What are the key risks that are specific to the Issuer?

Business and Economic Conditions: The Issuer's financial results are affected to varying degrees by the general business and economic conditions in the geographic regions in which the Issuer operates. These conditions may include factors such as: economic growth or contraction trends, consumer saving and spending habits, consumer and corporate borrowing and repayment patterns, unemployment rates, the differing economic trajectories among nations across the globe, global tensions and geopolitical uncertainty; the level of business investment and overall business sentiment; trade; the emergence of a new outbreak of a pandemic or other health crisis; the level of government spending as well as fiscal and monetary policy; the level of activity and volatility of the financial markets; disruptions to energy and other commodity markets; competitiveness; supply chain challenges and labour shortages; the evolution of elevated inflationary pressures; possible stagflation or deflation, monetary policies that are adopted by the Bank of Canada, the Federal Reserve in the U.S., the European Central Bank in the European Union, the Bank of England in the UK and monetary authorities in other jurisdictions in which the Issuer operates, and the fiscal policies of the governments of Canada, the U.S., Europe and such other jurisdictions. Such policies can also adversely affect the Issuer's clients and counterparties in Canada, the U.S. and internationally, which may increase the risk of default by such clients and counterparties. Moreover, interest rate changes and actions taken by central banks to manage inflation

or the broader economy have implications for the Issuer. The Issuer's financial results are sensitive to changes in interest rates, as described in the "Systemic Risk" section below. For example, a slowdown in economic growth or an economic downturn could adversely impact employment rates and household incomes, consumer spending, housing prices, corporate earnings and business investment and could adversely affect the Issuer's business, including, but not limited to, the demand for its loan and other products, and result in lower earnings and higher credit losses. In addition to risks arising from monetary policy tightening, risks are also emerging around how governments may continue to seek to recoup pandemic-related support, or any new support provided to deal with emerging economic challenges. This may include, for example, changes to tax policy to address fiscal capacity concerns and to balance budgets in the future.

There are also emerging risks related to wealth and income inequality, as well as changing demographics and immigration, which could impact the labour market, the housing market, inflation, demand and consumer trends, and potentially have broader societal and government policy implications.

Information Technology and Cyber Risks: Information technology risk, cyber risks and third-party risk remain top risks, not only for the financial services sector, but for other industries worldwide. Geopolitical tensions have increased the risk of nation state actors attacking critical infrastructure, including banks and critical third parties (e.g. utilities, telecom providers, etc.). Information technology risk is the risk associated with the use, ownership, operation and adoption of information systems that can result in business interruptions, client service disruptions and loss of confidential information causing financial loss, reputational damage and regulatory fines and penalties. Cybersecurity risk is the risk to the Issuer associated with cyberattacks initiated to disrupt or disable its operations or to expose or damage data. The Issuer continues to be subject to heightened inherent risk of cyberattacks, data breaches, cyber extortion and similar compromises, due to: (i) the size, scale, and global nature of its operations; (ii) its heavy reliance on the internet to conduct day-to-day business activities; (iii) its intricate technological infrastructure; and (iv) its reliance on third-party service providers.

Privacy, Data and Related Risks: The protection and responsible use of personal information are critical to maintaining the Issuer's clients' trust. Privacy risk is defined as the risk of improper creation or collection, use, disclosure, retention or destruction of personal information ("PI") that identifies an individual or can be reasonably used to identify an individual. PI includes the personal information entrusted to the Issuer by its clients and employees. Privacy risk includes the risk of failure to safeguard PI against unauthorized access or use. In addition, the management and governance of the Issuer's data also remains a top risk given the high value attributed to its data for the insights it can generate for clients and communities. Data management risk is the risk of failing to manage information appropriately throughout its lifecycle due to inadequate processes and controls, resulting in legal or regulatory consequences, reputational damage or financial loss. Resulting implications from failing to manage data and privacy risks could include financial loss, theft of intellectual property and/or confidential information, litigation, enhanced regulatory attention and penalties, as well as reputational damage. Effective privacy and information management practices continue to grow in importance, as demonstrated by the continued development of complex regulations in the jurisdictions in which the Issuer operates. Privacy and data related risks have also heightened as a result of the evolving threat landscape, and associated data breach risks.

Regulatory Changes: The ongoing introduction of new or revised regulations requires enhanced focus across the organization on meeting additional regulatory requirements across the multiple jurisdictions in which the Issuer operates. See business segment results on pages 32 to 57 of the 2023 MD&A and pages 12 to 22 of the Second Quarter 2024 MD&A incorporated by reference in the Base Prospectus for information on the Issuer's business segments and the jurisdictions in which it operates. Financial and other reforms that have been implemented or are being implemented, across multiple jurisdictions, such as digital, data and technology reforms, cyber security and anti-

money laundering regulations, interest rate benchmark and payments reform, as well as privacy, climate, sustainability and consumer protection regulatory initiatives, continue to impact the Issuer's operations and strategies and may negatively impact its financial performance, condition and prospects.

KEY INFORMATION ON THE SECURITIES

What are the main features of the securities?

The Notes are Index Linked Redemption due 9 May 2029, with International Securities Identification Number (ISIN) XS2993431209. The currency of this Series of Notes is Euro ("EUR"). The Notes have a minimum Specified Denomination of EUR 1,000, with a minimum trading size of EUR 1,000.

Transferability of the Notes: There are no restrictions on the free transferability of the Notes.

Status (Ranking): The Notes constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* without any preference among themselves and at least *pari passu* with all other present and future unsubordinated and unsecured obligations of the Issuer (including deposit liabilities), except as otherwise prescribed by law and subject to the exercise of bank resolution powers.

Taxation: All payments in respect of the Notes will be made free and clear of and without withholding or deduction for or on account of taxes, duties, assessments or governmental charges imposed by Canada, any province or territory or political subdivision thereof or any authority or agency therein or thereof having power to tax and the United Kingdom or any political subdivision thereof or any authority or agency therein or thereof having power to tax. In the event that any such withholding or deduction is made, the Issuer will, save in certain limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted and the Issuer may redeem the Notes early in such circumstances.

Negative pledge: The terms of the Notes will not contain a negative pledge provision.

Events of default: The terms of the Notes provide for events of default which are limited to (a) non-payment of interest or principal, in each case for more than 30 business days from the relevant due date; and (b) certain bankruptcy or insolvency events occurring in respect of the Issuer.

Meetings: The terms of the Notes will contain provisions for calling meetings of holders of such Notes and passing written resolutions and obtaining electronic consents, in each case in relation to matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting or by way of written resolution or electronically and holders who voted in a manner contrary to the majority.

Governing law: English law.

"Single Underlying Relevant Reference Performance" has the meaning given in the Base Prospectus

"Autocall Trigger Event" means if, on any Bonus Observation Date, the Single Underlying Relevant Reference Performance Level is equal to or greater than 100%, then an Autocall Trigger Event shall be deemed to have occurred and the Notes shall be redeemed on the relevant Payment Date at the Calculation Amount x 100%.

Bonus: Each Note pays the Bonus Amount (if any) on each Payment Date. The Bonus Amount is:

- (a) If a Bonus Barrier Event occurs in respect of the Bonus Observation Date, an amount (which may never be less than zero) calculated by the Calculation Agent equal to: (EUR 1,000 x 5.00% per cent. x N) – Paid Bonus; or
- (b) otherwise, zero.

“Paid Bonus” means the sum of all previous Bonus Amounts paid

“N” means in respect of a Payment Date, an integer corresponding to the number of Bonus Observation Dates from and excluding the Initial Valuation Date to and including the Bonus Observation Date immediately preceding such Payment Date

“Bonus Barrier Event” means, on the Bonus Observation Date, the Single Underlying Relevant Reference Performance Level is equal to or greater than its Bonus Barrier Level

“Bonus Barrier Level” means 50.00% of each Reference Item’s Initial Value

“Final Valuation Date” means 2 May 2029

“Initial Value” means 5,114.98

“Initial Valuation Date” means 24 April 2025

Bonus Observation Date	Payment Dates
4 May 2026	11 May 2026
3 May 2027	10 May 2027
2 May 2028	9 May 2028
2 May 2029	9 May 2029

Maturity: Subject to any purchase and cancellation or early redemption following an Autocall Event, each Note will be redeemed on 9 May 2029 at the Final Redemption Amount set out below.

“Final Level” means the Single Relevant Reference Performance Level on the Final Valuation Date

Final Redemption Amount:(a) If the Final Level is equal to or greater than its corresponding Put Barrier Level, the Final Redemption Amount shall be: Calculation Amount \times 100.00% (b) Otherwise, if the Final Level is less than its corresponding Put Barrier Level, then the Final Redemption Amount shall be calculated in accordance with the following formula: Calculation Amount \times (Final Level / Put Strike Level)

“Put Barrier Level” means 50.00% of each Reference Item’s Initial Value

“Put Strike Level” means 100.00% of each Reference Item’s Initial Value

Early Redemption: The Notes may be redeemed early for taxation reasons, illegality, or event of default, or on the occurrence of certain events (“**Benchmark Events**”) relating to the Reference Item or the administrator or sponsor (including without limitation material change; cancellation; prohibition of use; non-representativeness; or rejection, suspension or withdrawal of authorisation or registration) at the fair value of the Notes as determined by the Calculation Agent.

Adjustments: The terms of the Notes may be subject to adjustment as provided therein to take into account events in relation to the Reference Item or the Notes or the occurrence of a Benchmark Event.

Where will the securities be traded?

Application has been made by the Issuer (or on its behalf) for the Notes to be listed and admitted to trading on the SIX Swiss Exchange.

What are the key risks that are specific to the securities?

Risks associated with the Notes include the following:

Modification and waivers: holders of the Notes are exposed to the risk that their rights in respect of the Notes are varied against their will, which may result in an investment in any Notes becoming less advantageous to a particular holder depending on individual circumstances.

Secondary market: an active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Notes.

Exchange rate risk: if an investor holds Notes which are not denominated in the investor’s home currency, the investor will be exposed to movements in exchange rate adversely affecting the value of the holding of Notes. Also the imposition of exchange controls or certain other specified events in relation to the Notes could result in an investor not receiving payment on the Notes.

Credit ratings: Credit ratings assigned to the Issuer or the Notes might not reflect all the risks associated with an investment in the Notes.

Risks relating to Reference Item Linked Notes: an investor’s return (if any) will depend upon the performance of the Reference Item. An investment in the Notes entails significant risks that are not associated with similar investments in conventional debt or equity securities and in some circumstances the amount of interest payable on the Notes on an interest payment date may be zero and/or the value of the Notes and/or the amount paid at maturity may be less than the purchase price amount of the Notes and may be zero in which case an investor may lose some or all of the amount it invested in the Notes.

The Notes do not benefit from a protection amount: on the maturity date the amount payable in respect of the Notes may be less than the initial investment amount and purchasers of the Notes are exposed to full loss of their investment due to the lack of protection amount.

Cap on return: the maximum possible return on the Notes will be limited to principal amount of the Notes and the return will not increase even if the Reference Item outperforms the stated maximum return.

Market disruptions: the Calculation Agent may determine that a market disruption event or other adjustment event has occurred which may have an adverse effect on the value of or payment received with respect to the Notes and/or may delay applicable payments or settlement.

Risks relating to Index Linked Notes: the value of the Reference Item on any day will reflect the value of its constituents on such day. Changes in the composition of the Reference Item and factors which either affect or may affect the value of the constituents, will affect the value of the Reference Item and therefore may adversely affect the return on an investment in the Index Linked Notes.

Additional disruption events: if any of Change in Law, Hedging Disruption or Increased Cost of Hedging occur, the Notes will be subject to adjustment or may be redeemed early. The amount due on such redemption may be substantially less than an investor's investment and may in certain circumstances be zero.

KEY INFORMATION ON THE OFFER OF NOTES AND ADMISSION TO TRADING ON A REGULATED MARKET

Are the Notes being offered to the public as part of a Non-Exempt Offer?

The Notes are not being offered to the public as part of a Non-exempt Offer.

Under which conditions and timetable can I invest in this security?

Not applicable – the Notes are not being offered to the public as part of a Non-exempt Offer.

Application has been made by the Issuer (or on its behalf) for the Notes to be listed and admitted to trading on the SIX Swiss Exchange with effect from 9 May 2025.

Why is this prospectus being produced?

This summary has been produced to fulfil the listing requirements of the Swiss Federal Financial Services Act.

The net proceeds from the issue of Notes have been added to the general funds of the Issuer and used by the Issuer and/or its affiliates for hedging the Notes. The estimated net proceeds were EUR 13,877,000

The Issue Price may include a fee or commission payable to a distributor or third party. Such fee or commission would have been determined by reference to a number of factors including but not limited to the maturity date of the Notes, hedging costs and legal fees. Further details in respect of the fee or commission are available upon request.

Other than as mentioned above, so far as the Issuer is aware, no person involved in the offer of the Notes had an interest material to the offer.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”) without an up-to-date PRIIPS KID being in place with the prior written consent of RBC Capital Markets (Europe) GMBH and provided in accordance with the PRIIPS Regulation. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); or (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129. If the aforementioned consent of RBC Europe Limited has not been received then no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“**UK**”) without an up-to-date UK PRIIPS KID being in place with the prior written consent of RBC Capital Markets (Europe) GMBH and provided in accordance with the PRIIPS Regulation. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the EUWA; (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the UK Prospectus Regulation. If the aforementioned consent of RBC Europe Limited has not been received then no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

PROHIBITION OF OFFER TO PRIVATE CLIENTS IN SWITZERLAND - Other than for the duration of the listing of the Notes on SIX Swiss Exchange for which a key information document according to the Swiss Federal Financial Services Act (“**FinSA**”) or an equivalent document under FinSA has been prepared, the Notes are not intended to be offered or recommended to private clients within the meaning of FinSA in Switzerland. For these purposes, a private client means a person who is not one (or more) of the following: (i) a professional client as defined in Article 4(3) FinSA (not having opted-in on the basis of Article 5(5) FinSA) or Article 5(1) FinSA; or (ii) an institutional client as defined in Article 4(4) FinSA; or (iii) a private client with an asset management agreement according to Article 58(2) FinSA.

Ontario, Canada and the offices of the Issuing and Paying Agent, 160 Queen Victoria Street, London EC4V 4LA, England.

For the purposes hereof:

“UK Prospectus Regulation” means Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA;

“EUWA” means the European Union (Withdrawal) Act 2018, as amended; and

“FSMA” means the Financial Services and Markets Act 2000, as amended.

By investing in the Notes, each investor represents that:

(a) **Non-Reliance.** It is acting for its own account, and it has made its own independent decisions to invest in the Notes and as to whether the investment in the Notes is appropriate or proper for it based upon its own judgement and upon advice from such advisers as it has deemed necessary. It is not relying on any communication (written or oral) of the Issuer or any Dealer as investment advice or as a recommendation to invest in the Notes, it being understood that information and explanations related to the terms and conditions of the Notes shall not be considered to be investment advice or a recommendation to invest in the Notes. No communication (written or oral) received from the Issuer or any Dealer shall be deemed to be an assurance or guarantee as to the expected results of the investment in the Notes.

(b) **Assessment and Understanding.** It is capable of assessing the merits of and understanding (on its own behalf or through independent professional advice), and understands and accepts the terms and conditions and the risks of the investment in the Notes. It is also capable of assuming, and assumes, the risks of the investment in the Notes.

(c) **Status of Parties.** Neither the Issuer nor any Dealer is acting as fiduciary for or adviser to it in respect of the investment in the Notes.

PART B – OTHER INFORMATION

1. LISTING AND ADMISSION TO TRADING

Listing/Admission to trading:

Application has been made by the Issuer (or on its behalf) for the Notes to be listed and admitted to trading on the SIX Swiss Exchange with effect from 9 May 2025.

No assurances can be given that such application for listing and/or admission to trading will be granted (or, if granted, will be granted by 9 May 2025). The Issuer has no duty to maintain any admission to trading and/or listing of the Notes over their entire lifetime.

Notes admitted to trading and/or listed on the SIX Swiss Exchange may be suspended from trading in accordance with applicable rules and regulations of the SIX Swiss Exchange and in addition the Notes may be de-listed without any further action, if (i) the Issuer or any of its affiliates has prepaid, repaid, repurchased, redeemed or otherwise acquired or holds all the Notes of such Series and (ii) the Issuer has published or caused to be published a notice stating that such Notes have been de-listed with respect to the SIX Swiss Exchange.

II. SIGNIFICANT RISKS FOR INVESTORS

RISKS
<p>RBC Capital Markets (Europe) GMBH Taunusanlage 17, Frankfurt am Main Germany, 60325</p>

Product Risk	These Securities are capital at risk. This means there is a risk that you could lose your entire investment or part of it. These Securities are not guaranteed against losses by the Issuer, Dealer, their affiliates, the UK Financial Services Compensation Scheme or any equivalent European deposit guarantee scheme.
U.S. Withholding Tax on Dividend Equivalent Payments	The United States Internal Revenue Code of 1986, as amended, treats a “dividend equivalent” payment as a dividend from sources within the United States. Unless reduced by an applicable tax treaty with the United States, such payments generally would be subject to U.S. withholding tax of 30% if paid to a non-U.S. holder. A non-U.S. holder is a beneficial owner of a Note that, for U.S. federal income tax purposes, is a non-resident alien individual, a foreign corporation, or a foreign estate or trust. Under recently finalized U.S. Treasury Department regulations, payments on certain equity-linked instruments (including deemed payments) that are contingent upon or determined by Reference to actual or estimated U.S. source dividends, (regardless of whether such contingency or determination is explicitly stated or implicitly taken into account in computing one or more of the terms of such instruments) may be treated as dividend equivalents subject to withholding tax. Withholding tax will apply to dividend equivalent payments on Notes issued or materially modified on or after January 1, 2017. If any payments are treated as dividend equivalent subject to withholding, we (or the applicable paying agent) would be required to withhold taxes and would not be required to pay any additional amounts with respect to amounts so withheld. Prospective investors of the Notes should consult their own tax advisers regarding the application of the U.S. rules for withholding on dividend equivalents.
Issuer Risk	Investors bear the issuer risk. The Security’s value and the payment of any income or bonus amount (where one is payable) are dependent not only on the development of the Reference Item, but also on the creditworthiness of the Issuer, which may vary over the term of the Security. The ratings of the Issuer noted above reflect the independent opinion of the rating agencies as to the safety of payments of principal and interest. These ratings are not a guarantee of credit quality. The ratings do not take into consideration any risk associated with fluctuations in the market value of this Security, or where factors other than the Issuer’s credit quality determine the level of principal and interest payments.
Reference Item	<p>The value of the Security is linked to the Reference Item(s). The past performance of the Reference Item(s) is not an indication or guarantee of future performance. Any decision to invest in the Securities should not be based solely or primarily on the past performance of the Reference Item(s). The performance of the Reference Item(s) may be volatile and subject to unpredictable changes over the term of the Security. The investor should be prepared to assume this risk, including the potential risk of insolvency of the Reference Item(s) issuer(s). Fluctuations in price of the Reference Item(s) may result in the investor losing the entire investment or a substantial part of it.</p> <p>An investment in the Securities does not create a direct investment in the underlying Reference Item(s). Where the Reference Item(s) is an equity/basket of equities, the investor will not be eligible to receive dividend payments or any voting rights associated with a direct investment in the Reference Item(s).</p>
FX Risk	N/A
Liquidity Risk	The investor should be prepared to hold this Security until maturity should it not be called or terminated early, if such option exists, by the Issuer. The Dealer will, however, use its reasonable endeavours to provide liquidity to the Security (either directly or through an affiliate) but is not obliged to do so and may stop providing liquidity at any time without notice. This means an investor should not rely on having the ability to redeem the Security at a particular time or for a certain price. If the Security is redeemed early, the investor may get back less than the stated redemption amount. The Issue Price is not a direct reflection of the market value of the Security. The level at which the investor purchases the Security includes hedging costs and profits that the Dealer or its affiliates expect to incur or realize. The Issue Price may also include selling commissions paid by the Dealer to distributors and/or intermediaries. Any selling commissions, costs and profits will reduce the secondary market level, if any secondary

	market develops, for the Security. As a result, the investor may experience an immediate and substantial decline in the value of the Securities on the Issue Date.
Suitability	<p>This termsheet is provided for information purposes only and should not be used as the sole or primary basis of any investment decision. Transactions of a type described herein, may involve a high degree of risk and may not be suitable for all investors. Transactions in the Securities should not be undertaken unless the prospective investor understands and is capable of bearing all of the risks associated with an investment in the Securities. Before entering into any transaction, potential investors should take steps to ensure they understand the transaction and have assessed the appropriateness of the transaction in light of their own objectives and circumstances, including the possible risks, benefits and also the tax implications of entering into this proposed transaction. The information in this termsheet does not constitute financial, tax or legal advice and should not be used as a substitute for seeking professional advice. The Dealer is acting as an arm's length counterparty and not as an advisor or fiduciary. It is strongly recommended that potential investors consult their own professional advisers.</p> <p>Institutions referencing this termsheet or extracting information from this termsheet to provide to their clients should ensure that the information satisfies their local jurisdictional requirements and applicable securities laws for conducting business, including any applicable suitability and appropriateness assessment. Investments of a type described herein should only be sold to investors that have the necessary knowledge and experience to fully understand the related risks and are able to bear such risks.</p>
Conflicts of Interest Disclosure	RBC Capital Markets (Europe) GMBH ("RBCEG") forms part of a major banking group. It is therefore possible that RBCEG or one of its subsidiaries, or affiliates, or one of their officers, employees, representatives or agents (together "the Bank Group") or another client of the Bank Group may have interests, relationships and/or arrangements that give rise to conflicts of interest in relation to business that is transacted with you. Members of the Bank Group may perform a variety of roles in connection with the issuance. The Issuer, Dealer, or their affiliates may act as the Calculation Agent and may enter into positions in connection with the issuance. The Issuer, Dealer, or their affiliates may undertake hedging activity including trading in the Reference Item(s) or instruments related to the Reference Item(s), which may have an adverse impact on the value of the Securities. The Issuer, Dealer, or their affiliates may from time-to-time possess or have access to information concerning the Reference Item(s) and are under no obligation to disclose this information to investors. Any conflicts of interest will be managed in accordance with the Bank Group's established policies and procedures.
Tax Risk	An investment in the Securities may give rise to tax consequences. Any tax liability is dependent on the taxpayer's personal circumstances. The basis and level of any taxes may change during the term of the Security.
On-sale of Securities	It is strongly recommended that investors seek independent tax advice prior to an investment in the Securities. The Issuer, Dealer and members of the Bank Group do not provide tax advice. To the extent that any general information is provided with regard to tax, this is for information purposes only and should neither be construed as tax advice nor should it be relied on, or treated as a substitute for seeking independent tax advice.
Calculation of the Reference Index	N/A
Fees	The payment of any fee or commission by the Dealer is subject to the relevant regulatory requirements, including those applicable in the jurisdiction(s) that the Dealer and distributor operate in, as well as the jurisdiction(s) into which the Securities are distributed, if different. The Issue Price may include a fee or commission payable by the Dealer to a distributor or third party, such a fee or commission will be determined by a number of factors including but not limited to the maturity of the Security, hedging costs and legal fees. Any fee or commission received by the distributor or third party may be in addition to the fee normally charged by that party in connection with an

SALES RESTRICTION

EEA Retail Investor Offering Information

The Base Prospectus (as contemplated by the Final Terms of the Notes) has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area ("EEA") which has implemented Regulation (EU) 2017/1129 (the "Prospectus Regulation") will be made pursuant to an exemption under the Prospectus Regulation, as implemented in the Relevant State, from the requirement to publish a prospectus for offers of Notes. Accordingly, the Notes should not be sold or offered, directly or indirectly, to persons in any Relevant State except in circumstances which would not require the publication of a prospectus and any person making or intending to make an offer in that Relevant State of Notes should only do so in circumstances in which no obligation arises for the Issuer or RBC Capital Markets (Europe) GMBH to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation in relation to such offer. No recipient of this termsheet is authorized by any person to act in a way which would result in an offer to it being considered to be a placement through an intermediary for the purposes of the Prospectus Regulation.

UK Retail Investor Offering Information

The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK") without an up-to-date UK PRIIPS KID being in place with the prior written consent of RBC Capital Markets (Europe) GMBH and provided in accordance with the UK PRIIPS Regulation. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); or (ii) a customer within the meaning of provisions of the FSMA and any rules or regulations made under the Financial Services and Markets Act 2000 (the "FSMA") to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. If the aforementioned consent of RBC Capital Markets (Europe) GMBH has not been received then no key information document ("KID") required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Additional UK Offering Information

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Securities in circumstances in which Section 21(1) of the FSMA would not, if the Issuer was not an authorized person, apply to the Issuer; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Securities in, from or otherwise involving the United Kingdom.

US Offering Information

This termsheet is not an offer of securities for sale in the United States. The Notes have not been and will not be registered under the US Securities Act of 1933, as amended (the "Securities Act") or any state securities laws, and may not at any time be offered,

pledged, sold or otherwise transferred, directly or indirectly, in the United States or to, or for the account or benefit of, US Persons (as such term is defined in Regulation S under the Securities Act) unless registered under the Securities Act or pursuant to an exemption from such registration.

Swiss Offering Information

Each offeror of Notes represents and agrees that it has not made and will not make an offer of Notes to the public in Switzerland prior to the publication of a prospectus in relation to the Notes which has been approved by a Swiss prospectus office, all in accordance with the Swiss Federal Financial Services Act ("FinSA"), except that it may make an offer of such Notes to the public in Switzerland in any circumstances falling within the exemptions listed in article 36 para. 1 FinSA, provided that no such offer of Notes shall require the Issuer or any offeror to publish a prospectus pursuant to article 35 of the FinSA. The Issuer has neither authorized, nor does authorize any offer of Notes which would require the Issuer or any offeror to publish a prospectus pursuant to article 35 of the FinSA in respect of such offer. For the purposes of this provision, the expression "offer to the public" refers to the respective definitions in article 3 lit. g and h of the FinSA and as further detailed in the FinSO.

Canadian Offering Information

The Notes have not been and will not be qualified for sale under the securities laws of any province or territory of Canada. Each Dealer has represented and agreed that it has not offered, sold or distributed and will not offer, sell or distribute any securities, directly or indirectly, in Canada or to or for the benefit of any resident of Canada, other than in compliance with applicable securities laws. Each Dealer has also represented and agreed that it has not distributed or delivered and will not distribute or deliver this termsheet, or any other offering material in connection with any offering of the securities, in Canada other than in compliance with applicable securities laws.

Hong Kong Offering Information

WARNING

The contents of this termsheet have not been reviewed by any regulatory authority in Hong Kong or any other jurisdiction. You are advised to exercise caution in relation to the offer. You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type English law governed equity-linked notes / Return depends on the performance of the underlying / No capital protection against market risk

Term The product has a fixed term and will be due on 9 May 2029, subject to an early redemption.

Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

The product is designed to provide a return in the form of (1) conditional interest payments and (2) a cash payment on termination of the product. The timing and amount of these payments will depend on the performance of the **underlying**. If, at maturity, the **final reference level** of the **underlying** has fallen below the **barrier level**, the product may return less than the **product notional amount** or even zero.

Early termination following an autocall: The product will terminate prior to the **maturity date** if, on any **autocall observation date**, the **reference level** is at or above the **autocall barrier level**. On any such early termination, you will on the immediately following **autocall payment date** receive, in addition to any final interest payment, a cash payment equal to the autocall payment of EUR 1,000. No interest payments will be made on any date after such **autocall payment date**. The relevant dates are shown in the table(s) below.

Autocall observation dates	Autocall payment dates
4 May 2026	11 May 2026
3 May 2027	10 May 2027
2 May 2028	9 May 2028
2 May 2029	Maturity date

Interest: If the product has not terminated early, on each **interest payment date** you will receive an interest payment of EUR 40.50 together with any previously unpaid interest payments if the **reference level** is at or above the **interest barrier level** on the immediately preceding **interest observation date**. If this condition is not met, you will receive no interest payment on such **interest payment date**. The relevant dates are shown in the table(s) below.

Interest observation dates	Interest payment dates
4 May 2026	11 May 2026
3 May 2027	10 May 2027
2 May 2028	9 May 2028
2 May 2029	Maturity date

Termination on the maturity date: If the product has not terminated early, on the **maturity date** you will receive:

- if the **final reference level** is at or above the **barrier level**, a cash payment equal to EUR 1,000; or
- if the **final reference level** is below the **barrier level**, a cash payment directly linked to the performance of the **underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference level** divided by (B) the **strike level**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlying**, the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

Intended retail investor The product is intended to be offered to retail investors who fulfil all of the criteria below:

1. they have advanced knowledge and a comprehensive understanding of the product, its market and its specific risks and rewards, with relevant financial industry experience including either frequent trading or large holdings in products of a similar nature, risk and complexity, either independently or through professional advice;
2. they seek income, expect the movement in the underlying to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
3. they accept the risk that the issuer could fail to pay or perform its obligations under the product and they are able to bear a total loss of their investment; and
4. they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

2. What are the risks and what could I get in return?

Risk indicator

←-----→
Lower risk Higher risk

The risk indicator assumes you keep the product until 9 May 2029. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions are very unlikely to impact our capacity to pay you.

To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed or interest you may be paid under the investment.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		Until the product is called or matures	
		This may be different in each scenario and is indicated in the table	
Example investment:		EUR 10,000	
Scenarios		If you exit after 1 year	If you exit at call or maturity
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress (product ends after 4 years)	What you might get back after costs Average return each year	EUR 6,125 -38.75%	EUR 4,027 -20.38%
Unfavourable (product ends after 1 year)	What you might get back after costs Average return each year		EUR 10,563 5.65%
Moderate (product ends after 2 years)	What you might get back after costs Average return each year	EUR 10,512 5.12%	EUR 10,975 4.77%
Favourable (product ends after 4 years)	What you might get back after costs Average return each year	EUR 10,753 7.53%	EUR 11,797 4.23%

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the past performance of the **underlying** over a period of up to 5 years. In the case of an early redemption, it has been assumed that no reinvestment has occurred. The stress scenario shows what you might get back in extreme market circumstances. This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period, you may have to pay extra costs.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if the issuer is unable to pay out?

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not covered by any deposit protection scheme.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different investment periods.

The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- EUR 10,000 is invested
- a performance of the product that is consistent with each holding period shown.

	<i>If the product is called at the first possible date, on 11 May 2026</i>	<i>If the product reaches maturity</i>
Total costs	EUR 38	EUR 38
Annual cost impact*	0.40%	0.10% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 4.33% before costs and 4.23% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

	One-off costs upon entry or exit	If you exit after 1 year
Entry costs	0.38% of the amount you pay when entering this investment. These costs are already included in the price you pay.	EUR 38
Exit costs	0.51% of your investment before it is paid out to you. These costs are already included in the price you receive and are only incurred if you exit before maturity. If an early redemption occurs or if you hold the product until maturity, no exit costs will be incurred.	EUR 51

5. How long should I hold it and can I take money out early?

Recommended holding period: 4 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 9 May 2029 (maturity), although the product may terminate early.

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Six Swiss Exchange - Blue Chips Segment	Price quotation	Percentage
Smallest tradable unit	EUR 1,000		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: 100 Bishopsgate, London, EC2N 4AA, by email to: KID_Complaints@rbccm.com or at the following website: <https://www.rbcpiips.eu>.

Vous êtes sur le point d'acheter un produit qui n'est pas simple et qui peut être difficile à comprendre.

1. En quoi consiste ce produit?

Type Titres de créance régis par le droit anglais / Le rendement dépend de la performance de l'actif sous-jacent / Aucune protection du capital contre le risque de marché

Durée Le produit a une durée déterminée et sera échu le 9 mai 2029, à moins qu'un événement de remboursement par anticipation ne se produise.

Objectifs Le produit est conçu pour fournir un rendement sous forme (1) de paiements d'intérêts conditionnels et (2) d'un paiement à l'échéance. Le moment et le montant de ces paiements dépendront de la performance de l'actif sous-jacent.

Si, à l'échéance, le **niveau de référence final** de l'actif sous-jacent s'est déprécié(e) et est inférieur(e) au **niveau de barrière**, le montant de remboursement final pourrait être inférieur au **montant nominal du produit** ou même être égal à zéro.

Résiliation anticipée suite à un remboursement par anticipation: Le produit sera remboursé de façon anticipée avant la **date d'échéance** si, à une **date d'observation du remboursement par anticipation**, le **niveau de référence** est supérieur ou égal au **niveau de la barrière de remboursement par anticipation**. Lors d'une telle résiliation anticipée, vous recevrez à la **date de paiement du remboursement par anticipation** associée, en plus de tout paiement d'intérêts final, un paiement égal au paiement du remboursement par anticipation de 1 000 EUR. Aucun intérêt ne sera versé après cette **date de paiement du remboursement par anticipation**. Les dates mentionnées sont indiquée(s) dans les tableaux ci-dessous.

Dates d'observation du remboursement par anticipation	Dates de paiement du remboursement par anticipation
4 mai 2026	11 mai 2026
3 mai 2027	10 mai 2027
2 mai 2028	9 mai 2028
2 mai 2029	Date d'échéance

Intérêts: Si le produit n'a pas été remboursé de façon anticipée, à chaque **date de paiement d'intérêts**, vous recevrez un paiement d'intérêts de 40,50 EUR avec les paiements d'intérêts précédemment impayés si le **niveau de référence** est supérieur ou égal(e) au **niveau de la barrière d'intérêts** à la **date d'observation des intérêts** associée. Si cette condition n'est pas remplie, vous ne recevrez aucun intérêt à cette **date de paiement d'intérêts**. Les dates mentionnées sont indiquée(s) dans le(s) tableau(x) ci-dessous.

Dates d'observation d'intérêts	Dates de paiement d'intérêts
4 mai 2026	11 mai 2026
3 mai 2027	10 mai 2027
2 mai 2028	9 mai 2028
2 mai 2029	Date d'échéance

Remboursement à la date d'échéance: Si le produit n'a pas été remboursé par anticipation, à la **date d'échéance**, vous recevrez:

- si le **niveau de référence final** est supérieur ou égal au **niveau de la barrière**, un paiement égal à 1 000 EUR; ou
- si le **niveau de référence final** est inférieur au **niveau de la barrière**, un paiement directement lié à la performance de l'actif sous-jacent. Le paiement sera égal au (i) **montant nominal du produit** multiplié par (ii) (A) le **niveau de référence final** divisé par (B) le **niveau d'exercice**.

Selon les termes du produit, certaines dates spécifiées ci-dessus et ci-dessous seront ajustées si la date en question n'est pas un jour ouvré ou un jour de négociation (selon le cas). Tout ajustement peut affecter le rendement, le cas échéant, que vous recevrez.

Les termes du produit prévoient également que, si certains événements exceptionnels se produisent (1) des ajustements peuvent être apportés au produit et/ou (2) l'émetteur peut procéder au remboursement anticipé du produit. Ces événements sont spécifiés dans les modalités du produit et concernent principalement l'actif sous-jacent, le produit et l'émetteur. Le rendement (le cas échéant) que vous recevrez en cas de remboursement anticipé est susceptible d'être différent du rendement dans les scénarios décrits ci-dessus et peut être inférieur au montant que vous avez investi.

- Investisseurs de détail visés

Le produit est destiné à être offert aux investisseurs de détail qui remplissent tous les critères ci-dessous:

 - ils ont, soit indépendamment, soit par l'intermédiaire de conseils professionnels, des connaissances avancées et une compréhension complète du produit, de son marché et de ses risques et avantages spécifiques, ainsi qu'une expérience pertinente dans le secteur financier, y compris des opérations fréquentes ou des participations importantes dans des produits de nature, de risque et de complexité similaires;
 - ils recherchent le profit, s'attendent à ce que l'actif sous-jacent évolue de manière à générer un rendement favorable, disposent d'un horizon d'investissement correspondant à la période de détention recommandée ci-dessous et comprennent que le produit peut être remboursé de façon anticipée;
 - ils acceptent le risque que l'émetteur ne paie pas ou ne respecte pas ses obligations contractuelles liées au produit et sont en mesure de supporter une perte totale de leur investissement; et
 - ils sont prêts à accepter un niveau de risque pour obtenir des rendements potentiels qui est compatible avec l'indicateur synthétique de risque présenté ci-dessous.

Risque le plus faible

Risque le plus élevé

L'indicateur de risque part de l'hypothèse que vous conservez le produit jusqu'au 9 mai 2029. Le risque réel peut être très différent si vous optez pour une sortie avant échéance, et vous pourriez obtenir moins en retour. Vous risquez de ne pas pouvoir vendre facilement votre produit, ou de devoir le vendre à un prix qui influera sensiblement sur le montant que vous percevrez en retour.

L'indicateur synthétique de risque permet d'apprécier le niveau de risque de ce produit par rapport à d'autres. Il indique la probabilité que ce produit enregistre des pertes en cas de mouvements sur les marchés ou d'une impossibilité de notre part de vous payer.

Nous avons classé ce produit dans la classe de risque 4 sur 7, qui est une classe de risque moyenne. Autrement dit, les pertes potentielles liées aux futurs résultats du produit se situent à un niveau moyen et, si la situation venait à se détériorer sur les marchés, il est très peu probable que notre capacité à vous payer en soit affectée.

Si la devise du pays dans lequel vous achetez ce produit ou la devise de votre compte diffère de la devise du produit, veuillez faire attention au risque de change. Les sommes qui vous seront versées le seront dans une autre monnaie; votre gain final dépendra donc du taux de change entre les deux monnaies. Ce risque n'est pas pris en compte dans l'indicateur ci-dessus.

L'inflation érode la valeur d'achat de l'argent au fil du temps, ce qui peut provoquer la baisse en termes réels de tout capital remboursé ou de tout intérêt que vous pouvez recevoir dans le cadre de l'investissement.

Ce produit ne prévoyant pas de protection contre les aléas de marché, vous pourriez perdre tout ou partie de votre investissement.

Si nous ne sommes pas en mesure de vous verser les sommes dues, vous pouvez perdre l'intégralité de votre investissement.

Pour obtenir des informations détaillées sur tous les risques liés au produit, veuillez-vous reporter aux sections sur les risques dans le prospectus ainsi qu'aux suppléments éventuels y figurant, comme indiqué dans la section « Autres informations pertinentes » ci-dessous.

Ce que vous obtiendrez de ce produit dépend des performances futures du marché. L'évolution future du marché est aléatoire et ne peut être prédite avec précision.

Les scénarios présentés représentent des exemples basés sur les résultats du passé et sur certaines hypothèses. Les marchés pourraient évoluer très différemment à l'avenir.

Période de détention recommandée:		Jusqu'à ce que le produit soit remboursé par anticipation ou arrive à échéance	
		Ceci peut être différent selon le scénario et est indiqué dans le tableau	
Exemple d'investissement:		10 000 EUR	
Scénarios		Si vous sortez après 1 an	Si vous sortez suite à un remboursement par anticipation ou à l'échéance
Minimum	Il n'existe aucun rendement minimal garanti. Vous pourriez perdre tout ou une partie de votre investissement.		
Tensions	Ce que vous pourriez obtenir après déduction des coûts	6 272 EUR	3 981 EUR
(le produit est remboursé après 4 ans)	Rendement annuel moyen	-37,28%	-20,61%
Défavorable	Ce que vous pourriez obtenir après déduction des coûts		10 563 EUR
(le produit est remboursé après 1 an)	Rendement annuel moyen		5,65%
Intermédiaire	Ce que vous pourriez obtenir après déduction des coûts	10 497 EUR	10 975 EUR
(le produit est remboursé après 2 ans)	Rendement annuel moyen	4,97%	4,77%
Favorable	Ce que vous pourriez obtenir après déduction des coûts	10 781 EUR	11 797 EUR
(le produit est remboursé après 4 ans)	Rendement annuel moyen	7,81%	4,23%

Les scénarios favorable, intermédiaire, défavorable et de tensions représentent des résultats possibles basés sur des simulations utilisant la performance passée de l'actif sous-jacent pendant une période jusqu'à 5 années. En cas de remboursement anticipé, il a été supposé qu'aucun réinvestissement n'a été réalisé. Le scénario de tensions montre ce que vous pourriez obtenir dans des situations de marché extrêmes. Il n'est pas facile de sortir de ce produit. Si vous sortez de l'investissement avant la fin de période de détention recommandée vous pourriez subir des coûts supplémentaires.

Les chiffres indiqués comprennent tous les coûts du produit lui-même, mais pas nécessairement tous les frais dus à votre conseiller ou distributeur. Ces chiffres ne tiennent pas compte de votre situation fiscale personnelle, qui peut également influencer sur les montants que vous recevrez.

3. Que se passe-t-il si l'émetteur n'est pas en mesure d'effectuer les versements?

Vous êtes exposé au risque que l'émetteur ne soit pas en mesure d'honorer ses obligations concernant le produit, par exemple en cas de faillite ou de décision administrative de mesure de résolution. Cela peut avoir une incidence défavorable sur la valeur du produit et pourrait vous amener à perdre tout ou partie de votre investissement dans le produit. Le produit n'est pas couvert par un système de protection des dépôts.

4. Que va me coûter cet investissement?

Il se peut que la personne qui vous vend ce produit ou qui vous fournit des conseils à son sujet vous demande de payer des coûts supplémentaires. Si c'est le cas, cette personne vous informera au sujet de ces coûts et vous montrera l'incidence de ces coûts sur votre investissement.

Coûts au fil du temps Les tableaux présentent les montants prélevés sur votre investissement afin de couvrir les différents types de coûts. Ces montants dépendent du montant que vous investissez, du temps pendant lequel vous détenez le produit et du rendement du produit. Les montants indiqués ici sont des illustrations basées sur un exemple de montant d'investissement et différentes périodes d'investissement.

La durée de ce produit est aléatoire étant donné qu'il peut être résilié à différents moments selon l'évolution du marché. Les montants indiqués ici prennent en considération deux scénarios différents (remboursement anticipé et échéance). Dans le cas où vous choisissez de sortir avant la fin du produit, des coûts de sortie peuvent s'appliquer en plus des montants indiqués ici.

Nous avons supposé:

- que 10 000 EUR sont investis
- une performance du produit qui correspond à chaque période de détention présentée.

	Si le produit est remboursé par anticipation à la première date possible, le 11 mai 2026	Si le produit arrive à échéance
Coûts totaux	38 EUR	38 EUR
Incidence des coûts annuels*	0,40%	0,10% chaque année

*Ceci montre dans quelle mesure les coûts réduisent annuellement votre rendement au cours de la période de détention. Par exemple, ceci montre que si vous sortez à l'échéance, il est prévu que votre rendement moyen par an soit de 4,33% avant déduction des coûts et de 4,23% après cette déduction.

Il se peut que nous partagions les coûts avec la personne qui vous vend le produit afin de couvrir les services qu'elle vous fournit. Cette personne vous informera du montant.

Composition des coûts

	Coûts ponctuels à l'entrée ou à la sortie	Si vous sortez après 1 an
Coûts d'entrée	0,38% du montant que vous payez au moment de l'entrée dans l'investissement. Ces coûts sont déjà compris dans le prix que vous payez.	38 EUR
Coûts de sortie	0,51% de votre investissement avant qu'il ne vous soit payé. Ces coûts sont déjà compris dans le prix que vous recevrez et seront dus seulement si vous sortez avant échéance. Si un remboursement anticipé se produit ou que vous détenez le produit jusqu'à l'échéance, aucun coût de sortie ne sera dû.	51 EUR

5. Combien de temps dois-je le conserver, et puis-je retirer de l'argent de façon anticipée?

Période de détention recommandée: 4 ans

Le produit vise à vous fournir le rendement décrit dans la section « 1. En quoi consiste ce produit? » ci-dessus. Toutefois, cela ne s'applique que si le produit est détenu jusqu'à l'échéance. Il est donc recommandé que le produit soit conservé jusqu'au 9 mai 2029 (échéance), bien que le produit puisse être remboursé par anticipation.

Le produit ne garantit pas la possibilité de désinvestir autrement qu'en vendant le produit soit (1) via la bourse (si le produit est négocié en bourse), soit (2) hors-marché si une offre pour le produit existe. Sauf indication contraire dans les coûts de sortie (veuillez voir la section « 4. Que va me coûter cet investissement? » ci-dessous), l'émetteur n'appliquera pas de frais ou pénalités supplémentaires pour une telle opération. Des frais d'exécution peuvent toutefois être facturés par votre courtier, le cas échéant. En vendant le produit avant l'échéance, vous encourez le risque de recevoir un rendement inférieur à celui que vous auriez reçu si vous aviez conservé le produit jusqu'à l'échéance.
