Overview

Business Profile

Our Organisation

RBC Capital Markets (Europe) GmbH ("RBC EG" or "the Company") received permission from the Federal Financial Supervisory Authority ("BaFin") in accordance with § 32 (1) sentence 1 and (2) of the German Banking act (KWG) to provide banking and financial services on 22nd November 2018 as a Broker/Dealer.

The Company is licensed to provide investment services and ancillary services pursuant to § 15 (1) of the Securities Act (WpIG).

The Company is a wholly owned subsidiary by RBC Holdings (Germany) S.à r.l., and an indirect subsidiary of the Royal Bank of Canada ("RBC" or "the Group") based in Toronto, Canada.

Firm Classification

The Company is subject to the Investment Firm Regulation ("IFR") (EU) 2019/2033 and Directive ("IFD") (EU) 2019/2034 and has therefore been assessed as a medium Investment Firm under § 2 (17) of WpIG.

Furthermore, the Company is above the threshold for consideration as a small and non-interconnected investment firm and therefore the full IFR disclosure requirements under Part Six of the IFR are applicable.

Foreign Branches

As a result of the Company's affiliate UK bank RBC Europe Limited ("RBC EL") losing passporting rights effective 31st December 2020, the Capital Markets business activities carried out in the previous European branches of RBC EL in Frankfurt, Paris, Madrid, Amsterdam and Lausanne (representative office) were transferred to the registered regional branches and head office of the Company.

Business Lines

Building upon the establishment and growth of the Company's Frankfurt Investment Banking business since 2019, the Company has continued to increase the scale of trading activity in FY 2025.

Global Investment Banking

The Global Investment Banking team work in an advisory capacity with corporate and financial investor clients in pursuing, structuring and implementing Mergers & Acquisitions as well as debt and equity financing transactions. For debt and equity origination, revenue is allocated between Corporate and Investment Banking and Global Markets based on the contribution of each group in accordance with established agreements.

Augmenting the Company's existing Frankfurt team, the Investment Banking teams in France, Spain and the Netherlands transferred into the respective branches of the company effective 31st December 2020.

Global Markets

The Global Markets business provides execution, distribution and liquidity on EU equity and fixed income securities markets to RBC's client base. Complementing trade execution services, the business offers corporate access to support capital raising (organized meetings between issuers and investors) and research coverage of sectors and stocks.

Basis and Frequency of Disclosure

The aim of this document is to publish a set of disclosures which allow market participants to assess key information on the capital condition, risk exposures and risk assessment process. The information disclosed is prepared in accordance with the disclosure requirements set out in Part Six of the Investment Firm Regulation ("IFR") and the German Securities Institutions Act ("WpIG").

The disclosure requirements for investment firms are regulated in articles 46 to 53 of the IFR. According to Article 46 (1) of the IFR, the Company as an investment firm must disclose the information according to Articles 47 to 53 of the IFR on the same day as it publishes its annual financial statements. The information will be disclosed on an annual basis, as at its financial year end of 31 October and semi-annual basis including 30 April for Environmental Social Governance Disclosures.

These disclosures have been reviewed and approved by the Company's Management Board and published on the Company's public website: <https://www.rbc.com/regulatory-information/basel-disclosures.html#basel-iii-content>

Risk Governance

Accountability Structure

RBC Capital Markets (Europe) GMBH ('RBC EG' or the "Company ") is equipped with a clear and robust risk governance framework to ensure the management and mitigation of risk in addition to providing stakeholder assurance with regards to the risk landscape for the Company. The framework sets out the responsible parties tasked with the oversight and management of risk on behalf of the Company including any risk-related responsibilities delegated to management committees or otherwise.

Management Board

The Company operates by way of a two-tier structure comprising of the Management Board and the Supervisory Board.

The Management Board is responsible for the day-to-day management of the Company. The Management Board comprises of two Managing Directors; the Head of Business and Head of Functions respectively. Similar to the Supervisory Board, the Management Board is governed by its Rules of Procedure, the Articles of Association and the relevant regulatory and statutory provisions. Updates to the Rules of Procedure of the Management Board require a resolution of the Supervisory Board, therefore the ultimate responsibility for the allocation of the roles and responsibilities to the Management Board rests with the Supervisory Board. The Management Board meets monthly. It reports to the Supervisory Board on a quarterly basis in respect of key activity and for any items requiring positive advice and counsel.

The Management Board is accountable for the implementation of the risk control framework with the support of the Company risk function and ensures that the Company adheres to applicable regulatory, corporate and other legal requirements in respect of risk. The Management Board oversees and monitors risks applicable to the Company's business environment in addition to the capital and liquidity of the Company. The approval of risk limits, recovery plans, risk frameworks, risk appetite statements and Internal Capital Adequacy Assessment Process ("ICAAP") document is also the responsibility of the Management Board.

There are a number of management committees of the Company covering key functional areas including Risk Management, Finance and Tax, Compliance and AML, Business and Client Services, Outsourcing Management, Market Conformity, AWW Reporting and Policy Management established under the specific authority of the Head of Functions, RBC EG. These Committees meet regularly and escalate matters to the Management Board/Head of Functions as appropriate. Each management committee has a formal Terms of Reference establishing the membership and responsibilities, in addition to how each committee sits within the governance structure. The Company also falls within the remit of a number of wider Capital Markets Europe committees including (but not limited to) the Capital Markets Executive Committee, Global Markets Executive Committee, Asset and Liability Committee and New Business Committee.

Supervisory Board

The Supervisory Board is responsible for monitoring the activities of the Management Board in line with the applicable corporate and regulatory requirements. The Supervisory Board meets on a quarterly basis to consider reports from the Management Board in respect of topics including Business Performance, Financial Results, Risk, Compliance, Internal Audit, and Legal matters with one additional meeting following each fiscal year end to consider the performance and variable compensation to be awarded to the Management Board members in respect of the prior fiscal year. The Supervisory Board is governed by its regulatory and statutory provisions, its Articles of Association and its Rules of Procedure. The Rules of Procedure outline the roles and responsibilities of the Supervisory Board including its responsibility for oversight and monitoring of the activities of the Management Board.

The Supervisory Board is responsible for undertaking a regular review of the performance of the Management Board in addition to ensuring effective succession plans are established for the Management Board to maintain the appropriate balance of skills and experience within the Company.

The Supervisory Board is responsible for the oversight of the risk environment of the Company and ensures that an effective systems and controls framework is in place for business, risk and capital management. The Supervisory Board is responsible for providing oversight and challenge to the Management Board. The Supervisory Board receives quarterly risk reporting regarding the overall risk environment for the Company including information relating to any existing or emerging risks. Through the Company's governance structure, the Supervisory Board has a line-of-sight in respect of the key risks facing the Company in addition to the risk controls in operation across the Company. The Supervisory Board also monitors and assesses the effectiveness of controls against the regulatory expectations and seeks guidance from external sources where necessary in interpreting the local regulations. The Supervisory Board established a Risk Committee and a Remuneration Control Committee in 2023 in line with the provisions of Article

44 of Wertpapierinstitutsgesetz and uses these committees to provide detailed focus on key risk and remuneration considerations. The committees are chaired by members of the Supervisory Board and Board members attend the committee meetings.

Recruitment Policy for Board Members

As the Company is a wholly owned subsidiary within the RBC Group, the nomination and selection of Board members is undertaken in accordance with internal corporate governance practices, stated within RBC's Enterprise Policy on the Legal Governance of Subsidiaries (SGO Policy), as previously adopted by the Management Board and the Supervisory Board.

Selection Criteria / Process

Director selection is based on local applicable laws, regulations and rules, taking into consideration the skills, diversity, geographies and areas of expertise already represented on the Board. In addition to this, successful candidates undergo a robust background check, including inter alia, criminal, financial, regulatory checks and competency validation. The relevant background and professional experience of the Directors of both Boards are provided in Appendix 1. The director selection protocol and its objectives are detailed within the RBC Enterprise Governance of Subsidiaries Policy and is subject for review and adopted by the Management Board when it is updated.

Following consultation with the Supervisory Board Chair and upon receipt of positive advice and counsel from the Subsidiary Governance Office, the candidate is proposed to the respective Board for its consideration, and if deemed appropriate, approval. Board appointments are also approved by the shareholder, RBC Holdings (Germany) S.A.R.L. The proposal is also subject to a number of internal approvals in accordance with the SGO Policy.

Diversity forms a central focus in the director nomination and appointment process in reflecting RBC's core value, "Diversity & Inclusion". In accordance with Article 48 Regulation (EU) 2019/2033 (Investment Firm Regulations), a diversity policy regarding board selection for the Company was reviewed and approved by the Management Board in October 2022. The diversity policy reaffirms the Company's continued commitment in terms of recognising the significance of diversity within the Company and at the board level in fostering an inclusive and diverse culture and talent pool.

Risk Management

Overview

Risk Management is defined as all frameworks, processes, and controls enabling the management, monitoring and safeguarding of the Company's assets within its defined risk appetite.

The risk of financial and non-financial loss through business activities is inherent in all of the businesses conducted by the Company. For this reason, risk management is considered to be an intrinsic part of the strategy and capital planning processes.

Risk Management Framework

The Company's Enterprise Risk Management Framework ("ERMF") sets out the overarching arrangements for risk management, control and assurance within the Company. The ERMF is designed to provide a consistent and structured approach to identify, assess, measure, control, monitor and report on significant risks. The Company has adopted the ERMF through an addendum catering for its own local specificities.

The ERMF helps to ensure that risk is managed and controlled on behalf of internal and external stakeholders, including shareholders, customers, employees and regulators. Effective and efficient risk governance and oversight provide Management with assurance that the Company's business activities will not be excessively impacted by risks that could have been reasonably foreseen. This, in turn, reduces the uncertainty of achieving the Company's strategic objectives.

The Company's Risk Management begins with the adoption of the Enterprise Risk Frameworks (where possible) with local changes adopted in a local entity addendum. Where the scope of local changes in ensuring adherence to local requirements is significant, this will be incorporated into a Company specific policy. In the circumstance whereby an enterprise-wide policy document is deemed to be wholly applicable to the Company (and where no local, internal or regulatory requirements are identified or when they are deemed insignificant), the policy will be adopted by the Company with no specific customization. Risk Frameworks are approved by the Management Board on a regular basis.

The Company complies with the laws and regulations that govern its businesses in the jurisdictions in which it operates. The ERMF recognises that the Company is required to comply with a range of external risk governance requirements, including but not limited to:

- Bundesanstalt für Finanzdienstleistungsaufsicht ("BaFin") rules; and
- Office of the Superintendent of Financial Institutions ("OSFI") requirements as a subsidiary of a Canadian banking group.

Risk Principles

The Company applies the following general principles for its management of risk:

Principle	Description
Assess the impact of the risks arising from choosing and executing a strategy while effectively balancing risk and reward to enable sustainable growth	The Company balances risk and reward to capitalize on opportunities within its business strategy and risk appetite, avoiding excessive concentrations of risk through diversification and risk transfer, managing earnings volatility and ensuring the long-term viability and profitability of the organization
Collectively share the responsibility for risk management	While all employees are accountable for understanding and effectively managing the risks associated with their activities, the three lines of defence risk governance model clarifies organizational roles and responsibilities for risk management

Undertake only risks the Company understands and make thoughtful and future-focused risk decisions, taking environmental and social considerations into account	To create long-term value for the Company's shareholders, clients, employees, and communities, we exercise rigour in our risk assessments, analyze top and emerging risk factors, monitor evolving risk trends, ensure transparency in risk discussions, and improve processes and tools for simpler, better, and faster decision-making without exposing us to undue risks. Ultimately, decision-makers are expected to understand the risks they face, determine appropriate actions to mitigate those risks, and be able to explain the considerations and rationale for their decisions
Always uphold our Purpose and Vision and consistently abide by our Values, Code of Conduct as well as local laws and regulations to maintain our reputation and the trust of our clients, colleagues and communities	Guided by the Company's Collective Ambition, we champion good conduct and do business openly and fairly. We never compromise quality or integrity for growth. We adhere to the "Know Your Client" standards and ensure transparency and suitability of the products and services offered. We continue to educate ourselves and our clients on the risks and opportunities posed by evolving risk trends in support of our Purpose which is to help our clients thrive and communities prosper. We also strive to comply with all laws and regulatory requirements in the jurisdictions in which we operate, and support transactions and relationships with proper and complete documentation
Maintain a healthy and robust control environment to protect our stakeholders	To achieve the Company's operational and financial performance goals while maintaining our reputation and integrity, and operating within the parameters of applicable laws and regulations, and established risk appetite, we employ effective processes and controls and other resiliency practices to minimize harm from internal and external threats, avoid business interruptions, and ensure timely resolution of control issues
Use judgment and common sense	Policy Documents cannot cover all circumstances. Employees must act in an ethical manner, apply good judgment and common sense, and when in doubt, escalate appropriately via established escalation channels
Always be operationally prepared and financially resilient for a potential crisis	The Company strives to maintain effective protocols and escalation strategies to respond to all risks that we face, including geopolitical, regulatory, macroeconomic, market, environmental, social and governance (ESG) factors, and other stakeholder developments. This includes maintaining operational and financial resilience to operate effectively during, and following, a financial crisis or operational disruption. It is also critical to maintain agility and readiness to respond to all potential disruptors to the financial industry

Three Lines of Defence Model

The Company has implemented a robust system of monitoring, reporting and control based on the Three Lines of Defence model. This model details responsibility for risk management, control and assurance, and clarifies the segregation of duties between those who take on risk, those who control risk and those who provide assurance.

First Line of Defence – This is provided by the business and support functions embedded in the business. The First Line of Defence has the ownership and accountability for:

- Risk identification, assessment, mitigation, monitoring and reporting in accordance with the established Company's risk policies and Risk Appetite;
- Ensuring appropriate and adequate capabilities to manage risks relevant to the business; and
- Alignment of business and operational strategies with risk conduct and culture and risk appetite.

Second Line of Defence – This is provided by areas with independent oversight accountabilities residing in functions such as GRM, Group Compliance, and other areas within Control and Group Functions. The Second Line of Defence is accountable for:

- Establishing the Company's level risk management frameworks and providing risk guidance;
- Providing oversight for the effectiveness of First Line risk management practices;
- Monitoring and independently reporting on the level of risk against the established appetite measures and associated constraints; and
- The entity's monthly Risk Management Committee ("RMC") serves as the oversight forum of the Second Line of Defence across all risk management topics.

Third Line of Defence –The Third Line provides independent objective assurance on the effectiveness of risk management policies, processes and practices in all areas of the Company to the Management Board and inform the Supervisory Board. Further assurance is provided by the firm's external auditor, PricewaterhouseCoopers LLP (or one of its affiliates in Germany).

Risk Identification

The process of Risk Identification and assessment is intrinsic within the Company's pursuit of approved business strategies, and as part of the risk oversight responsibilities undertaken by the support functions outlined in this document. Risk Identification is embedded within a wide range of activities, including but not limited to:

- The approval of new products, transactions, client relationships, projects or initiatives;
- Business strategy development;
- ICAAP and Stress Testing;
- Monitoring and Reporting; and
- Ongoing assessment of Industry and Regulatory Developments.

The Company's assessment, identification, monitoring and escalation processes are continuously advancing in response to the environment in which it operates and the risks it is exposed to.

Risk Policy Management

The Company has implemented RBC policies and processes in the context of the Company's Risk Policy Management Requirements to support the assessment and management of risks. The Company's policies and controls review process is continuous to ensure continued effectiveness and alignment with relevant laws and regulations as they are issued. To ensure operation with integrity, the Company adheres to a number of other principles, codes and policies, including the RBC Code of Conduct which governs the behaviour of the Company's employees and informs how the Company conducts its business operations.

Where necessary, the Company adapts the Enterprise policies to ensure compliance with local legal and regulatory requirements and expectations.

The Head of Functions, RBC EG has the responsibility of ensuring these policies are consistent with:

- Regulatory requirements;
- Relevant RBC policies; and
- Higher and lower level policy documents within the risk policy architecture.

An inventory of the Company's Frameworks and policies (including the Risk Management Framework) is reviewed and refreshed annually, and approved by the Management Board

Risk Appetite

The Company's Risk Appetite is defined as the amount and type of risk that the Company is able and willing to accept in the pursuit of its business objectives.

The overall objective of the Company's Risk Appetite Framework is to protect the Company from unacceptable levels of risk while supporting and enabling the firm's overall business strategy and goals. The Framework is defined in the context of the RBC Enterprise Risk Appetite Framework and has been customised to cater to local requirements. It provides details on the Company's risk appetite principles, constraints and metrics and is reviewed and approved at least annually by the Management Board.

A comprehensive monthly risk appetite scorecard is presented to the Management Board which shows the monthly trend against the Board Approved Risk Appetite.

The Company's Risk Profile considers several internal and external risk and performance indicators including but not limited to Capital, Liquidity, Credit, Market and Operational Risk, Profitability, Market Based and Macroeconomic Indicators. This enables the Management Board to assess whether the entity Risk Profile remains within its risk tolerance.

Capital Planning

Capital Planning

The Company undertakes a regular Internal Capital Adequacy Assessment Process (“ICAAP”) to ensure that the business strategy and planning translate into adequate capital levels over internal and external minimum capital requirements, and identifies any periods where capital buffers could become tight so that corrective action can be undertaken in advance. This also includes reviewing the capital levels against risk appetite to ensure that the business strategy and planned capital levels remain in line with the Company’s risk appetite. The ICAAP includes both the Normative and Economic perspective, as required by regulation.

The capital plan is derived from the Company’s base case business plan and takes into account changes to business forecasts, market conditions and other developments, such as accounting or regulatory changes that may impact capital requirements.

The base case capital plan also forms the basis for stress testing analysis. Stressing the capital plans, enables the Company to test the strength of its capital base and also to consider mitigating actions in advance in order to maintain overall financial adequacy in periods of stress.

The capital plan is updated on a periodic basis to reflect actual operating results, updated Profit and Loss forecasts and any changes in business strategies.

The ICAAP is an annual process managed by RBC EG GRM with coordination assistance from the Enterprise Risk Management UK (ERM UK) team. RBC EG GRM team is supported by the business and functional teams which operate in or on behalf of RBC EG. Following the review of the Risk Management Committee, the ICAAP report is submitted to the Management Board for review, challenge and approval.

The Company’s approach to the identification, monitoring, reporting, and control of the risks that it faces (Risk Management) and the underlying systems put in place as defined within this disclosure, the RBC Enterprise Frameworks, policies and standards and where relevant, the Company’s specific addendums are deemed sufficient by the Management Board for its Risk Profile and Overall Strategy. The financial year ICAAP 2024 considered Operational, Credit, Market, Counterparty Credit and Settlement Risk in the normative perspective, while Operational, Credit and Market Risk were taken into account in the Economic perspective. The ICAAP concluded that the Company was sufficiently capitalised in both normal and adverse market conditions, as approved by the Management Board.

Own Funds

EU IF CC1.01 – Composition of Own Funds

As at 31 October 2025, the Company had total own funds of €162.1 million, which comprises of solely Common Equity Tier 1 Capital.

	Amounts (€ 000's)	Source based on reference numbers/letters of the balance sheet in the audited financial statements
Common Equity Tier 1 (CET1) Capital: Instruments and Reserves		
1 OWN FUNDS	162,142	
2 TIER 1 CAPITAL	162,142

Total	6,802,139	13,132

Fixed Overhead Requirements

As at 31 October 2025 the Fixed Overhead requirements are shown in the table below:

€ 000's	Amount
Fixed Overhead Requirement	27,578
Annual Fixed Overheads of the previous year after distribution of profits	110,311
Total expenses of the previous year after distribution of profits	158,893
of which: Fixed expenses incurred on behalf of the investment firms by third parties	-
(-)Total deductions	(48,582)
(-)Staff bonuses and other remuneration	(14,136)
(-)Employees', directors' and partners' shares in net profits	-
(-)Other discretionary payments of profits and variable remuneration	-
(-)Shared commission and fees payable	-
(-)Fees, brokerage and other charges paid to CCPs that are charged to customers	-
(-)Fees to tied agents	-
(-)Interest paid to customers on client money where this is at the firm's discretion	-
(-)Non-recurring expenses from non-ordinary activities	-
(-)Expenditures from taxes	-
(-)Losses from trading on own account in financial instruments	(33,813)
(-)Contract based profit and loss transfer agreements	-
(-)Expenditure on raw materials	-
(-)Payments into a fund for general banking risk	(633)
(-)Expenses related to items that have already been deducted from own funds	-
Projected fixed overheads of the current year	114,540
Variation of fixed overheads (%)	3.8%

K - Factors

Risk to Client

Risk to Client ("RtC") covers business areas of investment firms from which harm to clients can conceivably be generated in case of any unintended issues. The underlying k-factor requirements for RtC are stipulated as:

- Assets under Management ("K-AUM");
- Client money held ("K-CMH");
- Assets under safeguarding and administration ("K-ASA"); and
- Client Orders Handles ("K-COH")

As a broker dealer the Company does not engage in any business activities that generate RtC K-Factor requirements.

Risk to Firm

Risk to Firm ("RtF") captures an investment firm's exposure to the default of their trading counterparties ("K-TCD") in accordance with simplified provisions for counterparty credit risk based on Regulation (EU) No 575/2013, concentration risk in an investment firm's large exposures to specific counterparties based on the provisions of that Regulation that apply to large exposures in the trading book ("K-CON"), and operational risks from an investment firm's daily trading flow ("K-DTF").

The specific monitoring of transaction flow is shared with the Management Board as part of the Quarterly Reporting defined by MaRisk. Specific regulatory transaction monitoring as part of AML/Compliance requirements is shared separately from the Risk Management process. Earnings (NII) Risk: Earnings risk management seeks to manage the impact of changes in interest rates on accrual or reported NII. Limits and reporting use 100bp shocks, both up and down, over a 1 year-time horizon.

Trading Counterparties Default (K-TCD)

The Company defines credit risk as the risk of loss associated with a counterparty's potential inability or unwillingness to fulfil its on- and off-balance sheet payment obligations. Credit risk may arise directly from the risk of default of a primary obligor (e.g., issuer, debtor, borrower or policyholder), or indirectly from a secondary obligor (e.g., guarantor, reinsurance) and/or through off-balance sheet exposures, contingent credit risk and/or transactional risk. Trading counterparty default (TCD) risk only includes counterparty credit risk from trading book activities.

Governance and Framework

Credit risk exposures on trading activities are aggregated and reported to the Risk Management Committee ("RMC") on a monthly basis. It is also monitored daily through specific credit report and operational escalation processes should any breach occur.

Operational limit are also use to monitor and manage the credit exposure.

Each credit trading risk type is managed separately both as part of the RBC Group framework, and as part of a combined exposure metric specific to the Company.

Company Profile

The table below shows the TCD requirements for the Company as at 31st October 25.

€ 000's	K-factor requirement	Exposure value
Breakdown by method for determining the exposure value		
Application of IFR: K-TCD	266	13,790
Alternative approaches: Exposure value determined in accordance with CRR	-	-
SA-CCR	-	-
Simplified SA-CCR	-	-
Original exposure method	-	-
Alternative approaches: Full application of CRR framework	-	-
Memorandum item: CVA component	-	-
of which: calculated in accordance with CRR framework	-	-
Breakdown of exposure by counterparty type		
Central governments, central banks and public sector entities	-	-
Credit institutions and investment firms	264	13,769
Other counterparties	2	21

Concentration Risk (K-CON)

Concentration risk is defined as the risk of financial loss from the Company's portfolio being too highly correlated to a client or a group of connected clients.

Governance and Framework

Any exposures greater than the regulatory limit must be escalated to the Regulator in a timely manner. The Company maintains internal buffers to the regulatory limits and the exposure profile is monitored on a daily basis.

Concentration risk exposures are reported to the Risk Management Committee ("RMC") on a monthly basis.

Company Profile

The Company's risk appetite does not allow for any exposures over the regulatory limit and therefore there is no K-CON requirement as of 31st October 2025.

Daily Trading Flow (K-DTF)

Daily trading flow ('DTF') means the daily value of transactions that an investment firm enters through dealing on own account or the execution of orders on behalf of clients in its own name

Company Profile

As at 31st October 2025 the Daily Trading Flow is shown in the table below

€ 000's	Factor amount	K-factor Requirement
Daily trading flow - Cash trades	4,075,675	4,076
Daily trading flow - Derivative trades	2,726,465	273

Trading flow across all asset classes is monitored daily by the operations department and AML/Compliance, and on a quarterly basis as required by MaRisk BT 3.2.4 Risk Management provide the Management Board with specific trading flow information e.g. trading volume, cancellation rate etc.

Risk to Market

Market risk is defined as the risk of loss resulting from changes in market factors and the volatility of these factors. Market risk can be exacerbated by thinly-traded or illiquid markets.

The Company manages and monitors Risk to Market and specifically Market Risk through internal operational model metrics (VaR, SVaR and Historical Stress) and trading limits (CS01 and PV01) which are reported daily.

The Company considers market risk to fall into the following group-wide categories:

- Credit Spread Risk: The risk of loss due to the change in credit spreads on all financial instruments whose accounting fair value depends on credit spreads. This includes securities and fair value liabilities;
- Interest Rate Risk: The risk of loss resulting from changes in interest rates;
- Foreign Exchange Risk: The risk of loss resulting from changes in exchange rates;
- Equity Risk: The risk of loss resulting from changes in equity prices and indices;
- Commodity Risk: The risk of loss resulting from changes in commodity prices;
- Volatility risk: The risk of a change of price of a portfolio as a result of changes in the volatility of a risk factor; and
- Underwriting Risk: the risk of loss resulting from:
 - (i) the failure to place or sell a particular security or bond concurrent with a negative market or credit risk event; and
 - (ii) inadequate due diligence in connection with a securities offering.

Governance and Framework

Market Risk will be managed through the Company's Market Risk Framework which is governed and overseen by the Head of Functions. The Company is also subject to the RBC Group policies laid out in the RBC Group Market Risk Framework and standing orders.

Group Market Risk has implemented a daily process of reports for the business and senior management detailing the Company's exposure against limits, as well as monthly summaries and quarterly reports for the Risk Management Committee.

The Company's market risk appetite is set and reviewed by the Management Board. The Company will have a range of limits in place covering the risk measurement metrics noted above. All limits set by the Company will be consistent with the stated risk appetite. In addition to limits approved by the Management Board, exposures are also limited by the RBC Group limit structure.

Additional information is provided in the Company's Annual Accounts and Financial Statements.

Company Profile

As at 31st October 2025 the market risk requirement for the Company is shown in the table below

€ 000's	K-Factor Requirement
Total Standardised Approach3	8,518
Position risk	8,020
Equity instruments	-
Debt instruments	8,020
of which: securitisations	-
Particular approach for position risk in CIUs	-
Foreign Exchange Risk	498
Commodities Risk	-
Internal Model Approach	-
Total	8,518

Liquidity Risk

Definition

Liquidity risk is the risk that the Company is unable to generate or obtain sufficient liquidity in a cost-effective manner to meet contractual and contingent commitments as they fall due.

Liquidity Risk Profile

The Company's risk tolerance statement outlines that it ensures it can generate or obtain sufficient liquidity in a cost-effective manner to meet contractual and contingent commitments as they fall due under normal and extreme-but-plausible stressed conditions, as well as meeting regulatory expectations. This risk tolerance statement is articulated through a series of limits covering regulatory metrics. The Company's risk tolerance statement and risk appetite takes direction from RBC (the parent).

The Company provides investment services and brokerage activity for fixed income & equity cash products to a European client base. Key liquidity risks for the Company include failed trades where Group will ensure the Company's balance sheet is fully funded and intraday cash flow shortages which is mitigated via the Company and the Company's affiliate RBC EL entering into a related party pledge at its primary settlement agent.

The Company is comfortable with the level of liquidity risk within the entity and throughout the financial year the entity remained within regulatory limits.

Governance and Framework

Responsibility for managing liquidity risk resides with the Management Board. The Board ensures that effective governance arrangement and control frameworks are in place for liquidity risk, enabling it to be adequately overseen, assessed and managed. The role of the Board for liquidity risk, alongside monitoring and oversight of the liquidity position of the Company, includes approval of the:

- Liquidity Risk Framework; and
- Risk Appetite Statement and Metrics.

Corporate Treasury is responsible for all liquidity reporting, including ensuring completeness and accuracy of data. On a monthly basis an overview of management information is presented to the RMC, this is also presented to the Management Board on a quarterly basis.

Environmental Social Governance (ESG)

Risk Summary

Organisation

As an investment firm, RBC Capital Markets (Europe) GmbH ("RBC EG") is subject to the Investment Firm Regulation ("IFR") Article 53, requiring the disclosure of information on environmental, social and governance (ESG) risks, including climate-related physical and transitional risks.

Requirements are supplemented with further detail where relevant through the European Banking Authority ("EBA") Regulatory Technical Standards ("RTS") and Implementing Technical Standards ("ITS").

ESG Risk Summary

- Global Investment Banking (GIB): The GIB business is as described in the Business Profile section of the 2025 IFR disclosure. ESG risks for the GIB business are monitored and are determined to be low.
- Global Markets: The Global Markets business is as described in the Business Profile section of the 2025 IFR disclosure. ESG risks for the Global Markets business are monitored and are determined to be low.

The detail of this assessment is presented in the subsequent sections.

Basis and Frequency of Disclosure

This document provides information on RBC EG's ESG-related risks. The information will be disclosed on a biannual basis, as at its mid-year end of April and financial year end of October.

This disclosure has been reviewed and approved by the Company's Management Board and published on the Company's public website: <https://www.rbc.com/regulatory-information/basel-disclosures.html#basel-iii-content>.

Governance

The RBC Group Board and its Committees provide oversight of the bank's strategic approach to sustainability matters, including climate change. how RBC Group manages environmental and social ("E&S") risks, the enterprise approach to E&S risks, and how RBC Group conducts business to meet high standards of E&S responsibility. For further details on the RBC Group risk governance, refer to the Enterprise risk management – Risk governance section of the RBC Group Annual Report.

As a wholly owned subsidiary of RBC Group, RBC EG adopts RBC Group's risk management approach and has established local governance to oversee the management of Environmental, Social, and Governance (ESG) risks.

RBC EG's current governance framework has embedded the identification and management of risks to RBC EG's business at the Management Board, executive and management levels, including:

ESG Risk Reporting and Oversight

RBC EG Management Board	The Management Board has the overall responsibility for the supervision, governance, performance, and strategic direction of RBC EG. It holds responsibility for the oversight and management of risk within RBC EG. The Management Board receives quarterly information on financial and non-financial risks.
RBC EG Supervisory Board	The RBC EG Supervisory Board has delegated responsibility from the shareholders of RBC EG to supervise and advise the Managing Directors of the entity.

RBC EG Risk Management Committee (“RMC”)	The RMC is an executive management governance committee to enable the effective oversight and management of Risk and is established under the specific authority of the MD, Head of Functions (who is also Member of the Management Board). The RMC receives quarterly information on financial and non-financial ESG related risks.
--	--

ESG Strategy

As a wholly owned subsidiary of RBC Group, RBC EG falls within scope of RBC Group’s Sustainability strategy. Each year, the RBC Group reports on its sustainability performance providing detail on how RBC Group is creating value for its stakeholders managing its climate risks and opportunities. This annual Sustainability report and other related information are available on RBC Group’s Sustainability Reporting website at <https://www.rbc.com/our-impact/sustainability-reporting/index.html>.

Risk Management

As a wholly owned subsidiary of RBC Group, RBC EG falls within scope of the Group’s risk management approach. RBC Group’s approach to managing E&S risk seeks to integrate E&S risk considerations into its risk management approach. RBC Group manages E&S risk by leveraging existing policies and processes which govern RBC Group’s principal risks¹. RBC Group’s Enterprise Policy on Environmental and Social Risk (E&S Risk Policy)² supports these policies and processes by outlining its principles for E&S risk management and setting out standards for how E&S risks arising from its activities are identified, assessed, measured, managed, mitigated, monitored, and reported. RBC Group continues to evolve the approach to E&S risk by leveraging existing risk management capabilities, and building new capabilities where required, including for purposes of incorporating regulatory guidance, industry best practices and improved data analytics to identify, assess, measure, manage, monitor, and report on potential E&S impacts on clients, portfolios, and our operations. The integration and maturity of E&S risk management capabilities will continue to evolve and achieving a mature level of E&S risk management will be iterative and take time.

RBC EG uses the governance structure described in section 2 to consider ESG-related matters which have been identified within RBC EG as potentially relevant to RBC EG’s decision-making processes and strategic planning.

Please see page 109 of the Royal Bank of Canada: Annual Report 2025 for an overview of environmental and social risk management by RBC Group.

Environmental, Social, and Governance (ESG) Risks

Definitions

Environmental and social (E&S) risk is the risk of negative impacts in the short-, medium- or long-term on the company’s financial results, financial and operational resilience, reputation, business model or strategy resulting from E&S risk factors which can arise from RBC EG, a client or a third party. Because different stakeholders and communities may have divergent views on E&S issues, any actual or perceived action or inaction by RBC EG in the management of an E&S issue may be perceived negatively by at least some stakeholders and, as a result, may increase the entity’s E&S risks.

E&S risk factors include, but are not limited to, climate change, site contamination, waste management, land and resource use, biodiversity, water quality and availability, environmental regulation, human rights (including, but not limited to, Indigenous Peoples’ rights) and community engagement. E&S risks, are unique and transverse in nature and may impact principal risks in different ways and to varying degrees, including but not limited to strategic, operational, credit and compliance risks.

RBC Group defines **climate-related risk** as the potential negative impacts of climate change on the bank’s financial results, financial and operational resilience, reputation, business model or strategy.

¹ For further details on RBC’s Principal risk management, refer to the Principal risks section of the RBC Group Annual Report available at [rbc.com/investor-relations](https://www.rbc.com/investor-relations).

² Certain of RBC’s sustainability-related policies, commitments, targets and goals are not inclusive of the investment advisory or broker-dealer activities, or the assets under management by, RBC Global Asset Management (RBC GAM) or RBC Wealth Management.

Climate risk is categorized into transition risk and physical risk. Transition risk is defined as the risks related to the process of adjustment towards a low-carbon economy. These risks can emerge from current or future government policies, legislation, and regulation to limit carbon emissions as well as technological advancements, and changes in market and customer sentiment towards a low-carbon economy. Physical risk is defined to include the risks from the increasing severity and frequency of climate-related extremes and events (i.e., acute physical risks), longer-term gradual shifts of the climate (i.e., chronic physical risks) and indirect effects of climate change, such as public health implications (e.g., morbidity and mortality impacts).

Governance risk for this report only, RBC EG has adopted the EBA's definition of governance risks being the "risks of any negative financial impact on the institution stemming from the current or prospective impacts of governance factors on its counterparties or invested assets" (EBA/REP/2021/18, section 88 page 49).

High Climate-Sensitive Sectors

RBC EG has developed a climate risk approach to identify sectors that have a high sensitivity to climate risk. RBC EG has drawn on guidance from the Task Force for Climate Related Financial Disclosures (TCFD) and the Net Zero Banking Alliance (NZBA) to develop its climate risk framework. RBC EG maps its investment exposure and client revenue to high climate-sensitive sectors to monitor for high climate-sensitive exposure concentration.

Risk Identification & Assessment

RBC EG has defined a structured, qualitative and quantitative risk identification ("Risk ID") programme as outlined in the RBC EG Policy on Risk Identification. During the 2025 Risk ID exercise, RBC EG identified ESG Risk as a low risk.

ESG financial risks are assessed through the quarterly review of both RBC EG client flow and the entity risk taking holdings.

Climate-risk in focus – Transmission Channels Analysis

To understand the mechanisms for which climate-related risks can drive principal risks, RBC EG has conducted transmission channels analysis. Transmission channels are the causal chains that explain how climate risk drivers impact the business directly and indirectly through their counterparties, assets and the economies in which they operate.

RBC EG has created an inventory of its relevant transmission channels. The risk profile table includes a non-exhaustive description of those channels and how they drive principal risk to RBC EG.

Risk Profile

RBC EG has identified potential ESG risk as set out below. In all instances the relevant risks have been determined to be low.

Risk Driver	Function/ Business	Risk Description	Principal Risk	Metrics and Mitigants	Determined Risk
Environmental (including Climate physical and/or transition risk)	All RBC EG Businesses	Climate risks may lead to reduced corporate profitability for RBC EG clients which may adversely affect their demand for business with RBC EG.	Strategic/Reputational Risk	Concentration of RBC EG clients in businesses in high climate-sensitive sectors is reviewed quarterly.	Low
	RBC EG Global Markets	Climate risk may lead to issuer default where RBC EG and/or its clients hold climate-sensitive publicly traded securities.	Market Risk	Exposure to climate-sensitive securities is reviewed quarterly. A market decline scenario is performed and reviewed annually.	Low

	RBC EG Global Markets	Climate risk may lead to climate-sensitive counterparty resulting in a client not settling their trade.	Credit Risk	RBC EG works with a clearing house making the risk negligible.	Low
	RBC EG Reputation	RBC Group's brand and reputation are fundamental to earning the trust of clients, and a vital driver of success. RBC EG is exposed to reputational risk due to any perceived contribution by RBC Group to climate change and/or a lack of action to mitigate climate change.	Reputational Risk	RBC Group continues to monitor trends in climate-related litigation and regulatory enforcement actions, including those involving claims of "greenwashing", which generally refer to claims that false or misleading information about an organization's products or services or operations has been conveyed to suggest that the organization is doing more to protect the environment than it is, and to assess the impact on our litigation and regulatory compliance risks.	Low
	RBC EG Premises	RBC EG's offices are exposed to physical risk. Business Continuity risk exists where due to an extreme weather event, RBC EG is unable to continue essential business operations.	Operational Risk	A business continuity plan is in place in the event of an operations disruption.	Low
Social & Governance Risks	All RBC EG Businesses	Third party social and governance risks could pose potential reputational and/or litigation risk to RBC EG.	Reputational/Litigation Risk	RBC monitors for social and governance risks through third-party onboarding and ongoing due diligence processes.	Low

As regulatory frameworks and internal processes advance, RBC EG will continue to work to better understand how ESG risk could materialize across its businesses.

RBC EG has a regulatory scanning process in place for ESG risk with a standing agenda item for ESG for both its Risk Management Committee and the Management Board.

Remuneration

Overview

This remuneration disclosure relates to compensation practices within the Company, but the policies and processes may apply globally to the Group. An enhanced disclosure on RBC's enterprise-wide compensation practices can be found in the annual proxy statement, which is published on the external RBC website.

The disclosure is made in compliance with the reporting requirements under Art. 51 of the Investment Firm Regulation (the "IFR"). The final remuneration rules implementing the requirements under the Investment Firm Directive ("IFD") were published by the BaFin during 2024, and implemented under the Wertpapierinstituts-Vergütungsverordnung ("WpIVergV"). The WpIVergV rules governing the Remuneration Systems of Medium-Sized Investment Firms, including the payout and structuring of MRT variable compensation, applied for the 2025 fiscal year, and therefore the Company's 2025 year-end compensation was paid in accordance with these requirements.

Remuneration Policy and Governance

The Company has a remuneration committee (the "Remuneration Committee"), which was established during 2023, and is made up of members of the Company's Supervisory Board. The Remuneration Committee is responsible for the application of the compensation principles, practices and processes in relation to the Company Management Board (the "Management Board"), and makes recommendations for approval to the Supervisory Board. The Management Board continues to be responsible for, and oversees the application of the compensation principles, practices and processes in relation to the employees of the Company.

The Management Board and the Supervisory Board review and approve remuneration and severance policies on an annual basis. The policies were last reviewed and approved by the Management Board, Remuneration Committee, and Supervisory Board in 2025.

Principles of Compensation

Guided by the Group's vision of being among the world's most trusted and successful financial institutions and the Group's purpose of helping clients thrive and communities prosper, the Group and Company's approach to compensation, including executive compensation, is based on the five guiding principles set out below:

Compensation aligns with long-term shareholder interests

- Awards vary based on absolute and relative performance of RBC.
- Mid and long-term incentives vest and pay out over time, encouraging a longer-term view of increasing shareholder value.

Compensation aligns with sound risk management principles

- Our risk culture is reflected in our approach to compensation. Our compensation practices appropriately balance risk and reward, and align with shareholder interests.
- Performance of individuals, business segments and RBC overall is assessed on a number of measures, including adherence to risk management policies and guidelines.

Compensation rewards performance

- Our pay-for-performance approach rewards contributions of employees to individual, business segment and enterprise results relative to objectives that support the Group's business strategies for sustainable growth over short, medium and long-term horizons, which are aligned with our risk appetite.

Compensation enables the Company to attract, engage and retain talent

- Talented and engaged employees are essential to creating value for our clients and to building a sustainable future for RBC. We offer compensation that is competitive within the markets where we operate and compete for talent
- Compensation programs reward employees for high performance and their potential for future contributions.

Compensation rewards behaviours that align with RBC values and drive exceptional client experiences.

- RBC values, embedded in the Code of Conduct, form the foundation of the Group's culture and underpin the Group's ongoing commitment to put the needs of the Company's clients first and deliver value to all of the Company's stakeholders.
- Risk conduct and compliance with policies and procedures are considered in determining performance-based compensation.

Elements of Compensation

The employee package is made up of fixed remuneration and benefits (reward for fulfilling the job requirements) and incentive compensation designed to incentivise employees to demonstrate achievement in terms of results and behaviours, to reward them for that achievement, and to encourage them to remain with RBC.

Incentive compensation awards are adjusted downwards or clawback may be sought in cases where disciplinary action is taken for breaches of the RBC Code of Conduct.

Fixed Remuneration

All employees receive fixed remuneration, which is paid in the form of base salary which reflects the individual's market value, skills, qualifications, relevant experience, responsibility and contribution to the Company.

Fixed pay is typically only changed to reflect a change to the role or responsibilities of the recipient or market conditions.

Variable Remuneration

Employees are eligible to participate in discretionary performance-based incentive schemes in respect of their role with the Company.

Performance-based annual discretionary incentives may be awarded based on the performance of the Company, the business, and the individual as detailed below. Annual incentives may consist of a mix of cash and share-linked instruments. Annual incentives for employees of the Company are subject to a review by both the Management Board and Supervisory Board of the entity.

The amount of variable compensation to be awarded to employees is appropriately adjusted for risk. Key considerations that are taken into account in the risk adjustment process include financial measures such as revenue, Net Income After Tax, Economic Profit and regulatory capital and non-financial risk factors such as conduct and credit, market and operational risk exposure against risk appetite. Upon completion of the review, adjustments for risk may be recommended for consideration in the approval of final variable compensation.

For fiscal year 2025, The Management Board and Supervisory Board approved a maximum variable to fixed compensation ratio of 6:1, with employees in control functions subject to a maximum variable to fixed ratio of 0.5:1.

All compensation plans contain minimum compensation deferral requirements for Material Risk Takers in line with the WpIVergV rules, as well as compensation risk and performance adjustment processes. Deferral requirements vary by plan, and arrangements are typically based on the size of bonus, type of compensation plan and the individual's role.

At least 50% of variable compensation for MRTs is delivered in equity-linked awards, which include a post-vesting retention period of at least 12 months, in line with the provisions of the WpIVergV. For MRTs, deferred compensation will vest a third per annum over three years from the date of grant, in line with the WpIVergV rules.

Investment Banking and Global Markets employees participate in the Capital Markets Compensation Plan (the "Plan"). If certain thresholds are met, participants of the Plan receive part of their variable compensation as a deferred award, which consists of RBC Units and vests over a three-year period. Variable compensation is deferred in line with the Plan, and the amount of deferral increases with total bonus.

Control or Support Function staff are eligible to receive variable compensation under the terms of the General Discretionary Incentive Programme (the enterprise rules). Senior employees (Director and above) may receive a deferred award under the MTI Equity Program, which is awarded as RBC Units and has a cliff vest after 3 years.

Shareholding Requirement

Executives, and Managing Directors and above in Capital Markets are subject to the RBC Share Ownership Standard, which aligns with RBC's compensation principles and relevant regulatory guidelines.

Remuneration of control functions

RBC's enterprise Policy on Compensation Risk Management states that performance measures for senior employees responsible for financial and risk control activities will be based on the achievements and objectives of the functions, and their compensation will be determined independently from the performance of the specific business areas they support, therefore avoiding any potential conflicts of interest. Employees who fall under this arrangement include senior employees in Compliance, CFO Group, Group Risk Management, Internal Audit and Human Resources. Global Function Heads and/or the Function Operating Committee Members will continue to review and approve the individual performance of these employees against established objectives, which are independent of the performance of the business areas that they oversee. Remuneration for employees engaged in control functions is reviewed regularly for market alignment to ensure that remuneration levels are competitive.

The Link Between Pay and Performance

Variable compensation plans reward employees on the basis of a number of factors, including individual, business and enterprise results relative to established performance objectives that are aligned with the risk appetite of RBC. A significant portion of performance-based pay is deferred in the form of equity incentive awards (linked to RBC's share price) in order to align compensation with the risk time horizon and motivate employees to generate longer-term value for shareholders and remain accountable for decisions with long tail risk. To create a clear relationship between pay and performance, employees have an opportunity to earn higher compensation for outstanding performance, and conversely, earn less compensation when RBC, a business segment and/or individual performance falls below expectations.

Incentive awards take into account firm-wide, business unit and individual financial and non-financial factors. Financial factors include the performance of RBC, its global business segments and regional operating subsidiaries. Individual performance is assessed based on the employee's contribution to the overall performance of their business or function, the achievement of individual performance objectives and performance against the Group's Leadership Model and Code of Conduct. Where appropriate (e.g., where firm-wide or entity performance is weak or in a net loss position or in the case of a significant failure of risk management) bonus pools may be reduced to zero at the discretion of the RBC CEO, RBC Board of Directors, or the Management and Supervisory Boards of the Company.

When determining the size of the bonus pool, financial measures such as revenues, Net Income After Tax, the compensation ratio (total compensation as a percentage of revenues), regulatory and economic capital, and economic profit are considered depending on the plan and business area.

Non-financial measures considered in the discretionary bonus evaluation process include the following:

- Adherence to the RBC's Code of Conduct (the "Code of Conduct"). The Code of Conduct promotes standards of ethical behaviour that applies to all employees globally. The Code of Conduct fosters an open environment in which questions and concerns may be brought forward. It creates a frame of reference for dealing with sensitive and complex issues, and provides for accountability if standards of conduct are not upheld. All employees are expected to adhere to the Code of Conduct, and failure to do so through unethical or non-compliant behaviours may result in a disciplinary sanction up to and including immediate termination of employment. All employees receive Code of Conduct training and testing on joining RBC and every year thereafter;
- Compliance with a full range of risk management policies specific to individual job requirements as outlined in employee Performance Management Documents;
- Assessment of key behaviours, which are part of the RBC Global Performance Management process, and typically include the obligation to:
 - Abide by the letter and spirit of rules and procedures established by regulators
 - Follow all relevant internal policies and procedures including, but not limited to, trading and position limits and standing orders
 - At all times, act in the best interests of RBC and its clients
 - Escalate, on a timely basis, any areas of material concern related to any of the above
- Lead by example so that direct reports adopt similar high standards;
- Reports from control functions, including those from Internal Audit, Compliance (regulatory gaps, trades beyond excess limits), and Group Risk Management regarding operational, market and credit risks, among others; and

- Assessment of accountabilities and detailed action plans to implement and monitor changes required to close the gaps identified during risk management or internal audit reviews

Employees who are not meeting non-financial performance standards for their role are subject to the Company's corrective action process, which can include either a significant reduction in bonus amounts or termination of employment.

Furthermore, prior to vesting, Material Risk Takers' deferred compensation is subject to review under the Company's risk and performance adjustment process whereby actual risk and performance outcomes are reviewed and if materially different from assessments made when deferred compensation was granted, or if misconduct has occurred, then deferred compensation may be reduced or forfeited in full.

All bonus awards made to Material Risk Takers under the Company's variable compensation schemes are subject to forfeiture and clawback under the RBC Forfeiture and Clawback Policy for Material Risk Takers. A reduction may be applied, in summary, in cases of misconduct, a material failure of risk management or if there is a material downturn in financial performance. All variable compensation awards made to Material Risk Takers are subject to minimum clawback periods as required under the WpIVergV rules. Clawback can be applied in cases of misconduct or a material failure of risk management.

Guaranteed variable remuneration is only awarded in exceptional circumstances, such as senior control functions roles, business critical roles and strategic hires and then only for the first 12 months of employment.

The Company provides severance payments to fulfil its statutory obligations and to support the transition of employees away from their employment with RBC, in circumstances where there is an early termination of their employment.

In the 2025 fiscal year, the Company relied on the derogation under point (b) of Article 32(4) of Directive (EU) 2019/2034, in respect of three individuals, and to each of whom Sections 8 (3) to (6) and section 9 (2) of the WpIVergV rules therefore did not apply. The total remuneration for this population was €0.68M (€0.59m fixed remuneration and €0.09m variable remuneration).

Pay Equity

The Company is committed to the principles of pay equity and undertakes actions to prevent pay disparities between employees performing work of equal or comparable value. The Company addresses pay equity concerns identified in the year-end pay decision-making process through pay adjustments, where it is concluded that individual factors do not explain a difference in pay. Outside the annual compensation review process, RBC reviews compensation when employees move to new roles, taking into account external and internal pay benchmarks and the skills and experiences the new incumbent brings to the role.

Remuneration Tables¹

Table 1: Remuneration Awarded During Financial Year

EUR '000,000

Remuneration Amount	Senior Management	Other Risk Takers	Total

Board Membership

Current Supervisory and Management Board Members

Management Board			
Director	Role	Biography	Number of Directorships (excluding RBC EG)
Christian Karcher (Residency: Germany)	Management Board Chair	Mr. Karcher serves as Head of Capital Markets, Germany, and leads Investment Banking for Germany, Austria, and Switzerland (DACH) at RBC. Prior to joining RBC, he was Head of Investment Banking for Nomura in Germany and Austria, and a member of the management board of Nomura Bank (Deutschland). With extensive experience in senior management roles across the banking industry, Mr. Karcher previously held positions at Credit Suisse First Boston and Lehman Brothers Germany before its acquisition by Nomura in 2008. He holds a degree in General Management from the Otto Beisheim School of Management in Germany. Additionally, Mr. Karcher serves as Chair of the Supervisory Board of RBC Verwaltungsgesellschaft AG.	1 RBC Internal Directorship

Greig D'Cruz (Residency: Germany) (Appointed 1 November 2025)	Management Board Member	Mr D'Cruz serves as the Head of Functions for RBC EG and is a member of the EG Management Board. His responsibilities cover a diverse range of portfolios, including both Control and Operational functions, focused on supporting the entity in achieving its' strategic objectives whilst maintaining sound risk management arrangements/practices. This involves chairing several EG Management Committees through which he oversees both onshore and outsourced activities, whilst helping drive, where beneficial, regional/Enterprise alignment. Mr D'Cruz has over 20 years of industry experience across all three lines of defence, having held progressively senior banking roles in Australia, the UK, the USA, South Africa, Singapore and now Germany. Through these positions, and since joining RBC in 2016, he has developed a reputation for bringing thought leadership and pragmatic solutions to complex problems; building and leading high-performing, cross-regional teams; and supporting business leaders in navigating Regulatory and cost challenges. Mr D'Cruz graduated from the University of Melbourne with a Bachelor of Engineering (Civil) (First Class Honours) and a Bachelor of Commerce (Management) and is also a Certified Internal Auditor. These qualifications, combined with his diverse technical and global experience, underpin his strengths in providing balanced leadership and robust governance in challenging and evolving environments.	None
Jack Tang (Residency: Germany) (Resigned 31 October 2025)	Management Board Member	Mr Tang leads the back office and control functions for RBC EG, ensuring operational efficiency and robust governance. In this role, he chairs several underlying management committees, driving strategic alignment and risk management. Since joining RBC in 2005, Mr. Tang has held progressively senior roles across London, New York, Hong Kong, and Malaysia, gaining deep expertise in Market Risk, Product Control, Financial Control, Valuations, and Finance Management. His cross-functional experience underscores his ability to navigate complex financial operations. Mr Tang holds prestigious certifications, including CFA Charter holder, Certified Financial Risk Manager (FRM), and Chartered Global Management Accountant (CGMA). He also serves as a member of the Supervisory Board of RBC Verwaltungsgesellschaft AG, further highlighting his leadership in governance and oversight.	1 RBC Internal Directorship

Supervisory Board			
Director	Role	Biography	Number of Directorships (excluding RBC EG)
Manish Bhandari (Residency: USA)	Supervisory Board Member	Mr. Bhandari is the Chief Financial Officer for RBC Capital Markets. In his role he leads the global Finance teams globally for RBC Capital Markets, providing strategic counsel to the business and its senior leadership. His responsibilities include fostering a culture of robust financial controls, driving long-term value creation, and overseeing financial and performance management frameworks. He serves on both the Capital Markets and CFO Group Operating Committees. Additionally, Mr. Bhandari is a Director of RBC Capital Markets LLC and City National Bank. With over 20 years of experience in institutional and consumer banking, he has held cross-functional leadership roles spanning business, risk, and finance. Before joining RBC, he was Chief Financial Officer of MUFG Americas for the Wholesale Business (Banking, Markets, and Transactional Banking). Prior to this, he held progressively senior roles at Citigroup, including Chief Financial Officer of its Global Corporate and Investment Bank. Mr. Bhandari holds a Bachelor of Science in Petrochemical Engineering from the University of Pune, India, and an MBA from Thunderbird School of Global Management. His diverse background underscores his expertise in financial leadership and strategic execution.	2 RBC Internal Directorships
Christophe Coutte (Residency: UK) (Appointed 24 April 2025)	Supervisory Board Member	Mr Coutte serves as Head of Trading, Global Markets Europe at RBC Capital Markets (RBCCM), where he oversees trading and financing desks across the firm's full suite of Global Markets products. He holds key leadership roles, including membership on RBCCM's European Capital Markets Executive Committee, European Global Markets Executive and Operating Committees, and the RBC EG Supervisory Board. With over 30 years of industry experience, Mr Coutte has held senior trading positions across multiple products and geographies, including London, Singapore, and Paris. Prior to joining RBC, he served as Markets Head of Traded Products at Lloyds Bank. Earlier in his career, he held progressively senior roles at Société Générale, culminating in his appointment as Global Co-Head of FIC. He began his professional journey at Deutsche Bank as a Euro swaps trader.	None

Peter Dixon (Residency: UK)	Supervisory Board Chair	Based in London, Mr Dixon serves as Vice-President and Chief Financial Officer for RBC in Europe, leading the European CFO Group. His responsibilities span Financial Control, Legal Entity and Regulatory Reporting, Product Control, FP&A, Corporate Treasury, and Tax across RBC Capital Markets, RBC Wealth Management, and RBC Asset Management. In addition to his role as a director on the board of RBC Europe Limited, Mr Dixon holds directorships on the Boards of Brewin Dolphin Wealth Management Limited (Ireland), Brewin Dolphin Holdings Limited, and RBC Holdings (Channel Islands) Limited. He also chairs Royal Bank of Canada Holdings (U.K.) Limited and the Asset and Liability Committee for Europe. Additionally, he holds SMF 2 responsibilities for Royal Bank of Canada - London Branch, RBC Europe Limited, RBC Global Asset Management (UK) Limited and RBC Investor Service Trust. Beyond these roles, Mr Dixon is a member of the European Capital Markets Executive Committee and chairs the RBC Paris Branch Oversight Committee. Prior to joining RBC, he held senior finance positions in international investment banking organisations, with experience in jurisdictions such as the U.S., Canada, and Ireland. Mr Dixon is a qualified Chartered Accountant, bringing extensive expertise to his leadership at RBC.	6 RBC Internal Directorships
Simon Goodwin (Residency: UK)	Supervisory Board Member	Mr Goodwin is the Chair of the Supervisory Board Risk Committee. He oversees all compliance-related matters for RBC in Europe and APAC, ensuring adherence to regulatory standards and best practices. Simon has over 25 years of financial services experience and having joined RBC in 2022 brings extensive experience from senior compliance roles in investment banking. In addition, Mr. Goodwin is an active member of the RBC Paris Branch Oversight Committee, contributing to governance and risk management. He holds a BSc (Hons) degree from the University of Newcastle Upon Tyne and a FINRA Diploma in Capital Markets, Regulation, and Compliance, underscoring his expertise in financial regulation.	None

Malena Ljungkvist (Residency: UK)	Supervisory Board Member	Ms Ljungkvist serves as Chief Risk Officer (CRO) for Europe & Asia and Senior Vice President, Risk Management, Wealth Management & Insurance at RBC. She is a key member of the GRM Operating Committee, Wealth Management Operating Committee, and European Executive Committee, playing a critical role in shaping risk governance across the region. In her current role, Ms Ljungkvist oversees risk management for RBC's Wealth Management & Insurance business, as well as all business platforms in Europe and Asia. Her responsibilities include setting the strategic direction for risk management and leading the implementation of robust risk oversight and governance practices. Ms Ljungkvist joined RBC in 2004 and has held progressively senior roles, including Chief Operational Risk Officer for Investor and Treasury Services (I&TS). In this capacity, she led a global team to ensure consistent first-line-of-defense practices across all I&TS business lines, aligning them with RBC's risk management policies and frameworks. Her expertise spans counterparty credit, operational, liquidity, and market risk. Prior to RBC, she served as a Market Risk Manager at Commerzbank. She holds a degree in Accounting and Management and a Master's in Money, Banking, and Finance from Middlesex University. Throughout her tenure at RBC, she has contributed to governance as a Director on boards such as CMA Lux, IS Malaysia, and as a Trustee for RBC's UK Defined Benefit Pension Plan.	4 RBC Internal Directorships
Ayesha Patel (Residency: UK)	Supervisory Board Member	Ms Patel serves as Chief Operating Officer (COO) for RBC Capital Markets Europe, driving strategy execution, transformation, and operational excellence to enhance business performance across the region. In this role, she champions a "one-firm" approach, fostering collaboration and alignment across RBC's European segments. Ms Patel holds key governance positions, including Director of Brewin Dolphin Holdings Limited. She is deeply committed to Diversity & Inclusion (D&I), serving as Deputy Chair of the RBC Europe Diversity Leadership Council (DLC) and a member of the Global Capital Markets DLC. Her active involvement extends to community and employee engagement initiatives, reinforcing RBC's culture and values. Notably, she is RBC's Executive Sponsor for the Race at Work Charter, which the bank signed in 2021. She joined RBC in 2009 and has built a diverse career spanning Risk Management, Corporate Treasury, and Treasury & Market Services. Prior to her current role, she was Head of Product for Market Services within RBC Investor Services. She holds a Master of Engineering degree from the University of Bath, blending technical expertise with strategic leadership.	1 RBC Internal Directorship

IFR Disclosure Requirements

Section	Article	Paragraph	Requirements	Document Section
Scope	46	1	Investment firms that do not meet the conditions for qualifying as small and non-interconnected investment firms set out in Article 12(1) shall publicly disclose the information specified in this Part on the same date as they publish their annual financial statements.	Overview
		2	Investment firms that meet the conditions for qualifying as small and non-interconnected investment firms set out in Article 12(1) which issue Additional Tier 1 instruments shall publicly disclose the information set out in Articles 47, 49 and 50 on the same date as they publish their annual financial statements.	
		3	Where an investment firm no longer meets all the conditions for qualifying as a small and non-interconnected investment firm set out in Article 12(1), it shall publicly disclose the information set out in this Part as of the financial year following the financial year in which it ceased to meet those conditions.	
		4	Investment firms may determine the appropriate medium and location to comply effectively with the disclosure requirements referred to in paragraphs 1 and 2. All disclosures shall be provided in one medium or location, where possible. If the same or similar information is disclosed in two or more media, a reference to the synonymous information in the other media shall be included within each medium.	
Risk Management Objective and Policies	47		Investment firms shall disclose their risk management objectives and policies for each separate category of risk set out in Parts Three, Four and Five in accordance with Article 46, including a summary of the strategies and processes to manage those risks and a concise risk statement approved by the investment firm's management body succinctly describing the investment firm's overall risk profile associated with the business strategy.	Risk Management
Governance	48		Investment firms shall disclose the following information regarding internal governance arrangements, in accordance with Article 46: (a) the number of directorships held by members of the management body; (b) the policy on diversity with regard to the selection of members of the management body, its objectives and any relevant targets set out in that policy, and the extent to which those objectives and targets have been achieved; (c) whether or not the investment firm has set up a separate risk committee and the number of times the risk committee has met annually.	Risk Governance & Appendix
Own Funds	49	1	Investment firms shall disclose the following information regarding their own funds, in accordance with Article 46: (a) a full reconciliation of Common Equity Tier 1 items, Additional Tier 1 items, Tier 2 items and applicable filters and deductions applied to own funds of the investment firm and the balance sheet in the audited financial statements of the investment firm; (b) a description of the main features of the Common Equity Tier 1 and Additional Tier 1 instruments and Tier 2 instruments issued by the investment firm; (c) a description of all restrictions applied to the calculation of own funds in accordance with this Regulation and the instruments and deductions to which those restrictions apply.	Own Funds

		2	EBA, in consultation with ESMA, shall develop draft implementing technical standards to specify templates for disclosure under points (a), (b) and (c) of paragraph 1. EBA shall submit those draft implementing technical standards to the Commission by 26 June 2021. Power is conferred on the Commission to adopt the implementing technical standards referred to in the first subparagraph in accordance with Article 15 of Regulation (EU) No 1093/2010.	
Own Funds Requirements	50		Investment firms shall disclose the following information regarding their compliance with the requirements laid down in Article 11(1) of this Regulation and in Article 24 of Directive (EU) 2019/2034, in accordance with Article 46 of this Regulation: (a) a summary of the investment firm's approach to assessing the adequacy of its internal capital to support current and future activities; (b) upon a request from the competent authority, the result of the investment firm's internal capital adequacy assessment process, including the composition of the additional own funds based on the supervisory review process as referred to in point (a) of Article 39(2) of Directive (EU) 2019/2034; (c) the K-factor requirements calculated, in accordance with Article 15 of this Regulation, in aggregate form for RtM, RtF, and RtC, based on the sum of the applicable K-factors; and (d) the fixed overheads requirement determined in accordance with Article 13 of this Regulation.	Capital Requirements & K-Factors
Remuneration Policy and Practices	51		Investment firms shall disclose the following information regarding their remuneration policy and practices, including aspects related to gender neutrality and the gender pay gap, for those categories of staff whose professional activities have a material impact on investment firm's risk profile, in accordance with Article 46; (a) the most important design characteristics of the remuneration system, including the level of variable remuneration and criteria for awarding variable remuneration, payout in instruments policy, deferral policy and vesting criteria; (b) the ratios between fixed and variable remuneration set in accordance with Article 30(2) of Directive (EU) 2019/2034; (c) aggregated quantitative information on remuneration, broken down by senior management and members of staff whose actions have a material impact on the risk profile of the investment firm, indicating the following: (i) the amounts of remuneration awarded in the financial year, split into fixed remuneration, including a description of the fixed components, and variable remuneration, and the number of beneficiaries; (ii) the amounts and forms of awarded variable remuneration, split into cash, shares, share-linked instruments and other types separately for the part paid upfront and for the deferred part; (iii) the amounts of deferred remuneration awarded for previous performance periods, split into the amount due to vest in the financial year and the amount due to vest in subsequent years; (iv) the amount of deferred remuneration due to vest in the financial year that is paid out during the financial year, and that is reduced through performance adjustments; (v) the guaranteed variable remuneration awards during the financial year and the number of beneficiaries of those awards; (vi) the severance payments awarded in previous periods, that have been paid out during the financial year; (vii) the amounts of severance payments awarded during the financial year, split into paid upfront and deferred, the number of beneficiaries of those payments and the highest payment that has been awarded to a single person;	Remuneration

			(d) information on whether the investment firm benefits from a derogation laid down in Article 32(4) of Directive (EU) 2019/2034. For the purposes of point (d) of the first subparagraph, investment firms that benefit from such a derogation shall indicate whether that derogation was granted on the basis of point (a) or point (b) of Article 32(4) of Directive (EU) 2019/2034, or both. They shall also indicate for which of the remuneration principles they apply the derogation(s), the number of staff members who benefit from the derogation(s) and their total remuneration, split into fixed and variable remuneration. This Article shall be without prejudice to the provisions set out in Regulation (EU) 2016/679 of the European Parliament and of the Council (27).	
Investment Policy	52	1	Member States shall ensure that investment firms which do not meet the criteria referred to in point (a) of Article 32 (4) of Directive (EU) 2019/2034 disclose the following in accordance with Article 46 of this Regulation: (a) the proportion of voting rights attached to the shares held directly or indirectly by the investment firm, broken down by Member State and sector; (b) a complete description of voting behaviour in the general meetings of companies the shares of which are held in accordance with paragraph 2, an explanation of the votes, and the ratio of proposals put forward by the administrative or management body of the company which the investment firm has approved; and (c) an explanation of the use of proxy advisor firms; (d) the voting guidelines regarding the companies the shares of which are held in accordance with paragraph 2. The disclosure requirement referred to in point (b) of the first subparagraph shall not apply if the contractual arrangements of all shareholders represented by the investment firm at the shareholders' meeting do not authorise the investment firm to vote on their behalf unless express voting orders are given by the shareholders after receiving the meeting's agenda.	N/A
		2	The investment firm referred to in paragraph 1 shall comply with that paragraph only in respect of each company whose shares are admitted to trading on a regulated market and only in respect of those shares to which voting rights are attached, where the proportion of voting rights that the investment firm directly or indirectly holds exceeds the threshold of 5 % of all voting rights attached to the shares issued by the company. Voting rights shall be calculated on the basis of all shares to which voting rights are attached, even if the exercise of those voting rights is suspended.	
		3	EBA, in consultation with ESMA, shall develop draft regulatory technical standards to specify templates for disclosure under paragraph 1. EBA shall submit those draft regulatory technical standards to the Commission by 26 June 2021. Power is delegated to the Commission to supplement this Regulation by adopting the regulatory technical standards referred to in the first subparagraph in accordance with Article 10 to 14 of Regulation (EU) No 1093/2010.	
Environmental, Social and Governance Risks	53		From 26 December 2022, investment firms which do not meet the criteria referred to in Article 32(4) of Directive (EU) 2019/2034 shall disclose information on environmental, social and governance risks, including physical risks and transition risks, as defined in the report referred to in Article 35 of Directive (EU) 2019/2034. The information referred to in the first paragraph shall be disclosed once in the first year and biannually thereafter.	ESG

Liquidity	47	3	Investment firms shall disclose their risk management objectives and policies for each separate category of risk set out in Parts Three, Four and Five.	Liquidity Risk
Capital Planning	50a		Summary of the investment firm's approach to assessing the adequacy of its internal capital to support current and future activities.	Capital Planning
