On July 22, 2022 (the “**Series Closing Date**”), Golden Credit Card Trust, by its Issuer Trustee (the “**Trust**”), issued its Series 2022-3 Class A Notes, Class B Notes and Class C Notes, which are referred to together as the “**Series 2022-3 Notes**” or the “**Notes**”. The terms of the Series 2022-3 Notes were described in the Offering Memorandum, dated July 14, 2022 (as supplemented by the Supplement to the Offering Memorandum, dated April 25, 2023, the “**Offering Memorandum**”), pursuant to which the Class A Notes were offered to investors, which is attached hereto. On the Series Closing Date, the Class A Notes were sold to investors and the Class B Notes and the Class C Notes were purchased from the Trust by Royal Bank of Canada.

As described in the Offering Memorandum, the Class B Notes and the Class C Notes were initially issued as CDN\$-denominated, semi-annual pay notes. On December 15, 2023 (the “**Conversion Date**”), the Series 2022-3 Supplemental Indenture and the Series 2022-3 Purchase Agreement were amended to convert the Class B Notes and the Class C Notes from CDN\$-denominated, semi-annual pay notes to U.S.\$-denominated, monthly pay notes. The Trust also entered into Swap Confirmations with respect to the Class B Notes and the Class C Notes on the Conversion Date. The Class B Notes and the Class C Notes are represented by one or more Book-Entry Notes deposited on the Conversion Date with DTC, in New York, New York, or with the Indenture Trustee as custodian for DTC, and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant in DTC. The terms of the Class B Notes and the Class C Notes, as revised on the Conversion Date, are described in this Term Sheet.

The Class B Notes and the Class C Notes (together, the “**Offered Notes**”) have not been registered under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”), or under the securities or blue sky laws of any state, and may not be offered or sold to any person except pursuant to an exemption from the registration requirements of the Securities Act and applicable state securities and blue sky laws. Accordingly, the Offered Notes are being offered (i) within the United States only to “qualified institutional buyers” (“**QIBs**”) within the meaning of Rule 144A under the Securities Act (“**Rule 144A**”) in reliance on Rule 144A and in a manner that does not involve a public offering within the meaning of Section 4(a)(2) of the Securities Act and (ii) outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act. For a description of certain restrictions on transfer of the Offered Notes, see “Transfer Restrictions” in this Term Sheet.

This Term Sheet is confidential, is not to be shown or given to any person other than the person to whom it was delivered and is not to be copied or otherwise reproduced in any manner whatsoever. Failure to comply with this directive can result in a violation of the Securities Act.

The Notes are obligations of the Trust only and do not represent interests in or obligations of Royal Bank of Canada, Computershare Trust Company of Canada (other than in its capacity as Trustee of the Trust), CIBC Mellon Trust Company, BNY Trust Company of Canada, the Swap Counterparty, the beneficiaries of the Trust or any affiliate of any of the foregoing. The Trust is not a trust company and does not carry on or intend to carry on the business of a trust company. The Notes are not “deposits” within the meaning of the Canada Deposit Insurance Corporation Act or the Federal Deposit Insurance Act and none of the Series 2022-3 Ownership Interest, the Notes or the Receivables is insured or guaranteed by the Canada Deposit Insurance Corporation, the Federal Deposit Insurance Corporation or any other governmental agency or instrumentality.

⁽³⁾ The interest rate for the Class A Notes is a rate initially based on USD Compounded SOFR Index; however, the benchmark may change in certain situations. Credit Support for the Notes

The Class B Notes and the Class C Notes serve as credit support for the Class A Notes. Following any occurrence of a Related Event of Default and the acceleration of the Notes, repayment of the principal and interest owing on the Class B Notes and the Class C Notes will not be made until all principal and interest owing under the Class A Notes have been fully paid. The Class C Notes serve as credit support for the Class B Notes. Following any occurrence of a Related Event of Default and the acceleration of the Notes, repayment of the principal and interest owing on the Class C Notes will not be made until all principal and interest owing under the Class B Notes have been fully paid. See “Certain Features of Series 2022-3 Ownership Interest and Notes — Details of the Offering – Credit Support for the Notes” and “Certain Features of Series 2022-3 Ownership Interest and Notes - Payment Priorities”.

* * *

Swap Agreement

Interest and principal on the Receivables is paid in Canadian Dollars at a fixed rate and any interest earned on the deposit balance of the Series Distribution Account while the Notes are in their Accumulation Period will be based upon a short term deposit or investment rate. The Trust, through the Series 2022-3 Ownership Interest, is entitled to its allocated share of this interest and principal. However, interest and principal on the Notes are paid in U.S. Dollars and interest on the Class A Notes is payable at a floating

rate of interest based on USD Compounded SOFR Index or other applicable Benchmark. The risk of this interest rate and currency mismatch has been reduced by the Trust by entering into a swap agreement (the “**Swap Agreement**”) with RBC as swap counterparty (in such capacity, the “**Swap Counterparty**”) including under a swap confirmation with respect to the Class A Notes entered into on the Closing Date (the “**Class A Swap Confirmation**”), a swap confirmation with respect to the Class B Notes entered into on the Conversion Date (the “**Class B Swap Confirmation**”) and a swap confirmation with respect to the Class C Notes entered into on the Conversion Date (the “**Class C Swap Confirmation**”).

“**ADDITIONAL RISK FACTORS FOR PURCHASERS OF CLASS B AND CLASS C NOTES**”

Subordination

The Class B Notes and the Class C Notes serve as credit support for the Class A Notes and the Class C Notes serve as credit support for the Class B Notes. Repayment of the principal amount of the Class B Notes and the Class C Notes will not be made until all principal and interest on the Class A Notes have been fully paid and repayment of the principal amount of the Class C Notes will not be made until all principal and interest on the Class B Notes have been fully paid. If an Event of Default occurs that has not been waived, repayment of the principal amount of and interest on the Class B Notes and the Class C Notes will not be made until all principal and interest on the Class A Notes have been fully paid and repayment of the principal amount of and interest on the Class C Notes will not be made until all principal and interest on the Class B Notes have been fully paid. In such circumstances, a holder of the Class B Notes or a holder of the Class C Notes could lose some or all of its initial investment in such Notes.

Voting

Subject to special class rights of noteholders, certain amendments may be made to the Programme Agreements and certain directions may be provided, based on a direction given by the holders of all Classes of notes of a series voting together as a single series. As the holders of the Class B Notes and the Class C Notes will generally constitute a minority of the Notes eligible to vote at a meeting called to consider such amendments or to provide written directions, the holders of the Class A Notes will generally have the ability to control any direction provided to the Indenture Trustee and the Trust. Accordingly, subject to the special class rights of the holders of the Class B Notes and the Class C Notes, the holders of the Class A Notes will, in practical terms, have the power to determine whether amendments will be permitted and actions may be taken without regard to the position or interests of the holders of the Class B Notes and the Class C Notes. In certain circumstances, the position or interests of holders of the Class A Notes and of holders of the Class B Notes and the Class C Notes may be in conflict. As a result, holders of the Class B Notes and the Class C Notes may be adversely affected by determinations made which are beyond their control.

If any business to be transacted materially affects the rights relating to the Class B Notes or the Class C Notes, then holders of any such Class of Notes shall not be bound by any action taken at a meeting or by an instrument in writing, unless a special class meeting of the holders of such Class of Notes is held for which approval rules as specified in the Trust Indenture shall apply. Such rules include the requirement for matters to be passed by the holders of the affected Notes by an Extraordinary Noteholder Direction.

Swap Agreement

Interest and principal on the Receivables is paid in Canadian Dollars at a fixed rate and any interest earned on the deposit balance of the Series Distribution Account while the Notes are in their Accumulation Period will be based upon a short term deposit or investment rate. The Trust, through the Series 2022-3 Ownership Interest, will be entitled to its allocated share of this interest and principal. However, interest and principal on the Notes will be paid in U.S. Dollars and interest on the Class A Notes will be payable at a floating rate of interest based on USD Compounded SOFR Index or other applicable Benchmark. The risk of this interest rate and currency mismatch has been reduced by the Trust by entering into the Swap Agreement with the Swap Counterparty.

Under the Swap Agreement, on the Closing Date, the Trust paid to the Swap Counterparty the U.S. Dollar proceeds of the Notes and received the Canadian Dollar Equivalent of such amount, using an exchange rate determined on such date, which was used to purchase the Series 2022-3 Ownership Interest. On the Swap Termination Date, the Trust will receive the U.S. Dollar principal amount of the Notes from the Swap Counterparty, which will be used to repay the Series 2022-3 Noteholders, and will pay to the Swap Counterparty the Canadian Dollar Equivalent of such amount, determined at the exchange rate used on the Closing Date. In addition, (i) under the swap transaction relating to the Class A Notes, the Trust will be required to pay to the Swap Counterparty, on each Swap Payment Date, a fixed amount based on a rate of 1.72% of the Canadian Dollar Equivalent of the principal amount of the Class A Notes, and the Swap Counterparty will be required to pay to the Trust on each such Swap Payment Date an amount equal to the interest payable, in U.S. Dollars, on the Class A Notes on such Swap Payment Date, (ii) under the swap transaction relating to the Class B Notes, the Trust will be required to pay to the Swap Counterparty, on each Swap Payment Date, a fixed amount based on a rate of 6.86% of the Canadian Dollar Equivalent of the principal amount of the Class B Notes, and the Swap Counterparty will be required to pay to the Trust on each such Swap Payment Date an amount equal to the interest payable, in U.S. Dollars, on the Class B Notes on such Swap Payment Date and (iii) under the swap transaction relating to the Class C Notes, the Trust will be required to pay to the Swap Counterparty, on each Swap Payment Date, a fixed amount based

on a rate of 8.00% of the Canadian Dollar Equivalent of the principal amount of the Class C Notes, and the Swap Counterparty will be required to pay to the Trust on each such Swap Payment Date an amount equal to the interest payable, in U.S. Dollars, on the Class C Notes on such Swap Payment Date.

Consequences to Holders of the Offered Notes

Interest. In general (and subject to the discussion in the Offering Memorandum under “Changes in U.S. Federal Tax Laws”), stated interest on a Note that constitutes “qualified stated interest” will be includible in gross income as it accrues or is received in accordance with the U.S. Holder’s usual method of tax accounting. Interest received on the Notes may also constitute “investment income” for purposes of certain limitations of the Code concerning the deductibility of investment interest expense. The Class A Notes were not issued with original issue discount within the meaning of Section 1273 of the Code (“**OID**”). However, the Class B Notes and the Class C Notes may be issued with OID. For a discussion of the law and potential consequences of OID, see as described below under “Original Issue Discount”. Prospective investors should consult their independent tax advisors regarding the potential U.S. federal income tax consequences to them of interest on the Offered Notes.

Original Issue Discount

The stated interest on a Note that constitutes “qualified stated interest” will be taxable to a holder as ordinary income when received or accrued according to the holder’s method of tax accounting. For stated interest to be treated as qualified stated interest, it must be payable at least annually at a single rate that takes into account the length of the interval between interest payment dates, and reasonable remedies must exist to compel timely payment or the terms of the instrument must make late payment or non-payment sufficiently remote for purposes of the OID rules. Although stated interest on the Class B Notes and the Class C Notes can be deferred under certain circumstances, the Trust intends to treat the potential deferral

as sufficiently remote for purposes of the OID rules and treat the stated interest on the Notes as qualified stated interest. In the case of such a deferral, the Notes with respect to which interest is deferred would be treated as reissued for purposes of the OID rules at the time of the interest deferral and at that time such Notes may be treated as OID obligations.

One or both classes of the Offered Notes may be issued with OID of more than a de minimis amount. In general, OID is the excess of the “stated redemption price at maturity” of a debt instrument over its “issue price”, unless that excess is less than a de minimis amount (i.e., 0.25% multiplied by the weighted average maturity of the debt instrument). A Note’s stated redemption price at maturity is the aggregate of all payments required to be made under the Note except qualified stated interest. The issue price for a class of Offered Notes will be the first price at which a substantial amount of such Notes are sold, excluding sales to bond houses, brokers or similar persons acting as underwriters, placement agents or wholesalers. A holder of Notes treated as issued with OID that is not de minimis must include OID in its gross income as ordinary interest income as it accrues, regardless of the holder’s regular method of accounting, generally under a constant yield method.

Under Section 1272(a)(6) of the Code, special provisions apply to debt instruments on which payments may be accelerated due to prepayments of other obligations securing those debt instruments. However, no regulations have been issued interpreting those provisions, and the manner in which those provisions would apply to the Offered Notes is unclear, but the application of Section 1272(a)(6) could affect the rate of accrual of OID and could have other consequences to holders of Offered Notes.

In addition, a subsequent purchaser who buys a Note for less than its stated redemption price at maturity may be subject to the “market discount” rules of the Code. A subsequent purchaser who buys a Note for more than its stated redemption price at maturity may be subject to the “market premium” rules of the Code.

Credit Risk Retention

* * *

The Seller is required to maintain the Pool Balance in an amount at least equal to the Required Pool Balance, which equals the sum of the Invested Amounts of each Series times the maximum Required Pool Percentage for any Series at such time. The Required Pool Percentage for the Series 2022-3 Ownership Interest is 107%, which means that the amount of the Retained Interest is required to be at least 7% of the aggregate Invested Amounts of all outstanding series of Notes issued by the Trust for so long as the Credit Card Receivables Backed Notes, Series 2022-3 are outstanding, or an Amortization Event could occur. Although similar in concept, the requirement to maintain the Retained Interest as set forth above and the obligation to comply with Regulation RR are independent obligations and are calculated differently. The “seller’s interest” is required to be at least 5% of the aggregate principal amount of all outstanding series of Notes issued by the Trust. Because the Invested Amount for a series of Notes may be less than the principal amount of that series of Notes, such calculations may differ, and the Seller will report the percentage using both calculations on the Monthly Portfolio Report Summary. The Seller expects the amount of the Retained Interest to be equal to CDN\$6,220,373,038.18, representing approximately 94.16% of the aggregate principal amount of all outstanding series of Notes issued by the Trust as of the date hereof.

As permitted under the U.S. risk retention rule, for purposes of determining the expected amount of the Retained Interest on the date hereof, the Seller has used the Pool Balance as of December 31, 2023 and the percentage set out in the prior sentence is based on the aggregate principal amount of each series of Notes issued by the Trust (calculated for each outstanding series or class of Notes, as applicable, using the rate of exchange of the Canadian dollar to the United States dollar used in the swap agreement for such series of Notes) that are outstanding as of the date hereof. The actual amount of the Retained Interest on the date hereof will be disclosed by the Trust in the first Monthly Portfolio Report Summary following the date hereof.
