## Supplementary Financial Information Q2 2022

For the period ended April 30, 2022 (UNAUDITED)

## Table of Contents

## Page

## 1 Notes to Users

2 Financial Highlights
Consolidated Results
Statements of income
Revenue from trading activities
Realized gains and losses on investment securities
Non-interest expense

## Segment Details

Personal \& Commercial Banking
Canadian Banking
Wealth Management
Insurance
Investor \& Treasury Services
Capital Markets
Corporate Support
On- and Off-Balance Sheet
Balance sheets (period-end balances)
Selected average balance sheet items
Assets under administration and management
Statements of comprehensive income
Statements of changes in equity

## Capital

Flow statement of the movements in regulatory capital
Total capital risk-weighted assets by business segments (all-in basis)
Movement of total capital risk-weighted assets by risk type (all-in basis)

Page
Credit Quality
Loans and acceptances
Gross impaired loans
Provision for credit losses
Allowance for credit losses
Credit quality ratios

## Credit Risk Exposure

Credit risk exposure by geography and portfolio
Actual losses vs. estimated losses
Basel Pillar 3 back-testing (Internal ratings based)
Fair value of derivative instruments
Derivatives - Notional amounts
Derivatives - Related credit risk
Calculation of ROE and RORC
Key performance and Non-GAAP measures
Glossary
Sector definitions
俍 comparative amounts have been amended to conform to the current period's presentation.

## Changes in accounting policies

 and an adjustment to opening retained earnings on November 1, 2019. For further details on the impacts of the adoption of IFRS 16, including a description of our accounting policies, refer to Note 2 of our 2020 Annual Report.

## Capital Disclosure Requirements related to Basel III Pillar 3

 Basel III Pillar 3 report for all other Pillar 3 capital disclosures.

The Financial Stability Board's Enhanced Disclosure Task Force (EDTF) issued a report titled "Enhancing the Risk Disclosures of Banks" in October 2012. The following index lists the disclosure related to these recommendations contained in this document.

| Type of Risk | Recommendation | Disclosure | Page |
| :---: | :---: | :---: | :---: |
| Capital adequacy and risk-weighted assets | 11 | Flow statement of the movements in regulatory capital | 20 |
|  | 13 | Risk-weighted assets (RWA) by business segments | 21 |
|  | 16 | Movement of risk-weighted assets by risk type | 21 |
|  | 17 | Basel Pillar 3 back-testing | 32 |
| Credit risk | 26 | Bank's credit risk profile | 22-32 |
|  | 28 | Reconciliation of the opening and closing balances of impaired loans and impairment allowances during the year | 24,29 |
|  | 29 | Quantification of gross notional exposure for OTC derivatives or exchange-traded derivatives | 33 |

' PCL relates primarily to loans, acceptances and commitments and also to all other financial assets except for those classified or designated as FVTPL and equity securities designated as FVOCI.
Average common shares outstanding includes the impact of treasury shares held.
See 'Glossary' beginning on page 36 for explanation of composition of this measure.
This is a non-GAAP ratio. This measure does not have a standardized meaning under GAAP and might not be comparable to similar financial measures disclosed by other issuers. For further information, refer to the Non-GAAP measures section on page 36 .
\({ }^{5}\) These measures have been adjusted to exclude the change in fair value backing out policyholder liabilities.
\({ }^{6}\) Growth rates are calculated based on results in the same period a year ago.

\section*{ADJUSTED BASIS MEASURES
Net income available to common shareholders}

Adjustments
dd: After-tax effect of amortization of other intangibles
Net income available to common shareholders excluding the after-tax effect of amortization of other intangibles
dda: Dilutive impact of exchangeable shares
Net income available to common shareholders including dilutive impact of exchangeable shares

See 'Glossary' beginning on page 36 for explanation of composition of this measure.
Average loans and acceptances, net are reported net of allowance for credit losses (ACL). All other average balances are reported on a gross basis (before deducting ACL).
\({ }^{4}\) As at Q2 2022, average personal secured loans was \(\$ 19.5\) billion and average personal unsecured loans was \(\$ 20.0\) billion. The loans are secured by securities, residential real estate, automotive assets and government guarantees.
Commencing Q2 2021, certain loans are now classified as Retail - Small business and were previously classified as Wholesale, reflecting an alignment with capital measurement and reporting.
\({ }^{6}\) AUA represents period-end spot balances and includes securitized residential mortgages and credit card loans as at April 30,2022 of \(\$ 14\) billion and \(\$ 4\) billion, respectively (January 31,2022 of \(\$ 15\) billion and \(\$ 3\) billion; April 30 , 2021 of \(\$ 15\) billion and \(\$ 3\) billion).

Net earned premiums excludes the cost of premiums to other institutions for reinsurance coverage, plus segregated fund deposits.

 acquisition expense (PBCAE).
See 'Glossary' beginning on page 36 for explanation of composition of this measure
\({ }^{4}\) Premiums and deposits include premiums on risk-based insurance and annuity products, and individual and group segregated fund deposits, consistent with insurance industry practices.
The revenue impact of the change in fair value on investments backing policyholder liabilities is reflected in Insurance premiums, investment and fee income and largely offset in PBCAE.

\end{tabular}
\({ }^{1}\) Calculated using methods intended to approximate the average of the daily balances for the period, as applicable.
\({ }^{2}\) Average total loans are reported net of allowance for loan losses. Average retail and wholesale balances are reported on a gross basis (before deducting allowance for loan losses).
\({ }^{3}\) To be read in conjunction with the Segment pages.

\section*{Net income}
ther comprehensive income (loss), net of taxes
Net change in unrealized gains (losses) on debt securities
        and loans at fair value through other comprehensive income
        Net unrealized gains (losses) on debt securities and loans at FVOCI
        PCL recognized in profit or loss
        Reclassification of net losses (gains) on debt securities and loans at FVOCI to income

Foreign currency translation adjustments
Unrealized foreign currency translation gains (losses)
Net foreign currency translation gains (losses) from hedging activities
Reclassification of losses (gains) on foreign currency translation to income
Reclassification of losses (gains) on net investment hedging activities to income

Net change in cash flow hedges
Reclassification of losses (gains) on derivatives designated as cash flow through profit or loss

Items that will not be reclassified subsequently to income
Remeasurements of employee benefit plans
Net fair value change due to credit risk on financial liabilities designated as at FVTPL
Net gains (losses) on equity securities designated at FVOC

r further details, refer

\section*{Common Tier 1 (CET1) capital}

Opening amount
New capital issues
Redeemed capital
Gross dividends and distribution on other equity instruments, net of tax
Shares issued in lieu of dividends (add back)
Profit for the year (attributable to shareholders of parent company)
Removal of own credit spread (net of tax)
Movement in other comprehensive income
Currency translation differences (unrealized foreign currency translation gains/(losses), net of hedging activities)

Investments (unrealized gains (losses) on Investment securities)
Other
Goodwill and other intangible assets (deduction, net of related tax liability)
Other, including regulatory adjustments and transitional arrangements
Deferred tax assets that rely on future profitability
(excluding those arising from temporary differences)
Defined benefit pension fund assets (net of related tax liability)
Investment in common equity of deconsolidated subsidiaries \& other significant investments
Prudential valuation adjustments
Other \({ }^{2}\)

\section*{Closing amount}

\section*{Other 'non-core' Tier 1 (Additional Tier 1) capital}

New non-core Tier 1 (additional Tier 1) eligible capital issues
Redeemed capital
Other, including regulatory adjustments and transitional arrangements \({ }^{3}\)

\section*{Closing amount}

\section*{Total Tier 1 capita}

\section*{Tier 2 capital}

\section*{Opening amount}

New Tier 2 eligible capital issues
Redeemed capital
Amortization adjustments
Other, including regulatory adjustments and transitional arrangements \({ }^{4}\)

\footnotetext{
\({ }^{1}\) EAD for Standardized exposures are reported net of Stage 3 allowances and EAD for IRB exposures are reported gross of all allowances for credit loss and partial write-off as per regulatory definitions.
\({ }^{2}\) Counterparty credit risk EAD reflects exposure amounts after netting. Collateral is included in EAD for repo-style transactions to the extent allowed by regulatory guidelines
\({ }^{3}\) EAD for undrawn credit commitments and other off-balance sheet amounts are reported after the application of credit conversion factors.
Includes other off-balance sheet exposures such as letters of credit and guarantees.
6 Includes residential mortgages and home equity lines of credit
\({ }^{6}\) Includes residential mortgages and home equity lines of credit.
\({ }^{8}\) Commencing Q2 2021, certain loans have been prospectively reclassified from our Corporate to Other retail portfolio reflecting an alignment with capital measurement and reporting
\({ }^{9}\) Excludes securitization, banking book equities and other assets not subject to the standardized or Internal Ratings Based (IRB) approach as well as exposures from the Paycheck Protection Program instituted by the U.S. government in Q2 2020.

\({ }^{1}\) Actual loss reflects internal credit loss experience realized over a given period. Actual loss rate is the sum of PCL on impaired loans divided by average of loans and acceptances period end outstanding for the current and prior 3 -quarter period.
Estimated loss represents the expected loss calculated using the Basel III "through the cycle" parameters of PD \(\times\) LGD \(\times\) EAD, which is estimated based on available historical loss data for Advanced Internal Ratings Based (AIRB) exposures as of the prior 12 month period. Estimated loss rate
Average annual actual loss rate from fiscal 2003 through to the most recent full year. The information is updated on an annual basis and is based on consolidated results. The Average historical actual loss rate on a continuing operations basis is \(0.31 \%\)

\end{tabular}
\({ }^{4}\) Back-testing is performed to check the effectiveness of the models used to measure PD, LGD and EAD. Actual and Estimated percentages for Retail are as of the reporting quarter. Actual and Estimated percentages for Wholesale are reported on a one quarter lag.
5 There are several key differences under current Basel and IFRS 9 reporting rules which could lead to significantly different expected loss estimates for PD and LGD. Basel parameters reflect historical experience adjusted for periods of downturn whereas IFRS 9 parameters are based on forward-
looking macroeconomic scenarios. For further information refer to our 2021 Annual Report.
\({ }_{6}\) For Retail, EAD rate represents the utilization of the authorized credit limit. For Wholesale, EAD rate represents the utilization of the undrawn amount.

\footnotetext{
See 'Glossary' beginning on page 36 for explanation of composition
位/(over) attribution of capital is reported in Corporate Support.
}
\({ }^{3}\) We do not report ROE and RORC for Corporate Support as they are considered not meaningful.

Management measures and evaluates the performance of our consolidated operations and each of our segments based on variety of financial measures. In addition to generally accepted accounting principles (GAAP) prescribed measures, we use certain non-GAAP measures and key performance measures. We believe these measures provide useful information to investors regarding our financial condition and result of operations:
- Providing EPS excluding the dilutive impact of exchangeable shares enhances comparability as some institutions do not utilize such structures.
- The adjusted efficiency ratio is a useful measure as changes in the fair value of investments backing policyholder liabilities can lead to volatility in total revenue that could obscure trends in underlying business performance and reduce omparability with prior periods
Teb adjusted amounts are useful to illustrate the impact of tax-advantaged revenue sources in our Capital Markets business on our effective tax rate
- Measures which exclude the impact of the amortization or impairment of intangibles (excluding software) and goodwill enhances comparability as transaction specific intangible assets and/or goodwill can differ widely between organizations and impairments can give rise to volatility in a particular period.
For details, refer to the "How we measure and report our business segments" section of our Report to Shareholders. Readers are cautioned that non-GAAP measures do not have any standardized meanings prescribed by GAAP and therefore are unlikely to be comparable to similar measures disclosed by other companies.

\section*{Adjusted basis measures}

Adjusted basis measures such as adjusted net income available to common shareholders, adjusted diluted earnings per share (EPS) and adjusted ROE are calculated by adding back to net income the after-tax amount of amortization of intangibles (excluding amortization of software), any goodwill impairment, the dilutive impact of exchangeable shares, and other significant non-recurring items.

Adjusted efficiency ratio, operating leverage, Non-interest expense growth and revenue growth The ratio and calculations are adjusted to exclude specified items and the change in fair value backing our policyholder liabilities from revenue (adjusted total revenue) and revenue growth. Refer to 'Glossary' for the definition of the efficiency ratio, operating leverage, Non-interest expense growth and revenue growth. For further details on adjusted total revenue and adjusted efficiency ratio see our Report to Shareholders.

\section*{Effective tax rate (teb)}
and tax rate (teb) is calculated using the income tax expense for the period adjusted for the teb amount divided by the net income before tax for the period also adjusted for the teb amount. For teb, refer to Glossary section, following

\section*{Net income available to common shareholders excluding the after-tax effect of amortization of other intangibles} Net income available to common shareholders with the after-tax effect of amortization of other intangibles added back.

\section*{Return on Tangible Common Equity (ROTCE)}

Net income available to shareholders excluding the after-tax impact of amortization and write down
of other intangibles (excluding software) and goodwill divided by average tangible common equity.
ROTCE is based on actual balances of average tangible common equity before rounding.
angible common equity
Common equity excluding goodwill and other intangibles (excluding software) net of deferred tax.

\section*{lossary}

\section*{Capital charge}

Calculated by multiplying the cost of capital by the amount of average common equity. The cost of capital
is a proxy for the after-tax return that we estimate to be required by shareholders for the use of their capital.

\section*{Capital ratios}

Capital ratios are calculated using OSFI's CAR guideline.
Common equity
ommon equity includes common shares, common treasury shares, retained earnings and other components of equity.
Common Equity Tier 1 ratio
Common Equity Tier 1 (CET1) capital mainly consists of common shares, retained earnings and other components of equity and other items. Regulatory adjustments include deductions of goodwill and other intangibles, certain eferred tax assets, defined benefit pension fund assets, investments in banking, financial and insurance entities, eapita by risk-weighted assets, in accordance with OSFI's CAR guideline.

\section*{Diluted EPS}

Diluted EPS is net income attributable to common shareholders divided by the average diluted shares
outstanding. Both net income and number of shares outstanding have been adjusted for the impact
f exchangeable shares.
ividend payout ratio
Common dividends as a percentage of net income available to common shareholders.

Average earning assets, net earning assets include interest-bearing deposits with other banks, securities, net of applicable allowance, assets purchased under reverse repurchase agreements and securities borrowed, loans, net of allowance, cash collateral and margin deposits. Insurance assets, and all other assets not specified are excluded. The averages are based on the daily balances for the period.

\section*{Book value per share}

Common equity divided by Common shares outstanding.

\section*{Dividend yield}

Dividends per common share divided by the average of the high and low share prices in the relevant period.

\section*{Efficiency ratio}
on-interest expense as a percentage of total revenue. For adjusted efficiency ratio refer to the Non-GAAP measures on page 36 .

\section*{Goodwill and intangibles}

Goodwill represents the excess of the price paid for the business acquired over the fair value of the net dentifiable assets acquired. An intangible asset is an identifiable non-monetary asset without physical substance.

\section*{Insurance Assets}

Comprised of all assets related to the Insurance business.

\section*{Market capitalization}

End of period common shares outstanding multiplied by the closing common share price on the
Toronto Stock Exchange

\section*{Market price to book value}

Closing share price divided by book value per share.

\section*{Net impaired loans and acceptances}

Gross impaired loans and acceptances less the associated allowance for credit losses on impaired loans by portfolio.

Net interest margin (NIM) (average assets)
Net interest income as a percentage of total average assets.

\section*{Net interest margin (NIM) (average earning assets, net}

Net interest income as a percentage of total average earning assets, net.
NIM (total average assets) excluding trading assets, trading net interest income and insurance assets Net Interest Income less trading net interest income divided by total average assets less average trading and insurance assets.

\section*{Net write-offs}

Gross write-offs less recoveries of amounts previously written off.

\section*{Non-interest expense Growth}

The growth rate is calculated based on Non-interest expense in the same period a year ago. For adjusted Non-interest expense growth refer to the Non-GAAP measures on page 36.

\section*{Operating leverage}

The difference between our revenue growth rate and non-interest expense growth rate. For adjusted operating leverage ratio, refer to the Non-GAAP measures on page 36

\section*{Related loans and acceptances}

Loans gross of ACL plus acceptances gross of ACL.

\section*{Return on common equity (ROE)}

Business segment return on equity is calculated as net income available to common shareholders
divided by Average attributed capital for the period and using methods that are intended to approximate the average of the daily balances for the period. Corporate Support also include average unattributed capital. ROE is based on actual balances of average common equity before rounding

\section*{Return on risk capital (RORC)}

Net income available to common shareholders divided by average risk capital. Business segment
RORC is calculated as net income available to common shareholders divided by average risk capita for the period. RORC is based on actual balances of average common equity before rounding.

\section*{Return on risk-weighted assets}

Net income as a percentage of average risk-weighted assets

\section*{Revenue Growth}

The growth rate is calculated based on revenue in the same period a year ago. For adjusted revenue growth, refer to the Non-GAAP measures on page 36.

\section*{Risk capital}

Risk capital is attributed capital excluding goodwill and other intangibles.

\section*{Risk-weighted assets (RWA)}

RWA represents assets adjusted by a regulatory risk-weight factor to reflect the riskiness of on and off-balance sheet exposures. Certain assets are not risk-weighted, but deducted from capital. RWA calculation is defined by OSFI CAR guidelines. While the majority of our credit risk exposures are reported under the Basel III IRB Approach for regulatory capital purposes, certain portfolios continue to use the Basel III Standardized Approach (SA) for credit risk. For market risk RWA, we use both Internal Models-based and Standardized Approaches. We use the Standardized Approach for operational risk RWA.

\section*{Taxable equivalent basis (teb)}

Income from certain specified tax-advantaged sources is increased to a level that would make it comparable to income from taxable sources. There is an offsetting adjustment in the tax provision, thereby generating the same after-tax net income. We record teb adjustments in Capital Markets and record elimination adjustments in Corporate Support.

\section*{Total trading revenue}

Total trading revenue is comprised of trading related revenue recorded in Net interest income and Non-interest income.

\section*{Trading Assets}

Include Trading securities, Assets purchased under reverse repurchase agreements and securities borrowed and Derivatives.

\section*{Unattributed capital}

Unattributed capital represents common equity in excess of common equity attributed to our business segments and is reported in the Corporate Support segment.
n.a.

Not applicable.

\section*{Return on assets (ROA)}

Net income as a percentage of average assets.

\section*{Agriculture}

This sector group consists of: i) Agricultural Services and Wholesale, and ii) Farming (livestock, fishing, crops).

\section*{Automotive}

This sector group consists of: i) Automotive Captive Finance, ii) Automotive Manufacturers and Suppliers, and iii) Automotive Wholesale, Sales and Services.

\section*{Banking}

This sector group consists of: i) Personal and commercial banking institutions, ii) Credit unions, iii) Brokers and Dealers, iv) Consumer and Commercial Finance, and v) Credit intermediation activities.

\section*{Consumer discretionary}

This sector group consists of: i) Durable Consumer Goods, ii) Hotels, iii) Recreation, iv) Restaurants, v) Retail, and vi) Textiles \& Apparel.

\section*{Consumer staples}

This sector group consists of: i) Food and Beverage, ii) Medical Equipment, iii) Pharmaceuticals, and iv) Tobacco.

\section*{Oil and gas}

This sector group consists of: i) Oil \& Gas - Drilling and Services, ii) Oil \& Gas - Exploration and Production, iii) Oil and Gas - Integrated, and iv) Oil \& Gas - Refining, Marketing and Distribution.

\section*{Financial services}

This sector group is comprised of: i) Funds and Trusts, ii) Hedge Funds, and iii) Insurance.

\section*{Financing products}

This sector group consists of: i) Asset Backed Securities for Consumer Products (such as auto, cards, student loan
and others) and Commercial products (such as trade receivables), ii) Mortgage Backed Securities, iii) Collateralized Obligations, and iv) Other.

This sector includes liquidity lines and other exposures to RBC sponsored conduits issued by third parties.

\section*{Forest products}

This sector group consists of: i) Pulp, Paper and Sawmills, and ii) Wholesale Lumber and Construction Material.

\section*{Governments}

This sector group consists of: i) Federal Governments, ii) Central Banks, iii) Provincial Governments, iv) Municipal Governments, and v) Other Government Affiliated Entities.

\section*{Industrial products}

This sector group consists of: i) Building Materials, ii) Chemicals, iii) Glass, Rubber, and Plastics, iv) Heavy and Farm Equipment, v) Machinery and Equipment, vi) Metal Products, and vii) Paper and Packaging.

\section*{Information technology}

This sector group is consists of: i) Computer Hardware and Software, and ii) Communication Equipment and Semiconductors.

\section*{Investments}

This sector group consists of: i) High Net Worth Individuals, ii) Holding Companies, and iii) Conglomerates.

\section*{Mining and metals}

This sector group consists of: companies that mine metals such as i) Steel, ii) Gold, iii) Base Metals, and iv) Other mined commodities.

\section*{Public works and infrastructure}

This sector group consists of: i) Companies that build infrastructure which includes highways, bridges, tunnels, pipes, and sewer construction, and ii) Project Engineering Services Firms.

\section*{Real estate and related}

This sector group consists of: i) Agents and Services, ii) Commercial Real Estate, and iii) Contractors.

\section*{Other services}

This sector group consists of: i) Health Services, ii) Business Services, iii) Educational Services, iv) General Services, v) Non-Profit Organizations, and vi) Social Services.

\section*{Telecommunication and Media}

This sector group consists: of i) Media (radio, film, TV), ii) Publishing, and iii) Telecommunication and Cable.

\section*{Transportation}

This sector group consists of: i) Air Transport, ii) Ground Transport, iii) Marine Transport, and iv) Rail Transport.

\section*{Utilities}
\(\frac{\text { This sector group consists of: i) Electric Utilities, ii) Midstream, iii) Natural Gas Distribution, and iv) Pipelines. }}{\text { I }}\)

\section*{Other}

The Not Elsewhere Classified sector group includes i) Not Elsewhere Classified, and ii) Other.```
