All amounts are in Canadian dollars unless otherwise indicated and are based on financial statements prepared in compliance with International Accounting Standard 34 Interim Financial Reporting, unless otherwise noted. Our Q2 2021 Report to Shareholders and Supplementary Financial Information are available on our website at: http://www.rbc.com/investorrelations.

From time to time, we make written or oral forward-looking statements within the meaning of certain securities laws, including the "safe harbour" provisions of the United States Private Securities Litigation Reform Act of 1995 and any applicable Canadian securities legislation. We may make forward-looking statements in this presentation, in other filings with Canadian regulators or the SEC, in other reports to shareholders, and in other communications, including statements by our President and Chief Executive Officer. Forward-looking statements in this document include, but are not limited to, statements relating to our financial performance objectives, vision and strategic goals, expectations relating to our CET1 ratio, and the potential continued impacts of the coronavirus (COVID-19) pandemic on our business operations, financial results and financial condition, and on the global economy and financial market conditions, including statements about our actions in support of our employees, clients and communities, and projections relating to real gross domestic product and unemployment rates in Canada and the United States, respectively. The forward-looking information contained in this presentation is presented for the purpose of assisting the holders of our securities and financial position and results of operations as at and for the periods ended on the dates presented, as well as our financial performance objectives, vision and strategic goals, and may not be appropriate for other purposes. Forward-looking statements are typically identified by words such as "believe", "expect", "foresee", "forecast", "anticipate", "intend", "estimate", "goal", "plan" and "project" and similar expressions of future or conditional verbs such as "will", "may", "should", "could" or "would".

By their very nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties, which give rise to the possibility that our predictions, forecasts, projections, expectations or conclusions will not prove to be accurate, that our assumptions may not be correct and that our financial performance objectives, vision and strategic goals will not be achieved. We caution readers not to place undue reliance on these statements as a number of risk factors could cause our actual results to differ materially from the expectations expressed in such forward-looking statements. These factors – many of which are beyond our control and the effects of which can be difficult to predict – include: credit, market, liquidity and funding, insurance, operational, regulatory compliance (which could lead to us being subject to various legal and regulatory proceedings, the potential outcome of which could include regulatory restrictions, penalties and fines), strategic, reputation, legal and regulatory environment, competitive and systemic risks and other risks discussed in the risk sections and Significant developments: COVID-19 section of our annual report for the fiscal year ended October 31, 2020 (the 2020 Annual Report) and the Risk management and Impact of COVID-19 pandemic sections of our Q2 2021 Report to Shareholders; including business and economic conditions, information technology and cyber risks, Canadian housing and household indebtedness, geopolitical uncertainty, privacy, data and third party related risks, regulatory changes, environmental and social risk (including climate change), and digital disruption and innovation, culture and conduct, the business and economic conditions in the geographic regions in which we operate, the effects of changes in government fiscal, monetary and other policies, tax risk and transparency, and the emergence of widespread health emergencies or public health crises such as pandemics and epidemics, including the COVID-19 pandemic and its

We caution that the foregoing list of risk factors is not exhaustive and other factors could also adversely affect our results. When relying on our forward-looking statements to make decisions with respect to us, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Material economic assumptions underlying the forward looking-statements contained in this presentation are set out in the Economic, market and regulatory review and outlook section and for each business segment under the Strategic priorities and Outlook headings in our 2020 Annual Report, as updated by the Economic, market and regulatory review and outlook and Impact of COVID-19 pandemic sections of our Q2 2021 Report to Shareholders. Except as required by law, we do not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by us or on our behalf.

Additional information about these and other factors can be found in the risk sections and Significant developments: COVID-19 section of our 2020 Annual Report and the Risk management and Impact of COVID-19 pandemic sections of our Q2 2021 Report to Shareholders.

## Q2/2021 Highlights

- The U.S. represented 22% or over \$3 billion of total bank net income over the last 12 months<sup>(3)(7)</sup>
  - Q2/2021 U.S. earnings were up significantly YoY, largely due to lower PCL as the prior year reflected elevated provisions from the impact of the onset of the COVID-19 pandemic
- The U.S. represented 26% of total bank revenue in the last 12 months  $^{\rm (3)(7)}$ 
  - + Q2/2021 U.S. revenue was up 41% YoY, driven by higher client activity in Capital Markets and Wealth Management
- U.S. PCL on loans ratio of (31) bps versus (19) bps at Q1/21

## Net Income (\$ millions)

#### Earnings

 Net income increased 171% YoY largely driven by lower PCL on performing loans, higher market sensitive revenue and strong volume growth, partly offset by the impact of lower interest rates and higher variable and stock-based compensation

#### Revenue

- Net interest income (see slides 11 and 12): Down 11% YoY, as strong volume growth was more than offset by the impact of lower interest rates
- Non-interest income (see slide 13): Up 39% YoY
  - Up 21% YoY net of Insurance fair value change and changes in U.S. Wealth Management WAP <sup>(1)(5)</sup>
  - Higher client activity and constructive markets in Capital Markets, Wealth Management, and Canadian Banking

## **Non-Interest Expense**

- Up 7% YoY (see slide 14)
  - Down 4% YoY excluding impact of variable and stock-based compensation costs<sup>(6)</sup>
  - Strong positive operating leverage in Capital Markets and Wealth Management (non-U.S.). Canadian Banking expenses well controlled, down 1% YoY

## **Provisions for Credit Losses**

- PCL on loans ratio<sup>(7)</sup> of (5) bps, down 170 bps YoY (down 12 bps QoQ)
  - PCL on performing loans (slide 21): \$(260) million release reflects improvements in our macroeconomic and credit quality outlook, largely in Canadian Banking and Capital Markets
  - PCL on impaired loans (slide 23): Down 26 bps YoY (down 2 bps QoQ) to 11 bps

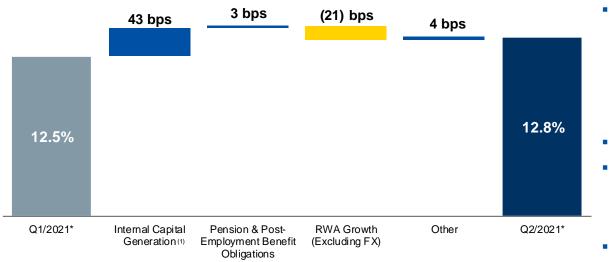

## Tax Rate

- Effective tax rate of 22.6%, up 7.8 pts YoY
  - Effective tax rate (adjusted for TEB) of 24.5%<sup>(8)</sup>, up 3.7 pts<sup>(8)</sup> from last year

## Strong capital and earnings growth continue to drive shareholder returns

## **CET1 Movement**

- CET1 ratio of 12.8%, up 30 bps QoQ, reflecting:
  - + Record internal capital generation
  - + Favourable pension & post-employment benefit impact
  - Organic RWA growth supporting client-driven business activities
- Cumulative IFRS 9 capital modification benefit of 16 bps
- Wholesale parameter updates expected to increase CET1 ratio by approximately 70-80 bps, partially offset by a decrease of approximately 10-15 bps from the increase in SVaR multipliers in Q3/2021<sup>(2)</sup>
- Leverage ratio of 5.0%, up 20 bps QoQ

## **RWA Movement (\$ billions)**

- RWA decreased \$1.9 billion, mainly reflecting:
- + Favourable FX translation
- + Net credit upgrades in wholesale lending and counterparty credit risk (CCR) portfolios
  - Post Q1/2020, RWA increased ~\$10 billion as a result of cumulative net credit downgrades in the wholesale loan book and CCR portfolio
- Business growth driven by wholesale lending, clientdriven trading activity and residential mortgages

\*Represents rounded figures. For more information, refer to the Capital Management section of our Q2/2021 Report to Shareholders.

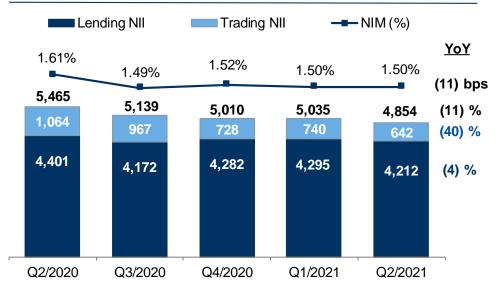

(1) Internal capital generation represents net income available to shareholders, less common and preferred share dividends and distributions on other equity instruments.

(2) Amounts subject to change based on portfolio size or portfolio mix held.

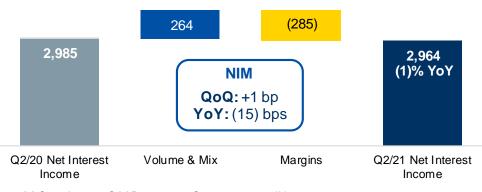

## Net interest income: Strong volume growth more than offset by lower interest rates

- Net interest income down 11% YoY as strong volume growth was more than offset by the impact of lower interest rates. Trading net interest income was impacted by lower repo & secured financing revenue
- All-bank NIM on average earning assets was down 11 bps YoY (flat QoQ)
- Liquidity Coverage Ratio of 133%, down 8 pts QoQ

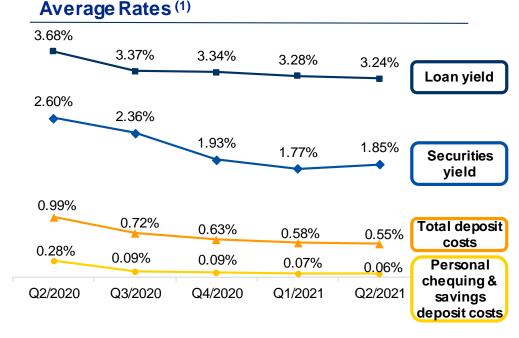

## Net Interest Income (\$ millions)

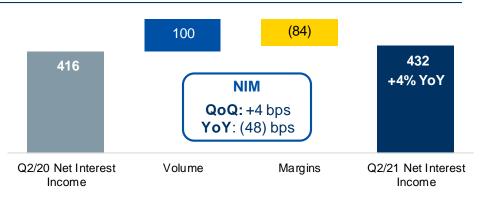

## Canadian Banking Net Interest Income (\$ millions)

(1) Contains non-GAAP measures. See note 15 on slide 38.

## City National Net Interest Income (US\$ millions)

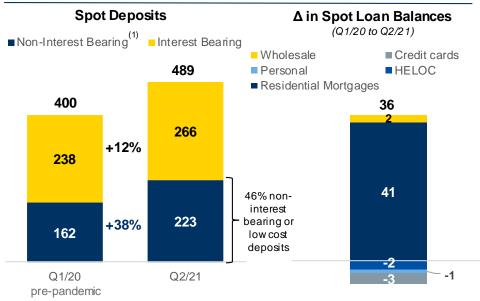

11 Second Quarter 2021 Results

#### Royal Bank of Canada

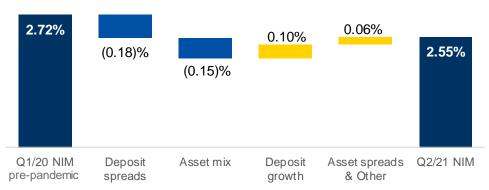

## Well positioned for rising interest rates

- Lower interest rates have negatively impacted deposit margins in Canadian Banking, and asset yields at City National (CNB)
- Strong mortgage growth and lower credit card balances in Canadian Banking shifted the product mix towards lower-yielding assets
- ~50% of Canadian Banking and CNB deposit base is non-interest bearing or low-rate deposits

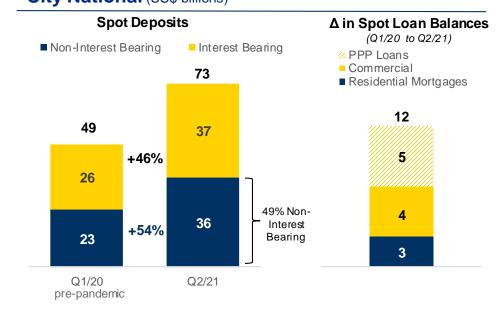

## Canadian Banking (\$ billions)

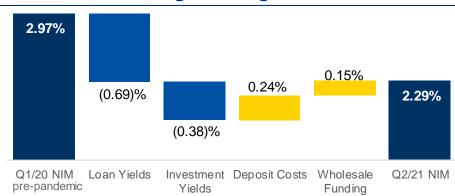

## Canadian Banking NIM on Average Earning Assets

City National (US\$ billions)

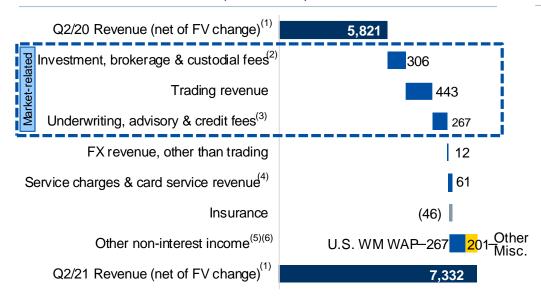

## **CNB NIM on Average Earning Assets**

(1) Reflects non-interest bearing deposits that are presented in Note 6 of our Q2/21 Report to Shareholders, in addition to personal deposits with an interest rate between 0.1 basis point and 5 basis points.

## Non-interest income: Diversified revenue streams offset interest rate headwinds

## Non-Interest Income by Segment<sup>(1)</sup> (\$ millions)

Non-Interest Income<sup>(1)</sup> (\$ millions)

## Q2/2021 Highlights

- Non-interest income was up 39% YoY; up 26% net of Insurance FV change<sup>(1)</sup>
- + Higher trading revenue in Capital Markets as the prior year included loan underwriting markdowns of \$229 million impacting fixed income trading, and higher equity trading due to robust client activity; partially offset by lower trading revenue in Investor & Treasury Services
- + Higher investment management & custodial fees and mutual fund revenue, largely in Wealth Management and Canadian Banking
- + Record performance in Investment Banking reflecting robust fee activity in M&A and ECM
- + Higher card service revenue
- + Other non-interest income:
  - Favourable change in the fair value of hedges related to our U.S. share-based compensation plans in U.S. Wealth Management (U.S. WM WAP gains / losses)<sup>(6)</sup>, which are largely offset in expenses
  - + Higher non-interest income in Corporate Support was largely offset in net interest income

(1) This is a non-GAAP measure. See note 12 on slide 38. (2) Comprised of investment management & custodial fees, Securities brokerage commissions and Mutual fund revenue. (3) Comprised of Underwriting and other advisory fees and Credit fees. (4) Comprised of service charges and card service revenue. (5) See note 16 on slide 38. (6) This is a non-GAAP measure. ## Q2/2021 Highlights

- Non-interest expense was up 7%YoY
- Down 4% YoY excluding variable and stock-based compensation (which includes changes in U.S. WM WAP)<sup>(2)</sup>
- Higher variable compensation commensurate with improved results in Wealth Management and Capital Markets
- Favourable market conditions supported a change in the fair value of our U.S. share-based compensation plans in U.S. Wealth Management (U.S. WM WAP (gains)/ losses) in stock-based compensation, largely offset in Other revenue
- + Lower marketing, travel and related costs as a result of COVID-19
- + Lower other expenses, including a favourable sales tax adjustment in the current quarter

## Q2/2021 Highlights

- Net income down 47% YoY
  - Lower revenue from funding and liquidity and client deposits

#### Revenue down 25% YoY

- Lower funding and liquidity revenue as the prior year benefitted from the impact of interest rate movements and higher gains from the disposition of investment securities
- Lower client deposit revenue largely driven by lower interest rates
- Lower asset services revenue as the prior year reflected increased client activity due to elevated market volatility

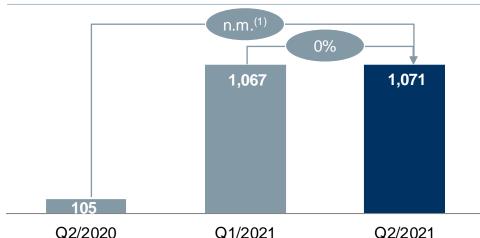

#### Expenses down 4% YoY

- + Favourable sales tax adjustment in the current quarter
- + Lower staff-related costs including the benefit from ongoing efficiency initiatives

## Q2/2021 Highlights

- Net income up \$966 million YoY
  - + Lower PCL and record Corporate and Investment Banking revenue, partially offset by higher taxes and compensation

#### Revenue up 18% YoY

- + Corporate and Investment Banking revenue up 66% YoY
  - Prior year was impacted by loan underwriting markdowns of \$229 million, mainly in the U.S. and Europe
  - + Record Investment Banking quarter supported by higher M&A activity, as well as higher equity and debt origination largely in the U.S.
  - + Higher loan syndication activity in North America
  - + **QoQ:** Higher debt and equity origination activity across all regions
- Global Markets revenue down 8% YoY
  - Lower fixed income trading revenue across most regions as the prior year benefitted from increased client activity in rates and repo products amidst elevated market volatility
  - Foreign exchange translation
  - + Record quarter for Equities supported by higher equity trading revenue across most regions
  - + Gains from the disposition of certain investment securities
  - QoQ: Lower fixed income trading revenue across all regions reflecting the impact of market normalization
- Expenses up 14% YoY
  - Higher compensation on improved results
- Lower PCL YoY
- Higher effective tax rate YoY
  - Increase in proportion of earnings from higher tax rate jurisdictions

# **Risk Review**

Graeme Hepworth Chief Risk Officer

## ACL reflects ongoing uncertainty related to COVID-19

## Movement in Allowance for Credit Losses on Loans<sup>(1)</sup> (\$ millions)

- ACL on loans of \$5.5 billion was down \$389 million QoQ
- ACL as a percentage of loans and acceptances of 0.79% was down 6 bps QoQ, but remains elevated relative to 0.53% at Q1/2020 reflecting the
  ongoing uncertainty related to the impact of the COVID-19 pandemic
- The \$260 million release of reserves on performing loans in Q2/2021 reflects improvements in our macroeconomic and credit quality outlook
  - Though we continue to move along the forecast curve into recovery and vaccine distribution progresses, defaults continue to be temporarily suppressed by government support programs
  - The release of reserves on performing loans is primarily driven by Canadian Banking (\$155 million), largely in the Cards and Commercial portfolios, and Capital Markets (\$87 million)

<sup>(1)</sup> Totals may not add due to rounding.

## GIL below pre-pandemic levels with continued muted new formations

## Gross Impaired Loans (GIL) (\$ millions, bps)

## New Formations (\$ millions)<sup>(1)</sup>

(1) See note 18 on slide 39.

## Key Drivers of GIL (QoQ)

Total GIL decreased \$95 million (down 1 bp QoQ)

#### **Capital Markets**

 GIL decreased \$157 million, primarily reflecting resolution of previously impaired loans, largely in the Oil & Gas sector, partially offset by higher new formations largely in the Real Estate and Related sector

#### Wealth Management (including CNB)

 GIL increased \$49 million, on higher new formations at CNB, primarily in the Consumer Discretionary, and Information Technology sectors

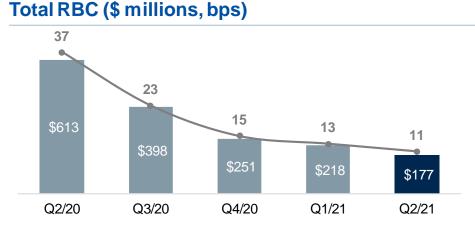

#### **Canadian Banking**

 GIL was stable, as relatively small increases in GIL across retail products were offset by a decrease in commercial GIL

## Net Formations (\$ millions)

## PCL on impaired loans at its lowest level in over 15 years

 Lower provisions QoQ in Capital Markets and Canadian Banking, partially offset by higher provisions in Wealth Management

## Canadian Banking (\$ millions, bps)

- **Retail:** Lower provisions QoQ, primarily in personal lending and residential mortgages, partially offset by higher write-offs on cards
- **Commercial:** Lower provisions QoQ, mainly due to a provision on an Other Services account taken in Q1/2021

## Wealth Management (\$ millions, bps)

 Higher provisions QoQ, due to a provision on a new impaired loan at CNB in the Consumer Discretionary sector, and higher recoveries in Q1/2021

## Capital Markets (\$ millions, bps)

 Lower provisions QoQ, largely due to reversals on previously impaired loans in the Oil & Gas and Other Services sectors, partially offset by a provision on a new impaired loan in the Real Estate and Related sector

Canadian Banking PCL on Impaired Loans and Gross Impaired Loans

#### **CB Retail FICO Score Distribution** (Q2/21)

- PCL on impaired loans decreased 2 bps QoQ, and remains below pre-pandemic levels due to ongoing government support
- Higher write-offs on cards attributed to the end of deferral programs in Q4/20, with card balances impaired after 180 days past due

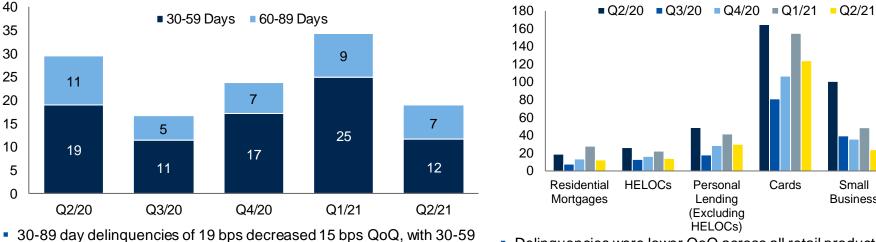

day delinguencies down 13 bps QoQ, and 60-89 day delinguencies

#### CB Delinguencies By Days Past Due (bps) <sup>(5)</sup>

- **Q2/2021:** The quarter-over-quarter change in NII sensitivity, in particular for the 100 bps down shock, was largely attributable to continued growth in low cost deposits in the current quarter
- As at April 30, 2021, an <u>immediate and sustained</u> +100 bps shock would have had a positive impact to our net interest income of \$858 million over a 12-month period

 Through March 2020, the Bank of Canada and U.S. Fed Funds rate each declined by 150 bps

## Q2/2021 Highlights (US\$)

- Net income up \$124 million YoY
  - + Strong volume growth, lower PCL, and higher fee-based client assets, partly offset by lower rates and spreads

## Revenue up 35% YoY

- + Changes in the fair value of the hedges related to U.S. sharebased compensation plans, largely offset in Non-interest expense
- + Higher average fee-based client assets driven by market appreciation and net sales
- + Higher transactional revenue, mainly driven by client activity
- + Net interest income at CNB up 4% YoY
  - CNB NIM down 48 bps YoY
    - + Up 4 bps QoQ mainly due to higher income from PPP<sup>(7)</sup> loan paydowns and lower deposit costs
  - + 20% CNB loan growth (+10% ex-PPP<sup>(7)</sup> loans) driven by double-digit growth in both wholesale and retail loans
  - + 34% CNB deposit growth YoY

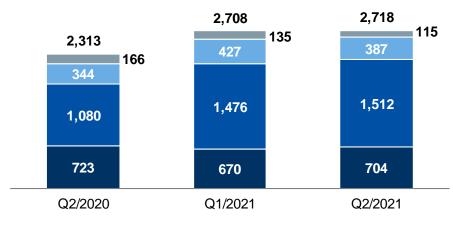

## Expenses up 32% YoY

- Higher costs to support underlying business growth

## Note to users

We use a variety of financial measures to evaluate our performance. In addition to generally accepted accounting principles (GAAP) prescribed measures, we use certain key performance and non-GAAP measures we believe provide useful information to investors regarding our financial condition and result of operations. Readers are cautioned that key performance measures, such as ROE and non-GAAP measures, including results excluding Corporate Support, adjusted earnings per share, pre-provision, pre-tax earnings, adjusted pre-provision and pre-tax earnings, Capital Markets average loans and acceptances excluding certain items, non-interest expense excluding variable and stock-based compensation, non-interest expense excluding the impact of FX and the growth in variable and stock-based compensation, revenue and non-interest income net of insurance fair value change of investments backing policyholder liabilities, adjusted for TEB), loan yield calculated as interest income on loans as a percentage of average total net loans, securities yield calculated as interest expense on deposits and other than as a percentage of average deposits, and average loans outstanding excluding mortgage investments, securitized mortgages and other non-core items do not have any standardized meanings prescribed by GAAP, and therefore are unlikely to be comparable to similar measures disclosed by other financial institutions.

Additional information about our ROE and non-GAAP measures can be found under the "Key performance and non-GAAP measures" sections of our Q2/2021 Report to Shareholders and 2020 Annual Report.

Definitions can be found under the "Glossary" sections in our Q2/2021 Supplementary Financial Information and our 2020 Annual Report.
