit the relevant Note (together, in the case of a Definitive Note that is not a Zero Coupon Note, with all unmatured Coupons appertaining thereto other than any Coupon maturing on or before the Optional Redemption Date (failing which the provisions of Condition 18.06 apply)) during normal business hours at the specified office of, in the case of a Bearer Note, any Paying Agent or, in the case of a Registered Note, the Registrar together with a duly completed early redemption notice ("**Put Notice**") in the form which is available from the specified office of any Paying Agent or, as the case may be, the Registrar specifying, in the case of a Global Note or Registered Note, the aggregate principal amount in respect of which such option is exercised (which must be the minimum Specified Denomination specified in the applicable Issue Terms or an integral multiple thereof). Notwithstanding the foregoing, Notes represented by a Global Note or Registered Note shall be deemed to be deposited with a Paying Agent or the Registrar, as the case may be, for purposes of this Condition 5.06 at the time a Put Notice has been received by the Paying Agent or the Registrar, as the case may be, in respect of such Notes. No Note so deposited and option exercised may be withdrawn (except as provided in the Issue and Paying Agency Agreement). In the case of Exempt Notes only, it may be that before an Investor Put can be exercised, certain other conditions and/or circumstances will also need to be satisfied. Where relevant, the provisions will be set out in the applicable Pricing Supplement.

In the case of the redemption of part only of a Registered Note, a new Registered Note in respect of the unredeemed balance shall be issued in accordance with Conditions 2.05 to 2.08

which shall apply as in the case of a transfer of Registered Notes as if such new Registered Note were in respect of the untransferred balance.

The Holder of a Note may not exercise such Put Option in respect of any Note which is the subject of an exercise by the Issuer of its option to redeem such Note under either Condition 5.02 or 5.03.

Redemption for Illegality

This Condition 5.07 applies to Notes which are subject to redemption prior to the Maturity Date at the option of the Issuer upon an illegality as described below, such option being referred to as a "Redemption for Illegality". The applicable Issue Terms contains provisions applicable to any Redemption for Illegality and must be read in conjunction with this Condition 5.07 for full information on any Redemption for Illegality. In particular, the applicable Issue Terms will identify the applicable notice periods.

5.07 In the event that the Issuer determines in good faith that the performance of the Issuer's obligations under the Notes or any arrangement made to hedge the Issuer's obligations under the Notes have or will become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power, or in the interpretation thereof, the Issuer having given not less than the minimum period and not more than the maximum period of notice specified in the applicable Issue Terms to Holders in accordance with Condition 23, may, on expiry of such notice redeem all, but not some only, of the Notes, each Note being redeemed at the Early Redemption Amount together (if appropriate) with interest accrued to (but excluding) the date of redemption, provided that in respect of Bail-inable Securities where the redemption would lead to a breach of the Issuer's minimum TLAC requirements, such redemption will be subject to the prior approval of the Superintendent.

Redemption for TLAC Disqualification Event

This Condition 5.08 applies to Bail-inable Securities only and only where specified as applicable in the applicable Issue Terms.

5.08 If TLAC Disqualification Event is specified as being applicable in the applicable Issue Terms of a Series of Bail-inable Securities, the Issuer may, at its option, on giving not less than 30 days' nor more than 60 days' notice to Holders in accordance with Condition 23, on the date set out in the notice (which must fall within 90 days following such TLAC Disqualification Event (as defined below)), redeem all, but not some only, of the Series of Notes, each Note being redeemed at the Early Redemption Amount specified in or, in the case of Exempt Notes, determined in accordance with the provisions of the applicable Issue Terms, together (if applicable) with interest accrued to (but excluding) the date fixed for redemption. Such redemption will be subject to the prior approval of the Superintendent.

A "TLAC Disqualification Event" means the Office of the Superintendent of Financial Institutions has advised the Issuer in writing that the Series of Bail-inable Securities will no longer be recognised in full as TLAC under the guideline for TLAC for banks in Canada in effect from time to time, as interpreted by the Superintendent, provided that a TLAC Disqualification Event shall not occur where the exclusion of the Series of Bail-inable Securities from the Issuer's TLAC requirements is due to the remaining term to maturity of such Series of Bail-inable Securities being less than any period prescribed by any relevant TLAC eligibility criteria applicable as of the Issue Date of the first Tranche of such Series of Bail-inable Securities.

Trigger Early Redemption

This Condition 5.09 applies to Notes which are subject to redemption prior to the Maturity Date on the occurrence of a specified event described as a trigger early redemption event, such redemption being referred to as a "Trigger Event Redemption". In the case of a Non-Exempt Note Condition 31 and Condition 32 contains provisions applicable to any Trigger Event Redemption and must be read in conjunction with this Condition 5.09. The applicable Issue Terms also contains provisions applicable to any Trigger Event Redemption and must be read in conjunction with this Condition 5.09 and, as applicable, Condition 31 and Condition 32 for full information on any Trigger Event Redemption. In particular, the applicable Issue Terms will specify the relevant Trigger Early Redemption Event (including whether any upper and/or lower barriers apply and the applicable valuation provisions), the Trigger Early Redemption Date(s) and the relevant Trigger Early Redemption Amount.

5.09 If Trigger Early Redemption is specified as applicable in the applicable Issue Terms, on the occurrence of the Trigger Early Redemption Event, the Issuer has the obligation to redeem the Notes on the applicable Trigger Early Redemption Date against payment of the applicable Trigger Early Redemption Amount in accordance with the Conditions of the Notes.

5.10 Early Redemption Amounts

For the purpose of a redemption pursuant to Condition 5.02, Condition 5.07, Condition 5.19 or Condition 16 or in the case of any other early redemption of the Notes pursuant to an applicable Reference Item Linked Condition, the Early Redemption Amount in respect of each principal amount of Notes equal to the Calculation Amount will be calculated as follows:

- (a) in the case of a Note (other than a Reference Item Linked Note) with a Final Redemption Amount equal to the Issue Price of the first Tranche of the Series, an amount equal to the Final Redemption Amount thereof;
- (b) in the case of a Note (other than a Reference Item Linked Note, or a Zero Coupon Note) with a Final Redemption Amount which is or may be less or greater than the Issue Price of the first Tranche of the Series or which is payable in a Specified Currency other than that in which the Note is denominated, the amount specified in, the applicable Issue Terms or, if no such amount is so specified in the applicable Issue Terms, at its principal amount;
- (c) in the case of a Zero Coupon Note, an amount (the "**Amortised Face Amount**") calculated as follows:
 - (i) if Zero Coupon Early Redemption Amount 1 is specified in the applicable Issue Terms,

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y ; \text{ or}$$

- (ii) if Zero Coupon Early Redemption Amount 2 is specified in the applicable Issue Terms,

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY} \times y)$$

where:

RP means the Reference Price; and

AY means the Accrual Yield expressed as a decimal; and

y is the Day Count Fraction specified in the applicable Issue Terms which will be either (i) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator 360), (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360), (iii) Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 365) or (iv) Actual/Actual (ICMA) (in which case the Accrual Period will commence on (and include) the Issue Date of the first Tranche of the Notes and end on (but exclude) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable);

- (d) in the case of a Reference Item Linked Note (other than a Preference Share Linked Note or an Actively Managed Basket Linked Note) an amount determined by the Calculation Agent equal to the fair market value of such Notes on the Market Valuation Date specified in the applicable Issue Terms taking into account, if applicable, the event resulting in the early redemption of the Notes, all as determined by the Calculation Agent in its sole and absolute discretion by reference to such factor(s) as it may deem appropriate and less Early Redemption Unwind Costs. For the purposes of determining the fair market value of the Notes following an event of default, no account shall be taken of the financial condition of the Issuer which shall be presumed to be able to perform fully its obligations in respect of the Notes;
- (e) in the case of a Preference Share Linked Note, an amount in the Specified Currency calculated by the Calculation Agent on the same basis as its Final Redemption Amount, except that the definition of Preference Share Value_{final} shall be the Preference Share Value on the Early Redemption Valuation Date;
- (f) in the case of an Actively Managed Basket Linked Note, an amount in the Specified Currency equal to (i) an amount calculated on the same basis as its Final Redemption

Amount, except for the purposes of such calculation the Specified Valuation Date shall be deemed to be the Early Redemption Valuation Date less (ii) Early Redemption Unwind Costs, all as determined by the Calculation Agent in its sole and absolute discretion; or

- (g) in the case of an Exempt Note, on such other calculation basis as may be specified in the applicable Pricing Supplement.

For the purposes of this Condition 5.10, "**Early Redemption Unwind Costs**" means an amount determined by the Calculation Agent equal to the sum of (without duplication) all costs, expenses (including loss of funding), tax and duties incurred by the Issuer in connection with the redemption of the Notes and the related termination, settlement or re-establishment of any hedge or related trading position, such amount to be apportioned *pro rata* amongst each principal amount of Notes equal to the Calculation Amount.

Restrictions on Redemption of Bail-inable Securities

5.11 Any notice of redemption given by the Issuer under this Condition 5 shall be irrevocable, except that in the case of Bail-inable Securities, an order under subsection 39.13(1) of the CDIC Act, prior to the date fixed for redemption, shall automatically rescind such notice of redemption and, in such circumstances, such Bail-inable Securities shall not be so redeemed and no payment in respect of the rescinded redemption shall be due and payable. For the avoidance of doubt, notwithstanding anything in these Conditions, (i) early redemption of any Bail-inable Securities (other than pursuant to Condition 5.08) where the early redemption would lead to a breach of the Issuer's minimum TLAC requirements, will be subject to the prior approval of the Superintendent; and (ii) Condition 5.06 will not apply to Bail-inable Securities. Bail-inable Securities continue to be subject to a Bail-in Conversion prior to their repayment in full.

Purchase of Notes

5.12 The Issuer or any of its subsidiaries may at any time purchase Notes in the open market or otherwise and at any price provided that all unmatured Receipts and Coupons appertaining thereto are purchased therewith and provided further that in respect of Bail-inable Securities where such purchase would lead to a breach of the Issuer's minimum TLAC requirements, such purchase will be subject to the prior approval of the Superintendent. If purchases are made by tender, tenders must be available to all Holders of the relevant Notes alike.

Cancellation of Redeemed and Purchased Notes

5.13 All unmatured Notes and Coupons redeemed in accordance with this Condition 5 will be cancelled forthwith and may not be reissued or resold. All unmatured Notes and Coupons purchased in accordance with Condition 5.12 may be cancelled or may be reissued or resold.

Further Provisions applicable to Redemption Amount and Instalment Amounts

5.14 The provisions of Condition 4.07 and the second paragraph of Condition 4.08 shall apply to any determination or calculation of the Redemption Amount or, in the case of an Exempt Note, any Instalment Amount required by the applicable Issue Terms to be made by the Calculation Agent.

References herein to “**Redemption Amount**” shall mean, as appropriate, the Final Redemption Amount, Final Instalment Amount (in the case of an Exempt Note), the Optional Redemption Amount, the Trigger Early Redemption Amount, the Early Redemption Amount or, in the case of an Exempt Note, such other amount in the nature of a redemption amount as may be specified in, or determined in accordance with, the provisions of the applicable Pricing Supplement.

5.15 If any Redemption Amount (other than the Final Redemption Amount) of any Zero Coupon Note is improperly withheld or refused or default is otherwise made in the payment thereof, the amount due and repayable will be the amount calculated as provided in Condition 5.10 but as if references therein to the date fixed for redemption or the date upon which such Zero Coupon Note becomes due and repayable were replaced by references to the date (the “**Reference Date**”) which is the earlier of:

- (i) the date on which, upon due presentation or surrender of the relevant Note (if required), all amounts due have been paid; and
- (ii) the seventh day after the date on which, the Issuing and Paying Agent or, as the case may be, the Registrar having received the funds required to make such payment, notice is given to the Holders of the Notes in accordance with Condition 23 of that circumstance (except to the extent that there is a failure in the subsequent payment thereof to the relevant Holder). The calculation of the amount due and repayable in accordance with this sub-paragraph will continue to be made, after as well as before judgement, unless the Reference Date falls on or after the Maturity Date, in which case the amount due and repayable shall be the scheduled Final Redemption Amount of the Note on the Maturity Date together with interest which may accrue in accordance with Condition 4.06.

Specific redemption provisions applicable to certain types of Exempt Notes

5.16 Notes may be issued on a partly paid basis (“**Partly Paid Notes**”) if so specified in the Pricing Supplement. The Issue Price therefor shall be paid in such number of instalments, in such amounts, on such dates and in such manner as may be specified in the applicable Pricing Supplement. The first such instalment shall be due and payable on the Issue Date. For the purposes of these Conditions, in respect of any Partly Paid Note, “**Paid Up Amount**” means the aggregate amount of all instalments in respect of the Issue Price as shall have fallen due and been paid up in full in accordance with these Conditions.

Not less than 14 days nor more than 30 days prior to the due date for payment of any instalment (other than the first such payment) the Issuer shall give a notice in accordance with Condition 16 stating the due date for payment thereof and stating that failure to pay any such instalment on or prior to such date will entitle the Issuer to forfeit the Notes with effect from such date (“**Forfeiture Date**”) as may be specified in such notice (not being less than 14 days after the due date for payment), unless payment of the relevant instalment amount together with any interest accrued thereon is paid prior to the Forfeiture Date. The Issuer shall procure that any amount paid in respect of any Partly Paid Notes subsequent to the Forfeiture Date in respect thereof shall be returned promptly to the persons entitled thereto. The Issuer shall not be liable for any interest on any amount so returned.

Interest shall accrue on any amount which is not paid on or prior to the due date for payment thereof at the Interest Rate (in the case of Zero Coupon Notes, at the rate applicable to overdue payments) and shall be calculated in the same manner and on the same basis as if it were

interest accruing on the Notes for the period from and including the due date for payment of the relevant amount up to but excluding the Forfeiture Date. For the purpose of the accrual of interest, any payment of any amount made after the due date for payment shall be treated as having been made on the day preceding the Forfeiture Date (whether or not a Business Day as defined in Condition 4.11).

Unless an Event of Default (or an event which with the giving of notice, the lapse of time or the making or giving of any determination or certification would constitute an Event of Default) shall have occurred and be continuing, on the Forfeiture Date, the Issuer shall forfeit all of the Notes in respect of which any amount shall not have been duly paid, whereupon the Issuer shall be entitled to retain the Paid-Up Amount in respect of such Notes and shall be discharged from any obligation to repay such amount or to pay interest thereon, or (where such Notes are represented by a Temporary Global Note or a Permanent Global Note) to exchange any interests in such Note for interests in a Permanent Global Note or to deliver Definitive Notes or Registered Notes in respect thereof, but shall have no other rights against any person entitled to the Notes which have been so forfeited.

Without prejudice to the right of the Issuer to forfeit any Notes, for so long as any amount remains due but unpaid, and except in the case where an Event of Default (or an event which with the giving of notice, the lapse of time or the making or giving of any determination or certification would constitute an Event of Default) shall have occurred and be continuing, (i) no interests in a Temporary Global Note may be exchanged for interests in a Permanent Global Note and (ii) no transfers of Registered Notes or exchanges of Bearer Notes for Registered Notes may be requested or effected.

Until such time as the Issue Price in respect of Partly Paid Notes shall have been paid in full and except in the case where an Event of Default (or an event which with the giving of notice, the lapse of time or the making or giving of any determination or certification would constitute an Event of Default) shall have occurred and be continuing or if any of Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of public holidays) or announces an intention to cease business permanently or in fact does so and the Issuer is unable to locate a qualified successor within 90 days of the occurrence of any such event, no interests in a Temporary Global Note or a Permanent Global Note may be exchanged for Definitive Notes or Registered Notes.

5.17 Any Instalment Note will be redeemed in the Instalment Amounts and on the Instalment Dates specified in the applicable Pricing Supplement.

5.18 Notwithstanding the foregoing:

- (i) the relevant provisions relating to the redemption and purchase of Notes the terms of which permit the Issuer to pay and/or discharge its obligations with respect to such Notes by the payment or delivery of securities and/or other property or any combination of cash, securities and/or other property and that amend and/or supplement Condition 9 shall be set forth in the applicable Pricing Supplement; and
- (ii) any additional redemption events which shall enable the Issuer to redeem the Notes of any Series shall be set forth in the applicable Pricing Supplement.

Redemption/Adjustment for an Administrator/Benchmark Event

5.19 In the event that an Administrator/Benchmark Event occurs, the Issuer may (at its option and in its sole and absolute discretion):

- (i) instruct the Calculation Agent to make such adjustment(s) to the terms of the Notes as it may determine appropriate in its sole and absolute discretion to account for the relevant event or circumstance and, without limitation, such adjustment(s) may include selecting a successor benchmark(s) and making related adjustment(s) to the terms of the Notes including where applicable to reflect any increased costs of the Issuer and/or any Hedging Entity providing exposure to the successor benchmark(s) and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks; or
- (ii) on giving notice to the Holders in accordance with Condition 23, redeem all, but not some only, of the Notes, each principal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount determined in accordance with the provisions of Condition 5.10 and no further interest (if applicable) will be payable since the immediately preceding Interest Payment Date or, if none, the Issue Date, provided that in respect of Bail-inable Securities where the redemption would lead to a breach of the Issuer's minimum TLAC requirements, such redemption will be subject to the prior approval of the Superintendent.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Notes. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in its sole and absolute discretion.

The Issuer shall give notice as soon as practicable to Holders in accordance with Condition 23 of any adjustment(s) made pursuant to paragraph (i) above, provided that any failure to give, or non-receipt of, such notice shall not affect the validity of such adjustment(s).

For the purposes of this Condition 5.19:

"Administrator/Benchmark Event" means, in relation to any Benchmark, the occurrence of a Benchmark Modification or Cessation Event, a Non-Approval Event, a Rejection Event, a Suspension/Withdrawal Event or a Non-Representative Event, all as determined by the Calculation Agent.

"Benchmark" means any figure, level, rate or value by reference to which any amount payable or deliverable under the Notes, or the value of the Notes, is determined in whole or in part, including, without limitation, any benchmark as defined in the BMR, all as determined by the Calculation Agent.

"Benchmark Modification or Cessation Event" means, in respect of the Benchmark, any of the following has occurred or will occur:

- (i) any material change in such Benchmark;
- (ii) the permanent or indefinite cancellation or cessation in the provision of such Benchmark; or

- (iii) a regulator or other official sector entity prohibits the use of such Benchmark.

"**BMR**" means the EU Benchmark Regulation (Regulation (EU) 2016/1011) or such Regulation as it forms part of retained EU law as defined in the European Union (Withdrawal) Act 2018, in each case as amended from time to time.

"**Non-Approval Event**" means, in respect of the Benchmark:

- (i) any authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be obtained;
- (ii) the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be included in an official register; or
- (iii) the Benchmark or the administrator or sponsor of the Benchmark does not or will not fulfil any legal or regulatory requirement applicable to the Notes, the Issuer, the Calculation Agent or the Benchmark,

in each case, as is or will be required under any applicable law or regulation in order for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Notes.

"**Non-Representative Event**" means, in respect of the Benchmark, an official announcement by the supervisor of the administrator and/or sponsor of the Benchmark that the Benchmark is no longer or, as of a specified future date will no longer be, representative of any relevant underlying market(s) or economic reality that such Benchmark is intended to measure.

"**Rejection Event**" means, in respect of the Benchmark, the relevant competent authority or other relevant official body rejects or refuses or will reject or refuse any application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register which, in each case, is or will be required in relation to the Notes, the Benchmark or the administrator or sponsor of the Benchmark under any applicable law or regulation for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Notes.

"**Suspension/Withdrawal Event**" means, in respect of the Benchmark:

- (i) the relevant competent authority or other relevant official body suspends or withdraws or will suspend or withdraw any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Benchmark or the administrator or sponsor of the Benchmark which is or will be required under any applicable law or regulation in order for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Notes; or
- (ii) the Benchmark or the administrator or sponsor of the Benchmark is or will be removed from any official register where inclusion in such register is or will be required under any applicable law in order for any of the Issuer, the Calculation Agent or any other entity to perform its obligations in respect of the Notes.

6. Credit Linked Redemption Notes

This Condition applies to Exempt Notes only.

Provisions relating to the redemption of Credit Linked Redemption Notes will be set out in the applicable Pricing Supplement.

7. Index Linked Notes

If the Notes are specified as Index Linked Interest Notes and/or Index Linked Redemption Notes in the applicable Issue Terms, then the provisions of this Condition 7 shall apply.

7.01 Redemption of Index Linked Redemption Notes

Unless previously redeemed or purchased and cancelled, each principal amount of the Index Linked Redemption Notes equal to the Calculation Amount set out in the applicable Issue Terms will be redeemed by the Issuer on the Maturity Date at the Final Redemption Amount specified below.

7.02 Adjustments to an Index and Additional Disruption Events

(i) Successor Index Sponsor Calculates and Reports an Index

If a relevant Index is (A) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the “**Successor Index Sponsor**”) acceptable to the Calculation Agent, or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the “**Successor Index**”) will be deemed to be the Index.

(ii) Modification and Cessation of Calculation of an Index

If (x) on or prior to a Valuation Date, an Observation Date or an Averaging Date (or, in the case of Exempt Notes, such other date as specified in the applicable Pricing Supplement) the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts and other routine events) (an “**Index Modification**”) or permanently cancels the Index and no Successor Index exists (an “**Index Cancellation**”), or (y) on a Valuation Date, an Observation Date or an Averaging Date (or, in the case of Exempt Notes, such other date as specified in the applicable Pricing Supplement), the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Index (an “**Index Disruption**” and, together with an Index Modification and an Index Cancellation, each an “**Index Adjustment Event**”), then the Issuer in its sole and absolute discretion may:

- (A) require the Calculation Agent in its sole and absolute discretion to determine if such Index Adjustment Event has a material effect on the Notes and, if so, to calculate the Reference Level using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Valuation Date, Observation Date or Averaging Date or, in the case of Exempt Notes, such other date as specified in the applicable Pricing Supplement, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event; or

- (B) on giving notice to the Holders in accordance with Condition 23, redeem all, but not some only, of the Notes, each principal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount.

Upon the occurrence of an Index Adjustment Event, the Issuer shall give notice as soon as practicable to Holders in accordance with Condition 23 stating the occurrence of an Index Adjustment Event and giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice shall not affect the validity of such action. The Issuer shall make available for inspection by Holders copies of any such determinations.

(iii) Additional Disruption Events

If Additional Disruption Events are specified as applicable in the applicable Issue Terms, then if an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may:

- (A) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the terms of these Conditions and/or the applicable Issue Terms to account for the Additional Disruption Event and determine the effective date of that adjustment;
- (B) give notice to the Holders in accordance with Condition 23 and redeem all, but not some only, of the Notes, each principal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount; or

“Averaging Date” means each date specified as an Averaging Date in the applicable Issue Terms provided that, if such date is not a Scheduled Trading Day, the Averaging Date shall be the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, such day is a Disrupted Day. If any Averaging Date is a Disrupted Day, then:

- (i) if ‘Omission’ is specified in the applicable Issue Terms, such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Reference Level. If through operation of this provision no Averaging Date would occur, then for the purposes of determining the Reference Level on the final Averaging Date, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day;
- (ii) if ‘Postponement’ is specified in the applicable Issue Terms, then for purposes of determining the Reference Level, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the Index Linked Notes; or
- (iii) if ‘Modified Postponement’ is specified in the applicable Issue Terms, then:
 - (A) where the Notes relate to a single Index, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the Reference Level for that Averaging Date in accordance with sub paragraph (i)(B) of the definition of “Valuation Date” below; or
 - (B) where the Notes relate to a Basket of Indices and the applicable Issue Terms provide that “Common Disrupted Days” is not applicable, the Averaging Date for each Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Averaging Date, and the Averaging Date for each Index affected by the occurrence of a Disrupted Day (each an **“Affected Index”**) shall be the first succeeding Valid Date in relation to such Affected Index. If the first succeeding

Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of the Affected Index and (ii) the Calculation Agent shall determine the Reference Level for that Averaging Date in accordance with sub paragraph (ii)(B) of the definition of "Valuation Date" below; or

- (C) where the Notes relate to a Basket of Indices and the applicable Issue Terms provide that "Common Disrupted Days" is applicable, the Averaging Date for each Index shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the relevant Reference Level for that Averaging Date in accordance with sub-paragraph (iii)(B) (including sub-paragraphs (x) and (y) thereof, as applicable) of the definition of "Valuation Date" below; and
- (D) "**Valid Date**" shall mean a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not or is not deemed to occur, and "**Common Valid Date**" shall mean a Scheduled Trading Day that is not a Disrupted Day for any Index comprised in the Basket of Indices and on which another Averaging Date does not or is deemed not to occur.

If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time;
- (ii) where the Index is specified in the applicable Issue Terms as being a Multi-Exchange Index, the Valuation Time specified in the applicable Issue Terms or, if no Valuation Time is specified, (i) for the purposes of determining whether a Market Disruption Event has occurred: (A) in respect of a Component Security, the Scheduled Closing Time on the relevant Exchange in respect of such Component Security and (B) in respect of any options contracts or futures contracts on the Index, the close of trading on the relevant Related Exchange, and (ii) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor. If, for the purposes of (i) above, the relevant Exchange closes prior to its Scheduled Closing Time

and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time; or

- (iii) where the Specified Level is the Intraday Level, each relevant time at which the Reference Level is determined.

“Weighting” means the weight to be applied to each of the Indices comprising the Basket of Indices, as specified in the applicable Issue Terms.

8. Equity Linked Notes

If the Notes are specified as Equity Linked Interest Notes and/or Equity Linked Redemption Notes in the applicable Issue Terms, the provisions of this Condition 8 shall apply.

8.01 Redemption of Equity Linked Redemption Notes

Unless previously redeemed or purchased and cancelled, each principal amount of Equity Linked Redemption Notes equal to the Calculation Amount set out in the applicable Issue Terms will be redeemed by the Issuer on the Maturity Date (A) if "Cash Settlement" is specified in the applicable Issue Terms, by payment of the Final Redemption Amount specified below on the Maturity Date or (B) if "Physical Delivery" is specified in the applicable Issue Terms, by delivery of the Entitlement, in the case of a Non-Exempt Note, determined in the manner specified in Condition 31 or, in the case of an Exempt Note, specified in, or determined in the manner specified in, the applicable Pricing Supplement (subject as provided below) or (C) in the case of a Non-Exempt Note, if "Cash Settlement or Physical Delivery" is specified in the applicable Final Terms, as provided in Condition 31 or (D) in the case of an Exempt Note, if "Cash Settlement and/or Physical Delivery" is specified in the applicable Pricing Supplement, by payment of the Final Redemption Amount and/or (as applicable) by delivery of the Entitlement on the terms set out in the applicable Pricing Supplement, in each case on the Maturity Date (subject as provided below).

8.02 Potential Adjustment Events; De-listing, Merger Event, Tender Offer, Nationalisation and Insolvency; Additional Disruption Events; and Adjustments for Equity Linked Notes in respect of Non-Euro Quoted Entities

- (i) If Potential Adjustment Events are specified as applicable in the applicable Issue Terms, then following the declaration by an Equity Issuer of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting, concentrative or other effect on the theoretical value of the Equities and, if so, the Issuer in its sole and absolute discretion shall either:
 - (A) (1) require the Calculation Agent to make the corresponding adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Equity) and (2) determine the effective date of that adjustment; or
 - (B) after giving notice to the Holders in accordance with Condition 23, redeem all, but not some only, of the Notes, each principal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount; or

- (C) if the applicable Issue Terms provide that “**Equity Substitution**” is applicable, then on or after the relevant Potential Adjustment Event, the Calculation Agent may select one or more equities (each a “**Substitute Equity**”) in accordance with the Equity Substitution Criteria to substitute in place of the Equity or Equities (each an “**Affected Equity**”) which are affected by such Potential Adjustment Event and each Substitute Equity will be deemed to be an “Equity” and the relevant issuer of such equities, a “Equity Issuer” for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to any of the terms of the Conditions and/or the applicable Issue Terms as the Calculation Agent in its sole and absolute discretion determines appropriate.

If the provisions of Condition 8.02(i) apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Equities traded on that options exchange.

Upon making an adjustment pursuant to Condition 8.02(i)(A), the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 23, stating the adjustment made to the terms of these Conditions and/or the applicable Issue Terms and giving brief details of the Potential Adjustment Event provided that any failure to give, or non-receipt of, such notice will not affect the validity of such adjustment.

- (ii) If (x) De-listing, Merger Event, Nationalisation and/or Insolvency is specified as applicable in the applicable Issue Terms and/or (y) Tender Offer is specified as applicable in the applicable Issue Terms, and (in the case of (x)) a De-listing, Merger Event, Nationalisation or Insolvency occurs or (in the case of (y)) a Tender Offer occurs, in each case, in relation to an Equity, the Issuer in its sole and absolute discretion may:
- (A) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the terms of these Conditions and/or the applicable Issue Terms to account for the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment; or
- (B) where the Equity Linked Notes relate to a Basket of Equities on giving notice to the Holders in accordance with Condition 23 redeem each Note in part. If a Note is so redeemed in part the portion (the “**Partial Amount**”) of each such Note representing the affected Equity(s) shall be redeemed and the Issuer will (x) pay to each Holder in respect of each Note held by it an amount equal to the fair market value of the Partial Amount together with any accrued interest thereon to (but excluding) the date of redemption, taking into account the Merger Event, Tender Offer, De-listing, Nationalisation or Insolvency, as the case may be, less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion; and (y) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the terms of

the Conditions and/or the applicable Issue Terms to account for such redemption in part. For the avoidance of doubt the remaining part of each such Note after redemption and adjustment shall remain outstanding with full force and effect. Payments will be made in such manner as shall be notified to the Holders in accordance with Condition 23; or

- (C) after giving notice to the Holders in accordance with Condition 23, redeem all, but not some only, of the Notes, each principal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount; or
- (D) if the applicable Issue Terms provide that “**Equity Substitution**” is applicable, then on or after the relevant Merger Date, Tender Offer Date, or the date of the Nationalisation, Insolvency or De-listing (as the case may be), the Calculation Agent may select one or more equities (each a “**Substitute Equity**”) in accordance with the Equity Substitution Criteria to substitute in place of the Equity or Equities (each an “**Affected Equity**”) which are affected by such Merger Event, Tender Offer, Nationalisation, Insolvency or De-listing and each Substitute Equity will be deemed to be an “Equity” and the relevant issuer of such equities, a “Equity Issuer” for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to any of the terms of the Conditions and/or the applicable Issue Terms as the Calculation Agent in its sole and absolute discretion determines appropriate.

If the provisions of Condition 8.02(ii) apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, made by an options exchange to options on the Equities traded on that options exchange.

Upon the occurrence (if applicable) of a De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 23 stating the occurrence of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto provided that failure to give, or non-receipt of, such notice will not affect the validity of such action.

- (iii) If Additional Disruption Events are specified as applicable in the applicable Issue Terms, then if an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may:
 - (A) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the terms of these Conditions and/or the applicable Issue Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (B) give notice to the Holders in accordance with Condition 23 and redeem all, but not some only, of the Notes, each principal amount of Notes

equal to the Calculation Amount being redeemed at the Early Redemption Amount; or

- (C) if the applicable Issue Terms provide that “**Equity Substitution**” is applicable, then on or after the relevant Additional Disruption Event, the Calculation Agent may select one or more equities (each a “**Substitute Equity**”) in accordance with the Equity Substitution Criteria to substitute in place of the Equity or Equities (each an “**Affected Equity**”) which are affected by such Additional Disruption Event and each Substitute Equity will be deemed to be an “Equity” and the relevant issuer of such equity, a “Equity Issuer” for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to any of the terms of the Conditions and/or the applicable Issue Terms as the Calculation Agent in its sole and absolute discretion determines appropriate.

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 23 stating the occurrence of the Additional Disruption Event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto, provided that failure to give, or non-receipt of, such notice will not affect the validity of such action.

- (iv) Non-Euro Quoted Equities

In respect of Equity Linked Redemption Notes relating to Equities originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the euro, if such Equities are at any time after the Trade Date quoted, listed and/or dealt exclusively in euro on the relevant Exchange or, where no Exchange is specified in the applicable Issue Terms, the principal market on which those Equities are traded, then the Calculation Agent will adjust any one or more of the terms of these Conditions and/or the applicable Issue Terms as the Calculation Agent determines in its sole and absolute discretion to be appropriate to preserve the economic terms of the Notes. The Calculation Agent will make any conversion necessary for purposes of any such adjustment as of the relevant Valuation Time at the official conversion rate, if any, or an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the relevant Valuation Time. No adjustments under this Condition 8.02(iv) will affect the currency denomination of any payment obligation arising out of the Notes.

- (v) Correction of Prices or Levels of an Equity

In the event that any price or level of an Equity published by an Exchange which is utilised for any calculation or determination made for the purposes of the Notes is subsequently corrected, the corrected price or level is deemed to be the relevant price or level for such Equity, provided that such correction is published and made available to the public by the relevant Exchange during a period following original publication equal in duration to the period in which a trade in the Equity would customarily settle according to the rules of such Exchange, and further provided, that such publication of such correction is made sufficiently (in the sole and absolute discretion of the Calculation Agent) in advance of the Maturity Date or the Interest Payment Date to make such adjustment prior to the relevant date.

Partial Lookthrough Depositary Receipt Provisions

8.03 Where the applicable Issue Terms specify that the “Partial Lookthrough Depositary Receipt Provisions” shall apply to an Equity, then the provisions set out in this Condition 8.03 shall apply, and, in relation to such Equity, the other provisions of this Condition 8 shall be deemed to be amended and modified as set out in this Condition 8.03.

The definition of “Potential Adjustment Event” shall be amended so that it reads as follows:

“Potential Adjustment Event” means any of the following:

- (A) a subdivision, consolidation or reclassification of relevant Equities and/or Underlying Equities (unless resulting in a Merger Event or Tender Offer), or a free distribution or dividend of any such Equities and/or Underlying Equities to existing holders by way of bonus, capitalisation or similar issue;
- (B) a distribution, issue or dividend to existing holders of the relevant Equities and/or Underlying Equities of (i) such Equities and/or Underlying Equities, (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of an Equity Issuer or Underlying Equity Issuer, as appropriate, equally or proportionately with such payments to holders of such Equities and/or Underlying Equities, (iii) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Equity Issuer or Underlying Equity Issuer, as appropriate, as a result of a spin-off or other similar transaction or (iv) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- (C) an extraordinary dividend (determined by the Calculation Agent, in its sole and absolute discretion);
- (D) a call by an Equity Issuer or Underlying Equity Issuer, as appropriate, in respect of relevant Equities and/or Underlying Equities that are not fully paid;
- (E) a repurchase by an Equity Issuer or Underlying Equity Issuer, as appropriate, or any of its subsidiaries of relevant Equities and/or Underlying Equities whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (F) in respect of an Equity Issuer or Underlying Equity Issuer, as appropriate, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Equity Issuer or Underlying Equity Issuer, as appropriate, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights;
- (G) any other event having, in the opinion of the Calculation Agent, a diluting, concentrative or other effect on the theoretical value of the relevant Equities and/or Underlying Equities; or

- (H) the making of any amendment or supplement to the terms of the Deposit Agreement,

provided that an event under (A) to (G) (inclusive) above in respect of Underlying Equities shall not constitute a Potential Adjustment Event unless, in the opinion of the Calculation Agent, such event has a diluting or concentrative effect on the theoretical value of the Equities.

If the Calculation Agent determines that:

- (A) an event under (A) to (G) (inclusive) of the definition of “Potential Adjustment Event” has occurred and constitutes a Potential Adjustment Event in respect of any Underlying Equities; or
- (B) an event under (H) of the definition of “Potential Adjustment Event” has occurred, the Calculation Agent will determine whether such Potential Adjustment Event has an economic effect on the Notes

and, in each case, the Calculation Agent will make the corresponding adjustment(s), if any, to one or more of the terms of these Conditions and/or the relevant Issue Terms as the Calculation Agent determines appropriate to account for (x) in respect of an event under (A) to (G) (inclusive) of the definition of “Potential Adjustment Event”, the diluting or concentrative effect on the theoretical value of the Equities, and (y) in respect of an event under (H) of the definition of “Potential Adjustment Event”, such economic effect on the Notes, as the case may be, (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Equity), following the Potential Adjustment Event. The Calculation Agent may (among other factors) have reference to any adjustment made by the Depositary under the Deposit Agreement.

If the Calculation Agent determines that no adjustment that it could make will produce a commercially reasonable result it shall notify the Issuer and the Holders that the relevant consequence shall be the early redemption of the Notes, in which case, on such date as selected by the Calculation Agent in its sole and absolute discretion, the Issuer shall redeem all of the Notes upon prior notice made to the Holders, and the Issuer will cause to be paid to each Holder in respect of each Note held by it an amount equal to the Early Redemption Amount of such Notes.

The definitions of “**Merger Event**” and “**Tender Offer**” shall be amended in accordance with the DR Amendment.

If the Calculation Agent determines that a Merger Event or Tender Offer has occurred in respect of any Underlying Equity, then, where the Calculation Agent makes an adjustment to these Conditions and/or the relevant Issue Terms in connection with a Merger Event or Tender Offer, the Calculation Agent may (among other factors) have reference to any adjustment made by the Depositary under the Deposit Agreement.

The definitions of “**Nationalisation**”, “**Insolvency**” and “**De-listing**” shall be amended in accordance with the DR Amendment.

If the Calculation Agent determines that a Nationalisation or Insolvency has occurred in respect of an Equity or the Depositary, then, notwithstanding anything to the contrary herein, the Calculation Agent may determine that the affected Equity be substituted with Replacement DRs selected by it in accordance with the DR Substitution Criteria and may make any appropriate adjustments to the terms of these Conditions and/or the relevant Issue Terms. In such case,

the Issuer shall not redeem the Notes early and, following such replacement, references to Equities therein shall be replaced by references to such Replacement DRs, and the Calculation Agent will determine the effective date of any adjustments.

If the Calculation Agent determines that a De-listing of Equities has occurred or if the Depositary announces that the Deposit Agreement is (or will be terminated), then, notwithstanding anything to the contrary herein, the Calculation Agent may determine that the affected Equity be substituted with Replacement DRs selected by it in accordance with the DR Substitution Criteria or the Underlying Equities and may make any appropriate adjustments to the terms of these Conditions and/or the relevant Issue Terms. In such case, the Issuer shall not redeem the Notes early and, following such replacement, references to Equities herein shall be replaced by references to such Replacement DRs or the Underlying Equities, as applicable, and the Calculation Agent will determine the effective date of any adjustments.

The definition of “**Insolvency Filing**” shall be amended in accordance with the DR Amendment.

The definition of “**Change in Law**” shall be amended in accordance with the DR Amendment.

For the avoidance of doubt, where a provision is amended pursuant to this Condition 8.03 in accordance with the DR Amendment, if the event described in such provision occurs in respect of the Underlying Equities or the Underlying Equity Issuer, then the consequence of such event shall be interpreted consistently with the DR Amendment and such event.

Full Lookthrough Depositary Receipt Provisions

8.04 Where the applicable Issue Terms specify that the “Full Lookthrough Depositary Receipt Provisions” shall apply to an Equity, then the provisions set out in this Condition 8.04 shall apply, and, in relation to such Equity, the other provisions of this Condition 8 shall be deemed to be amended and modified as set out in this Condition 8.04.

The definition of “Potential Adjustment Event” shall be amended so that it reads as follows:

“**Potential Adjustment Event**” means any of the following:

- (A) a subdivision, consolidation or reclassification of relevant Equities and/or Underlying Equities (unless resulting in a Merger Event or Tender Offer), or a free distribution or dividend of any such Equities and/or Underlying Equities to existing holders by way of bonus, capitalisation or similar issue;
- (B) a distribution, issue or dividend to existing holders of the relevant Equities and/or Underlying Equities of (i) such Equities and/or Underlying Equities, (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of an Equity Issuer or Underlying Equity Issuer, as appropriate, equally or proportionately with such payments to holders of such Equities and/or Underlying Equities, (iii) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Equity Issuer or Underlying Equity Issuer, as appropriate, as a result of a spin-off or other similar transaction or (iv) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- (C) an extraordinary dividend (determined by the Calculation Agent, in its sole and absolute discretion);
- (D) a call by an Equity Issuer or Underlying Equity Issuer, as appropriate, in respect of relevant Equities and/or Underlying Equities that are not fully paid;

- (E) a repurchase by an Equity Issuer or Underlying Equity Issuer, as appropriate, or any of its subsidiaries of relevant Equities and/or Underlying Equities whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (F) in respect of an Equity Issuer or Underlying Equity Issuer, as appropriate, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Equity Issuer or Underlying Equity Issuer, as appropriate, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights;
- (G) any other event having, in the opinion of the Calculation Agent, a diluting, concentrative or other effect on the theoretical value of the relevant Equities and/or Underlying Equities; or
- (H) the making of any amendment or supplement to the terms of the Deposit Agreement,

provided that an event under (A) to (G) (inclusive) above in respect of Underlying Equities shall not constitute a Potential Adjustment Event unless, in the opinion of the Calculation Agent, such event has a diluting or concentrative effect on the theoretical value of the Equities.

If the Calculation Agent determines that:

- (A) an event under (A) to (G) (inclusive) of the definition of "Potential Adjustment Event" has occurred and constitutes a Potential Adjustment Event in respect of any Underlying Equities; or
- (B) an event under (H) of the definition of "Potential Adjustment Event" has occurred, the Calculation Agent will determine whether such Potential Adjustment Event has an economic effect on the Notes;

and, in each case, the Calculation Agent will make the corresponding adjustment(s), if any, to one or more of any terms of these Conditions and/or the relevant Issue Terms as the Calculation Agent determines appropriate to account for (x) in respect of an event under (A) to (G) (inclusive) of the definition of "Potential Adjustment Event", the diluting or concentrative effect on the theoretical value of the Equities, and (y) in respect of an event under (H) of the definition of "Potential Adjustment Event", such economic effect on the Notes, as the case may be (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Equity) following the Potential Adjustment Event. The Calculation Agent shall (among other factors) have reference to any adjustment made by the Depositary under the Deposit Agreement.

If the Calculation Agent determines that no adjustment that it could make will produce a commercially reasonable result, it shall notify the Issuer and the Holders that the relevant consequence shall be the early redemption of the Notes, in which case, on such date as selected by the Calculation Agent in its sole and absolute discretion, the Issuer shall redeem all of the Notes upon prior notice made to the Holders, and the Issuer will cause to be paid to each Holder in respect of each Note held by it an amount equal to the Early Redemption Amount of such Notes.

The definitions of “**Merger Event**” and “**Tender Offer**” shall be amended in accordance with the DR Amendment.

If the Calculation Agent determines that a Merger Event or Tender Offer has occurred in respect of an Underlying Equity, then, where the Calculation Agent makes an adjustment to these Conditions and/or the relevant Issue Terms in connection with a Merger Event or Tender Offer, the Calculation Agent may (among other factors) have reference to any adjustment made by the Depositary under the Deposit Agreement.

The definitions of “**Nationalisation**”, “**Insolvency**” and “**De-listing**” shall be amended in accordance with the DR Amendment.

If the Calculation Agent determines that a Nationalisation or Insolvency has occurred in respect of an Equity or the Depositary, then, notwithstanding anything to the contrary herein, the Calculation Agent may determine that the affected Equity be substituted with Replacement DRs selected in accordance with the DR Substitution Criteria and may make any appropriate adjustments to the terms of these Conditions and/or the relevant Issue Terms. In such case, the Issuer shall not redeem the Notes early and, following such replacement, references to Equities herein shall be replaced by references to such Replacement DRs, and the Calculation Agent will determine the effective date of any adjustments.

If the Calculation Agent determines that a De-listing of Equities has occurred or if the Depositary announces that the Deposit Agreement is (or will be terminated), then notwithstanding anything to the contrary herein, the Calculation Agent may determine that the affected Equity be substituted with Replacement DRs selected in accordance with the DR Substitution Criteria or the Underlying Equities and may make any appropriate adjustments to the terms of these Conditions and/or the relevant Issue Terms. In such case, the Issuer shall not redeem the Notes early, and following such replacement, references to Equities herein shall be replaced by references to such Replacement DRs or the Underlying Equities, as applicable, and the Calculation Agent will determine the effective date of any adjustments.

The definition of any Additional Disruption Event specified as applicable in the relevant Issue Terms shall be amended in accordance with the DR Amendment.

Each reference to the Exchange in the definitions of “**Exchange Business Day**”, “**Scheduled Closing Time**”, “**Scheduled Trading Day**”, “**Market Disruption Event**” and “**Disrupted Day**” shall be deemed to include a reference to the primary exchange on which the Underlying Equities are traded, as determined by the Calculation Agent.

The definitions of “**Market Disruption Event**” and “**Related Exchange**” shall be amended in accordance with the DR Amendment. For the avoidance of doubt, where a provision is amended pursuant to this Condition 8.04 in accordance with the DR Amendment, if the event described in such provision occurs in respect of the Underlying Equities or the Underlying Equity Issuer, then the consequence of such event shall be interpreted consistently with the DR Amendment and such event.

8.05 Definitions applicable to Equity Linked Notes

“**Additional Disruption Event**” means Change in Law, Hedging Disruption, Increased Cost of Hedging, Insolvency Filing, in each case if specified in the applicable Issue Terms, or, in the case of an Exempt Note, any other Additional Disruption Event, if specified in the applicable Pricing Supplement.

“**Affiliate**” means any entity controlled directly or indirectly, by the Issuer, any entity that controls, directly or indirectly, the Issuer, or any entity under common control with the Issuer. As used herein “**control**” means the ownership of a majority of the voting power of the entity and “**controlled by**” and “**controls**” shall be construed accordingly.

“**Averaging Date**” means each date specified as an Averaging Date in the applicable Issue Terms provided that if such date is not a Scheduled Trading Day, the Averaging Date shall be the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, such day is a Disrupted Day. If any Averaging Date is a Disrupted Day, then:

- (i) if ‘Omission’ is specified in the applicable Issue Terms, such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Reference Price. If through the operation of this provision, no Averaging Date would occur with respect to the relevant Valuation Date, then for the purposes of determining the Reference Price on the final Averaging Date, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day;
- (ii) if ‘Postponement’ is specified in the applicable Issue Terms then, for purposes of determining the Reference Price, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the Equity Linked Notes; or
- (iii) if ‘Modified Postponement’ is specified in the applicable Issue Terms, then:
 - (A) where the Notes relate to a single Equity, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day for the Equity shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the Reference Price for that Averaging Date in accordance with sub paragraph (i)(B) of the definition of “Valuation Date” below; or
 - (B) where the Notes relate to a Basket of Equities and the applicable Issue Terms provide that “Common Disrupted Days” is not applicable, the Averaging Date for each Equity not affected by the occurrence of a Disrupted Day shall be the Scheduled Averaging Date, and the Averaging Date for each Equity affected by the occurrence of a Disrupted Day (each an “**Affected Equity**”) shall be the first succeeding Valid Date in relation to such Affected Equity. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day for such Equity shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of the Affected Equity and (ii) the Calculation Agent shall determine the Reference Price of the Affected Equity for that Averaging Date in accordance with sub paragraph (ii)(B) of the definition of “Valuation Date” below; or
 - (C) where the Notes relate to a Basket of Equities and the applicable Issue Terms provide that “Common Disrupted Days” is applicable, the Averaging Date for

each Equity shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the relevant Reference Price for each Equity for that Averaging Date in accordance with sub-paragraph (iii)(B)(x) or (y), as applicable of the definition of “Valuation Date” below; and

- (D) “**Valid Date**” shall mean a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not or is not deemed to occur, and “**Common Valid Date**” shall mean a Scheduled Trading Day that is not a Disrupted Day for any Equity comprised in the Basket of Equities and on which another Averaging Date does not or is deemed not to occur.

“**Basket of Equities**” means a basket composed of the Equities specified in the applicable Issue Terms in the relative Weightings or numbers of Equities specified in the applicable Issue Terms.

“**Change in Law**” means that, on or after the Trade Date (as specified in the applicable Issue Terms) (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in its sole and absolute discretion that (X) it has become illegal to hold, acquire or dispose of any relevant Equity or (Y) the Issuer will incur a materially increased cost in performing its obligations in relation to the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer and/or any Hedging Entity).

“**Closing Price**” means the official closing price of an Equity on the relevant Exchange.

“**De-listing**” means, in respect of any relevant Equities, the Exchange announces that pursuant to the rules of such Exchange, such Equities cease (or will cease) to be listed, traded or publicly quoted on such Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on (i) where the Exchange is located in the United States, any of the New York Stock Exchange, the American Stock Exchange or the NASDAQ Global Market or Global Select Market (or their respective successors) or (ii) an exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in any member state of the European Union).

If the relevant Equities are immediately re-listed, re-traded or re-quoted on any exchange or quotation system, such exchange or quotation system shall be deemed to be the Exchange in respect of such Equities.

“**Deposit Agreement**” means, in relation to the Equities, the agreements or other instruments constituting the Equities, as from time to time amended or supplemented in accordance with their terms.

“**Depository**” means, where the relevant Issue Terms specifies that (a) the “Partial Lookthrough Depository Receipt Provisions” shall apply to the Equity, the Equity Issuer or any successor

issuer of the Equities from time to time or (b) the “Full Lookthrough Depository Receipt Provisions” shall apply to an Equity or the Equity Issuer.

In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Paying Agents, Euroclear, Clearstream, Luxembourg or the Issuing and Paying Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Holder.

Delivery of the Entitlement in respect of each Note shall be made at the risk of the relevant Holder in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine to be appropriate and notified to the person designated by the Holder in the relevant Asset Transfer Notice or, in the case of an Exempt Note, in such manner as is specified in the applicable Pricing Supplement, on the Maturity Date (such date, subject to adjustment in accordance with this Condition, the “**Delivery Date**”), provided that the Asset Transfer Notice is duly delivered to Euroclear, Clearstream, Luxembourg or a Paying Agent, as the case may be, with a copy to the Issuer and Issuing and Paying Agent, as provided above, not later than the close of business in each place of receipt on the Cut-Off Date specified in the applicable Issue Terms.

If a Holder fails to give an Asset Transfer Notice as provided herein with a copy to the Issuer and Issuing and Paying Agent, not later than the close of business in each place of receipt on the Cut-Off Date, then the Entitlement will be delivered as soon as practicable after the Maturity Date (in which case, such date of delivery shall be the Delivery Date) at the risk of such Holder in the manner provided above; provided that, if in respect of a Note, an Asset Transfer Notice is not delivered to Euroclear, Clearstream, Luxembourg or a Paying Agent, as the case may

be, with a copy to the Issuing and Paying Agent and the Issuer by the close of business in each place of receipt on the 180th calendar day following the Cut-Off Date, the Issuer's obligations in respect of such Note shall be discharged and no further liability in respect thereof shall attach to the Issuer. For the avoidance of doubt, in such circumstances such Holder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the originally designated Delivery Date and no liability in respect thereof shall attach to the Issuer.

Delivery of Entitlement – General Provisions

9.03 All Expenses arising from the delivery of the Entitlement in respect of such Notes shall be for the account of the relevant Holder and no delivery of the Entitlement shall be made until all Expenses have been paid to the satisfaction of the Issuer by the relevant Holder.

After delivery of the Entitlement and for such period of time after the Delivery Date as any person other than the relevant Holder shall continue to be the legal owner of the securities or obligations comprising the Entitlement (the "**Intervening Period**"), none of the Issuer, the Calculation Agent, Issuing and Paying Agent nor any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Holder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities or obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations or (iii) be under any liability to the relevant Holder in respect of any loss or damage which such Holder may sustain or suffer as a result, whether directly or indirectly, of that person being during such Intervening Period the legal owner of such securities or obligations.

Where the Entitlement is, in the determination of the Issuer, an amount other than an amount of Relevant Assets capable of being delivered, the Holders will receive an Entitlement comprising of the nearest number (rounded down) of Relevant Assets capable of being delivered by the Issuer (taking into account that a Holder's entire holding may be aggregated at the Issuer's discretion for the purpose of delivering the Entitlements), and in respect of the amount of Relevant Assets not capable of being delivered the Holder will receive an amount in the Specified Currency ("**Cash Adjustment**") which shall be the value of the amount of the Relevant Assets so rounded down, as calculated by the Calculation Agent in its sole discretion from such source(s) as it may select (converted if necessary into the Specified Currency by reference to such exchange rate as the Calculation Agent deems appropriate) or, in the case of an Exempt Note, otherwise in the manner specified in the applicable Pricing Supplement. Payment will be made to the account specified by the Holder in the Asset Transfer Notice referred to in Condition 9.02 or otherwise in such manner as shall be notified to the Holders in accordance with Condition 23.

For the purposes of the Notes, where the Entitlement comprises an Equity or a Fund Share of an ETF (i) the Issuer shall be under no obligation to register or procure the registration of any Holder or any other person as the registered shareholder in the register of members or shareholders register of any Equity Issuer or ETF, and (ii) any interest, dividend or other distribution in respect of any Entitlement will be payable to the party that would receive such interest, dividend or other distribution according to market practice for a sale of the relevant Equity or Fund Share executed on the Delivery Date and to be delivered in the same manner as the Entitlement. Any such interest, dividend or other distribution to be paid to a Holder shall be paid to the account specified in the relevant Asset Transfer Notice.

9.04 Settlement Disruption Event

If, prior to the delivery of the Entitlement in accordance with this Condition, a Settlement Disruption Event is subsisting, then the Delivery Date in respect of such Note shall be postponed until the first following Settlement Business Day in respect of which there is no such

Settlement Disruption Event and notice thereof shall be given to the relevant Holder, in accordance with Condition 23. Such Holder shall not be entitled to any payment, whether of interest or otherwise, on such Note as a result of any delay in the delivery of the Entitlement pursuant to this Condition.

Where delivery of the Entitlement has been postponed as provided in this Condition the Issuer shall not be in breach of these Conditions and no liability in respect thereof shall attach to the Issuer.

For so long as delivery of the Entitlement in respect of any Note is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Holder of the Disruption Cash Settlement Price not later than on the third Business Day following the date that the notice of such election substantially in the form set out in the Issue and Paying Agency Agreement (the “**Election Notice**”) is given to the Holders in accordance with Condition 23. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Holders in accordance with Condition 23.

9.05 If “**Failure to Deliver due to Illiquidity**” is specified as applicable in the Issue Terms and if, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets comprising the Entitlement (the “**Affected Relevant Assets**”) due to illiquidity in the market for the Relevant Assets (a “**Failure to Deliver**”), then:

- (A) subject as provided elsewhere in these Conditions and/or the applicable Issue Terms, any Relevant Assets which are not Affected Relevant Assets, will be delivered pro rata on the originally designated Delivery Date in accordance with this Condition 9; and
- (B) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion, in lieu of delivery of the Affected Relevant Assets, to pay to the Holder the Failure to Deliver Settlement Price (as defined below) on the fifth Business Day following the date on which the Failure to Deliver Notice (as defined below) is given to the Holders in accordance with Condition 23. Payment of the Failure to Deliver Settlement Price will be made in such manner as shall be notified to the Holders in accordance with Condition 23. The Issuer shall give notice (such notice a “**Failure to Deliver Notice**”) as soon as reasonably practicable to the Holders in accordance with Condition 23 that the provisions of this Condition 9.05 apply.

Option to Vary Settlement

9.06 If the applicable Pricing Supplement indicate that the Issuer has the option to vary settlement in respect of the Notes, the Issuer may in its sole and unfettered discretion in respect of each such Note, elect not to pay the relevant Holders the Final Redemption Amount or to deliver or procure delivery of the Entitlement to the relevant Holders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Final Redemption Amount on the Maturity Date to the relevant Holders, as the case may be. Notification of such election will be given to Holders in accordance with Condition 23.

Upon the occurrence of a Fund Event, the Issuer shall give notice as soon as reasonably practicable to the Holders in accordance with Condition 23 giving details of the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of such action.

12.02 "Market Disruption Event" means, in respect of a Fund Share:

- (a) the occurrence or existence at any time during the one hour period that ends at the relevant Valuation Time:

 - (A) relating to the relevant Fund Share on such Exchange; or
 - (B) relating to securities that comprise 20 percent. or more of the level of the relevant Underlying Index or any relevant successor index; or
 - (C) in futures or options contracts relating to such Fund Shares or the relevant Underlying Index on any relevant Related Exchange, or
 - (ii) of any event (other than an event described in (b) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to (A) effect transactions in, or obtain market values for, the Fund Shares on the Exchange, (B) effect transactions in, or obtain market values for securities that comprise 20 percent. or more of the level of the relevant Underlying Index, or (C) to effect transactions in, or obtain market values for, futures or options contracts relating to such Fund Shares or the relevant Underlying Index on any relevant Related Exchange, which in either case the Calculation Agent determines is material; or
- (b) the closure on any Exchange Business Day of any relevant Exchange(s) or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or such Related Exchange(s), as the case may be, at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or such Related Exchange on such Exchange Business Day and (ii) the submission deadline for orders to be entered into such Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day.

12.03 For the purpose of determining whether a Market Disruption Event exists in respect of a Fund Share at any time, if an event giving rise to a Market Disruption Event occurs in respect of a security included in the relevant Underlying Index at that time, then the relevant percentage contribution of that security to the level of the relevant Underlying Index shall be based on a comparison of (i) the portion of the level of the relevant Underlying Index attributable to that security, and (ii) the overall level of the relevant Underlying Index immediately before the occurrence of such Market Disruption Event.

The Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 23 of the occurrence of a Disrupted Day on any day that, but for the occurrence of a

Disrupted Day, would have been a Valuation Date provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Disrupted Day.

Potential Adjustment Event

12.04 “Potential Adjustment Event” means any of the following:

- (i) a subdivision, consolidation or reclassification of relevant Fund Shares (unless resulting in a Merger Event or Tender Offer), or a free distribution or dividend of any such Fund Shares to existing holders by way of bonus, capitalisation or similar issue;

- (vii) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Shares.

Following a Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Shares and, if so, will (a) make the corresponding adjustment(s), if any, to any one or more of the terms of the Conditions and/or the applicable Issue Terms as the Calculation Agent determines appropriate to account for that diluting or concentrative effect and (b) determine the effective date(s) of that adjustment(s). The Calculation Agent may, but need not, determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Fund Shares traded on such options exchange.

Upon the making of any such adjustment, the Calculation Agent shall as soon as is reasonably practicable under the circumstances give notice to the Holders in accordance with Condition 23 stating the adjustment made and giving brief details of the Potential Adjustment Event, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such adjustment.

12.05 “De-listing” means, in respect of any relevant Fund Share, the Exchange announces that pursuant to the rules of such Exchange, such Fund Share ceases (or will cease) to be listed, traded or publicly quoted on such Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on (i) where the Exchange is located in the United States, any of the New York Stock Exchange, the American Stock Exchange or the NASDAQ Global Market or Global Select Market (or their respective successors) or (ii) an exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in any member state of the European Union).

or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the ETF or its subsidiaries with or into another entity in which the ETF is the continuing entity and which does not result in a reclassification or change of all such Fund Shares outstanding but results in the outstanding Fund Shares (other than Fund Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Fund Shares immediately following such event (a “**Reverse Merger**”), in each case if the Merger Date is on or before the Valuation Date (or such other date as is specified in the applicable Issue Terms).

12.06 If a De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event occurs in relation to any Fund Share, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:

- (i) require the Calculation Agent, in its sole and absolute discretion, to determine the appropriate adjustment(s), if any, to be made to any one or more of the terms of the Conditions and/or the applicable Issue Terms to account for the De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event, as the case may be, and determine the effective date(s) of that adjustment(s). The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of the De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event made by any options exchange to options on the relevant Fund Share traded on that options exchange; or
- (ii) redeem all (but not some only) of the Notes by giving notice to Holders in accordance with Condition 23, each principal amount of such Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount.

Upon the occurrence of a Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Material Underlying Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 23 stating the occurrence of the Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Merger Event, Tender Offer, De-listing, Nationalisation or Insolvency, as the case may be.

12.07 Correction of the Reference Price

In the event that any price or level published by an Exchange which is utilised for any calculation or determination made under the Notes is subsequently corrected, the Calculation Agent will in its sole and absolute discretion adjust the terms of the Notes to account for such correction, provided that such correction is published and made available to the public by the relevant

Exchange during a period following original publication equal in duration to the period in which a trade in the Fund Share would customarily settle according to the rules of such Exchange, and further provided, that such publication of such correction is made sufficiently (in the sole and absolute discretion of the Calculation Agent) in advance of the Redemption Date, or the Interest Payment Date, as the case may be, to make such adjustment prior to such relevant date.

“Hedging Disruption” means that the Hedging Entity is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Fund Linked Notes, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

“Insolvency Filing” means that the ETF institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the ETF shall not be deemed an Insolvency Filing.

- (a) If an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the Conditions and/or the applicable Issue Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) redeem all (but not some only) of the Notes by giving notice to the Holders in accordance with Condition 23, each principal amount of Notes equal to the Calculation Amount being redeemed at its Early Redemption Amount.
- (b) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 23, stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

12.09 Definitions (Exchange Traded Funds)

“**Affiliate**” means any entity controlled, directly or indirectly, by the Issuer, any entity that controls, directly or indirectly, the Issuer, or any entity under common control with the Issuer. As used herein “**control**” means the ownership of a majority of the shares, units or interests of the entity and “**controlled by**” and “**controls**” shall be construed accordingly.

“**Averaging Date**” means each date specified as an Averaging Date in the applicable Issue Terms provided that if such date is not a Scheduled Trading Day, the Averaging Date shall be the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, such day is a Disrupted Day. If any Averaging Date is a Disrupted Day, then:

- (i) if ‘Omission’ is specified in the applicable Issue Terms, such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Reference Price. If through the operation of this provision no Averaging Date would occur with respect to the relevant Valuation Date then for the purposes of determining the Reference Price on the final Averaging Date, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day;
- (ii) if ‘Postponement’ is specified in the applicable Issue Terms then, for purposes of determining the Reference Price, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the Fund Linked Notes; or
- (iii) if ‘Modified Postponement’ is specified in the applicable Issue Terms, then:
 - (A) where the Notes relate to a single Fund Share, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day for the Fund Share shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the Reference Price for that Averaging Date in accordance with sub paragraph (i)(B) of the definition of “Valuation Date” below; or

- (B) where the Notes relate to a Basket of Fund Shares and the applicable Issue Terms provide that “Common Disrupted Days” is not applicable, the Averaging Date for each Fund Share not affected by the occurrence of a Disrupted Day shall be the Scheduled Averaging Date, and the Averaging Date for each Fund Share affected by the occurrence of a Disrupted Day (each an “**Affected Fund Share**”) shall be the first succeeding Valid Date in relation to such Affected Fund Share. If the first succeeding Valid Date in relation to such Affected Fund Share has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day for such Fund Share shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of the Affected Fund Share and (ii) the Calculation Agent shall determine the Reference Price of the Affected Fund Share for that Averaging Date in accordance with sub paragraph (ii)(B) of the definition of “Valuation Date” below; or
- (C) where the Notes relate to a Basket of Fund Shares and the applicable Issue Terms provide that “Common Disrupted Days” is applicable, the Averaging Date for each Fund Share shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the relevant Reference Price for each Fund Share for that Averaging Date in accordance with sub-paragraph (iii)(B)(x) or (y), as applicable of the definition of “Valuation Date” below; and
- (D) “**Valid Date**” shall mean a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not or is not deemed to occur, and “**Common Valid Date**” shall mean a Scheduled Trading Day that is not a Disrupted Day for any Fund Share comprised in the Basket of Fund Shares and on which another Averaging Date does not or is deemed not to occur.

- (i) where the Notes relate to a single Fund Share, the Observation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Observation Date is a Disrupted Day. In that case, (i) the eighth Scheduled Trading Day for such Fund Share shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent, shall, where practicable in the case of Exempt Notes, determine the Reference Price in the manner set out in the applicable Pricing Supplement or, if not set out or not so practicable or in the case of Non-Exempt Notes, determine the Reference Price in accordance with its good faith estimate of the value of the Fund Share as of the Valuation Time on that eighth Scheduled Trading Day; or

In that case, (A) the eighth Scheduled Trading Day shall be deemed to be the Observation Date for each Fund Share (notwithstanding the fact that such day is a Disrupted Day in respect of one or more Fund Shares (each an “**Affected Fund Share**”)); and (B) the Calculation Agent shall determine the Reference Price using (x) in relation to each Fund Share other than an Affected Fund Share its price as provided in paragraph (ii) of the definition of Reference Price; and (y) in relation to each Affected Fund Share, its price as determined, in the case of Exempt Notes, in the manner set out in the applicable Pricing Supplement, or if not set out or if not practicable or in the case of Non-Exempt Notes, as its good faith estimate of the value of the Affected Fund Share as of the Valuation Time on that eighth Scheduled Trading Day.

the Valuation Time on the relevant date, if a Valuation Time is specified in the applicable Issue Terms) can be determined at such time, unless the relevant date is a Disrupted Day, the Calculation Agent's good faith estimate of the value of the Fund Share at the Valuation Time on the relevant date), or as otherwise determined by the Calculation Agent subject to the provisions of this Condition 12, multiplied by the relevant Weighting. 13.02 Market Disruption Event and Disruption Fallback

If, in the opinion of the Calculation Agent, a Market Disruption Event (as defined below) has occurred and is continuing on the Pricing Date (or, if different, the day on which the price for the Pricing Date would, in the ordinary course, be published by the Price Source), the Relevant Price (or method for determining the Relevant Price) for the Pricing Date will be determined by the Calculation Agent in accordance with the first applicable Disruption Fallback (as set out below) that provides a Relevant Price:

- (a) Market Disruption Event

“**Market Disruption Event**” means the occurrence of any of the following events:

- (i) with respect to all Commodities:
 - (A) Price Source Disruption;
 - (B) Commodity Trading Disruption;
 - (C) Disappearance of Commodity Reference Price; and
 - (D) in the case of an Exempt Note, any additional Market Disruption Events specified in the applicable Pricing Supplement; and
- (ii) with respect to all Commodities other than gold, silver, platinum or palladium:
 - (A) Material Change in Formula;
 - (B) Material Change in Content; and
 - (C) in the case of an Exempt Note, any additional Market Disruption Events specified in the applicable Pricing Supplement; and
- (iii) with respect to a Commodity Index:

- (A) a temporary or permanent failure by the applicable exchange or other price source to announce or publish (x) the Commodity Reference Price (provided that the Calculation Agent may, in its sole and absolute discretion, determine that such failure shall not be a Market Disruption Event and (i) shall fall within paragraph (i) of the proviso to the definition of Price Source in Condition 13.07, or (ii) shall be an Index Adjustment Event in respect of such Commodity Index) or (y) the closing price for any futures contract included in the Commodity Index;
 - (B) a material limitation, suspension or disruption of trading in one or more of the futures contracts included in the Commodity Index which results in a failure by the exchange on which each applicable futures contract is traded to report a closing price for such contract on the day on which such event occurs or any succeeding day on which it continues; or
 - (C) the closing price for any futures contract included in the Commodity Index is a "limit price", which means that the closing price for such contract for a day has increased or decreased from the previous day's closing price by the maximum amount permitted under applicable exchange rules.
- (iv) Disruption Fallback

"Disruption Fallback" means a source or method that may give rise to an alternative basis for determining the Relevant Price in respect of a specified Commodity Reference Price when a Market Disruption Event occurs or exists on a day that is a Pricing Date in respect of the Notes. A Disruption Fallback is applicable if it is specified in the applicable Issue Terms or, if no Disruption Fallback is specified in the applicable Issue Terms, shall mean:

- (A) with respect to a relevant Commodity (in the following order):
 - I. Fallback Reference Price (if applicable);
 - II. Delayed Publication or Announcement and Postponement (each to operate concurrently with the other and each subject to a period of two consecutive Commodity Business Days (measured from and including the original day that would otherwise have been the Pricing Date)) provided, however, that the price determined by Postponement shall be the Relevant Price only if Delayed Publication or Announcement does not yield a Relevant Price within those two consecutive Commodity Business Days; and
 - III. Calculation Agent Determination;
- (B) with respect to a Commodity Index the Calculation Agent shall determine the Relevant Price:
 - (a) using:
 - (i) with respect to each futures contract included in the Commodity Index which is not affected by the Market

Disruption Event, the closing prices of each such contract on the applicable determination date; and

- (ii) with respect to each futures contract included in the Commodity Index which is affected by the Market Disruption Event, the closing prices of each such contract on the first day following the applicable determination date on which no Market Disruption Event is occurring with respect to such contract; or
- (b) in the case of an Exempt Note, as specified in the applicable Pricing Supplement.

Subject as provided below, the Calculation Agent shall determine the Relevant Price by reference to the closing prices determined in (a)(i) and (a)(ii) above or as provided in (b) above using the then current method for calculating the Commodity Reference Price.

Where a Market Disruption Event with respect to one or more futures contracts included in the Commodity Index has occurred on an applicable determination date and continues to exist as of the relevant Commodity Index Cut-Off Date for such applicable determination date, the Calculation Agent shall determine the Relevant Price on such Commodity Index Cut-Off Date. In calculating the Relevant Price as set out herein, the Calculation Agent shall use the formula for calculating the Commodity Reference Price last in effect prior to the Market Disruption Event.

13.03 Adjustments to a Commodity Index

- (a) Successor Index Sponsor Calculates and Reports a Commodity Index

If a relevant Commodity Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the “**Successor Index Sponsor**”) acceptable to the Issuer, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then in each case that index (the “**Successor Index**”) will be deemed to be the Commodity Index.

- (b) Modification and Cessation of Calculation of a Commodity Index

If on or prior to a Pricing Date (i) the relevant Index Sponsor makes a material change in the formula for or the method of calculating a relevant Commodity Index or in any other way materially modifies that Commodity Index (other than a modification prescribed in that formula or method to maintain that Commodity Index in the event of changes in constituent commodities and weightings and other routine events), or (ii) the Index Sponsor permanently cancels a relevant Commodity Index or (iii) the Index Sponsor fails to calculate and announce a relevant Commodity Index and there is no Successor Index Sponsor or Successor Index then the Calculation Agent may at its option (in the case of (i)) and shall (in the case of (ii) and (iii)) (such events (i) (ii) and (iii) to be collectively referred to as “**Index Adjustment Events**”) (provided that the Calculation Agent may, in its sole and absolute discretion, determine that event (iii)

shall not be an Index Adjustment Event but (y) shall fall within paragraph (i) of the proviso to the definition of Price Source specified in Condition 13.07, or (z) shall be a Market Disruption Event in respect of such Commodity Index) calculate the Relevant Price using in lieu of the published level for that Commodity Index, the level for that Commodity Index as at the relevant determination date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Commodity Index last in effect prior to the relevant Index Adjustment Event, but using only those futures contracts that comprised that Commodity Index immediately prior to the relevant Index Adjustment Event (other than those futures contracts that have ceased to be listed on any relevant exchange).

13.04 Correction to Published Prices

For purposes of determining or calculating the Relevant Price, if the price published or announced on a given day and used or to be used by the Calculation Agent to determine a Relevant Price is subsequently corrected and the correction is published or announced by the person responsible for that publication or announcement within 30 calendar days after the original publication or announcement (or, if earlier, the day falling two Commodity Business Days preceding the date on which payment of any amount or delivery of any amount of assets to be calculated by reference to such Relevant Price), the Calculation Agent may, in its sole discretion, use such corrected price in such calculation.

13.05 Common Pricing

If with respect to Commodity Linked Notes relating to a Basket of Commodities, “Common Pricing” is specified in the applicable Issue Terms as:

- (i) “Applicable” then, no date will be a Pricing Date unless such date is a day on which all referenced Commodity Reference Prices (for which such date would otherwise be a Pricing Date) are scheduled to be published or announced, as determined on the Trade Date of the Securities; or
- (ii) “Not Applicable” then, if the Calculation Agent determines that a Market Disruption Event has occurred or exists on the Pricing Date in respect of any relevant Commodity and/or Commodity Index (each an “**Affected Commodity**”), the Relevant Price of each Commodity and/or Commodity Index within the basket which is not affected by the occurrence of a Market Disruption Event shall be determined on its scheduled Pricing Date and the Relevant Price for each Affected Commodity shall be determined in accordance with the first applicable Disruption Fallback that provides a Relevant Price.

determinations and adjustments in respect of that date on a date after that date determined by it in its discretion.

Pursuant to this Condition 15 the Calculation Agent has a number of discretions. These are necessary since in certain circumstances it is not reasonably practicable or otherwise not appropriate for certain valuations to be carried out in relation to relevant reference assets and in these circumstances the Calculation Agent may exercise certain discretions.

17.01 All amounts payable (whether in respect of principal, interest or otherwise) in respect of the Notes, Receipts or Coupons by or on behalf of the Issuer will be paid free and clear of and without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of Canada, any province or territory or political subdivision thereof or any authority or agency therein or thereof having power to tax and, in the case of Notes issued by a branch of the Issuer located outside Canada, the country in which such branch is located or any political subdivision thereof or any authority or agency therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties, assessments or governmental charges is required by law or the interpretation or administration thereof. In that event, the Issuer will pay such additional amounts as may be necessary in order that the net amounts received by the holder after such withholding or deduction shall equal the respective amounts of principal, interest or other amounts which would have been received in respect of the Notes, Receipts or Coupons (as the case may be), in the absence of such withholding or deduction; except that no additional amounts shall be payable with respect to any payment in respect of any Note, Receipt or Coupon:

- (i) to, or to a third party on behalf of, a holder who is liable for such taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of the holder having some connection with Canada or the country in which such branch is located otherwise than the mere holding of such Note, Receipt or Coupon; or

- (v) for or on account of any withholding tax or deduction imposed or collected pursuant to (a) Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code, or any fiscal

or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Code, whether currently in effect or as published and amended from time to time (the “**FATCA Withholding Tax Rules**”) or (b) Section 871(m) of the Code.

17.02 For the purposes of these Conditions:

“**Relevant Date**” means, in respect of any Note, Receipt or Coupon, the date on which payment thereof first becomes due and payable, or, if the full amount of the moneys payable has not been received by the Issuing and Paying Agent, or as the case may be, the Registrar on or prior to such due date, the date on which, the full amount of such moneys shall have been so received and notice to that effect shall have been duly given to the Holders in accordance with Condition 23.

18. Payments

Payments – Bearer Notes

18.01 Conditions 18.01 to 18.07 are applicable in relation to Notes in bearer form.

18.02 Payment of amounts (other than interest) due in respect of Bearer Notes will be made against presentation and (save as provided below) surrender of the relevant Bearer Notes at the specified office of any of the Paying Agents.

18.03 Payment of amounts in respect of interest on Bearer Notes will be made:

- (i) in the case of a Temporary Global Note or Permanent Global Note, against presentation of the relevant Temporary Global Note or Permanent Global Note at the specified office of any of the Paying Agents outside (unless Condition 18.04 applies) the United States and, in the case of a Temporary Global Note, upon due certification as required therein;
- (ii) in the case of Definitive Notes without Coupons attached thereto at the time of their initial delivery, against presentation of the relevant Definitive Notes at the

specified office of any of the Paying Agents outside (unless Condition 18.04 applies) the United States; and

- (iii) in the case of Definitive Notes delivered with Coupons attached thereto at the time of their initial delivery, against surrender of the relevant Coupons or, in the case of interest due otherwise than on an Interest Payment Date, against presentation of the relevant Definitive Notes, in either case at the specified office of any of the Paying Agents outside (unless Condition 18.04 applies) the United States.

18.04 Notwithstanding the foregoing (and in relation to payments in U.S. dollars only), payments of amounts due in respect of interest on the Bearer Notes and exchanges of Talons for Coupon sheets in accordance with Condition 18.07 will not be made at the specified office of any Paying Agent in the United States (as defined in the United States Internal Revenue Code of 1986 and Regulations promulgated thereunder) unless (i) payment in full of amounts due in respect of interest on such Notes when due or, as the case may be, the exchange of Talons at all the specified offices of the Paying Agents outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions and (ii) such payment or exchange is permitted by applicable United States law. If clauses (i) and (ii) of the previous sentence apply, the Issuer shall forthwith appoint a further Paying Agent with a specified office in New York City.

18.05 If the due date for payment of any amount due in respect of any Bearer Note is not a Payment Date (as defined in Condition 18.17), then the Holder thereof will not be entitled to payment thereof until the next day which is a Payment Date and no further payment on account of interest or otherwise shall be due in respect of such postponed payment unless there is a subsequent failure to pay in accordance with these Conditions in which event interest shall continue to accrue as provided in Condition 4.06 or, if appropriate, Condition 4.09.

18.06 Each Definitive Note initially delivered with Coupons or, Talons attached thereto should be presented and, save in the case of partial payment of the Redemption Amount, surrendered for final redemption together with all unmaturing Coupons and Talons relating thereto, failing which:

- (i) the amount of any missing unmaturing Coupons (or, in the case of a payment not being made in full, that portion of the amount of such missing Coupon which the Redemption Amount paid bears to the Redemption Amount due) relating to Definitive Notes that are Fixed Rate Notes or bear interest in fixed amounts will be deducted from the amount otherwise payable on such final redemption, the amount so deducted being payable against surrender of the relevant Coupon at the specified office of any of the Paying Agents at any time within two years of the Relevant Date applicable to payment of such Redemption Amount (whether or not the Issuer's obligation to make payment in respect of such Coupon would otherwise have ceased under Condition 19);
- (ii) all unmaturing Coupons relating to such Definitive Notes that are Floating Rate Notes or Reference Item Linked Interest Notes (whether or not such Coupons are surrendered therewith) shall become void and no payment shall be made thereafter in respect of them; and

- (iii) in the case of Definitive Notes initially delivered with Talons attached thereto, all unmatured Talons (whether or not surrendered therewith) shall become void and no exchange for Coupons shall be made thereafter in respect of them.

The provisions of paragraph (i) of this Condition 18.06 notwithstanding, if any Definitive Notes should be issued with a Maturity Date and Rate or Rates of Interest such that, on the presentation for payment of any such Definitive Note without any unmatured Coupons attached thereto or surrendered therewith, the amount required by paragraph (i) to be deducted would be greater than the Redemption Amount otherwise due for payment, then, upon the due date for redemption of any such Definitive Note, such unmatured Coupons (whether or not attached) shall become void (and no payment shall be made in respect thereof) as shall be required so that, upon application of the provisions of paragraph (i) in respect of such Coupons as have not so become void, the amount required by paragraph (i) to be deducted would not be greater than the Redemption Amount otherwise due for payment. Where the application of the foregoing sentence requires some but not all of the unmatured Coupons relating to a Definitive Note to become void, the relevant Paying Agent shall determine which unmatured Coupons are to become void, and shall select for such purpose Coupons maturing on later dates in preference to Coupons maturing on earlier dates.

18.07 In relation to Definitive Notes initially delivered with Talons attached thereto, on or after the Interest Payment Date of the final Coupon comprised in any Coupon sheet, the Talon comprised in the Coupon sheet may be surrendered at the specified office of any Paying Agent outside (unless Condition 18.04 applies) the United States in exchange for a further Coupon sheet (including any appropriate further Talon), subject to the provisions of Condition 19 below. Each Talon shall, for the purpose of these Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relevant Coupon sheet matures.

Payments – Registered Notes

18.08 Conditions 18.09 to 18.11 are applicable in relation to Registered Notes.

18.09 Payment of the Final Redemption Amount (together with accrued interest) due in respect of Registered Notes will be made against presentation and, save in the case of partial payment of the Final Redemption Amount, surrender of the relevant Registered Notes at the specified office of the Registrar. 18.10 Payment of amounts (whether principal, interest or otherwise) due (other than the Final Redemption Amount and accrued interest in respect thereof) in respect of Registered Notes will be paid to the Holder thereof (or, in the case of joint Holders, the first-named) as appearing in the register kept by the Registrar (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date and (ii) where in definitive form, as at opening of business (local time in the place of the specified office of the Registrar) on the fifteenth Relevant Banking Day (as defined in Condition 2.07) before the due date for such payment (the “**Record Date**”).

18.11 Notwithstanding the provisions of Condition 18.15, payment of amounts (whether principal, interest or otherwise) due (other than the Final Redemption Amount and accrued interest in respect thereof) in respect of Registered Notes will be made by transfer on the due date to the Designated Account of the Holder thereof (or, in the case of Joint Holders, the first-named). If the due date for any such payment is not a Payment Date, then the Holder thereof will not be entitled to payment thereof until the first day thereafter which is a Payment Date and a day on which commercial banks and foreign exchange markets settle payments in the relevant currency in the place where the relevant Designated Account is located and no further payment on account of interest or otherwise shall be due in respect of such postponed payment unless there is a subsequent failure to pay in accordance with these Conditions in which event interest shall continue to accrue as provided in Condition 4.06 or, as appropriate, Condition 4.12. For these purposes, "**Designated Account**" means the account (which, in the case of a payment in Japanese yen to a non resident of Japan, shall be a non resident account) maintained by a holder with a Designated Bank and identified as such in the Register and "**Designated Bank**" means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) and (in the case of a payment in euro) any bank which processes payments in euro.

If the date for payment of any amount in respect of Swedish Notes is not a Payment Date, the holder thereof shall not be entitled to payment until the next following Payment Date and shall not be entitled to interest or other payment in respect of such delay.

Payments – Finnish Notes

If the date for payment of any amount in respect of Norwegian Notes is not a Payment Date, the holder thereof shall not be entitled to payment until the next following Payment Date and shall not be entitled to interest or other payment in respect of such delay.

Payments – Specific provisions in relation to payments in respect of certain types of Exempt Notes

18.12 Payment of Instalment Amounts (other than the final Instalment Amount) in respect of an Instalment Note which is a Definitive Note with Receipts will be made against presentation of the Note together with the relevant Receipt and surrender of such Receipt. Payment of the Final Instalment Amount in respect of an Instalment Note which is a Definitive Note with Receipts will be made only against presentation and surrender (or, in the case of any part payment, endorsement) of the relevant Note and Receipt. Upon the date on which any Definitive Note becomes due and repayable, unmatured Receipts (in any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

The Receipts are not and shall not in any circumstances be deemed to be documents of title and if separated from the Note to which they relate will not represent any obligation of the Issuer. Accordingly, the presentation of a Note without the relevant Receipt or the presentation of a Receipt without the Note to which it appertains shall not entitle the Holder to any payment in respect of the relevant Instalment Amount.

18.13 Upon the date on which any Dual Currency Note or Note which bears interest in variable amounts which is a Definitive Note becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof.

In the case of Bearer Notes, if payments are made by transfer, such payments will only be made by transfer to an account maintained by the payee outside of the United States. In no event will payment of amounts due in respect of Bearer Notes be made by a cheque mailed to an address in the United States.

Payments of amounts due (whether principal, interest or otherwise) in respect of Swedish Notes will be made in accordance with Condition 18.11a, in respect of Finnish Notes in accordance with Condition 18.11b and in respect of Norwegian Notes in accordance with Condition 18.11c in the currency in which such amount is due by transfer to an account denominated in the relevant currency (or in the case of euro, an account to which euro may be credited or transferred) specified by the payee.

Payments of amounts in Renminbi will be made by credit or transfer to a Renminbi account maintained by or on behalf of the payee with a bank in any Relevant Renminbi Settlement Centre as specified in the applicable Issue Terms in accordance with applicable laws, rules, regulations and guidelines issued from time to time (including all applicable laws and regulations with respect to settlement in Renminbi in the relevant Relevant Renminbi Settlement Centre).

Payments will, without prejudice to the provisions of Condition 17, be subject in all cases to (i) any applicable fiscal or other laws and regulations, including without limitation those to which the Issuer or its Paying Agents, Swedish and Norwegian Issuing and Paying Agent, Finnish Issuing and Paying Agent, Registrar and/or Transfer Agent are subject, (ii) any withholding or deduction required pursuant to the FATCA Withholding Tax Rules and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code.

18.16 If the determination of any amount (whether in respect of principal, interest or otherwise) due in respect of the Notes on an Interest Payment Date, Instalment Date, early redemption date or the Maturity Date (such date a "**Scheduled Payment Date**") is calculated by reference to the valuation of one or more Reference Item(s) and the date (or final date, as the case may be) for such valuation is postponed or delayed as provided herein or in the applicable Issue Terms to a date (such date the "**Delayed Date**") falling less than two Business Days preceding such Scheduled Payment Date, notwithstanding any provision to the contrary herein or in the applicable Issue Terms, such Interest Payment Date, Instalment Date, early redemption date or the Maturity Date, as the case may be, shall be postponed to the day falling two Business Days following such Delayed Date and no interest or other amount shall be payable on the Notes in respect of such delay.

18.17 For the purposes of these Conditions (other than with respect to payments to be made on Swedish Notes, Norwegian Notes or Finnish Notes) "**Payment Date**" means:

- (i) a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in (A) in the case of Notes in definitive form only, the place of presentation of the relevant Note or, as the case may be, Coupon and (B) each Financial Centre (other than TARGET2) specified in the applicable Issue Terms;
- (ii) if TARGET2 is specified in the applicable Issue Terms as a relevant Financial Centre, a day (other than a Saturday or Sunday) which is a TARGET2 Business Day; and
- (iii) either (A) in the case of any currency other than euro or Renminbi, a day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) and foreign exchange markets settle payments in the principal financial of the country of the relevant Specified Currency (if other than the place of presentation and any Financial Centre and which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively); (B) in the case of payment in euro, a day (other than a Saturday or Sunday) which is a TARGET2 Business Day; or (C) in the case of payment in Renminbi, a day (other than a Saturday or Sunday) on which banks and foreign exchange markets are open for business and settlement of Renminbi payments in each Relevant Renminbi Settlement Centre.

18.17a In relation to payments to be made on Swedish Notes, Norwegian Notes and Finnish Notes, for the purposes of these Conditions, "**Payment Date**" means any day (other than a Saturday or a Sunday) on which commercial banks are generally open for business (including dealings in foreign exchange and foreign currency deposits) in Stockholm, Oslo or Helsinki, respectively.

18.18 No commissions or expenses shall be charged to the Holders of Notes or Coupons in respect of such payments.

18.19 If Alternative Currency Payment is specified as applicable in the applicable Issue Terms and the Issuer is due to make a payment in a currency (the “**original currency**”) other than Renminbi in respect of any Note, Coupon or Receipt and the original currency is not available on the foreign exchange markets due to the imposition of exchange controls, the original currency’s replacement or disuse or other circumstances beyond the Issuer’s control, the Issuer will be entitled to satisfy its obligations in respect of such payment by making payment in the Alternative Currency specified in the applicable Issue Terms on the basis of the spot exchange rate (the “**Alternative Currency FX Rate**”) at which the original currency is offered in exchange for the Alternative Currency in the London foreign exchange market (or, at the option of the Calculation Agent, in the foreign exchange market of any other financial centre which is then open for business) at noon, London time, two London Banking Days prior to the date on which payment is due or, if the Alternative Currency FX Rate is not available on that date, on the basis of a substitute exchange rate determined by the Calculation Agent acting in its absolute discretion from such source(s) and at such time as it may select. For the avoidance of doubt, the Alternative Currency FX Rate or substitute exchange rate as aforesaid may be such that the resulting Alternative Currency amount is zero and in such event no amount of the Alternative Currency or the original currency will be payable. Any payment made in the Alternative Currency or non-payment in accordance with this paragraph will not constitute an Event of Default under Condition 16.

18.20 Notwithstanding any other provision in these Conditions, if an Inconvertibility, Non-Transferability or Illiquidity occurs or if Renminbi is otherwise not available to the Issuer as a result of circumstances beyond its control and such unavailability has been confirmed by a Renminbi Dealer, acting in good faith and in a commercially reasonable manner, following which the Issuer is unable to satisfy payments of principal or interest (in whole or in part) in respect of RMB Notes, the Issuer on giving not less than five nor more than 30 days irrevocable notice to the Holders prior to the due date for payment, may settle any such payment (in whole or in part) in U.S. dollars on the due date at the U.S. dollars Equivalent of any such Renminbi denominated amount.

In such event, payments of the U.S. dollars Equivalent of the relevant principal or interest in respect of the Notes shall be made by transfer to the U.S. dollars account of the Relevant Account Holders for the benefit of the Holders. For the avoidance of doubt, no such payment of the U.S. dollars Equivalent shall by itself constitute a default in payment within the meaning of Condition 16.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 18.20 by the RMB Rate Calculation Agent, will (in the absence of manifest error) be binding on the Issuer, the Paying Agent and all Holders and (in the absence of manifest error) no liability to the Issuer, the Paying Agent and all Holders shall attach to the RMB Rate Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

The Issue and Paying Agency Agreement contains provisions for convening meetings (including by way of conference call or by use of a videoconference platform) of the Holders of Notes of any Series (other than Swedish Notes, Norwegian Notes or Finnish Notes) to consider any matter affecting their interest, including (without limitation) the modification by Extraordinary Resolution (as defined in the Issue and Paying Agency Agreement) of these Conditions insofar as the same may apply to such Notes. An Extraordinary Resolution passed by the Holders of Notes of any Series will be binding on all Holders of the Notes of such Series, whether or not

they are present at any meeting and whether or not they voted on the resolution, and on all Holders of Coupons relating to Notes of such Series.

The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority in principal amount of the Notes of the relevant Series for the time being outstanding, or at any adjourned meeting two or more persons holding or representing Holders of such Notes whatever the principal amount of the Notes so represented, unless the business of such meeting includes consideration of proposals, *inter alia*, to (i) amend the Maturity Date or other redemption date of the Notes, any date for payment of an Instalment Amount or any Interest Payment Date in respect of any Notes (ii) reduce or cancel the Outstanding Principal Amount or any Instalment Amount of, or any premium payable on redemption of, the Notes, (iii) reduce the Rates of Interest in respect of the Notes, Fixed Coupon Amounts or vary the manner in which the Rate(s) of Interest are to be determined, (iv) if a Minimum Rate of Interest and/or a Maximum Rate of Interest, Instalment Amount, or Redemption Amount is indicated in the Issue Terms, reduce any such minimum and/or maximum, (v) change any method of or basis for, calculating the Redemption Amount, including the method of or basis for, calculating the Amortised Face Amount, (vi) in the case of an Exempt Note subject to any applicable redenomination provisions specified in the Pricing Supplement, change the Specified Currency or Currencies of payment or Specified Denomination of the Notes, (vii) modify the provisions concerning the quorum required at any meeting of Holders of Notes or the majority required to pass an Extraordinary Resolution or (viii) modify or eliminate any of items (i) through (vii), inclusive above, in which case the necessary quorum shall be two or more persons holding or representing not less than seventy-five per cent., or at any adjourned meeting, not less than twenty-five per cent., in principal amount of the Notes for the time being outstanding.

In addition to Extraordinary Resolutions passed at meetings of the Holders of Notes, the Issue and Paying Agency Agreement provides that an Extraordinary Resolution may also be passed by either (i) a resolution in writing signed on behalf of the Holders of not less than seventy-five per cent. in principal amount of the Notes for the time being outstanding (whether such resolution in writing is contained in one document or several documents in the same form, each signed on behalf of one or more Holders) or (ii) approval of a resolution given by way of electronic consents through the relevant clearing system(s) by or on behalf of Holders of not less than seventy-five per cent. in principal amount of the Notes for the time being outstanding. The Issue and Paying Agency Agreement contains provisions for the purpose of determining whether any such written or electronic resolution has been validly passed.

The Issuer may without the consent of the Issuing and Paying Agent or the Holders of the Notes, make any modification to these Terms and Conditions (i) which is not materially prejudicial to the interests of the Holders of Notes, or (ii) to correct a manifest or proven error or an error that is of a formal, minor or technical nature, or to correct, cure or supplement any defective provision contained herein in respect of Notes. Subject as aforesaid, no other modification may be made to these Terms and Conditions except with the sanction of an Extraordinary Resolution adopted by the Holders.

Save as provided therein, the Issue and Paying Agency Agreement may be amended by agreement among the parties thereto and without the consent of any Holders of the Notes.

Notwithstanding anything in this Condition 22, the prior approval of the Superintendent is required to modify the terms of any Series of Bail-inable Securities where such modification may affect the eligibility of the Bail-inable Securities as TLAC under the guidelines for TLAC for banks in Canada.

22a. Meetings of Holders of Swedish Notes and Modification

The SEB Issuing and Paying Agent Agreement contains provisions in Appendix 5 (Provisions for Meetings of Holders of Swedish Securities) thereto for convening meetings of the Holders of Swedish Notes of any Series to consider any matter affecting their interest, including (without limitation) the modification by Extraordinary Resolution (as defined in the SEB Issuing and Paying Agent Agreement) of these Conditions insofar as the same may apply to such Swedish Notes. Copies of Appendix 5 will be available for inspection during normal business hours at the initial specified offices of the Swedish and Norwegian Issuing and Paying Agent and the Issuer, respectively and all persons from time to time entitled to the benefit of obligations under any Swedish Notes shall be deemed to have notice of, and shall be bound by, all of the provisions of Appendix 5 insofar as they relate to the relevant Swedish Notes.

An Extraordinary Resolution whether passed at any meeting of the Holders of Swedish Notes of any Series or passed as a Written Resolution (as defined in the SEB Issuing and Paying Agent Agreement) will be binding on all Holders of the Swedish Notes of the relevant Series, whether or not they are present at any meeting, and whether or not they voted on the resolution, and on all Holders of Coupons relating to Swedish Notes of such Series.

The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority in principal amount of the Swedish Notes of the relevant Series for the time being outstanding, or at any adjourned meeting two or more persons holding or representing Holders of such Swedish Notes whatever the principal amount of the Swedish Notes so represented, unless the business of such meeting includes consideration of proposals, *inter alia*, to (i) amend the Maturity Date or other redemption date of the Swedish Notes, any date for payment of an Instalment Amount or any Interest Payment Date in respect of any Swedish Notes (ii) reduce or cancel the Outstanding Principal Amount or any Instalment Amount of, or any premium payable on redemption of, the Swedish Notes, (iii) reduce the Rates of Interest in respect of the Swedish Notes, Fixed Coupon Amounts or vary the manner in which the Rate(s) of Interest are to be determined, (iv) if a Minimum Rate of Interest and/or a Maximum Rate of Interest, Instalment Amount, or Redemption Amount is indicated in the Issue Terms, reduce any such minimum and/or maximum, (v) change any method of or basis for, calculating the Redemption Amount, including the method of or basis for, calculating the Amortised Face Amount, (vi) in the case of an Exempt Note subject to any applicable redenomination provisions specified in the Pricing Supplement, change the Specified Currency or Currencies of payment or Specified Denomination of the Swedish Notes, (vii) modify the provisions concerning the quorum required at any meeting of Holders of Swedish Notes or the majority required to pass an Extraordinary Resolution or (viii) modify or eliminate any of items (i) through (vii), inclusive above, in which case the necessary quorum shall be two or more persons holding or representing not less than seventy-five per cent., or at any adjourned meeting, not less than twenty-five per cent., in principal amount of the Swedish Notes for the time being outstanding.

In addition to Extraordinary Resolutions passed at meetings of the Holders of Swedish Notes, the SEB Issuing and Paying Agent Agreement provides that an Extraordinary Resolution may also be passed by a resolution in writing (being a Written Resolution) signed on behalf of the Holders of not less than seventy-five per cent. in principal amount of the Swedish Notes for the time being outstanding (whether such resolution in writing is contained in one document or several documents in the same form, each signed on behalf of one or more Holders). The SEB Issuing and Paying Agent Agreement contains provisions for the purpose of determining whether a Written Resolution has been validly passed.

If the holder of Swedish Notes held through a nominee (an “**Indirect Swedish Securityholder**”) attends the meeting (in person or through a duly authorised agent) and shows a certificate from

the relevant nominee showing that such Indirect Swedish Securityholder on the fifth (5) Business Day prior to the meeting was a holder of Swedish Notes, the Indirect Swedish Securityholder shall be regarded a Holder of Swedish Notes for the purposes of this Condition 22a.

In connection with a meeting of Holders of Swedish Notes, the Swedish and Norwegian Issuing and Paying Agent shall have access to the Swedish Notes Register.

Save as provided therein, the SEB Issuing and Paying Agent Agreement may be amended by agreement among the parties thereto and without the consent of any Holders of the Swedish Notes.

Notwithstanding anything in this Condition 22a, the prior approval of the Superintendent is required to modify the terms of any Series of Bail-inable Securities where such modification may affect the eligibility of the Bail-inable Securities as TLAC under the guidelines for TLAC for banks in Canada.

22b. Meetings of Holders of Finnish Notes and Modification

The Issuer may, and upon a request in writing by Holders of Notes holding not less than one-tenth of the principal amount of the Notes for the time being outstanding of any Series, convene meetings of the Holders of Finnish Notes of any Series to consider any matter affecting their interest, including (without limitation) the modification by Extraordinary Resolution of these Conditions. At least twenty-one but no more than sixty days notice, specifying the day, time and place of the meeting shall be given to the Holders of Finnish Notes of the relevant Series. The notice shall be delivered to the Holders of the Finnish Notes in accordance with Condition 23.05 below and a copy of the notice shall be given to the Finnish Issuing and Paying Agent and Euroclear Finland. The notice shall specify the Meeting Record Date (as defined below) and record dates applicable to nominee registrations, instructions on how to participate in the meeting and the terms of the resolutions to be proposed.

Subject to the following sentence, only persons being Holders of Finnish Notes on the eighth Helsinki Banking Day prior to the meeting (the "**Meeting Record Date**") according to the Finnish Securities Register shall be entitled to attend and vote at the meeting. A beneficial holder of a Finnish Note held through a nominee in the Finnish Securities Register may vote in the meeting in person or by proxy instead of any such relevant Holder and in order to do so must be temporarily recorded as Holder of such Finnish Note in the Finnish Securities Register after the Meeting Record Date and at the latest on the fourth Helsinki Banking Day prior to the meeting. A Holder of Finnish Notes may by an instrument in writing in the English language signed by the Holder and delivered to the Issuer not later than 48 hours prior to the time for which such meeting or adjourned meeting is convened, appoint any person (a "**proxy**") to attend and act on it or its behalf in connection with any meeting or proposed meeting of the Holders of Finnish Notes. The Finnish Issuing and Paying Agent, the Issuer, Euroclear Finland and their respective financial and legal advisers shall be entitled to attend and speak at any meeting of the Holders of Finnish Notes.

A person nominated in writing by the Issuer shall be entitled to take the chair at every meeting, but if no such nomination is made or if at any meeting the person nominated shall not be present within thirty minutes after the time appointed for the holding of such meeting, the Holders of Finnish Notes present may appoint another such person to be chairman.

Subject as provided below, at any such meeting any two or more Holders of Finnish Notes of the relevant Series (or their proxies) present in person holding in the aggregate a clear majority in principal amount of the Finnish Notes of the relevant Series for the time being outstanding

shall form a quorum for the transaction of business. No business (other than the choosing of a chairman) shall be transacted at any meeting unless the requisite quorum be present at the commencement of business.

If within half an hour from the time appointed for any such meeting a quorum is not present the meeting shall, if convened upon the requisition of Holders of Finnish Notes, be dissolved. In any other case it shall stand adjourned for such period, not being less than fourteen days nor more than forty-two days, as may be decided by the chairman. Subject as provided below, at such adjourned meeting two or more Holders of Finnish Notes of the relevant Series (or their proxies), whatever the principal amount of the Finnish Notes so held or represented by them, shall form a quorum and shall have the power to pass any resolution and to decide upon all matters which could properly have been dealt with at the original meeting had a quorum been present at such meeting. At least ten days' notice of any meeting adjourned through want of a quorum shall be given in the same manner as of an original meeting and such notice shall state the quorum required at such adjourned meeting.

Every question submitted to a meeting shall be decided in the first instance by a show of hands and in case of equality of votes the chairman shall both on a show of hands and on a poll have a casting vote in addition to the vote or votes to which he may be entitled as a Holder of Finnish Notes or as a proxy.

At any meeting, unless a poll is (before or on the declaration of the result of the show of hands) demanded by the chairman or the Issuer or by any Holder(s) of Finnish Notes of the relevant Series (or their proxies) representing in the aggregate at least 2 per cent. of the principal amount of the Finnish Notes for the time being outstanding, a declaration by the chairman that a resolution has been carried or carried by a particular majority or lost or not carried by any particular majority shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against such resolution. If at any meeting a poll is demanded, it shall be taken in such manner and (subject as hereinafter provided) either at once or after such an adjournment as the chairman directs and the result of such poll shall be deemed to be the resolution of the meeting at which the poll was demanded as at the date of the taking of the poll. The demand for a poll shall not prevent the continuance of the meeting for the transaction of any business other than the question on which the poll has been demanded. Any poll demanded at any meeting on the election of a chairman or on any question of adjournment shall be taken at the meeting without adjournment.

At any such meeting (a) on a show of hands every person who is present in person and who is a Holder of Finnish Notes of the relevant Series or a proxy shall have one vote and (b) on a poll every person who is so present shall have one vote in respect of each outstanding principal amount of the Finnish Notes equal to the Calculation Amount of such Series of Finnish Notes so produced or represented or in respect of which he is a proxy. Without prejudice to the obligations of the proxies named in any form of proxy, any person entitled to more than one vote need not use all its votes or cast all the votes to which he is entitled in the same way.

Save as provided therein, the Finnish Issuing and Paying Agent Agreement may be amended by agreement among the parties thereto and without the consent of any Holders of the Finnish Notes.

Notwithstanding anything in this Condition 22b, the prior approval of the Superintendent is required to modify the terms of any Series of Bail-inable Securities where such modification may affect the eligibility of the Bail-inable Securities as TLAC under the guidelines for TLAC for banks in Canada.

22c. Meetings of Holders of Norwegian Notes and Modification

In relation to the Norwegian Notes, meetings of Holders of Norwegian Notes shall be held in accordance with the SEB Issuing and Paying Agent Agreement and the rules, regulations and procedures applicable to, and/or issued by, the VPS. The SEB Issuing and Paying Agent Agreement contains provisions in Appendix 6 (Provisions for Meetings of Holders of Norwegian Securities) thereto for convening meetings of the Holders of Norwegian Notes of any Series to consider any matter affecting their interest, including (without limitation) the modification by Extraordinary Resolution (as defined in the SEB Issuing and Paying Agent Agreement) of these Conditions insofar as the same may apply to such Norwegian Notes. Copies of Appendix 6 will be available for inspection during normal business hours at the initial specified offices of the Swedish and Norwegian Issuing and Paying Agent and the Issuer, respectively and all persons from time to time entitled to the benefit of obligations under any Norwegian Notes shall be deemed to have notice of, and shall be bound by, all of the provisions of Appendix 6 insofar as they relate to the relevant Norwegian Notes.

An Extraordinary Resolution whether passed at any meeting of the Holders of Norwegian Notes of any Series or passed as a Written Resolution (as defined in the SEB Issuing and Paying Agent Agreement) will be binding on all Holders of the Norwegian Notes of the relevant Series, whether or not they are present at any meeting, and whether or not they voted on the resolution, and on all Holders of Coupons relating to Norwegian Notes of such Series.

The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority in principal amount of the Norwegian Notes of the relevant Series for the time being outstanding, or at any adjourned meeting two or

more persons holding or representing Holders of such Norwegian Notes whatever the principal amount of the Norwegian Notes so represented, unless the business of such meeting includes consideration of proposals, *inter alia*, to (i) amend the Maturity Date or other redemption date of the Norwegian Notes, any date for payment of an Instalment Amount or any Interest Payment Date in respect of any Norwegian Notes (ii) reduce or cancel the Outstanding Principal Amount or any Instalment Amount of, or any premium payable on redemption of, the Norwegian Notes, (iii) reduce the Rates of Interest in respect of the Norwegian Notes, Fixed Coupon Amounts or vary the manner in which the Rate(s) of Interest are to be determined, (iv) if a Minimum Rate of Interest and/or a Maximum Rate of Interest, Instalment Amount, or Redemption Amount is indicated in the Issue Terms, reduce any such minimum and/or maximum, (v) change any method of or basis for, calculating the Redemption Amount, including the method of or basis for, calculating the Amortised Face Amount, (vi) in the case of an Exempt Note subject to any applicable redenomination provisions specified in the Pricing Supplement, change the Specified Currency or Currencies of payment or Specified Denomination of the Norwegian Notes, (vii) modify the provisions concerning the quorum required at any meeting of Holders of Norwegian Notes or the majority required to pass an Extraordinary Resolution or (viii) modify or eliminate any of items (i) through (vii), inclusive above, in which case the necessary quorum shall be two or more persons holding or representing not less than seventy-five per cent., or at any adjourned meeting, not less than twenty-five per cent., in principal amount of the Norwegian Notes for the time being outstanding.

In addition to Extraordinary Resolutions passed at meetings of the Holders of Norwegian Notes, the SEB Issuing and Paying Agent Agreement provides that an Extraordinary Resolution may also be passed by a resolution in writing (being a Written Resolution) signed on behalf of the Holders of not less than seventy-five per cent. in principal amount of the Norwegian Notes for the time being outstanding (whether such resolution in writing is contained in one document or several documents in the same form, each signed on behalf of one or more Holders). The SEB Issuing and Paying Agent Agreement contains provisions for the purpose of determining whether a Written Resolution has been validly passed.

For the purposes of a meeting of the Holders of Norwegian Notes, the person named in the certificate from the VPS shall be treated as the Holder specified in such certificate provided that he has given an undertaking not to transfer the relevant Norwegian Notes so specified prior to the close of meeting. If the holder of Norwegian Notes held through a nominee in accordance with the rules and regulations applicable to, and/or issued by, the VPS (an “**Indirect Norwegian Securityholder**”) attends the meeting (in person or through a duly authorised agent) and shows a certificate from the relevant nominee showing that such Indirect Norwegian Securityholder on the fifth (5) Banking Day prior to the meeting was a holder of Norwegian Notes, the Indirect Norwegian Securityholder shall be regarded a Holder of Norwegian Notes for the purposes of this Condition 22c.

In connection with a meeting of Holders of Norwegian Notes, the Swedish and Norwegian Issuing and Paying Agent shall have access to the Norwegian Notes Register.

Save as provided therein, the SEB Issuing and Paying Agent Agreement may be amended by agreement among the parties thereto and without the consent of any Holders of the Norwegian Notes.

Notwithstanding anything in this Condition 22c, the prior approval of the Superintendent is required to modify the terms of any Series of Bail-inable Securities where such modification may affect the eligibility of the Bail-inable Securities as TLAC under the guidelines for TLAC for banks in Canada.

Any notice so given will be deemed to have been validly given on the date of first such publication (or, if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers) or, as the case may be, on the fourth weekday after the date of such delivery to Euroclear and Clearstream, Luxembourg and/or such other clearing system. 23.03 Notices to be given by any Holder shall be in writing and given by lodging the same, together with the relevant Note or Notes, with the Issuing and Paying Agent or the Registrar (as applicable). While any of the Notes are represented by a Global Note, such notice may be given by any Holder to the Issuing and Paying Agent or the Registrar (as applicable) through Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Issuing and Paying Agent or the Registrar and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

Any such notice shall be deemed to have been given, if sent by mail to the Holder, on the fourth Business Day following the day the notice was sent by mail.

24. Further Issues

The Issuer may from time to time, without the consent of the Holders of any Notes or Coupons, create and issue further Notes, bonds or debentures having the same terms and conditions as such Notes in all respects (or in all respects except for the first payment of interest, if any, on them and the date from which interest starts to accrue and/or the Specified Denomination thereof) so as to form a single series with the Notes of any particular Series.

25. Currency Indemnity

Subject to Condition 18.19 and Condition 18.20, the currency in which the Notes are denominated or, if different, payable, as specified in the Issue Terms (the “**Contractual Currency**”), is the sole currency of account and payment for all sums payable by the Issuer in respect of the Notes, including damages. Any amount received or recovered in a currency other than the Contractual Currency (whether as a result of, or of the enforcement of, a judgement or order of a court of any jurisdiction or otherwise) by any Holder of a Note or Coupon in respect of any sum expressed to be due to it from the Issuer shall only constitute a discharge to the Issuer to the extent of the amount in the Contractual Currency which such Holder is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first day on which it is practicable to do so). If that amount is less than the amount in the Contractual Currency expressed to be due to any Holder of a Note or Coupon in respect of such Note or Coupon the Issuer shall indemnify such Holder against any loss sustained by such Holder as a result. In any event, the Issuer shall indemnify each such Holder against any cost of making such purchase which is reasonably incurred. These indemnities constitute a separate and

independent obligation from the Issuer's other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Holder of a Note or Coupon and shall continue in full force and effect despite any judgement, order, claim or proof for a liquidated amount in respect of any sum due in respect of the Notes or any judgement or order. Any such loss aforesaid shall be deemed to constitute a loss suffered by the relevant Holder of a Note or Coupon and no proof or evidence of any actual loss will be required by the Issuer.

26. Waiver and Remedies

No failure to exercise, and no delay in exercising, on the part of the Holder of any Note, any right hereunder shall operate as a waiver thereof nor shall any single or partial exercise thereof preclude any other or future exercise thereof or the exercise of any other right. Rights hereunder shall be in addition to all other rights provided by law. No notice or demand given in any case shall constitute a waiver of rights to take other action in the same, similar or other instances without such notice or demand.

27. Waiver of set-off and netting rights

No Holder or beneficial owner of an interest in the Bail-inable Securities may exercise, or direct the exercise, claim or plead any right of set-off, netting, compensation or retention in respect of any amount owed to it by the Issuer arising under, or in connection with, the Bail-inable Securities, and each Holder or beneficial owner of an interest in the Bail-inable Securities shall, by virtue of its acquisition of any Bail-inable Security (or an interest therein), be deemed to have irrevocably and unconditionally waived all such rights of set-off, netting, compensation or retention. Notwithstanding the foregoing, if any amounts due and payable to any Holder or beneficial owner of an interest in the Bail-inable Securities by the Issuer in respect of, or arising under, the Bail-inable Securities are purportedly discharged by set-off, netting, compensation or retention, without limitation to any other rights and remedies of the Issuer under applicable law, such Holder or beneficial owner of an interest in the Bail-inable Securities shall be deemed to receive an amount equal to the amount of such discharge and, until such time as payment of such amount is made, shall hold such amount in trust for the Issuer and, accordingly, any such discharge shall be deemed not to have taken place and such set-off, netting, compensation or retention shall be ineffective.

28. Branch of Account

28.01 For the purposes of the *Bank Act* (Canada) the branch of the Bank set out in the applicable Issue Terms shall be the branch of account (the "**Branch of Account**") for the deposit liabilities under the *Bank Act* (Canada) evidenced by this Note. If not specified in the applicable Issue Terms, the Branch of Account will be the main branch of the Issuer in Toronto. Notes issued by a Branch of Account are obligations of the Bank.

28.02 Notes will be paid without the necessity of first being presented for payment at the Branch of Account.

28.03 If the Branch of Account is not in Canada, the Bank may change the Branch of Account for the deposit liabilities under the *Bank Act* (Canada) evidenced by the relevant Note, upon not less than seven days' prior notice to the Holder given in accordance with Condition 23 and upon and subject to the following terms and conditions:

- (i) if the Note is denominated in Yen, the Branch of Account or Branch, as the case may be, shall not be in Japan;

- (ii) the Issuer shall indemnify and hold harmless the holders of the Notes, Receipts and Coupons relating thereto against any tax, duty, assessment or governmental charge which is imposed or levied upon such holder as a consequence of such change, and shall pay the reasonable costs and expenses of the Issuing and Paying Agent in connection with such change;
- (iii) notwithstanding (ii) above, no change of the Branch of Account may be made unless immediately after giving effect to such change (a) no Event of Default, and no event which, after the giving of notice or lapse of time or both, would become an Event of Default shall have occurred and be continuing and (b) payments of principal, interest or other amounts on Notes of this Series, Coupons and Receipts relating thereto to holders thereof (other than Excluded Holders, as hereinafter defined) shall not, in the opinion of counsel to the Issuer, be subject to any taxes, as hereinafter defined, to which they would not have been subject had such change not taken place. For the purposes of this section, an “**Excluded Holder**” means a holder of a Note of this Series, Coupon or Receipts relating thereto who is subject to taxes by reason of its having some connection with the Relevant Jurisdiction other than the mere holding of a Note of this Series, Coupon or Receipts as a non- resident of such Relevant Jurisdiction. “**Relevant Jurisdiction**” means Canada, its provinces or territories and the jurisdiction in which the new Branch of Account is located, and “**taxes**” means any tax, duty, assessment or other governmental charge imposed or levied in respect of the payment of the principal of the Notes of this Series or interest thereon for or on behalf of a Relevant Jurisdiction or any authority therein or thereof having power to tax; and
- (iv) in the case of Bail-inable Securities, if the change is to another Branch of Account outside of Canada, prior approval of the Superintendent shall be required.

29. Contracts (Rights of Third Parties) Act 1999

No person shall have any rights to enforce any Condition of any Notes governed by English law under the *Contracts (Rights of Third Parties) Act 1999*, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

30. Law and Jurisdiction

30.01 The Issue and Paying Agency Agreement and, unless otherwise specified in the applicable Issue Terms and subject to Condition 30.03, the Notes and Receipts, Coupons and Talons related thereto are governed by and shall be construed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.

30.02 In the case of Notes other than Swedish Notes, Norwegian Notes and Finnish Notes, if specified in the applicable Issue Terms, the Notes, the Receipts, the Coupons and the Talons and any non-contractual obligations arising out of or in connection with such Notes, Receipt, Coupons and Talons shall be governed by, and shall be construed in accordance with, English law, except as provided in Conditions 3.02 and 30.04.

30.04b Subject to Condition 30.04, to the extent allowed by law, each of the Holder of such Notes, Receipts, Coupons or Talons and the Issuer may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction; and (ii) concurrent proceedings in any number of jurisdictions.

30.04c The Issuer irrevocably agrees that service of process in any such proceedings in England in relation to any Dispute shall be deemed completed on delivery to its London branch at 100 Bishopsgate, London EC2N 4AA, England (whether or not it is forwarded to and received by the Issuer). If for any reason such branch ceases to be able to act as such or no longer has an address in London, the Issuer irrevocably agrees to appoint another person as its agent for service of process in England in respect of any Dispute and shall immediately notify Holders of such appointment in accordance with Condition 23. - (ii) each New Share will constitute a Share comprised in the Reference Portfolio with a Target Weight of the relevant New Target Weight and in a number of shares equal to the Rebalancing Number of Shares in respect of such Share and the relevant Rebalancing Adjustment Effective Date; and

If any such Rebalancing Adjustment Effective Date is also a Dividend Rebalancing Date, the provisions of Condition 34.03(B) below will first apply on such date and then the provisions of this Condition 34.03(A) will apply on such date.

No Proposed Rebalancing Notice may be given following a Rebalancing and Advisory Entity Event.

For the avoidance of doubt, if any such Dividend Rebalancing Date is also a Rebalancing Adjustment Effective Date, the provisions of this Condition 34.03(B) will first apply on such date and then the provisions of Condition 34.03(A) above will apply on such date.

Details of any such adjustment will be provided to a Holder upon request to the Calculation Agent at the Calculation Agent Notice Details (provided that such Holder produces evidence satisfactory to the Calculation Agent as to its holding of Notes and identity).

- (i) If Potential Adjustment Events are specified as applicable in the applicable Issue Terms, then following the declaration by a Share Issuer of a Share comprised in the Reference Portfolio of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting, concentrative or other effect on the theoretical value of the relevant Share and, if so, the Issuer shall:
- (A) (1) require the Calculation Agent to make the corresponding adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (2) determine the effective date of that adjustment;

- (B) determine that the relevant Share be removed from the Reference Portfolio, in which case a "Rebalancing" will be deemed to occur pursuant to Condition 34.03, for which purposes (1) the relevant Share will be a Removed Share, (2) the Revised Target Weight for each remaining existing Share comprised in the Reference Portfolio will be equal to the Weight of such Share immediately prior to the Rebalancing, adjusted by a percentage representing the exposure of the Reference Portfolio to the Removed Share immediately prior to the Rebalancing shared equally across all such Shares, all as determined by the Calculation Agent, (3) the Calculation Agent will make any further adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as it determines appropriate to account for the deemed Rebalancing and adjustment to the Reference Portfolio and (4) the Rebalancing Adjustment Effective Date will be such date as determined by the Calculation Agent; or

 - (A) require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the terms of these Conditions and/or the applicable Issue Terms to account for the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment;

- (B) determine that the relevant Share be removed from the Reference Portfolio, in which case a "Rebalancing" will be deemed to occur pursuant to Condition 34.03, for which purposes (1) the relevant Share will be a Removed Share, (2) the Revised Target Weight for each remaining existing Share comprised in the Reference Portfolio will be equal to the Weight of such Share immediately prior to the Rebalancing, adjusted by a percentage representing the exposure of the Reference Portfolio to the Removed Share immediately prior to the Rebalancing shared equally across all such Shares, all as determined by the Calculation Agent, (3) the Calculation Agent will make any further adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as it determines appropriate to account for the deemed Rebalancing and adjustment to the Reference Portfolio and (4) the Rebalancing Adjustment Effective Date will be such date as determined by the Calculation Agent; or
- (C) after giving notice to the Holders in accordance with Condition 23, redeem all, but not some only, of the Notes, each principal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount.

Upon the occurrence (if applicable) of a De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 23 stating the occurrence of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto provided that failure to give, or non-receipt of, such notice will not affect the validity of such action.

 - (A) require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the terms of these Conditions and/or the applicable Issue Terms to account for the Additional Disruption Event and determine the effective date of that adjustment;
 - (B) determine that the relevant Share be removed from the Reference Portfolio, in which case a "Rebalancing" will be deemed to occur pursuant to Condition 34.03, for which purposes (1) the relevant Share will be a Removed Share, (2) the Revised Target Weight for each remaining existing Share comprised in the Reference Portfolio will be equal to the Weight of such Share immediately prior to the Rebalancing, adjusted by a percentage representing the exposure of the Reference Portfolio to the Removed Share immediately prior to the Rebalancing shared equally across all such Shares, all as determined

by the Calculation Agent, (3) the Calculation Agent will make any further adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as it determines appropriate to account for the deemed Rebalancing and adjustment to the Reference Portfolio and (4) the Rebalancing Adjustment Effective Date will be such date as determined by the Calculation Agent; or

The Calculation Agent will make any conversion necessary for purposes of any such adjustment as of the

relevant Valuation Time at the official conversion rate, if any, or an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the relevant Valuation Time. No adjustments under this Condition 34.04(v) will affect the currency denomination of any payment obligation arising out of the Notes.

- (B) the Issuer may give notice to the Holders in accordance with Condition 23 and redeem each principal amount of Notes equal to the Calculation Amount at the Early Redemption Amount plus interest (if any) accrued to the date fixed for early redemption, such amount to be paid on the date specified in the notice of redemption.

References in these Terms and Conditions (the “**Terms and Conditions**” or the “**Conditions**”) to W&C Securities are to W&C Securities of the relevant Series and include the relevant Global W&C Security.

Each Tranche of Non-Exempt W&C Securities will be the subject of Final Terms (each, “**Final Terms**”), a copy of which will be available free of charge during normal business hours at the specified office of the Issuing and Paying Agent and each other Paying Agent. If the W&C Securities are to be admitted to trading on the regulated market of the Irish Stock Exchange plc trading as Euronext Dublin (“**Euronext Dublin**”) the applicable Final Terms will be published on the website of Euronext Dublin. If the Exempt W&C Securities are to be admitted to listing on the official list of the Luxembourg Stock Exchange and to trading on the Luxembourg Stock Exchange’s Euro MTF Market (the “**Euro MTF**”) or the professional segment of the Euro MTF, the applicable Pricing Supplement will be available for viewing at www.bourse.lu. Each Tranche of Exempt W&C Securities will be the subject of a Pricing Supplement (each, a “**Pricing Supplement**”), a copy of which will be available free of charge during normal business hours at the specified office of the Issuing and Paying Agent and/or, as the case may be, the applicable Registrar and each other Paying Agent only by a Holder of such W&C Securities. For the purposes hereof, “**applicable Issue Terms**” means either (i) where the W&C Securities are Non-Exempt W&C Securities, the applicable Final Terms or (ii) where the W&C Securities are Exempt W&C Securities, the applicable Pricing Supplement, and should be construed accordingly.

If the W&C Securities are the subject of a public offer in Switzerland (“**Swiss Non-Exempt W&C Securities**”), notwithstanding anything to the contrary herein if such W&C Securities are not also Non-Exempt W&C Securities, the W&C Securities will be the subject of Final Terms and will be treated as Non-Exempt W&C Securities and not Exempt W&C Securities for the purposes of these Conditions and in each case references herein will be construed accordingly.

The applicable Issue Terms for W&C Securities supplement these Conditions and, in the case of a W&C Security which is neither admitted to trading on a regulated market in the European Economic Area nor offered in the European Economic Area in circumstances where a prospectus is required to be published under the Prospectus Regulation (an “**Exempt W&C Security**”), the applicable Pricing Supplement, may specify other terms and conditions which shall to the extent so specified or to the extent that it is inconsistent with these Conditions, replace or modify these Conditions for the purposes of the W&C Securities.

The expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129, as amended. Any references to a "**Non-Exempt W&C Security**" are to a W&C Security that is not an Exempt W&C Security.

Royal Bank of Canada, London branch shall undertake the duties of calculation agent (the "**Calculation Agent**", which expression shall include any successor calculation agent) in respect of the W&C Securities unless another entity is so specified as Calculation Agent in the applicable Issue Terms in which case the expression Calculation Agent shall, in relation to such W&C Securities, be such other specified Calculation Agent.

1. Form, Type, Title and Transfer

Type

1.01 The W&C Securities are either redeemable certificates ("**Redeemable Certificates**"), exercisable certificates ("**Exercisable Certificates**") or warrants ("**Warrants**") as specified in the applicable Issue Terms.

In the case of Non-Exempt W&C Securities, the W&C Securities relate to an index or basket of indices ("**Index Linked W&C Securities**"), a specified currency or basket of currencies ("**Currency Linked W&C Securities**"), a single fund or a basket of funds ("**Fund Linked W&C Securities**"), a commodity or commodity index or a basket of commodities or commodity indices ("**Commodity Linked W&C Securities**"), a single equity security or a basket of equity securities ("**Equity Linked W&C Securities**") or, in the case of Warrants, an interest rate ("**Interest Rate Linked Warrants**") or, in the case of Redeemable Certificates, a dynamic notional basket of shares ("**Actively Managed Basket Linked Certificates**") or a combination of any of the foregoing specified in the applicable Final Terms.

In the case of Exempt W&C Securities, the W&C Securities may be Index Linked W&C Securities, Currency Linked W&C Securities, Fund Linked W&C Securities, Commodity Linked W&C Securities, Equity Linked W&C Securities, Interest Rate Linked Warrants, Actively Managed Basket Linked Certificates or a combination of any of the foregoing or any other kind of W&C Security specified in the applicable Pricing Supplement.

A W&C Security may be a Cash Settled W&C Security or a Physical Delivery W&C Security (as defined below).

In these Terms and Conditions, any item noted above by reference to which the W&C Security is linked shall be referred to as a "**Reference Item**".

1.02 The applicable Issue Terms will indicate whether settlement will be by way of cash payment ("**Cash Settled W&C Securities**") or physical delivery ("**Physical Delivery W&C Securities**") and whether averaging ("**Averaging**") will apply to the W&C Securities. Finnish W&C Securities, Swedish W&C Securities and Norwegian W&C Securities shall always be Cash Settled W&C Securities.

If Averaging is specified as applying in the applicable Issue Terms, the applicable Issue Terms will state the relevant Averaging Dates and, in respect of Index Linked W&C Securities, Equity Linked W&C Securities and Fund Linked W&C Securities, if an Averaging Date is a Disrupted Day, whether Omission, Postponement or Modified Postponement applies.

References in these Terms and Conditions, unless the context otherwise requires, to Cash Settled W&C Securities which are Exempt W&C Securities shall be deemed to include references to Physical Delivery W&C Securities, which include an option (as set out in the applicable Pricing Supplement) at the Issuer's election to request cash settlement of such W&C

Security and where settlement is to be by way of cash payment, and references in these Terms and Conditions, unless the context otherwise requires, to Physical Delivery W&C Securities which are Exempt W&C Securities shall be deemed to include references to Cash Settled W&C Securities which include an option (as set out in the applicable Pricing Terms) at the Issuer's election to request physical delivery of the relevant underlying asset in settlement of such W&C Security and where settlement is to be by way of physical delivery.

W&C Securities may, if so specified and provided for in the applicable Issue Terms, allow Holders to elect for settlement by way of cash payment or by way of physical delivery. Those W&C Securities where the Holder has elected for cash payment will be Cash Settled W&C Securities and those W&C Securities where the Holder has elected for physical delivery will be Physical Delivery W&C Securities. The rights of a Holder as described in this paragraph may be subject to the Issuer's right to vary settlement if so indicated in the applicable Issue Terms.

Form of W&C Securities

1.03 The Issue Terms shall specify whether either U.S. Treasury Regulation § 1.163-5(c)(2)(i)(D) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the United States Hiring Incentives to Restore Employment Act 2010) (the "**TEFRA D Rules**") or U.S. Treasury Regulation § 1.163-5(c)(2)(i)(C) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the United States Hiring Incentives to Restore Employment Act 2010) (the "**TEFRA C Rules**") will apply or whether the TEFRA rules are not applicable. Each Tranche of W&C Securities with an original maturity of more than one year is represented upon issue by a temporary global W&C Security (a "**Temporary Global W&C Security**"), unless the Issue Terms specify otherwise, in particular, when the TEFRA C Rules apply.

Where the applicable Issue Terms so specify or where a Tranche of W&C Securities has an original maturity of one year or less, such Tranche is (unless otherwise specified in the Issue Terms) represented upon issue by a permanent global W&C Security (a "**Permanent Global W&C Security**") and, together with the Temporary Global W&C Security, the "**Global W&C Securities**" and each a "**Global W&C Security**").

Subject to any applicable laws, definitive W&C Securities will not be issued. In the event that any W&C Securities in definitive form are required by applicable laws to be issued in exchange for interests in the Global W&C Security, the Issuer shall then determine their form as well as any necessary technical changes required to these Terms and Conditions in consultation with the Issuing and Paying Agent.

On or after the Exchange Date (as specified in the Issue Terms), interests in such Temporary Global W&C Security will be exchangeable for a Permanent Global W&C Security, only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such W&C Security are not United States persons or persons who have purchased for resale to any United States person, as required by U.S. Treasury Regulations, has been received by the relevant Clearing Systems and the relevant Clearing Systems have given a like certification (based on the certification received) to the Issuing and Paying Agent.

The Holder of a Temporary Global W&C Security shall not (unless, upon due presentation of such Temporary Global W&C Security for exchange (in whole but not in part only) for a Permanent Global W&C Security, such exchange is improperly withheld or refused and such withholding or refusal is continuing at the relevant payment date) to be entitled to any payment in respect of the W&C Securities represented by each Temporary Global W&C Security which

falls due on or after the Exchange Date or be entitled to exercise any option on a date after the Exchange Date.

Unless the Issue Terms specify that TEFRA C Rules are applicable to the W&C Securities and subject to the preceding paragraph, if any date on which a payment of Additional Amounts is due on the W&C Securities of a Tranche occurs while any W&C Securities of that Tranche are represented by a Temporary Global W&C Security, the related Additional Amount payable will be made on the Temporary Global W&C Security only to the extent that certification as to the beneficial ownership thereof as required by U.S. Treasury Regulations (in the form to be provided), had been received by the relevant Clearing Systems and the relevant Clearing Systems have given a like certification (based on the certification received) to the Issuing and Paying Agent.

2.01 W&C Securities constitute legal, valid and binding direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* without any preference among themselves and at least *pari passu* with all other present and future unsubordinated and unsecured obligations of the Issuer (including its deposit liabilities), except as otherwise prescribed by law and subject to the exercise of bank resolution powers.

W&C Securities which are Bail-inable Securities

2.02 This Condition 2.02 will apply in respect of all W&C Securities issued by the Issuer that are identified as Bail-inable Securities in the applicable Issue Terms ("**Bail-inable Securities**"). All W&C Securities that (i) have an original or amended term to redemption, exercise or expiration, as applicable, of more than 400 days, have one or more explicit or embedded options, that if exercised by or on behalf of the Issuer, could result in a redemption, exercise or expiration date, as applicable, that is more than 400 days from the date of issuance of the W&C Securities or that have an explicit or embedded option that, if exercised by or on behalf of the Holder, could by itself result in a redemption, exercise or expiration date, as applicable, that is more than 400 days from the redemption, exercise or expiration date, as applicable, that would apply if the option were not exercised; and (ii) are not otherwise excluded, for example as structured notes (as such term is used under the Canadian bank recapitalization regime for banks designated by the Superintendent of Financial Institutions (Canada) (the "**Superintendent**") as domestic systemically important banks (the "**Bail-in Regime**")), under the Bail-in Regime, will be identified as Bail-inable Securities in the applicable Issue Terms. W&C Securities that constitute structured notes (as such term is used under the Bail-in Regime) or are otherwise excluded under the Bail-in Regime will not be identified as Bail-inable Securities in the applicable Issue Terms.

By its acquisition of an interest in Bail-inable Securities, each Holder (which, for the purposes of this Condition 2.02, includes each holder of a beneficial interest in such Bail-inable Securities) is deemed to:

- (i) agree to be bound, in respect of such Bail-inable Securities, by the Canada Deposit Insurance Corporation Act (Canada) (the "**CDIC Act**"), including the conversion of the Bail-inable Securities, in whole or in part – by means of a transaction or series of transactions and in one or more steps – into common shares of the Issuer or any of its affiliates under subsection 39.2(2.3) of the CDIC Act and the variation or extinguishment of the Bail-inable Securities in consequence, and by the application of the laws of the Province of Ontario and the federal laws of Canada applicable therein in respect of the operation of the CDIC Act with respect to such Bail-inable Securities (a "**Bail-in Conversion**");
- (ii) attorn to the jurisdiction of the courts in the Province of Ontario in Canada with respect to the CDIC Act and the laws of the Province of Ontario and the federal laws of Canada applicable therein in respect of the operation of the CDIC Act with respect to the Bail-inable Securities;
- (iii) have represented and warranted to the Issuer that the Issuer has not directly or indirectly provided financing to the Holder of the Bail-inable Securities for the express purpose of investing in Bail-inable Securities; and
- (iv) acknowledge and agree that the terms referred to in paragraphs (i) and (ii), of this Condition 2.02, are binding on such Holder despite any provisions in these Conditions, any other law that governs such Bail-inable Securities and any other agreement, arrangement or understanding between such Holder and the Issuer with respect to such Bail-inable Securities.

The applicable Issue Terms will indicate whether W&C Securities are Bail-inable Securities. All Bail-inable Securities are subject to Bail-in Conversion.

Each Holder of the Bail-inable Securities that acquires an interest in the Bail-inable Securities in the secondary market and any successors, assigns, heirs, executors, administrators, trustees in bankruptcy and legal representatives of any such Holder shall be deemed to acknowledge, accept, agree to be bound by and consent to the same provisions specified herein to the same extent as the Holders that acquire an interest in the Bail-inable Securities upon their initial issuance, including, without limitation, with respect to the terms of the Bail-inable Securities related to the Bail-in Regime.

Settlement Disruption

4.02 If, prior to the delivery of the Entitlement in accordance with the Conditions, a Settlement Disruption Event is subsisting, then the Settlement Date or Redemption Date, as the case may be, for the relevant W&C Securities shall be postponed to the first following

Settlement Business Day in respect of which there is no such Settlement Disruption Event. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Settlement Date or Redemption Date, as the case may be, for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Settlement Date or Redemption Date, as the case may be. In the case of Warrants, in the event that a Settlement Disruption Event will result in the delivery on a Settlement Date of some but not all of the Relevant Assets comprising the Entitlement, the Calculation Agent shall determine in its discretion the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Holder in respect of that partial settlement. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy and discharge its obligations in respect of the relevant W&C Securities or Units, as the case may be, by payment to the relevant Holder of the Disruption Cash Settlement Price (as defined below) on the third Business Day following the date that notice of such election is given to the Holders in accordance with Condition 11. 4.03 If **“Failure to Deliver due to Illiquidity”** is specified as applicable in the applicable Issue Terms and, following exercise or upon redemption of Physical Delivery W&C Securities, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the **“Affected Relevant Assets”**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **“Failure to Deliver due to Illiquidity”**), then:

- (a) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Settlement Date or Redemption Date, as the case may be and (in the case of Warrants) the Calculation Agent shall determine in its discretion the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Holder in respect of that partial settlement; and
- (b) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant W&C Securities or Unit, as the case may be, by payment to the relevant Holder of the Failure to Deliver Settlement Price (as defined below) on the fifth Business Day following the date that notice of such election is given to the Holders in accordance with Condition 11. The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with Condition 11 that the provisions of this Condition 4.03 apply.

For the purposes hereof:

“Failure to Deliver Settlement Price” means, in respect of any relevant W&C Security or Unit, as the case may be, the fair market value of such W&C Security or Unit, as the case may be (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion plus (in the case of Warrants), if already paid, the Exercise Price (or, where as provided above some Relevant Assets have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion).

Notification of such election will be given to Holders no later than 10.00 a.m. (London time) on the second Business Day following the Actual Exercise Date (in the case of Exercisable Certificates or Warrants) or the second Business Day immediately preceding the Redemption Date (in the case of Redeemable Certificates).

General provisions relating to Settlement

4.05 None of the Issuer, the Calculation Agent or the Issuing and Paying Agent shall have any responsibility for any errors or omissions in the calculation of any Cash Settlement Amount or of any Entitlement.

The applicable Issue Terms contain provisions applicable to such event and must be read in conjunction with this Condition 5.01 for full information. In particular, the applicable Issue Terms will identify the applicable notice periods.

5.01 If the Issuer determines in good faith that the performance of its obligations under the W&C Securities or that any arrangements made to hedge the Issuer's obligations under the W&C Securities have become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any applicable present or future law, rule, regulation, judgement, order or directive of any governmental, administrative, legislative or judicial authority or power, or the interpretation thereof, the Issuer having given not less than the minimum period and not more than the maximum period of notice specified in the applicable Issue Terms to Holders in accordance with Condition 11 may, on expiry of such notice, cancel (in the case of Exercisable Certificates or Warrants) or redeem (in the case of Redeemable Certificates) the W&C Securities, provided that in respect of Bail-inable Securities where such cancellation or redemption, as applicable, would lead to a breach of the Issuer's minimum total loss absorbing capacity ("**TLAC**") requirements, such cancellation or redemption will be subject to the prior approval of the Superintendent.

Should any one or more of the provisions contained in these Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer cancels (in the case of Exercisable Certificates or Warrants) or redeems (in the case of Redeemable Certificates) the W&C Securities then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Holder in respect of each W&C Security or each Unit, as the case may be, held by such Holder, which amount shall be (i) other than in the case of an Actively Managed Basket Linked Certificate, the fair market value of a W&C Security or Unit, as the case may be, notwithstanding such illegality, together with accrued Additional Amounts (if applicable), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus (in the case of Warrants), if already paid, by or on behalf of the Holder, the Exercise Price, or (ii) in the case of an Actively Managed Basket Linked Certificate, calculated on the same basis as the Cash Settlement Amount, except for the purposes of such calculation the Specified Valuation Date shall be deemed to be the Early Redemption Valuation Date, in each case all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Holders in accordance with Condition 11.

Early Cancellation for Taxation Reasons

This Condition 5.02 applies to W&C Securities which are subject to cancellation prior to the Settlement Date, last occurring Settlement Date in the case of Multiple Exercise Warrants or Redemption Date, as the case may be, at the option of the Issuer for taxation reasons as

described below. The applicable Issue Terms contain provisions applicable to any such event and must be read in conjunction with this Condition 5.02 for full information. In particular, the applicable Issue Terms will identify the applicable notice periods.

5.02 If, (i) as a result of any change in the laws or regulations of Canada or any province or territory thereof or any authority or agency therein or thereof having power to tax or, in the case of W&C Securities issued by a Branch of Account (as defined in Condition 15.01) of the Issuer outside Canada, of the country in which such branch is located or of any political subdivision thereof or any authority or agency therein or thereof having power to tax or in the interpretation or administration of any such laws or regulations which become effective on or after the Issue Date of such W&C Securities or any other date specified in the applicable Issue Terms, the Issuer would be required to pay extra amounts as provided in Condition 12.03, (ii) such obligation cannot be avoided by the Issuer taking reasonable measures available to it and (iii) such circumstances are evidenced by the delivery by the Issuer to the Issuing and Paying Agent of a certificate signed by two senior officers of the Issuer stating that the said circumstances prevail and describing the facts leading thereto and an opinion of independent legal advisers of recognised standing to the effect that such circumstances prevail, the Issuer may, at its option and having given no less than the minimum period and no more than the maximum period of notice specified in the applicable Issue Terms (ending, in the case of W&C Securities paying Additional Amounts at a floating rate, on an Additional Amount Payment Date) to the Holders of the W&C Securities in accordance with Condition 11, cancel (in the case of Exercisable Certificates or Warrants) or redeem (in the case of Redeemable Certificates) all (but not some only) of the outstanding W&C Securities, provided, however, that no such notice of cancellation or redemption may be given earlier than 90 days (or, in the case of W&C Securities paying Additional Amounts at a floating rate a number of days which is equal to the aggregate of the number of days falling within the then current Additional Amount Period plus 60 days) prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the W&C Securities then due, and provided further that in respect of Bail-inable Securities where such cancellation or redemption, as applicable, would lead to a breach of the Issuer's minimum TLAC requirements, such cancellation or redemption will be subject to the prior approval of the Superintendent.

The Issuer may not exercise such option in respect of any W&C Security which is the subject of either a prior exercise by the Holder thereof or an automatic exercise (in the case of Exercisable Certificates and Warrants) or the prior exercise by the Holder of its option to require the redemption of such Certificate under Condition 26.04 (in the case of Redeemable Certificates).

If the Issuer cancels (in the case of Exercisable Certificates or Warrants) or redeems (in the case of Redeemable Certificates) the W&C Securities then the Issuer will pay an amount to each Holder in respect of each W&C Security or each Unit, as the case may be, held by such Holder, which amount shall be (i) other than in the case of an Actively Managed Basket Linked Certificate, the fair market value of a W&C Security or Unit, as the case may be, notwithstanding such cancellation (in the case of Exercisable Certificates or Warrants) or redemption (in the case of Redeemable Certificates), together with accrued Additional Amounts (if applicable), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus (in the case of Warrants), if already paid, by or on behalf of the Holder, the Exercise Price or (ii) in the case of an Actively Managed Basket Linked Certificate, calculated on the same basis as the Cash Settlement Amount, except for the purposes of such calculation the Specified Valuation Date shall be deemed to be the Early Redemption Valuation Date, in each case all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Holders in accordance with Condition 11.

Early Cancellation/Adjustment for an Administrator/Benchmark Event

5.03 In the event that an Administrator/Benchmark Event occurs, the Issuer may (at its option and in its sole and absolute discretion):

- (i) instruct the Calculation Agent to make such adjustment(s) to the terms of the W&C Securities as it may determine appropriate in its sole and absolute discretion to account for the relevant event or circumstance and, without limitation, such adjustment(s) may include selecting a successor benchmark(s) and making related adjustment(s) to the terms of the W&C Securities including where applicable to reflect any increased costs of the Issuer and/or any Hedging Entity providing exposure to the successor benchmark(s) and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks; or
- (ii) on giving notice to the Holders in accordance with Condition 11, cancel (in the case of Exercisable Certificates or Warrants) or redeem (in the case of Redeemable Certificates) all (but not some only) of the outstanding W&C Securities, provided that in respect of Bail-inable Securities where the cancellation or redemption, as applicable, would lead to a breach of the Issuer's minimum TLAC requirements, such cancellation or redemption will be subject to the prior approval of the Superintendent.

If the Issuer cancels (in the case of Exercisable Certificates or Warrants) or redeems (in the case of Redeemable Certificates) the W&C Securities then:

- (a) the Issuer will pay an amount to each Holder in respect of each W&C Security or each Unit, as the case may be, held by such Holder, which amount shall be (i) other than in the case of an Actively Managed Basket Linked Certificate, the fair market value of a W&C Security or Unit, as the case may be, notwithstanding such cancellation (in the case of Exercisable Certificates or Warrants) or redemption (in the case of Redeemable Certificates) but taking into account the relevant Administrator/Benchmark Event, less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus (in the case of Warrants), if already paid, by or on behalf of the Holder, the Exercise Price, or (ii) in the case of an Actively Managed Basket Linked Certificate, calculated on the same basis as the Cash Settlement Amount, except for the purposes of such calculation the Specified Valuation Date shall be deemed to be the Early Redemption Valuation Date, in each case all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Holders in accordance with Condition 11; and
- (b) no further Additional Amounts (if applicable) will be payable since the immediately preceding Additional Amount Payment Date or, if none, the Issue Date.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the W&C Securities. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in its sole and absolute discretion.

The Issuer shall give notice as soon as practicable to Holders in accordance with Condition 11 of any adjustment(s) made pursuant to paragraph (i) above, provided that any failure to give, or non-receipt of, such notice shall not affect the validity of such adjustment(s).

Restrictions on Redemption or Cancellation of Bail-inable Securities

5.05 Any notice of redemption or cancellation given by the Issuer under this Condition 5 shall be irrevocable, except that in the case of Bail-inable Securities, an order under subsection

39.13(1) of the CDIC Act, prior to the date fixed for redemption or cancellation, as applicable, shall automatically rescind such notice of redemption or cancellation and, in such circumstances, such Bail-inable Securities shall not be so redeemed or cancelled and no payment in respect of the rescinded redemption or cancellation shall be due and payable. For the avoidance of doubt, notwithstanding anything in these Conditions, (i) early redemption or cancellation of any Bail-inable Securities (other than pursuant to Condition 5.04) where the early redemption or cancellation would lead to a breach of the Issuer's minimum TLAC requirements, will be subject to the prior approval of the Superintendent; and (ii) Condition 26.04 will not apply to Bail-inable Securities. Bail-inable Securities continue to be subject to a Bail-in Conversion prior to their redemption or cancellation as applicable, in full.

6. Events of Default

6.01 The following events or circumstances (each an “**Event of Default**”) shall be acceleration events in relation to the W&C Securities of any Series, namely:

- (i) default is made for more than 30 Business Days from the due date in the payment of any Cash Settlement Amount, or solely in the case of W&C Securities which are not Bail-inable Securities delivery of any Entitlement, in respect of the W&C Securities of the relevant Series or any of them or in the payment of any Additional Amount in respect of the W&C Securities of the relevant Series or any of them; or
- (ii) the Issuer shall have become insolvent or bankrupt or subject to the provisions of the *Winding-up and Restructuring Act (Canada)* (“**WURA**”), or any statute hereafter enacted in substitution therefor, as the WURA, or any such substituted statute, may be amended from time to time, or if the Issuer goes into liquidation, either voluntarily or under an order of a court of competent jurisdiction, passes a resolution for its winding-up, liquidation or dissolution, or is ordered wound-up or otherwise acknowledges its insolvency.

6.02 Subject to Condition 6.03 below, if any Event of Default shall occur, any Holder may, by notice given to the Issuing and Paying Agent through the relevant Clearing Systems in such manner as the Issuing and Paying Agent and the relevant Clearing Systems may approve for this purpose, declare such W&C Security to be immediately cancelled (in the case of Exercisable Certificates and Warrants) or repayable (in the case of Redeemable Certificates) whereupon an amount equal to (i) other than in the case of an Actively Managed Basket Linked Certificate, the fair market value of such W&C Security or Unit, as the case may be, shall become immediately due and repayable notwithstanding the Event of Default, together with accrued Additional Amounts (if applicable), less the cost to the Issuer and/or the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus (in the case of Warrants), if already paid, by or on behalf of the Holder, the Exercise Price or (ii) in the case of an Actively Managed Basket Linked Certificate, calculated on the same basis as the Cash Settlement Amount, except for the purposes of such calculation the Specified Valuation Date shall be deemed to be the Early Redemption Valuation Date, in each case all as determined by the Calculation Agent in its sole and absolute discretion, unless, prior thereto, all Events of Default in respect of such W&C Security shall have been cured.

6.03 Holders may only exercise, or direct the exercise of, their rights under Condition 6.02 above in respect of Bail-inable Securities where an order has not been made pursuant to subsection 39.13(1) of the CDIC Act in respect of the Issuer. Notwithstanding the exercise of any rights by Holders under Condition 6.02 in respect of Bail-inable Securities, Bail-inable Securities will continue to be subject to a Bail-in Conversion until paid in full. A Bail-in

Conversion will not be an Event of Default. By its acquisition of Bail-inable Securities, each Holder (including each holder of a beneficial interest in any Bail-inable Securities), to the extent permitted by law, waives any and all claims, in law and/or in equity, against the Issuing and Paying Agent (in each case solely in its capacity as the Issuing and Paying Agent), for, agrees not to initiate a suit against the Issuing and Paying Agent in respect of, and agrees that the Issuing and Paying Agent shall not be liable for, any action that the Issuing and Paying Agent takes, or abstains from taking, in either case in accordance with a Bail-in Conversion.

7. Waiver of set-off and netting rights

No Holder or beneficial owner of an interest in the Bail-inable Securities may exercise, or direct the exercise, claim or plead any right of set-off, netting, compensation or retention in respect of any amount owed to it by the Issuer arising under, or in connection with, the Bail-inable Securities, and each Holder or beneficial owner of an interest in the Bail-inable Securities shall, by virtue of its acquisition of any Bail-inable Security (or an interest therein), be deemed to have irrevocably and unconditionally waived all such rights of set-off, netting, compensation or retention. Notwithstanding the foregoing, if any amounts due and payable to any Holder or beneficial owner of an interest in the Bail-inable Securities by the Issuer in respect of, or arising under, the Bail-inable Securities are purportedly discharged by set-off, netting, compensation or retention, without limitation to any other rights and remedies of the Issuer under applicable law, such Holder or beneficial owner of an interest in the Bail-inable Securities shall be deemed to receive an amount equal to the amount of such discharge and, until such time as payment of such amount is made, shall hold such amount in trust for the Issuer and, accordingly, any such discharge shall be deemed not to have taken place and such set-off, netting, compensation or retention shall be ineffective.

8. Purchases

The Issuer or any of its Affiliates may, but is not obliged to, at any time purchase W&C Securities at any price in the open market or by tender or private treaty, provided that in respect of Bail-inable Securities where such purchase would lead to a breach of the Issuer's minimum TLAC requirements, such purchase will be subject to the prior approval of the Superintendent. Any W&C Securities so purchased may be held or resold or surrendered for cancellation.

9. Payments – Unavailability of Settlement Currency

9.01 If Alternative Currency Payment is specified as applicable in the applicable Issue Terms and the Settlement Currency is a currency other than Renminbi and on or around a due date for payment under the W&C Securities, the Calculation Agent determines that the Settlement Currency is not available on the foreign exchange markets due to the imposition of exchange controls, the Settlement Currency's replacement or disuse or other circumstances beyond the Issuer's control, the Issuer will be entitled to satisfy its obligations in respect of such payment by making payment in the Alternative Currency specified in the applicable Issue Terms on the basis of the spot exchange rate (the "**Alternative Currency FX Rate**") at which the Settlement Currency is offered in exchange for the Alternative Currency in the London foreign exchange market (or, at the option of the Calculation Agent, in the foreign exchange market of any other financial centre which is then open for business) at noon, London time, two Business Days prior to the date on which payment is due or, if the Alternative Currency FX Rate is not available on that date, on the basis of a substitute exchange rate determined by the Calculation Agent acting in its absolute discretion from such source(s) and at such time as it may select. For the avoidance of doubt, the Alternative Currency FX Rate or substitute exchange rate as aforesaid may be such that the resulting Alternative Currency amount is zero and in such event no amount of the Alternative Currency or the Settlement Currency will be payable.

9.02 Notwithstanding any other provision in these Conditions, if the Settlement Currency is Renminbi and (a) if an Inconvertibility, Non-Transferability or Illiquidity occurs or (b) if Renminbi is otherwise not available to the Issuer as a result of circumstances beyond its control and such unavailability has been confirmed by a Renminbi Dealer, acting in good faith and in a commercially reasonable manner, following which the Issuer is unable to satisfy any payments (in whole or in part) in respect of the RMB W&C Securities, the Issuer on giving not less than five nor more than 30 days' irrevocable notice to the Holders prior to the due date for payment, may settle any such payment (in whole or in part) in U.S. dollars on the due date at the U.S. dollars Equivalent of any such Renminbi denominated amount.

In such event, payments of the U.S. dollars Equivalent or the relevant amount in respect of the W&C Securities shall be made by transfer to the U.S. dollars account of the relevant Account Holders for the benefit of the Holders. For the avoidance of doubt, no such payment of the U.S. dollars Equivalent shall by itself constitute a default in payment within the meaning of Condition 6.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 9.02 by the RMB Rate Calculation Agent, will (in the absence of manifest error) be binding on the Issuer, the Paying Agent and all Holders and (in the absence of manifest error) no liability to the Issuer, the Paying Agent and all Holders shall attach to the RMB Rate Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

"Non-Transferability" means the occurrence in each Relevant Renminbi Settlement Centre of any event that makes it impossible for the Issuer to transfer Renminbi (A) between accounts inside a Relevant Renminbi Settlement Centre, (B) from an account inside a Relevant Renminbi Settlement Centre to an account outside such Relevant Renminbi Settlement Centre, or (C) from an account outside a Relevant Renminbi Settlement Centre to an account inside such Relevant Renminbi Settlement Centre; in each case other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and

it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation).

If neither rate is available, the RMB Rate Calculation Agent will determine the RMB Spot Rate at or around 11 a.m. (local time of the Relevant Renminbi Settlement Centre) on the RMB Rate Calculation Date as the most recently available CNY/U.S. dollar official fixing rate for settlement on the relevant due date for payment reported by The State Administration of Foreign Exchange of the People’s Republic of China (excluding Hong Kong, Macao Special Administrative Region of the People’s Republic of China and Taiwan) (the **“PRC”**), which is reported on the Reuters Screen Page CNY=SAEC. Meetings of Holders of Finnish W&C Securities and Modification

10.06 The Issuer may, and upon a request in writing by Holders of Finnish W&C Securities holding not less than one-tenth by number of the Finnish W&C Securities for the time being outstanding of any Series, convene meetings of the Holders of Finnish W&C Securities to consider any matter affecting their interest, including (without limitation) the modification by Extraordinary Resolution of these Conditions. At least twenty-one but no more than sixty days notice, specifying the day, time and place of the meeting shall be given to the Holders of Finnish W&C Securities. The notice shall be delivered to the Holders of the Finnish W&C Securities in accordance with Condition 11 below and a copy of the notice shall be given to the Finnish Issuing and Paying Agent and Euroclear Finland. The notice shall specify the Meeting Record Date (as defined below) and record dates applicable to nominee registrations, instructions on how to participate in the meeting and terms of the resolutions to be proposed.

Subject to the following sentence, only persons being Holders of Finnish W&C Securities of the relevant Series on the eighth Helsinki Banking Day prior to the meeting (the "**Meeting Record Date**") according to the Finnish Securities Register shall be entitled to attend and vote at the meeting. A beneficial holder of a Finnish W&C Security held through a nominee in the Finnish Securities Register may vote in the meeting in person or by proxy instead of any such relevant Holder and in order to do so must be temporarily recorded as Holder of such Finnish W&C Security in the Finnish Securities Register after the Meeting Record Date and at the latest on the fourth Helsinki Banking Day prior to the meeting. A Holder of Finnish W&C Securities may by an instrument in writing in the English language signed by the Holder and delivered to the Issuer not later than 48 hours prior to the time for which such meeting or adjourned meeting is convened, appoint any person (a "**proxy**") to attend and act on it or its behalf in connection with any meeting or proposed meeting of the Holders of Finnish W&C Securities. The Finnish Issuing and Paying Agent, the Issuer, Euroclear Finland and their respective financial and legal advisers shall be entitled to attend and speak at any meeting of the Holders of Finnish W&C Securities.

A person nominated in writing by the Issuer shall be entitled to take the chair at every meeting, but if no such nomination is made or if at any meeting the person nominated shall not be present within thirty minutes after the time appointed for the holding of such meeting, the Holders of Finnish W&C Securities present may appoint another such person to be chairman.

Subject as provided below, at any such meeting any two or more Holders of Finnish W&C Securities (or their proxies) present in person holding in the aggregate a clear majority in number of the Finnish W&C Securities of the relevant Series for the time being outstanding shall form a quorum for the transaction of business. No business (other than the choosing of a chairman) shall be transacted at any meeting unless the requisite quorum be present at the commencement of business.

If within half an hour from the time appointed for any such meeting a quorum is not present the meeting shall, if convened upon the requisition of Holders of Finnish W&C Securities, be

dissolved. In any other case it shall stand adjourned for such period, not being less than fourteen days nor more than forty-two days, as may be decided by the chairman. Subject as provided below, at such adjourned meeting two or more Holders of Finnish W&C Securities (or their proxies), irrespective of the number of Finnish W&C Securities so held or represented by them, shall form a quorum and shall have the power to pass any resolution and to decide upon all matters which could properly have been dealt with at the original meeting had a quorum been present at such meeting. At least ten days' notice of any meeting adjourned through want of a quorum shall be given in the same manner as of an original meeting and such notice shall state the quorum required at such adjourned meeting.

Every question submitted to a meeting shall be decided in the first instance by a show of hands and in case of equality of votes the chairman shall both on a show of hands and on a poll have a casting vote in addition to the vote or votes to which he may be entitled as a Holder of Finnish W&C Securities or as a proxy.

At any meeting, unless a poll is (before or on the declaration of the result of the show of hands) demanded by the chairman or the Issuer or by any Holder(s) of Finnish W&C Securities of the relevant Series (or their proxies) representing in the aggregate at least 2 per cent. in number of the Finnish W&C Securities for the time being outstanding, a declaration by the chairman that a resolution has been carried or carried by a particular majority or lost or not carried by any particular majority shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against such resolution. If at any meeting a poll is demanded, it shall be taken in such manner and (subject as hereinafter provided) either at once or after such an adjournment as the chairman directs and the result of such poll shall be deemed to be the resolution of the meeting at which the poll was demanded as at the date of the taking of the poll. The demand for a poll shall not prevent the continuance of the meeting for the transaction of any business other than the question on which the poll has been demanded. Any poll demanded at any meeting on the election of a chairman or on any question of adjournment shall be taken at the meeting without adjournment.

At any such meeting (a) on a show of hands every person who is present in person and who is a Holder of Finnish W&C Securities of the relevant Series or a proxy shall have one vote and (b) on a poll every person who is so present shall have one vote in respect of each outstanding Finnish W&C Security of such Series of Finnish W&C Securities so produced or represented or in respect of which he is a proxy. Without prejudice to the obligations of the proxies named in any form of proxy, any person entitled to more than one vote need not use all its votes or cast all the votes to which he is entitled in the same way.

A meeting of the Holders of Finnish W&C Securities shall, in respect of the Finnish W&C Securities of the relevant Series only and insofar only as it affects the Finnish W&C Securities of the relevant Series and subject to the provisions contained in these Terms and Conditions have the following powers exercisable by Extraordinary Resolution namely:

- (b) power to sanction the exchange or substitution for the Finnish W&C Securities of or the conversion of those Finnish W&C Securities into other obligations or securities of the Issuer or any other body corporate formed or to be formed;

- (c) power to assent to any modification of the provisions contained in the Finnish W&C Securities and these Terms and Conditions thereof;
- (d) power to waive or authorise any breach or proposed breach by the Issuer of its obligations under these Terms and Conditions or any act or omission which might otherwise constitute an event of default under these Terms and Conditions;
- (e) power to authorise Euroclear Finland or any other person to concur in and execute and do all such deeds, documents, acts and things as may be necessary to carry out and give effect to any Extraordinary Resolution;
- (f) power to give any authority, direction or sanction which under these Terms and Conditions is required to be given by Extraordinary Resolution; and
- (g) power to appoint any persons (whether Holders of Finnish W&C Securities or not) as a committee or committees to represent the interests of the Holders of Finnish W&C Securities and to confer upon such committee or committees any powers or discretions which such Holders of Finnish W&C Securities could themselves exercise by Extraordinary Resolution.

Should the business of such meeting include consideration of proposals, *inter alia*, to: (i) amend the Redemption Date, Settlement Date, Exercise Date or Exercise Period or any Additional Amount Payment Date (as applicable) in respect of the Finnish W&C Securities, (ii) reduce or cancel the Cash Settlement Amount, (iii) reduce any Additional Amount payable, (iv) modify the provisions concerning the quorum required at any meeting of Holders of the Finnish W&C Securities or the majority required to pass an Extraordinary Resolution or (v) modify or eliminate any of items (i) through (iv), inclusive above, the necessary quorum shall be two or more persons holding or representing not less than seventy-five per cent., or at any adjourned meeting, not less than twenty-five per cent., in number of the Finnish W&C Securities for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Holders of Finnish W&C Securities of any Series will be binding on all Holders of the Finnish W&C Securities of such Series, whether or not they are present at the meeting.

In addition to Extraordinary Resolutions passed at meetings of the Holders of Finnish W&C Securities either (i) a resolution in writing signed on behalf of the Holders of Finnish W&C Securities of not less than seventy-five per cent. in number of the Finnish W&C Securities for the time being outstanding (whether such resolution in writing is contained in one document or several documents in the same form, each signed on behalf of one or more Holders of Finnish W&C Securities) or (ii) consents given by way of electronic consents through the relevant clearing systems by or on behalf of a Holder of Finnish W&C Securities, of not less than seventy-five per cent. in number of the Finnish W&C Securities for the time being outstanding will take effect as an Extraordinary Resolution.

Minutes of all resolutions and proceedings at every meeting shall be made and duly entered in books to be from time to time provided for that purpose by the Issuer and any such minutes as aforesaid, if purporting to be signed by the chairman of the meeting at which such resolutions were passed or proceedings transacted or by the chairman of the next succeeding meeting of the Holders of Finnish W&C Securities, shall be conclusive evidence of the matters therein contained and, until the contrary is proved, every such meeting in respect of the proceedings of which minutes have been made and signed as aforesaid shall be deemed to have been duly convened and held and all resolutions passed or proceedings transacted thereat to have been duly passed and transacted.

Any Finnish W&C Securities which have been purchased or are held by (or on behalf of) the Issuer or any subsidiary of the Issuer but which have not been cancelled shall, unless and until resold, be deemed not to be outstanding for the purposes of this Condition 10.06.

The Issuer may, with the consent of the Finnish Issuing and Paying Agent, but without the consent of the Holders of the Finnish W&C Securities, make any modification to these Terms and Conditions (i) which is not materially prejudicial to the interests of the Holders of Finnish W&C Securities, or (ii) to correct a manifest or proven error or an error that is of a formal, minor or technical nature, or to correct, cure or supplement any defective provision contained herein. Subject as aforesaid, no other modification may be made to these Terms and Conditions except with the sanction of an Extraordinary Resolution adopted by the Holders.

Save as provided therein, the Finnish Issuing and Paying Agent Agreement may be amended by agreement among the parties thereto and without the consent of any Holders of the Finnish W&C Securities.

Notwithstanding anything in this Condition 10.06, the prior approval of the Superintendent is required to modify the terms of any Series of Bail-inable Securities where such modification may affect the eligibility of the Bail-inable Securities as TLAC under the guidelines for TLAC for banks in Canada.

10.07 The SEB Issuing and Paying Agent Agreement contains provisions in Appendix 5 (Provisions for Meetings of Holders of Swedish Securities) thereto for convening meetings of the Holders of Swedish W&C Securities of any Series to consider any matter affecting their interest, including (without limitation) the modification by Extraordinary Resolution (as defined in the SEB Issuing and Paying Agent Agreement) of these Conditions insofar as the same may apply to such Swedish W&C Securities. Copies of Appendix 5 will be available for inspection during normal business hours at the initial specified offices of the Swedish and Norwegian Issuing and Paying Agent and the Issuer, respectively and all persons from time to time entitled to the benefit of obligations under any Swedish W&C Securities shall be deemed to have notice of, and shall be bound by, all of the provisions of Appendix 5 insofar as they relate to the relevant Swedish W&C Securities.

An Extraordinary Resolution whether passed at any meeting of the Holders of Swedish W&C Securities of any Series or passed as a Written Resolution (as defined in the SEB Issuing and Paying Agent Agreement) will be binding on all Holders of the Swedish W&C Securities of the relevant Series, whether or not they are present at any meeting, and whether or not they voted on the resolution, and on all Holders of Coupons relating to Swedish W&C Securities of such Series.

The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority by number of the Swedish W&C Securities of the relevant Series for the time being outstanding, or at any adjourned meeting two or more persons holding or representing Holders of such Swedish W&C Securities irrespective of the number of the Swedish W&C Securities so held or represented, unless the business of such meeting includes consideration of proposals, inter alia, to (i) amend the Redemption Date, Settlement Date, Exercise Date or Exercise Period or any Additional Amount Payment Date (as applicable) in respect of the Swedish W&C Securities, (ii) reduce or cancel the Cash Settlement Amount of the Swedish W&C Securities, (iii) reduce any Additional Amount Payable, (iv) modify the provisions concerning the quorum required at any meeting of Holders of Swedish W&C Securities or the majority required to pass an Extraordinary Resolution or (v) modify or eliminate any of items (i) through (iv), inclusive above, in which case the necessary

In addition to Extraordinary Resolutions passed at meetings of the Holders of Swedish W&C Securities, the SEB Issuing and Paying Agent Agreement provides that an Extraordinary Resolution may also be passed by a resolution in writing (being a Written Resolution) signed on behalf of the Holders of not less than seventy-five per cent. in number of the Swedish W&C Securities for the time being outstanding (whether such resolution in writing is contained in one document or several documents in the same form, each signed on behalf of one or more Holders). The SEB Issuing and Paying Agent Agreement contains provisions for the purpose of determining whether a Written Resolution has been validly passed.

If the holder of Swedish W&C Securities held through a nominee (an “**Indirect Swedish W&C Securityholder**”) attends the meeting (in person or through a duly authorised agent) and shows a certificate from the relevant nominee showing that such Indirect Swedish W&C Securityholder on the fifth (5) Business Day prior to the meeting was a holder of Swedish W&C Securities, the Indirect Swedish W&C Securityholder shall be regarded a Holder of Swedish W&C Securities for the purposes of this Condition 10.07.

In connection with a meeting of Holders of Swedish W&C Securities, the Swedish and Norwegian Issuing and Paying Agent shall have access to the Swedish W&C Securities Register.

Save as provided therein, the SEB Issuing and Paying Agent Agreement may be amended by agreement among the parties thereto and without the consent of any Holders of the Swedish W&C Securities.

Notwithstanding anything in this Condition 10.07, the prior approval of the Superintendent is required to modify the terms of any Series of Bail-inable Securities where such modification may affect the eligibility of the Bail-inable Securities as TLAC under the guidelines for TLAC for banks in Canada.

Meetings of Holders of Norwegian W&C Securities and Modification

10.08 In relation to the Norwegian W&C Securities, meetings of Holders of Norwegian W&C Securities shall be held in accordance with the SEB Issuing and Paying Agent Agreement and the rules, regulations and procedures applicable to, and/or issued by, the VPS. The SEB Issuing and Paying Agent Agreement contains provisions in Appendix 6 (Provisions for Meetings of Holders of Norwegian Securities) thereto for convening meetings of the Holders of Norwegian W&C Securities of any Series to consider any matter affecting their interest, including (without limitation) the modification by Extraordinary Resolution (as defined in the SEB Issuing and Paying Agent Agreement) of these Conditions insofar as the same may apply to such Norwegian W&C Securities. Copies of Appendix 6 will be available for inspection during normal business hours at the initial specified offices of the Swedish and Norwegian Issuing and Paying Agent and the Issuer, respectively and all persons from time to time entitled to the benefit of obligations under any Norwegian W&C Securities shall be deemed to have notice of, and shall be bound by, all of the provisions of Appendix 6 insofar as they relate to the relevant Norwegian W&C Securities.

An Extraordinary Resolution whether passed at any meeting of the Holders of Norwegian W&C Securities of any Series or passed as a Written Resolution (as defined in the SEB Issuing and Paying Agent Agreement) will be binding on all Holders of the Norwegian W&C Securities of the relevant Series, whether or not they are present at any meeting, and whether or not they

voted on the resolution, and on all Holders of Coupons relating to Norwegian W&C Securities of such Series.

The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority by number of the Norwegian W&C Securities of the relevant Series for the time being outstanding, or at any adjourned meeting two or more persons holding or representing Holders of such Norwegian W&C Securities irrespective of the number of the Norwegian W&C Securities so held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, to (i) amend the Redemption Date, Settlement Date, Exercise Date or Exercise Period or any Additional Amount Payment Date (as applicable) in respect of the Norwegian W&C Securities, (ii) reduce or cancel the Cash Settlement Amount of the Norwegian W&C Securities, (iii) reduce any Additional Amount Payable, (iv) modify the provisions concerning the quorum required at any meeting of Holders of Norwegian W&C Securities or the majority required to pass an Extraordinary Resolution or (v) modify or eliminate any of items (i) through (iv), inclusive above, in which case the necessary quorum shall be two or more persons holding or representing not less than seventy-five per cent., or at any adjourned meeting, not less than twenty-five per cent., in number of the Norwegian W&C Securities for the time being outstanding.

In addition to Extraordinary Resolutions passed at meetings of the Holders of Norwegian W&C Securities, the SEB Issuing and Paying Agent Agreement provides that an Extraordinary Resolution may also be passed by a resolution in writing (being a Written Resolution) signed on behalf of the Holders of not less than seventy-five per cent. in number of the Norwegian W&C Securities for the time being outstanding (whether such resolution in writing is contained in one document or several documents in the same form, each signed on behalf of one or more Holders). The SEB Issuing and Paying Agent Agreement contains provisions for the purpose of determining whether a Written Resolution has been validly passed.

For the purposes of a meeting of the Holders of Norwegian W&C Securities, the person named in the certificate from the VPS shall be treated as the Holder specified in such certificate provided that such person has issued an undertaking not to transfer the relevant Norwegian W&C Certificates so specified prior to the close of meeting. If the holder of Norwegian W&C Securities held through a nominee in accordance with the rules and regulations applicable to, and/or issued by, the VPS (an “**Indirect Norwegian Securityholder**”) attends the meeting (in person or through a duly authorised agent) and shows a certificate from the relevant nominee showing that such Indirect Norwegian Securityholder on the fifth (5) Business Day prior to the meeting was a holder of Norwegian W&C Securities, the Indirect Norwegian Securityholder shall be regarded a Holder of Norwegian Notes for the purposes of this Condition 10.08.

In connection with a meeting of Holders of Norwegian W&C Securities, the Swedish and Norwegian Issuing and Paying Agent shall have access to the Norwegian W&C Securities Register.

Save as provided therein, the SEB Issuing and Paying Agent Agreement may be amended by agreement among the parties thereto and without the consent of any Holders of the Norwegian W&C Securities.

Notwithstanding anything in this Condition 10.08, the prior approval of the Superintendent is required to modify the terms of any Series of Bail-inable Securities where such modification may affect the eligibility of the Bail-inable Securities as TLAC under the guidelines for TLAC for banks in Canada.

12. Expenses and Taxation

12.01 Subject to Condition 12.03 below, a Holder of W&C Securities must pay all taxes, duties and/or expenses, including any applicable depositary charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising from the exercise and settlement or redemption (as applicable) of such W&C Securities and/or, if applicable, the delivery of the Entitlement pursuant to the terms of such W&C Securities (together “**Expenses**”).

12.02 Subject to Condition 12.03 below, the Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise, redemption or enforcement of any W&C Security by any person and all payments or deliveries made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

12.03 Taxation

(i) All amounts payable in respect of the W&C Securities will be paid free and clear of and without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of

Canada, any province or territory or political subdivision thereof or any authority or agency therein or thereof having power to tax and, in the case of W&C Securities issued by a branch of the Issuer located outside Canada, the country in which such branch is located or any political subdivision thereof or any authority or agency therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties, assessments or governmental charges is required by law or the interpretation or administration thereof. In that event, but in the case of Redeemable Certificates and Exercisable Certificates that evidence deposit liabilities under the *Bank Act* (Canada) only (and the applicable Issue Terms will indicate whether the Exercisable Certificates evidence deposit liabilities under the *Bank Act* (Canada)), the Issuer will pay such extra amounts as may be necessary in order that the net amounts received by the holder after such withholding or deduction shall equal the amounts which would have been received in respect of such Certificates, in the absence of such withholding or deduction; except that no extra amounts shall be payable with respect to any payment in respect of any such Certificate:

- (a) to, or to a third party on behalf of, a holder who is liable for such taxes, duties, assessments or governmental charges in respect of such Certificate by reason of the holder having some connection with Canada or the country in which such branch is located otherwise than the mere holding of such Certificate; or
- (b) to, or to a third party on behalf of, a holder in respect of whom such tax, duty, assessment or governmental charge is required to be withheld or deducted by reason of the holder or other person entitled to payments under the Certificates being a person with whom the Issuer is not dealing at arm's length (within the meaning of the *Income Tax Act* (Canada)); or
- (c) to, or to a third party on behalf of, a holder who is, or who does not deal at arm's length with a person who is, a "specified shareholder" (as defined in subsection 18(5) of the *Income Tax Act* (Canada)) of the Issuer; or
- (d) for or on account of any withholding tax or deduction imposed or collected pursuant to (i) Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") (or any amended or successor version that is substantively comparable and not materially more onerous to comply with), any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Code, whether currently in effect or as published and amended from time to time ("**FATCA Withholding Tax Rules**") or (ii) Section 871(m) of the Code.

(ii) If the Issuer becomes subject generally at any time to any taxing jurisdiction other than or in addition to Canada or the country in which the relevant Branch of Account is located, references in Condition 5.02 and Condition 12.03 to Canada or the country in which the relevant branch is located shall be read and construed as references to Canada or the country in which such branch is located and/or to such other jurisdiction(s).

(iii) Unless the context otherwise requires, any reference in these Conditions to any payment due in respect of the W&C Securities shall be deemed to include (x) the delivery of any Entitlements and (y) any extra amounts which may be payable under this Condition 12.03.

13. Further Issues

The Issuer may from time to time, without the consent of the Holders, create and issue further W&C Securities so as to be consolidated with and form a single series with the outstanding W&C Securities of a particular Series.

14. Currency Indemnity

Subject to Condition 9, the Settlement Currency is the sole currency of account and payment for all sums payable by the Issuer in respect of the W&C Securities or Units, as the case may be, including damages. Any amount received or recovered in a currency other than the Settlement Currency (whether as a result of, or of the enforcement of, a judgement or order of a court of any jurisdiction or otherwise) by any Holder of a W&C Security or Unit, as the case may be, in respect of any sum expressed to be due to it from the Issuer shall only constitute a discharge to the Issuer to the extent of the amount in the Settlement Currency which such Holder is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first day on which it is practicable to do so). If that amount is less than the amount in the Settlement Currency expressed to be due to any Holder of a W&C Security or Unit, as the case may be, in respect of such W&C Security or Unit, as the case may be, the Issuer shall indemnify such Holder against any loss sustained by such Holder as a result. In any event, the Issuer shall indemnify each such Holder against any cost of making such purchase which is reasonably incurred. These indemnities constitute a separate and independent obligation from the Issuer's other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Holder of a W&C Security or Unit, as the case may be, and shall continue in full force and effect despite any judgement, order, claim or proof for a liquidated amount in respect of any sum due in respect of the W&C Securities or Units, as the case may be, or any judgement or order. Any such loss aforesaid shall be deemed to constitute a loss suffered by the relevant Holder of a W&C Security or Unit, as the case may be, and no proof or evidence of any actual loss will be required by the Issuer.

15. Branch of Account

15.01 This Condition 15 applies only to Redeemable Certificates and Exercisable Certificates that evidence deposit liabilities under the *Bank Act* (Canada). For the purposes of the *Bank Act* (Canada) the branch of the Bank set out in the applicable Issue Terms shall be the branch of account (the "**Branch of Account**") for the deposit liabilities under the *Bank Act* (Canada) evidenced by the relevant Redeemable Certificates and Exercisable Certificates. If not specified in the applicable Issue Terms, the Branch of Account for such Redeemable Certificates and Exercisable Certificates will be the main branch of the Issuer in Toronto. Such Redeemable Certificates and Exercisable Certificates will be paid without the necessity of first being presented for payment at the Branch of Account. Redeemable Certificates and Exercisable Certificates issued by a Branch of Account are obligations of the Bank.

15.02 If the Branch of Account is not in Canada, the Bank may change the Branch of Account for the deposit liabilities under the *Bank Act* (Canada) evidenced by the W&C Security, upon not less than seven days' prior notice to the Holders given in accordance with Condition 11 and upon and subject to the following terms and conditions:

- (i) if the W&C Security is payable in Yen, the Branch of Account shall not be in Japan;
- (ii) the Issuer shall indemnify and hold harmless the holder of the W&C Security against any tax, duty, assessment or governmental charge which is imposed or levied upon

such holder as a consequence of such change, and shall pay the reasonable costs and expenses of the Issuing and Paying Agent in connection with such change;

- (iii) notwithstanding (ii) above, no change of the Branch of Account may be made unless immediately after giving effect to such change (a) no Event of Default, and no event which, after the giving of notice or lapse of time or both, would become an Event of Default shall have occurred and be continuing and (b) payments on the W&C Securities to holders thereof (other than Excluded Holders, as hereinafter defined) shall not, in the opinion of counsel to the Issuer, be subject to any taxes, as hereinafter defined, to which they would not have been subject had such change not taken place. For the purposes of this section, an “**Excluded Holder**” means a holder of a W&C Security of this Series who is subject to taxes by reason of its having some connection with the Relevant Jurisdiction other than the mere holding of a W&C Security of this Series as a non-resident of such Relevant Jurisdiction. “**Relevant Jurisdiction**” means Canada, its provinces or territories and the jurisdiction in which the new Branch of Account is located, and “**taxes**” means and includes any tax, duty, assessment or other governmental charge imposed or levied in respect of the payments on the W&C Securities for or on behalf of a Relevant Jurisdiction or any authority therein or thereof having power to tax; and
- (iv) in the case of Bail-inable Securities, if the change is to another Branch of Account outside of Canada, prior approval of the Superintendent shall be required.

The election will have effect as follows:

- (a) where the Settlement Currency of the W&C Securities is the National Currency Unit of a country which is participating in the third stage of European Economic and Monetary Union, such Settlement Currency shall be deemed to be an amount of euro converted from the original Settlement Currency into euro at the Established Rate, subject to such provisions (if any) as to rounding as the Calculation Agent may decide and as may be specified in the notice, and after the Adjustment Date, all payments of any Cash Settlement Amount in respect of the W&C Securities will be made solely in euro as though references in the W&C Securities to the Settlement Currency were to euro;
- (b) where the Exchange Rate and/or any other terms of these Terms and Conditions are expressed in or, in the case of the Exchange Rate, contemplate the exchange from or into, the currency (the “**Original Currency**”) of a country which is participating in the third stage of European Economic and Monetary Union, such Exchange Rate and/or any other terms of these Terms and Conditions shall be deemed to be expressed in or, in the case of the Exchange Rate, converted for or, as the case may be into, euro at the Established Rate; and

- (c) such other changes shall be made to these Terms and Conditions as the Issuer may decide, in its sole and absolute discretion to conform them to conventions then applicable to instruments expressed in euro; and/or
- (ii) require that the Calculation Agent make such adjustments to the Weighting and/or (in the case of Warrants) the Exercise Price and/or any other terms of these Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent, in its sole discretion, may determine to be appropriate to account for the effect of the third stage of European Economic and Monetary Union on the Weighting and/or (in the case of Warrants) the Exercise Price and/or such other terms of these Terms and Conditions.

Notwithstanding the foregoing, neither the Issuer, any of its Affiliates or agents nor the Calculation Agent shall be liable to any Holder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith.

In these Conditions, the following expressions have the following meanings:

The expressions “exercise”, “due exercise” and related expressions shall be construed to apply to any W&C Securities which are automatically exercised on the Expiration Date in accordance with this provision.

European Style Exercisable Certificates and Warrants

22.02 This paragraph 22.02 applies only to Exercisable Certificates and Warrants:

European Style Exercisable Certificates and Warrants are only exercisable on the Exercise Date or, in the case of Warrants for which Multiple Exercise is specified as applicable in the applicable Issue Terms ("**Multiple Exercise Warrants**"), on each Exercise Date.

If Automatic Exercise is not specified in the applicable Issue Terms, any European Style Exercisable Certificate or Warrant with respect to which no Exercise Notice has been delivered in the manner set out in Condition 23, at or prior to 10.00 a.m., Brussels or Luxembourg time (as appropriate) on the Exercise Date, shall become void. If Automatic Exercise is specified in the applicable Issue Terms, any such European Style Exercisable Certificate or Warrant with respect to which no Exercise Notice has been delivered in the manner set out in Condition 23, at or prior to 10.00 a.m., Brussels or Luxembourg time, as the case may be, on the Exercise Date or, in the case of Multiple Exercise Warrants, on an Exercise Date and which is in the determination of the Calculation Agent “In-The-Money”, will be exercised by the Calculation Agent on behalf of the relevant Holder on the Exercise Date or, as applicable, such Exercise Date and, (i) in the case of Cash Settled W&C Securities, if Delivery of Exercise Notice is specified as applicable in the applicable Issue Terms, or (ii) in the case of Physical Delivery W&C Securities, the provisions of Condition 23.08 shall apply (such an exercise an "**Automatic Exercise**" and references to "**automatically exercised**" shall be construed accordingly).

The expressions “exercise”, “due exercise” and related expressions shall be construed to apply to any Exercisable Certificates or Warrants which are Automatically Exercised on the Exercise Date or, in the case of Multiple Exercise Warrants, on an Exercise Date in accordance with this provision.

If the W&C Securities are Finnish W&C Securities, Swedish W&C Securities, Norwegian W&C Securities or Multiple Exercise Warrants Automatic Exercise always applies and accordingly those W&C Securities which are “In-The-Money” will be automatically exercised on the Exercise Date or, in the case of Multiple Exercise Warrants, on the relevant Exercise Date all as provided above. Delivery of Exercise Notice will not apply to Finnish W&C Securities, Swedish W&C Securities, Norwegian W&C Securities or Multiple Exercise Warrants.

Open-Ended W&C Securities

22.03 Open-Ended W&C Securities are exercisable on any Exercise Date. If any such Exercise Notice is received by the relevant Clearing System or if a copy thereof is delivered to the Issuer and the Issuing and Paying Agent, in each case, after 10.00 a.m., Brussels or Luxembourg time (as appropriate), on an Exercise Date, such Exercise Notice will be deemed to have been delivered on the next Exercise Date, which Exercise Date shall be deemed to be the Actual Exercise Date.

Cash Settlement

22.04 In the case of Exercisable Certificates or Warrants which are Cash Settled W&C Securities, each such W&C Security or, if Units are specified in the applicable Issue Terms, each Unit, entitles its Holder, upon due exercise and subject to certification as to non-U.S. beneficial ownership, to receive from the Issuer on the relevant Settlement Date the relevant Cash Settlement Amount.

Physical Settlement

22.05 If Exercisable Certificates or Warrants are Physical Delivery W&C Securities, each such W&C Security or, if Units are specified in the applicable Issue Terms, each Unit, as the case may be, entitles its Holder, upon due exercise and, subject to certification as to non-U.S. beneficial ownership, to receive from the Issuer on the Settlement Date the Entitlement subject to payment of the Exercise Price (in the case of Warrants) and any Expenses or sums payable. Delivery of the Entitlement shall be made at the risk of the relevant Holder in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine to be appropriate and notified to the person designated by the Holder in the relevant Exercise Notice or, in the case of an Exempt W&C Security, in such manner as is specified in the applicable Pricing Supplement.

Unless in the case of Exempt W&C Securities otherwise specified in the applicable Pricing Supplement, W&C Securities or Units, as the case may be, exercised at the same time by the same Holder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such W&C Securities or Units, as the case may be, provided that the aggregate Entitlements in respect of the same Holder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment (the "**Cash Adjustment**") in the Settlement Currency calculated by the Calculation Agent in its sole and absolute discretion or, in the case of Exempt W&C Securities, otherwise in the manner specified in the applicable Pricing Supplement shall be paid to the Holder.

Following exercise of an Equity Linked W&C Security or ETF Linked W&C Security which is a Physical Delivery W&C Security, (i) none of the Issuer or the Calculation Agent shall be under any obligation to register or procure the registration of any Holder or any other person as the registered shareholder in the register of members of the Equity Issuer or ETF and (ii) all dividends on the relevant Equities or Fund Shares to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Equities or Fund Shares executed on the relevant Actual Exercise Date and to be delivered in the same manner as such relevant Equities or Fund Shares. Any such dividends to be paid to a Holder will be paid to the account specified by the Holder in the relevant Exercise Notice as referred to in Condition 23.02(E).

After delivery of the Entitlement and for such period of time after the Settlement Date as any person other than the relevant Holder shall continue to be the legal owner of the securities or obligations comprising the Entitlement (the "**Intervening Period**"), none of the Issuer, the Calculation Agent nor any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Holder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities or obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations or (iii) be under any liability to a Holder in respect of any loss or damage which such Holder may sustain or suffer as a result, whether

directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations.

All references in this Condition to “Brussels or Luxembourg time” shall, where W&C Securities are cleared through a clearing system other than Clearstream, Luxembourg or Euroclear be deemed to refer as appropriate to the time in the city where the relevant clearing system is located.

Issuer Call Option

22.06 If Issuer Call Option is specified as applicable in the applicable Issue Terms, the Issuer may having given not less than the minimum period and not more than the maximum period of notice specified in the applicable Issue Terms to the Holders in accordance with Condition 11 (which notice shall be irrevocable) elect that the Expiration Date (in the case of American Style W&C Securities) or the Exercise Date (in the case of European Style Certificates) in respect of all (but not some only) of the W&C Securities will be brought forward and such W&C Securities will be Automatically Exercised on the Call Option Date. If Call Option Cash Settlement is specified as applicable in the applicable Issue Terms, notwithstanding any provision to the contrary in the Terms and Conditions and/or the applicable Issue Terms (a) if the W&C Securities are not Cash Settled W&C Securities, the W&C Securities shall be deemed to be Cash Settled W&C Securities and (b) the Cash Settlement Amount shall be the Call Option Cash Settlement Amount specified in the applicable Issue Terms; and provided that in respect of Bail-inable Securities where settlement on such early exercise would lead to a breach of the Issuer's minimum TLAC requirements, such early exercise will be subject to the prior approval of the Superintendent.

If the W&C Securities are Automatically Exercised on the Call Option Date, (i) the Expiration Date (in the case of American Style W&C Securities) or the Exercise Date (in the case of European Style W&C Securities) shall be the Call Option Date, (ii) the provisions of Conditions 23.06 shall apply and (iii) the expressions “exercise”, “due exercise” and related expressions shall be construed to apply to any W&C Securities which are Automatically Exercised on the Call Option Date in accordance with this provision.

Trigger Early Exercise

22.07 If Trigger Early Exercise is specified as applicable in the applicable Issue Terms and a Trigger Early Exercise Event occurs, the Expiration Date (in the case of American Style W&C Securities) or the Exercise Date (in the case of European Style W&C Securities) in respect of all (but not some only) of the W&C Securities will be brought forward and such W&C Securities will be Automatically Exercised on the Trigger Early Exercise Date. If Trigger Early Exercise Cash Settlement is specified as applicable in the applicable Issue Terms, notwithstanding any provision to the contrary in the Terms and Conditions and/or the applicable Issue Terms (a) if the W&C Securities are not Cash Settled W&C Securities, the W&C Securities shall be deemed to be Cash Settled W&C Securities and (b) the Cash Settlement Amount shall be the Trigger Early Exercise Cash Settlement Amount specified in the applicable Issue Terms.

If the W&C Securities are Automatically Exercised on the Trigger Early Exercise Date, (i) the Expiration Date (in the case of American Style W&C Securities) or the Exercise Date (in the case of European Style W&C Securities) shall be the Trigger Early Exercise Date, (ii) the provisions of Conditions 23.06 shall apply and (iii) the expressions “exercise”, “due exercise” and related expressions shall be construed to apply to any W&C Securities which are Automatically Exercised on the Trigger Early Exercise Date in accordance with this provision.

23.09 This paragraph 23.09 applies only to American Style W&C Securities or Open-Ended W&C Securities:

- (A) The number of W&C Securities exercisable by any Holder on any Actual Exercise Date, as determined by the Issuer, must not be less than the Minimum Exercise Number specified in the applicable Issue Terms and, if specified in the applicable Issue Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Issue Terms. Any Exercise Notice which purports to exercise W&C Securities in breach of this provision shall be void and of no effect.
- (B) If the Issuer determines that the number of W&C Securities being exercised on any Actual Exercise Date by any Holder or a group of Holders (whether or not acting in concert) exceeds the Maximum Exercise Number (a number equal to the Maximum Exercise Number being the "**Quota**"), the Issuer may deem the Actual Exercise Date for the first Quota of such W&C Securities, selected at the discretion of the Issuer, to be such day and the Actual Exercise Date for each additional Quota of such W&C Securities (and any remaining number thereof) to be each of the succeeding Exercise Business Days until all such W&C Securities have been attributed with an Actual Exercise Date, provided, however, that in the case of American Style W&C Securities the deemed Actual Exercise Date for any such W&C Securities which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of W&C Securities are exercised on the same day by Holder(s), the order of settlement in respect of such W&C Securities shall be at the sole discretion of the Issuer.

European Style W&C Securities

23.10 This paragraph 23.10 applies only to European Style W&C Securities:

Any Exercise Notice which purports to exercise W&C Securities in breach of this provision shall be void and be of no effect.

24. Additional Amounts

Calculation of Additional Amounts

24.01 If so specified in the applicable Issue Terms, each W&C Security pays additional amounts from and including the Issue Date at the Additional Amount Rate payable in arrear on each Additional Amount Payment Date.

The additional amount payable in respect of each W&C Security on each Additional Amount Payment Date will amount to the Additional Amount for the Additional Amount Period ending on (but excluding) such Additional Amount Payment Date.

If an additional amount is required to be calculated for a period ending other than on (but excluding) an Additional Amount Payment Date, it will be calculated on the basis of the number of days from and including the most recent Additional Amount Payment Date (or, if none, the Issue Date) to but excluding the relevant payment date (the “**Calculation Period**”) and the Additional Amount Rate Day Count Fraction.

Accrual of Additional Amounts

24.02 Subject to Condition 5.03, each W&C Security will cease to accrue additional amounts from and including the Additional Amount Cut-Off Date or, if earlier, the date on which the W&C Security is cancelled (the “**Cancellation Date**”), if applicable, in accordance with these Terms and Conditions unless payment of the amount and/or, in the case of a Physical Delivery W&C Security, delivery of any Entitlement due on the Settlement Date or Cancellation Date, as the case may be, is improperly withheld or refused or unless default is otherwise made in respect of the payment or delivery in which case additional amount(s) shall accrue from the date such amount or delivery of such Entitlement was due until such amount or delivery of such Entitlement is paid or delivered, as the case may be.

For the avoidance of doubt, no additional amount on the W&C Security shall accrue beyond (a) the Exercise Date in the event that delivery of any Entitlement is postponed due to the occurrence of a Settlement Disruption Event or (b) the Additional Amount Cut-Off Date, notwithstanding that the Settlement Date may be postponed as provided in the applicable Issue Terms.

In the event that an Additional Amount Payment Date is postponed as provided in the applicable Issue Terms, no additional amount or other amount shall be payable on the W&C Securities in respect of such delay.

Payment of Additional Amounts

24.03 Where the W&C Securities pay additional amounts as specified in the applicable Issue Terms, subject as provided below, the Issuer shall pay or cause to be paid the Additional Amount for each W&C Security in respect of each Additional Amount Period on the relevant Additional Amount Payment Date by credit or transfer to the Holder’s account with the relevant Clearing System for value on the relevant Additional Amount Payment Date, such payment to be made in accordance with the rules of the relevant Clearing System.

Interest Act (Canada) Disclosure

24.04 For the purposes of disclosure pursuant to the *Interest Act* (Canada) and not for any other purpose, where in any W&C Security (i) an additional amount rate is to be calculated on the basis of a year of 360 days, the yearly additional amount rate to which the 360 day rate is equivalent is such rate multiplied by the number of days in the year for which such calculation is made and divided by 360, or (ii) an additional amount rate is to be calculated during a leap year, the yearly additional amount rate to which such rate is equivalent is such rate multiplied by 366 and divided by 365.

25. Terms applicable to Redeemable Certificates only

Conditions 26, 27, 28 and 29 inclusive apply to Redeemable Certificates only.

26. Redemption (Redeemable Certificates)

26.01 Redeemable Certificates shall be redeemed on the Redemption Date. If the Redeemable Certificates are Cash Settled W&C Securities, each such Redeemable Certificate entitles its Holder to receive from the Issuer on the Redemption Date the Cash Settlement Amount. If the Redeemable Certificates are Physical Delivery W&C Securities, each such Redeemable Certificate entitles its Holder, subject to certification as to non-U.S. beneficial ownership and to the provisions of Condition 27.01, to receive from the Issuer on the Redemption Date the Entitlement subject to payment of any Expenses. Delivery of the Entitlement shall be made at the risk of the relevant Holder in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine to be appropriate and notified to the person designated by the Holder in the relevant Collection Notice or, in the case of an Exempt W&C Security, in such manner as is specified in the applicable Pricing Supplement.

If (i) the date for payment of any amount in respect of the Redeemable Certificates is not a Business Day, the Holder shall not be entitled to payment until the next following Business Day and shall not be entitled to any further payment in respect of such delay or (ii) the date for delivery of the Entitlement in respect of the Redeemable Certificates is not a Settlement Business Day, the Holder shall not be entitled to delivery of the Entitlement until the next following Settlement Business Day.

Unless in the case of Exempt W&C Securities otherwise specified in the applicable Pricing Supplement, Redeemable Certificates of the same Holder redeemed and in respect of which a Collection Notice (as defined below) has been duly given as provided in Condition 27.01, will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Redeemable Certificates, provided that the aggregate Entitlements will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment (the "**Cash Adjustment**") calculated by the Calculation Agent in its sole and absolute discretion or, in the case of Exempt W&C Securities, otherwise in the manner specified in the applicable Pricing Supplement shall be paid to the Holder.

Following redemption of an Equity Linked W&C Security or ETF Linked W&C Security which is a Physical Delivery W&C Security, (i) none of the Issuer or the Calculation Agent shall be under any obligation to register or procure the registration of any Holder or any other person as the registered shareholder in the register of members or shareholders of the Equity Issuer or ETF and (ii) all dividends on the relevant Equities or Fund Shares to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Equities

or Fund Shares executed on the Redemption Date and to be delivered in the same manner as such relevant Equities or Fund Shares. Any such dividends to be paid to a Holder will be paid to the account specified by the Holder in the relevant Collection Notice as referred to in Condition 27.01(E).

After delivery of the Entitlement and for such period of time after the Redemption Date as any person other than the relevant Holder shall continue to be the legal owner of the securities or obligations comprising the Entitlement (the “**Intervening Period**”), none of the Issuer, the Calculation Agent nor any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Holder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities or obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations or (iii) be under any liability to a Holder in respect of any loss or damage which such Holder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations.

Issuer Call Option

26.02 If Issuer Call Option is specified as applicable in the applicable Issue Terms the Issuer may, having given not less than the minimum period and not more than the maximum period of notice specified in the applicable Issue Terms to the Holders in accordance with Condition 11 (which notice shall be irrevocable) elect that the Redemption Date for all (but not some only) of the Redeemable Certificates be brought forward to the Call Option Date. If Call Option Cash Settlement is specified as applying in the applicable Issue Terms, notwithstanding any provision to the contrary in the Terms and Conditions and/or the applicable Issue Terms (a) if the Redeemable Certificates are not Cash Settled W&C Securities, the Redeemable Certificates shall be deemed to be Cash Settled W&C Securities and (b) the Cash Settlement Amount shall be the Call Option Cash Settlement Amount specified in the applicable Issue Terms or, as applicable, in the case of a Non-Exempt W&C Security, specified in Condition 39.04 (*Actively Managed Basket Linked Call Option Certificates*); and provided that in respect of Bail-inable Securities where the redemption would lead to a breach of the Issuer's minimum TLAC requirements, such redemption will be subject to the prior approval of the Superintendent.

Trigger Early Redemption

26.03 If Trigger Early Redemption is specified as applicable in the applicable Issue Terms and a Trigger Early Redemption Event occurs, the Redemption Date for all (but not some only) of the Redeemable Certificates will be brought forward to the Trigger Early Redemption Date. If Trigger Early Redemption Cash Settlement is specified as applicable in the applicable Issue Terms, notwithstanding any provision to the contrary in the Terms and Conditions and/or the applicable Issue Terms (a) if the Redeemable Certificates are not Cash Settled W&C Securities, the Redeemable Certificates shall be deemed to be Cash Settled W&C Securities and (b) the Cash Settlement Amount shall be the Trigger Early Redemption Cash Settlement Amount specified in the applicable Issue Terms.

Holder Put Option

26.04 If Holder Put Option is specified as applicable in the applicable Issue Terms, a Holder may, by giving not less than the minimum period and not more than the maximum period of notice as set out below elect to bring forward the Redemption Date for its Redeemable Certificates to the Put Option Date set out in the relevant Put Notice (as defined below). If Put Option Cash Settlement is specified as applying in the applicable Issue Terms, notwithstanding any provision to the contrary in the Terms and Conditions and/or the applicable Issue Terms

(a) if the Redeemable Certificates are not Cash Settled W&C Securities, the Redeemable Certificates shall be deemed to be Cash Settled W&C Securities and (b) the Cash Settlement Amount for the relevant Redeemable Certificates shall be the Put Option Cash Settlement Amount specified in the applicable Issue Terms. Holder Put Option may not be specified as applicable in the applicable Issue Terms for Bail-inable Securities and accordingly this Condition 26.04 cannot apply to W&C Securities which are Bail-inable Securities.

In order to exercise the right to bring forward the Redemption Date of a Redeemable Certificate the Holder must deliver in a form acceptable to the relevant Clearing System, a duly completed notice of exercise (a "**Put Notice**") in the form set out in the Issue and Paying Agency Agreement to the relevant Clearing System, with a copy to the Issuer and the Issuing and Paying Agent. Copies of the Put Notice are available at the specified offices of the Paying Agents. Once delivered a Put Notice shall be irrevocable and the Redeemable Certificates the subject of such notice may not be transferred.

Restrictions on Redemption of Bail-inable Securities

26.05 Any notice of redemption given by the Issuer under this Condition 26 shall be irrevocable, except that in the case of Bail-inable Securities, an order under subsection 39.13(1) of the CDIC Act, prior to the date fixed for redemption, shall automatically rescind such notice of redemption and, in such circumstances, such Bail-inable Securities shall not be so redeemed and no payment in respect of the rescinded redemption shall be due and payable. For the avoidance of doubt, notwithstanding anything in these Conditions, (i) early redemption of any Bail-inable Securities (other than pursuant to Condition 5.04) where the early redemption would lead to a breach of the Issuer's minimum TLAC requirements, will be subject to the prior approval of the Superintendent; and (ii) Condition 26.04 will not apply to Bail-inable Securities. Bail-inable Securities continue to be subject to a Bail-in Conversion until their redemption in full.

27. Collection Notices and Settlement (Redeemable Certificates)

Collection Notices

27.01 In order to receive the Entitlement in respect of a Redeemable Certificate, the relevant Holder must provide in a form acceptable to the relevant Clearing System, a collection notice (a "**Collection Notice**") to the relevant Clearing System with a copy to the Issuer and the Issuing and Paying Agent, not later than 10.00 am Brussels or Luxembourg time (as appropriate) on the date falling two Business Days prior to the Redemption Date (the "**Cut-Off Date**").

The Collection Notice shall:

- (A) specify the ISIN and series of the Redeemable Certificates and the number of Redeemable Certificates the subject of such Collection Notice;
- (B) specify the number of the Holder's account at the relevant Clearing System to be debited with the Redeemable Certificates the subject of such Collection Notice;
- (C) irrevocably instruct the relevant Clearing System to debit on or before the Redemption Date the Holder's account with the Redeemable Certificates the subject of such Collection Notice;
- (D) include an undertaking to pay all Expenses and an authority to the relevant Clearing System to debit a specified account of the Holder at the relevant Clearing System in respect thereof and to pay such Expenses;

- (E) specify the name and address of the relevant Holder and the person from whom the Issuer may obtain details for the delivery of the Entitlement or, in the case of Exempt W&C Securities, include such details as are required by the applicable Pricing Supplement for delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be delivered and specify the name and the number of the Holder's account with the relevant Clearing System to be credited with any cash payable by the Issuer, either in respect of any cash amount constituting the Entitlement or any dividends relating to the Entitlement or as a result of the occurrence of a Settlement Disruption Event or a Failure to Deliver due to Illiquidity and the Issuer electing to pay the Disruption Cash Settlement Price or Failure to Deliver Settlement Price, as applicable, or in respect of any Partial Cash Settlement Amount;
- (F) in the case of Currency Linked W&C Securities only, specify the number of the Holder's account at the relevant Clearing System to be credited with the amount due upon exercise of the Redeemable Certificates;
- (G) certify, *inter alia*, that the beneficial owner of each Redeemable Certificate which is the subject of such Collection Notice is not a U.S. Person, as defined in Condition 23.01, the Redeemable Certificate was not held on behalf of a U.S. Person and no cash, securities or other property have been or will be delivered within the United States or its possessions or to, or for the account or benefit of, a U.S. Person in connection with such exercise and, where appropriate, undertake to provide such various forms of certification in respect of selling restrictions under the securities, commodities and other laws of the United States of America as set out in the applicable Pricing Supplement; and
- (H) authorise the production of such certification in any applicable administrative or legal proceedings.

27.02 If Condition 4.04 applies, the form of Collection Notice required to be delivered will be different from that set out above. Copies of such Collection Notice may be obtained from Euroclear or Clearstream, Luxembourg.

Late Delivery and Non-delivery of Collection Notice

27.03 If a Holder so delivers a duly completed Collection Notice after the Cut-Off Date, the Entitlement shall be delivered as soon as practicable after the Redemption Date, provided that if a Holder does not so deliver a duly completed Collection Notice in accordance with this Condition 27.03 prior to the close of business in the place of receipt on the 180th calendar day following the Cut-Off Date, the Issuer's obligations in respect of such Redeemable Certificates shall be discharged and no further liability in respect thereof shall attach to the Issuer. For the avoidance of doubt, in such circumstances such Holder shall not be entitled to any payment, whether of interest or otherwise as a result of such Redemption Date falling after the originally designated Redemption Date and no liability in respect hereof shall attach to the Issuer.

After the delivery of a Collection Notice, the relevant Holder may not transfer the Redeemable Certificates to which the Collection Notice relates.

Verification of the Holder

27.04 Upon receipt of a Collection Notice, the relevant Clearing System shall verify that the person submitting the Collection Notice is the Holder of the relevant Redeemable Certificates

according to the books of the relevant Clearing System. Subject thereto, the relevant Clearing System will confirm to the Issuing and Paying Agent, the ISIN and series and the number of Redeemable Certificates being exercised, the relevant account details of the Holder (if applicable) and the details for the delivery of the Entitlement in respect of each Redeemable Certificate the subject of the relevant Collection Notice. Upon receipt of such confirmation, the Issuing and Paying Agent will inform the Issuer thereof. The relevant Clearing System will on or before the Redemption Date debit the account of the relevant Holder with the Redeemable Certificates the subject of the relevant Collection Notice.

Redemption

Cash Settled Redeemable Certificates

27.05 Subject as provided below, the Issuer shall pay or cause to be paid the Cash Settlement Amount (if any) for each Redeemable Certificate by credit or transfer to (i) the Holder's account with the relevant Clearing System, (ii) where the relevant Clearing System is Euroclear Finland, the account of each person registered as a Holder of such in the Finnish Securities Register on the Business Day prior to the Redemption Date or otherwise in accordance with the rules and regulations, official published decisions and procedures of and/or applied by Euroclear Finland from time to time, (iii) where the relevant Clearing System is Euroclear Sweden, the account of each person registered as a Holder of such in the Swedish Securities Register on the fifth (5) Banking Day (or in accordance with the rules and procedures applied by Euroclear Sweden from time to time), prior to the Redemption Date or (iv) where the relevant Clearing System is the VPS, the account of each person registered as a Holder of such in the Norwegian Securities Register on the second (2) Banking Day (or in accordance with the rules and procedures applied by the VPS from time to time), prior to the Redemption Date, in each case for value on the Redemption Date less any Expenses, such payment to be made in accordance with the rules of the relevant Clearing System. The Issuer will be discharged by payment to, or to the order of the relevant Clearing System in respect of the amount so paid. Each of the persons shown in the records of the relevant Clearing System as the holder of a particular number of the Redeemable Certificates must look solely to such Clearing System for its share of each such payment so made to, or to the order of such Clearing System.

Payments will, without prejudice to the provisions of Condition 12.03, be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, including without limitation those to which the Issuer or its Paying Agents, Finnish Issuing and Paying Agent, Swedish and Norwegian Issuing and Paying Agent and/or Registrar are subject, (ii) any withholding or deduction required pursuant to the FATCA Withholding Tax Rules and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code.

The Cash Settlement Amount is payable as consideration for the use of the Issue Price of the Redeemable Certificates and as compensation in recognition that the Cash Settlement Amount might otherwise have been less than the Issue Price.

Physical Delivery W&C Securities

27.06 Subject to payment of any Expenses with regard to the relevant Redeemable Certificates, the Issuer shall deliver, or procure the delivery of, the Entitlement for each Redeemable Certificate in respect of which a valid Collection Notice has been delivered as provided in Condition 27.01 pursuant to the details specified in the Collection Notice subject as provided in Condition 4.

Delivery of the Entitlement shall be made at the risk of the relevant Holder in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine to be appropriate and notified to the person designated by the Holder in the relevant Collection Notice

or, in the case of an Exempt W&C Security, in such manner as is specified in the applicable Pricing Supplement.

Determinations

27.07 Any determination as to whether a Collection Notice is duly completed and in proper form shall be made by the relevant Clearing System in consultation with the Issuing and Paying Agent, and shall be conclusive and binding on the Issuer, the Issuing and Paying Agent and the relevant Holder. Subject as set out below, any Collection Notice so determined to be incomplete or not in proper form, or which is not copied to the Issuing and Paying Agent and the Issuer immediately after being delivered or sent to Euroclear or Clearstream, Luxembourg, the Issuing and Paying Agent or the Issuer, as applicable, shall be null and void.

If such Collection Notice is subsequently corrected to the satisfaction of the relevant Clearing System in consultation with the Issuing and Paying Agent, it shall be deemed to be a new Collection Notice submitted at the time such correction was delivered to the relevant Clearing System and copied to the Issuing and Paying Agent and the Issuer.

The Clearing System, in consultation with the Issuing and Paying Agent, shall use its best efforts promptly to notify the Holder submitting a Collection Notice if it has determined that such Collection Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Issuing and Paying Agent or the Clearing System shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Holder.

28. Additional Amounts

Calculation of Additional Amounts

28.01 If so specified in the applicable Issue Terms, each Redeemable Certificate pays additional amounts from and including the Issue Date at the Additional Amount Rate payable in arrear on each Additional Amount Payment Date.

The additional amount payable in respect of each Redeemable Certificate on each Additional Amount Payment Date will amount to the Additional Amount for the Additional Amount Period ending on (but excluding) such Additional Amount Payment Date.

If an additional amount is required to be calculated for a period ending other than on (but excluding) an Additional Amount Payment Date, it will be calculated on the basis of the number of days from and including the most recent Additional Amount Payment Date (or, if none, the Issue Date) to but excluding the relevant payment date (the "**Calculation Period**") and the Additional Amount Rate Day Count Fraction.

Accrual of Additional Amount

28.02 Subject to Condition 5.03, each Redeemable Certificate will cease to accrue additional amount from and including the Additional Amount Cut-Off Date or, if earlier, the date on which the Redeemable Certificates are redeemed (the "**Cancellation Date**"), if applicable, in accordance with these Terms and Conditions unless payment of the amount and/or, in the case of Physical Delivery W&C Securities, delivery of any Entitlement due on the Redemption Date or Cancellation Date, as the case may be, is improperly withheld or refused or unless default is otherwise made in respect of the payment or delivery in which case additional amount(s) shall accrue from the date such amount or delivery of such Entitlement was due until such amount or delivery of such Entitlement is paid or delivered, as the case may be.

For the avoidance of doubt, no additional amount on the Redeemable Certificates shall accrue beyond (a) the Redemption Date in the event that delivery of any Entitlement is postponed due to the occurrence of a Settlement Disruption Event or (b) the Additional Amount Cut-Off Date,

notwithstanding that the Redemption Date may be postponed as provided in the applicable Issue Terms.

In the event that an Additional Amount Payment Date is postponed as provided in the applicable Issue Terms, no additional amount or other amount shall be payable on the Redeemable Certificates in respect of such delay.

Payment of Additional Amounts

28.03 Where the Redeemable Certificates pay additional amounts, subject as provided below, the Issuer shall pay or cause to be paid the Additional Amount for each Redeemable Certificate in respect of each Additional Amount Period on the relevant Additional Amount Payment Date by credit or transfer to the Holder's account with the relevant Clearing System for value on the relevant Additional Amount Payment Date, such payment to be made in accordance with the rules of the relevant Clearing System.

The Issuer will be discharged by payment to, or to the order of the relevant Clearing System in respect of the amount so paid. Each of the persons shown in the records of the relevant Clearing System as the holder of a particular amount of the Redeemable Certificates must look solely to the relevant Clearing System for its share of each such payment so made to, or to the order of, the relevant Clearing System.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, including without limitation those to which the Issuer or its Paying Agents, Finnish Issuing and Paying Agent, Swedish and Norwegian Issuing and Paying Agent and/or Registrar are subject, (ii) any withholding or deduction required pursuant to the FATCA Withholding Tax Rules and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code.

Where the Redeemable Certificates pay an Additional Amount, the Additional Amount is payable as consideration for the use of the Issue Price in respect of a Redeemable Certificate and as compensation for and in recognition that the Additional Amount on any or all of the Additional Amount Payment Dates may be equal to zero or less than a commercial rate of return on the Redeemable Certificates and/or that the Cash Settlement Amount and/or value of the Entitlement, as the case may be, may be less than the Issue Price. For the avoidance of doubt, in the event that the Additional Amount for an Additional Amount Payment Date is zero, no amount shall be payable by the Issuer in respect of such Additional Amount Payment Date.

29. Actively Managed Basket Linked Certificates

29.01 If the Redeemable Certificates are specified as Actively Managed Basket Linked Certificates in the applicable Issue Terms, then the provisions of this Condition 29 shall apply.

29.02 The Reference Portfolio

The Actively Managed Basket Linked Certificates are linked to the performance of a notional portfolio (the "**Reference Portfolio**") of shares, comprising each Share in a number of shares equal to the relevant Initial Number of Shares, as may be adjusted pursuant to Condition 29.03 below and as otherwise provided in these Conditions.

29.03 Reference Portfolio Rebalancing

(A) On any Scheduled Trading Day from (and including) the Issue Date the Rebalancing and Advisory Entity may (but for the avoidance of doubt is not obliged to) deliver a notice (a "**Proposed Rebalancing Notice**") to the Calculation Agent proposing adjustment(s) to the shares comprising the Reference Portfolio in accordance with the terms of the Rebalancing and Advisory Agreement (a "**Proposed Rebalancing**").

A Proposed Rebalancing Notice must relate to a Proposed Rebalancing which complies with the Reference Portfolio Criteria which includes, without limitation, the number of Rebalancings falling in any Rebalancing Frequency Period not exceeding the Maximum Rebalancing Number.

A valid Proposed Rebalancing Notice must specify (without limitation):

- (i) the proposed revised Target Weight (the "**Revised Target Weight**") in respect of each existing Share to remain comprised in the Reference Portfolio (the aggregate of the Revised Target Weights and any new Target Weights must equal 100 per cent.);
- (ii) any proposed new ordinary share (a "**New Share**") to constitute a Share comprised in the Reference Portfolio and its proposed Target Weight (the "**New Target Weight**"), Exchange and Related Exchange; and
- (iii) any proposed removal in full of a Share (a "**Removed Share**") from the Reference Portfolio.

The Issuer has the right to notify the Rebalancing and Advisory Entity that such Proposed Rebalancing is rejected (a "**Rejected Proposed Rebalancing**") for any reason in its sole and absolute discretion within the Rejection Number Business Days of receiving the Proposed Rebalancing Notice in accordance with the terms of the Rebalancing and Advisory Agreement, including without limitation, if the Issuer determines that:

- (i) were a Proposed Rebalancing to be effected it would not meet the Reference Portfolio Criteria;

- (ii) a Hypothetical Investor would be subject to any restrictions on buying and/or selling and/or holding shares the subject of the Proposed Rebalancing (as applicable in the context of the adjustment(s) therein) as a result of any laws, regulations or operational restrictions that would be applicable to such Hypothetical Investor, or such Hypothetical Investor would be unable, or it would be commercially impracticable for such Hypothetical Investor, to buy and/or sell and/or hold as aforesaid due to technical constraints, market and/or liquidity disruptions; and/or
- (iii) were a Proposed Rebalancing to be effected it would or could be contrary to any compliance, reputational and/or corporate social responsibility policy of the Issuer, the Calculation Agent and/or any of their respective Affiliates and/or the shares the subject of a Proposed Rebalancing are subject to any legal, regulatory and/or reputational constraints.

For the avoidance of doubt, none of the Issuer, the Calculation Agent nor the Rebalancing Appointing Entity is responsible for the proposals of the Rebalancing and Advisory Entity and in exercising any right of rejection the Issuer is not performing the role of the Rebalancing and Advisory Entity and none of the Issuer, the Calculation Agent nor the Rebalancing Appointing Entity will have any liability with respect to any determination as to whether a Proposed Rebalancing meets the Reference Portfolio Criteria.

If a Proposed Rebalancing is a Rejected Proposed Rebalancing, the relevant Proposed Rebalancing Notice will be of no effect and the Reference Portfolio composition will not be adjusted.

If a Proposed Rebalancing is not a Rejected Proposed Rebalancing, the composition of the Reference Portfolio will be adjusted (a "**Rebalancing**") to reflect the Proposed Rebalancing, such that:

- (i) the Target Weight in respect of each existing Share remaining comprised in the Reference Portfolio will be the relevant Revised Target Weight and the number of shares comprised in the Reference Portfolio in respect of each such Share will be adjusted by a number of shares equal to the Rebalancing Number of Shares in respect of such Share and the relevant Rebalancing Adjustment Effective Date;
- (ii) each New Share will constitute a Share comprised in the Reference Portfolio with a Target Weight of the relevant New Target Weight and in a number of shares equal to the Rebalancing Number of Shares in respect of such Share and the relevant Rebalancing Adjustment Effective Date; and
- (iii) each Removed Share will no longer constitute a Share comprised in the Reference Portfolio,

in each case with effect from (and including) the relevant Rebalancing Adjustment Effective Date, subject to any subsequent Rebalancing and, if Dividend Reinvestment is specified as applicable in the applicable Issue Terms, to adjustment on any subsequent Dividend Rebalancing Date as provided below and as otherwise provided in these Conditions.

If any such Rebalancing Adjustment Effective Date is also a Dividend Rebalancing Date, the provisions of Condition 29.03(B) below will first apply on such date and then the provisions of this Condition 29.03(A) will apply on such date.

No Proposed Rebalancing Notice may be given following a Rebalancing and Advisory Entity Event.

Details of any adjustment(s) to the Reference Portfolio made pursuant to a Rebalancing will be provided to a Holder upon request to the Calculation Agent at the Calculation Agent Notice Details (provided that such Holder produces evidence satisfactory to the Calculation Agent as to its holding of Redeemable Certificates and identity).

- (B) If "Dividend Reinvestment" is specified as applicable in the applicable Issue Terms, if an Ex-Dividend Date occurs in respect of a Share comprised in the Reference Portfolio, on the Dividend Rebalancing Date in respect of such Ex-Dividend and such Share whilst comprised in the Reference Portfolio, the number of shares comprised in the Reference Portfolio in respect of such Share will be adjusted to be equal to the Dividend Adjusted Number of Shares with effect from (and including) such Dividend Rebalancing Date, subject to subsequent Rebalancing and further Dividend Rebalancing Dates and as otherwise provided in these Conditions.

For the avoidance of doubt, if any such Dividend Rebalancing Date is also a Rebalancing Adjustment Effective Date, the provisions of this Condition 29.03(B) will first apply on such date and then the provisions of Condition 29.03(A) above will apply on such date.

Details of any such adjustment will be provided to a Holder upon request to the Calculation Agent at the Calculation Agent Notice Details (provided that such Holder produces evidence satisfactory to the Calculation Agent as to its holding of Redeemable Certificates and identity).

29.04 Potential Adjustment Events; De-listing, Merger Event, Tender Offer, Nationalisation and Insolvency; Additional Disruption Events; Share Non-Compliance; and Adjustments for Actively Managed Basket Linked Certificates in respect of Non-Euro Quoted Entities

- (i) If Potential Adjustment Events are specified as applicable in the applicable Issue Terms, then following the declaration by a Share Issuer of a Share comprised in the Reference Portfolio of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting, concentrative or other effect on the theoretical value of the relevant Share and, if so, the Issuer shall:

- (A) (1) require the Calculation Agent to make the corresponding adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (2) determine the effective date of that adjustment;

- (B) determine that the relevant Share be removed from the Reference Portfolio, in which case a "Rebalancing" will be deemed to occur pursuant to Condition 29.03, for which purposes (1) the relevant Share will be a Removed Share, (2) the Revised Target Weight for each remaining existing Share comprised in the Reference Portfolio will be equal to the Weight of such Share immediately prior to the Rebalancing, adjusted by a percentage representing the exposure of the Reference Portfolio to the Removed Share immediately prior to the Rebalancing shared equally across all such Shares, all as determined by the Calculation Agent, (3) the Calculation Agent will make any further adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as it determines appropriate to account for the deemed Rebalancing and adjustment to the Reference Portfolio and (4) the Rebalancing Adjustment Effective Date will be such date as determined by the Calculation Agent; or
- (C) after giving notice to the Holders in accordance with Condition 11, redeem all, but not some only, of the Redeemable Certificates, and pay an amount to each Holder in respect of each Redeemable Certificate held by such Holder, which amount shall be equal to (i) an amount calculated on the same basis as the Cash Settlement Amount, except for the purposes of such calculation the Specified Valuation Date shall be deemed to be the Early Redemption Valuation Date less (ii) the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), as determined by the Calculation Agent in its sole and absolute discretion, payment being made in such manner as shall be notified to the Holders in accordance with Condition 11.

If the provisions of Condition 29.04(i) apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Share traded on that options exchange.

Upon making an adjustment pursuant to Condition 29.04(i)(A), the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11, stating the adjustment made to the terms of these Conditions and/or the applicable Issue Terms and giving brief details of the Potential Adjustment Event provided that any failure to give, or non-receipt of, such notice will not affect the validity of such adjustment.

Upon removal of a Share pursuant to Condition 29.04(i)(B), the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11, of the removal and the deemed Rebalancing (including details thereof), provided that any failure to give, or non-receipt of, such notice will not affect the validity of such removal and deemed Rebalancing.

- (ii) If (x) De-listing, Merger Event, Nationalisation and/or Insolvency is specified as applicable in the applicable Issue Terms and/or (y) Tender Offer is specified as applicable in the applicable Issue Terms, and (in the case of (x)) a De-listing, Merger Event, Nationalisation or Insolvency occurs or (in the case of (y)) a

Tender Offer occurs, in each case, in relation to a Share comprised in the Reference Portfolio or a Share Issuer of such a Share, the Issuer may:

- (A) require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the terms of these Conditions and/or the applicable Issue Terms to account for the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment;
- (B) determine that the relevant Share be removed from the Reference Portfolio, in which case a "Rebalancing" will be deemed to occur pursuant to Condition 29.03, for which purposes (1) the relevant Share will be a Removed Share, (2) the Revised Target Weight for each remaining existing Share comprised in the Reference Portfolio will be equal to the Weight of such Share immediately prior to the Rebalancing, adjusted by a percentage representing the exposure of the Reference Portfolio to the Removed Share immediately prior to the Rebalancing shared equally across all such Shares, all as determined by the Calculation Agent, (3) the Calculation Agent will make any further adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as it determines appropriate to account for the deemed Rebalancing and adjustment to the Reference Portfolio and (4) the Rebalancing Adjustment Effective Date will be such date as determined by the Calculation Agent; or
- (C) after giving notice to the Holders in accordance with Condition 11, redeem all, but not some only, of the Redeemable Certificates, and pay an amount to each Holder in respect of each Redeemable Certificate held by such Holder, which amount shall be equal to (i) an amount calculated on the same basis as the Cash Settlement Amount, except for the purposes of such calculation the Specified Valuation Date shall be deemed to be the Early Redemption Valuation Date less (ii) the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), as determined by the Calculation Agent in its sole and absolute discretion, payment being made in such manner as shall be notified to the Holders in accordance with Condition 11.

If the provisions of Condition 29.04(ii) apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, made by an options exchange to options on the relevant Share traded on that options exchange.

Upon the occurrence (if applicable) of a De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11 stating the occurrence of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto provided that failure to give, or non-receipt of, such notice will not affect the validity of such action.

(iii) If Additional Disruption Events are specified as applicable in the applicable Issue Terms, then if an Additional Disruption Event occurs in respect of a Share comprised in the Reference Portfolio or a Share Issuer of such a Share, the Issuer may:

- (A) require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the terms of these Conditions and/or the applicable Issue Terms to account for the Additional Disruption Event and determine the effective date of that adjustment;
- (B) determine that the relevant Share be removed from the Reference Portfolio, in which case a "Rebalancing" will be deemed to occur pursuant to Condition 29.03, for which purposes (1) the relevant Share will be a Removed Share, (2) the Revised Target Weight for each remaining existing Share comprised in the Reference Portfolio will be equal to the Weight of such Share immediately prior to the Rebalancing, adjusted by a percentage representing the exposure of the Reference Portfolio to the Removed Share immediately prior to the Rebalancing shared equally across all such Shares, all as determined by the Calculation Agent, (3) the Calculation Agent will make any further adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as it determines appropriate to account for the deemed Rebalancing and adjustment to the Reference Portfolio and (4) the Rebalancing Adjustment Effective Date will be such date as determined by the Calculation Agent; or
- (C) give notice to the Holders in accordance with Condition 11 and redeem all, but not some only, of the Redeemable Certificates, and pay an amount to each Holder in respect of each Redeemable Certificate held by such Holder, which amount shall be equal to (i) an amount calculated on the same basis as the Cash Settlement Amount, except for the purposes of such calculation the Specified Valuation Date shall be deemed to be the Early Redemption Valuation Date less (ii) the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), as determined by the Calculation Agent in its sole and absolute discretion, payment being made in such manner as shall be notified to the Holders in accordance with Condition 11.

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11 stating the occurrence of the Additional Disruption Event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto, provided that failure to give, or non-receipt of, such notice will not affect the validity of such action.

(iv) Share Non-Compliance

If in the determination of the Calculation Agent a Share comprised in the Reference Portfolio becomes or will become a Prohibited Share, the relevant Share will be removed from the Reference Portfolio and a "Rebalancing" will be deemed to occur pursuant to Condition 29.03, for which purposes (1) the

relevant Share will be a Removed Share, (2) the Revised Target Weight for each remaining existing Share comprised in the Reference Portfolio will be equal to the Weight of such Share immediately prior to the Rebalancing, adjusted by a percentage representing the exposure of the Reference Portfolio to the Removed Share immediately prior to the Rebalancing shared equally across all such Shares, all as determined by the Calculation Agent, (3) the Calculation Agent will make any further adjustment, if any, to any one or more of the terms of these Conditions and/or the applicable Issue Terms, as it determines appropriate to account for the deemed Rebalancing and adjustment to the Reference Portfolio and (4) the Rebalancing Adjustment Effective Date will be such date as determined by the Calculation Agent.

(v) Non-Euro Quoted Shares

In respect of Actively Managed Basket Linked Certificates relating to Shares originally quoted, listed and/or dealt as of the Trade Date (in the case of a Share included in the Reference Portfolio since the Issue Date) or the relevant Rebalancing Adjustment Effective Date (in the case of a Share included in the Reference Portfolio as a result of a Rebalancing) in a currency of a member state of the European Union that has not adopted the euro, if the relevant Share is at any time after the Trade Date or Rebalancing Adjustment Effective Date (as applicable) quoted, listed and/or dealt exclusively in euro on the relevant Exchange or, where no Exchange is specified in the applicable Issue Terms, the principal market on which that Share is traded, then the Calculation Agent will adjust any one or more of the terms of these Conditions and/or the applicable Issue Terms as the Calculation Agent determines to be appropriate to preserve the economic terms of the Redeemable Certificates. The Calculation Agent will make any conversion necessary for purposes of any such adjustment as of the relevant Valuation Time at the official conversion rate, if any, or an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the relevant Valuation Time. No adjustments under this Condition 29.04(v) will affect the currency denomination of any payment obligation arising out of the Redeemable Certificates.

(vi) Correction of Prices or Levels of a Share

In the event that any price or level of a Share published by an Exchange which is utilised for any calculation or determination made for the purposes of the Redeemable Certificates is subsequently corrected, the corrected price or level is deemed to be the relevant price or level for such Share, provided that such correction is published and made available to the public by the relevant Exchange during a period following original publication equal in duration to the period in which a trade in the Share would customarily settle according to the rules of such Exchange, and further provided, that such publication of such correction is made sufficiently (in the discretion of the Calculation Agent) in advance of any relevant payment date to make such adjustment prior to the relevant date.

29.05 Rebalancing and Advisory Entity Event

If in the determination of the Calculation Agent a Rebalancing and Advisory Entity Event occurs:

- (A) following completion of any Rebalancing in respect of any valid Proposed Rebalancing Notice, there will be no further Proposed Rebalancing Notices, Proposed Rebalancings and related Rebalancings and accordingly no consequential adjustments to the composition of the Reference Portfolio notwithstanding that, unless the Issuer exercises its right pursuant to paragraph (B) below or the Redeemable Certificates are subject to other early redemption, the Redeemable Certificates will remain outstanding until the Redemption Date. For the avoidance of doubt, this is without prejudice to any other terms herein permitting adjustments to be made to the terms of the Redeemable Certificates and to any Rebalancing which may be deemed to occur pursuant to Condition 29.04; and
- (B) the Issuer may give notice to the Holders in accordance with Condition 11 and redeem all, but not some only, of the Certificates, and pay an amount to each Holder in respect of each Redeemable Certificate held by such Holder, which amount shall be equal to (i) an amount calculated on the same basis as the Cash Settlement Amount, except for the purposes of such calculation the Specified Valuation Date shall be deemed to be the Early Redemption Valuation Date less (ii) the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), as determined by the Calculation Agent in its sole and absolute discretion, payment being made in such manner as shall be notified to the Holders in accordance with Condition 11.

31. Index Linked W&C Securities

31.01 If the W&C Securities are specified as Index Linked W&C Securities in the applicable Issue Terms, then the provisions of this Condition 31 apply.

Adjustments to an Index and Additional Disruption Events

Successor Index Sponsor Calculates and Reports an Index

31.02 If a relevant Index is (A) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the **“Successor Index Sponsor”**) acceptable to the Calculation Agent, or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the **“Successor Index”**) will be deemed to be the Index.

Modification and Cessation of Calculation of an Index

31.03 If (x) on or prior to a Valuation Date, an Observation Date or an Averaging Date (or, in the case of Exempt W&C Securities, such other date as specified in the applicable Pricing Supplement), the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts and other routine events) (an **“Index Modification”**) or permanently cancels the Index and no Successor Index exists (an **“Index Cancellation”**), or (y) on a Valuation Date, an Observation Date or an Averaging Date (or, in the case of Exempt W&C Securities, such other date as specified in the applicable Pricing Supplement), the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Index (an **“Index Disruption”**) and, together with an Index Modification and an Index Cancellation, each an **“Index Adjustment Event”**) then the Issuer in its sole and absolute discretion may:

- (A) require the Calculation Agent in its sole and absolute discretion to determine if such Index Adjustment Event has a material effect on the W&C Securities and, if so, to calculate the Reference Level using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Valuation Date, Observation Date or Averaging Date or, in the case of Exempt W&C Securities, such other date as specified in the applicable Pricing Supplement, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event; or
- (B) on giving notice to the Holders in accordance with Condition 11, cancel the W&C Securities. If the W&C Securities are so cancelled, the Issuer will pay an amount to each Holder in respect of each W&C Security or Unit, as the case may be, held by it which amount shall be the fair market value of a W&C Security or a Unit, as the case may be, taking into account the Index Adjustment Event, together with accrued Additional Amounts (if applicable), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with Condition 11.

31.04 Upon the occurrence of an Index Adjustment Event, the Issuer shall give notice as soon as practicable to Holders in accordance with Condition 11 stating the occurrence of an Index Adjustment Event, giving details thereof and the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of such action. The Issuer will make available for inspection by Holders copies of any such determinations.

31.05 If Additional Disruption Events are specified as applicable in the applicable Issue Terms, then if an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may:

- (A) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the terms of these Terms and Conditions and/or the applicable Issue Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (B) give notice to the Holders in accordance with Condition 11 and cancel all, but not some only, of the W&C Securities, and pay any amount to each Holder in respect of each W&C Security or Unit, as the case may be, held by it which amount shall be the fair market value of a W&C Security or a Unit, as the case may be, taking into account the Additional Disruption Event, together with accrued Additional Amounts (if applicable), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of

funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion, payment being made in such manner as shall be notified to the Holders in accordance with Condition 11; or

- (C) if the applicable Issue Terms provide that “**Index Substitution**” is applicable, then on or after the Additional Disruption Event the Calculation Agent may select one or more indices (each a “**Substitute Index**”) in accordance with the Index Substitution Criteria to substitute in place of the Indices (each an “**Affected Index**”) which are affected by such Additional Disruption Event and each Substitute Index will be deemed to be an “Index” for the purposes of the W&C Securities, and the Calculation Agent will make such adjustment, if any, to any of the terms of the Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent in its sole and absolute discretion determines appropriate.

31.06 Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11 stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of such action. The Issuer shall make available for inspection by Holders copies of any such determinations.

Correction to an Index

31.07 In the event that any price or level published by the relevant Index Sponsor or Successor Index Sponsor which is utilised for any calculation or determination made for the purposes of the W&C Securities is subsequently corrected, the Calculation Agent will in its sole and absolute discretion adjust the terms of the W&C Securities to account for such correction, provided that such correction is published and made available to the public by the Index Sponsor or Successor Index Sponsor during a period following original publication equal in duration to the period in which a trade in futures or options contracts relating to the Index on the relevant Related Exchange would customarily settle according to the rules of such Related Exchange, or if there are multiple Related Exchanges in respect of the Index, the longest such period, and further provided, that such publication of such correction is made sufficiently (in the sole and absolute discretion of the Calculation Agent) in advance of the Redemption Date, Settlement Date or the relevant Additional Amount Payment Date to make such adjustment prior to the Redemption Date, Settlement Date or the relevant Additional Amount Payment Date, as the case may be.

If any Averaging Date is a Disrupted Day, then:

- (i) if 'Omission' is specified in the applicable Issue Terms, such Averaging Date will be deemed not to be a relevant Averaging Date for the purposes of determining the relevant Reference Level. If through the operation of this provision no Averaging Date would occur, then for the purposes of determining the Reference Level on the final Averaging Date, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day;
- (ii) if 'Postponement' is specified in the applicable Issue Terms, then for the purposes of determining the Reference Level, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the Index Linked W&C Securities; or
- (iii) if 'Modified Postponement' is specified in the applicable Issue Terms, then:
 - (A) where the W&C Securities relate to a single Index, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the Reference Level for that Averaging Date in accordance with sub paragraph (i)(B) of the definition of "Valuation Date" below;
 - (B) where the W&C Securities relate to a Basket of Indices and the applicable Issue Terms provide that "Common Disrupted Days" is not applicable, the Averaging Date for each Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Averaging Date, and the Averaging Date for each Index affected by the occurrence of a Disrupted Day (each an "**Affected Index**") shall be the first succeeding Valid Date in relation to such Affected Index. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of the Affected Index and (ii) the Calculation Agent shall determine the Reference Level for that Averaging Date in accordance with sub paragraph (ii)(B) of the definition of "Valuation Date" below; or
 - (C) where the W&C Securities relate to a Basket of Indices and the applicable Issue Terms provide that "Common Disrupted Days" is applicable, the Averaging Date for each Index shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that,

but for occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the relevant Reference Level for that Averaging Date in accordance with sub-paragraph (iii)(B) (including sub-paragraphs (x) and (y) thereof, as applicable) of the definition of "Valuation Date" below; and

- (D) "**Valid Date**" shall mean a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not or is not deemed to occur, and "**Common Valid Date**" shall mean a Scheduled Trading Day that is not a Disrupted Day for any Index comprised in the Basket of Indices and on which another Averaging Date does not or is deemed not to occur.

- 32.02** (i) If Potential Adjustment Events are specified as applicable in the applicable Issue Terms, then following the declaration by an Equity Issuer of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting, concentrative or other effect on the theoretical value of the Equities and, if so, the Issuer in its sole and absolute discretion shall either:
- (A) (1) require the Calculation Agent to make the corresponding adjustment, if any, to any one or more of the terms of these Terms and Conditions and/or the applicable Issue Terms, in each case, as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Equity) and (2) determine the effective date of that adjustment; or
 - (B) on giving notice to the Holders in accordance with Condition 11, cancel or redeem all, but not some only, of the W&C Securities, and pay an amount to each Holder in respect of each W&C Security or Unit, as the case may be, held by it, which amount shall be the fair market value of a W&C Security or Unit, as the case may be, taking into account the

relevant event, together with accrued Additional Amounts (if applicable), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus (in the case of Warrants), if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion, payment being made in such manner as shall be notified to the Holders in accordance with Condition 11; or

- (C) if the applicable Issue Terms provide that “**Equity Substitution**” is applicable, then on or after the relevant Potential Adjustment Event, the Calculation Agent may select one or more equities (each a “**Substitute Equity**”) in accordance with the Equity Substitution Criteria to substitute in place of the Equity or Equities (each an “**Affected Equity**”) which are affected by such Potential Adjustment Event and each Substitute Equity will be deemed to be an “Equity” and the relevant issuer of such equities, a “Equity Issuer” for the purposes of the W&C Securities, and the Calculation Agent will make such adjustment, if any, to any of the terms of the Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent in its sole and absolute discretion determines appropriate.

If the provisions of Condition 32.02(i)(A) apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Equities traded on that options exchange.

Upon making an adjustment pursuant to Condition 32.02(i)(A), the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11, stating the adjustment made to the terms of these Conditions and/or the applicable Issue Terms and giving brief details of the Potential Adjustment Event, provided that any failure to give, or non-receipt of, such notice will not affect the validity of such adjustment.

 - (B) where the Equity Linked W&C Securities relate to a Basket of Equities on giving notice to the Holders in accordance with Condition 11 cancel or redeem each W&C Security in part. If a W&C Security is so

cancelled or redeemed in part the portion (the "**Partial Amount**") of each such W&C Security representing the affected Equity(s) shall be cancelled and the Issuer will (x) pay to each Holder in respect of each W&C Security or Unit, as the case may be, held by it an amount equal to the fair market value of the Partial Amount, taking into account the Merger Event, Tender Offer, De-listing, Nationalisation or Insolvency, as the case may be, together with accrued Additional Amounts (if applicable), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion; and (y) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the terms of the Terms and Conditions and/or the applicable Issue Terms to account for such redemption or cancellation in part. If the provisions of Condition 32.02(ii) apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, made by an

options exchange to options on the Equities traded on that options exchange.

Upon the occurrence (if applicable) of a De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11 stating the occurrence of the De-listing, Merger Event, Tender Offer, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto, provided that failure to give, or non-receipt of, such notice will not affect the validity of such action.

- (iii) If Additional Disruption Events are specified as applicable in the applicable Issue Terms, then if an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may:
- (A) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the terms of these Terms and Conditions and/or the applicable Issue Terms, to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (B) give notice to the Holders in accordance with Condition 11 and cancel all, but not some only, of the W&C Securities, and pay an amount to each Holder in respect of each W&C Security or Unit, as the case may be, held by it, which amount shall be the fair market value of a W&C Security or Unit, as the case may be, taking into account the relevant Additional Disruption Event, together with accrued Additional Amounts (if applicable), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus (in the case of Warrants), if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion, payment being made in such manner as shall be notified to the Holders in accordance with Condition 11; or
 - (C) if the applicable Issue Terms provide that **“Equity Substitution”** is applicable, then on or after the relevant Additional Disruption Event, the Calculation Agent may select one or more equities (each a **“Substitute Equity”**) in accordance with the Equity Substitution Criteria to substitute in place of the Equity or Equities (each an **“Affected Equity”**) which are affected by such Additional Disruption Event and each Substitute Equity will be deemed to be an “Equity” and the relevant issuer of such equity, a “Equity Issuer” for the purposes of the W&C Securities, and the Calculation Agent will make such adjustment, if any, to any of the terms of the Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent in its sole and absolute discretion determines appropriate.

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11 stating the occurrence of the Additional Disruption Event,

as the case may be, giving details thereof and the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of such action to be taken.

(iv) Non-Euro Quoted Equities

In respect of Equity Linked W&C Securities relating to Equities originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the euro, if such Equities are at any time after the Trade Date quoted, listed and/or dealt exclusively in euro on the relevant Exchange or, where no Exchange is specified in the applicable Issue Terms, the principal market on which those Equities are traded, then the Calculation Agent will adjust any one or more of the terms of these Terms and Conditions and/or the applicable Issue Terms as the Calculation Agent determines in its sole and absolute discretion to be appropriate to preserve the economic terms of the W&C Securities. The Calculation Agent will make any conversion necessary for purposes of any such adjustment as of the relevant Valuation Time at the official conversion rate, if any, or an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the relevant Valuation Time. No adjustments under this Condition 32.02(iv) will affect the currency denomination of any payment obligation arising out of the W&C Securities.

(v) Correction of the Prices or Levels of an Equity

In the event that any price or level of an Equity published by an Exchange which is utilised for any calculation or determination made for the purposes of the W&C Securities is subsequently corrected, the corrected level or price is deemed to be the relevant price or level for such Equity, provided that such correction is published and made available to the public by the relevant Exchange during a period following original publication equal in duration to the period in which a trade in the Equity would customarily settle according to the rules of such Exchange, and further provided, that such publication of such correction is made sufficiently (in the sole and absolute discretion of the Calculation Agent) in advance of the Redemption Date, the Settlement Date or the Specified Additional Amount Payment Date, as the case may be, to make such adjustment prior to such relevant date.

Partial Lookthrough Depositary Receipt Provisions

32.03 Where the applicable Issue Terms specify that the “Partial Lookthrough Depositary Receipt Provisions” shall apply to an Equity, then the provisions set out in this Condition 32.03 shall apply, and, in relation to such Equity, the other provisions of this Condition 32 shall be deemed to be amended and modified as set out in this Condition 32.03.

The definition of “**Potential Adjustment Event**” shall be amended so that it reads as follows:

- (G) any other event having, in the opinion of the Calculation Agent, a diluting, concentrative or other effect on the theoretical value of the relevant Equities and/or Underlying Equities; or
- (H) the making of any amendment or supplement to the terms of the Deposit Agreement,

The Calculation Agent may (among other factors) have reference to any adjustment made by the Depositary under the Deposit Agreement.

If the Calculation Agent determines that no adjustment that it could make will produce a commercially reasonable result, it shall notify the Issuer and the Holders that the relevant consequence shall be the cancellation of the W&C Securities, in which case, on such date as selected by the Calculation Agent in its sole and absolute discretion, the Issuer shall cancel all but not some only of the W&C Securities, and pay any amount to each Holder in respect of each W&C Security or Unit, as the case may be, held by it, which amount shall be the fair market value of a W&C Security or a Unit, as the case may be, less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus (in the case of Warrants), if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion, payment being made in such manner as shall be notified to the Holders in accordance with Condition 11.

“Additional Disruption Event” means Change in Law, Hedging Disruption, Increased Cost of Hedging, Insolvency Filing in each case specified in the applicable Issue Terms or, in the case of an Exempt W&C Security, any other Additional Disruption Event specified in the applicable Pricing Supplement.

“Averaging Date” means each date specified as an Averaging Date in the applicable Issue Terms provided that if such date is not a Scheduled Trading Day, the Averaging Date shall be the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, such day is a Disrupted Day. If any Averaging Date is a Disrupted Day, then:

- (i) if ‘Omission’ is specified in the applicable Issue Terms, such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Reference Price. If through the operation of this provision, no Averaging Date would occur with respect to the relevant Valuation Date, then for the purposes of determining the Reference Price on the final Averaging Date, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day;
- (ii) if ‘Postponement’ is specified in the applicable Issue Terms then, for purposes of determining the Reference Price, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the Equity Linked Certificates; or
- (iii) if ‘Modified Postponement’ is specified in the applicable Issue Terms, then:
 - (A) where the W&C Securities relate to a single Equity, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day for the Equity shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the Reference Price for that Averaging Date in accordance with sub paragraph (i)(B) of the definition of “Valuation Date” below; or
 - (B) where the W&C Securities relate to a Basket of Equities and the applicable Issue Terms provide that “Common Disrupted Days” is not applicable, the Averaging Date for each Equity not affected by the occurrence of a Disrupted Day shall be the Scheduled Averaging Date, and the Averaging Date for each Equity affected by the occurrence of a Disrupted Day (each an “**Affected Equity**”) shall be the first succeeding Valid Date in relation to such Affected Equity. If the first succeeding Valid Date in relation to such Affected Equity has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled

Valuation Date, then (i) that eighth Scheduled Trading Day for such Equity shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of the Affected Equity and (ii) the Calculation Agent shall determine the Reference Price of the Affected Equity for that Averaging Date in accordance with sub paragraph (ii)(B) of the definition of “Valuation Date” below; or

- (C) where the W&C Securities relate to a Basket of Equities and the applicable Issue Terms provide that “Common Disrupted Days” is applicable, the Averaging Date for each Equity shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the relevant Reference Price for each Equity for that Averaging Date in accordance with sub-paragraph (iii)(B)(x) or (y), as applicable of the definition of “Valuation Date” below; and

35. Provisions relating to Exchange Traded Funds

Market Disruption

35.01 “Market Disruption Event” means, in respect of a Fund Share:

- (a) the occurrence or existence at any time during the one hour period that ends at the relevant Valuation Time:
 - (i) of any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise:
 - (A) relating to the relevant Fund Share on such Exchange; or

- (B) relating to securities that comprise 20 percent. or more of the level of the relevant Underlying Index or any relevant successor index; or
 - (C) in futures or options contracts relating to such Fund Shares or the relevant Underlying Index on any relevant Related Exchange, or
- (ii) of any event (other than an event described in (b) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to (A) effect transactions in, or obtain market values for, the Fund Shares on the Exchange, (B) effect transactions in, or obtain market values for securities that comprise 20 percent. or more of the level of the relevant Underlying Index, or (C) to effect transactions in, or obtain market values for, futures or options contracts relating to such Fund Shares or the relevant Underlying Index on any relevant Related Exchange,

which in either case the Calculation Agent determines is material; or

- (b) the closure on any Exchange Business Day of any relevant Exchange(s) or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or such Related Exchange(s), as the case may be, at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or such Related Exchange on such Exchange Business Day and (ii) the submission deadline for orders to be entered into such Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day.

35.02 For the purpose of determining whether a Market Disruption Event exists in respect of a Fund Share at any time, if an event giving rise to a Market Disruption Event occurs in respect of a security included in the relevant Underlying Index at that time, then the relevant percentage contribution of that security, to the level of the relevant Underlying Index shall be based on a comparison of (i) the portion of the level of the relevant Underlying Index attributable to that security, and (ii) the overall level of the relevant Underlying Index immediately before the occurrence of such Market Disruption Event.

The Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11 of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been a Valuation Date provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Disrupted Day.

Potential Adjustment Event

35.03 “Potential Adjustment Event” means any of the following:

- (i) a subdivision, consolidation or reclassification of relevant Fund Shares (unless resulting in a Merger Event or Tender Offer), or a free distribution or dividend of any such Fund Shares to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of the relevant Fund Shares of (A) such Fund Shares or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the ETF equally or proportionately

- (iv) a call by the ETF in respect of relevant Fund Shares that are not fully paid;
- (v) a repurchase by the ETF or any of its subsidiaries of relevant Fund Shares, whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) in respect of an ETF, an event that results in any shareholder rights being distributed or becoming separated from Fund Shares of common stock or other shares of the capital stock of the ETF pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- (vii) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Shares.

Following a Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Shares and, if so, will (a) make the corresponding adjustment(s), if any, to any one or more of the terms of the Terms and Conditions of the W&C Securities and/or the applicable Issue Terms as the Calculation Agent determines appropriate to account for that diluting or concentrative effect and (b) determine the effective date(s) of that adjustment(s). The Calculation Agent may, but need not, determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Fund Shares traded on such options exchange.

Upon the making of any such adjustment, the Calculation Agent shall as soon as is reasonably practicable under the circumstances give notice to the Holders in accordance with Condition 11 stating the adjustment made and giving brief details of the Potential Adjustment Event, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such adjustment.

“Material Underlying Event” means any of the following:

- (i) the investment objectives and/or policies in respect of the ETF are materially changed;
- (ii) an illegality occurs or a relevant authorisation or licence is revoked in respect of the ETF and/or the ETF is required by a competent authority (other than any holder of the Fund Shares) to redeem any Fund Shares;
- (iii) there is a change in any relevant jurisdiction in respect of any payments made by the ETF in respect of any Fund Share as a result of which the amounts paid or to be paid by the Hedging Entity in connection with hedging arrangements relating to the W&C Securities are materially reduced or otherwise adversely affected; and/or
- (iv) any other event occurs in relation to the ETF and/or the Fund Shares which is materially prejudicial to the Issuer in connection with the issue of the W&C Securities or to the Hedging Entity in connection with any hedging arrangements relating to the W&C Securities,

as determined by the Calculation Agent.

“Merger Date” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

“Merger Event” means, in respect of any relevant Fund Shares, any (i) reclassification or change of such Fund Shares that results in a transfer of or an irrevocable commitment to transfer all of such Fund Shares outstanding to another entity or person, (ii) consolidation, amalgamation, merger or binding share exchange of the ETF with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such ETF is the continuing entity and which does not result in any such reclassification or change of all such Fund Shares outstanding) or (iii) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Fund Shares of the relevant ETF that results in a transfer of or an irrevocable commitment to transfer all such Fund Shares (other than such Fund Shares owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the ETF or its subsidiaries with or into another entity in which the ETF is the continuing entity and which does not result in a reclassification or change of all such Fund Shares outstanding but results in the outstanding Fund Shares (other than Fund Shares

owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Fund Shares immediately following such event (a “**Reverse Merger**”), in each case if the Merger Date is on or before the Valuation Date (or such other date as is specified in the applicable Issue Terms).

“**Tender Offer Date**” means, in respect of a Tender Offer, the date on which shares, units or interests in the amount of the applicable percentage threshold are actually purchased or otherwise obtained (as determined by the Calculation Agent).

35.05 If a De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event occurs in relation to any Fund Share, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:

- (i) require the Calculation Agent, in its sole and absolute discretion, to determine the appropriate adjustment(s), if any, to be made to any one or more of the terms of the Terms and Conditions and/or the applicable Issue Terms to account for the De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event, as the case may be, and determine the effective date(s) of that adjustment(s). The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of the De-listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event made by any options exchange to options on the relevant Fund Share traded on that options exchange; or
- (ii) cancel the W&C Securities by giving notice to Holders in accordance with Condition 11. If the W&C Securities are so cancelled the Issuer will pay an amount to each Holder in respect of each W&C Security, or Unit, as the case may be, held by it which amount shall be the fair market value of a W&C Security, or Unit, as the case may be, taking into account the Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Material Underlying Event, as the case may be, together with accrued Additional Amounts (if applicable), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), plus (in the case of Warrants), if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with Condition 11.

Upon the occurrence of a Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Material Underlying Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11 stating the occurrence of the Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying

Event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Merger Event, Tender Offer, De-listing, Nationalisation or Insolvency, as the case may be.

35.06 Correction of the Reference Price

In the event that any price or level published by an Exchange which is utilised for any calculation or determination made under the W&C Securities is subsequently corrected, the Calculation Agent will in its sole and absolute discretion adjust the terms of the W&C Securities to account for such correction, provided that such correction is published and made available to the public by the relevant Exchange during a period following original publication equal in duration to the period in which a trade in the Fund Share would customarily settle according to the rules of such Exchange, and further provided, that such publication of such correction is made sufficiently (in the sole and absolute discretion of the Calculation Agent) in advance of the Redemption Date, the Settlement Date or the Specified Additional Amount Payment Date, as the case may be, to make such adjustment prior to such relevant date.

Additional Disruption Events

35.07 (a) “**Additional Disruption Event**” means any of Change in Law, Hedging Disruption, Insolvency Filing and/or Increased Cost of Hedging, in each case if specified in the applicable Issue Terms.

“**Change in Law**” means that, on or after the Trade Date (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in its sole and absolute discretion that (A) it has become illegal to hold, acquire or dispose of any relevant Fund Share or (B) the Issuer will incur a materially increased cost in performing its obligations in relation to the Fund Linked W&C Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer and/or the Hedging Entity).

“**Hedging Disruption**” means that the Hedging Entity is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Fund Linked W&C Securities, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

“**Increased Cost of Hedging**” means that the Hedging Entity would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Fund Linked W&C Securities, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or the Hedging Entity shall not be deemed an Increased Cost of Hedging.

“Insolvency Filing” means that the ETF institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the ETF shall not be deemed an Insolvency Filing.

- (b) If an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:
 - (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other Terms and Conditions and/or the applicable Issue Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) give notice to the Holders in accordance with Condition 11 and cancel the W&C Securities. If the W&C Securities are so cancelled the Issuer will pay an amount to each Holder in respect of each W&C Security or Unit, as the case may be, held by it which amount shall be the fair market value of a W&C Security or a Unit, as the case may be, taking into account the Additional Disruption Event, together with accrued Additional Amounts (if applicable), less the cost to the Hedging Entity of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), plus (in the case of Warrants), if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with Condition 11.
- (c) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 11, stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

35.08 Definitions (Exchange Traded Funds)

“Averaging Date” means each date specified as an Averaging Date in the applicable Issue Terms provided that if such date is not a Scheduled Trading Day, the Averaging Date shall be the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, such day is a Disrupted Day. If any Averaging Date is a Disrupted Day, then:

- (i) if ‘Omission’ is specified in the applicable Issue Terms, such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Reference Price. If through the operation of this provision, no Averaging Date would occur with respect to the relevant Valuation Date, then for the purposes of determining the Reference Price on the final Averaging Date, such Averaging Date shall be deemed to be a Valuation Date that was a Disrupted Day;
- (ii) if ‘Postponement’ is specified in the applicable Issue Terms then, for purposes of determining the Reference Price, such Averaging Date shall be deemed to

be a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the Fund Linked W&C Securities; or

- (iii) if 'Modified Postponement' is specified in the applicable Issue Terms, then:
- (A) where the W&C Securities relate to a single Fund Share, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day for the Fund Share shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the Reference Price for that Averaging Date in accordance with sub paragraph (i)(B) of the definition of "Valuation Date" below; or
 - (B) where the W&C Securities relate to a Basket of Fund Shares and the applicable Issue Terms provide that "Common Disrupted Days" is not applicable, the Averaging Date for each Fund Share not affected by the occurrence of a Disrupted Day shall be the Scheduled Averaging Date, and the Averaging Date for each Fund Share affected by the occurrence of a Disrupted Day (each an "**Affected Fund Share**") shall be the first succeeding Valid Date in relation to such Affected Fund Share. If the first succeeding Valid Date in relation to such Affected Fund Share has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day for such Fund Share shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) in respect of the Affected Fund Share and (ii) the Calculation Agent shall determine the Reference Price of the Affected Fund Share for that Averaging Date in accordance with sub paragraph (ii)(B) of the definition of "Valuation Date" below; or
 - (C) where the W&C Securities relate to a Basket of Fund Shares and the applicable Issue Terms provide that "Common Disrupted Days" is applicable, the Averaging Date for each Fund Share shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the original date, that, but for occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Valuation Date, then (i) that eighth Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is already an Averaging Date) and (ii) the Calculation Agent shall determine the relevant Reference Price for each Fund Share for that Averaging Date in accordance with sub

paragraph (iii)(B)(x) or (y), as applicable of the definition of “Valuation Date” below; and

- (D) “**Valid Date**” shall mean a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not or is not deemed to occur, and “**Common Valid Date**” shall mean a Scheduled Trading Day that is not a Disrupted Day for any Fund Share comprised in the Basket of Fund Shares and on which another Averaging Date does not or is deemed not to occur.

If such day is a Disrupted Day, then:

- (i) where the W&C Securities relate to a single Fund Share, the Observation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Observation Date is a Disrupted Day. In that case, (i) the eighth Scheduled Trading Day for such Fund Share shall be deemed to be the

Observation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent, shall, where practicable in the case of Exempt W&C Securities, determine the Reference Price in the manner set out in the applicable Pricing Supplement or, if not set out or not so practicable or in the case of Non-Exempt W&C Securities, determine the Reference Price in accordance with its good faith estimate of the value of the Fund Share as of the Valuation Time on that eighth Scheduled Trading Day; or

- (ii) where the W&C Securities relate to a Basket of Fund Shares and the applicable Issue Terms provide that “Common Disrupted Days” is not applicable, the Observation Date for each Fund Share not affected by the occurrence of a Disrupted Day shall be the Scheduled Observation Date, and the Observation Date for each Fund Share affected by the occurrence of a Disrupted Day (each an “**Affected Fund Share**”) shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Fund Share unless each of the eight Scheduled Trading Days immediately following the Scheduled Observation Date is a Disrupted Day relating to the Affected Fund Share. In that case, (i) the eighth Scheduled Trading Day shall be deemed to be the Observation Date for the Affected Fund Share, notwithstanding the fact that such day is a Disrupted Day and (ii) the Calculation Agent shall where practicable in the case of Exempt W&C Securities, determine the Reference Price in the manner set out in the applicable Pricing Supplement or, if not set out or if not so practicable or in the case of Non-Exempt W&C Securities, determine the Reference Price in accordance with its good faith estimate of the value of the Affected Fund Share as of the Valuation Time on that eighth Scheduled Trading Day; or
- (iii) where the W&C Securities relate to a Basket of Fund Shares and the applicable Issue Terms provide that “Common Disrupted Days” is applicable, the Observation Date for each Fund Share shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day for any Fund Share, unless each of the eight Scheduled Trading Days immediately following the Scheduled Observation Date is a Disrupted Day relating to any Fund Share. In that case, (A) the eighth Scheduled Trading Day shall be deemed to be the Observation Date for each Fund Share (notwithstanding the fact that such day is a Disrupted Day in respect of one or more Fund Shares (each an “**Affected Fund Share**”)); and (B) the Calculation Agent shall determine the Reference Price using (x) in relation to each Fund Share other than an Affected Fund Share, its price as provided in paragraph (ii) of the definition of Reference Price; and (y) in relation to each Affected Fund Share, its price as determined, in the case of Exempt W&C Securities, in the manner set out in the applicable Pricing Supplement, or if not set out or if not practicable in the case of Exempt W&C Securities, as its good faith estimate of the value of the Affected Fund Share as of the Valuation Time on that eighth Scheduled Trading Day.

of the Fund Share quoted on the relevant Exchange as determined by or on behalf of the Calculation Agent (or if, in the opinion of the Calculation Agent, no such Specified Price (or, as the case may be, price at the Valuation Time on the relevant date, if a Valuation Time is specified in the applicable Issue Terms) can be determined at such time, unless the relevant date is a Disrupted Day, the Calculation Agent's good faith estimate of the value of the Fund Share as at the Valuation Time on the relevant date) or as otherwise determined by the Calculation Agent subject to the provisions of this Condition 35. The amount determined pursuant to the foregoing shall be converted, if Exchange Rate is specified as applicable in the applicable Issue Terms, into the Specified Currency at the Exchange Rate and such converted amount shall be the Reference Price; and

- (ii) where the W&C Securities relate to a Basket of Fund Shares, an amount equal to the sum of the values calculated for each Fund Share as the Specified Price (or the price at the Valuation Time on the relevant date, if a Valuation Time is specified in the applicable Issue Terms) of the Fund Share quoted on the relevant Exchange as determined by or on behalf of the Calculation Agent (or if, in the opinion of the Calculation Agent, no such Specified Price (or price at the Valuation Time on the relevant date, if a Valuation Time is specified in the applicable Issue Terms) can be determined at such time, unless the relevant date is a Disrupted Day, the Calculation Agent's good faith estimate of the value of the Fund Share at the Valuation Time on the relevant date), or as otherwise determined by the Calculation Agent subject to the provisions of this Condition 35, multiplied by the relevant Weighting. “Scheduled Averaging Date” means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been an Averaging Date.

“Scheduled Closing Time” means, in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

“Scheduled Observation Date” means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been an Observation Date.

“Scheduled Trading Day” means any day on which each Exchange and each Related Exchange are scheduled to be open for trading for their respective regular trading sessions.

Whether or not a day is a Scheduled Trading Day will be determined based on circumstances at such time as the Calculation Agent determines appropriate and therefore may be based on schedules applicable after the Trade Date and/or the Issue Date.

- (i) where the W&C Securities relate to a single Fund Share, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day. In that case, (A) the eighth Scheduled Trading Day for the Fund Share shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day and (B) the Calculation Agent shall, where practicable in the case of Exempt W&C Securities, determine the Reference Price in the manner set out in the applicable Pricing Supplement or, if not set out or not so practicable or in the case of Non-Exempt W&C Securities, determine the Reference Price in accordance with its good faith estimate of the value of the Fund Share as of the Valuation Time on that eighth Scheduled Trading Day;

Scheduled Valuation Date is a Disrupted Day relating to any Fund Share. In that case, (A) the eighth Scheduled Trading Day shall be deemed to be the Valuation Date for each Fund Share (notwithstanding the fact that such day is a Disrupted Day in respect of one or more Fund Shares (each an “**Affected Fund Share**”)); and (B) the Calculation Agent shall determine the Reference Price using (x) in relation to each Fund Share other than an Affected Fund Share, its price as provided in paragraph (ii) of the definition of Reference Price; and (y) in relation to each Affected Fund Share, its price as determined, in the case of Exempt W&C Securities, in the manner set out in the applicable Pricing Supplement, or if not set out or if not practicable or in the case of Non-Exempt W&C Securities, as its good faith estimate of the value of the Affected Fund Share as of the Valuation Time on that eighth Scheduled Trading Day.

If the W&C Securities are specified as Commodity Linked W&C Securities in the applicable Issue Terms, then the provisions of this Condition 36 shall apply.

36.01 Market Disruption Event and Disruption Fallback

If, in the opinion of the Calculation Agent, a Market Disruption Event (as defined below) has occurred and is continuing on the Pricing Date (or, if different, the day on which the price for the Pricing Date would, in the ordinary course, be published by the Price Source), the Relevant Price (or method for determining the Relevant Price) for the Pricing Date will be determined by the Calculation Agent in accordance with the first applicable Disruption Fallback (as set out below) that provides a Relevant Price:

- (a) Market Disruption Event

“**Market Disruption Event**” means the occurrence of any of the following events:

- (i) with respect to all Commodities:
 - (A) Price Source Disruption;
 - (B) Commodity Trading Disruption;
 - (C) Disappearance of Commodity Reference Price; and

- (D) in the case of an Exempt W&C Security, any additional Market Disruption Events specified in the applicable Pricing Supplement; and
- (ii) with respect to all Commodities other than gold, silver, platinum or palladium:
 - (A) Material Change in Formula;
 - (B) Material Change in Content; and
 - (C) in the case of an Exempt W&C Security, any additional Market Disruption Events specified in the applicable Pricing Supplement; and
- (iii) with respect to a Commodity Index:
 - (A) a temporary or permanent failure by the applicable exchange or other price source to announce or publish (x) the Commodity Reference Price (provided that the Calculation Agent may, in its sole and absolute discretion, determine that such failure shall not be a Market Disruption Event and (i) shall fall within paragraph (i) of the proviso to the definition of Price Source in Condition 36.06, or (ii) shall be an Index Adjustment Event in respect of such Commodity Index) or (y) the closing price for any futures contract included in the Commodity Index;
 - (B) a material limitation, suspension or disruption of trading in one or more of the futures contracts included in the Commodity Index which results in a failure by the exchange on which each applicable futures contract is traded to report a closing price for such contract on the day on which such event occurs or any succeeding day on which it continues; or
 - (C) the closing price for any futures contract included in the Commodity Index is a "limit price", which means that the closing price for such contract for a day has increased or decreased from the previous day's closing price by the maximum amount permitted under applicable exchange rules.

(iv) Disruption Fallback

"Disruption Fallback" means a source or method that may give rise to an alternative basis for determining the Relevant Price in respect of a specified Commodity Reference Price when a Market Disruption Event occurs or exists on a day that is a Pricing Date in respect of the W&C Securities. A Disruption Fallback is applicable if it is specified in the applicable Issue Terms or, if no Disruption Fallback is specified in the applicable Issue Terms, shall mean:

- (A) with respect to a relevant Commodity (in the following order):
 - I. Fallback Reference Price (if applicable);
 - II. Delayed Publication or Announcement and Postponement (each to operate concurrently with the other and each subject to a period of two consecutive Commodity Business Days (measured from and including the original day that would otherwise have been the Pricing Date)) provided, however, that the price determined by Postponement shall be the

Relevant Price only if Delayed Publication or Announcement does not yield a Relevant Price within those two consecutive Commodity Business Days; and

III. Calculation Agent Determination;

(B) with respect to a Commodity Index the Calculation Agent shall determine the Relevant Price:

(a) using:

(i) with respect to each futures contract included in the Commodity Index which is not affected by the Market Disruption Event, the closing prices of each such contract on the applicable determination date; and

(ii) with respect to each futures contract included in the Commodity Index which is affected by the Market Disruption Event, the closing prices of each such contract on the first day following the applicable determination date on which no Market Disruption Event is occurring with respect to such contract; or

(b) in the case of an Exempt W&C Security, as specified in the applicable Pricing Supplement.

Subject as provided below, the Calculation Agent shall determine the Relevant Price by reference to the closing prices determined in (a)(i) and (a)(ii) above or as provided in (b) above using the then current method for calculating the Commodity Reference Price.

Where a Market Disruption Event with respect to one or more futures contracts included in the Commodity Index has occurred on an applicable determination date and continues to exist as of the relevant Commodity Index Cut-Off Date for such applicable determination date, the Calculation Agent shall determine the Relevant Price on such Commodity Index Cut-Off Date. In calculating the Relevant Price as set out herein, the Calculation Agent shall use the formula for calculating the Commodity Reference Price last in effect prior to the Market Disruption Event.

36.02 Adjustments to a Commodity Index

(a) Successor Index Sponsor Calculates and Reports a Commodity Index

If a relevant Commodity Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the “**Successor Index Sponsor**”) acceptable to the Issuer, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then in each case that index (the “**Successor Index**”) will be deemed to be the Commodity Index.

(b) **Modification and Cessation of Calculation of a Commodity Index**

If on or prior to a Pricing Date (i) the relevant Index Sponsor makes a material change in the formula for or the method of calculating a relevant Commodity Index or in any other way materially modifies that Commodity Index (other than a modification prescribed in that formula or method to maintain that Commodity Index in the event of changes in constituent commodities and weightings and other routine events), or (ii) the Index Sponsor permanently cancels a relevant Commodity Index or (iii) the Index Sponsor fails to calculate and announce a relevant Commodity Index and there is no Successor Index Sponsor or Successor Index then the Calculation Agent may at its option (in the case of (i)) and shall (in the case of (ii) and (iii)) (such events (i) (ii) and (iii) to be collectively referred to as “**Index Adjustment Events**”) (provided that the Calculation Agent may, in its sole and absolute discretion, determine that event (iii) shall not be an Index Adjustment Event but (y) shall fall within paragraph (i) of the proviso to the definition of Price Source specified in Condition 36.06, or (z) shall be a Market Disruption Event in respect of such Commodity Index) calculate the Relevant Price using in lieu of the published level for that Commodity Index, the level for that Commodity Index as at the relevant determination date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Commodity Index last in effect prior to the relevant Index Adjustment Event, but using only those futures contracts that comprised that Commodity Index immediately prior to the relevant Index Adjustment Event (other than those futures contracts that have ceased to be listed on any relevant exchange).

36.03 Correction to Published Prices

For purposes of determining or calculating the Relevant Price, if the price published or announced on a given day and used or to be used by the Calculation Agent to determine a Relevant Price is subsequently corrected and the correction is published or announced by the person responsible for that publication or announcement within 30 calendar days after the original publication or announcement (or, if earlier, the day falling two Commodity Business Days preceding the date on which payment of any amount or delivery of any amount of assets to be calculated by reference to such Relevant Price), the Calculation Agent may, in its sole discretion, use such corrected price in such calculation.

36.04 Common Pricing

If with respect to Commodity Linked W&C Securities relating to a Basket of Commodities, “Common Pricing” is specified in the applicable Issue Terms as:

- (i) “Applicable” then, no date will be a Pricing Date unless such date is a day on which all referenced Commodity Reference Prices (for which such date would otherwise be a Pricing Date) are scheduled to be published or announced, as determined on the Trade Date of the Securities; or
- (ii) “Not Applicable” then, if the Calculation Agent determines that a Market Disruption Event has occurred or exists on the Pricing Date in respect of any relevant Commodity and/or Commodity Index (each an “**Affected Commodity**”), the Relevant Price of each Commodity and/or Commodity Index within the basket which is not affected by the occurrence of a Market Disruption Event shall be determined on its scheduled Pricing Date and the Relevant Price for each Affected Commodity shall be determined in accordance with the first applicable Disruption Fallback that provides a Relevant Price.

All determinations made by the Calculation Agent pursuant to this condition will be conclusive and binding on the Holders and the Issuer, except in the case of manifest error.

USE OF PROCEEDS

In the case of Non-Exempt Securities and Swiss Non-Exempt Securities, and except as otherwise set out in the applicable Final Terms (including, without limitation, in relation to Green Bonds, Social Bonds or Sustainability Bonds as described below), the net proceeds of the issue of each Tranche of Securities will be added to the general funds of the Issuer or used by the Issuer and/or its affiliates for hedging the Securities.

Green Bonds, Social Bonds and Sustainability Bonds

Where the Securities are specified as being “Green Bonds” and for green purposes (“**Green Bonds**”), “Social Bonds” and for social purposes (“**Social Bonds**”) or “Sustainability Bonds” and for sustainability purposes (“**Sustainability Bonds**” and, together with Green Bonds and Social Bonds, “**Sustainable Bonds**”), in “Reasons for the offer” in Part B of the applicable Issue Terms for a Tranche of Notes, the proceeds of the issue will be used as follows:

- **Green Bonds** - to finance and/or refinance, in part or in full, relevant Eligible Assets consisting of Green Assets (as defined below) in accordance with the Sustainable Bond Framework;
- **Social Bonds** - to finance and/or refinance, in part or in full, relevant Eligible Assets consisting of Social Assets (as defined below) in accordance with the Sustainable Bond Framework; and
- **Sustainability Bonds** - to finance and/or refinance, in part or in full, relevant Eligible Assets consisting of Green Assets and Social Assets in accordance with the Sustainable Bond Framework.

Eligible Assets may include, but are not limited to, loans to organizations, businesses and projects that meet the eligibility criteria as described in the Issuer’s Sustainable Bond Framework dated June 2020 (as may be amended from time to time) and available (in English and French respectively) on the following webpages: <https://www.rbc.com/investor-relations/assets-custom/pdf/RBC-Sustainable-Bond-Framework-EN.pdf> and <https://www.rbc.com/investisseurs/assets-custom/pdf/Cadre-des-obligations-durables-RBC-FR.pdf> (the “**Sustainable Bond Framework**”). The Sustainable Bond Framework addresses the four core components of the International Capital Market Association’s (“**ICMA**”) Green Bond Principles 2018, Social Bond Principles 2018 and Sustainability Bond Guidelines 2018.

The “Eligible Categories” for the purposes of the eligibility criteria for Green Bonds and Sustainability Bonds (“**Green Assets**”) in the Sustainable Bond Framework consist of the following categories (all as more fully described in the Sustainable Bond Framework):

- Renewable energy
- Energy efficiency
- Pollution prevention and control
- Sustainable land use
- Clean transportation
- Sustainable water and wastewater management
- Green buildings
- Climate adaptation and resilience

The “Eligible Categories” for the purposes of the eligibility criteria for Social Bonds and Sustainability Bonds (“**Social Assets**”) in the Sustainable Bond Framework consist of the following categories (all as more fully described in the Sustainable Bond Framework):

- Access to essential services
- Affordable housing
- Indigenous communities and businesses
- Women-owned businesses
- Leadership in diversity and inclusion

Where an organization derives 90 per cent. or more of its revenues from activities in the Eligible Categories above, it will be considered as eligible for financing from Sustainable Bonds, as applicable. In such instances, the use of proceeds can be used by the organization for general purposes, so long as this financing does not fund activities that contravene the Eligible Categories.

The Issuer will not knowingly allocate any proceeds from the issuance of Sustainable Bonds to finance any entity whose current principal industry or primary activity has been assessed by the Issuer as being weapons, tobacco, gambling, adult entertainment and/or predatory lending.

The Issuer will maintain a register of Eligible Assets, which will include separate portfolios of assets: Green, Social and Sustainability (together, the “**Sustainable Bond Asset Portfolios**”). The Sustainable Bond Asset Portfolios will be reviewed by the Issuer’s Sustainable Bond Working Group (the “**Working Group**”) on a quarterly basis to ensure that all Eligible Assets continue to meet the Eligible Categories. Assets that have been terminated or no longer comply will be removed from the Sustainable Bond Asset Portfolios. All Eligible Assets in the Issuer’s Sustainable Bond Asset Portfolios will be tagged accordingly as Eligible Assets in the Issuer’s information management systems.

The proceeds will be managed in a portfolio approach, and the Green, Social and Sustainability portfolios will be managed separately. The Working Group of the Issuer will monitor the aggregate amount of assets in each of the Issuer’s Sustainable Bond Asset Portfolios on a quarterly basis to ensure that the total Eligible Assets in each portfolio is equal to or greater than the relevant aggregate amount of proceeds raised by the Issuer’s Green Bonds, Social Bonds or Sustainability Bonds (as applicable).

If for any reason the relevant aggregate amount of Eligible Assets in the Issuer’s Sustainable Bond Asset Portfolios is less than the total outstanding amount of the relevant Green Bonds, Social Bonds or Sustainability Bonds (as applicable) issued, the Issuer will hold the unallocated amount in cash or liquid securities in accordance with the Issuer’s normal liquidity management policy until the amount can be allocated to the relevant Eligible Assets.

The Issuer intends to publish reporting in respect of its Sustainable Bonds within a year from relevant issuance, to be renewed annually until full allocation and in case of any material changes. Such reporting will be made publicly available through <http://www.rbc.com> and may include (but will not be limited to):

- Net proceeds raised from each of the Issuer’s Green Bonds, Social Bonds and Sustainability Bonds;
- Aggregate amounts of funds allocated to each of the Eligible Categories; and

- The balance of unallocated proceeds from the Issuer's Sustainable Bonds at the reporting period end.

Where feasible, the Issuer will provide further information and examples of eligible organizations, businesses and projects financed or refinanced by the Sustainable Bonds, including quantitative performance measures. Disclosure of information related to Use of Proceeds, impact reporting, and organizations, businesses and projects financed or refinanced will be made, subject to the Issuer's confidentiality obligations and the availability of information.

Pursuant to the recommendations under the Green Bond Principles 2018, Social Bond Principles 2018 and Sustainability Bond Guidelines 2018 published by the ICMA, the Issuer has obtained a "second party opinion" from an appropriate provider, which will also be available on: <https://www.rbc.com/investor-relations/assets-custom/pdf/RBC-Sustainable-Bond-Framework-Second-Party-Opinion.pdf>.

None of the Dealers will verify or maintain the application of proceeds of any Sustainable Bonds during the life of the relevant Sustainable Bonds.

The Issuer may request, on an annual basis, a limited assurance report of the allocation of proceeds from the Issuer's Sustainable Bonds to Eligible Assets provided by its external auditor.

⁴ It is the practice of S&P USA to present an issuer’s preferred share ratings on both the global rating scale and on the Canadian national scale when listing the ratings for a particular issuer.

See pages 28 to 30 of the 2020 AIF incorporated by reference into this Base Prospectus for a definition of the categories of each of the credit ratings referred to above.

Credit ratings including stability or provisional ratings (collectively, “**Ratings**”) are not recommendations to purchase, sell or hold a security or financial obligation inasmuch as they do not comment on market price or suitability for a particular investor. Ratings may not reflect the potential impact of all risks on the value of securities or financial obligation. In addition, real or anticipated changes in the rating assigned to a security or financial obligation will generally affect the market value of that security or financial obligation. Ratings are determined by the rating agencies based on criteria established from time to time by them and are subject to revision or withdrawal at any time by the rating organization. Each Rating listed in the chart above should be evaluated independently of any other Rating applicable to the Issuer’s debt and preferred shares. As is customary, the Issuer pays ratings agencies to assign Ratings for the parent company as well as its subsidiaries, and for certain other services.

DESCRIPTION OF THE PREFERENCE SHARE ISSUER AND THE PREFERENCE SHARES

The following is a summary description of the Preference Share Issuer and the Preference Shares.

The Preference Share Issuer

RBC GELP (UK) Limited (the "**Preference Share Issuer**" or "**RBC GELP**") is a private company limited by shares and was incorporated under the Companies Act 2006 on 10 October 2012 (with registered number 7804433). RBC GELP is governed by the laws of England and Wales and has its registered office at 100 Bishopsgate, London EC2N 4AA, England.

The sole business activity of RBC GELP is to issue redeemable preference shares. Accordingly, RBC GELP does not have any trading assets and does not generate any significant net income.

A copy of RBC GELP's constitutional documents and the Preference Share terms and conditions are available (free of charge) from the registered office of RBC GELP at 100 Bishopsgate, London EC2N 4AA, England.

The Preference Shares

The Preference Share Issuer will from time to time issue tranches of 100 redeemable preferred shares (the "**Preference Shares**") with a par value of £0.01 each. The Preference Shares will be issued fully paid to Royal Bank of Canada and at a premium of £0.99, for total consideration of £1.00 each.

The Preference Share Issuer may issue redeemable preference shares of any kind, including but not limited to preference shares linked to a specified index or basket of indices, share or basket of shares, currency or basket of currencies, debt instrument or basket of debt instruments, commodity or basket of commodities, fund unit or share or basket of fund units or shares or to such other underlying instruments, bases of reference or factors (each a "**Preference Share Underlying**") and on such terms as may be determined by the Preference Share Issuer and specified in the applicable terms and conditions of the relevant series of preference shares (the "**Preference Share Terms**"). The Preference Share Terms, and any non-contractual obligations arising out of or in connection with the Preference Share Terms and any non-contractual obligations arising out of or in connection with them, are governed by and construed in accordance with English law.

The Preference Share Terms provide that the Preference Shares will be redeemable on their final redemption date (or otherwise in accordance with the Preference Share Terms). On redemption, the Preference Shares will carry preferred rights to receive an amount calculated by reference to the performance of the Preference Share Underlying.

The Preference Share Terms also provide that the Preference Share Issuer may redeem the Preference Shares early if:

- (a) the calculation agent in respect of the Preference Shares determines that for reasons beyond the Preference Share Issuer's control, the performance of the Preference Share Issuer's obligations under the Preference Shares has become illegal or impractical in whole or in part for any reason; or
- (b) any event occurs in respect of which the provisions of the Preference Share Terms relating to any adjustment, delay, modification, cancellation or determination in relation to the Preference Share Underlying, the valuation procedure for the Preference Share Underlying or the Preference Shares provide that the Preference Shares may be redeemed; or

- (c) a change in applicable law or regulation occurs that in the determination of the Preference Share Calculation Agent results, or will result, by reason of the Preference Shares being outstanding, in the Preference Share Issuer being required to be regulated by any additional regulatory authority, or being subject to any additional legal requirement or regulation or tax considered by the Preference Share Issuer to be onerous to it; or
- (d) the Preference Share Issuer is notified that the Preference Share Linked Notes have become subject to early redemption.

The value of the Preference Shares will be published on each Business Day on the Bloomberg service on page RBPB.

The Preference Share Underlying

The performance of the Preference Shares depends on the performance of the Preference Share Underlying to which the relevant Preference Shares are linked.

Investors should review the Preference Share Terms and the Preference Share Issuer's constitutional documents and consult with their own professional advisers if they consider it necessary.

TAXATION

Tax legislation, including in the country where the investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Securities.

Canadian Taxation

The following summary describes the principal Canadian federal withholding tax considerations under the *Income Tax Act* (Canada) (the “**Act**”) and *Income Tax Regulations* (the “**Regulations**”) generally applicable to a holder of Securities who acquires such Securities pursuant to the Base Prospectus or common shares of the Issuer or any of its affiliates on a Bail-in Conversion (“**Common Shares**”), and who, for the purposes of the Act and at all relevant times: (i) is not resident and is not deemed to be resident in Canada, (ii) deals at arm’s length and is not affiliated with the Issuer, any issuer of Common Shares, and any Canadian resident (or deemed Canadian resident) to whom the holder assigns, disposes of or otherwise transfers the Securities, (iii) is entitled to receive all payments (including any interest, principal and Additional Amounts) made on the Securities as beneficial owner, (iv) does not use or hold and is not deemed to use or hold Securities in or in the course of carrying on a business in Canada, (v) is not a “specified non-resident shareholder” of the Issuer for purposes of the Act or a non-resident person not dealing at arm’s length with a “specified shareholder” (within the meaning of subsection 18(5) of the Act) of the Issuer; and (vi) is not an insurer carrying on an insurance business in Canada and elsewhere (a “**Non-resident Holder**”).

Any Non-resident Holder to which this summary does not apply should consult its own tax advisor with respect to the tax consequences of acquiring, holding and disposing of the Securities. This summary assumes that no interest paid or deemed to be paid on the Securities will be in respect of a debt or other obligation to pay an amount to a person with whom the Issuer does not deal at arm's length for purposes of the Act.

This summary is based upon the provisions of the Act and the Regulations in force on the date hereof, proposed amendments to the Act and the Regulations in a form publicly announced prior to the date hereof by or on behalf of the Minister of Finance (Canada) (included for this purpose in the reference to the Act and Regulations) and the current administrative policies and assessing practices published in writing by the Canada Revenue Agency. This summary assumes that such proposed amendments will be enacted as currently proposed but no assurance can be given that this will be the case. This summary does not take into account or anticipate any other changes in law, whether by legislative, governmental or judicial action or interpretation, nor does it take into account provincial, territorial or foreign income tax legislation. Subsequent developments could have a material effect on the following description.

It is the intention of the Issuer that the terms and conditions of any Security, and in particular, any Reference Item(s) in respect of such Security, will not cause the Security to be “taxable Canadian property” (within the meaning of the Act). On this basis, this summary assumes that the Securities issued pursuant to this Base Prospectus will not be taxable Canadian property for Canadian federal income tax purposes. Non-resident Holders should consult their own tax advisors to determine whether a particular Security will be taxable Canadian property in their particular circumstances and to determine their Canadian federal income tax obligations in this regard.

This summary is of a general nature only, and is not intended to be, nor should it be considered to be, legal or tax advice to any particular person including any Non-resident Holder. This summary describes only the Canadian federal withholding tax considerations associated with a Non-resident Holder acquiring, holding and disposing

of a Security and a Common Share and does not describe any other Canadian federal income tax considerations which may be relevant to a prospective investor's decision to acquire Securities pursuant to the Base Prospectus. In particular, this summary does not describe the Canadian federal income tax considerations (including withholding tax) associated with holding or disposing of any property acquired on the repayment of, in satisfaction of, or on the exercise of, a Security. Prospective investors, including Non-resident Holders, should therefore consult their own legal and/or tax advisers with respect to their particular circumstances.

The Canadian federal withholding tax considerations applicable to Securities may be described more particularly, when such Securities are offered (and then only to the extent that they differ materially from the summary contained herein), in the Drawdown Prospectus or, in the case of Exempt Securities, in the Pricing Supplement, as appropriate, related thereto. In the event the Canadian federal income tax considerations are described in the Drawdown Prospectus or, in the case of Exempt Securities, in the Pricing Supplement, as appropriate, the following description will be superseded by the description in such document to the extent indicated therein.

For the purposes of the Act, all amounts not otherwise expressed in Canadian dollars must be converted to Canadian dollars based on the single day exchange rate, as quoted by The Bank of Canada for the applicable day or such other rate of exchange that is acceptable to the Minister of National Revenue (Canada).

Notes

Interest paid or credited or deemed to be paid or credited by the Issuer on a Note (including amounts on account or in lieu of payment of, or in satisfaction of, interest) to a Non-resident Holder will not be subject to Canadian non-resident withholding tax unless all or any portion of such interest (other than on a "prescribed obligation" described below) is contingent or dependent on the use of or production from property in Canada or is computed by reference to revenue, profit, cash flow, commodity price or any other similar criterion or by reference to dividends paid or payable to shareholders of any class or series of shares of the capital stock of a corporation ("**Participating Debt Interest**"). A "**prescribed obligation**" is a debt obligation the terms or conditions of which provide for an adjustment to an amount payable in respect of the obligation for a period during which the obligation was outstanding which adjustment is determined by reference to a change in the purchasing power of money (an "**indexed debt obligation**") and no amount payable in respect thereof, other than an amount determined by reference to a change in the purchasing power of money, is contingent or dependent upon any of the criteria described in the preceding sentence.

In the event that a Note the interest (or deemed interest) payable on which is not exempt from Canadian withholding tax is redeemed, cancelled or purchased by the Issuer or any other person resident or deemed to be resident in Canada from a Non-resident Holder or is otherwise assigned or transferred by a Non-resident Holder to a person resident or deemed to be resident in Canada for an amount which exceeds, generally, the issue price thereof, the excess may be deemed to be interest and may, together with any interest that has accrued on the Note to that time be subject to non-resident withholding tax. Such excess will not be subject to withholding tax, if the Note is considered to be an "excluded obligation" for purposes of the Act. A Note that: (a) is not an indexed debt obligation; (b) was issued for an amount not less than 97 per cent. of the principal amount (as defined in the Act); and (c) the yield from which, expressed in terms of an annual rate (determined in accordance with the Act) on the amount for which the Note was issued does not exceed 4/3 of the interest stipulated to be payable on the Note,

expressed in terms of an annual rate on the outstanding principal amount from time to time, will be an excluded obligation for this purpose.

If applicable, the normal rate of Canadian non-resident withholding tax is 25 per cent. but such rate may be reduced under the terms of an applicable income tax treaty or convention between Canada and the country in which the Non-resident Holder is resident.

Generally, there are no other taxes on income (including capital gains) payable by a Non-resident Holder on interest, discount, or premium on a Note or on the proceeds received by a Non-resident Holder on the disposition of a Note including a redemption, payment on maturity, conversion (including a Bail-in Conversion), cancellation or purchase.

Common Shares Acquired on a Bail-in Conversion

Dividends paid or credited, or deemed under the Act to be paid or credited, on Common Shares of the Issuer or of any affiliate of the Issuer that is a Canadian resident corporation to a Non-resident Holder will generally be subject to Canadian non-resident withholding tax at the rate of 25 per cent. on the gross amount of such dividends unless the rate is reduced under the provisions of an applicable income tax treaty or convention between Canada and the country in which the Non-resident Holder is resident.

A Non-resident Holder will not be subject to tax under the Act in respect of any capital gain realized on a disposition or deemed disposition of a Common Share unless the Common Share is or is deemed to be "taxable Canadian property" of the Non-resident Holder for the purposes of the Act and the Non-resident Holder is not entitled to an exemption under an applicable income tax treaty or convention between Canada and the country in which the Non-resident Holder is resident.

W&C Securities

The Canadian federal withholding tax consequences to a Non-resident Holder of acquiring, holding and disposing of a Certificate that is considered debt for Canadian federal income tax purposes, will, except as otherwise indicated in the applicable Drawdown Prospectus or, in the case of Exempt Securities, in the Pricing Supplement, as appropriate, generally be as described above under the heading "**Notes**". In particular, if a Certificate is considered debt of the Issuer for Canadian federal income tax purposes, the payment by the Issuer of an Additional Amount in respect of the Certificate to a Non-resident Holder will not be subject to Canadian non-resident withholding tax unless all or any portion of the interest, or amounts deemed to be interest for purposes of the Act (including such Additional Amount), is Participating Debt Interest.

Except as otherwise indicated in the applicable Drawdown Prospectus or, in the case of Exempt Securities, in the Pricing Supplement, as appropriate, any amount paid or credited or deemed to be paid or credited to a Non-resident Holder in respect of a Warrant or a Certificate that is not considered debt for Canadian federal income tax purposes, will generally not be subject to Canadian federal withholding tax.

United Kingdom Taxation

The following applies only to persons who are the beneficial owners of Securities and is a summary of the Issuer's understanding of current United Kingdom tax law (as applied in England and Wales) and published HM Revenue and Customs ("HMRC") practice in the United Kingdom relating only to United Kingdom withholding tax treatment of payments in respect of the Securities, to whether the issue, transfer, redemption, exercise or settlement of a Security could be subject to United Kingdom stamp duty or stamp duty reserve tax and to the special rules for the taxation of excluded indexed

securities and qualifying options. It does not deal with any other United Kingdom taxation implications of acquiring, holding, exercising, disposing or the settlement or redemption of the Securities. Some aspects do not apply to certain classes of person (such as dealers and persons connected with the Issuer) to whom special rules may apply. The United Kingdom tax treatment of prospective holders of Securities depends on their individual circumstances and may be subject to change in the future. Prospective holders of Securities who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Withholding taxes

United Kingdom withholding taxes can apply to a number of different types of payments. Those which could be relevant to securities such as the Securities include: interest, annual payments and manufactured payments. As a general matter, the Issuer may make payments under the Securities without any deduction of or withholding on account United Kingdom income tax if the payments do not have a United Kingdom source and they are not made by the Issuer in the course of a trade carried on in the United Kingdom through a branch or agency.

Payments of interest on the Securities

Whether or not payments or any part of any payment on a Security will constitute “interest” will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which amounts payable on the Securities are calculated.

Payments of interest on the Securities that do not have a United Kingdom source may be made without deduction or withholding on account of United Kingdom income tax. If interest paid on the Securities does have a United Kingdom source, then payments may be made without deduction or withholding on account of United Kingdom income tax in any of the following circumstances.

The Issuer, provided that it is and continues to be a bank within the meaning of section 991 of the *Income Tax Act 2007* (the “**UK Act**”), and provided that the interest on the Securities is and continues to be paid in the ordinary course of its business within the meaning of section 878 of the UK Act, will be entitled to make payments of interest without withholding or deduction for or on account of United Kingdom income tax.

Payments of interest on the Securities (if they qualify as a “security” for the purpose of section 987 of the UK Act) may be made without deduction of or withholding on account of United Kingdom income tax provided that the Securities carry a right to interest and the Securities are and continue to be listed on a “recognised stock exchange” within the meaning of section 1005 of the UK Act. Each of Euronext Dublin and the Luxembourg Stock Exchange is a recognised stock exchange. The Securities will satisfy this requirement if they are and continue to be officially listed in Ireland or Luxembourg in accordance with provisions corresponding to those generally applicable in EEA states and are and continue to be admitted to trading on Euronext Dublin or the Luxembourg Stock Exchange, as the case may be. Provided, therefore, that the Securities carry a right to interest and are and remain so listed, interest on the Securities will be payable without withholding or deduction on account of United Kingdom tax whether or not the Issuer is a “bank” and whether or not the interest is paid in the ordinary course of its business.

Interest on the Securities may also be paid without withholding or deduction on account of United Kingdom tax where the maturity of the Securities is less than 365 days and those Securities do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount generally must be withheld from payments of interest on the Securities which have a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20 per cent.), subject to any other available reliefs and exemptions. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of Securities, HM Revenue & Customs can issue a notice to the Issuer to pay interest to the holder of Securities without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Annual Payments

If a periodic payment on a Security were not “interest”, and not repayment of principal, then such payment could constitute an “annual payment”. Whether or not any periodic payment were to constitute an “annual payment” for these purposes will depend upon, amongst other things, the terms and conditions of the Securities and the basis upon which it is calculated. However, if in relation to a Security the Issuer is only required to make a single payment to its holders following redemption or exercise, and there are no amounts due by way of interest, additional amount or other periodic payment on that Security, payments should not generally constitute “annual payments”.

Payments on a Security which constitute “annual payments” that do not have a United Kingdom source may be made without deduction or withholding on account of United Kingdom income tax.

An amount must generally be withheld from “annual payments” on Securities that have a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20 per cent.). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Holder, HMRC can issue a notice to the Issuer to pay to the Holder without deduction of tax (or for amounts to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Manufactured Payments

Payments on the Securities should not constitute “manufactured payments” subject to any deduction of or withholding on account of United Kingdom income tax unless:

- (i) the Securities will or may settle by way of physical delivery;
- (ii) the assets which will or may be delivered are shares issued by a “company UK REIT” or the “principal company” of a “group UK REIT” (all bearing the same meaning as in section 918 of the UK Act) or securities (other than shares) issued by the United Kingdom government, a local or other public authority in the United Kingdom or any other United Kingdom resident body; and
- (iii) the payments are representative of dividends on those shares, or interest paid on those securities (as the case may be).

Payments on a Security which do constitute “manufactured payments” may in any event be made without deduction of or withholding on account of United Kingdom income tax unless the Issuer makes those payments in the course of a trade carried on in the United Kingdom through a branch or agency.

If such a “manufactured payment” were paid by the Issuer in the course of a trade carried on in the United Kingdom through a branch or agency then the Issuer may (subject to reliefs and exemptions) be required to make a deduction of or withholding on account of United Kingdom income tax from such payment on account of United Kingdom income tax at the basic rate. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or

for no tax to be withheld) in relation to a Holder, HMRC may be able to issue a notice to the Issuer to pay to the Holder without deduction of tax (or for amounts to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Stamp duty and stamp duty reserve tax (SDRT) in relation to Securities

A charge to stamp duty or SDRT may, in certain circumstances, arise on the issue, transfer, exercise, settlement and/or redemption of Securities and SDRT may also be payable in relation to any agreement to transfer Securities. This will depend upon the Terms and Conditions of the relevant Securities (as supplemented by the applicable Final Terms or, in the case of Exempt Securities, as amended and supplemented by the applicable Pricing Supplement). Holders of Securities should take their own advice from an appropriately qualified professional advisor in this regard.

Excluded Indexed Securities

Investors who are resident in the United Kingdom or who will otherwise be within the scope to United Kingdom tax in respect of the Securities should note that some Notes may qualify as "excluded indexed securities" within the meaning of section 433 of the Income Tax (Trading and Other Income) Act 2005.

A Note may qualify as an "excluded indexed security" if the amount payable on redemption is determined by applying to the amount for which the security was issued the percentage change (if any) over the security's redemption period in the value of chargeable assets of a particular description or in an index of the value of such assets.

The Issuer expects that the Preference Shares will be "chargeable assets" for these purposes. Whether or not any particular series of Preference Share Linked Notes will qualify as "excluded indexed securities" will therefore generally depend on whether for United Kingdom tax purposes they are treated as redeeming for an amount equal to their issue price increased or decreased (as relevant) by the percentage change in the value of the Preference Shares over their redemption period and whether HM Revenue & Customs will accept that treatment. Other Notes may also qualify as "excluded indexed securities".

Investors should note that profits or gains made on a disposal or redemption of "excluded indexed securities" held for investment purposes are normally subject to capital gains tax. Profits and gains made on a disposal or redemption of Notes that do not qualify as "excluded indexed securities" may instead be subject to income tax.

The Issuer and its Affiliates cannot advise investors on the proper classification of the Securities or any series of Securities. Prior to purchasing the Securities, investors should discuss with their professional advisers how such purchase would or could affect them. Investors with any questions regarding whether any Securities qualify as "excluded indexed securities" or otherwise regarding the impact of an investment in the Securities on their tax position should consult their tax advisers. Neither the Issuer nor any of its Affiliates provides tax or legal advice.

Qualifying Options

Investors who are resident in the United Kingdom or who will otherwise be within the scope to United Kingdom tax in respect of the Securities should note that some Warrants and Exercisable Certificates may qualify as "qualifying options" within the meaning of section 143(2) of the Taxation of Chargeable Gains Act 1992.

A Warrant or Exercisable Certificate may qualify as a "qualifying option" if it can properly be characterised as an "option" for tax purposes, if it satisfies the additional conditions set out in sections 144(8)(b) and (c) of the Taxation of Chargeable Gains Act 1992 and if HM Revenue & Customs accept that characterisation.

Investors should note that gains arising in the course of dealing in "qualifying options" are normally subject to capital gains tax. Gains arising in the course of dealing in Warrants and

Exerciseable Certificates that do not qualify as “qualifying options” may instead be subject to income tax.

The Issuer and its Affiliates cannot advise investors on the proper classification of the Securities or any series of Securities. Prior to purchasing the Securities, investors should discuss with their professional advisers how such purchase would or could affect them. Investors with any questions regarding whether any Securities qualify as “qualifying options” or otherwise regarding the impact of an investment in the Securities on their tax position should consult their tax advisers. Neither the Issuer nor any of its Affiliates provides tax or legal advice.

Finland Taxation

The following is a summary of the Finnish withholding tax treatment of payments made in respect of the Securities to persons who are generally liable to tax in Finland (i.e. persons that are resident of Finland for tax purposes). The summary does not deal with any other Finnish tax implications of acquiring, holding or disposing of the Securities. Investors are advised to seek professional advice relating to other tax implications in respect of acquiring, holding or disposing of the Securities.

On the basis that the Issuer is not resident in Finland for tax purposes and has no presence, permanent establishment or other fixed place of business in Finland, there is no Finnish withholding tax (*Fi. lähdevero*) applicable to the payments made by the Issuer in respect of the Securities.

However, Finland operates a system of preliminary taxation (*Fi. ennakonpidätysjärjestelmä*) to secure payment of taxes in certain circumstances. In the context of the Securities, a tax of 30 per cent. will be deducted and withheld from all payments that are treated as interest or as compensation comparable to interest, when such payments are made by a Finnish paying agent to individuals. Any preliminary tax (*Fi. ennakonpidätys*) will be used for the payment of the individual's final taxes (which means that they are credited against the individual's final tax liability). If, however, the Securities are regarded as warrants, redeemable certificates or exercisable certificates for Finnish tax purposes, any profits on warrants, redeemable certificates or exercisable certificates would, based on current Finnish court and taxation practice, normally be considered a capital gain (as opposed to interest or compensation comparable to interest). Therefore, any payments made in respect of Securities that are regarded as warrants, redeemable certificates or exercisable certificates may, at the outset, be made without deduction or withholding for or on account of Finnish tax and should, accordingly, not be subject to any preliminary taxation (*Fi. ennakonpidätys*) by the Finnish Issuing and Paying Agent.

Any payments made in respect of Securities to corporate entities that are resident in Finland for tax purposes will not be subject to any preliminary taxation (*Fi. ennakonpidätys*) by the Finnish Issuing and Paying Agent.

France Taxation

This summary is of a general nature only, and is not intended to be, nor should it be considered to be, legal or tax advice to any particular person. The following applies only to persons who are the beneficial owners of the Securities and is a summary of the Issuer's understanding of current French legislation in force as at June 22, 2021 and may be subject to change, sometimes with retrospective effect.

The summary does not address, amongst others, credit of foreign taxes. Investors should consult their own professional tax advisors with regard to the tax regulations applicable to their individual situation as per the tax consequences (including the applicability and effect of tax treaties for the avoidance of double taxation) of acquiring, owning and disposing of Securities in their particular circumstances.

1.1 French Withholding tax on payment made by the Issuer

Provided that the Issuer of the Securities is not a tax resident of France for French tax purposes and does not have a permanent establishment in France and is not acting through any intermediary or paying agent based in France, payments made under the Securities may be paid by the Issuer without withholding or deduction for or on account of French Withholding tax in accordance with applicable French law.

Whilst the Issuer has a Paris branch, assuming such branch does not have any role in respect of the Programme, including without limitation does not participate in any payment whatsoever made under the Securities, such payments may be made by the Issuer without withholding or deduction of French Withholding tax in accordance with applicable French law.

1.2 French tax resident individuals

Assuming individuals hold Securities as part of their personal estate and are not frequently involved in stock exchange transactions as part of their professional activity the following regime applies.

(a) Income

As a general principle and subject to treaty provisions, French tax resident investors are taxable in France on their worldwide income.

Income derived by French resident investors holding Securities as part of their personal estate and who are not frequently involved in stock exchange transactions as part of their professional activity should be subject to (i) a flat tax at a rate of 30 per cent. including personal income tax at a rate of 12.8 per cent. and social security contributions at a rate of 17.2 per cent. and, if applicable, (ii) an exceptional contribution on high income (*contribution exceptionnelle sur les hauts revenus*).

French resident investors can alternatively elect to be subject to personal income tax at progressive rates (such express and irrevocable election is global upon the filing of their personal tax return of the taxable year). In such a case, social security contributions would also be owed at a rate of 17.2 per cent.

For such income, a compulsory advance levy applies at a rate of 12.8 per cent. on the gross proceeds of the Securities. Individual taxpayers who belong to a tax household of which the reference fiscal income of the second last complete tax year is lower than EUR 25,000 (single, divorced, or widowed taxpayers) or EUR 50,000 (jointly taxed couples) are exempted from such levy. The levy is an advance of personal income tax and shall be paid by the individual within the first 15 days of the month following the month during which the payment of the income occurred. It is applied against the income tax due in respect of income received in the year in which it is levied (for example, for revenues received in 2021, the levy is due in 2021 and is applied against the income tax paid in 2022 in respect of income received in 2021). Any eventual surplus of the compulsory levy is refundable.

Income from Securities are included within the reference fiscal income of the tax household used as the tax base for the exceptional contribution on high income. This contribution is calculated at a rate of (i) 3 per cent. for the portion of the reference fiscal income between EUR 250,000 and EUR 500,000 for single, widowed, divorced, or separated taxpayers, and to the portion between EUR 500,000 and EUR 1,000,000 for taxpayers filing jointly and (ii) 4 per cent. for the portion of the reference fiscal income exceeding EUR 500,000 for single, widowed, divorced and separated taxpayers and to the portion exceeding EUR 1,000,000 for jointly taxed couples.

In addition, where the amounts paid when due are lower than the amounts paid at subscription or acquisition of the product, the corresponding loss is considered as a capital loss which is not deductible from the global revenue of the investor.

(b) Capital gains

Net capital gains realised on the sale of Securities by French tax residents are subject to a flat tax at a rate of 30 per cent. including personal income tax at a rate of 12.8 per cent. and social security contributions at a rate of 17.2 per cent. French resident investors can also elect to be taxed at progressive rates as regards personal income tax (such express and irrevocable election is global upon the filing of the tax return of the taxable year). Social security contributions would also be owed at a rate of 17.2 per cent.

Net capital gains on the sale of Securities are included in the reference fiscal income of the tax household used as the tax base for the exceptional contribution on high income.

Net capital losses on the sale of Securities reduce the capital gains of the same type in the same year, and possibly over the next ten years realised by the taxpayer himself or, in the case of married couples or couples who have entered into a civil union (*PACS*), by the two spouses or partners.

(c) Inheritance and gift tax

Securities transferred upon inheritance or gift are subject to inheritance (*droits de succession*) or gift tax (*droits de donation*) in France, subject to any applicable double taxation treaty.

1.3 French tax resident legal entities subject to corporate income tax

(a) Income

Subject to relevant tax treaty, interest, redemption premium and gains from Securities received by French tax resident companies are taken into account in determining the taxable amount. Under certain conditions, redemption premiums are taken into account in determining the taxable amount by using an actuarial method of allocation during the length of the product or contract.

Such income is subject to corporate income tax at a different rate depending on the size and profits of the company. For fiscal years starting on or after January 1, 2021, a 26.5 per cent. rate would apply. However, companies having more than EUR 250,000,000 of turnover should be taxed at a 27.5 per cent. The French corporate income tax rate should decrease to 25 per cent. for all companies for fiscal years starting on or after January 1, 2022. Notwithstanding the above a reduced tax rate of

15 per cent. will be maintained for the first EUR 38,120 of taxable income of "Small and Medium entities" provided that: (i) the revenue of the entity does not exceed EUR 7.63 million; (ii) the share capital of the entity is fully paid up; and (iii) the entity is held at least up to 75 per cent. by individuals or other entities meeting the above conditions.

Moreover, a company (i) whose turnover exceeds EUR 7,630,000 or (ii) more than 75 per cent. of the share capital of which is not held by individuals is subject to an additional social contribution of 3.3 per cent. assessed on the amount of corporate income tax, after applying a rebate (the marginal effective tax rate is thus 27.37 per cent. for fiscal years starting on or after January 1, 2021 (or 28.41 per cent. for companies having more than EUR 250,000,000 of turnover)).

(b) Capital gains

Capital gains and losses realised on the sale of Securities by French tax resident companies are taken into account in determining their ordinary taxable result, it being specified, however, that banking institutions and investment companies are required to evaluate, at the close of each year, Securities they owned at their most recent market value.

In case of realisation of a capital gain, this is subject to corporate income tax under the rule mentioned above. In case of realisation of a capital loss, this is deductible from the taxable result, under conditions of ordinary law.

Luxembourg Taxation

The following section describes certain material Luxembourg tax consequences of purchasing, owning and disposing of the Securities. It does not purport to be a complete analysis of all possible tax situations that may be relevant to a decision to purchase, own or dispose of the Securities. It is included herein solely for preliminary information purposes and is not intended to be, nor should it construed to be, legal or tax advice. Prospective purchasers of the Securities should consult their own tax advisers as to the applicable tax consequences of the ownership of the Securities, based on their particular circumstances. The following description of Luxembourg tax law is based upon the Luxembourg law and regulations as in effect and as interpreted by the Luxembourg tax authorities on the date of this Base Prospectus and is subject to any amendments in law (or in interpretation) later introduced, whether or not on a retroactive basis.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy impost or other charge or withholding of a similar nature refers to Luxembourg tax laws and/or concepts only. Also, please note that a reference to Luxembourg income tax encompasses generally corporate income tax (impôt sur le revenu des collectivités), municipal business tax (impôt commercial communal), and a solidarity surcharge (contribution au fonds pour l'emploi) levied at the standard combined rate of 24.94 per cent. for companies established in the City of Luxembourg and personal income tax levied at progressive income tax rates (impôt sur le revenu). Corporate taxpayers may further be subject to net wealth tax (impôt sur la fortune), levied on a yearly basis at the rate of 0.5 per cent. up to a taxable basis of EUR 500 million and at the reduced rate of 0.05 per cent. for the portion of the net wealth exceeding EUR 500 million as well as other duties, levies or taxes. Corporate income tax, municipal business tax, as well as the solidarity surcharge, as well as net wealth tax invariably applies to most corporate taxpayers resident in Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax, and to the solidarity surcharge. Under certain

circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

Luxembourg Tax Residency of the Holders of the Securities

A Holder of the Securities will not become resident, nor be deemed to be resident, in Luxembourg by reason only of the holding of the Securities or the execution, performance, settlement, delivery and/or enforcement of the Securities.

Withholding Taxation with respect to the Notes

Resident Holders of the Notes

A 20 per cent. Luxembourg withholding tax (the “**Relibi WHT**”) is levied on interest payments made by Luxembourg paying agents to beneficial owners who are Luxembourg resident individuals or to certain entities that secure interest payments on behalf of such individuals. The Relibi WHT also applies on accrued interest received upon disposal, redemption or repurchase of the Notes. The Relibi WHT will be in full discharge of income tax if the beneficial owner is a Luxembourg resident individual acting in the course of the management of his/her private wealth.

Non-resident Holders of the Notes

Under current Luxembourg tax law there is no withholding tax on any arm’s length interest payment made by the Issuer or its paying agent to the non-resident Holder of the Notes to the extent they are not profit participating.

Please note that Council Directive 2003/48/EC on taxation of savings income has been repealed and replaced with an automatic exchange of information by the Council Directive 2015/2060/EU. Also, on December 9, 2014 the Council of the European Union adopted Directive 2014/107/EU amending Directive 2011/16/EU of February 15, 2011 on administrative cooperation in the field of taxation which provides for an automatic exchange of financial account information between EU Member States (Common Reporting Standard). Further, on December 8, 2015, the Council of the European Union adopted Directive 2015/2376 amending the aforementioned Directive 2011/16/EU and establishing a central directory, accessible to all Member States, to which Member States will upload and store information, instead of exchanging that information by secured email. Further, on May 25, 2016, the Council of the European Union adopted Directive 2016/881/EU and amending Directive 2011/16/EU and extending the automatic exchange of information between tax authorities (Country by Country Reporting), on December 6, 2016, the Council of the European Union adopted Directive 2016/2258/EU amending Directive 2011/16/EU as regards access to anti-money-laundering information by tax authorities, and on May 25, 2018, the Council of the European Union adopted Directive 2018/822/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation in relation to reportable cross-border arrangements (all such Directives, together the “**DAC Directives**”). The adoption of the DAC Directives implements the Organisation for Economic Co-operation and Development’s Common Reporting Standards and generalizes the automatic exchange of information within the European Union. Luxembourg laws have duly transposed the DAC Directives.

Withholding Taxation with respect to the W&C Securities

The Luxembourg withholding tax consequences of acquiring, holding and disposing of a W&C Securities that are considered debt for Luxembourg tax purposes will, for the Holder, except as otherwise indicated in the applicable Pricing Supplement or Drawdown Prospectus, as

appropriate, generally be as described above under the heading “*Withholding Taxation with respect to the Notes*”.

Income Taxation with respect to the Notes

For the purposes of this section, a disposal may include a sale, an exchange, a contribution, a redemption, any other kind of transfer, as well as the settlement of the Notes.

Taxation of Luxembourg Non-residents

Holders of Notes who are non-residents of Luxembourg and who do not have a permanent establishment or a permanent representative in Luxembourg to which or whom the Notes are attributable are not liable to any Luxembourg income tax, whether they receive payments of principal or interest (including accrued but unpaid interest) or realise capital gains on the disposal of any Notes.

Holders of Notes who are non-residents of Luxembourg who have a permanent establishment or a permanent representative in Luxembourg to which or whom the Notes are attributable have to include any interest received or accrued, as well as any capital gain realised on the disposal of the Notes in their taxable income for Luxembourg income tax assessment purposes.

Taxation of Luxembourg Residents

Luxembourg Resident Individuals

An individual Holder of Notes acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax in respect of interest received, redemption premiums or issue discounts under the Notes except if a final Relibi WHT has been levied on such payments in accordance with the rules mentioned above.

Under Luxembourg domestic tax law, gains realised upon the disposal in any form whatsoever of the Notes which do not constitute Zero Coupon Notes, by an individual Holder of Notes who acts in the course of the management of his/her private wealth are not subject to Luxembourg income tax, provided this disposal takes place at least six months after the acquisition of the Notes. An individual Holder of Notes who acts in the course of the management of his/her private wealth may have to include the portion of the gain corresponding to accrued but unpaid interest in respect of the Notes in his/her taxable income. A gain realised upon a disposal of Zero Coupon Notes (taking place at or before their maturity) by Luxembourg resident Holders in the course of the management of their private wealth may have to be included in their taxable income for Luxembourg income tax assessment purposes.

Luxembourg resident individual Holders of Notes acting in the course of the management of a professional or business undertaking to which or whom the Notes are attributable, have to include any interest received or accrued, as well as any gain realised on the disposal of the Notes in their taxable income for Luxembourg income tax assessment purposes. Taxable gains are determined as being the difference between the disposal price (including accrued but unpaid interest) and the lower of the cost or book value of the Notes disposed of.

Luxembourg Corporate Residents

Fully taxable Luxembourg corporate Holders of Notes must include any interest received or accrued, as well as any gain realised on the disposal in any form whatsoever of the Notes in their taxable income for Luxembourg income tax assessment purposes. Taxable gains are determined as being the difference between the disposal price (including accrued but unpaid interest) and the lower of the cost or book value of the Notes disposed of.

Luxembourg Corporate Residents Benefiting from a Special Tax Regime

Luxembourg Holders of the Notes who benefit from a special tax regime, such as, for example, (i) undertakings for collective investment subject to the amended law of December 17, 2010, (ii) specialized investment funds subject to the amended law of February 13, 2007, (iii) family wealth management companies governed by the amended law of May 11, 2007 or (iv) reserved alternative investment funds treated as a specialized investment funds and governed by the law of July 23, 2016, are exempt from income tax in Luxembourg and thus income derived from the Notes by such corporate vehicles as well as gains realized thereon, are not subject to income tax.

Income taxation with respect to the W&C Securities

The Luxembourg income tax consequences to a Holder of acquiring, holding and disposing of W&C Securities that are considered debt for Luxembourg tax purposes, will, except as otherwise indicated in the applicable Pricing Supplement or Drawdown Prospectus, as appropriate, generally be as described above under the heading "*Income Taxation with respect to the Notes*".

Net Wealth Tax

Luxembourg resident Holders of the Securities and non-resident Holders of the Securities, who have a permanent establishment or a permanent representative in Luxembourg to which or whom the Securities are attributable, may be subject to Luxembourg net wealth tax on such Securities, except if the Holder of the Securities is (i) a resident or non-resident individual taxpayer, (ii) a UCIT subject to the amended law of December 17, 2010, (iii) a securitization company governed by the amended law of March 22, 2004 on securitisation, (iv) a company governed by the amended law of June 15, 2004 on venture capital vehicles, (v) a specialized investment fund governed by the amended law of February 13, 2007, (vi) a family wealth management company governed by the amended law of May 11, 2007, (vii) a professional pension institution governed by the amended law of July 13, 2005 or (viii) a reserved alternative investment fund governed by the law of July 23, 2016. A minimum net wealth tax ("**MNWT**") of EUR 4,500 in 2020 (increased to EUR 4,815 by the 7 per cent. solidarity surcharge (or the employment fund)) is levied on any company whose financial assets, transferable securities and cash deposits exceed 90 per cent. of its total balance sheet and EUR 350,000. If the aforementioned threshold is not met, the amount of MNWT will depend on the total balance sheet of the company at the closing of the preceding financial year and will then range from EUR 535 to EUR 32,100. The MNWT also applies to vehicles benefiting from a favorable tax regime listed above under (iii), (iv) and any one under (viii) to the extent it elects to be treated as a venture capital vehicle.

Value added tax

There is no Luxembourg value added tax payable in respect of payments exclusively in consideration for the issue of the Securities or in respect of the payment of interest or principal under the Securities or the price of the Securities in case of a transfer of the Securities.

Other Taxes

There is no Luxembourg registration tax, stamp duty or any other similar tax or duty payable in Luxembourg by the Holders of the Securities as a consequence of the issuance of the Securities nor will any of these taxes be payable as a consequence of a subsequent transfer of redemption, repurchase or settlement of the Securities, unless the documents relating to the Securities are voluntarily registered in Luxembourg or any of these documents is appended to

a document (*annexé à un acte*) that must itself be legally registered or deposited in the minutes of a notary (*déposé au rang des minutes d'un notaire*).

Under current Luxembourg tax law, where an individual Holder of the Securities is a resident for inheritance tax purposes of Luxembourg at the time of his/her death, the Securities are included in his/her taxable estate for inheritance tax purposes. Gift tax may be due on a gift or donation of Securities if the gift is recorded in a deed passed in front of a Luxembourg notary or otherwise registered in Luxembourg.

Norway Taxation

The following section is a summary of the Norwegian withholding tax consequences in respect of amounts that are considered to be interest on the Norwegian Notes and Norwegian W&C Securities for Norwegian tax purposes. The description below is based on the assumption that the Norwegian Notes and Norwegian W&C Securities are considered and treated as debt instruments for Norwegian tax purposes. The following summary is based on the laws currently in force and as applied on the date of this Base Prospectus in the Kingdom of Norway which are subject to change, possibly with retroactive effect.

The summary is of a general nature and included herein solely for information purposes. The tax treatment of each holder of Norwegian Notes and Norwegian W&C Securities partly depends on the holder's specific situation, and the specific instrument issued to the holder. The summary does not address other Norwegian tax consequences resulting from the acquisition, ownership and disposition of the Norwegian Notes and Norwegian W&C Securities. Prospective purchasers of the Norwegian Notes and Norwegian W&C Securities should consult with and rely upon their own tax advisors with respect to the tax consequences of investing in the Norwegian Notes and Norwegian W&C Securities under the laws of the Kingdom of Norway.

Effective as of July 1, 2021 Norway has adopted new rules under which withholding tax will be imposed on interest payments made from Norway to holders who are considered related companies resident in low tax jurisdictions. If the holder is a related company resident in a low tax jurisdiction within the EU/EEA, withholding tax will not be imposed if the holder is considered to be genuinely established and to perform genuine business activities in the relevant EU/EEA country. Two companies are considered "related parties" if there is direct or indirect ownership or control of at least 50% between them at any time during the income year.

Holders who are resident in Norway for tax purposes or who hold the Norwegian Notes or Norwegian W&C Securities in connection with business activities carried out in or managed from Norway, will normally be subject to ordinary Norwegian income tax on interest received.

Swedish Taxation

*The following summary outlines certain Swedish tax consequences relating to holders of Securities. The summary is based on the laws of Sweden as currently in effect and is intended to provide general information only. The summary does not address, inter alia, situations where the Securities are held in an investment savings account (Sw. *investeringssparkonto*), the tax consequences in connection with a write-down, write-off or conversion of the Securities, the tax consequences following substitution (instead of redemption) of the Securities or the rules regarding reporting obligations for, among others, payers of interest. Further, the summary does not address credit of foreign taxes. Investors should consult their professional tax advisers regarding the Swedish tax and other tax consequences (including the applicability and effect of tax treaties for the avoidance of double taxation) of acquiring, owning and disposing of Securities in their particular circumstances.*

Holders tax resident in Sweden

In general, for Swedish corporations and private individuals (and estates of deceased individuals) who are resident in Sweden for Swedish tax purposes, all capital income (for example, income that is considered to be interest for Swedish tax purposes and capital gains on Securities) will be taxable. Specific tax consequences may be applicable to certain categories of corporations, for example, investment companies and life insurance companies. In addition, specific tax consequences may be applicable if, and to the extent, a holder of Securities realizes a capital loss on the Securities and to any currency exchange gains or losses.

If amounts that are deemed as interest for Swedish tax purposes are paid by Euroclear Sweden or by another legal entity domiciled in Sweden, including a Swedish branch, to a private individual (or an estate of a deceased individual) with residence in Sweden for Swedish tax purposes, Swedish preliminary taxes are normally withheld by Euroclear Sweden or the legal entity on such payments. Swedish preliminary taxes should normally also be withheld on other return on Securities (but not capital gains), if the return is paid out together with such a payment of interest referred to above.

Holders not tax resident in Sweden

Payments of any principal or any amount that is considered to be interest for Swedish tax purposes to the holder of any Securities should not be subject to Swedish income tax, provided that such a holder (i) is not resident in Sweden for Swedish tax purposes and (ii) does not have a permanent establishment in Sweden with which the Securities are effectively connected.

Broadly speaking, *provided that* the value of or the return on the Securities relates to securities taxed as shares, or that the Securities are deemed to be securities taxed as shares, private individuals who have been residents of Sweden for tax purposes due to a habitual abode in Sweden or a continuous stay in Sweden at any time during the calendar year of disposal or redemption or the ten calendar years preceding the year of disposal or redemption, are liable for capital gains taxation in Sweden upon disposal or redemption of such Securities. However, an additional requirement for capital gains taxation in Sweden is that the Securities, issued by or in a foreign company, were acquired when the private individual was resident in Sweden for tax purposes. In a number of cases though, the applicability of this rule is limited by the applicable tax treaty for the avoidance of double taxation.

Swedish withholding tax, or Swedish tax deduction, is not imposed on payments of any principal or any amount that is considered to be interest for Swedish tax purposes except in relation to certain payments of interest (and other distributions on Securities) to a private individual (or the estate of a deceased individual) who is (or was) resident in Sweden for Swedish tax purposes (see "Holders tax resident in Sweden" above).

Swiss Taxation

The following discussion is a general summary of the Issuer's understanding of certain Swiss tax considerations in relation to dealings in the Securities issued by the Issuer according to the currently valid Swiss tax laws and the Swiss tax authorities' practice as at the date of this Base Prospectus. This outline is a summary and not exhaustive and does not take into consideration possible special circumstances of some investors. Tax laws and the tax authorities' practice may undergo changes (or their interpretation or application may change) and their validity might also be retroactive.

Holders and prospective holders of Securities are advised to consult with their tax advisers with respect to the Swiss tax consequences of the purchase, ownership,

disposition, laps or exercise or redemption of a Security in light of their particular circumstances.

1. General Information

The Swiss tax treatment of notes, bonds and other financial instruments are primarily regulated pursuant to the conditions set forth in the Circular Letter no. 15 of the Federal Tax Administration regarding the treatment of Bonds and Derivatives Financial Instruments for the purpose of the Federal Income Tax, Federal Withholding Tax and Federal Stamp Duties, as published on October 3, 2017. These rules are usually also applied by the Cantonal and Communal tax authorities. It should be noted that the Swiss tax terms “notes” and “bonds” are not consistent with the corresponding terms stipulated by Swiss security laws and the international or foreign understanding of such terms.

2. Federal Stamp Duties

2.1 Issue Stamp Tax (“Emissionsabgabe”)

The issuance of Securities issued by a foreign resident issuer is in general not subject to Issue Stamp Tax (“Emissionsabgabe”).

2.2 Securities Transfer Tax (“Umsatzabgabe”)

Secondary market transactions in Securities issued by a foreign issuer which, due to specific features, are considered as (debt) financing instruments, share-like or fund-like products for purposes of Swiss tax law are subject to the Securities Transfer Tax of up to 0.3 per cent., provided that a Swiss securities dealer (“Effekthändler”), as defined in art. 13 para. 3 of the Swiss Federal Act on Stamp Duties (“Stempelabgabengesetz”), is a party to the securities transaction or acts as an intermediary thereto. Furthermore, the issuance of a Security by a foreigner issuer, which is considered as a fund-like product for Swiss tax purposes is in general also subject to the Securities Transfer Tax. If upon the exercise or redemption of a Security an underlying security is delivered to the holder of the Security, the transfer of the underlying security may be subject to Securities Transfer Tax. Certain exemptions may, *inter alia*, apply with regard to institutional investors such as mutual funds, life insurance companies and social security institutions.

3. Federal Withholding Tax (“Verrechnungssteuer”)

Securities issued by a foreign resident issuer are in general not subject to Federal withholding tax.

Payments or credits of (deemed) interest or dividends on a Security issued by a Swiss resident issuer may be subject to Federal withholding tax at a rate of 35 per cent. This may apply likewise to payments or credits of yield from Securities which classify for tax purposes as fund-like products.

The holder of a Security who is resident in Switzerland may be entitled to a full refund of or a full tax credit for the Federal withholding tax, subject to conditions being met.

A non Swiss resident holder of a Security may be able to claim a full or partial refund of the Federal withholding tax if such a holder is entitled to claim the benefits with regard to such a payment of a double taxation treaty between Switzerland and his or her country of residence.

4. Federal Income Tax (“Direkte Bundessteuer”)

4.1 Income Taxation of Securities Held by Private Investors (Individuals) with Tax Residence in Switzerland as Part of Private Property

Gains or losses realised upon a sale or other disposition by individuals holding a Security as part of their private property (private capital gains or losses) are in general not subject to income taxation or are not deductible from taxable income respectively. Capital gains may, however, be subject to income taxation, if a Security or a distinguishable part thereof qualifies as a bond where the predominant part of the annual yield is paid in a one time payment (“überwiegende Einmalverzinsung”). Losses arising from predominant one time interest paying bonds may be deducted from gains from similar instruments in the same tax period.

Gains or losses realised by buying or selling Securities which are considered for Swiss tax purposes as pure derivatives (options and futures) are not subject to income tax as they are considered as tax-exempt capital gains or losses.

Income derived from a Security which is neither a private capital gain, as set out above, nor a repayment of paid in capital (or face value in case of shares) is generally subject to income tax. This applies, inter alia, to any issuance discount, repayment premium, other guaranteed payments (besides repayment of capital or option premium) or any combination thereof. Payments or credits received by a holder because of dividends, interest etc. of the underlying may be subject to income tax for such a holder. This may apply likewise to payments or credits derived from underlying funds.

The specific income tax treatment of a Security is depending on certain features of the Security such as pay-off structure, underlying, term, guaranteed coupon payments, capital protection etc. Some Securities may be divided into taxable bond and a tax-exempt option (or combinations of options) provided that the Security is for Swiss tax purposes made transparent by the issuer. Under the condition of transparency, the option premium paid by the issuer is exempt from income taxation. In this case the taxation is limited to the interest of the bond part which would have been paid for an investment in a comparable straight bond of the same issuer with a similar term and the same currency at market conditions. If the interest part of the Security is paid as a one-time compensation, the so-called “modifizierte Differenzbesteuerung” may apply in each case of pre-maturity sale or redemption of the Security. If a Security is not made transparent for Swiss tax purposes (only if the security needs to be transparent for Swiss tax purposes) the total payment to the investor (except the repayment of the invested capital) could be considered as taxable income.

For Swiss resident investors the taxable income needs to be converted into Swiss Francs. Therefore, for all Securities which are not issued in CHF, any change of the exchange rate to the Swiss Francs has an influence on the taxable income.

4.2 Income Taxation of Securities Held by Swiss Resident Entities or Individuals as Part of Business Property

Income of any kind realised from and losses incurred for business reasons on Securities as part of the business property of individuals (including deemed securities dealers due to frequent dealing, debt financing and similar criteria (“Wertschriftenhändler”)) or entities resident in Switzerland are subject to personal income tax or corporate income tax respectively as a part of the overall net income.

5. Wealth Taxation of Products Held by Swiss Resident Individuals

Market value of Securities may be subject to wealth tax levied on overall net wealth of Swiss resident individuals, regardless of whether the Security are held as part of the private or business property.

6. Automatic Exchange of Information in Tax Matters

Switzerland has implemented the Automatic Exchange of Information in Tax Matters ("**AEOI**") with the EU and most other countries. The AEOI is being introduced in Switzerland through bilateral agreements or multilateral agreements. The agreements have, and will be, concluded on the basis of guaranteed reciprocity, compliance with the principle of speciality (i.e. the information exchanged may only be used to assess and levy taxes (and for criminal tax proceedings)) and adequate data protection. Based on such multilateral or bilateral agreements and the implementing laws of Switzerland, Switzerland collects data in respect of financial assets, including, as the case may be, Securities, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in a EU member state or in a treaty state.

7. Foreign Account Tax Compliance Act (FATCA)

Switzerland has concluded an intergovernmental agreement with the United States to facilitate the implementation of FATCA. The agreement ensures that the accounts of U.S. persons at Swiss financial institutions are disclosed to the U.S. tax authorities either with the consent of the account holder or by means of group requests as part of administrative assistance. The information is not automatically transmitted in the absence of consent, but only exchanged within the framework of administrative assistance on the basis of the double taxation agreement between the USA and Switzerland.

Irish Taxation

The following is a summary of the Irish withholding tax treatment of the Securities. The summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities.

The summary is based upon the laws of Ireland and the published practices of the Revenue Commissioners of Ireland as in effect on the date of this Base Prospectus. Prospective investors in the Securities should consult their own advisers as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the Securities including, in particular, the effect of any state or local law taxes, if applicable.

Irish Withholding Tax

Irish withholding tax applies to certain payments including payments of:

- (i) Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
- (ii) Irish source annual payments (annual payments are payments that are capable of being made for a period in excess of one year and are pure income-profit in the hands of the recipient); and
- (iii) Distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax;

In relation to (i) and (ii) above, at the standard rate of income tax (currently 20 per cent.) and in relation to (iii) above at a prescribed rate of 25 per cent.

On the basis that the Issuer is not resident in Ireland for the purposes of Irish tax, nor does the Issuer operate in Ireland through a branch or agency with which the issue of the Securities is connected, nor are the Securities held in Ireland through a depository or otherwise located in Ireland, then to the extent that payments of interest or annual payments arise on the Securities, such payments should not be regarded as payments having an Irish source for the purposes of Irish taxation.

Accordingly, the Issuer or any paying agent acting on behalf of the Issuer should not be obliged to deduct any amount on account of these Irish withholding taxes from payments made in connection with the Securities.

Separately, for as long as the Securities are quoted on a stock exchange, a purchaser of the Securities should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Securities.

Irish Encashment Tax

Payments on any Securities paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of Securities will be subject to Irish encashment tax at a prescribed rate of 2 per cent., unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Securities entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland.

The proposed financial transactions tax ("FTT")

On February 14, 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Securities (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the Commission's Proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of Securities are advised to seek their own professional advice in relation to the FTT.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended ("**FATCA**") impose a reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "foreign financial institution", or "**FFI**" (as defined by FATCA)) that is receiving a payment on an investor's behalf that does not enter into an agreement with the U.S. Internal Revenue Service ("**IRS**") to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA (an FFI which has entered into such an agreement or is exempt from or in deemed compliance with FATCA, a "**Participating FFI**") and (ii) in certain instances, an investor who does not provide information sufficient to determine whether the investor is a U.S. person or, in the case of certain non-financial non-exempt entities, does not provide information sufficient to determine whether the investor has substantial US owners. The Issuer is classified as an FFI. The Issuer anticipates that any Securities issued in global form will be held by FFIs that are Participating FFIs but there is no guarantee that a custodian or broker through which an investor holds a Security will be a Participating FFI.

This withholding regime is now in effect for payments from sources within the United States and will apply to "**foreign passthru payments**" (a term not yet defined) no earlier than the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register. This withholding would potentially apply to payments in respect of any Securities characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**grandfathering date**", which (A) with respect to Securities that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are published with the U.S. Federal Register, and (B) with respect to Securities that give rise to a dividend equivalent pursuant to section 871(m) of the U.S. Internal Revenue Code of 1986, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If such Securities are materially modified after the applicable grandfathering date, payments made after the date any such material modification occurs may be subject to this withholding tax. This withholding would also potentially apply to payments in respect of any Securities characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Securities are issued on or before the grandfathering date and additional Securities of the same series are issued after that date, the additional Securities may not be treated as grandfathered, which may have negative consequences for the existing Securities, including a negative impact on market price.

The United States and a number of other jurisdictions, including Canada, have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"). IGAs generally limit instances when FATCA withholding is required. Nevertheless, these IGAs currently contain no rules regarding the withholding, if any, that may be required on foreign passthru payments.

FATCA is particularly complex and some aspects of its application are uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to amendment or further interpretation by one or more governments or governmental agencies. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Securities.

Hiring Incentives to Restore Employment Act

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the U.S. Internal Revenue Code of 1986, which treats a “dividend equivalent” payment as a dividend from sources within the United States. Such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A “dividend equivalent” payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a “specified notional principal contract” that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the "**Section 871(m) Regulations**") require withholding on certain non-U.S. holders of the Securities with respect to amounts treated as attributable to dividends from certain U.S. securities. A Security subject to the Section 871(m) withholding regime will be referred to in this Base Prospectus as a "**Specified Security**". The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Security or upon the date of maturity, lapse or other disposition by the non-U.S. holder of the Specified Security. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Security, withholding generally will still be required even if the Specified Security does not provide for payments explicitly linked to dividends. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

Additionally, with respect to Securities that provide for dividend reinvestment in respect of either an underlying U.S. security or an index that includes U.S. securities, (any such Security, a "**Dividend Reinvestment Security**"), the holder will be deemed to receive an amount equal to 100 per cent. of the dividends on the U.S. securities in the form of a dividend equivalent payment (as defined under regulations promulgated pursuant to Section 871(m) of the Code), and the Issuer will withhold 30 per cent. of the dividend equivalent payment regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law, including, for the avoidance of doubt, where a non-U.S. holder is eligible for a reduced tax rate under an applicable tax treaty with the United States. With respect to Securities that reference an underlying U.S. security or an index that includes U.S. securities, but do not provide for payments explicitly linked to dividends in respect of such underlying U.S. security or index (any such Security, a "**U.S. Underlier Security**"), the Issuer will withhold as required under regulations promulgated pursuant to Section 871(m) of the Code regardless of the lack of payments explicitly linked to dividends, and regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law, including, for the avoidance of doubt, where a non-U.S. holder is eligible for a reduced tax rate under an applicable tax treaty with the United States. A Specified Security subject to withholding as a Dividend Reinvestment Security or a U.S. Underlier Security is referred to as an "**Issuer Solution Security**". Investors should consult both their custodians and their advisors as to the availability of reduced rates, refunds, and credits.

The Issuer will not pay any additional amounts to the holder on account of the tax withheld under section 871(m).

The Section 871(m) Regulations generally apply to Specified Securities issued on or after January 1, 2017. If the terms of a Security issued before that date are subject to a "significant modification" (as defined for U.S. tax purposes), the Security generally would be treated as retired and reissued on the date of such modification for purposes of determining based on economic conditions in effect at that time, whether such Security is a Specified Security. Similarly, if additional Securities of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Securities out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Securities are Specified Securities as the date of such subsequent sale or issuance. Consequently, a previously out of scope Security might become a Specified Security following such modification or further issuance.

The applicable Issue Terms will indicate whether the Issuer has determined that Securities are Specified Securities. If Securities are Specified Securities, a non-U.S. holder of such Securities should expect to be subject to withholding in respect of any dividend-paying U.S. securities underlying those Securities. The Issuer's determination is binding on non-U.S. holders of the Securities, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Securities linked to U.S. securities and their application to a specific issue of Securities may be uncertain.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Securities.

Common Reporting Standard

Similar to sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, under the Organisation for Economic Co-operation and Development's (the "OECD") initiative for the automatic exchange of information, many countries have committed to automatic exchange of information relating to accounts held by tax residents of signatory countries, using a common reporting standard.

Canada is one of over 90 countries that has signed the OECD's Multilateral Competent Authority Agreement and Common Reporting Standard (the "CRS"), which provides for the implementation of the automatic exchange of tax information. On December 15, 2016, legislation to implement the CRS in Canada was enacted, which, effective as of July 1, 2017, requires Canadian financial institutions to report certain information concerning certain investors resident in participating countries to the Canada Revenue Agency and to follow certain due diligence procedures. The Canada Revenue Agency then provides such information to the tax authorities in the applicable investors' countries of residence, where required under the CRS. The UK Government has enacted legislation giving effect to the EU's implementation of the CRS (contained in certain EU Council Directives) from January 1, 2016. Similar implementing legislation is expected to be introduced by other signatory countries to the CRS.

SUBSCRIPTION AND SALE

Securities may be sold from time to time by the Issuer to RBC Europe Limited (a "**Dealer**"). Securities may also be sold by the Issuer directly to institutions who are not Dealers. The arrangements under which Securities may from time to time be agreed to be sold by the Issuer to, and purchased by, Dealers are set out in a dealership agreement dated July 30 2021 (as amended, supplemented or replaced from time to time, the "**Dealership Agreement**") and made between the Issuer and the Dealer. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Securities, the price at which such Securities will be purchased by the Dealer and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase. The Dealership Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

RBC Europe Limited is an affiliate of the Bank.

Canada

The Securities have not been and will not be qualified for sale under the securities laws of any province or territory of Canada.

If the applicable Issue Terms specify "Canadian Sales Not Permitted", the Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or distributed, and that it will not offer, sell or distribute, any Securities, directly or indirectly, in Canada or to, or for the benefit of any resident thereof.

If the applicable Issue Terms specify "Canadian Sales Permitted", the Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has offered, sold or distributed, and that it will offer, sell or distribute, any Securities, in Canada in compliance with the securities laws of Canada or any province or territory thereof.

The Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree, that it will not distribute or deliver this Base Prospectus, any Issue Terms and, as applicable, any Drawdown Prospectus or any other offering material relating to the Securities in Canada (whether or not the applicable Issue Terms specify "Canadian Sales Not Permitted" or "Canadian Sales Permitted"), in contravention of the securities laws of Canada or any province or territory thereof.

United States of America

"Super Reg S" transfer restrictions apply. "TEFRA D rules apply" unless "TEFRA C rules apply" are specified as applicable in the applicable Issue Terms or unless "TEFRA rules not applicable" is specified in the applicable Issue Terms.

The Securities and, in certain cases, any Entitlement have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or under any state securities laws, and trading in the Securities has not been approved by the United States Commodity Futures Trading Commission (the "**CFTC**") under the United States Commodity Exchange Act of 1936, as amended (the "**Commodity Exchange Act**").

Pursuant to "Super Reg S" transfer restrictions, no Securities of any series, or interests therein or Entitlement with respect thereto, may at any time be offered, sold, resold, traded, pledged, redeemed, transferred or delivered, directly or indirectly, in the United States of America (including the states and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction (the "**United States**") or directly or indirectly offered, sold, resold, traded, pledged, redeemed, transferred or delivered to, or for the account or benefit of, any person who is (i) an individual who is a citizen or resident of the United States; (ii) a corporation, partnership or other entity organised in or under the laws of the United States or any political subdivision thereof or which has its principal place of business in the United States; (iii) any estate or trust which is subject to United States federal income taxation regardless of the source of its income; (iv) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and if one or more United States trustees have the authority to control all substantial decisions of the trust; (v) a pension plan for the employees, officers or principals of a corporation, partnership or other entity described in (ii) above; (vi) any entity organised principally for passive investment, 10 per cent. or more of the beneficial interests in which are held by persons described in (i) to (v) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the CFTC's regulations by virtue of its participants being non-U.S. Persons; (vii) a "U.S. person" as defined in Regulation S of the Securities Act ("**Regulation S**"); (viii) a person other than a "Non-United States person" as defined in Rule 4.7 under the United States Commodity Exchange Act of 1936, as amended; (ix) a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the CFTC or the final rule relating to Cross-Border Application of the Registration Thresholds and Certain Requirements Applicable to Swap Dealers and Major Swap Participants promulgated by the CFTC, in each case as amended, modified or supplemented from time to time, pursuant to the Commodity Exchange Act; or (x) any other "U.S. person" as such term may be defined in Regulation S or in regulations or guidance adopted under the Commodity Exchange Act (each such person, a "**U.S. Person**").

Offers, sales, resales or deliveries of Securities of any series, or interests therein or any Entitlement with respect thereto, directly or indirectly, in the United States or to, or for the account or benefit of U.S. Persons would constitute a violation of United States securities laws unless made in compliance with the registration requirements of the Securities Act or pursuant to an exemption therefrom. In addition, in the absence of relief from the CFTC, offers, sales, resales, trades or deliveries of Securities of any series, or interests therein or any Entitlement with respect thereto, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. Persons, may constitute a violation of United States law governing commodities trading. Consequently, any offer, sale, resale, trade, pledge, redemption, transfer or delivery of any Securities of any series, or interests therein or any Entitlement with respect thereto, made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. Person will not be recognised.

The Dealer has agreed and each further Dealer in respect of an issue of Securities will be required to agree that they will not at any time offer, sell, resell, trade, pledge, redeem, transfer or deliver, directly or indirectly, Securities of any series, or interests therein or any Entitlement with respect thereto, in the United States or to, or for the account or benefit of, any U.S. Person or to others for offer, sale, resale or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any such U.S. Person. The Issuer will also be required to notify all initial Holders, and require that such notice be repeated to all subsequent Holders, that every person exercising such Securities of any series, or interests therein or any Entitlement with respect thereto, will be required to represent that neither it nor any person on whose behalf it is acting is a U.S. Person.

The Dealer has further agreed and each further Dealer in respect of an issue of Securities will be required to agree that it, its affiliates (as defined in Rule 501(b) of Regulation D under the Securities Act), and any person acting on its or their behalf will not offer or sell the Securities at any time except in accordance with Regulation S, and that neither it, its affiliates (as defined in Rule 501(b) of Regulation D under the Securities Act), nor any persons acting on its or their behalf has engaged or will engage in any directed selling efforts (as defined in Regulation S) with respect to the Securities and it and they have complied and will comply with the offering restrictions requirements of Regulation S. The terms used in this paragraph have the meanings given to them by Regulation S.

Prior to the delivery of any Entitlement in respect of a Physical Delivery Security the holder thereof will be required to represent that, *inter alia*, they are not a U.S. Person, the Security was not redeemed on behalf of a U.S. Person and no cash, securities or other property have been or will be delivered within the United States or to, or the account or benefit of, a U.S. Person in connection with any exercise thereof (see Condition 9.02 in "Terms and Conditions of the Notes" and Condition 23.02 in "Terms and Conditions of the W&C Securities").

Notes in bearer form and W&C Securities are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to U.S. persons, except in certain transactions permitted by U.S. tax regulations. Terms used in the preceding sentence have the meanings given to them by the United States Internal Revenue Code of 1986 and regulations promulgated thereunder.

Where "Basket notice applicable" is specified in the applicable Issue Terms, the Securities may not be sold to, or be beneficially owned by, a "U.S. Taxpayer". For purposes of the following disclosure, a "**U.S. Taxpayer**" is (i) a citizen or resident of the United States, (ii) a United States domestic corporation, (iii) an estate whose income is subject to United States federal income tax regardless of its source, (iv) a trust if a United States court can exercise primary supervision over the trust's administration and one or more U.S. Taxpayers are authorised to control all substantial decisions of the trust, or (v) a non-United States person whose income, gain or loss, if any, would be effectively connected with a United States trade or business. For purposes of this disclosure, a U.S. Taxpayer includes any of the persons listed above who holds Securities through an entity treated as a partnership, a grantor trust, or a simple trust for United States federal income tax purposes, even if such entity is not organised under, or subject to, the laws of the United States or any state therein.

Section 6011 of the U.S. Internal Revenue Code of 1986, as amended, requires that certain transactions suspected of providing tax benefits to U.S. Taxpayers be reported to the United States Internal Revenue Service ("**IRS**") as "transactions of interest". IRS Notice 2015-74 designates certain "basket contracts" and substantially similar transactions as "transactions of interest". The notice may apply to a Security linked to a basket of assets or a financial index where a beneficial owner is a U.S. Taxpayer, and such beneficial owner (or person acting on behalf of the beneficial owner) has the discretion to change the referenced assets or trading algorithm underlying the index. Such Securities will be specified in the applicable Issue Terms as "Basket notice applicable" and subject to the above selling restriction. If a U.S. Taxpayer becomes a beneficial owner of such a Security, such U.S. Taxpayer and the Issuer may be required to report certain information to the IRS, as set forth in the applicable regulations regarding "reportable transactions". A holder or beneficial owner that fails to disclose the transaction in accordance with the notice could be subject to penalties.

Prohibition of sales to EEA Retail Investors

Other than as may be provided in the Issue Terms in respect of any Securities, the Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and

will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Issue Terms in relation thereto to any retail investor in the EEA.

For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or

Where the Issue Terms in respect of any Securities specifies "Prohibition of Sales to EEA Retail Investors" as "Applicable" other than with respect to the period(s) of time and in the jurisdiction(s) specified therein, then, with respect to such period(s) of time and each such jurisdiction (each, a "**Relevant Member State**"), the Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the applicable Issue Terms in relation thereto to the public in that Relevant Member State except that it may make an offer of such Securities to the public in that Relevant Member State:

- (a) if the applicable Final Terms in relation to the Securities specify that an offer of those Securities may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the applicable Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors, as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation;

provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer or any Dealer(s) to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision:

- the expression an “**offer of Securities to the public**” in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities; and
- the expression “**Prospectus Regulation**” means Regulation (EU) 2017/1129, as amended.

United Kingdom

Prohibition of sales to UK Retail Investors

Where the Issue Terms in respect of any Securities specifies "Prohibition of Sales to UK Retail Investors" as "Applicable", other than as may be provided therein, each relevant Dealer will be required to represent and agree that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Issue Terms in relation thereto to any retail investor in the United Kingdom.

 - (iii) not a qualified investor as defined in Article 2 of the UK Prospectus Regulation; and
- (b) the expression an "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities.

If:

- (x) the Issue Terms in respect of any Securities specifies “Prohibition of Sales to UK Retail Investors” as “Not Applicable”; or

PRC

The Securities may not be offered, sold or delivered, or offered, sold or delivered to any person for reoffering, resale or redelivery, in the PRC in contravention of any applicable laws.

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Securities in the PRC to any person to whom it is unlawful to make the offer or solicitation in the PRC.

The Issuer does not represent that this Base Prospectus may be lawfully distributed, or that any Securities may be lawfully offered, in compliance with any applicable registration or other requirements in the PRC, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken which would permit a public offering of any Securities or distribution of this Base Prospectus in the PRC. Accordingly, the Securities are not being offered or sold within the PRC by means of this Base Prospectus or any other document, except under circumstances that will result in compliance with any applicable laws and regulations. Neither this Base Prospectus nor any advertisement or other offering material in relation to the Securities may be distributed or published in the PRC, except under circumstances that will result in compliance with any applicable laws and regulations.

Kingdom of Saudi Arabia

No action has been or will be taken in the Kingdom of Saudi Arabia that would permit a public offering of the Securities. Any investor in the Kingdom of Saudi Arabia or who is a Saudi person (a "**Saudi Investor**") who acquires any Securities pursuant to an offering should note that the offer of Securities is a private placement under the "Rules on the Offers of Securities and Continuing Obligations" as issued by the Board of the CMA resolution number 3-123-2017 dated December 27, 2017, as amended from time to time (the "**KSA Regulations**"), made through a person authorised by the CMA to carry on the securities activity of arranging and following a notification to the CMA as required under the KSA Regulations.

The Securities may thus not be advertised, offered or sold to any person in the Kingdom of Saudi Arabia other than to such persons as are permitted under the KSA Regulations. The Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that any offer of Securities to a Saudi Investor will be made in compliance with the KSA Regulations.

Each offer of Securities shall not therefore constitute a "public offer", an "exempt offer" or a "parallel market offer" pursuant to the KSA Regulations, but is subject to the restrictions on secondary market activity under Part 3 of the KSA Regulations. Any Saudi Investor who has acquired Securities pursuant to a private placement under the KSA Regulations may not offer or sell those Securities to any person unless the offer or sale is made through a capital market institution appropriately licensed by the CMA and in accordance with the secondary market requirements of Part 3 of the KSA Regulations.

Switzerland

The Dealer has acknowledged and agreed and each further Dealer appointed under the Programme will be required to acknowledge and agree that:

- (i) they have only made and will only make an offer of Securities to the public in Switzerland, other than pursuant to an exemption under Article 36(1) FinSA: (a) if and as from the date on which this Base Prospectus and the applicable Final Terms have been filed and deposited with a review body (*Prüfstelle*) in Switzerland and entered on the list according to Article 64(5) FinSA; (b) provided they are deemed approved according to Article 54(2) FinSA and Article 70(3) FinSO; (c) if the applicable Final Terms specify "Swiss Non-Exempt Offer" as applicable and during the "Swiss Offer Period" specified therein; and (d) if consent has been granted to use the Base Prospectus and the applicable Final Terms for a Swiss Non-Exempt Offer in accordance with Article 36(4) FinSA; or
- (ii) they have not offered and will not offer, directly or indirectly, Securities to the public in Switzerland, and have not distributed or caused to be distributed and will not distribute or cause to be distributed to the public in Switzerland, this Base Prospectus, the applicable Issue Terms or any other offering material relating to the Securities, other than pursuant to an exemption under Article 36(1) FinSA.

For these purposes "public offer" refers to the respective definitions in Article 3(g) and (h) FinSA and as further detailed in FinSO.

If this Base Prospectus and any applicable Final Terms are deemed approved according to Article 54(2) FinSA and Article 70(3) FinSO and filed and deposited with a review body (*Prüfstelle*) in Switzerland, this Base Prospectus and each such Final Terms may be obtained in electronic form, free of charge, from <https://www.rbc.com/investor-relations/european-senior-notes-program.html#swiss-notes-transactions-content>.

Subject to the applicable transitional provisions under FinSA and FinSO, if Securities qualifying as debt instruments with a "derivative character" (as such expression is understood under FinSA) are offered or recommended to private clients within the meaning of FinSA in Switzerland a key information document under Article 58 FinSA (*Basisinformationsblatt für Finanzinstrumente*) or Article 59(2) FinSA in respect of such Securities must be prepared and published. According to Article 58(2) FinSA, no key information document is required for Securities that may only be acquired for private clients under an asset management agreement.

Where the applicable Issue Terms specifies the "Prohibition of Offer to Private Clients in Switzerland" to be "Applicable" other than with respect to the period(s) of time specified therein, then other than with respect to such period(s), the Securities may not be offered or recommended to private clients within the meaning of FinSA in Switzerland. For these purposes, a private client means a person who is *not* one (or more) of the following: (i) a professional client as defined in Article 4(3) FinSA (not having opted-in on the basis of Article 5(5) FinSA) or Article 5(1) FinSA; or (ii) an institutional client as defined in Article 4(4) FinSA; or (iii) a private client with an asset management agreement according to Article 58(2) FinSA. For these purposes "offer" refers to the interpretation of such term in Article 58 FinSA.

Where the applicable Issue Terms specifies the "Prohibition of Offer to Private Clients in Switzerland" to be "Applicable", other than with respect to the duration of the applicable transition period under FinSA and its implementing ordinance, if the Securities qualify as structured products within the meaning of Article 70 FinSA and only a simplified prospectus pursuant to Article 5 of the Swiss Federal Act on Collective Investment Schemes, as such article

was in effect immediately prior to the entry into effect of FinSA, has been prepared based on the transitional provision of Article 111 FinSO, the "Prohibition of Offer to Private Clients in Switzerland" as described above shall automatically apply as from the expiry of the applicable transition period.
